FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

The President

Executive Order 12407 of February 22, 1983

Federal Regional Councils

By the authority vested in me as President by the Constitution and statutes of the United States of America, and in order to eliminate a mechanism for interagency and intergovernmental coordination which is no longer needed, it is hereby ordered that Executive Order No. 12314, establishing the Federal Regional Councils, is revoked.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 48, No. 38
Thursday, February 24, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 557]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period February 25–March 3, 1983. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION:

Findings

This rule has been reviewed under USDA procedures and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona navel orange crop for the benefit of producers and will not substantially affect costs for the directly regulated handlers.

This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendation and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the Act.

This action is consistent with the marketing policy for 1982–83. The marketing policy was recommended by the committee following discussion at a public meeting on September 21, 1982. The committee met again publicly on February 22, 1983 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navel oranges deemed advisable to be handled during the specified weeks. The committee reports the demand for navel oranges is easier.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the Act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 907

Marketing agreements and orders, California, Arizona, Oranges (navel).

PART 907—[AMENDED]

1. § 907.867 is added as follows:

§ 907.867 Navel orange regulation 557.

The quantities of navel oranges grown in California and Arizona which may be handled during the period February 25, 1983 through March 3, 1983, are established as follows:

(a) District 1: 1,300,000 cartons;
(b) District 2: Unlimited cartons;
(c) District 3: Unlimited cartons;
(d) District 4: Unlimited cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 22, 1983.

D. S. Kuryloski,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410–02–M

FEDERAL RESERVE SYSTEM

12 CFR Part 225

[Docket No. R–0456]

Regulation Y; Bank Holding Companies; Futures, Forward and Options Contracts on U.S. Government and Agency Securities and Money Market Instruments

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Amended policy statement.

SUMMARY: On August 21, 1980, the Board of Governors adopted a policy statement with respect to the use by bank holding companies of futures, forward and standby contracts on U.S. government and agency securities. The policy statement is being amended at this time, principally to request that bank holding companies furnish written notification to their District Federal Reserve Bank if such contract activities are undertaken by a parent bank holding company or a nonbank subsidiary. In addition, the policy statement is amended to clarify that it encompasses futures and options contracts on money market instruments, as well as U.S. government and agency securities, and exchange traded options contracts, as well as "standby" contracts.

EFFECTIVE DATE: March 1, 1983.

FOR FURTHER INFORMATION CONTACT: Robert S. Plotkin, Assistant Director, or Michael J. Schoenfeld, Senior Securities Regulation Analyst, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202–452–2781).

SUPPLEMENTARY INFORMATION: In March, 1980, the three federal bank regulatory agencies adopted revised guidelines for banks engaging in futures,

forward and standby contracts on U.S. government and agency securities.[1] After questions arose concerning the application of the joint bank policy statements to bank holding companies contemplating similar practices, the Board adopted a statement setting forth its policy with respect to bank holding company participation in forward placement or delayed delivery contracts and interest rate futures contracts (collectively referred to as "financial contracts"), pursuant to sections 5(b) and 8 of the Bank Holding Company Act (12 U.S.C. 1844 and 1847) and section 8(b) of the Financial Institutions Supervisory Act (12 U.S.C. 1818(b)).[2] Subsequent to the commencement of futures trading specifying delivery of domestic bank certificates of deposit, the Board issued a final interpretation to clarify that the financial contracts policy statement also applies to newer interest rate futures contracts which specify delivery of money market instruments, as well as government or agency securities.[3] Hence, this amended policy statement includes money market instruments in its title, and also reflects the fact that since the issuance of the policy statement, exchange trading has begun in options specifying delivery of debt securities, money market instruments, or futures contracts specifying delivery of debt securities.

The principal purpose of this amendment to the policy statement is to incorporate a revised paragraph (f), Federal Reserve Bank Notification. Revised paragraph (f) requests that bank holding company management notify the appropriate District Reserve Bank when the parent bank holding company or a nonbank subsidiary has begun to engage in financial contract transactions. Holding company systems already engaged in financial contract transactions are requested to notify the appropriate Federal Reserve Bank of the activity by March 31, 1983.

This notification is intended to aid District Reserve Banks in monitoring such activities. Since the federal bank regulatory agencies will begin to receive Supplemental Call Report data with respect to financial contract activities as of June 30, 1983, specific notification by State member banks does not appear necessary at this time.

[1] See 45 FR 16116 (March 20, 1980); 45 FR 16120 (March 20, 1980); Comptroller of the Currency, Banking Circular 79 (2nd Rev.).

[2] See 45 FR 61386 (September 17, 1980); 12 CFR 225.142.

[3] See 46 FR 46380 (September 18, 1981).

List of Subjects in 12 CFR Part 225

Banks, banking, Holding companies, Securities, Reporting and recordkeeping requirements.

PART 225—[AMENDED]

Accordingly, pursuant to sections 5(b) and 8 of the Bank Holding Company Act (12 U.S.C. 1844 and 1847) and section 8(b) of the Financial Institutions Supervisory Act (12 U.S.C. 1818(b)) the Board hereby amends its policy statement at 12 CFR § 225.142 to read in its entirety as follows:

§ 225.142 Statement of policy concerning bank holding companies engaging in futures, forward and options contracts on U.S. government and agency securities and money market instruments.

(a) *Purpose of Financial Contract Positions.* In supervising the activities of bank holding companies, the Board has adopted and continues to follow the principle that bank holding companies should serve as a source of strength for their subsidiary banks. Accordingly, the Board believes that any positions that bank holding companies or their nonbank subsidiaries take in financial contracts should reduce risk exposure, that is, not be speculative.

(b) *Establishment of Prudent Written Policies, Appropriate Limitations and Internal Controls and Audit Programs.* If the parent organization or nonbank subsidiary is taking or intends to take positions in financial contracts, that company's board of directors should approve prudent written policies and establish appropriate limitations to insure that financial contract activities are performed in a safe and sound manner with levels of activity reasonably related to the organization's business needs and capacity to fulfill obligations. In addition, internal controls and internal audit programs to monitor such activity should be established. The board of directors, a duly authorized committee thereof or the internal auditors should review periodically (at least monthly) all financial contract positions to insure conformity with such policies and limits. In order to determine the company's exposure, all open positions should be reviewed and market values determined at least monthly, or more often, depending on volume and magnitude of positions.

(c) *Formulating Policies and Recording Financial Contracts.* In formulating its policies and procedures, the parent holding company may consider the interest rate exposure of its nonbank subsidiaries, but not that of its bank subsidiaries. As a matter of policy, the Board believes that any financial contracts executed to reduce the interest rate exposure of a bank affiliate of a holding company should be reflected on the books and records of the bank affiliate (to the extent required by the bank policy statements), rather than on the books and records of the parent company. If a bank has an interest rate exposure that management believes requires hedging with financial contracts, the bank should be the direct beneficiary of any effort to reduce that exposure. The Board also believes that final responsibility for financial contract transactions for the account of each affiliated bank should reside with the management of that bank.

(d) *Accounting.* The joint bank policy statements of March 12, 1980 include accounting guidelines for banks that engage in financial contract activities. Since the Financial Accounting Standards Board is presently considering accounting standards for contract activities, no specific accounting requirements for financial contracts entered into by parent bank holding companies and nonbank subsidiaries are being mandated at this time. The Board expects to review further developments in this area.

(e) *Board to Monitor Bank Holding Company Transactions In Financial Contracts.* The Board intends to monitor closely bank holding company transactions in financial contracts to ensure that any such activity is consistent with maintaining a safe and sound banking system. In any cases where bank holding companies are found to be engaging in speculative practices, the Board is prepared to institute appropriate action under the Financial Institutions Supervisory Act of 1966, as amended.

(f) *Federal Reserve Bank Notification.* Bank holding companies should furnish written notification to their District Federal Reserve Bank within 10 days after financial contract activities are begun by the parent or a nonbank subsidiary. Holding companies in which the parent or a nonbank subsidiary currently engage in financial contract activity should furnish notice by March 31, 1983.

Board of Governors of the Federal Reserve System, February 17, 1983.

William W. Wiles,

Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 21

[Docket No. 19591; Amdt. No. 1 to Special Conditions No. 23-90-SO-3]

Special Conditions; Piper Aircraft Corporation Model PA-42 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions.

SUMMARY: This amendment to Special Conditions No. 23-90-SO-3 permits their application to Piper Aircraft Corporation Model PA-42-1000 airplanes as well as future Model PA-42 derivative airplanes. The FAA has determined that these Special Conditions originally developed for the Piper Model PA-42 airplane (Cheyenne III) are also applicable to other Piper Model PA-42 series airplanes. This amendment will allow future PA-42 derivative airplanes to be added to the type certification without revising the Special Condition document.

EFFECTIVE DATE: March 20, 1983.

FOR FURTHER INFORMATION CONTACT: William L. Olson, Aerospace Engineer, Aircraft Certification Division, Federal Aviation Administration, Room 1656, Federal Office Building, Kansas City, Missouri 64106; Telephone (816) 374-5688.

SUPPLEMENTARY INFORMATION:

Type Certification Basis

The certification basis for the Piper PA-42 series airplane is as follows: Part 23 of the Federal Aviation Regulations (FAR), effective February 1, 1965, through Amendment 23-16, effective February 14, 1975; Amendment 23-17 §§ 23.977 and 23.1385, effective February 1, 1977; Amendment 23-18, § 23.1145, effective May 2, 1977, Amendment 23-21 §§ 23.45, 23.49, 23.65, 23.67, 23.77, 23.1145, and 23.1581, effective March 1, 1978; Amendment 23-23, § 23.1545(a); Special Federal Aviation Regulation (SFAR) 23 paragraph 55, effective January 20, 1970; SFAR 27, effective February 1, 1974 through Amendment 27-1; Part 36 of the FAR effective December 1, 1969 through Amendment 36-6; Special Conditions No. 23-90-SO-3, Docket No. 19591, issued September 24, 1978 including Amendment 1; the FAA Southern Region Engineering and Manufacturing Branch letter dated August 7, 1980, showing the equivalent level of safety finding for § 23.201(e) of the FAR.

Background

On November 25, 1981, the Piper Aircraft Corporation, Piper Lakeland Division, Lakeland, Florida 33803, submitted an application to amend Type Certificate A23SO to add a new Model PA-42-1000 airplane in the normal category. The Piper PA-42 series are pressurized, low-wing, T-tail, twin-turbopropeller-engine airplanes with a seating capacity of 10 including two crewmembers. The Piper Model PA-42 airplane for which Special Conditions No. 23-90-SO-3 were developed is powered with two 720 horsepower engines, has a maximum operating altitude of 33,000 feet, and a maximum gross weight of 11,200 pounds. The Piper Model PA-42-1000 airplane will be powered with two 1000-horsepower engines, have a maximum operating altitude of 41,000 feet, and a maximum gross weight of 11,950 pounds.

Because the PA-42 airplane design included turbopropeller engines and the regulations incorporated by reference in the type certification (TC) did not contain adequate or appropriate safety standards, Special Conditions No. 23-90-SO-3 were developed for the Piper Model PA-42 airplane to ensure a level of safety equivalent to that provided by Part 3 of the CAR and Part 23 of the FAR. Special Conditions No. 23-90-SO-3, Docket No. 19591 issued September 24, 1979, for type certification of the Piper Model PA-42 airplane are applicable to the Piper Model PA-42-1000 airplane as well as other new Piper PA-42 Series airplanes for the same novel or unusual design features for which the Special Conditions were developed. Accordingly, this amendment proposes to extend the applicability status of Special Conditions No. 23-90-SO-3 to all Piper PA-42 series airplanes, as appropriate, to Type Certificate A23SO without revising the Special Condition documents. This does not preclude the application of later amendments under the provisions of § 21.101(b)(1) or the issuance of Special Conditions that may be necessary under the provisions of § 21.101(b)(2) for future series of the Piper Model PA-42 airplanes.

The applicant and other interested persons have been given an opportunity to participate in the making of these Special Conditions. Notice No. SC-82-6-CE was published in the **Federal Register** on January 13, 1983, and no comments were received during the comment period.

Under rulemaking procedures, substantive rules are required to be published in the **Federal Register** 30 days before the effective date unless good cause exists for making the rule effective in less than 30 days and such cause is published with the rule. The airplane manufacturer has advised the FAA that its projected date for type certification of the Model PA-42-1000 airplane is March 20, 1983. Any delay beyond that projected date would have a serious impact on the company's production schedule and would delay the recall of employees who have been laid off from its Lakeland, Florida, factory. Accordingly, based on the foregoing, the FAA has determined that good cause exists for making this amendment effective in less than 30 days.

Aviation safety, Aircraft, Air transportation and Safety.

Special Condition Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Special Condition No. 23-90-SO-3 issued September 24, 1979, to Piper Aircraft Corporation for the type certification of the Piper Model PA-42 airplane under Type Certificate No. A23SO is hereby amended by amending its applicability to read as follows:

"Special Conditions for the type certification of the Piper Model PA-42 series airplanes under Type Certificate A23SO."

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and §§ 11.28 and 11.29(b), Federal Aviation Regulations (14 CFR 11.28 and 11.29(b)).

Issued in Kansas City, Missouri, on February 18, 1983.

John E. Shaw,

Acting Director, Central Region.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 82-NM-62-AD; Amdt. 39-4570]

Airworthiness Directives; Boeing Model 727 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness Directive (AD) which requires inspection and repair, if necessary, of the wing spar terminal fitting. The AD is prompted by numerous reports of fatigue cracks in the wing rear spar terminal fitting. Failure to detect cracks prior to reaching critical length

may severely reduce the load carrying capability of the wing.

DATE: Effective March 31, 1983.

ADDRESSES: The applicable service bulletins may be obtained upon request from the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. This information also may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Don Gonder, Airframe Branch, ANM,-120S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 767-2516. Mailing Address: Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an AD requiring the inspection and repair, as necessary, of the wing rear spar terminal fittings on certain Boeing Model 727 series airplanes was published in the **Federal Register** on September 16, 1982 (47 FR 40808). The comment period for the proposal closed on October 29, 1982.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to all comments received.

The Air Transport Association of America (ATA) commenting on behalf of its member operators requested that the comment period be extended to February 22, 1983. The ATA stated that this would give industry and the FAA time to review the Supplemental Structural Inspection Document (SSID) presently in development. The FAA does not concur. It has been previously established and is well documented that the structural details covered by the SSID include only those details for which there are no known fatigue cracking histories. The fatigue cracking history of the wing rear spar terminal fitting is well established. As such, the inspection of the affected fittings will not be included in the SSID.

One commenter expressed concern about the amount of cold expansion of certain fastener holes in the fittings. Cold expansion, a specialized form of cold working, tends to increase the fatigue resistance of the material around fastener holes. The commenter stated that the amount of cold expansion specified in the Boeing service bulletin may be inadequate to give the necessary fatigue properties. Therefore, the inspection thresholds and intervals may not be appropriate. Further investigation has revealed that the effects of cold expansion were not considered in the manufacturer's structural assessment. The existence of an inadequate amount of cold expansion is, therefore, immaterial when considering the appropriateness of the manufacturer's recommended inspection times. In addition, there have been no reports of fatigue cracks involving the reworked fittings.

Several commenters stated that the compliance time of 3,000 landings after the effective date was too restrictive and would result in considerable unscheduled down time, flight schedule disruption and possible grounding of some affected airplanes; and that the availability of replacement parts is not consistent with the proposed compliance time. The commenters suggested compliance times of 5000 to 6000 landings. Because of the difficulty and expense of gaining access into the inspection area and desirability to accomplish the preventive modification once access is gained, the initial compliance threshold should be compatible with the replacement parts availability. Further, the FAA has determined that an initial compliance threshold of 6000 landings would not have an adverse effect on safety. Therefore, the AD, as adopted, requires compliance within the next 6000 landings or prior to accumulating 30,000 landings, whichever occurs later.

Several commenters expressed concern that the AD required repetitive inspection of fittings, either improved ones installed prior to delivery or ones modified in service, for which there is no adverse fatigue history. The commentors maintain that by previously established guidelines for the development of the SSID, these fittings should be covered by the SSID and not the AD. The FAA concurs. Due to the lack of adverse service data concerning the improved fittings, these fittings do not require AD action and should more appropriately be covered by the SSID. The FAA also concurs that modification in accordance with the manufacturer's service instructions should constitute terminating action for the inspection requirements of this AD because of the lack of adverse service history on modified parts. The AD, as adopted, reflects these changes.

One commenter requested that credit be allowed for inspections completed prior to the effective date. The FAA concurs and the AD as adopted states that compliance is required as indicated, unless already accomplished.

Another commenter requested that an FAA maintenance inspection be allowed to adjust repetitive inspection intervals. Provision for the adjustment of inspection times is already allowed for by paragraph F. of the AD, as an alternate means of compliance. However, any alternate means of compliance must be approved by the Manager, Seattle Aircraft Certification Office.

Approximately 620 airplanes of U.S. registry will be affected by this AD. It is estimated that the inspections will require approximately 336 manhours and that the average labor cost will be $40 per manhour. Based on the figures the total cost impact of this AD is estimated to be $8,332,000 per inspection cycle. For these reasons, the AD is not considered to be a major rule under the criteria of Executive Order 12291. Few, if any, small entities within the meaning of the Regulatory Flexibility Act will be affected.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and public interest require the adoption of the proposed rule with the changes previously noted.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13), is amended by adding the following new Airworthiness Directive.

Boeing: Applies to Model 727 series airplanes certificated in all categories listed in Boeing Service Bulletin No. 727-57-103, Revision 3, or later FAA approved revisions.

Compliance is required as indicated, unless already accomplished. To ensure the structural integrity of the wing rear spar terminal fitting accomplish the following:

A. Inspect the wing rear spar terminal fittings for cracks, using x-ray, eddy current and close visual techniques, in accordance with the procedures listed in Table I of the Addendum, Flight Safety Section, Boeing Service Bulletin No. 727-57-103, Rev. 3, or later FAA approved revisions, within the next 6000 landings or prior to accumulating 30,000 landings, whichever occurs later, and thereafter at intervals not to exceed 20,000 landings.

Note.—Terminal fittings listed in the above referenced service bulletin as not requiring modification need not be inspected in accordance with the requirements of this AD.

B. Cracked structure is to be repaired before further flight in accordance with Service Bulletin No. 727-57-103, original issue, or later FAA approved revisions.

C. Repair or modification in accordance with Service Bulletin No. 727-57-103, original issue, or later FAA approved revisions

eliminates the need for the repetitive inspections required by paragraph A., above, and constitutes terminating action for the requirements of this AD.

D. For the purpose of this AD, and when approved by an FAA maintenance inspector, the number of landings may be computed by dividing each airplane's time in service by the operator's fleet average time from takeoff to landing for the aircraft type.

E. Aircraft may be ferried to a maintenance base for repair in accordance with FAR 21.197 and 21.199.

F. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. These documents may also be examined at the FAA, Northwest Mountain Regions, 9010 East Marginal Way South, Seattle, Washington.

This AD becomes effective March 31, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—For the reasons discussed earlier in the preamble, the FAA has determined that this regulation is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). It is further certified under the criteria of the Regulatory Flexibility Act that this rule will not have a significant economic effect on a substantial number of small entities since it involves few, if any, small entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption, "FOR FURTHER INFORMATION CONTACT."

Issued in Seattle, Washington, on February 14, 1983.

Charles R. Foster,

Director, Northwest Mountain Region.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 83-CE-1-AD; Amdt. 39-4568]

Airworthiness Directives; DeHavilland Model DHC-3 (U-1A) Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD), applicable to DeHavilland Model DHC-3 (U-1A) airplanes which requires inspection and, if necessary, repair or replacement of the control column lower assembly. Cracks have been reported in the welded assembly at the base of the control column These cracks may result in fracture of the assembly causing loss of primary flight controls. The inspections will detect cracks before fracture occurs.

EFFECTIVE DATE: March 1, 1983.

Compliance: As prescribed in the body of the AD.

ADDRESSES: DeHavilland Service Bulletin (S/B) No. 3/39, Revision "A" dated October 1, 1982, applicable to this AD may be obtained from DeHavilland Aircraft of Canada, Limited, Downsview, Ontario, Canada M3K 1Y5; Telephone (416) 633-7310. A copy of this information is also contained in the Rules Docket, FAA Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Mr. Vahan Barsamian, Aerospace Engineer, New York Aircraft Certification Office, ANE-170, 181 South Franklin Avenue, Room 202, Valley Stream, New York 11581; Telephone (516) 791-6220.

SUPPLEMENTARY INFORMATION: DeHavilland has received reports of cracks in the lower welded assembly, P/N C3CF 39-15 or P/N C3CF 39-13, at the base of the control column on its Model DHC-3 (U-1A) airplanes. These cracks appear to occur due to ground gusts acting on elevator surfaces when the airplane is parked.

As a result, DeHavilland has issued Service Bulletin S/B No. 3/39 dated October 1, 1982, which provides for inspection and repair or replacement of the control column lower welded assembly. The Department of Transport (DOT) who has responsibility and authority to maintain the continuing airworthiness of these airplanes in Canada has issued Airworthiness Directive CF-82-34 dated December 8, 1982, which makes the actions recommended in S/B No. 3/39 mandatory on airplanes operated in Canada to assure their continued airworthiness. The FAA relies upon the certification of DOT Canada, combined with FAA review of pertinent documentation, in finding compliance of the design of these airplanes with the applicable United States airworthiness requirements and the airworthiness and conformity of products of this design certificated for operation in the United States.

The FAA has also examined the available information related to the issuance of Service Bulletin S/B No. 3/39 and DOT Canada Airworthiness Directive CF-82-34. Based on the foregoing, the FAA has determined that the unsafe condition described herein is likely to exist or develop in other products of the same type design certificated for operation in the United States. Accordingly, an AD is being issued requiring visual inspection and, as necessary, repair or replacement of the control column lower welded assembly on DeHavilland Model DHC-3 (U-1A) airplanes. Because an emergency condition exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and contrary to the public interest, and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new AD.

DeHavilland: Applies to Model DHC-3 (U-1A) airplanes certificated in any category.

Compliance: As prescribed in the body of the AD.

To prevent loss of primary flight controls due to fracture of the control column lower weld assembly, accomplish the following:

a. Within the next 25 hours time-in-service after the effective date of this AD, unless already accomplished within the last 75 hours, and at each 100 hours time-in-service thereafter, visually inspect the control column lower weld assembly, P/N C3CF 39-15 or C3CF 39-13 for cracks in accordance with the Accomplishment Section of DeHavilland Service Bulletin S/B No. 3/39 dated October 1, 1982.

b. If no cracks are found, return the airplane to service and repeat the inspections required by paragraph a of this AD.

c. If cracks are found in control column lower assembly P/N C3CF 39-13, replace the assembly prior to further flight with a serviceable assembly P/N C3CF 39-15 or P/N C3CF 39-21 (Modification 3/930) as specified in the Replacement Section of said Service Bulletin.

d. If cracks longer than 1 inch are found in control column lower assembly P/N C3CF 39-15, repair or replace the assembly prior to further flight as instructed in the Accomplishment Instructions Section of said Service Bulletin.

e. If cracks 1 inch or less in length are found in control column lower assembly P/N

C3CF 39-15, repair or replacement may be delayed for a period of 150 hours time-in-service provided the inspection prescribed in paragraph a above is accomplished at 25-hour intervals.

f. The repetitive inspections of paragraph a of this AD may be discontinued when control column lower assembly P/N C3CF 39-21 (Modification 3/930) is installed.

g. The airplane may be flown in accordance with Federal Aviation Regulation 21.197 to a location where this AD can be accomplished.

h. An equivalent method of compliance with this AD may be used if approved by the Manager, New York Aircraft Certification Office, ANE-170, Federal Aviation Administration, 181 South Franklin Avenue, Room 202, Valley Stream, New York 11581; Telephone (516) 791-6660.

This amendment becomes effective on March 1, 1983.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

Note— The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the Rules Docket under the caption "ADDRESSES" at the location identified.

Issued in Kansas City, MO., on February 14, 1983.

John E. Shaw,

Acting Director, Central Region.

[FR Doc. 83-4841 Filed 2-23-83; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 82-NM-118-AD; Amdt. 39-4569]

Airworthiness Directives; Fokker VFW B.V. Model F28 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) applicable to Fokker VFW B.V. Model F28 airplanes which requires a one time inspection and replacement, if necessary of the aileron control cables. One incident of a jammed aileron control has been reported which occurred during flight and resulted in partial loss of lateral control. Loss of lateral control during flight could result in the loss of the airplane.

DATE: Effective March 7, 1983.

ADDRESS: A copy of the telegraphic Netherlands airworthiness directive may be obtained upon request to the Service Manager, Fokker Aircraft, 2361 Jefferson Davis Highway, Arlington, Virginia 22202, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Sulmo Mariano, Foreign Aircraft Certification Branch, ANM-150S, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 767-2530. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: On November 2, 1982, the Netherlands civil air authority (RLD) issued a telegraphic airworthiness directive, BLA No. 82-41-27, applicable to the F28 series airplanes which requires a one time inspection and replacement, if necessary, of aileron control cables. One incident of a jammed aileron control has been reported which occurred shortly after takeoff. The aircraft subsequently returned to the departure point and made a successful landing. Inspection of the aileron control system revealed that on the L.H. wing two identical cables of the control assembly were broken. Cable failure appeared to be caused by severe corrosion of the cables at the point where it passes two rows of cable pulleys in the area between wing stations 3100 and 3600. A loss of lateral control during flight could result in the loss of the airplane.

This airplane model is manufactured in the Netherlands and type certificated in the United States under the provision of § 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this model registered in the United States, the FAA has determined that an AD is necessary which would require a one time inspection and replacement, if necessary, of aileron control cables.

Further, since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Fokker-VFW B.V.: Applies to Model F28 airplanes serial number 11003 and on. To prevent loss of aileron control, accomplish the following, unless already accomplished within the last three months prior to the effective date of this AD:

1. Within the next 50 hours time in service or one month, whichever occurs first after the effective date of this AD, perform a one time inspection of the aileron control cables in both the R.H. and L.H. wings for airplanes with more than one year's time from the date of manufacture in accordance with the following instructions:

a. Open the main landing gear doors and flap shroud doors 61j, 61k, 62j, and 62k.

b. Rotate the aileron control wheel in the cockpit to the full left-hand position.

c. With the control wheel in this position, inspect the four aileron input cables at location of cable pulleys between stations 3100 and 3600 (illustrated parts catalog, chapter 27-10-01-05). Inspection must be performed with the aid of mirror and a very strong light, otherwise corrosion may remain undetected.

d. If wires are broken or there are definite signs of corrosion in the cables, accomplish the actions of paragraph 2.

e. Rotate the aileron control wheel in the cockpit to the full righthand position and repeat the inspections described in paragraphs (c) and (d).

2. If corrosion on the cables is evident from the inspection of paragraph 1, above, accomplish the following:

a. Disconnect the cable at the turnbuckle in the wheelwell per the F28 Maintenance Manual, chapter 27-11.

b. Pull out the cable at the cable pulleys between stations 3100 and 3600.

c. Carefully bend the cable one time at the location of the corrosion over a radius of one inch. If any wire breaks while being bent, replace the cable prior to further flight.

d. If no wires failed during the bending test of paragraph 2(c), repeat the test by bending the cable in the opposite direction. If any wire breaks, replace the cable before further flight.

e. If the cable is not rejected by the bending tests of paragraphs 2(c) or 2(d), inspect the cable for interior corrosion in accordance with the F28 Maintenance Manual, chapter 20-30-9.

f. If interior corrosion is found, replace the cable before further flight.

g. Remove any exterior corrosion and treat the cable in accordance with F28 Maintenance Manual, chapter 20-30-9.

h. Reconnect the turnbuckles in the L.H. and R.H. wheelwells and adjust the cable system in accordance with F28 Maintenance Manual, chapter 27–11–00, and check the aileron for free and smooth operation.

3. Alternate means of compliance which provide an equivalent level of safety may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

4. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

This amendment becomes effective March 7, 1983.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant/major regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation or analysis is not required). A copy of it, when filed, may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

Issued in Seattle, Wash., on February 14, 1983.

Charles R. Foster,

Director, Northwest Mountain Region.

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 82-AGL-16]

Revocation of Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to revoke the existing designated control zone serving Marion Municipal Airport, Marion, Indiana, due to nonavailability of required weather observations. The intended effect of this action is to return designated airspace to a non-controlled status.

The most recent action involving this control zone, excluding Notices to Airmen, was accomplished in Airspace Docket No. 75–GL–12, issued February 28, 1975.

EFFECTIVE DATE: April 14, 1983.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Airspace, Procedures, and Automation Branch, Air Traffic Division, AGL–530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) [illegible]-7560.

SUPPLEMENTARY INFORMATION: The floor of the controlled airspace within the perimeter of the area currently described as the Marion control zone will be raised from the surface to 700 feet above the surface. No changes will be required to any existing instrument approach procedures, but the minimum descent altitudes associated with those procedures may no longer be contained within controlled airspace. The control zone information will be removed from aeronautical charts and maps.

History

On page 31702 of the **Federal Register** dated July 22, 1982, the FAA proposed to amend Section 71.171 of the Federal Aviation Regulations (14 CFR Part 71) so as to alter the control zone near Marion, Indiana. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA.

Except for editorial changes, and except as specifically discussed below, this amendment is the same as that proposed in the notice. Section 71.171 of Part 71 of the Federal Aviation Regulations was published in Advisory Circular AC 70–3A dated January 3, 1983.

Discussion of comments: One letter was received from Air Marion, Inc., acknowledging its responsibility for taking hourly sequential reports and special observations at Marion Municipal Airport, but advising that business demands received greater priority than taking weather observations. They indicated on August 10, 1982, that weather observations would receive a first priority basis in the future. However, a recently conducted survey from November 17 to December 15, 1982, disclosed receipt of only 39 such reports out of the required minimum of 160 hourly reports not including any special observations which may have been appropriate. This equates to weather observations being received approximately 24% of the time, which is deemed not sufficient to justify retention of the control zone designation and associated airspace.

List of Subjects in 14 CFR Part 71

Control zones, Aviation safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective 0901 G.m.t., upon publication, as follows:

Marion, IN [Revoked]

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)) and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It is certified that this—(1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Des Plaines, Ill., on February 14, 1983.

Monte R. Belger,

Acting Director, Great Lakes Region.

[FR Doc. 83-4543 Filed 2-23-83; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 83-ASO-6]

Alteration of Transition Area, Manning, South Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment alters the Manning, South Carolina, transition area by revising the coordinates of the Manning radio beacon which has been relocated to a new on-airport site. In addition, the base of controlled airspace overlying Grayson Airport will be raised from 700 to 1,200 feet above the surface. There is a need for a regulation to properly list the geographical coordinates of the Manning radio beacon and raise the base of controlled airspace over the Grayson Airport so that the description of the transition area will be technically correct. No significant change in airspace is intended by this action.

DATES: Effective 0901 G.m.t., April 14, 1983. Comments must be received on or before April 1, 1983.

ADDRESSES: Send comments on the rule in triplicate to: Federal Aviation Administration, Attn: Manager, Airspace and Procedures Branch, ASO-530, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone (404) 763-7646.

FOR FURTHER INFORMATION CONTACT: Donald Ross, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 763-7646.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves technical adjustments to the transition area and raising the floor of controlled airspace above Grayson Airport and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to correct the geographical coordinates of the Manning radio beacon which has been relocated and to raise the base of controlled airspace overlying the Grayson Airport as there is no existing requirement for a 700-foot transition area over the airport. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3A dated January 3, 1983. Under the circumstances presented, the FAA concludes that there is a need for a regulation to properly list the geographical coordinates of the Manning radio beacon and raise the base of controlled airspace over the Grayson Airport so that the description of the transition area will be technically correct. Therefore, I find that notice of public procedure under 5 U.S.C. 553(b) is unnecessary and that good cause exists for making this amendment effective in less than 60 days after its publication in the **Federal Register.**

List of Subjects in 14 CFR Part 71

Aviation safety, Airspace, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) (as amended) is further amended, effective 0901 G.m.t., April 14, 1983, as follows:

Manning Clarendon County Airport, SC—Revised

That airspace extending upwards from 700 feet above the surface within a 6.5-mile radius of Clarendon County Airport (Lat. 33°35'13"N., Long. 80°12'32"W.); within 3 miles each side of the 201° bearing from Manning RBN (Lat. 33°35'18"N., Long. 80°12'20"W.), extending from the 6.5-mile radius area to 3.5 miles south of the RBN; within 2 miles each side of Vance VORTAC 061° radial, extending from the 6.5-mile radius area to the VORTAC.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexbility Act.

Issued in East Point, Georgia, on February 10, 1983.

George R. LaCaille,

Acting Director, Southern Region.

[FR Doc. 83-4830 Filed 2-23-83; 8:45 am]
BILLING CODE 4910-13-M

14 CFR Part 93

[Docket No. 19497; Amdt. No. 93-45]

Special Airport Traffic Areas and Air Traffic Rules for Abbotsford, BC, and Sault Ste. Marie, ON, Canada

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects Amendment 45 to Part 93 of the Federal Aviation Regulations published on December 10, 1981, (46 FR 60420) and as corrected on December 31, 1981, (46 FR 63222) by correcting a minor discrepancy in the description of the Abbotsford, BC, Special Airport Traffic Area.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. William C. Davis, Air Traffic Rules Branch (AAT-220), Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, Telephone: (202) 426-3128.

SUPPLEMENTARY INFORMATION: Since this action is necessary to prescribe the originally intended regulatory amendments under Amendment 93-45 and since this action is corrective in nature, I find that notice and public procedure regarding the action are impractical and unnecessary. Further, since it would not be in the public interest or consistent with sound regulatory practice to delay making necessary corrections to the Amendment, good cause exists for making it effective in less than 30 days after publication.

List of Subjects in 14 CFR Part 93

Airport traffic areas, Air traffic control, Air traffic patterns, Communications.

Adoption of the Amendment

The following corrections are made in FR Docket No. 81-35289, appearing on page 60420, in the **Federal Register** issue of December 10, 1981, as corrected by FR Docket No. 81-37148 appearing on page 63222 on December 31, 1981:

1. On page 60421, in column 1, "122°28'40"" is corrected to read "122°27'40"".

(Secs. 307 and 313(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348, and 1345(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)), and 14 CFR 11.45)

Note.—The FAA has determined that this document involves a minor correction to a regulation which is—(1) Not major under Executive Order 12291; (2) not significant

under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this correction does not substantively affect the Amendment, the FAA certifies that it will not have a significant impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on February 14, 1983.

J. Lynn Helms,

Administrator.

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 23532; Amdt. No. 1236]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendant of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures and Airspace Branch (AFO-730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA from document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Manager, Aircraft Programs Division.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

[FR Doc. 83-4544 Filed 2-23-83; 8:45 am]

BILLING CODE 4910-13-M

CIVIL AERONAUTICS BOARD

14 CFR Part 321

[Reg. PR-259; Amdt. No. 4; Docket 40959]

Unused Authority Procedures

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB requires applicants for dormant authority to include fitness information in their applications. The CAB will revoke the route authority of those carriers that unreasonably delay their fitness investigation or that are found to be unfit. This action is taken at the CAB's initiative to implement the continuing fitness requirement in the Federal Aviation Act and to maintain the quality of the air transport system.

DATES: Adopted: February 8, 1983. Effective: March 26, 1983.

FOR FURTHER INFORMATION CONTACT: David Schaffer, Office of General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428; 202–673–5442.

SUPPLEMENTARY INFORMATION: By PDR–82, 47 FR 40812, September 16, 1982, the Board proposed to require applicants for dormant route authority to include fitness information in their applications. The Board also proposed to revoke the dormant authority of any carrier that unreasonably delayed its fitness investigation or that was found to be unfit.

With the "sunset" of the Board's domestic route authority, it was assumed that persons seeking to start an airline would apply for their certificates under section 401(d)(1) of the Federal Aviation Act of 1958 (Pub. L. 85–726), as amended by the Airline Deregulation Act of 1978 (Pub. L. 95–504). Once a carrier is found fit under this section and has received its certificate, it is able to serve any route in the United States without having to file additional applications every time it wants to expand service.

Some persons have, however, continued to file for route authority under section 401(d)(5) of the Act. This section is known as the dormant authority or unused authority provision. It requires the Board to issue a certificate to the first applicant for a route for which another carrier has authority, but that it is not serving. Persons that receive route authority under this section have to file additional applications every time they wish to serve another route. Although the broader authority available under section 401(d)(1) would appear to encourage applicants to file under that section, some have continued to file under the dormant authority provision because that provision does not contain an explicit fitness requirement.

The Board became concerned that the absence of a fitness requirement in section 401(d)(5) was a loophole that posed a potential danger to the public. PDR–82 was issued to close this loophole. It relied on section 401(r) of the Act (49 U.S.C. 1371(r)), the continuing fitness requirement, which states that regardless of the source of the carrier's route authority, it must continue to be found fit. It authorizes the Board to revoke a carrier's authority if it fails to comply with requirement or to submit any reports that the Board requires. PDR–82 proposed to implement section 401(r) with respect to dormant authority carriers.

Charles Jones of Atlanta, Georgia wrote a letter in support of the Board's proposal. No other comments were filed. For the reasons stated in PDR–82 and summarized above, therefore, the Board is adopting the rule as proposed.

Under this rule, an applicant for dormant authority will have to include fitness information in its application as specified by § 321.11(d) and (e). Although under section 401(d)(5) the requested authority usually must be granted within 15 or 60 days (depending on the number of carriers serving the route), the Board or the Director of the

Bureau of Domestic Aviation will promptly institute a fitness investigation. If the Board concludes that the carrier is not fit or that it is unduly delaying the investigation, its authority will be revoked.

In accordance with 5 U.S.C. § 605(b), as added by the Regulatory Flexibility Act, P.L. 96–354, the Board certifies that this rule will not have a significant economic impact on a substantial number of small entities. Most small entities will apply for certificated route authority under section 401(d)(1), as explained above, and are therefore not affected by this rule. Only rarely will a small carrier seek dormant authority. Nevertheless, this rule is necessary to prevent harm to the public in those few instances where a carrier attempts to use the dormant authority provision to evade the fitness requirement.

Subpart F—Continuing Fitness

Sec.
321.50 Order instituting proceeding.
321.51 Answers.
321.52 Revocation of authority.

3. Paragraph (d) and (e) of § 321.11 are revised to read:

§ 321.11 Contents of applications.

Each application shall:

* * * * * *

(d) For applicants not yet found by the Board to be fit, willing, and able to provide any sort of air transportation service, include the material required by § 204.5 of this chapter to support such a finding. The applicant may incorporate by reference material submitted in a prior fitness proceeding before the Board, updated as necessary.

(e) For applicants already found by the Board to be fit, willing, and able to provide air transportation, cite the most recent Board order establishing that finding and—

(1) If the finding pertained to certificated charter air transportation, include the material required by § 204.4 of this chapter;

(2) If the finding pertained to operations as a commuter air carrier, include the material required by § 204.5 of this chapter.

4. A new Subpart F is added to read:

Subpart F—Continuing Fitness

§ 321.50 Order instituting proceeding.

Within 15 days after an application is filed under this part, the Board may issue an order instituting an investigation of the applicant's fitness.

§ 321.51 Answers.

Any person may respond to the Board's order instituting the investigation by filing with the Board a written answer or a petition to intervene under § 302.15 of this chapter, within the time specified in the order.

§ 321.52 Revocation of authority.

(a) The Board may revoke the authority granted under this part in either of the following situations:

(1) The Board finds, after notice and hearing conducted pursuant to the procedures of Part 302 of this chapter, that the carrier is not fit, willing, and able to provide scheduled passenger air transportation.

(2) The Board finds, after notice and hearing, that the carrier has unduly delayed, or has failed to participate fully in, the proceeding to establish its fitness.

(b) The hearing under this section may be conducted by written submissions rather than by an oral evidentiary hearing.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

BILLING CODE 6320–01–M

ENVIRONMENTAL PROTECTION AGENCY

21 CFR Parts 193 and 561

[FAP 3H5373/R135; FAP 3H5373/R136; PH-FRL 2311–1]

Ethyl 3-Methyl-4-(Methylthio)Phenyl (1-Methylethyl)Phosphoramidate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: These rules establish a food and feed additive regulation to permit the combined residues of the nematocide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate and its cholinesterase-inhibiting metabolites in or on certain food and feed commodities under an experimental use permit. These regulations to establish maximum permissible levels for the combined residues of the insecticide in or on the food and feed commodities were requested, pursuant to a petition, by the Mobay Chemical Corporation.

EFFECTIVE DATE: Effective on February 24, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A–110), Environmental Protection Agency, Rm. 3706, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Henry Jacoby, Product Manager (PM) 21, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 227, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1900).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the Federal Register of December 22, 1982 (47 FR 57129) that announced that the Mobay Chemical Corporation, P.O. Box 4913, Kansas City, MO 64120, had submitted food and feed additive petition 3H5373 proposing to amend 21 CFR Parts 193 and 561 by establishing regulations permitting the combined residues of the nematocide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate and its cholinesterase-inhibiting metabolites in or on certain food and feed commodities as follows:

1. Part 193, FAP 3H5373, raisins at 0.3 part per million (ppm) resulting from applications of the nematocide to grapes.

2. Part 561, FAP 3H5373, grape pomace at 1.0 ppm and raisin waste at 3.0 ppm resulting from applications of the nematocide to grapes.

There were no comments received in response to the notice of filing.

The toxicological data considered in support of these tolerances included a 2-year dog feeding study with a no-observed effect-level (NOEL) of 0.025 mg/kg body weight/day (1.0 ppm); a 2-year rat feeding study with a NOEL of 0.15 mg/kg/day (3.0 ppm); an 18-month mouse oncogenic study with no oncogenic effects observed at 7.50 mg/kg/day (50 ppm); a 3-generation rat reproduction study with a NOEL of 1.5 mg/kg/day (30 ppm); a rat teratology study with a NOEL of 0.5 mg/kg/day; and a rabbit teratology study with a NOEL of 30 mg/kg/day.

Using a 10-fold safety factor and based on the NOEL of 0.025 mg/kg/day in dogs, the acceptable daily intake (ADI) is 0.0025 mg/kg/day and the maximum permissible intake (MPI) is 0.1500 mg/day for a 60-kg person.

Presently established temporary tolerances, toxicologically approved tolerances, and these tolerance result in a maximum theoretical exposure of 0.0054 mg/day for a 60-kg person which represents 3.61 percent of the ADI. Temporary tolerances have previously been established for combined residues of this nematocide and its cholinesterase-inhibiting metabolites in or on pineapple and pineapple bran.

There are no regulatory actions pending against continued registration of the pesticide and there are no other considerations involved in establishing these temporary tolerances. The metabolism of this fungicide and its metabolites is adequately understood, and an adequate analytical method, gas chromatography with scintillation spectrophotometry, is available for enforcement purposes.

The pesticide is considered useful for the purpose for which the additive regulations are sought. It is concluded that the pesticide may be safely used in accordance with the prescribed manner when such uses are in accordance with the label and labeling registered pursuant to FIFRA as amended (86 Stat. 973, 89 Stat. 751, U.S.C. 135(a) *et seq.*). Therefore, the regulations are established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register**, file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new food and feed additive levels, or conditions for safe use of additives, or raising such food and feed additive levels do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24945).

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 346(c)(1)))

List of Subjects in 21 CFR Parts 193 and 561

Food additives, Animal feeds, Pesticides and pests.

Dated: February 11, 1983.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

PART 193—[AMENDED]

Therefore, 21 CFR, Chapter I, is amended as follows:

1. In Part 193 by adding a new § 193.463 to read as follows:

§ 193.463 Ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate.

(a) [Reserved].

(b) A tolerance of 0.3 part per million is established for the combined residues of the nematocide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate and its cholinesterase-inhibiting metabolities in raisins resulting from applications of the nematocide in accordance with the provisions of an experimental use permit that expires December 31, 1983.

(1) Residues in raisins not in excess of 0.3 ppm resulting from the use described in paragraph (b) of this section remaining after expiration of the experimental use program will not be considered actionable if the pesticide is legally applied during the terms of, and in accordance with, the provisions of the experimental use permit and the food additive tolerance.

(2) The Mobay Chemical Corporation shall immediately notify the Environmental Protection Agency of any findings from the experimental use that have a bearing on safety. The Corporation shall also keep records of distribution and performance and, on request, make the records available to any authorized officer or employee of the Environmental Protection Agency or the Food and Drug Administration.

PART 561—[AMENDED]

2. In Part 561, § 561.232 is revised to read as follows:

§ 561.232 Ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate.

(a) [Reserved].

(b) Tolerances are established for the combined residues of the nematocide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate and its cholinesterase-inhibiting metabolites in the following processed feeds when present as a result of applications of this pesticide to the growing crop under an experimental use permit (EUP).

Feeds	Parts per million	Company	EUP expires
Pineapple bran ...	10.0	Pineapple Growers' Association of Hawaii.	Aug. 31, 1985
Grape pomace (dry and wet).	1.0	Mobay Chemical Corp.	Dec. 31, 1985
Raisin waste	3.0	Mobay Chemical Corp.	Do

(1) Residues in the feed not in excess of the tolerance level indicated resulting from the use described in paragraph (b) of this section remaining after expiration of the experimental use program will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and the feed additive tolerance.

(2) The Company concerned shall immediately notify the Environmental Protection Agency of any findings from the experimental use that have a bearing on safety. The Company shall also keep records of distribution and performance and on request make the records available to any authorized officer or employee of the Environmental Protection Agency or the Food and Drug Administration.

[FAP 8H5181/R130 PH-FRL 2311-2]

Tolerances for Pesticides in Animal Feeds Administered by the Environmental Protection Agency; Paraquat

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule

SUMMARY: This rule establishes a feed additive regulation for residues of the desiccant, defoliant, and herbicide paraquat in spent mint hay resulting from application of the pesticide to the growing crop. This reguation, requested in a petition submitted by the Interregional Research Project No. 4 (IR-4), establishes the maximum permissible level for residues of paraquat in or on spent mint hay at 3.0 parts per million (ppm).

EFFECTIVE DATE: Effective on February 24, 1983.

ADDRESS: Written objections may be submitted to the: Hearing Clerk (A-110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Donald R. Stubbs, Emergency Response Section, Registration Division (TS-

767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 716B, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1192).

SUPPLEMENTARY INFORMATION: EPA issued a notice published in the **Federal Register** of September 29, 1982 (47 FR 42805) that announced that the Interregional Research Project No. 4 (IR–4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, had filed feed additive petition 8H5161 for residues of the pesticide paraquat (1,1'dimethyl4,4'-bipyridinium ion), derived from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on spent mint hay at 3.0 ppm when present therein as a result of the application to growing peppermint or spearment.

No comments or request for referral to an advisory committee were received by the Agency in response to this notice of filing.

A related document (PP 8E2048/9E2229/0E2345/2E2611/R515) establishing tolerances for residues of paraquat in or on various raw agricultural commodities, including mint hay (40 CFR 180.205), appears elsewhere in this issue of the **Federal Register.**

The data submitted in the petition and other relevant material have been evaluated and discussed in the notice of proposed rulemaking for PP 8E2048 (47 FR 57975, December 29, 1982). The pesticide is considered useful for the purpose for which the regulation is sought, and it is concluded that the pesticide maybe safely used in the prescribed manner when such use is in accordance with the label and labeling registered pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973, 80 Stat. 751; 7 U.S.C. 136(a) *et seq.*). Therefore, 21 CFR 561.289 is amended as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register,** file written objections with the Hearing Clerk, at the address given above. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new food or feed additives, or conditions for safe use of additives, or raising such food or feed additive levels do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24945). Effective on: February 24, 1983.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)))

BILLING CODE 6560–50–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Parts 200 and 203

[Docket No. R–83–1013]

Eligibility of Manufactured Homes for Mortgage Insurance

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner.

ACTION: Interim rule.

SUMMARY: HUD is extending eligibility for mortgage insurance pursuant to Title II of the National Housing Act to manufactured homes constructed in conformance with the Manufactured Home Construction and Safety Standards when permanently attached to a site-built permanent foundation which meets HUD's Minimum Property Standards. Under existing practice, manufactured homes are not eligible for Title II mortgage insurance when the manufactured home itself does not meet HUD's Minimum Property Standards.

DATES: Effective Date: Upon expiration of the first period of 30 calendar days of continuous session of Congress after publication, subject to waiver. Further notice of the effective date of this interim rule will be published in the **Federal Register.** Comment Due Date: April 25, 1983.

ADDRESS: Interested persons are invited to submit comments to the Rules Docket Clerk, Office of General Counsel, Room 10278, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. Each comment should include the commentor's name and address and must refer to the docket number indicated in the heading of this rule. A copy of each comment will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: John J. Coonts, Director, Single Family Development Division, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 9270, Washington, D.C. 20410, (202) 755–6720. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Pursuant to Title VI of the Housing and Community Development Act of 1974 (42 U.S.C. 5401 et seq.), the Department issues Manufactured Home Construction and Safety Standards to improve the quality and durability of manufactured homes. The Standards, which apply to all manufactured homes manufactured after June 15, 1976, take into consideration existing State and local laws but preempt those which are not identical to the Federal standards. The Standards appear at 24 CFR Part 3280.

The Department also facilitates the financing of manufactured home purchases by insuring manufactured home loans made by private lending institutions pursuant to Title I of the

National Housing Act (12 U.S.C. 1703). The Department insures loans for the purchase of a manufactured home pursuant to 24 CFR Part 201, Subpart B, and for the purchase of a manufactured home and lot ("combination loans") pursuant to 24 CFR Part 201, Subpart D. Under Title I loans, the manufactured home is treated as a chattel and, therefore, the loan insured is comparable to a consumer loan. The rate ordinarily is 1 to 2 percentage points higher than a real estate mortgage loan, and the maturities average only about 15 years. The present Title I loan limits are $22,500 for 20 years on single-module units, $35,000 for 20 years on double-module units, and up to $47,500 for 25 years for combination loans.

Loans for the purchase of manufactured homes and sites have not generally been eligible for mortgage insurance pursuant to Title II of the National Housing Act for several reasons. Loans insured pursuant to Title II must be secured by mortgages on real property, so that chattel mortgages are not eligible. Further, properties subject to loans insured pursuant to Title II generally must meet HUD's Minimum Property Standards in all respects. The Manufactured Home Construction and Safety Standards promulgated by HUD are not the same as the Minimum Property Standards, which are compiled in contemplation of site-built "stick" housing.

In time, however, the differences between manufactured homes and site-built homes have become blurred. Improvements in the design and construction of manufactured homes have enhanced their durability and acceptability in residential neighborhoods. Communities and some States have revised their zoning policies which previously relegated manufactured homes to mobile home parks. Permanently placed manufactured homes may now appreciate in value as do comparable site-built houses, rather than being considered to depreciate as they have in the past. This has resulted in jurisdictions reclassifying manufactured homes from chattels to real property status. Manufacturers are beginning to sell their manufactured homes through real estate developers rather than through dealers, and some private lenders offer mortgages on manufactured homes if they are permanently placed on the borrower's lot.

Current housing trends indicate that with certain exceptions, manufactured homes permanently placed on acceptable sites can provide less expensive housing than comparable site-built housing. The inherent economies of production line assembly, relatively immune from delaying weather conditions, make a manufactured home less expensive than a comparable site-built home.

Extension of FHA mortgage insurance to manufactured housing further expands the availability of affordable housing that may fulfill the needs of many households. With a real estate mortgage loan, the prospective buyer of a manufactured home gains the advantages of the lower interest rate on a real property mortgage as compared with a personal property loan and the lower amortization requirements resulting from a longer loan term. A buyer can, in essence, finance a larger amount for the same monthly payment.

The Department previously has recognized the suitability of certain existing (as distinguished from newly constructed) manufactured houses for Title II mortgage insurance. By Notice H-80-85 (August 28, 1980), the Department advised that existing permanently sited double-wide manufactured homes would be treated as any other existing property for insurance eligibility purposes. Subsequently, by Notice H-81-6 (January 12, 1981), the Department further advised concerning the eligibility of proposed construction involving double-wide manufactured homes conforming to Minimum Property Standards requirements for Title II insurance.

The President's Commission on Housing has also taken note of evolutionary development in the manufactured housing industry, stating:

> Manufactured housing is a significant source of affordable housing for American families, particularly first-time homebuyers, the elderly, and low- and moderate-income families. Manufactured homes accounted for almost 36 percent of all single-family homes sold in the United States in 1981, and for the vast majority of those sold for under $50,000.
>
> Manufactured housing has competed effectively in a national housing market characterized by a vast array of Federal credit programs, institutional financing facilities, and regulations that favor conventional housing competitors. However, special limitations on the financing of manufactured housing continue to place serious inhibitions on what could be a valuable and afforable source of housing for millions of Americans. The Commission believes that the disincentives that now characterize the manufactured housing sector should be removed in order to make full use of this resource.

The Commission therefore recommended that:

> Federal and State government and quasi-government agencies provide the regulatory and legal framework necessary to permit permanent mortgage financing of [manufactured homes permanently attached to the land] on the same basis as other real property loans. (The Report of the President's Commission on Housing 85 (1982).)

Committees of Congress also have proposed the expansion of FHA mortgage insurance eligibility for manufactured housing. Both the Housing and Community Development Amendments of 1982 (S. 2607), as reported by the Senate Committee on Banking, Housing and Urban Affairs, and the Housing and Urban-Rural Recovery Act of 1982 (H.R. 6296), as reported by the House Committee on Banking, Finance and Urban Affairs, contain provisions confirming eligibility of manufactured housing conforming to the Manufactured Home Construction and Safety Standards and affixed to a permanent foundation for mortgage insurance under Title II. The Department views such proposals as intended to encourage the extension of mortgage insurance to such properties without indicating a lack of present authority to do so.

The Department, therefore, is extending the eligibility of Title II mortgage insurance to newly constructed manufactured homes which comply with the Manufactured Home Construction and Safety Standards and are attached permanently to a site-built permanent foundation meeting Minimum Property Standards requirements. The site, site improvements, and all other features of the mortgaged property not addressed by the Manufactured Home Construction and Safety Standards must meet or exceed the applicable requirements of the Minimum Property Standards.

In certain limited respects, the Department proposes to impose certain eligibility requirements for mortgage insurance in areas involving the manufactured structure itself which are addressed by the Manufactured Home Construction and Safety Standards. As insurer, the Department is subject to actuarially unknown risks in extending insurance to mortgages on manufactured housing, and therefore the Department is imposing these additional requirements that are believed to be cost-beneficial to

the buyer and will enhance the adequacy of the property as security for mortgages insured under Title II. The additional requirements provide greater structural durability and resale potential as realty, thus assuring that the loans may be economically sound investments and otherwise acceptable risks for homeowners who qualify for insured single family mortgage loans.

The Department also is confirming the eligibility of existing properties involving a manufactured home for mortgage insurance. This eligibility is not limited, as formerly, to double-wide homes but will include any manufactured home constructed in conformance with the Manufactured Home Construction and Safety Standards having a 400 square foot minimum floor area. Consistent with the Department's single-family mortgage insurance programs, an "existing property" is one where the manufactured home has been permanently affixed to the site for more than one year prior to the application for insurance. The expiration of this minimum life on site permits insurance valuation on the basis of the simpler standards applied for eligibility of existing properties.

Section-by-Section Analysis

24 CFR 200.925, which requires generally that all housing constructed under HUD mortgage insurance and low-rent housing programs shall meet or exceed HUD Minimum Property Standards, is proposed to be amended to limit its applicability to manufactured homes only to the extent provided by new § 203.43f, which is proposed to be added to an existing series of provisions in Part 203, Subpart A, establishing requirements for special situation mortgages. Section 203.43f provides that a mortgage covering a one-family manufactured home (as defined in 24 CFR § 3280.2(a)(16)) which meets the requirements of Part 203, Subpart A, except as modified by the further provisions of the section, shall be eligible for insurance pursuant to Subpart A.

Subsection (a) of § 203.43f states the requirement of compliance with the Manufactured Home Construction and Safety Standards as evidenced by the manufacturer's certification label. It also sets an insurance eligibility requirement of 400 square feet minimum floor area for the manufactured home. Amendments adopted in 1980 to the National Manufactured Housing Construction and Safety Standards Act altered the size dimensions contained in the definition of manufactured home so as to include units of 320 or more square feet. However, the conference report on the 1980 amendments directed the Secretary to consider differing, more flexible standards for smaller manufactured homes (such as park models) where square footage is between 320 and 400 square feet. Also, most smaller manufactured homes are designed not for permanent anchoring to a permanent foundation but for frequent transportation. In its recent implementation of the 1980 statutory amendments, the Department noted its intent to address the question of standards for application to smaller units in the near future (47 FR 28091 (June 29, 1982)). In anticipation of this separate treatment of smaller units, the Department believes it appropriate to limit mortgage eligibility to units covered by the full Manufactured Home Construction and Safety Standards.

The Department also notes a related issue regarding what traditionally have been referred to as "modular homes." Prior to enactment of the National Manufactured Housing Construction and Safety Standards Act in 1974, modular housing which satisfied the requirements of HUD's Minimum Property Standards was considered eligible for Title II mortgage insurance. Because more modular homes fell within the definition of "manufactured home" adopted by the statute, the Department, by regulation, exempted from the requirements of the new legislation structures manufactured in accordance with HUD's Minimum Property Standards or, alternatively, with one or another of a specified group of model building codes. The Department's approach was confirmed legislatively by Section 902 of the Housing and Community Development Act of 1977, which added subsection (h) to Section 604 of the National Manufactured Housing Construction and Safety Standards Act (42 U.S.C. 5403(h)). The amendment authorizes the Secretary to exclude from coverage of the safety and construction standards requirements any structure

> * * *which the manufacturer certified, in a form prescribed by the Secretary, to be:
>
> (1) Designed only for erection or installation on a site-built permanent foundation;
>
> (2) Not designed to be moved once so erected or installed;
>
> (3) Designed and manufactured to comply with a nationally recognized model building code or an equivalent local code, or with a State or local modular building code recognized as generally equivalent to building codes for site-built housing, or with minimum property standards adopted by the Secretary pursuant to title II of the National Housing Act; and
>
> (4) To the manufacturer's knowledge is not intended to be used other than on a site-built permanent foundation. 42 U.S.C. 5403(h).

The exemption provision is implemented at 24 CFR 3282.12. It provides that exemption will be evidenced by the certification label, affixed in a permanent manner, which, among other things, identifies the qualifying code in compliance with which the structure has been manufactured.

The Department continues to regard modular homes not subject to the Manufactured Housing Construction and Safety Standards Act as eligible for Title II insurance if they meet the Minimum Property Standards. As noted, however, compliance with the Minimum Property Standards is only one of a series of alternative bases considered substantially equivalent to each other for exemption from the construction and safety standards. The Department therefore solicits comment on the question of whether manufactured homes meeting the exemption requirements on the basis of compliance with codes other than the Minimum Property Standards should be equally eligible for Title II mortgage insurance.

Subsection (b) of § 203.43f requires that the insured mortgage covering the manufactured home and site constitute a mortgage on real estate and limits the term of the mortgage to not more than 30 years. 24 CFR 203.17(e), which limits mortgage maturities to not in excess of three-fourths of the remaining economic life of the building improvements, is made inapplicable. The statutory basis of this regulatory requirement was repealed in 1980, and the Department intends to revoke this regulation. However, because of uncertainty regarding the useful economic life of manufactured housing (due to the fact that the Manufactured Home Construction and Safety Standards have been in effect only seven years), the Department has determined that a 30-year maximum term is prudent and, accordingly, that the provisions of § 203.17(d) (i) and (ii), permitting maturities of up to 35 years in certain circumstances, will not apply.

Subsection (c) contains the further requirements applicable to a manufactured home which has not been permanently erected on a site for more than one year.

Clause (i) of subsection (c) requires that the manufactured home be permanently attached to a permanent foundation that meets the Minimum Property Standards. The regulation precludes any intent to move the home to another location and is intended to

make the manufactured home on its foundation a structural entity comparable to a stick-built house on its foundation. Clause (i) further requires that the site itself (which includes utilities) and all site improvements, including but not limited to driveways, walks, patios, porches, carports and garages meet the applicable requirements of the Minimum Property Standards for One- and Two- Family Dwellings. The only deviation from the Minimum Property Standards is the requirement that the finish grade level beneath the dwelling be at or above the 100-year return frequency flood elevation instead of the 50-year return frequency flood elevation currently required by § 311–2 of the Minimum Property Standards. The National Flood Insurance Program damage projections indicate that manufactured housing is more susceptible to flood damage than sitebuilt housing because of the materials used. Therefore, this higher elevation is required to minimize a possible risk to the insurance fund.

Clause (ii) of subsection (c) requires a continuous perimeter enclosure constructed of a material that conforms to the Minimum Property Standards requirements for foundations. This enclosure may or may not be the supporting foundation of the manufactured home, depending upon its structural characteristics. If it is the supporting foundation, as set forth in clause (i), it must meet Minimum Property Standards requirements and be able to resist all design loads identified in § 601 of the Minimum Property Standards. If it is not the supporting foundation, it must resist whatever forces to which it may be subject without transmitting adverse forces to the building superstructure.

Clause (iii) of subsection (c) prescribes thermal requirements that are more energy-conservative than those included in the current Manufactured Home Construction and Safety Standards. They are set at a level which will have a projected five-to-seven year payback in energy cost savings for a typical manufactured home and which the Department believes is currently being met by some manufacturers. Zone I covers the same area as in the present Manufactured Home Construction and Safety Standards. The following States have been removed from Zone II and added to Zone III: Montana, Wyoming, North and South Dakota, Minnesota, Wisconsin, Michigan, Maine, New Hampshire and Vermont.

Clause (iv) of subsection (c) results from a study contracted by HUD which concluded that highway shock and vibration adversely affected long-term structural durability, shortening the useful economic life of manufactured housing. Unlike a site-built house, by the time a manufactured home is ready for occupancy, it has already lost a percentage of its useful economic life due to stresses on the structure during transportation to its permanent foundation. Tests conducted in the course of the study indicated that this degradation, which can result in loosened joints, poorly fitting windows and doors and leaky roofs, could be significantly reduced if manufactured homes, particularly double-wide manufactured homes, were properly cross-braced and stiffened during transportation. The Department has determined that this requirement is cost-effective for manufactured homes to be insured under Title II. The transportation period is considered to begin when the manufactured home leaves the manufacturer and to continue until the manufactured home is placed upon its permanent foundation.

Clause (v) merely clarifies that the requirement of approval of a dwelling for insurance prior to construction does not apply to the manufactured unit itself but only to site improvements.

Clause (vi) modifies the standard warranty. The additional requirements are the delivery of the manufacturer's warranty which is required when the Department insures the purchase of a manufactured home under Title I, and provisions warranting that no hidden damage was sustained during transportation. In the case of a double-wide manufactured home, the warranty shall also provide that the sections were properly joined and sealed.

Subsection (d) of § 203.43f contains the further requirements applicable to a manufactured home which has been permanently erected on a site for more than one year and is proposed for mortgage insurance as existing housing. The requirements are based on Notice H–80–95, referred to above. Clause (i) requires that the existing manufactured home be permanently anchored to and supported by permanent footings and have permanently installed utilities protected from freezing, and that the space beneath the home be a properly enclosed crawl space. Clause (ii) requires that all features of the mortgaged property not addressed by the Manufactured Home Construction and Safety Standards comply with the abbreviated minimum property standards applicable to existing properties, except for the same deviation discussed above in connection with Clause (i) of Subsection (c). Requirements for Existing Housing (Handbook 4905.1) only states that the dwelling not be located so as to be subject to damage from flood. For Title II insurance purposes for existing manufactured homes, the finish grade level beneath the manufactured home must also be at or above the 100-year return frequency flood evaluation.

Clause (iii) of subsection (d) states a requirement not contained explicitly in Notice H–80–95. It provides that the manufactured home shall have been occupied only at the location covered by the insured mortgage. The Department believes this requirement to be necessary for acceptability of the insurance risk because of the greater degradation that may be experienced as a result of several transportations and which may not be apparent at the time of appraisal. The Department does not believe that this requirement will result in a significant limitation on the availability of mortgage insurance.

Publication as Interim Rule

The Secretary has determined that delay of the effectiveness of this regulation until after receipt and consideration of public comment is unnecessary and contrary to the public interest. Support for the extension of mortgage insurance to manufactured housing permanently affixed to the land is widespread. The conditions on such eligibility which are stated in the regulation are minimal and, to a significant degree, are based upon existing practice. To the extent that some commentators may believe that even certain of these minimal requirements may be unnecessary, the Department believes that most potentially eligible properties will meet all the requirements and, therefore, that there is no good reason to delay the eligibility of those properties pending refinements that may only further expand eligibility. The Secretary also believes that it will be in the public interest to assure the availability of mortgage insurance for proposed construction involving manufactured homes prior to the Spring 1983 building season. For these reasons, the Secretary has determined that the regulation should be published as an interim rule for early effectiveness, coupled with a solicitation of public comments to be considered in the formulation of a final rule.

Section 7(o) of the Department of HUD Act (42 U.S.C. 3535(o)(3)) provides that any regulation published by the Department may not become effective prior to expiration of the first period of 30 calendar days of continuous session

of Congress occurring after publication, unless such requirement is waived by the Chairmen and the Ranking Minority Members of the Senate Committee on Banking, Housing, and Urban Affairs and the House Committee on Banking, Finance and Urban Affairs. The current Congressional schedule will not permit satisfaction of this requirement until 30 session days after commencement of the 98th Congress in January 1983, which is likely to occur in late February or early March 1983. In view of the consideration stated above, the Secretary has requested the described waivers in order that the regulation may become effective at an earlier date. At the time of publication of this interim rule, it is not known whether or when such waivers will be granted. Under Section 7(o)(5) of the Department of HUD Act, "Congressional inaction on any rule or regulation shall not be deemed an expression of approval of the rule or regulation involved." The foregoing provision refers to inaction on a joint resolution of disapproval or other legislation which is intended to modify or invalidate the rule or regulation or any portion thereof, and the principle that such inaction does not imply Congressional approval applies, *a fortiori*, to a waiver of the nature requested by the Secretary.

In any event, notice of the effectiveness of this interim rule will be published in the **Federal Register**.

Other Findings

Pursuant to the provisions of 5 U.S.C. 605(b) (The Regulatory Flexibility Act), the undersigned hereby certifies that this rule would not have a significant economic impact on a substantial number of small entities, since its impact is limited to making mortgage insurance more readily available, on generally more favorable terms, to purchasers of qualifying manufactured homes.

This rule does not constitute a "major rule" as that term is defined in Section 1(b) of the Executive Order on Federal Regulation issued by the President on February 17, 1981. Analysis of the rule indicates that it does not: (1) Have an annual effect on the economy of $100 million or more; (2) cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50 which implements Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). The Finding of No Significant Impact is available for public inspection and copying during regular business hours in the Office of the Rules Docket Clerk, Room 10278, 451 Seventh Street, S.W., Washington, D.C. 20410.

This rule was listed as Item H–82–82 in the Department's Semiannual Agenda of Regulations published on October 28, 1982, (47 FR 48422, 48445) pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

The following numbers identify the programs, as listed in the Catalog of Federal Domestic Assistance, affected by the regulation.

Section 203(b)
- 14.117 Mortgage Insurance—Homes
- 14.118 Mortgage Insurance—Homes for Certified Veterans

Section 213
- 14.126 Mortgage Insurance—Management Type Cooperative Projects

Section 220
- 14.122 Mortgage Insurance—Homes in Urban Renewal Areas

Section 221(d)(2)
- 14.120 Mortgage Insurance—Homes for Low and Moderate Income Families

Section 222
- 14.166 Mortgage Insurance—Servicemen

Section 233
- 14.152 Experimental Housing

Section 234
- 14.133 Mortgage Insurance—Purchase of Units in Condominiums (f)

Section 235
- 14.147 Homeownership for Lower Income Families

Section 237
- 14.140 Special Mortgage Insurance for Low and Moderate Income Families

Section 244
- 14.161 Coinsurance

Section 245(a) and Section 245(b)
- 14.159 Section 245 Graduated Payment Mortgage Program

List of Subjects

24 CFR Part 200

Administrative practice and procedure, Claims, Equal employment opportunity, Fair housing, Housing standards, Loan programs—housing and community development, Mortgage insurance, Organization and functions (Government agencies), Reporting and recordkeeping requirements, Minimum property standards.

24 CFR Part 203

Home improvement, Loan programs—housing and community development, Mortgage insurance, Solar energy.

Accordingly, Subchapter A of Title 24 CFR is amended as follows:

PART 200—INTRODUCTION

1. Section 200.925 is revised as follows:

§ 200.925 Applicability of minimum property standards.

All housing constructed under HUD mortgage insurance and low-rent public housing programs shall meet or exceed HUD Minimum Property Standards, except that this requirement shall be applicable to manufactured homes eligible for insurance pursuant to § 203.43f of this Part only to the extent provided therein.

PART 203—MUTUAL MORTGAGE INSURANCE AND REHABILITATION LOANS

2. Section 203.43f is added, as follows:

§ 203.43f Eligibility of mortgages covering manufactured homes.

A mortgage covering a one-family manufactured home (as defined in 24 CFR 3280.2(a)(16)) that meets the requirements of this subpart, except as modified by this section, shall be eligible for insurance pursuant to this subpart.

(a) The manufactured home, when erected on site, shall have floor space area of not less than four hundred square feet and shall have been constructed in conformance with the National Manufactured Home Construction and Safety Standards as evidenced by a certification label affixed thereto in accordance with 24 CFR 3280.8.

(b) The mortgage shall cover the manufactured home and site, shall constitute a mortgage on a property classified and taxed as real estate, and shall have a term of not more than 30 years from the date of the beginning of amortization. Section 203.17(e) of this subpart shall not be applicable.

(c) In the case of a manufactured home which has not been permanently erected on a site for more than one year prior to the date of the application for mortgage insurance:

(i) The manufactured home shall be erected on a site-built permanent foundation that meets or exceeds applicable requirements of the Minimum Property Standards for One- and Two-Family Dwellings, 4900.1 (see 24 CFR 200.929(b)(1)) (MPS) and shall be

permanently attached thereto by anchoring devices adequate for all loads identified in the MPS. The towing hitch or running gear, which includes axles, brakes, wheels and other parts of the chassis that operate only during transportation, shall have been removed. The finished grade level beneath the manufactured home shall be at or above the 100-year return frequency flood elevation. The site, site improvements, and all other features of the mortgaged property not addressed by the Manufactured Home Construction and Safety Standards shall meet or exceed applicable requirements of the MPS.

(ii) The space beneath the manufactured home shall be enclosed by continuous foundation-type construction designed to resist all forces to which it is subject without transmitting forces to the building superstructure. The enclosure shall be adequately secured to the perimeter of the manufactured home and be constructed of materials that conform to MPS requirements for foundations.

(iii) The manufactured home shall have an overall coefficient of heat transmission ("U_o" value) calculated in accordance with the procedures of NFPA 501 BM–1976 ("Mobile Home Heating, Cooling Load Calculations") that does not exceed the following for all locations within the following climatic zones:

Zone I	.145
Zone II	.099
Zone III [1]	.087

NFPA 501 BM–1976 is incorporated by reference and is issued by and available from the National Fire Protection Association, Batterymarch Park, Quincy, MA 02269.

(iv) The manufactured home shall be braced and stiffened before it leaves the factory to resist racking and potential damage during transportation.

(v) The conditions of paragraphs (i) and (ii) of § 203.18(a)(2) of this subpart shall not apply to construction of the manufactured home but shall be applicable to improvement of the site, including construction of the site-built foundation.

(vi) Section 203.14 of this subpart is modified to the extent provided in this paragraph. Applications relating to insurance of mortgages under this paragraph (c) must be accompanied by an agreement in form satisfactory to the Commissioner executed by the seller or builder or such other person as the Commissioner may require agreeing that in the event of any sale or conveyance of the dwelling within a period of one year beginning with the date of initial occupancy, the seller, builder, or such other person will at the time of such sale or conveyance deliver to the purchaser or owner of such property the manufacturer's warranty on a form prescribed by the Commissioner, which shall provide that the manufacturer's warranty is in addition to and not in derogation of all other rights and remedies the purchaser or owner may have, and a warranty in form satisfactory to the Commissioner warranting that the manufactured home, the foundation, positioning and anchoring of the manufactured home to its permanent foundation, and all site improvements are constructed in substantial conformity with the plans and specifications (including amendments thereof or changes and variations therein which have been approved in writing by the Commissioner) on which the Commissioner has based his valuation of the dwelling. The warranty shall also include provisions that the manufactured home sustained no hidden damage during transportation, and if the manufactured home is a double-wide, that the sections were properly joined and sealed. Such agreement must provide that upon the sale or conveyance of the dwelling and delivery of the warranty, the seller, builder or such other person will promptly furnish the Commissioner with a conformed copy of the warranty establishing by the purchaser's receipt thereon that the original warranty has been delivered to the purchaser in accordance with this section.

(d) In the case of a manufactured home which has been permanently erected on a site for more than one year prior to the dae of the application for mortgage insurance:

(i) The manufactured home shall be permanently anchored to and supported by permanent footings and shall have permanently installed utilities that are protected from freezing. The space beneath the manufactured home shall be a properly enclosed crawl space.

(ii) The site, site improvements, and all other features of the mortgaged property not addressed by the Manufactured Home Construction and Safety Standards shall meet or exceed applicable requirements of the Requirements for Existing Housing—One to Four Family Living Units (Handbook 4905.1). The finished grade level beneath the manufactured home shall be at or above the 100-year return frequency flood elevation.

(iii) The manufactured home shall have been occupied only at the location subject to the mortgage sought to be insured.

(Secs. 203, 211, National Housing Act (12 U.S.C. 1709, 1715b); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d))

Dated: December 16, 1982.

Philip Abrams,

Assistant Secretary for Housing—Federal Housing Commissioner.

DEPARTMENT OF JUSTICE

Parole Commission

28 CFR Part 2

Paroling, Recommitting and Supervising Federal Prisoners

AGENCY: Parole Commission, Justice.

ACTION: Final rule.

SUMMARY: The Commission is correcting several clerical errors and making several interpretative clarifications to its final rule at 28 CFR 2.20, Paroling Policy Guidelines published on December 16, 1982 at 47 FR 56334. These corrections and clarifications were suggested by staff and Commissioners during staff training sessions.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Peter Hoffman, Research Director, United States Parole Commission, 5550 Friendship Boulevard, Chevy Chase, Maryland 20815, Tel: (301) 492–5980.

SUPPLEMENTARY INFORMATION:

PART 2—[AMENDED]

1. In FR Doc 82–33881, December 16, 1982, page 56336, second column, 28 CFR 2.20(d) is revised to more accurately reflect as part of the statement of policy the terminology of the new offense severity index as follows:

§ 2.20 Paroling policy guidelines; statement of general policy.

* * * * *

(d) The guidelines contain instructions for the rating of certain offense behaviors. However, especially mitigating or aggravating circumstances in a particular case may justify a decision or a severity rating different from that listed.

* * * * *

2. In 28 CFR 2.20, definition 231(b) on page 56337, third column is clarified by substituting the phrase "sexual

relationship" for the more ambiguous phrase "significant relationship" and by making explicit the relationship addressed in this section is a relationship between victim and offender. The revised definition reads as follows:

231 *Forcible Rape or Forcible Sodomy*

* * * * *

(b) *Exception:* If a prior consensual sexual relationship between victim and offender is present, grade as Category Six.

3. In 28 CFR 2.20, definition 311(a) on page 56338, first column is clarified to explain that the Commission intends this section only to apply to facilities similar to an armory and not facilities such as a retail store. The revised definition reads as follows:

311 *Burglary or Unlawful Entry*

(a) If the conduct involves an armory or similar facility (e.g., a facility where automatic weapons or war materials are stored) for the purpose of theft or destruction of weapons or war materials, grade as Category Six;

* * * * *

4. In 28 CFR 2.20 definition 616 on page 56339, first column is clarified by substituting the phrase "in connection with" for the phrase "while in custody" to remove any possible ambiguity from this section as it applies to failure to appear since the term "while in custody" could be misinterpreted as referring only to confinement status. The revised definition reads as follows:

616 *Escape or Failure To Appear*

If in connection with another Federal offense for which a severity rating can be assessed, grade the underlying offense and apply the rescission guidelines to determine an additional penalty. Otherwise, grade as Category Three.

5. In 28 CFR 2.20 definition 901(e) on page 56339, third column is corrected to remove a clerical error in the cross reference to the definition of "large scale." The corrected definition reads as follows:

901 *Distribution or Possession With Intent To Distribute*

* * * * *

(e) If large scale [see paragraph (d)], and no proprietary or managerial role, grade as Category Five;

* * * * *

6. In 28 CFR 2.20 provision 931(c) on page 56340, second column is corrected to include 200,000 doses in the example of large scale. Through a clerical error the 200,000 dose amount was previously omitted: very large scale included more than 200,000 doses, and large scale included up to 199,999 doses. This modification corrects this error and places 200,000 doses in the less serious of the two categories. The corrected provision reads as follows:

931 *Distribution or Possession With Intent To Distribute*

* * * * *

(c) If large scale (e.g., involving 20,000–200,000 doses), grade as Category Five;

* * * * *

7. In 28 CFR 2.20, provision 931(d) on page 56340, second column is corrected by changing 199,999 to 19,999 doses. This was a printing error and its correction affirms the Commission's previous example of medium scale for drug offenses of this type. Any confusion which this error might have caused for amounts of 20,000 to 200,000 doses would have been resolved by General Note 1 which provides that if an offense behavior can be classified under more than one category, the most serious category is to be used. Under this Note, even prior to correction of this error, 20,000 to 200,000 doses would be rated under the more serious category, i.e., large scale. The corrected provision reads as follows:

931 *Distribution or Possession With Intent To Distribute*

* * * * *

(d) If medium scale (e.g., involving 1,000–19,999 doses), grade as Category Four;

* * * * *

8. In 28 CFR 2.20, Chapter Thirteen, General Notes and Definitions, Subchapter A—General Notes 2 on page 56341, first column is modified to make clear that in cases graded as Category Seven multiple separate offenses are not to be taken account of by increasing the severity level but by a decision above the guidelines. There is a large gap of months between the top of the Category Seven guideline range and the bottom of the Category Eight guideline range. This modification makes clear that multiple separate offenses in cases graded as Category Seven may, where the circumstances warrant, be sanctioned without necessarily continuing the prisoner into the much longer time frames of Category Eight, although this does not preclude a decision above the base of the Category Eight guidelines where the specific aggrevating case circumstances warrant. The revised note reads as follows:

CHAPTER THIRTEEN—GENERAL NOTES AND DEFINITIONS

SUBCHAPTER A—GENERAL NOTES

* * * * *

2. If an offense behavior involved multiple separate offenses, the severity level may be increased. Exception: in cases graded as Category Seven, multiple separate offenses are to be taken into account by consideration of a decision above the guidelines rather than by increasing the severity level.

* * * * *

Dated: February 14, 1983.

Benjamin F. Baer,

Chairman, Parole Commission.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[PP 8E2048/9E2229/0E2345/2E2611/R515; PH-FRL 2311-3]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Paraquat

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes tolerances for residues of the desiccant, defoliant, and herbicide paraquat in or on a variety of raw agricultural commodities and crop groups. The regulation to establish maximum permissible levels for residues of the pesticide in or on the commodities and crop groups was submitted, pursuant to a petition, by the Interregional Research Project No. 4 (IR–4).

EFFECTIVE DATE: Effective on February 24, 1983.

ADDRESS: Written objections may be submitted to the Hearing Clerk (A–110), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Donald Stubbs, Emergency Response Section, Process Coordination Branch, Registration Division (TS–767C), Environmental Protection Agency, Rm. 716B, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–1192).

SUPPLEMENTARY INFORMATION: EPA issued a notice of proposed rulemaking published in the **Federal Register** of December 29, 1982 (47 FR 57975) that announced that the Interregional Research Project No. 4 (IR–4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, has submitted the following pesticide petitions to EPA on behalf of the IR–4 Technical Committee and the named Agricultural Experiment Stations: 0E2345 on behalf of the Agricultural Experiment Stations of Arkansas, California, Florida, Georgia, Illinois, Kentucky, Louisiana, Maryland, Michigan, New Jersey, New York, North Carolina, Ohio, Texas, and Washington;

9E2229 and 2E2611 on behalf of the Agricultural Experiment Station of California; and 8E2048 on behalf of the Agricultural Experiment Stations of Idaho, Indiana, Oregon, Washington, and Wisconsin, and the United States Department of Agriculture.

Pesticide petition 0E2345 requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose the establishment of tolerances for residues of the desiccant, defoliant, and herbicide paraquat (1,1'-dimethyl-4,4'-bipyridinium ion), resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the following raw agricultural commodities and crop groups: beans (lima, snap) (succulent form), cabbage, carrots, cauliflower, Chinese cabbage, collards, cucurbits (watermelon, cantaloupe/muskmelon, pumpkin, squash, cucumber), fruiting vegetables (eggplants), peas (succulent form), and turnips (top and roots) at 0.05 part per million (ppm); beans (forage) at 0.1 ppm; and peas (forage) at 0.2 ppm. The petition was later amended to include proposed tolerances for beans (hay) at 0.4 ppm and peas (hay) at 0.8 ppm.

Petitions 9E2229 and 2E2611 requested that the Administrator propose the establishment of tolerances for residues of paraquat, resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the raw agricultural commodities kiwifruit (PP 2E2611) and pistachio nuts (9E2229) at 0.05 ppm.

Petition 8E2048 requested that the Administrator propose the establishment of a tolerance for residues of paraquat, resulting from application of either the bis(methyl sulfate) or the dichloride salt (both calculated as the cation), in or on the raw agricultural commodity mint hay at 0.5 ppm.

A related document, [FAP 8H5181/R130], establishing a regulation permitting residues of paraquat in spent mint hay at 3.0 ppm appears elsewhere in this issue of the **Federal Register.**

The data submitted in the petition and other relevant material have been evaluated and discussed in the notice of proposed rulemaking. The pesticide is considered useful for the purpose for which the tolerances are sought. It is concluded that the tolerances would protect the public health and are established set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the **Federal Register,** file written objections with the Hearing Clerk, at the address given above. Such objections should specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and the grounds for the objections. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346(a)(e)))

List of Subjects in 40 CFR Part 180

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 82-623; RM-4159]

FM Broadcast Station in Bakersfield, California; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns a fifth FM channel to Bakersfield, California, in response to a petition filed by Daniel Rushton.

DATE: Effective April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Bakersfield, California); BC Docket No. 82-623, RM-4159; Report and Order (Proceeding Terminated).

Adopted: January 26, 1983.

Released: February 11, 1983.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration the *Notice of Proposed Rule Making,* 47 FR 40454, published September 14, 1982, proposing the assignment of Channel 221A to Bakersfield, California, as its fifth FM assignment. The *Notice* was issued in response to a petition filed by Daniel Rushton ("petitioner"). Supporting comments were filed by the petitioner and by Dr. Anetha Baxter [1], both stating

[1] Dr. Baxter's comments were filed after the comment period ended. A waiver of §§1.514 and 1.420 of the Rules was requested noting that she was only recently made aware of the proposed assignment. Since the comments merely state an interest in the assignment, we accept Dr. Baxter's late filed comments.

their intent to apply for the channel, if assigned.

2. The channel can be assigned in compliance with the minimum distance separation requirements. After consideration of the proposal and comments in this proceeding, we have concluded that the public interest would be served by assigning a fifth FM channel to Bakersfield.

3. Accordingly, pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is ordered, That effective April 12, 1983, the FM Table of Assignments, §73.202(b) of the Commission's Rules, is amended with respect to the community listed below:

City	Channel No.
Bakersfield, Calif.	221A, 231, 243, 268, and 300.

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

47 CFR Part 73

[BC Docket No. 82-665; RM-4175]

FM Broadcast Station in Payette and Weiser, Idaho; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein substitutes FM Class C Channel 262 for Channel 261A at Payette, Idaho, modifies the Class A license accordingly; and substitutes Channel 257A for Channel 265A at Weiser, Idaho, in response to a petition filed by Blue Mountain Broadcasting Company.

DATE: Effective April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Payette and Weiser, Idaho); BC Docket No. 82–665, RM–4175; Report and Order (Proceeding Terminated).

Adopted: January 21, 1983.

Released: February 11, 1983.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, 47 FR 43743, published October 4, 1982, proposing the substitution of Class C Channel 262 for Channel 261A at Payette, Idaho, and the substitution of Channel 257A for Channel 265A at Weiser, Idaho, in response to a petition filed by Blue Mountain Broadcasting Company ("petitioner").[1] The *Notice* also proposed modification of the license for FM Station KWBJ (Channel 261A) to specify operation on Channel 262. Comments were filed by Mountain Land Broadcasting (applicant for Channel 265A at Weiser, Idaho), to which the petitioner responded.[2]

2. Mountain Land comments that it filed an application for Channel 265A on August 19, 1982. Mountain Land adds that it neither supports nor opposes the proposed substitution of channels at Weiser, as either channel would be adequate for the service it proposes. However, Mountain Land argues that the channel change should be conditioned upon the petitioner providing reimbursement for any reasonable and prudent expenses incurred in modifying its pending application to specify Channel 257A rather than Channel 265A. Additionally, it requests that the reimbursement package include further expenses to adapt to a full or partially constructed station to a new frequency, provided that construction has begun on Channel 265A before the rule making is adopted.

3. Petitioner in response states that it is not opposed to Mountain Land's request for reasonable and prudent expenditures in modifying its application or in changing the facility if construction has already begun.

4. After carefully considering the proposal and comments filed in response to the *Notice*, we conclude that the public interest would be served by the adoption of the proposed channel substitution at Payette in order to provide an increase in coverage by petitioner's station. In addition, we have authorized in paragraph 6 a modification of the petitioner's license for Station KWBJ(FM) (Payette, Idaho) to specify operation on Channel 262, since there has been no other expression of interest in the Class C channel. See *Cheyenne, Wyoming*, 62 F.C.C. 2d 63 (1976). We shall also substitute Channel 257A for Channel 265A at Weiser to avoid short spacing to the proposed Channel 262 at Payette. With respect to the reimbursement issue, the Commission does not generally require reimbursement for an applicant's expenses. Here, we shall take no position on petitioner's willingness to reimburse Mountain Land for expenses incurred in the changeover. We view that as a private matter between the affected parties.

5. Accordingly, pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is ordered, That effective April 12, 1983, the FM Table of Assignments, § 73.202(b) of the Rules, is amended with respect to the communities listed below:

City	Channel No.
Payette, Idaho	262
Weiser, Idaho	257A

6. It is further ordered, pursuant to the authority contained in § 316 of the Communications Act of 1934, as amended, that the license of Station KWBJ(FM), Payette, Idaho, is modified to specify operation on Channel 262, subject to the following conditions.

(a) The licensee shall file with the Commission a minor change application for a construction permit (Form 301), specifying the new facility.

(b) Upon grant of the contruction permit, program tests may be conducted in accordance with § 73.1620.

(c) Nothing contained herein shall be construed to authorize a major change in transmitter location or to avoid the necessity of filing an environmental impact statement pursuant to § 1.1301 of the Commission's Rules.

7. It is further ordered; That this proceeding is terminated.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau (202) 634–6530.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

---

[1] Blue Mountain Broadcasting Company is the licensee of Station KWBJ (FM), Payette, Idaho.

[2] Petitioner failed to file comments indicating its continued interest in the substitution of channels as requested in the Appendix to the *Notice*. However, we believe it is reasonable to acknowledge the continuing interest by virtue of its statements in the reply comments.

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

BILLING CODE 6712-01-M

47 CFR Part 73

[BC Docket No. 82-350; RM-4080]

FM Broadcast Station in Bay Shore, New York; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule

SUMMARY: Action taken herein denies a request to assign FM Channel 276A to Bay Shore, New York, as that community's first local aural service, in response to a petition filed by Living Communications, Inc. The proposal was denied for failure to comply with the minimum mileage separation requirements of § 73.207(a). Petitioner's request for waiver was not justified for failure to supply a compelling reason.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Mass Media Bureau, (202) 634-6530.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Bay Shore, New York); BC Docket No. 82-350 RM-4080; Report and Order (Proceeding Terminated).

Adopted: January 31, 1983.

Released: February 14, 1983.

By the Chief, Policy and Rules Division.

1. The Commission herein considers the *Notice of Proposed Rule Making*, 47 FR 29856, published July 9, 1982, proposing the assignment of Channel 276A to Bay Shore, New York, as its first FM allocation. Comments were filed by petitioner in which it reaffirmed its intention to apply for the channel, if assigned. Comments were also filed by the following: Doubleday Broadcasting of New York, Inc. ("Doubleday"), licensee of FM Station WAPP (Channel 278), Lake Success, New York; Buckley Broadcasting Corporation of Connecticut ("Buckley"), licensee of Station WDRC-FM (Channel 275), Hartford, Connecticut; and Metromedia, Inc. ("Metromedia"), licensee of Station WNEW-FM (Channel 274), New York. Petitioner and opponents all filed reply comments.

2. In order to accommodate its request, petitioner proposed a transmitter site 3.1 miles east of Bay Shore, in an area which is said to contain numerous suitable antenna sites. However, our staff engineering study revealed that the proposal required a transmitter siting 4 miles south of Bay Shore to avoid short-spacing to Stations WDRC-FM, Hartford, Connecticut, and WNEW, New York, New York. That area is close to the Atlantic Ocean and therefore we questioned whether an on-shore site could be found.

3. Although we generally are not concerned with site availability at the rule making stage of a proceeding, we do inquire whether a non-short-spaced transmitter site is possible. The question was relevant here particularly because this same channel had been deleted from Bay Shore due to the unavailability of suitable sites (*Bay Shore, New York*, 25 F.C.C. 2d 877 (1970)). The restricted location required placing the transmitter on a portion of Fire Island, located within the Fire Island National Seashore. That extremely limited area was the only possible one due to spacing requirements, the close proximity of the Atlantic Ocean, and environmental considerations. Also, in order to provide the required 3.16 mV/m contour over Bay Shore, a 300 foot tower was required.

4. At the time the assignment was originally made, environmental impact was not considered. The National Environmental Policy Act of 1969, 42 U.S.C. 4321-4347, had recently been enacted. That Act directs, *inter alia*, that all agencies of the Federal Government invoke or implement the environmental impact statement process before deciding on legislative or other major agency actions which would have a significant effect on the quality of the human environment. Further, it required that, before making an environmental statement, the initiating agency is responsible for consulting with and obtaining the comments of any other Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved.

5. Since the available antenna locations would have been located within a national preserve falling within the jurisdiction of the Department of the Interior or the National Park Service, the Department of the Interior filed comments in opposition to the assignment.

6. As a consequence of the opposition, the Commission determined that, although the assignment would have provided Bay Shore residents an opportunity to receive a first local broadcast service, the environmental impact involved outweighed retaining the channel in the Table. Therefore, the Commission rescinded its earlier action and deleted the allocation from the FM Table of Assignments. See *Bay Shore, New York, supra.*

7. In view of this background, we requested in the *Notice* that petitioner provide evidence that a suitable transmitter location could now be found. Further, we requested that petitioner demonstrate in its comments the extent to which it coordinated its proposal with applicable Federal, State and local authorities to obtain approval for use of its site, and a technical showing to demonstrate that such site could place a city-grade signal over all of Bay Shore.

8. In their comments, opponents uniformly expressed the view that petitioner most likely would be unable to secure a transmitter site which would comply with all applicable spacing, zoning and environmental requirements due to the scarcity of available land in the Bay Shore area to accommodate the proposal.

9. Doubleday remarked that in addition to the environmental considerations set forth in the *Notice*, the Bay Shore proposal is also subject to constraints imposed by the National Historic Preservation Act of 1966, 16 U.S.C. 470. Specifically, it claimed that the area in which a transmitter might be located to avoid short-spacing (*i.e.*, approximately 4 miles south of Bay Shore), contains the Fire Island Light Station, on the Robert Moses Causeway, which is listed in the National Register of Historic Places. Thus, a transmitter site near this historic landmark would also require compliance with the provisions of that Act.

10. Further, Doubleday claimed that the instant proposal, if granted, would create interference to its Station WAPP listening audience, as well as inhibit it from ever relocating its transmitter to a site in that direction.

11. Moreover, according to Doubleday's consulting engineer, New York FM Stations WCTO, Smithtown, WALK-FM and WBLI, Patchogue, and WBAB, Babylon, all are within 15 miles of Bay Shore and provide at least 1 mV/m service thereto. Therefore, Doubleday asserted that the requested Bay Shore assignment should not be premised on a need for service.

12. Metromedia asserted that even if other environmental approvals could be obtained, it would be extremely difficult to procure local zoning clearance in the Bay Shore area to accommodate the

required 300-foot tower to provide city-grade service.

13. Additionally, Metromedia claimed that petitioner should have demonstrated initially whether the environmental matters entailed herein had received approval of the pertinent Federal agencies; whether its proposed site conformed to local zoning ordinances; and whether petitioner had reasonable assurance it could utilize such a site.

14. Buckley remarked that while an assignment to Bay Shore may be desirable from an allocations standpoint to provide that community with its first local broadcast station, it would be undesirable to do so at the expense of its own Station WDRC–FM since the proposed station would impair its ability to effectively compete in the marketplace.

15. In response to our request for information in the *Notice*, petitioner commented that in order to obviate short-spacing to Station WDRC in Hartford, Connecticut, it would be necessary to site its transmitter approximately 5.8 miles south of the reference point specified in its petition. However, it notes that area would place the transmitter either in the Great South Bay, or on Fire Island, the latter of which it concedes is unavailable for a transmitter.

16. Consequently, as an alternative solution, petitioner proposes to utilize the existing transmitter site and tower of its Station WLIX(AM), in Islip, New York, which is east of Bay Shore. Petitioner claims such existing tower meets Federal and State regulations as well as local zoning requirements. Further, it advises that the terrain surrounding Islip is relatively flat, whereas the WLIX(AM) tower is 320 feet high. Therefore, it claims the HAAT would be approximately 300 feet, as required for its proposal. Thus, according to petitioner, since no point in Bay Shore is more than four miles from the proposed Islip site, the requisite 70 dBu signal could be placed over the community.

17. However, as petitioner recognizes, the proposed Islip location would be short-spaced to Station WDRC(FM), in Hartford, Connecticut, by 5.8 miles. In an effort to prevent objectionable interference to that station, petitioner advises it would use a directional antenna "with a deep null in the antenna pattern." It claims that because the area south of Bay Shore consists of water, such an antenna system could additionally direct otherwise dissipated energy over Bay Shore. This course of action, it remarks, has occasionally been permitted under similar circumstances along the Florida and Gulf Coast areas.

18. Petitioner alleges that it has "checked" with pertinent governmental bodies regarding its proposed antenna site requirements and "finds" the present WLIX(AM) site meets all their requirements. Additionally, petitioner advises it contacted pertinent Bay Shore City management and was informed that the WLIX site is the only available one in the immediate vicinity. Thus, it claims use of the WLIX site would eliminate the environmental constraints previously imposed on a Bay Shore assignment and questioned here.

19. All three opponents note in their reply comments that § 73.316(c) of the Commission's Rules strictly prohibit use of a directional antenna to reduce mileage separation requirements for FM allocation purposes, citing *Revision of FM Rules*, 23 R.R. 1801, 1833 (1962), *recons. den.* 23 R.R. 1859, 1876 (1963); *Lexington, Kentucky*, 46 R.R. 2d 354–5 (1979); and *Basic Media, Ltd.* v. *F.C.C.*, 559 F. 2d 830 (D.C. Cir. 1977), which upheld the Commission's essential objective to uphold the integrity of the FM Table of Assignments based on required mileage separations.

20. Moreover, Metromedia notes that in BC Docket No. 80–90 *(Modification of FM Broadcast Station Rules To Increase the Availability of Commercial Broadcast Assignments*, 47 R.R. 2d 916 (1980)), the Commission, while setting forth numerous proposals to relax the FM allocation rules, specifically declined to consider directionalized antennas in connection with the rule making proceeding, noting it reserved consideration thereof for the future.

21. Metromedia asserts that rather than address the Commission's longstanding policy against short-spaced directionalized FM facilities, petitioner seems to rest its proposal on § 73.209(c) of the Rules which permit short-spacing in limited situations where an application specifies an antenna site in a designated antenna farm area. Since such is not the case here, Metromedia claims that § 73.209(c) is totally irrelevant to petitioner's proposal.

22. Opponents also assert that petitioner has neglected to present evidence demonstrating that it has a site which could comply with §§ 73.207 and 73.208(a)(4) of the Commission's Rules. This, Buckley maintains, is evidenced by petitioner's proposed use of the WLIX tower in Islip, which petitioner acknowledges would contravene § 73.207 with respect to Station WDRC–FM in Hartford, Connecticut. Likewise, Doubleday claims that if the Islip site is permitted using a directional antenna, it could cause interference to nearly twice as many persons as the Bay Shore transmitter site would generate.

23. Metromedia advises that in addition to the four FM signals received in Bay Shore, clear channel AM Stations WNBC and WCBS, located approximately 29.5 miles therefrom provide 2.0 mV/m service to the community. In light of the broadcast services available to Bay Shore, opponents assert that petitioner has not demonstrated any compelling need to justify its proposed assignment.

24. In reponse to these opposition comments, petitioner does not dispute that a transmitter siting is not possible on Fire Island, but reiterates that its alternate proposal to utilize the WLIX(AM) tower meets all local zoning requirements and eliminates environmental considerations. Petitioner reasserts that by utilizing a modified directional antenna, Station WDRC(FM), Hartford, would be afforded protection from interference equivalent to that which § 73.207 would afford.

25. While recognizing that § 73.209(c) applies to sites within a designated antenna farm, petitioner claims such provisions should apply here since special circumstances exist due to environmental constraints which contribute to a scarcity of available land in the area. Thus, petitioner urges waiver of § 73.207 to enable implementation of its proposal to provide Bay Shore with its first local FM service.

26. Petitioner also disclaims that its proposal would cause interference to the listening audience of Doubleday's Station WAPP in Lake Success, New York, since there would be no overlap of contour and a licensee is not protected beyond its interference-free contours. Further, as to the impact on Doubleday in relocating its transmitter site in the future, r etitioner notes there is no basis for speculating on a potential change in site as a basis for denying a present request for an assignment.

27. At the outset, we note that petitioner failed to supply documented evidence from any Federal, State, or local authority and acknowledged that it cannot satisfy the requirements of § 73.207(a) of our Rules regarding an available site in the Bay Shore vicinity due to environmental constraints.

28. As an alternative, petitioner proposes to utilize its WLIX(AM) tower site in Islip, New York. However, that site would cause short-spacing to Station WDRC–FM in Hardford, Connecticut, since § 73.207 of the Rules requires a separation of 65 miles between a Class B station and a first adjacent Class A, whereas the distance

involved here is 59.2 miles. In an attempt to reduce this interference factor, petitioner not only proposes use of a directional antenna, but urges that we waive the requirements of § 73.207 and apply § 73.209 to its proposal instead. Petitioner claims that by utilizing a directional antenna, it could achieve the same benefit as would § 73.207, *i.e.*, protection from interference.

29. We find that the proposal must fail for several reasons. First, petitioner has argued that despite the short-spacing violation that its proposal entails, no interference would be generated to Station WDRC(FM) in Hartford, Connecticut, if it employs a directional antenna. However, the Commission's standards of protection are not based on interference considerations. See, *Millington, Maryland*, 45 R.R. 2d 1669 (1979), and *Lexington, Kentucky*, 46 R.R. 2d 354 (1979). Moreover, § 73.316 of the Rules does not permit directional antennas to reduce the minimum mileage separation requirements. This is further reinforced by the dismissal of reconsideration in BC Docket No. 80–90 *(Modification of FM Broadcast Station Rules To Increase the Availability of Commercial FM Broadcast Assignments)*, 47 R.R. 2d 916 (1980), wherein we noted that directional antennas have been approved to permit superpowered grandfathered stations to increase power and to encourage the location of transmitters on antenna farms. Beyond this, we declined to address the issue of directionalized antennas in connection with rule making proceedings, stating we reserved consideration thereof for the future.

30. Secondly, while we have occasionally granted requests for waiver of § 73.207, this has only been done in connection with applications for existing channels. The Commission has customarily held that a showing of need for the channel assignment must be compelling before a waiver of § 73.207 could be justified. See, *e.g., Frenchtown, New Jersey*, Mimeo No. 6378, released September 17, 1982; *Toms River, New Jersey*, 43 F.C.C. 2d 414 (1973); *Portland, Tennessee*, 35 F.C.C. 2d 601 (1972); and *Vass, North Carolina*, Mimeo No. 19852, released July 30, 1979. Thus, we do not take waiver requests lightly and consequently, have never granted a short-spaced assignment in a rule making proceeding, as to do so would weaken the very purposes we are attempting to serve. The reason for the heavy onus placed upon those seeking waiver is the emphasis we place on the foundation of the Table of Assignments, the mileage separation between channels. As a result, we recognize the regrettable fact that not every community will be able to obtain local service. See, *Anamosa and Iowa City, Iowa*, 46 F.C.C. 2d 520 (1974). Here, petitioner's showing that a first local service could be provided is insufficient to justify a waiver of § 73.207(a). See, *Frenchtown, N.J., supra; Vass, N.C., supra;* and *Millington, Md. supra.* In any event, Bay Shore is not devoid of service since it has been shown that the community is served by a minimum of four FM stations, all of which are within a 15 mile radius.

31. Section 73.209 pertains to grant of an application which specified an antenna in a designated antenna farm, and not of a petition to assign a channel. As has been established, there is no indication of available land to accommodate a suitable transmitter site to comply with §§ 73.207 and 73.208, much less is there evidence of a designated antenna farm in the area. Thus, petitioner's citation of § 73.209 is not pertinent here. See, *Independent Music Broadcasters, Inc.*, 26 R.R. 2d 1539, 1541 (1973); *Frenchtown, New Jersey, supra.*

32. In summation, petitioner has not demonstrated that it can overcome certain environmental constraints inherent in the Bay Shore vicinity in order to satisfy the requirements of § 73.207 of the Commission's Rules. It also has failed to provide a compelling reason to waive § 73.207. Therefore having found no justification for the proposal, the request must be denied. However, petitioner may wish to observe the progress of the proceeding in BC Docket No. 80–90 to ascertain if an FM channel can be made available to Bay Shore in the future consistent with the mileage separation requirements. See, *Modification of Broadcast Station Rules, supra.*

33. In light of the action taken herein, we have not addressed Doubleday's contention that the proposal, if granted, would generate interference to its Station WAPP (FM) in Lake Success, New York, or would affect its ability to relocate its transmitter in the future.

34. Accordingly, in consideration of the above, it is ordered, That, the petition of Living Communications, Inc. to assign Channel 276A to Bay Shore, New York, is denied.

35. It is further ordered, That this proceeding is terminated.

36. For further information concerning the above, contact Nancy V. Joyner, Mass Media Bureau, (202) 634–6530.

[BC Docket No. 82–663; RM–4176]

TV Broadcast Station in High Springs, Florida; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns UHF commercial television Channel 53 to High Springs, Florida, as requested by American Satellite and Television, Inc. The channel could provide a first local television service to High Springs.

DATE: Effective April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: D. David Weston, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects In 47 CFR Part 73

Television broadcasting.

In the matter of Amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (High Springs, Florida); BC Docket No. 82–663, RM–4176.

Report and Order (Proceeding Terminated)

Adopted: January 31, 1983.

Released: February 11, 1983.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration the *Notice of Proposed Rule Making*, 47 FR 43741, published October 4, 1982, proposing the assignment of UHF commercial television Channel 53 to High Springs, Florida. The *Notice* was adopted in response to a petition filed by American Satellite and Television, Inc. ("petitioner"). Supporting comments were filed by petitioner in which it reaffirmed its intention to apply for the channel, if assigned. No comments in opposition to the proposal were received.

2. High Springs is described as a community of 2,401, [1] persons in Alachua

[1] Population figures are taken from the 1980 U.S. Census.

County (population 151,348), about halfway between Gainesville and Lake City, Florida, "the two major communities in north central Florida." It is located within the Gainesville Standard Metropolitan Statistical Area, which, petitioner states, is one of the fastest growing in the nation. The population is said to have increased by 41.4 percent from 1960 to 1970 and 44.5 percent from 1970 to 1980. It has no local television service.

3. The Commission believes that the public interest would be served by assignment of UHF commercial television Channel 53 to High Springs, Florida. Petitioner has shown that there is an apparent need for a first local television service to the community, and the assignment can be made in compliance with the minimum distance separation requirements.

4. Accordingly, pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's rules, it is ordered, That effective April 12, 1983, the Television Table of Assignments, Section 73.606(b) of the Commission's Rules, is amended for the following city:

City	Channel No.
High Springs, Fla	53+

5. It is further ordered, That this proceeding is terminated.

6. For further information concerning this proceeding, contact D. David Weston, Mass Media Bureau, (202) 634–6530.

47 CFR Part 73

[BC Docket No. 82-621; RM-4169]

FM Broadcast Station in Fairbanks, Alaska; Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns Class C Channel 251 to Fairbanks Alaska, in response to a petition filed by Borealis Broadcasting, Inc. The assigned channel could provide a fifth local FM service to Fairbanks.

DATE: Effective: April 11, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Fairbanks, Alaska); BC Docket No. 82–621 RM–4169.

Report and Order (Proceeding Terminated)

Adopted: February 3, 1983.

Released: February 10, 1983.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, 47 FR 40451, proposing the assignment of Class C Channel 251 to Fairbanks, Alaska, as that community's fifth FM assignment [1] in response to a petition filed by Borealis Broadcasting, Inc. ("petitioner"). Petitioner filed comments in support of the proposal and reaffirmed its intention to apply for the channel if it is assigned.

2. Canadian clearance has been received.

3. The Commission has determined that the public interest would be served by assigning Channel 251 to Fairbanks, Alaska, since it could provide a fifth local FM service to that community.

4. Accordingly, pursuant to the authority contained in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.283 and 0.204(b) of the Commission's Rules, it is ordered, That effective April 11, 1983, § 73.202(b) of the Commission's Rules is amended, with respect to the following community:

City	Channel No.
Fairbanks, Alaska	240A, 251, 266, 273, and 284

5. It is further ordered, that this proceeding is terminated.

6. For further information, contact Mark, N. Lipp, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

[1] In a recent proceeding (BC Docket 82–568) we assigned Channel 240A to Fairbanks (action taken January 13, 1983).

Federal Communications Commission.

47 CFR Part 73

[BC Docket No. 82-595; RM-4168]

FM Broadcast Station in Pine Bluff, Arkansas; Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: final rule.

SUMMARY: This action assigns FM Channel 257A to Pine Bluff, Arkansas, in response to a petition filed by Jerome Green. The proposed assignment could provide a third local FM service to Pine Bluff.

DATE: Effective: April 11, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Arthur D. Scrutchins, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: February 3, 1983.

Released: February 10, 1983.

1. The Commission herein considers the *Notice of Proposed Rule Making*, 47 FR 40452, published September 14, 1982, proposing the assignment of Channel 257A to Pine Bluff, Arkansas, as that community's third FM assignment, in response to a petition filed by Jerome Green ("petitioner"). Supporting comments were filed by petitioner in which he reaffirmed his intention to apply for the channel, if assigned. No oppositions to the proposal were received. The channel can be assigned consistent with the minimum distance separation requirements of § 73.207 of the Commission's Rules.

2. In view of the expressed interest in the proposed channel allocation, we find that public interest considerations warrant the assignment of 257A to Pine Bluff, Arkansas.

3. Accordingly, pursuant to the authority contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204 and 0.283 of the Commission's Rules, it is ordered, That effective April 11, 1983, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, is amended with

regard to Pine Bluff, Arkansas, as follows:

City	Channel No.
Pine Bluff, Ark.	222,235, and 257A

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning the above, contact Arthur D. Scrutchins, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

47 CFR Part 73

[BC Docket No. 82–520; RM–4173]

FM Broadcast station in Kanab, Utah; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns FM Channel 266 to Kanab, Utah, in response to a petition filed by Jack H. Jensen. The proposal could provide a first FM service to that community.

DATE: Effective: April 11, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: D. David Weston, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: January 31, 1983.

Released: February 10, 1983.

1. The Commission has before it for consideration the *Notice of Proposed Rule Making*, 47 FR 40459, published September 14, 1982, proposing the assignment of FM Channel 266 to Kanab, Utah, as the community's first FM service. The *Notice* was adopted in response to a petition filed by Jack H. Jensen ("petitioner"). Supporting comments were filed by petitioner in which he reaffirmed his intention to apply for the channel, if assigned. No comments in opposition to the proposal were received.

2. The Commission believes that the public interest would be served by the assignment of FM Channel 266 to Kanab, Utah. Petitioner has shown that there is an apparent need for a first FM service to the community, and the assignment can be made in compliance with the minimum distance separation requirements.

3. Accordingly, pursuant to the authority contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is ordered, That effective April 11, 1983, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, is amended for the following city:

City	Channel No.
Kanab, Utah	266

4. It is further ordered, that this proceeding is terminated.

5. For further information concerning this proceeding, contact D. David Weston, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Proposed Rules

Federal Register
Vol. 48, No. 38
Thursday, February 24, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1032

Milk in the Southern Illinois Marketing Area; Proposed Suspension of Certain Provisions of the Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed suspension of rules.

SUMMARY: This notice invites written comments on a proposal to suspend certain provisions relating to how much milk not needed for fluid (bottling) use may be moved directly from farms to nonpool plants and still be priced under the order. The proposed suspension would remove the limits on such movements of milk during the months of March thorugh August 1983. The action was requested by a cooperative association to assure the efficient disposition of milk not needed for fluid use and still maintain producer status under the order for dairy farmers regularly associated with the market. A seasonal increase in milk production and a reduction in the fluid milk requirements of pool distributing plants supplied by the cooperative association prompted the request.

DATE: Comments are due not later than March 3, 1983.

ADDRESS: Comments (two copies) should be filed with the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Robert F. Groene, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S Department of Agriculture, Washington, D.C. 20250, (202) 447–4824.

SUPPLEMENTARY INFORMATION: This proposed action has been reviewed under USDA procedures established to implement Executive Order 12291 and has been classified as a "non-major" action.

It has been determined that any need for suspending certain provisions of the order on an emergency basis precludes following certain review procedures set forth in Executive Order 12291. Such procedures would require that this document be submitted for review to the Office of Management and Budget at least 10 days prior to its publication in the **Federal Register**. However, this would not permit the completion of the required suspension procedures and the inclusion of March 1983 in the suspension period if it is found necessary. The initial request for this action was received on February 14, 1983.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this proposed action would not have a significant economic impact on a substantial number of small entities. Such action would lessen the regulatory impact of the order on certain milk handlers and would tend to insure that dairy farmers would continue to have their milk priced under the order and thereby receive the benefits that accrue from such pricing.

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. *et seq.*), the suspension of the following provisions of the order regulating the handling of milk in the Southern Illinois marketing area is being considered for the months of March through August 1983:

1. In § 1032.13(b)(2), the language "during the months of May, June, and July, during the months of August and December for not more than 12 days of production of producer milk by such producer, and in any other month for not more than 8 days of production of producer milk by such producer".

2. In § 1032.13(b)(3), the language "for not more days of production of producer milk, by such producer than is received at a pool plant(s) pursuant to paragraph (a) of this section".

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file two copies of such material with the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250, not later than 7 days from the date of publication of this notice in the **Federal Register**. The period for filing comments is limited to 7 days because a longer period would not provide the time needed to complete the required procedures and include March 1983 in the suspension period.

The comments that are sent will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of Consideration

The proposed suspension would remove the limits on the amount of milk that may be diverted from pool plants to nonpool plants during the months of March through August 1983. The order now provides that during the months of January through April and September through November not more than 8 days' production of a producer may be diverted to nonpool plants that are not other order plants. Such diversions are limited to not more than 12 days' production of a producer during August and December. Diversions to nonpool plants that are also other order plants are limited each month of the year to not more than the number of days of production of a producer that is received at pool plants.

The suspension was requested by a cooperative association that supplies milk to handlers regulated under the order. The cooperative association has received notification that pool distributing plants it supplies will need less fluid milk during March through August 1983 due to a decrease in Class I sales in the Southern Illinois market. In addition, milk production is increasing seasonally in this market. As a result, milk of the cooperative's members will be temporarily in excess of fluid milk needs and will have to be moved to nonpool plants for surplus disposal during March through August.

Outlets for the displaced milk include manufacturing plants located in the production area and distributing plants in the St. Louis area that are regulated under the adjacent St. Louis-Ozarks order. The cooperative contends that suspension of the diversion limitations is necessary so that the milk can be moved to such plants in the most economical manner. Without the suspension, the cooperative contends, costly and inefficient movements of milk would have to be made to continue to pool the milk of dairy farmers who have been regularly associated with the market. Also, without the suspension, some of the milk would become pooled

under the St. Louis-Ozarks order, thereby lowering returns to producers supplying that market. The cooperative contends that St. Louis-Ozarks producers should not have their returns reduced as a result of carrying a reserve supply of milk that has regularly been associated with the Southern Illinois order.

BILLING CODE 3410-02-M

FEDERAL RESERVE SYSTEM

12 CFR Part 225

[Docket No. R-0455]

Regulations Y; Bank Holding Companies and Change in Bank Control; Nonbanking Activity; Discount Securities Brokerage and Securities Credit Lending

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Proposed rule.

SUMMARY: The Board of Governors recently approved by order an application by a major bank holding company filed pursuant to section 4(c)(8) of the Bank Holding Company Act to acquire a company engaged in providing certain brokerage and securities credit or "margin" lending services. In response to public notice of that application, several commentators suggested that those nonbanking activities be added to the list of nonbank activities in Regulation Y, 12 CFR 224 *et seq.*, that are generally permissible for bank holding companies. Accordingly, at this time, the Board has decided to consider amending § 225.4(a) of Regulation Y to add these activities to the list of permissible activities for bank holding companies.

DATE: Comments must be received by April 8, 1983.

ADDRESS: Comments, which should refer to Docket No. R-0455, may be mailed to William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue, N.W., 20551, or delivered to Room B-2223 between 8:45 a.m. and 5:15 p.m. Comments may be inspected in Room B-1112, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information (12 CFR 261.6(a)).

FOR FURTHER INFORMATION CONTACT: Richard M. Ashton, Assistant General Counsel, 202/452-3750, or Richard M. Whiting, Senior Attorney, 202/452-3779, Legal Division, Board of Governors of the Federal Reserve System.

SUPPLEMENTARY INFORMATION: (1) *Proposed Rulemaking.* Section 4(c)(8) of the Bank Holding Company Act, 12 U.S.C. 1843(c)(8), states that bank holding companies lawfully may engage in those activities the Board has "determined (by order or regulation) to be so closely related to banking or managing and controlling banks as to be a proper incident thereto." 12 U.S.C. 1843(c)(8). Under proposed general guidelines provided in a federal circuit court opinion, a nonbanking activity may be regarded as closely related to banking if it meets one of the following criteria: (a) Banks generally have in fact provided the proposed service; (b) banks generally provide services that are operationaly or functionally so similar to the proposed service as to equip them particularly well to provide the proposed service; or (c) banks generally provide services that are so integrally related to the proposed service as to require their provision in a specialized form. *National Courier Association* v. *Board of Governors of the Federal Reserve System*, 516 F. 2d 1229 (D.C. Cir. 1975). The Board has found such guidelines useful in considering whether or not a proposed nonbanking activity is closely related to banking. In addition, the Board may consider other factors in deciding what activities are closely related to banking. *Alabama Association of Insurance Agents* v. *Board of Governors*, 533 F. 2d 224, 241 (5th Cir. 1976).

As referenced above, effective January 7, 1983, the Board of Governors approved the application filed pursuant to section 4(c)(8) of the Bank Holding Company Act by BankAmerica Corporation, San Francisco, California ("BAC"), a registerd bank holding company, to acquire the Charles Schwab Corporation and thereby engage in certain securities brokerage and margin lending activities pursuant to Regulation T. 69 Federal Reserve Bulletin 105 (1983). In its order approving BAC's application, the Board found that BAC's proposed discount securities brokerage and margin activities were closely related to banking. BAC also sought to engage in certain nonbank activities that it believed were "incidental" to the primary activities of securities brokerage and securities credit lending. Those activities were the provision of custodial services and the provision of investment alternatives for funds awaiting investment in securities. Particularly, these latter services include the offering to securities customers IRAs, sweep arrangements, and the payment of interest on net free balances awaiting investment, particularly through an account that combines payment of interest with customer access to such balances through a debit card and checking account with an unaffiliated bank.

In its order approving the BAC application, the Board relied upon record evidence that banks currently offer certain types of securities brokerage services. For example, banks have offered brokerage services in connection with servicing custodial accounts, dividend reinvestment plans, voluntary investment plans, employee stock purchase plans, automatic investment plans, customer transaction services and bank trust and advisory accounts. The extent and nature of these bank brokerage activities has been recognized and documented by the SEC.[1] In addition, national banks, the Board noted, are expressly authorized by statute (*i.e.*, 12 U.S.C. 27(7)) to purchase and sell securities without recourse and for the account of customers. Moreover, the Board found that the use of sophisticated techniques, resources, and personnel by banks to execute the purchase or sale of securities for the account of customers is so widespread as to justify a finding that banks generally provide securities brokerage services that equip them particularly well to engage in the proposed brokerage activities. Finally, the Board determined that the proposed "incidental" activities were permissible and could legally be conducted by BAC in connection with the proposed securities brokerage and securities credit lending activities.

Several commentators on BAC's application to engage in discount securities brokerage and margin lending activities suggested that these activities be added to the list of nonbank activities generally permissible for all bank holding companies. Accordingly, the Board now solicits comment as to whether the proposed activities of discount securities brokerage and securities credit lending should be added to the list of permissible nonbank activities in § 225.4(a) of Regulation Y. In this context, securities brokerage

[1] Securities and Exchange Commission, Final Report on Bank Securities Activities (1977).

means buying and selling securities solely as agent for the account of customers; it specifically excludes securities underwriting activities and the provision of investment advice or research services. Securities credit or margin lending means extending credit for the purchase or carrying of securities by nonbank subsidiaries of bank holding companies pursuant to the Board's Regulation T, 12 CFR Part 220.

(2) *Submission of Comments.* Interested persons may express their views on the question whether the proposed activities should be added to the list in Regulation Y of nonbanking activities that the Board has determined to be so "closely related to banking or managing or controlling banks as to be a proper incident thereto" within the meaning of section 4(c)(8) of the Bank Holding Company Act and therefore generally permissible nonbanking activities for all bank holding companies. Any request for a hearing on this matter should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Pursuant to section 605(b) of the Regulatory Flexibility Act (Pub. L. No. 96-354); 5 U.S.C. 601 *et seq.*), the Board of Governors of the Federal Reserve System certifies that any amendment that might be adopted as a result of action on this matter, will not have significant economic impact on a substantial number of small entities that would be subject to the regulation. The proposed amendment would liberalize the existing regulations and would not have any particular effect on small entities that would be subject thereto.

List of Subjects in 12 CFR Part 225

Banks, banking, Holding companies, Securities, Reporting and recordkeeping requirements.

Authority. Accordingly, pursuant to its authority under section 5(b) of the Bank Holding Company Act, 12 U.S.C. 1844(b), and Sec. 5, 70 Stat. 137; 12 U.S.C. 1844, unless otherwise noted. The Board of Governors of the Federal Reserve System proposes to amend 12 CFR Part 225, as follows:

PART 225—[AMENDED]

1. Section 225.4 is amended by adding paragraph (a)(15) to read as follows:

§ 225.4 Nonbanking activities.

(a) * * *

(15) providing certain securities brokerage services and security credit lending, *provided that* (i) the brokerage services are restricted to buying and selling securities solely as agent for the account of customers and do not include the conduct of securities underwriting or the provision of investment advice or research services, and (ii) the securities credit lending is conducted by nonbank subsidiaries of bank holding companies pursuant to the Board's Regulation T, 12 CFR § 220.

* * * * *

By order of the Board of Governors of the Federal Reserve System, February 17, 1983.

James McAfee,

Associate Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 82-CE-25-AD]

Airworthiness Directives; Fairchild (Swearingen) Models SA226-T, SA226-TB, SA226-AT, SA226-TC, SA227-AC, SA227-AT, and SA227-TT Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt a new Airworthiness Directive (AD) that would require a modification to the steering system by installing an improved nose steering manifold valve, a failure indicator light and a nose steering system hydraulic filter on Fairchild (Swearingen) Models SA226-T, SA226-TB, SA226-AT, SA226-TC, SA227-AC, SA227-AT and SA227-TT Airplanes. Nineteen incidents of nose steering malfunctions have occurred since September 1980, 14 of which were contributed to by contamination of the steering servo valve. The modifications required by the proposal will reduce the sensitivity of the system to contamination and prevent these malfunctions.

DATES: Comments must be received on or before April 30, 1983. *Compliance:* On or before July 1, 1983.

EFFECTIVE DATE: The applicable service bulletins may be obtained from: Fairchild Aircraft Corporation, P.O. Box 32486, San Antonio, Texas 78284 or the Rules Docket at the address below.

Send comments on the proposal in duplicate to: Federal Aviation Administration, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 82-CE-25-AD, Room 1558, 601 East 12th Street, Kansas City Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Mark R. Schilling, Systems Engineer, Airplane Certification Branch, ASW-150, Southwest Regional Office, Fort Worth, Texas 76101, telephone: (817) 624-4911, Extension 516 or FTS 736-0516.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments received will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Central Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket No. 82-CE-25-AD, Room 1558, 601 East 12th Street, Kansas City Missouri 64106.

Discussion.—The FAA has determined that there have been 19 incidents/accidents as a result of uncontrollable nose steering on Fairchild (Swearingen) SA226/SA227 series airplanes. In at least five incidents there have been substantial damage to airplanes. No injuries or fatalities have occurred as a result of the problem.

The operational restriction contained in the limitations section of the Airplane Flight Manual (AFM) limiting use of the nose wheel steering below 10 kts. ground speed will preclude loss of aircraft control due to nose wheel steering malfunctions. However, the unavailability of nose wheel steering at higher ground speeds may contribute to loss of aircraft control in the event of a dragging brake on takeoff or landing or with attempted takeoff with the prop in

the start lock position. Therefore, the nose steering must be modified to remove the limitation from the AFM so that nose wheel steering is available on the ground at all times. The manufacturer has issued the service bulletins referred to below which modify the steering system by installing an improved nose steering manifold valve, a failure indicator light and a nose steering hydraulic filter on affected Fairchild (Swearingen) SA226/SA227 series airplanes. Incorporation of these modifications permits removal of the operational restrictions from the AFM

Since this condition is likely to exist or develop on other airplanes of the same type design, the proposed AD would make compliance with Fairchild Service Bulletins SB32-006, SB32-037 or SB32-039, mandatory on or before July 1, 1983. The proposed AD is applicable to all Fairchild (Swearingen) Models SA226-T, SA226-TB, SA226-AT, SA226-TC, SA227-AC, SA227-AT and SA227-TT airplanes with hydraulic nose wheel steering installed.

Approximately 350 Fairchild (Swearingen) Models SA226-T, SA226-TB and SA226-TC could be affected by the proposal. Estimated costs of $1,000 for parts and $700 for labor are expected to accrue for a total of $1,600 per airplane ($630,000 for the fleet).

Approximately 138 Fairchild (Swearingen) Models SA227-AC, SA227-AT and SA227-TT could be affected by this proposal. Fairchild Aircraft Corporation reports all operators of the SA227 models have received kits for the modification; however, all have not been installed. Approximately 20 aircraft remain to be modified at a cost of $700 for labor per airplane ($14,000 for remaining fleet).

List of Subjects in 14 CFR Part 39

Aircraft, Aviation safety.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new AD:

Fairchild (Swearingen): Applies to the following models and serial numbers of airplanes certificated in any category:

Model SA226-T (S/N T-249 through T-275, and T-227 through T-291),

Model SA226-TB (S/N T-276 and T-292 through T-417),

Model SA226-AT (S/N AT-025 through AT-069, AT-071 through AT-074),

Model SA226-TC (S/N TC-212 through TC-419),

Any SA226 model and serial number airplane modified in accordance with Service Bulletin SB-32-016.

Model SA227-AC (S/N AC-420 through AC-599) and all models with hydraulic nose wheel steering.

Model SA227-AT (S/N AT-070, AT-423 through AT-596),

Model SA227-TT (S/N TT-421 through TT-597).

Compliance: Required as indicated, unless already accomplished.

To assure reliable operation of the steering system:

(a) On or before July 1, 1983:

(1) Modify the nose wheel steering systems of the affected Serial No. Model SA 226-T, SA226-TB, SA226-AT and SA226-TC airplanes in accordance with Fairchild (Swearingen) Service Bulletin SB 32-037 revised July 15, 1982, or if optional tiller wheel steering is installed, in accordance with SB 32-039 dated September 9, 1982.

(2) Modify the nose wheel steering systems of the affected serial number Model SA227-AC, SA227-AT and SA227-TT airplanes in accordance with Fairchild Service Bulletin SB 32-006 revised July 27, 1982.

(3) When the modifications required by paragraphs a)1) and a)2) of this AD are accomplished, remove the nose wheel steering operational restrictions in the limitations section of the Airplane Flight Manual and placards in the airplane that were incorporated in accordance with Fairchild Swearingen Service Bulletins SB A 32-001 or SB A 32-032 both dated June 3, 1981.

(b) Airplanes may be flown in accordance with FAR 21.197 to a location where this AD may be accomplished.

(c) An equivalent method of compliance with this AD may be used if approved by the Manager, Aircraft Certification Branch, ASW-150, Federal Aviation Administration, Southwest Regional Office, Fort Worth, Texas 76101.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655 (c)); Sec. 11.85 of the Federal Aviation Regulations (14 CFR 11.85)

Note.—For reasons discussed earlier in the preamble, the FAA has determined that this document: (1) Involves a proposed regulation which is not major under the provisions of Executive Order 12291, (2) is not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and (3), I certify under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. A draft regulatory evaluation has been prepared and has been placed in the public docket.

Issued in Kansas City, Mo., on February 14, 1983.

John E. Shaw,

Acting Director, Central Region.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 82-ANE-40]

Airworthiness Directive; General Electric Company CF6-45 Series and CF6-50 Series Model Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to adopt an Airworthiness Directive (AD) which would require a reduction in the life limits of certain high pressure compressor rotor (HPCR) stage 14 disks in CF6-45 and CF6-50 series model engines. This AD is necessary to prevent disk cracking which could result in disk failures.

DATES: Comments on the proposed rule must be received on or before April 25, 1983. Proposed effective date June 24, 1983.

ADDRESSES: Send comments on the proposed rule in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, New England Region, Attn: Rules Docket No. 82-ANE-40, 12 New England Executive Park, Burlington, Massachusetts 01803.

The applicable Service Bulletin (CF6-50/-45) 72-724, dated August 11, 1982, may be obtained from the General Electric Company, Neumann Way, Cincinnati, Ohio 45215.

Copies of the Service Bulletin are contained in the Rules Docket at the above FAA address.

FOR FURTHER INFORMATION CONTACT: Arthur W. Nelson, Transport Engine Section, ANE-141, Engine Certification Branch, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone: (617) 273-7347.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Information on the economic, environmental, and energy impact that might result because of adoption of the proposed rule is requested. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before

taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons, and may be examined weekdays, except Federal holidays, between 8:00 a.m. and 4:30 p.m. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Background

Recent studies by the General Electric Company using improved stress analysis techniques show that the crack initiation life for certain CF6–45 and CF6–50 series model engine HPCR stage 14 disks is significantly less than that calculated at certification. This proposed AD reduces the life limit of disks, Part Numbers 9080M34P03 and 9080MP04, from 30,000 cycles to 10,000 cycles, except that disks Part Number 9080M34P04, which since new have been installed in rotors incorporating the revised stage 14 joint bolting arrangement set forth in Service Bulletin 72–724, have revised life limit of 13,000 cycles. This proposed AD is required to prevent disk bolt hole cracks which could result in a noncontained engine failure.

Approximately 1,600 stage 14 HPCR disks are affected by the proposed AD. It is considered that the requirements of the proposed AD can be accomplished during normal HPCR disassembly. The cost impact for replacement disks brought about by the HPCR stage 14 life limit reduction is estimated to be $5,250,000. For this reason, the proposed rule is not considered to be major under the criteria of Executive Order 12291. Few, if any, small entities within the meaning of the Regulatory Flexibility Act would be affected, since the rule affects only operators of B747, DC10, and A300 aircraft in which the CF6–45, –50 engines are installed, none of which are believed to be small entities.

List of Subjects in 14 CFR Part 39

Engine, Aircraft, and Aviation safety.

The Proposed Amendment

Accordingly, the FAA proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new AD.

General Electric Company: Applies to the CF6–45 and CF6–50 series model turbofan engines.

Compliance required as indicated.

To prevent disk failures which could result in a noncontained engine failure, accomplish the following:

(a) Remove from service all high pressure compressor rotor (HPCR) stage 14 disks, Part Numbers 9080M34P03 and 9080M34P04, which have not, since new, been installed in rotors incorporating General Electric CF6–50/–45 Service Bulletin 72–724 dated August 11, 1982, or later revision approved by the Manager, Engine Certification Branch, FAA, New England Region, Burlington, Massachusetts 01803, prior to the accumulation of 10,000 cycles in service or 100 cycles after the effective date of this AD, whichever is later.

(b) Remove from service all HPCR stage 14 disks, Part Number 9080M34P04, which since new have been installed in rotors incorporating General Electric CF6–50/–45 Service Bulletin 72–724 dated August 11, 1982, or later revision approved by the Manager, Engine Certification Branch, FAA, New England Region, Burlington, Massachusetts 01803, prior to the accumulation of 13,000 cycles in service.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec 1185 Federal Aviation Regulations (14 CFR 11.85))

Note.–Based upon an assessment of the economic impact of this proposed AD, as discussed more fully in the section entitled "Background," I certify that this action 1) is not a "Major Rule" under Executive Order 12291; 2) is not a "Significant Rule" under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979); and 3) if promulgated, will not not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation for this action is contained in the Regulatory Docket. A copy of it may be obtained by contacting the person identified under the caption "For Further Information Contact."

Issued in Burlington, Massachusetts, on February 9, 1983.

Robert E. Whittington,

Director, New England Region.

47 CFR Part 73

[MM Docket No. 83–75; RM–4253]

FM Broadcast Stations in Bruce, Mississippi; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes a first FM assignment to Bruce, Mississippi, in response to a petition filed by Bruce Independent TV, Inc.

DATES: Comments must be filed on or before March 28, 1983, and reply comments on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Bruce, Mississippi); MM Docket No. 83–75, RM–4253.

Notice of Proposed Rule Making

Adopted: January 26, 1983.
Released: February 11, 1983.

By the Chief, Policy and Rules Division:

1. Bruce Independent TV, Inc. ("petitioner") on November 17, 1982, submitted a petition for rule making seeking the assignment of Channel 296A to Bruce, Mississippi, as that community's first FM assignment. Petitioner stated its intention to apply for the channel, if assigned.

2. We have determined that a Channel 296A assignment at Bruce will require a site restriction of 2.5 miles northwest of the city.[1] Petitioner had indicated that the assignment would meet the minimum distance separation requirements, without a site restriction.

3. In view of the fact that the proposal could provide a first local broadcast service to Bruce, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the following community:

City	Channel No	
	Present	Proposed
Bruce, Miss.		296A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

[1] This restriction is necessary to avoid short spacing to Stations WLSM–FM (Channel 296A), Louisville, Mississippi, and WQLT(FM) (Channel 297), Florence, Alabama.

5. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification That Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contracts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Rodnick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g), and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix follows.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix to attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in § 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate or service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

b. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Maljamar, New Mexico); MM Docket No. 83-74, RM-4260.

Notice of Proposed Rule Making

Adopted: January 26, 1983.

Released: February 11, 1983.

By the Chief, Policy and Rules Division.

1. Warren Broadcasting, Inc. ("Petitioner"), on November 22, 1982, submitted a petition for rule making which seeks the assignment of Channel 286 to Maljamar, New Mexico, as its first commercial FM channel.[1] Petitioner stated its intention to apply for the channel, if assigned. The channel can be assigned in full compliance with the minimum spacing requirements of Section 73.207 of the Rules.

2. Since Maljamar is within 320 kilometers (199 miles of the U.S.-Mexico border, the proposed assignment requires coordination with the Mexican Government.

3. In view of the fact that the proposed assignment could provide a first commercial FM service to Maljamar, the

[1] The petition was submitted as comments in BC Docket No. 82-606, which proposes the assignment of Channel *254 for noncommercial use.

Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, as follows for the community listed below:

City	Channel No.	
	Present	Proposed
Malamar, N. Mex.		[illegible]

4. The Commission's authority to institute rule making proceedings, showing required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

6. Radio broadcasting.

In the matter of amendment of §73.202(b), Table of Assignments, FM Broadcast Stations (Key Largo, Florida); MM Docket No. 83–73, RM–4261.

Notice of Proposed Rule Making

Adopted: January 26, 1983.
Released: February 11, 1983.
By the Chief, Policy and Rules Divisions.

1. The Commission herein considers a petition for rule making filed November 22, 1982, by Florida Keys Broadcasting Corporation ("petitioner"), which seeks the assignment of Channel 280A to Key Largo, Florida. Petitioner expressed a desire to apply for the channel, if assigned.

2. In support of the proposal to assign a first FM channel to Key Largo, petitioner submitted population and economic information. However, in view of the action taken in *Revision of FM Policies and Procedures*, 90 F.C.C. 2d 88 (1982), these issues were eliminated as a requirement to justify a non-conflicting proposal.

3. We have determined that Channel 280A can be assigned to Key Largo in conformity with the minimum distance separation requirements provided the transmitter site is located approximately 0.63 mile south of the city This restriction is necessary to avoid short spacing to Station WHSE(FM) (Channel 278), Fort Lauderdale, Florida.

4. In view of the fact that the proposal could provide a first local broadcast service to Key Largo, the Commission proposes to amend the FM Table of Assignments, §73.202(b) of the Rules, with regard to the following community:

City	Channel No.	
	Present	Proposed
Key Largo, Fla.	.....	280A

5. The Commission's authority to institue rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

6. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. 47 CFR Part 73

[MM Docket No. 83–76; RM–4256]

TV Broadcast Station in Anchorage, Alaska; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF Television Channel 44 to Anchorage, Alaska, as it fifth commercial television assignment in response to a petition filed by Triangulum Corporation.

DATES: Comments must be filed on or before March 28, 1983, and reply comments must be filed on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

In the matter of Amendment of § 73.606(b), Table of Assignments, TV Broadcast Stations (Anchorage, Alaska); MM Docket No. 83–76, RM–4256.

Notice of Proposed Rule Making

Adopted: January 26, 1983.

Released: February 11, 1983.

By the Chief, Policy and Rules Division.

1. The Commission herein considers a petition for rule making filed November 24, 1982, by Triangulum Corporation ("petitioner"), seeking the assignment of UHF Television Channel 44 to Anchorage, Alaska, as its first UHF television assignment. The channel can be assigned in compliance with the minimum distance separation requirements and other criteria. Petitioner failed to state that it would apply for the channel, if it is assigned. It is expected to do so in its comments.

2. Anchorage (population 173,017) [1], in Anchorage Borough (population 173,017), is located on the south central coast of Alaska. It has five commercial and one noncommercial educational television assignments.

3. Petitioner submitted information in support of its request. The proposed assignment would be the first UHF channel assignment in Anchorage, and the State of Alaska.

4. In view of the fact that Anchorage could receive its fifth commercial television service, we shall seek comments on the proposal to amend the Television Table of Assignments (§ 73.606(b) of the Commission's Rules) with respect to the city of Anchorage, Alaska, as follows:

City	Channel No.	
	Present	Proposed
Anchorage, Alaska	2–, 4–, *7–, 11, and 13–.	2–, 4–, *7, 11, 13–, and 44.

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73. 606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634:6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the TV Table of Assignments, Section 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix follows.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in § 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service.

[1] Population figures are taken from the 1980 U.S. Census Advance Report.

(See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

BILLING CODE 6712-01-M

47 CFR PART 73

[MM Docket No. 83-79; RM-4282]

TV Broadcast Station in Fairbanks, Alaska; Proposed Changes in Table in Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign commercial UHF Television Channel 30 to Fairbanks, Alaska, in response to a request by Triangulum Corporation, as its sixth commercial TV station.

DATES: Comments must be filed on or before March 28, 1983, and reply comments on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Philip S. Cross, Mass Media Bureau, (202) 632-5414.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

Adopted: January 31, 1983.

Released: February 11, 1983.

1. The Commission has under consideration a request by Triangulum Corporation ("Triangulum") for the assignment of UHF commercial television Channel 30 to Fairbanks, Alaska. In support of its request, Triangulum states that Channel 30 would be the first and only full-service UHF television facility in Fairbanks as well as the beginning of a television network from Fairbanks to Anchorage and, later, to other states. Triangulum asserts that Fairbanks is a rapidly growing city with a population in excess of 37,000. Triangulum adds that the proposed assignment would meet all spacing requirements of the Commission's Rules. Triangulum has failed to state that it would apply for the channel, if assigned. It should do so in comments.

2. In view of the above, we conclude that the public interest would be served by our proposing a sixth commercial television assignment at Fairbanks. Concurrence by the Canadian government will be required. We solicit comments on the following proposed amendment of the TV Table of Assignments, § 73.606(b) of the Commission's Rules:

City	Channel No.	
	Present	Proposed
Fairbanks, Alaska	2+, 4+, 7+, *9+, 11+, and 13+.	2+, 4+, 7+, *9+, 11+, 13+, and 30.

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

6. For further information concerning this proceeding, contact Philip Cross, Mass Media Bureau, (202) 632-5414. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix follows.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a

different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments: Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 83-84; RM-4255]

FM Broadcast Station in Johannesburg, California; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 280A to Johannesburg, California, in response to a petition filed by Kitchen Productions, Inc. The proposal could provide a first FM service to the community.

DATES: Comments must be filed on or before April 4 1983 and reply comments must be filed on or before April 19, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: February 3, 1983.

Released: February 15, 1983.

1. A petition for rule making was filed November 23, 1982, by Kitchen Productions, Inc. ("petitioner"), seeking the assignment of FM Channel 280 A to Johannesburg-Randsburg, California, as a hyphenated community to provide a first FM assignment. However, petitioner failed to set forth a justification to make a hyphenated assignment. Accordingly, since Johannesburg is the larger of the two communities, Johannesburg will be the designated community. Petitioner otherwise submitted information in support of the proposal and expressed an interest in applying for the channel, if assigned. The channel can be assigned in compliance with the minimum distance separation requirements.

2. Since Johannesburg is located within 320 kilometers (199 miles) of the U.S.-Mexican border, the proposed assignment requires the concurrence of the Mexican government.

3. In view of the fact that the proposed assignment could provide a first FM service to Johannesburg, the Commission believes it is appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to the following community.

City	Channel No.	
	Present	Proposed
Johannesburg, Calif	-	280A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before April 4, 1983, and reply comments on or before April 19, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend §§ 73.202(b), 73.504, and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix follows.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this affect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the commission to assign a different channel than was requested for any of the Communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be make in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the Comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleading, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: February 3, 1983.

Released: February 15, 1983.

1. A petition for rule making was filed December 13, 1982, by Silverton Christian Broadcasting ("petitioner") seeking the assignment of Channel 257A to Silverton, Colorado, as its second FM assignment. Petitioner expressed an interest in applying for the channel, if assigned. The channel can be assigned in compliance with the minimum distance separation requirements.

2. In view of the fact that the proposed assignment could provide a second local FM service to Silverton, Colorado, the Commission believes it is appropriate to propose amending the FM Table of Assignments (§ 73.202(b) of the Commission's Rules) with respect to the following community:

City	Channel No.	
	Present	Proposed
Silverton, Colo	280A	257A, 280A

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before April 4, 1983, and reply comments on or before April 19, 1983, and are advised to read the Appendix for the proper procedures.

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

BILLING CODE 6712-01-M

---

47 CFR Part 73

[MM Docket No. 83-86; RM-4225]

FM Broadcast Station in Bonita Springs, Florida; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to substitute Class C FM Channel 241 for Channel 240A at Bonita Springs, Florida, and to modify the Class A license accordingly, in response to a petition filed by Gold Coast Broadcasting Corporation.

DATES: Comments must be filed on or before April 4, 1983, and reply comments must be filed on or before April 19, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: February 3, 1983.

Released: February 15, 1983.

1. Before the Commission is the petition for rule making filed October 19, 1982, by Gold Coast Broadcasting Corporation ("petitioner") [1] which seeks to substitute Class C Channel 241 for Channel 240A at Bonita Springs, Florida, and to modify the license of Station WLEQ (FM) to specify operation on Channel 241.

2. Petitioner filed comments in support of the proposal. It states that there has been significant population growth in the Bonita Springs area between the 1970 and 1980 Census creating the need for wider coverage. Petitioner also states that if Channel 241 is allocated to Bonita Springs, the necessary data will be promptly submitted to the Commission to effectuate an immediate shift over from Channel 240A to Channel 241. The channels can be substituted in compliance with the minimum distance separation requirements.

3. Channel 241 is available at Bonita Springs since the action taken in BC Docket No. 21239 substituted Channel 243 for Channel 242 at Miami, Florida. However, there is presently an interim operation proposed on Channel 242 which would have to be switched to Channel 243 before the assignment for Channel 241 at Bonita Springs could be effectuated.

4. We believe that the petitioner's proposal warrants consideration. In accordance with our established policy, we shall propose to modify the license of Station WLEQ(FM) (Channel 240A) to specify operation on Channel 241. However, if another party should show an interest in the Class C assignment, the modification could not be implemented. Instead, an opportunity for the filing of a competing application must be provided. See *Cheynne, Wyoming*, 62 F.C.C. 2d 63 (1976).

5. In view of the apparent need for a wider coverage area FM station, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules as pertains to Bonita Srings, Florida, as follows:

City	Channel No.	
	Present	Proposed
Bonita Springs, Fla	240A	241

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before April 4, 1983, and reply comments on or before April 19, 1983, and are advised to read the Appendix for the proper procedures.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are

[1] Petitioner is the license of Station WLEQ(FM), Channel 240A, Bonita Springs, Florida.

prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix follows.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be make in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the Comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 73

[MM Docket No. 83-78; RM-4271]

FM Broadcast Station in Ellsworth, Maine; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to substitute Class B Channel 233 for Channel 232A in Ellsworth, Maine, and to modify the Class A permit for Station WKSQ (FM) accordingly, in response to a petition filed by Acadia Broadcasting Company.

DATES: Comments must be filed on or before March 28, 1983, and reply comments must be filed on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau (202) 634-6530.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: January 20, 1983.

Released: February 11, 1983.

1. A petition for rule making was filed December 10, 1982, by Acadia Broadcasting Company [1] ("petitioner"), which seeks to substitute Class B Channel 233 and 232A at Ellsworth, Maine, and to modify the construction permit for Station WKSQ (FM) (Channel 232A) to specify operation on Channel 233.

2. Petitioner submitted information in support of the proposal. It noted that the substitution of Class C Channel 233 would enable WKSQ to serve a greater portion of the area.

3. We believe that the petitioner's proposal warrants consideration. The channel can be substituted in compliance with the minimum distance separation requirements. In accordance with our established policy, we shall propose to modify the permit of Station WKSQ (FM) (Channel 232A) to specify operation on Channel 233. However, if another party should indicate an interest in the Class B assignment, then the modification could not be implemented. Instead, an opportunity for the filing of a competing application would be provided. See *Cheyenne, Wyoming*, 62 FCC 2d 63 (1976).

4. Since the proposed channel substitution in Ellsworth, Maine, is within 320 Kilometers (200 miles) of the U.S.-Canadian border, Canadian concurrence must be obtained.

5. In view of the apparent need for a second wide coverage area FM station, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, as it pertains to Ellsworth, Maine, as follows:

City	Channel No.	
	Present	Proposed
Ellsworth, Maine	232, 232A	233, 232

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures,

[1] Petitioner is the permittee of Station WKSQ (FM) (Channel 232A) at Ellsworth, Maine.

and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making To Amend §§ 73.202(b), 73.504, and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in writtten comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 73

[MM Docket No. 83–77; RM–4281]

FM Broadcast Station in Chillicothe, Missouri; Proposed Changes in Table of Assignments

AGENCY: Federal Communication Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 261A to Chillicothe, Missouri, in response to a petition filed by George Lang. The proposed assignment could provide a second FM service to that community.

DATES: Comments must be filed on or before March 28, 1983, and reply comments must be filed on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: January 26, 1983.

Released: February 11, 1983.

1. A petition for rule making was filed November 8, 1982, by George Lang ("petitioner") proposing the assignment of Channel 261A to Chillicothe, Missouri, as its second FM assignment. Petitioner submitted information in support of the proposal. The channel can be assigned in compliance with the minimum distance separation requirements. Petitioner failed to state that he would apply for the channel if it is assigned. He is expected to do so in his comments.

2. In view of the fact that the proposed assignment could provide a second local FM broadcast service to Chillicothe, Missouri, the Commission believes it is appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Chillicothe, Mo.	[illegible]A	261A, 280A

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

4. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

5. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 does not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

6. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* the following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 73

[MM Docket No. 83-80; RM-4270]

FM Broadcast Station in Denver City, Texas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 296A to Denver City, Texas, in response to a petition filed by Martha Anne Couzens. The proposal could provide a first FM service to that community.

DATES: Comments must be filed on or before March 28, 1983, and reply comments on or before March 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: January 31, 1983.

Released: February 11, 1983.

1. A petition for rule making was filed December 10, 1982, by Martha Anne Couzens ("petitioner") proposing the assignment of Channel 252A to Denver City, Texas, as its first FM assignment. Petitioner submitted information in support of the proposal and expressed an interest in applying for the channel, if assigned.

2. The assignment of Channel 252A at Denver City, Texas, would be short-spaced to proposed Channel 254 at

Maljamar, New Mexico.[1] A staff channel search indicates that Channel 296A can be assigned to Denver City. A site restriction of 3.5 miles north of Denver City is required for this assignment.

3. In view of the fact that the proposed assignment could provide a first FM service to Denver City, Texas, the Commission believes it appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Denver City, Tex.		296A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

5. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitites an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 73

[MM Docket No. 83-83; RM-4252]

FM Broadcast Station in Spanish Fork, Utah; Proposed Changes in Table Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes substitute Class C FM Channel 293 for 292A at Spanish Fork, Utah, and to modify the license for Station KTMP to specify operation on Class C Channel 293, at the request of Mountain States Broadcasting Corporation.

DATES: Comments must be filed on or before April 4, 1983, and reply comments must be filed on or before April 19, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
Mark N. Lipp, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: January 31, 1983.

Released: February 15, 1983.

1. A petition for rule making was filed on November 16, 1982, by Mountain States Broadcasting Corporation ("petitioner")[1], which seeks to substitute Class C Channel 293 for 292A at Spanish Fork, Utah, and to modify the license to Station KTMP(FM) (Channel 292A) to specify operation on Channel 293.

2. Petitioner submitted information in support of the proposal. It noted that the substitution of the channels would enable the station to provide expanded service to the area and to compete more effectively for audience and revenues with other stations in the area. Petitioner also stated that if the substitution is allowed, it would file an application for a construction permit to modify the facilities of the station to meet the necessary requirements for the new Class C channel.

3. We believe the petitioner's proposal warrants consideration. The transmitter site is restricted to 11.2 miles south of Spanish Fork for Channel 293 to avoid short spacing to a new construction permit on Channel 292A in Evanston, Wyoming.

4. In accordance with our established policy, we shall propose to modify the license of Station KTMP(FM) to specify operation on Channel 293. However, of another party should indicate an interest in the Class C assignment, the modification could not be implemented. Instead, an opportunity for the filing of a competing application must be provided. See, *Cheyenne, Wyoming*, 62 F.C.C. 2d 63 (1976).

5. In view of the need for a wide coverage area FM station, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, as it pertains to Spanish Fork, Utah, as follows:

City	Channel No.	
	Present	Proposed
Spanish Fork, Utah	[illegible]A	[illegible]A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before April 4, 1983, and reply comments on or before April 19, 1983, and are advised to read the Appendix for the proper procedures.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Mark N. Lipp, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, the *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in Section 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead to the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comment and Reply Comments; Service.* Pursuant to applicable procedures set out in § 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b), and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an

[1] Petitioner is the licensee of Station KTMP(FM), Spanish Fork, Utah.

original and four copies of all comments, reply, comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 83-81; RM-4263]

TV Broadcast Station in Rock Hill, South Carolina; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes to delete the reservation on UHF TV Channel *55 at Rock Hill, South Carolina, making it available for commercial use, and to reserve Channel 30 already used on a noncommercial educational basis, in response to a petition filed by Palmetto Broadcasting System, Inc.

DATES: Comments must be filed on or before March 28, 1983, and reply comments on or before April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

Adopted: January 31, 1983.

Released: February 11, 1983.

1. The Commission has before it a petition for rule making filed December 1, 1982, by Palmetto Broadcasting System, Inc. ("petitioner"), licensee of AM Station WAGL, Lancaster, South Carolina. Petitioner proposes to amend the Television Table of Assignments (§73.606(b) of the Rules) by switching the reservation for noncommercial educational use from Channel *55 to Channel 30. The proposal could provide a first commercial service to Rock Hill. Channel 30 is presently licensed for noncommercial educational use by Station WNSC-TV. Petitioner stated its intention to file an application for Channel *55, if designated for commercial use.

2. Rock Hill (population 35,344) [1] in York County (population 106,720), is located in the north central part of South Carolina, approximately 30 kilometers (18 miles) southwest of Charlotte, North Carolina. Rock Hill is currently assigned two TV channels, Channel 30 (WNSC-TV) and Channel *55.

3. In support of the proposal petitioner asserts that Channel 30 is now licensed for noncommercial use and should be reserved to reflect that use. The reservation would free Channel *55 for commercial use since there has been no demand for a second noncommercial station.

4. We believe that the petitioner's proposal warrants consideration. the proposal meets all spacing requirements and could provide for a first local commercial TV station. In view of the above, comments are invited on the proposal to amend the Television Table of Assignments, with regard to the following community:

City	Channel No.	
	Present	Proposed
Rock Hill, South Carolina	30, *55-	*30, 55-

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before March 28, 1983, and reply comments on or before April 12, 1983, and are advised to read the Appendix for the proper procedures.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Mass Media Bureau, (202) 634-6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to the Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment to which the reply is directed constitutes an *ex parte* presentation and shall not be considered in the proceeding.

(Secs. 4, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Mass Media Bureau.

[1] Population figures are taken from the 1980 U.S. Census, Advance Report.

Appendix

1. Pursuant to authority found in Section 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, It is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the

proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

National Oceanic and Atmospheric Administration

50 CFR Part 677

North Pacific Fishery Management Council et al.; Management Proposals for the 1983 Bering Sea/Aleutian Islands King Crab Fishery Off Alaska; Public Hearing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Public Hearing.

SUMMARY: The North Pacific Fishery Management Council (Council) and the Alaska Board of Fisheries (Board) will hold a public hearing on proposed regulations for the 1983 Bering Sea/Aleutian Islands King Crab Fishery off Alaska.

DATE: The hearing will be held from 9:00 a.m. to 5:00 p.m. on Tuesday, March 8, 1983.

ADDRESS: The hearing will be held in the auditorium of the Northwest and Alaska Fisheries Center, 2725 Montlake Boulevard East, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Jim H. Branson, Executive Director, North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, Alaska 99510, telephone (907) 274-4563.

SUPPLEMENTARY INFORMATION: In accordance with the provisions of the Joint Statement of Principles for king crab management between the North Pacific Fishery Management Council and the Alaska Board of Fisheries, the Council and Board will hold an annual public hearing in Seattle. At the March 8 hearing Council and Board members will listen to public testimony on regulatory proposals for the 1983 Bering Sea/Aleutian Islands King Crab Fishery. In addition, testimony will be accepted on regulatory proposals for the 1983 Tanner crab fisheries off Alaska. Copies of the proposals may be obtained from the Alaska Board of Fisheries, P.O. Box 3-2000, Juneau, Alaska 99802. The Board plans to review the proposals and take final action on its 1983 State shellfish regulations at its meeting beginning on Monday, March 28, 1983, in Anchorage.

The hearing will be tape recorded and the tapes will be filed as an official transcript of the proceedings. A written summary of the testimony will be prepared to supplement the record.

Dated: February 17, 1983.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Programmatic Memorandum of Agreement

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice.

SUMMARY: The Advisory Council on Historic Preservation proposes to execute a Proposal for a Programmatic Memorandum of Agreement pursuant to § 800.8 of the Council's regulations, "Protection of Historic and Cultural Properties" (36 CFR Part 800), with the Bonneville Power Administration, U.S. Department of Energy, and the State Historic Preservation Officers of Oregon, Washington, Montana, Idaho, Wyoming, Utah, California and Nevada. This Programmatic Agreement provides means for the identification and evaluation of historic properties and for the design and installation of energy weatherization and conservation measures on such properties in a manner compatible with their historically and architecturally significant qualities, in order to meet the requirements of Section 106 of the National Historic Preservation Act of 1966, as amended.

DATE: Comments due March 28, 1983.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Forms Under Review by Office of Management and Budget

February 18, 1983.

The Department of Agriculture has submitted to OMB for review the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extensions, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form numbers(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) An indication of whether section 3504(h) of Pub. L. 96-511 applies; (9) Name and telephone number of the agency contact person.

Comments and questions about the items in the listing should be directed to the agency person named at the end of each entry. If you anticipate commenting on a form but find that preparation time will prevent you from submitting comments promptly, you should advise the agency person of your intent as early as possible.

Copies of the proposed forms and supporting documents may be obtained from: Marshall L. Dantzler, Acting Statistical Clearance Officer, (202) 447-6201.

BILLING CODE 6320-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping Investigation; Certain Tapered Journal Roller Bearings and Parts Thereof Germany

AGENCY: International Trade Administration, Commerce.

ACTION: Initiation of antidumping investigation.

SUMMARY: On the basis of a petition filed with the United states Department of Commerce, we are initiating an antidumping investigation to determine whether certain tapered journal roller bearings and parts thereof from the Federal Republic of Germany (FRG) are being, or are likely to be, sold in the United States at less than fair value. We are notifying the United States International Trade Commission (ITC) of this action so that it may determine whether there is a reasonable indication that imports of certain tapered journal roller bearings and parts thereof from the FRG are materially injuring, or are threatening to materially injure, a United States industry. If the investigation proceeds normally, the ITC will make its preliminary determination on or before March 14, 1983, and we will make ours on or before July 5, 1983.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Gary Taverman, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230; telephone (202) 377–0161.

SUPPLEMENTARY INFORMATION:

Petition

On January 26, 1983 we received a petition from counsel for Brenco Incorporated, filed on behalf of the United States industry producing certain tapered journal roller bearings and parts thereof (roller bearings). In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR Part 353), the petition alleges that imports of roller bearings are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930, as amended (19 U.S.C. 1673) (the Act) and that these imports are materially injuring, or are threatening to materially injure, a United States industry. The allegations of sales at less than fair value are supported by comparisons of United States prices (developed from actual bids) on sales of the merchandise in the United States with FRG home market prices (obtained from price quotes from the FRG manufacturer to an import/export agent) on sales made in the FRG.

Initiation of Investigation

Under section 732(c) of the Act, we must determine, within 20 days after a petition is filed, whether a petition sets forth the allegations necessary for initiation of an antidumping investigation and whether it contains information reasonably available to the petitioner supporting the allegations. We have examined the petition on roller bearings and have found that it meets these requirements.

Therefore, in accordance with section 732 of the Act, we are initating an antidumping investigation to determine whether roller bearings from the FRG are being, or are likely to be, sold in the United States at less than fair value. If the investigation proceeds normally, we will make our preliminary determination by July 5, 1983.

Scope of Investigation

For purposes of this investigation, the term "certain tapered journal roller bearings and parts thereof" covers two-row tapered roller bearings and parts thereof including cone and cup assemblies in sets, cone assemblies and cups sold separately, and other parts which may or may not be lubricated, sealed at the manufacturer's factory, and/or unitized. This investigation includes only those tapered roller bearings with assembled outside diameters between 4.25 and 7.0 inches, and meeting the specifications established by the Association of American Railroads in Specification M–934–81. Such tapered roller bearings and parts thereof are currently provided for in items 680.3932, 680.3934, 680.3938, and 680.3940 of the *Tariff Schedules of the United States Annotated.*

Notification of the ITC

Section 732(d) of the Act requires us to notify the ITC of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all nonprivileged and nonconfidential information. We will also allow the ITC access to all privileged and confidential information in our files, provided that the ITC confirms it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

Preliminary Determination by ITC

The ITC will determine by March 14, 1983 whether there is a reasonable indication that imports of roller bearings from the FRG are materially injuring, or are threatening to materially injure, a United States industry. If its determination is negative, this investigation will terminate; otherwise, the investigation will proceed according to statutory procedures.

Dated: February 15, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

[FR Doc. 83–4661 Filed 2–23–83; 8:45 am]

BILLING CODE 3510-25-M

Initiation of Antidumping Investigation; Certain Tapered Journal Roller Bearings and Parts Thereof From Italy

AGENCY: International Trade Administration Commerce.

ACTION: Initiation of antidumping investigation.

SUMMARY: On the basis of a petition filed with the United States Department of Commerce, we are initiating an antidumping investigation to determine whether certain tapered journal roller bearings and parts thereof from Italy are being, or are likely to be, sold in the United States at less than fair value. We are notifying the United States International Trade Commission (ITC) of this action so that it may determine whether there is a reasonable indication that imports of certain tapered journal roller bearings and parts thereof from Italy are materially injuring, or are threatening to materially injure, a United States industry. If the investigation proceeds normally, the ITC will make its preliminary determination on or before March 14, 1983, and we will make ours on or before July 5, 1983.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Gary Taverman, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone (202) 377–0161.

SUPPLEMENTARY INFORMATION:

Petition

On January 26, 1983 we received a petition from counsel for Brenco Incorporated, filed on behalf of the United States industry producing certain tapered journal roller bearings and parts thereof (roller bearings). In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR Part 353), the petition alleges that imports of roller bearings are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930, as amended (19 U.S.C. 1673) (the Act) and that these imports are materially injuring, or are threatening to materially injure, a United States industry. The allegatons of sales at less than fair value are supported by comparisons of United States prices (developed from actual bids) on sales of the merchandise in the United States with Italian home market prices (obtained from price quotes from the Italian manufacturer to an import/export agent) on sales made in Italy.

Initiation of Investigation

Under section 732(c) of the Act, we must determine, within 20 days after a petition is filed, whether a petition sets forth the allegations necessary for initiation of an antidumping investigation and whether it contains information reasonably available to the petitioner supporting the allegations. We have examined the petition on roller bearings and have found that it meets these requirements.

Therefore, in accordance with section 732 of the Act, we are initiating an antidumping investigation to determine whether roller bearings from Italy are being, or are likely to be, sold in the United States at less than fair value. If the investigation proceeds normally, we will make our preliminary determination by July 5, 1983.

Scope of Investigation

For purposes of this investigation, the term "certain tapered journal roller bearings and parts thereof" covers two-row tapered roller bearings and parts thereof including cone and cup assemblies in sets, cone assemblies and cups sold separately, and other parts which may or may not be lubricated, sealed at the manufacturer's factory, and/or unitized. This investigation includes only those tapered roller bearings with assembled outside diameters between 4.25 and 7.0 inches, and meeting the specifications established by the Association of American Railroads in Specification M–934–81. Such tapered roller bearings and parts thereof are currently provided for in items 680.3932, 680.3934, 680.3936, and 680.3940 of the *Tariff Schedules of the United States Annotated.*

Notification of the ITC

Section 732(d) of the Act requires us to notify the ITC of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all nonprivileged and nonconfidential information. We will also allow the ITC access to all privileged and confidential information in our files, provided that the ITC confirms it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

Preliminary Determination by ITC

The ITC will determine by March 14, 1983 whether there is a reasonable indication that imports of roller bearings from Italy are materially injuring, or are threatening to materially injure, a United States industry. If its determination is negative, this investigation will terminate; otherwise, the investigation will proceed according to statutory procedures.

Dated: February 15, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510–25–M

Initiation of Antidumping Investigation; Certain Tapered Journal Roller Bearings and Parts Thereof From Japan

AGENCY: International Trade Administration, Commerce.

ACTION: Initiation of antidumping investigation.

SUMMARY: On the basis of a petition filed with the United States Department of Commerce, we are initiating an antidumping investigation to determine whether certain tapered journal roller bearings and parts thereof from Japan are being, or are likely to be, sold in the United States at less than fair value. We are notifying the United States International Trade Commission (ITC) of this action so that it may determine whether there is a reasonable indication that imports of certain tapered journal roller bearings and parts thereof from Japan are materially injuring, or are threatening to materially injure, a United States industry. If the investigation proceeds normally, the ITC will make its preliminary determination on or before March 14, 1983, and we will make ours on or before July 5, 1983.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Gary Taverman, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; telephone (202) 377–0161.

SUPPLEMENTARY INFORMATION:

Petition

On January 26, 1983 we received a petition from counsel for Brenco Incorporated, filed on behalf of the United States industry producing certain tapered journal roller bearings and parts thereof (roller bearings). In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR Part 353), the petition alleges that imports of roller bearings are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Tariff Act of 1930, as amended (19 U.S.C. 1673) (the Act) and that these imports are materially injuring, or are threatening to materially injure, a United States

industry. The allegations of sales at less than fair value are supported by comparisons of United States prices (developed from actual bids) on sales of the merchandise in the United States with Japanese home market prices (obtained from price quotes of Japanese trading firms) on sales made in Japan.

Initiation of Investigation

Under section 732(c) of the Act, we must determine, within 20 days after a petition is filed, whether a petition sets forth the allegations necessary for initiation of an antidumping investigation and whether it contains information reasonably available to the petitioner supporting the allegations. We have examined the petition on roller bearings and have found that it meets these requirements.

Therefore, in accordance with section 732 of the Act, we are initiating an antidumping investigation to determine whether roller bearings from Japan are being, or are likely to be, sold in the United States at less than fair value. If the investigation proceeds normally, we will make our preliminary determination by July 5, 1983.

Scope of Investigation

For purposes of this investigation, the term "certain tapered journal roller bearings and parts thereof" covers two-row tapered roller bearings and parts thereof including cone and cup assemblies in sets, cone assemblies and cups sold separately, and other parts which may or may not be lubricated, sealed at the manufacturer's factory, and/or unitized. This investigation includes only those tapered roller bearings with assembled outside diameters between 4.25 and 7.0 inches, and meeting the specifications established by the Association of American Railroads in Specification M-934-81. Such tapered roller bearings and parts thereof are currently provided for in items 680.3932, 680.3934, 680.3938, and 680.3940 of the *Tariff Schedules of the United States Annotated.*

Notification of the ITC

Section 732(d) of the Act requires us to notify the ITC of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all nonprivileged and nonconfidential information. We will also allow the ITC access to all privileged and confidential information in our files, provided that the ITC confirms it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

Preliminary Determination by ITC

The ITC will determine by March 14, 1983 whether there is a reasonable indication that imports of roller bearings from Japan are materially injuring, or are threatening to materially injure, a United States industry. If its determination is negative, this investigation will terminate; otherwise, the investigation will proceed according to statutory procedures.

Dated: February 15, 1983.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-25-M

Decision on an Application for Duty-Free Entry of Scientific Article; University of California

The following is a decision on application for duty-free entry of a scientific article published pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 40 FR 12253).

A copy of the record pertaining to the application in this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 1523, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 81-00309. Applicant: University of California, Lawrence Berkeley Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: Scattering Chamber with Accessories. Date of Denial Without Prejudice to Resubmission: May 20, 1982.

Decision: Application Denied. Applicant has failed to establish that instruments or apparatus of equivalent scientific value to the foreign article for such purposes as the foreign article is intended to be used are not being manufactured in the United States. Reasons: The application was denied without prejudice to resubmission prior to August 9, 1982. The requirements for the resubmission of applications that have been denied without prejudice to resubmission are contained in Section 301.8 of the regulations effective at that time. The applicant has failed to resubmit its application within the specified time period. Pursuant to Subsection 301.8, this failure shall result in a denial of the application.

Accordingly, notice of this decision is forwarded to the **Federal Register** for publication.

Portable Electric Typewriters From Japan; Final Results of Administrative Review of Antidumping Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of final results of administrative review of antidumping duty order.

SUMMARY: On July 23, 1982, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on portable electric typewriters from Japan. The review covers two of the five known exporters of this merchandise to the United States, Tokyo Juki Industrial Co., Ltd. and Towa Sankiden Corporation, and the period January 4, 1980 through April 30, 1981.

Interested parties were given an opportunity to submit oral or written comments on these preliminary results. At the request of the petitioner the Department held a hearing on October 4, 1982. After our consideration of the comments received and a mathematical correction, we have changed the margin for Tokyo Juki from 0.60 percent to 0.48 percent. The final results for Towa Sankiden remain unchanged from those presented in the preliminary results of review.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: F. Patrick Pope or Susan M. Crawford, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: (202) 377–5255.

SUPPLEMENTARY INFORMATION:

Background

On May 9, 1980, the Department of Commerce ("the Department") published in the **Federal Register** (45 FR 30618–19) an antidumping duty order with respect to portable electric typewriters from Japan. On July 23, 1982, the Department published in the **Federal Register** (47 FR 31913–14) the preliminary results of its last administrative review of the order with respect to two of the five known exporters. The Department has now completed that administrative review.

Scope of the Review

Imports covered by the review are shipments of portable electric typewriters from Japan. The Department defines such merchandise as all typewriters currently classifiable under item 676.0510 of the Tariff Schedules of the United States Annotated ("TSUSA") and some typewriters currently classifiable under TSUSA item 676.0540, depending on the individual characteristics of the typewriter. The characteristics we consider include, but are not limited to, the dimensions, weight, presence of a carrying case, type of market, and method of distribution.

This review covers two of the five known exporters of Japanese portable electric typewriters ("PETs") to the United States, Tokyo Juki Industrial Co., Ltd. ("Tokyo Juki") and Towa Sankiden Corporation, and the period January 4, 1980, the date of suspension of Liquidation, through April 30, 1981.

Analysis of Comments Received

Interested parties were invited to comment on the preliminary results. The petitioner, Smith Corona Group, SCM Corporation ("SCM"), requested a hearing which was held on October 4, 1982. SCM, several Japanese respondents, and Olivetti, an importer, submitted comments.

(1) *Comment:* In its preliminary results of review, the Department invited any interested party to comment on whether portable electronic typewriters are within the scope of the order. SCM vigorously protests the Department's consideration, at its own inititative, of "red herrings" which have not been raised by involved interested parties.

Department's Position: Although the parties covered by this review did not specifically raise the issue, other parties to the proceeding previously requested our opinion whether portable electronic typewriters are within the scope of the order. Since the typewriters manufactured and exported by Tokyo Juki are portable electronic typewriters, it is appropriate for the Department to consider the question in this review.

(2) *Comment:* SCM argues that the presence of electronic components in an electrically powered portable typewriter cannot remove the typewriter from the scope of the order. It bases its argument on: (1) The tariff classification and the language of the order, which states that all typewriters classifiable under TSUSA item 676.0510 are within the scope of the order; (2) court and administrative interpretations of tariff provisions, which SCM argues demonstrate that, for Customs purposes, the term "electric" can include the term "electronic", and the term "electronic" can include the term "electric"; (3) the history of the tariff classification covering portable electric typewriters, which only focused on as the key features of "portable electric" whether the machine included an adding machine and whether the machine was operated by a typist; and (4) SCM's production of electronic typewriters by the same people and at the same location as other domestically produced PETs, sale through the same channels of distribution, inclusion in the same ads, incorporation of virtually all the same features, the same size, weight, and the same fundamental utility. Further, SCM points to various agency determinations, all of which have included scope determinations on merchandise which was either not specifically identified in the original investigation or which was not produced at the time of publication of the finding or order. In each case SCM contends the Department (or the Treasury Department) used a standard which focused on use in determining whether the merchandise in question was within the scope of the finding or order. In addition to use, SCM believes we should consider whether the domestic industry or industries which were affected by the finding or order produce the questioned merchandise, and whether the foreign producers of the new merchandise include, or are likely to include, one or more of the foreign producers covered by the original investigation. Based on these standards SCM believes that portable electronic typewriters are within the scope of the antidumping duty order.

Conversely, Tokyo Juki, the Brother group (Brother Industries Ltd. and Brother International Corporation), the Silver group (Silver Seiko Ltd. and Silver Reed America), and Olivetti argue that portable electronic typewriters, by virtue of being electronic, are in a different class or kind of merchandise than typewriters that are electromechanical and, therefore, are not included within the scope of the order.

Citing the Court of International Trade's decision in *Royal Business Machines Inc. v. United States*, 507 F. Supp. 1007 (C.I.T. 1980), these parties argue that, since electronic typewriters were not included in the petition to initiate and were not the subject of any pre-order investigation, the Department cannot now expand the order to include them.

Further, the respondents state that electronic typewriters are the product of a different technology, that they are radically different in physical characteristics, that the additional features such as memory capability cannot be duplicated b a portable electric machine, that both the public and the trade recognize a fundamental distinction between electric and electronic typewriters and that the latter are aimed at a different category of customer. The respondents state that SCM's argument, that all typewriters classified under TSUSA item 676.0510 are within the scope of the order, flies in the face of the *Royal Business Machines* decision, which states that a TSUSA classification is not controlling.

Department's Position: Based on our review of the comments received, the merchandise description in the petition to initiate this case, and the original fair value and injury investigations, portable electronic typewriters are within the scope of the order. In addition to reviewing the investigatory records, the Department's decision here is based on several factors, including: (1) General physical characteristics, (2) the expectations of the ultimate purchaser, (3) the ultimate use of the merchandise in question, and (4) the channels of trade in which the merchandise moves.

Although electronic typewriters generally have different physical characteristics than the portable electric typewriters investigated during the fair value investigation, there is nothing in the merchandise description in the original petition, or in the fair value or injury investigations, which precludes the inclusion of electronic typewriters. The petition defines the merchandise as: "[a]ll portable electric typewriters, whether utilizing typebars or single elements, and whether fully electric with powered carriage return or with manual carriage return, and whether with conventional ribbons or with cartridge

or cassette ribbon". Most electronic typewriters use a daisy wheel print element rather than a typebar or single element; however, all electronic typewriters have a powered carriage return and use a cassette ribbon. The fair value investigation defined the merchandise by its TSUSA item number; we agree that TSUSA alone is not dispositive. In its final report (731–TA–12, USITC Publication 1082, May 1980), the International Trade Commission stated "[a] typewriter is a machine with a manually operated keyboard which produces characters like those of a letterpress as a substitute for handwriting. Typewriters may be portable or standard (office type) units as well as manually or electrically operated. The typewriters which have been sold in the United States at less than fair value and which are the subject of this investigation are electrically operated portable units (customarily sold at retail with a carrying case)." There is no definition on record for "electrically operated" portable typewriters limiting the scope to an electromechanical unit.

Concerning the second characteristic, the expectation of the ultimate purchaser, we believe that the purchasers of portable electronic typewriters are likely to be the same as those that purchase portable electrics. Our examination of advertising and the channels of trade substantiates that portable electronics are aimed at homes and small offices as ultimate purchases.

Concerning the third factor, there is no doubt that portable electronic and portable electric typewriters are used for the same purpose. Finally, as mentioned above, the evidence on hand demonstrates that the channels of distribution are the same for both type of machines.

Therefore, we maintain that portable electronic typewriters are within the class or kind of merchandise covered by this antidumping duty order. We cannot limit the scope of an order only to merchandise being manufactured at the time of an initiation of an investigation.

(3) *Comment:* SCM disputes the Department's use, for both United States price and foreign market value, of the price between Tokyo Juki and EuroImport S.A. ("EuroImport"), a subsidiary of the importer, Olivetti, arguing that Tokyo Juki and Olivetti are related parties within the meaning of section 771 (13) of the Tariff Act of 1930 ("the Tariff Act"). SCM contends that information in the record reveals that Olivetti exercised some level of control over Tokyo Juki, directly or indirectly, namely: (1) Olivetti bore Tokyo Juki's start-up costs, (2) Olivetti negotiated and arranged for imported parts for the typewriters, (3) Tokyo Juki sold the merchandise produced solely to EuroImport, and (4) the price of the merchandise sold by Tokyo Juki fluctuated " 'up or down, depending on costs or usual business competitiveness' ". Accordingly, SCM argues that the Department should use Olivetti's resale prices in Japan and in the United States for comparison purposes.

Department's Position: Olivetti's and Tokyo Juki's relationship does not constitute control as contemplated by section 771(13) of the Tariff Act. Although Olivetti did incur certain start-up costs on behalf of Tokyo Juki, Tokyo Juki also incurred substantial costs for which it either billed Olivetti separately or which are included in Tokyo Juki's cost of production. The imported parts which Olivetti initially arranged for do not constitute a large portion of the value of the typewriters under consideration and the parties did agree that, shortly after production began, Tokyo Juki had the contract right to assume complete control of procurement. Finally, we do not believe that SCM's third and fourth points are persuasive in determining whether or not a manufacturer and its exporter and/or importer are related.

(4) *Comment:* SCM disagrees with the Department's determination not to disregard sales by Tokyo Juki in its home market which were made at prices below the full cost of production. SCM argues that the determination was in error because: (1) Olivetti bore start-up costs for Tokyo Juki, specifically research and development, which were not included in the Department's cost of production calculation; (2) Tokyo Juki's per unit cost of production cannot be disregarded simply because Tokyo Juki was producing below its projected full-capacity rate; and (3) even assuming that Tokyo Juki incurred start-up costs, the Department impermissibly avoided the question whether such costs could reasonably be recovered over an extended period of time by not looking further than the period of review.

Department's Position: The Department's determination not to disregard Tokyo Juki's sales in the home market which were below its cost of production is in accordance with section 773(b) of the Tariff Act, which states that sales will be disregarded when the firm sells in substantial quantities at less than cost over an extended period and when the sales are not at prices which permit recovery of all costs within a reasonable period of time. First, we find that, although Tokyo Juki incurred no extraordinary research and development costs, there is insufficient basis for disregarding the sales below cost. While it is true that the start-up costs incurred by Tokyo Juki and included in the calculation were largely due to workers' unfamiliarity with production equipment, high quality control costs, and the allocation of fixed costs to the small quantities produced during the start-up phase, we maintain that section 773(b) of the Tariff Act provides for recovery of such costs. We did not include in the calculation start-up costs incurred by Olivetti or any allocation of assists separately charged to Olivetti by Tokyo Juki because to include either would require an equal adjustment to foreign market value. Second, Tokyo Juki did not begin production until December 1980, and then it was in minimal quantities. We maintain that Tokyo Juki's subsequent five months of production during the review period do not constitute an extended period of time. Finally, at the time of its initial submission Tokyo Juki did not have all the data necessary to demonstrate that it would recover all costs over an extended period. However, based on our analysis of their available information, we determined that Tokyo Juki would reach its breakeven point shortly after the end of the review period.

(5) *Comment:* SCM contends that, even if the Department concludes that the cost of production data presented by Tokyo Juki were adequate for demonstrating its ability to recover its full cost of production within a reasonable time, further verification of specific cost elements, such as cost of labor and of selling, general, and administrative expenses, is required.

Department's Position: The Department's verification of Tokyo Juki's response was adequate. Tokyo Juki admittedly sold below its cost of production in this review period. Therefore, further verification of allocation methods is unnecessary at this time. We are satisfied that the company sold below its cost of production due to start-up costs and the minimal quantities produced during the period. We will examine the points of concern to SCM and determine if verification for the next review is necessary.

(6) *Comment:* SCM believes the Department should review its practice of allowing adjustments to foreign market value for inland freight, packing, and handling. SCM argues that such allowances are contrary to the letter and spirit of section 773 of the Tarriff Act.

Department's Position: The Department maintains that it must

deduct transportation and handling charges included in foreign market value, since all included transportation charges are deducted from United States price. Section 773 of the Tariff Act does require that foreign market value include the cost of export packing. In accordance with past practice the Department adjusted for packing based on differences in costs between the two markets. (See *Brother Industries Ltd., et al.* v. *United States*, 3 C.I.T. ——, Slip-Op. 82–34 (April 30, 1982)).

(7) *Comment:* Olivetti argues that *de minimis* dumping duties on individual entries should neither be assessed nor collected.

Department's Position: As stated here under *Final Results of Review*, "[t]he Department shall determine, and the U.S. Customs Service shall assess, dumping duties on *all* appropriate entries made with purchase dates during the time period involved." (emphasis added). We do not agree with Olivetti that the benchmark the Department has established for waiver of the cash deposit of estimated antidumping duties must also apply to the assessment process. We maintain that we are required to instruct Customs to collect all actual dumping duties regardless of the amount.

Final Results of Review

Based on our analysis of the comments received, and the correction of a mathematical error incalculating the difference in merchandise adjustments with respect to Tokyo Juki, we determine that the following margins exist for the period January 4, 1980 through April 30, 1981:

Exporter	Margin (percent)
Tokyo Juki Industrial Co., Ltd.	[redacted]
Towa Sankiden Corporation	[redacted]

The Department shall determine, and the U.S. Customs Service shall assess, dumping duties on all appropriate entries made with purchase dates during the time period involved. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions for each exporter directly to the Customs Service.

Because the margin for Tokyo Juki is less than 0.50 percent, and therefore *de minimis*, and because no margin exists for Towa Sankiden, the Department shall not require a cash deposit of estimated antidumping duties, as provided for in § 353.48(b) of the Commerce Regulations, on any shipments of Japanese portable electric typewriters from these firms entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. The zero deposit requirement for Towa Sankiden and the waiver for Tokyo Juki shall remain in effect until publication of the final results of the next administrative review for these two firms. For any shipment from a new exporter not covered in this administrative review, a cash deposit of 7.55 percent of the entered value shall be required. The Department intends to conduct the next administrative review with respect to these two firms by the end of May 1983. The Department encourages interested parties to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information during the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

February 14, 1983.

Spun Acrylic Yarn From Italy; Preliminary Results of Administrative Review of Antidumping Duty Order and Tentative Determination To Revoke in Part

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of preliminary results of administrative review of antidumping duty order and tentative determination to revoke in part.

SUMMARY: The Department of Commerce has conducted an administrative review of the antidumping duty order on spun acrylic yarn from Italy. The review covers the twelve known manufacturers and/or exporters of this merchandise to the United States, generally for the period April 1, 1981 through March 31, 1982. The review indicates the existence of dumping margins for certain firms during the period.

As a result of the review, the Department has preliminarily determined to assess dumping duties equal to the calculated differences between United States price and foreign market value on each of their sales during their individual period of review. Where company-supplied information was inadequate or no information was received, we used the best information available.

The Department has also tentatively determined to revoke the order with respect to one of the twelve firms, Lanificio DiNervesa Della Battaglia S.p.A./Gaston Investments, Inc. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: February 24, 1983.

FOR FURTHER INFORMATION CONTACT: Valerie Newkirk or Susan Crawford, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: (202) 377–3601.

SUPPLEMENTARY INFORMATION:

Background

On February 4, 1982, the Department of Commerce ("the Department") published in the **Federal Register** (47 FR 5280–2) the final results of its last administrative review of the antidumping duty order on spun acrylic yarn from Italy (45 FR 23684–5, April 8, 1980) and announced its intent to conduct the next administrative review by the end of April 1983. As required by section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department has now conducted that administrative review.

Scope of the Review

Imports covered by the review are shipments of spun acrylic plied yarn primarily for machine knitting, currently classifiable under items 310.5015 and 310.5049 of the Tariff Schedules of the United States Annotated.

The review covers the twelve known manufacturers and/or exporters of Italian spun acrylic yarn to the United States and generally the period April 1, 1981 through March 31, 1982.

Four firms did not export Italian spun acrylic yarn to the U.S. during the review period. The estimated antidumping duty cash deposit rates for these firms will be the most recent information for each firm. Five firms, Lanificio Fratelli Morganti S.p.A., Orlandi Filatura S.p.A., Babyfil S.A.S., Cofiar S.p.A., and Viana Manifattura Filati, failed to respond to our questionnaire or provided inadequate responses. For these non-responsive firms we used the best information available to determine the assessment and estimated antidumping duty cash deposit rates. The best information

available is the most recent rate for each firm or the fair value rate.

United States Price

In calculating United States price the Department used purchase price, as defined in section 772 of the Tariff Act. Purchase price was based on the packed delivered price to an unrelated purchaser in the United States. Where applicable, deductions were made for ocean freight, insurance, U.S. and foreign inland freight, brokerage charges, U.S. duty, and commissions to unrelated parties, in accordance with section 353.10 of the Commerce Regulations. No other adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value the Department used constructed value, as defined in section 773(e) of the Tariff Act, since there were no sales in the home market or to purchasers in third countries during the periods of review. Constructed values were calculated as the sum of materials, fabrication costs, general expenses, profit, and the cost of packing.

Preliminary Results of Review and Tentative Determination to Revoke in Part

As a result of our comparison of United States price to foreign market value, we preliminarily determine that the following margins exist:

Manufacturer/exporter	Time period	Margin (percent)
Fantelli S.p.A	4/1/81–3/31/82	[illegible]
Fratelli Razzoli S.p.A	do	[illegible]
Fraver S.p.A	do	[illegible]
Maglificio Vanarini	do	[illegible]
Lanificio DiNervesa Della Battaglia S.p.A./Gaston Investments, Inc.	4/8/81–3/31/82	0
Lanificio Fratelli Morganti S.p.A	5/1/81–3/31/82	48.05
Manifattura Erre-Effe S.p.A	6/1/81–3/31/82	1.87
Orlandi Filatura S.p.A	4/1/81–3/31/82	48.05
Babyfil S.A.S	do	[illegible]
Cofar S.p.A	[illegible]	[illegible]
Viana Manifattura Filati	do	[illegible]
Lanificio DiNervesa Della Battaglia S.p.A./International Fibre Industries Ltd	do	0.66

[1] No shipments during the period.

The Department has also concluded that all sales by Lanificio DiNervesa Della Battaglia S.p.A./Gaston Investimets, Inc. ("Gaston") were made at not less than fair value during the period April 1, 1980 through March 31, 1982. As provided for in § 353.54(e) of the Commerce Regulations, Gaston has agreed in writing to an immediate suspension of liquidation and reinstatement of the order if circumstances develop which indicate that spun acrylic yarn manufactured by Lanificio DiNervesa Della Battaglia S.p.A., and thereafter imported into the United States, is being sold by Gaston at less than fair value.

Therefore, we tentatively determine to revoke the order on spun acrylic yarn from Italy with respect to Lanificio DiNervesa Della Battaglia S.p.A./ Gaston. If this partial revocation is made final, it will apply to all unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days of the date of publication. Any hearing, if requested, will be held 45 days after the date of publication or the first workday thereafter. Any request for an administrative protective order must be made within 5 days of the date of publication. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, dumping duties on all appropriate entries with purchase dates during the periods involved. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions on each exporter directly to the Customs Service.

Further, as provided for the § 353.48(b) of the Commerce Regulations, a cash deposit of estimated antidumping duties based on the above margins shall be required on all shipments of Italian spun acrylic yarn from these firms entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This administrative review, tentative determination to revoke in part, and notice are in accordance with sections 751(a)(1) and (c) of the Tariff Act (19 U.S.C. 1675(a)(1), (c)) and §§ 353.53 and 353.54 of the Commerce Regulations (19 CFR 353.53, 353.54).

Gary N. Horlick,
Deputy Assistant Secretary for Import Administration.

COMMISSION OF FINE ARTS

Meeting

The Commission of Fine Arts will next meet in open session on Tuesday, March 8, 1983 at 10:00 a.m. in the Commission's offices at 708 Jackson Place NW., Washington, D.C. 20006 to discuss various projects affecting the appearance of Washington including buildings, memorials, parks, etc., also matters of design referred by other agencies of the government. Access for handicapped persons will be through the main entrance to the New Executive Office Building on 17th Street between Pennsylvania Avenue and H Street, NW.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Mr. Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address or call 566–1066.

Dated in Washington, D.C., February 15, 1983.

Charles H. Atherton,
Secretary.

COMMODITY FUTURES TRADING COMMISSION

MidAmerica Commodity Exchange Copper Futures Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contract.

SUMMARY: The MidAmerica Commodity Exchange ("MCE") has applied for designation as a contract market in copper. The Commission has determined that the terms and conditions of the proposed futures contract are of major economic significance and that, accordingly, making available the proposed contract for public inspection and comment is in the public interest, will assist the Commission in

considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before April 25, 1983.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity futures trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Reference should be made to the MCE copper futures contract.

FOR FURTHER INFORMATION CONTACT: Richard Shilts, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K street, NW., Washington, D.C., (202) 254–7303.

A copy of the terms and conditions of the MCE proposed copper futures contract will be available for inspection at the Office of the Secretariat. Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the MCE in support of its application for contract market designation may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. § 552) and the Commission's regulations thereunder (17 CFR Part 145 (1982)). Requests for copies of such materials should be made to the FOIA, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed futures contract, or with respect to other materials submitted by the MCE in support of its application, should send such comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, by April 25, 1983. Such comment letters will be publicly available except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9.

Issued in Washington, D.C. on February 18, 1983.

Jane K. Stuckey,

Secretary of the Commission.

BILLING CODE 3910-01-M

Department of the Army

United States Army Medical Research and Development Advisory Committee, Pharmacology Subcommittee; Partially Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Subcommittee meeting:

Name of committee: United States Army Medical Research and Development Advisory Committee, Subcommittee on Pharmacology

Date of meeting: March 15, 1983.

Time and place: 0830 hrs, Room 3092, Walter Reed Army Institute of Research, Washington, DC.

Proposed agenda: This meeting will be open to the public from 0830 to 1015 hrs on 15 March for the administrative review and discussion of the scientific research program of the Pharmacology Branch, Walter Reed Army Institute of Research. Attendance by the public at open sessions will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(6), US Code, Title 5 and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public from 1000–1630 hrs for the review, discussion and evaluation of individual programs and projects conducted by the US Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Howard Noyes, associate director for Research Management, Walter Reed Army Institute of Research Bldg 40, Room 1111, Walter Reed Army Medical Center, Washington, DC 20012 (202/576–2436) will furnish summary minutes, roster of Subcommittee members and substantive program information.

Harry G. Dangerfield,

Colonel, MC, Deputy Commander.

BILLING CODE 3710-08-M

Office of the Secretary

Military Traffic Management Command, Directorate of Personal Property; International Household Goods Program

AGENCY: Military Traffic Management Command, Office of the Secretary, DOD.

ACTION: Notice of invitation to comment on the over-ocean and currency adjustment policies and procedures of the international through government bill of lading shipment of Department of Defense household goods.

SUMMARY: The current Military Traffic Management Command (MTMC) International Through Government Bill of Lading (ITGBL) Procurement program for the shipment of household goods includes the Over-Ocean and Currency Adjustment Procedures. These procedures, contained in the "Rate Filing Instructions and Procedures", provide upward and downward adjustments to single factor rates submitted by industry participants. These adjustments depend upon upward and downward changes in underlying ocean charges and currency fluctuations. On the basis of recent experience and analysis, MTMC has determined that a review of these procedures is necessary. As a part of the MTMC review, comments from the ITGBL industry participants, as well as any other affected or interested persons or agencies, are being solicited. These comments will be considered by MTMC prior to final determination on the future of these Single Factor Rate Adjustment Procedures. A final determination on ocean adjustment procedures is expected to be made in mid-March 1983. The determination is expected to be included in the MTMC solicitation for Volume 47 rates, scheduled for release to the industry in late-March. The currency adjustment determination may not be made until after Volume 47. Comments are requested on: (a) Continuation of the current procedures without change; (b) continuation of the current procedures with certain modifications; (c) termination of the procedures. MTMC has mailed individual requests for comments to each individual participant registered in this procurement program. This invitation consists of ideas and issues

identified by MTMC or the industry and include some tentative conclusions of MTMC.

DATE: Submit written comments by March 1, 1983.

FOR FURTHER INFORMATION CONTACT: LTC Tommy R. Mason, HQ, Military Traffic Management Command, ATTN: MT-PPC (Room 408), 5611 Columbia Pike, Falls Church, Virginia 22041, (202) 756-1164.

ADDRESS COMMENTS TO: Commander, HQ, Military Traffic Management Command, ATTN: MT-PPC (Room 408), 5611 Columbia Pike, Falls Church, Virginia 22041 (File: SFRA).

This request for comments and the resulting determinations are being made under the authority of 10 USC 2301-2314 and DOD Directives 4500.9 and 4500.34-R.

Dated: February 18, 1983.

Nathan R. Berkley,

Director of Personal Property.

Public Information Collection Requirement Submitted to OMB for Review

The Department of Defense has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). Each entry contains the following information: (1) Type of Submission; (2) Title of Information collection and Form Number if applicable; (3) Abstract statement of the need for and the uses to be made of the information collected; (4) Type of Respondent; (5) An estimate of the number of responses; (6) An estimate of the total number of hours needed to provide the information; (7) To whom comments regarding the information collection are to be forwarded; (8) The point of contact from whom a copy of the information proposal may be obtained.

(1) Request for extension of form approval from March 31, 1983 to March 31, 1985.

(2) Contract Pricing Proposal, DD Form 633 (April 1, 1979).

(3) The form is needed to facilitate the submission of cost or pricing data for certain defense contracts.

(4) Respondents will be both prime contractors and subcontractors.

(5) Total annual responses are expected to be about 22,500.

(6) The expected amount of time required to complete the form is one hour.

(7) Forward comments to Edward Springer, OMB Desk Officer, Room 3235, NEOB, Washington, D.C. 20503, and John V. Wenderoth, DoD Clearance Officer, OASD(C), DIRMS, IRAD, Room 1A658, Pentagon, Washington, D.C. 20301, telephone (202) 697-1195.

(8) A copy of the information collection proposal may be obtained from Pete A. Bryan, USDERE (AM), Room 3D1082, Pentagon, Washington, D.C. 20301, telephone (202) 697-6710.

M. S. Healy,

BILLING CODE 3810-01-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Westside Highway Project (Westway), New York, N.Y.; Supplemental Environmental Impact Statement

AGENCIES: Army Corps of Engineers, DOD; and Federal Highway Administration, DOT.

ACTION: Notice of Intent to Prepare a Supplemental Environmental Impact Statement (SEIS).

SUMMARY:

1. Description of the Proposed Action—The non-fisheries issues for the proposed Westway Project (commonly known as "Westway") will be prepared by the Federal Highway Administration. The U.S. Army Corps of Engineers will prepare the fisheries issues.

Westway is an Interstate Stystem Highway (I-478) which would extend for 4.2 miles on the West Side of Manhattan in New York City between the Battery and West 42nd Street. For most of its length, the six lane highway wold be a depressed, enclosed and vetilated highway in a proposed landfill in the Hudson River between the existing shoreline and the U.S. Pierhead Line. Approximately 165 acres of fill is proposed to be placed in the Hudson River interpier area.

On March 13, 1981 the Corps of Engineers issued a permit to NYSDOT for the proposed project. On April 14, 1982 the United States District Court ruled that the permit was null and void. NYSDOT has subsequently renewed its application for a Corps of Engineers permit. The Final EIS for Westway was completed and approved by the Federal Highway Administration in 1977. This Final EIS was found inadequate by the court, and as per court order the supplement is being prepared.

This SEIS is being prepared to analyze the impact of the proposed landfill

dredging on the Hudson River fishery resources, including striped bass. It will also discuss current plans for uses of the landfill area for residential and commercial development and parkland, the method of selection of real estate and commercial developers, and financial arrangements with such developers; any substantial new information regarding alternatives, including current cost estimates; and any substantial new information regarding development of the West Side areas whose redevelopment is proposed to be assisted by Westway.

2. Reasonable Alternatives—The alternatives that were discussed in the FEIS (in addition to the Westway proposal) were:

A. Modified Arterial
B. Outboard
C. Arterial
D. Inboard
E. Maintenance
F. Reconstruction
G. Interstate Transfer.

These alternatives will be reviewed and updated, with the exception of (E) Maintenance and (F) Reconstruction. Since the previous West Side Highway structure has been demolished, the maintenance and reconstruction alternatives are no longer applicable and will be replaced with a discussion of the interim Roadway alternative. In addition, the alternatives discussed in the 1981 FEIS Re-evaluation will be reviewed and updated. Alternatives to placement of fill will also be reviewed.

3. Scoping Process—In accordance with Part 1508.9(c)(4) of the Council on Environmental Quality regulations, scoping is not applicable to the preparation of this SEIS. However, there has been and will continue to be ongoing coordination with the National Marine Fisheries Service, U.S. Fish and Wildlife Service, and the U.S. Environmental Protection Agency on this proposed Westway project.

4. Persons to Contact—For additional information concerning the preparation of this SEIS, contact:

Frederic H. Downs, Director, Office of Environmental Programs, Federal Highway Administration, Leo W. O'Brien Federal Bldg., Rm. 729, Albany, New York 12207, Phone: (518) 472–4277

Dennis J. Suszkowski, Ph. D., Chief, Regulatory Branch, New York District Corps of Engineers, 26 Federal Plaza, New York, New York 10278, Phone: (212) 264–3996

5. Estimate date of statement availability is April 1983.

Dated: January 28, 1983.

Samuel P. Tosi,

Acting Chief, Planning Div., U.S. Army Engineers District, New York, 26 Federal Plaza, New York, N.Y. 10278.

Dated: February 10, 1983

Frederick H. Downs,

Director, Office of Environment Programs, Federal Highway Administration, Region One, Leo W. O'Brien Federal Building, Albany, N.Y. 12207.

BILLING CODE 3710-06-M

DEPARTMENT OF EDUCATION

Institutional Aid Programs, Etc.; Technical Assistance Workshops

In the matter of Institutional Aid Programs, Strengthening Program, Special Needs Program, and Challenge Grant Program; Notice of Technical Assistance Workshops for Fiscal Year 1983 New Awards for the Institutional Aid Programs.

The Department of Education, Division of Institutional Development, will conduct two technical assistance workshops to assist prospective applicants to establish eligibility and to develop applications for new awards for the Fiscal Year 1983 Institutional Aid Programs competitions. The Institutional Aid Programs include the Strengthening, the Special Needs, and the Challenge Grant Programs. A closing date of March 28, 1983, for eligibility and applications for grants was announced in the **Federal Register**, Tuesday, February 8, 1983 at 48 FR 5778–5786.

Each workshop will be two days long. The presentation for the first day will include a review of the requirements: (1) to establish program(s) eligibility for the FY 1983 competitions; (2) to develop institutional long-range plans; (3) to prepare an application for awards under individual programs; and (4) a discussion of allowable costs within a developmental context. In addition, there will be a discussion of the technical review evaluation process. The second day will be reserved for individual questions and answers.

Each workshop will begin with registration at 8:00 a.m. and presentations are scheduled from 8:30 a.m. to 4:30 p.m. There is no registration fee for the workshops.

The scheduled dates and locations are as follows:

March 3–4, 1983—Washington, D.C., GSA Regional Office Building #3, Auditorium (D Street Entrance), 7th & D Streets, SW., Washington, D.C.

Contact Person: Mr. Thomas Keyes, Division of Institutional Development, (202) 245–2384

March 7–8, 1983—Denver, Colorado,[1] Mountain Bell Denver Service Center, Auditorium (A Level), 1005 17th Street, Denver, Colorado 80294

Contact Person: Dr. Norbert K. Baumgart, Department of Education Regional Office, (303) 837–3862

FOR FURTHER INFORMATION CONTACT: For further information contact the Program Development Branch, Division of Institutional Development, U.S. Department of Education (Room 3045, Regional Office Building #3), 400 Maryland Avenue SW., Washington, D.C. 20202. Telephone number: (202) 245–2384.

(20 U.S.C. 1060–1063 and 1060–1060c)

(Catalog of Federal Domestic Assistance Numbers: 84.031A—Strengthening Program; 84.031B—Special Needs Program; and 84.031C—Challenge Grant Program)

Dated: February 22, 1983.

Edward M. Elmendorf,

Assistant Secretary for Postsecondary Education.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Energy Research Advisory Board; Meeting

This report of the Energy Research Advisory Board to the Department of Energy is submitted for a partially closed meeting held on April 8, 1982.

The subjects discussed during the closed portion of the meeting were advanced isotope separation technologies, aspects of which are classified in the interest of national security. These subjects were determined to be within exemption 10(d) of the Federal Advisory Committee Act and Section 624 of the Department of Energy Organization Act.

An unclassified report of the Energy Research Advisory Board on Advanced Isotope Separations was prepared, based in part on discussions held during the closed portion of the meeting.

The report was filed in accordance with the Federal Advisory Committee Act, Public Law 92–463, and is available for public inspection and use at the Library of Congress, Rare Book Division, Room 256, Washington, D.C., and the Public Reading Room, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., between 8:30 a.m. and 4:00 p.m., Monday

[1] Meeting will terminate at 4:00 p.m.

through Friday, except Federal holidays. Copies of the report are also available on request from the Science and Technology Affairs Staff, ER-6, Room 7B-142, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C.

Issued at Washington, D.C., on February 18, 1983.

Howard H. Raiken,

Deputy Advisory Committee Management Officer.

BILLING CODE 6450-01-M

Economic Regulatory Administration

[ERA Docket No. 83-Cert-001]

Chino Mines Co.; Application for Certification of the Use of Natural Gas To Displace Fuel Oil

Chino Mines Company (CHINO), General Office, Hurley, New Mexico 88043, filed an application on January 13, 1983 with the Economic Regulatory Administration (ERA) for certification of an eligible use of natural gas to displace fuel oil at its copper ore facilities located near the city of Hurley, New Mexico, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, RG-43, Room GA-007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

In its application, CHINO indicates that the volume of natural gas for which it requests certification is approximately 10,000 Mcf per day. This volume is estimated to displace the use of approximately 66,000 gallons (1,571 barrels) of No. 6 fuel oil (less than 2.0 percent sulfur) per day.

The eligible seller is El Paso Hydrocarbons Company, P.O. Box 3986, Odessa, Texas 79760. The gas will be transported by El Paso Natural Gas Company, P.O. Box 1492, El Paso, Texas 79978.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Office of Fuels Programs, Natural Gas Division, RG-43, Room GA-007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest, and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to CHINO and any persons filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C., on February 16, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 83-4554 Filed 2-23-83; 8:45 am]

BILLING CODE 6450-01-M

[ERA Docket No. 82-Cert-013]

Consolidated Edison Company of New York, Inc.; Application for Blanket Certification of the Use of National Gas To Displace Fuel Oil

Consolidated Edison Company of New York, Inc. (Con Edison), 4 Irving Place, New York, New York 10003, filed an application with the Economic Regulatory Administration (ERA) for a one year blanket certification of an eligible use of natural gas to displace fuel oil at six of its steam and electric generating stations located in New York City: Astoria in Queens; East River in Manhattan; Narrows in Brooklyn; Ravenswood in Queens; Waterside in Manhattan; and East 60th Street in Manhattan; pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, Room GA-007, RG-43, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

Since the start of this fuel-oil displacement program (Order 30 Program), during any given year, Con Edison has submitted numerous applications involving the purchase from many different eligible sellers of natural gas for use at these same facilities to displace fuel oil. Con Edison's pattern of purchases from year to year has been repetitive and consistent. There have been numerous requests for certifications to be made on short notice and for a limited period of time.

Con Edison asserts that in numerous instances, "substantial delays in the commencement of deliveries have taken place, not only because of delays in the issuance of the Certificates of Eligible Use, but also because pipeline companies refused to provide service until they were provided with a copy of the certificate." They also assert that where the transactions were not self-implementing, there were added delays because of the necessity of obtaining the ERA Certificate of Eligible Use before an application for the FERC Certificate of Public Convenience and Necessity could be filed by the transporting pipeline. Con Edison alleges that these delays resulted in the reduced availability of gas to displace fuel oil and, at times, the inability to obtain any gas at all.

Con Edison believes that a more efficient approach, which would satisfy the needs of Con Edison and ERA, meet the requirements of FERC and be consistent with the current ERA and FERC regulations under the Order 30 Program, involves the issuance by ERA of a "blanket" Certificate of Eligible Use for a specified maximum volume of gas to be used at particular facilities for a set period of time, up to one year. This would eliminate the need to obtain a separate certificate for each new purchase of gas to be used at the same facilities. In lieu of a separate certificate for each transaction, Con Edison proposes to file a report with ERA under the blanket certificate each time a contract is entered into notifying ERA of the selling and transporting companies, the amount of the gas proposed to be purchased and the amount of fuel oil that would be displaced. Con Edison believes that this approach would provide ERA with all of the information it normally requires in a request for a certificate, but there would be no delay involved in the consummation of the transportation service.

In its application for a blanket certificate, Con Edison has requested certification for approximately 84.0 billion cubic feet of natural gas for a period of one year to be used at the above facilities. These volumes are estimated to displace the use of approximately 13.326 million barrels of residual fuel oil (0.3 percent sulfur), approximately 139,000 barrels of No. 2 fuel oil (0.2 percent sulfur), and approximately 739,000 barrels of kerosene (0.10 percent sulfur).

The quantities at each location are subject to considerable variation with changes in demand and availability of the various steam and electric generating units, but estimated maximum gas usage and resulting maximum oil displacement volumes are listed below:

Location	Type [1]	Estimated volume (billion cubic feet)	Estimated oil displacement (million barrels) 0.3 percent sulfur residual	0.10 percent sulfur kerosene	0.2 percent sulfur No. 2
Astoria, 20th Avenue and 12th Street, Queens	SE	[illegible]	4.253		
	GT	1.387		.256	
East River, 14th Street and East River, Manhattan.	SE	8.655	1.449		
Narrows, 53rd Street and 1st Avenue, Brooklyn	[illegible]	.781			.139
Ravenswood, 7-18 37th Avenue, Queens	SE	27.140	4.544		
	GT	1.169		.216	
Waterside, 38th to 40th Street and East River, Manhattan.	[illegible]	18.336	3.070		
East 60th Street, 514 East 60th Street, Manhattan.	S	1.448		.267	
Totals		[illegible]	13.328	.739	.139

[1] SE—Steam-Electric; GT—Gas Turbine; S—Steam Station.

The eligible sellers and transporting pipeline companies will be determined at later dates as Con Edison negotiates and executes contracts with them. Con Edison proposes to submit in writing detailed information to ERA regarding each transaction within five (5) days of the commencement of any puchase from an eligible seller. The submittal will contain: (1) The names and addresses of the eligible sellers; (2) the names and addresses of the transporting pipeline companies; (3) the volume of gas to be used in each unit; and (4) the amount of oil which will be displaced, its type and sulfur content. ERA will notify FERC of this information upon its receipt.

At this time, Con Edison has in effect only one other certification by the ERA which authorizes the purchase of approximately 6 billion cubic feet (Bcf) of natural gas for use at the same steam and electric generating stations named in this application for a blanket certificate (ERA Docket No. 82–CERT–016). The volume of natural gas to be certified by the requested blanket certificate includes this 6 Bcf, which would have needed recertification in the event of a renewal of the purchase arrangements by Con Edison. Therefore, renewal of this certification would now be accomplished by simply notifying ERA under this blanket certificate in accodance with the reporting requirements set forth above.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application for a blanket certificate to submit comments in writing to the Economic Regulatory Administration, Room GA–007, RG–43, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application for a blanket certificate may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to Con Edison and any persons filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C., on February 16, 1983.

James W. Workman,

Director, Office of Fuels Programs.

[FR Doc. 83–4553 Filed 2–23–83; 8:45 am]

BILLING CODE 6450–01–M

[ERA Docket No. 83–Cert–002]

Lukens Steel Co.; Application for Certification of the Use of Natural Gas To Displace Fuel Oil

Lukens Steel Company (Lukens), 50 South First Avenue, Coatesville, Pennsylvania 19320 filed an application on January 14, 1983 with the Economic Regulatory Administration (ERA) for certification of an eligible use of natural gas to displace fuel oil at its steel manufacturing facility in Coatesville, Pennsylvania, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA Natural Gas Division Docket Room, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, from 8:00 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

In its application, Lukens indicates that the volume of natural gas for which it requests certification is approximately 1,200,000 million cubic feet. This volume is estimated to displace the use of approximately 8,796,000 gallons (209,429 barrels) of No. 2 fuel oil (0.50 percent sulfur) per year.

The eligible seller is Industrial Energy Services Company (Industrial Energy), The Empress House, Station Square, Pittsburgh, Pennsylvania 15219. The gas will be transported by Columbia Gas Transmission Corporation, 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25325; and by Columbia Gas of Pennsylvania, Inc., 99 North Front Street, Columbus, Ohio 43215, a local distribution company.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Office of Fuels Programs, Natural Gas Division, RG–43, Room GA–007, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585. Attention: Paula A. Daigneault, within ten (10) calendar days of the date of publication of this notice in the **Federal Register.**

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day oomment period. The request should state the person's interest, and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to Lukens and any person filing comments and will be published in the **Federal Register.**

Issued in Washington, D.C., on February 16, 1983.

James W. Workman,

Director, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[Docket No. ERA-FC-83-004]

Powerplant and Industrial Fuel Use Act of 1978: Electric Utility Conservation Plans

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of receipt of proposed electric utility conservation plans.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) has received four electric utility conservation plans developed and submitted for DOE approval pursuant to Section 808 of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.*, as amended (FUA or the Act).

Pursuant to 10 CFR 508.4(b), DOE hereby gives Notice of Receipt of Proposed Conservation Plans from the electric utility owners or operators listed in the **SUPPLEMENTARY INFORMATION** section below. The publication of this notice commences a thirty (30) day public comment period during which interested persons are invited to submit written comments concerning the content of any such proposed conservation plan.

The public file for each of the listed electric utility owners or operators containing the proposed conservation plan and any other pertinent documents is available at the Department of Energy, Freedom of Information Reading Room, 1000 Independence Avenue, S.W., Room 1E-190, Washington, D.C. 20585, telephone (202) 252-6020. ERA will approve or non-approve the proposed plan of each electric utility within 120 days of the receipt of each plan. Approval or non-approval of a conservation plan will be based on the entire record of the proceeding, including any comments received during the public comment period provided herein. Notice of Approval or Non-approval of each conservation plan will be published in the **Federal Register**.

DATE: Written comments on any proposed conservation plan identified in the **SUPPLEMENTARY INFORMATION** section of this notice are due on or before March 28, 1983.

ADDRESS: Five copies of written comments shall be submitted to: Case Control Unit, Fuels Conversion Division, Forrestal Building, Room GA-093, 1000 Independence Avenue, S.W., Washington, D.C. 20585. The name of the subject utility and the identifying case number should be printed on the outside of the envelope and on the documents contained therein.

FOR FURTHER INFORMATION CONTACT:

Edward J. Peters, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Building, Room GA-073 G, 1000 Independence Avenue, S.W., Washington, D.C. 20585; (202) 252-8162, or

Allan J. Stein, Esq., Office of the General Counsel, Forrestal Building, Room 6B-222, 1000 Independence Avenue, S.W., Washington, D.C. 20585; (202) 252-2967.

SUPPLEMENTARY INFORMATION: Section 1023 of the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97-35 (OBRA) amended FUA by adding a new section 808, entitled "Electric Utility Conservation Plan."

Section 808 requires utilities which own or operate any existing electric powerplant which used natural gas as a primary energy source between August 14, 1980 and August 13, 1981, and which also plan to use natural gas in any electric powerplant, to develop and submit to DOE for approval a conservation plan to conserve electric energy. The plan must set forth the means to achieve the conservation of electric energy at a level equal to 10 percent of the electric energy output of the utility sold within its own system which was attributable to natural gas during the four calendar quarters ending on June 30, 1981. The plan must be fully implemented during the five year period following DOE approval.

DOE will, within 120 days of the receipt of a proposed plan, approve each plan meeting the requirements of 10 CFR 508.8. If a proposed plan, as originally submitted, fails to meet the requirements for approval, DOE will notify the utility submitting the plan by letter, setting forth the reasons therefor, and provide a reasonable time for the submission of a modified conservation plan. If an acceptable modified plan is not submitted within the specified time period, a Notice of Non-approval will by published in the **Federal Register** together with the basis for the determination that the proposed plan fails to meet the requirements of 10 CFR 508.8. The following utilities have submitted proposed conservation plans to DOE for approval. Publication of this notice does not constitute approval of such plans.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. ER 83-313-000]

The Connecticut Light and Power Co.; Filing

February 17, 1983.

Take notice that on February 7, 1983, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed rate schedule change with respect to a system exchange agreement dated September 17, 1982 (Amendment) between (1) CL&P and Western Massachusetts Electric Company (WMECO), (together, the NU Companies) and (2) Boston Edison Company (BECO).

CL&P states that the Amendment provides for changes to a system exchange agreement between the same parties dated as of December 1, 1981 (Agreement). The requested changes include (1) modification to the maximum hourly capacity charge rate pursuant to Section 8 of the Agreement, and (2) changes to recognize the merger of The Hartford Electric Light Company into CL&P as of July 1, 1982.

The maximum hourly capacity charge rate is an hourly rate equal to estimated hourly capacity costs of the generating units of the NU Companies that would normally supply exchange power to BECO (less a credit to recognize the value of capacity from the BECO Units) and is determined in accordance with Appendix I of the Amendment. The hourly capacity charge is determined as the product of (i) the appropriate negotiated capacity charge rate ($/kWh), not to exceed the maximum capacity charge rate, and (ii) the total kilowatt-hours of capacity which BECO is entitled to receive in such hour pursuant to the Amendment.

CL&P requests that the Commission waive its standard notice period and permit the Amendment to become effective on September 17, 1982.

CL&P states that copies of this rate schedule have been mailed or delivered to WMECO and BECO.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-307-000]

Consolidated Edison Company of New York, Inc.; Filing

February 17, 1983.

Take notice that on February 7, 1983, Consolidated Edison Company of New York, Inc. (Con Edison) tendered for filing as an initial rate schedule an agreement to construct, operate and maintain interconnection facilities at the Kensico Hydroelectric Project of the Power Authority of the State of New York (the "Authority").

Con Edison requests an effective date of February 3, 1983, and therefore requests waiver of the Commission's notice requirements.

A copy of this filing has been served upon the Authority.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER83-312-000]

Consolidated Edison Company of New York, Inc.; Filing

February 17, 1983.

Take notice that on February 7, 1983, Consolidated Edison Company of New York, Inc. (Con Edison) tendered for filing as an initial rate schedule an agreement to provide transmission service to Orange & Rockland Utilities, Inc. (O&R). The rate schedule provides for a transmission charge of 2.3 mills per kilowatthour for interruptible transmission of power and energy purchased by O&R from Pennsylvania Power & Light Company.

Con Edison requests an effective date of November 24, 1982, and therefore requests waiver of the Commission's notice requirements.

Con Edison states that a copy of this filing has been served upon O&R.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protects should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER83-308-000]

Dayton Power and Light Co.; Filing

February 17, 1983.

Take notice that on February 7, 1983, Dayton Power and Light Company (DP&L) requested authority to recognize a temporary increase of .25% and a temporary surtax of approximately .25% in the exicse tax on gross receipts imposed by the Ohio Legislature in Amended Substitute Senate Bill No. 530 pursuant to the Tax Adjustment Clauses contained in DP&L's Rate Schedule FERC No. 34 (City of Piqua, Ohio).

DP&L requests an effective date of May 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Ruies of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER83-309-000]

Dayton Power and Light Co.; Filing

February 17, 1983.

Take notice that on February 7, 1983, the Dayton Power and Light Company (DP&L) tendered for filing a proposed revision to its FERC Electric Tariffs, Original Volume No. 1 and Original Volume No. 2. The proposed revision is to recognize a temporary increase of .25% and a temporary surtax of approximately .25% in the excise tax on gross receipts imposed by the Ohio Legislature in Amended Substitute Senate Bill No. 530 pursuant to the Tax Adjustment Clauses contained in DP&L's FERC Electric Tariffs.

DP&L requests an effective date of May 1, 1983, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to

the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. QF83-94-000]

Home Federal Savings and Loan Assn.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

February 17, 1983.

On December 10, 1982, Home Federal Savings and Loan Association (Applicant), 701 Broadway, San Diego, California 92101, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules. Supplementary information was filed by the Applicant on January 10, 1983.

The topping cycle cogeneration facility is located in San Diego, California. The facility consists of two gas turbine generators with waste heat recovery equipment supplying exhaust heat to two five-hundred ton chiller/heaters. A third standby gas turbine generator is installed with interface equipment in place to install a third chiller/heater. The total electric power production capacity of the facility is 2,400 kilowatts. The primary energy source to the facility is natural gas. Installation began in September 1981. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. G-2757-000, et al.]

Kerr-McGee Corp., et al.; Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

February 17, 1983.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before March 1, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[1] The Bell No. 1 well has depleted and the well is being used as a water injection well.
[2] Deletion of acreage. Applicant no longer holds an interest in the lease involved in this application. Lease had expired and there was no production at time of surrender in September of 1953.
[3] To release gas for irrigation fuel.
[4] Landowner's requested release of acreage.
[5] Gas production has ceased from dedicated acreage and the leases have expired.
[6] Applicant is filing to change delivery point.
[7] Plugging and abandonment of 2 wells—George B. Crawford #1, located on the George B. Crawford lease and Otto (Barby) #1–7, located on the Otto lease, last producing wells on such leases.
[8] Applicant is filing under Gas Sales Agreement dated December 6, 1968, amended by amendment dated September 27, 1982.
[9] Rate filing submitted November 24, 1982 erroneously assigned Docket No. CI69–745–000.
[10] Purchaser has agreed to release such acreage from the subject rate schedule.
[11] Applicant is filing under Gas Purchase Agreement dated May 9, 1973, amended by Supplement Gas Purchase Agreement dated January 26, 1983.
[12] All the wells have ceased to produce and have been plugged and abandoned. All the leases except two that were dedicated under the 1974 contract have expired by their own terms, and have reverted to the mineral owners.
[13] Applicant is filing under Gas Purchase and Sales Agreement dated January 5, 1983 as amended.
[14] Applicant is filing under Gas Purchase Contract dated November 1, 1982.
[15] Last well plugged and abandoned on September 30, 1981 and the lease surrendered and released during July, 1982.
[16] The only well on the lease has been depleted and there has been no production since September 8, 1982. Further, no economically producible reserves remain in the well bore and no additional development is being contemplated.
[17] Applicant is filing under Gas Purchase Contract dated September 1, 1982, as amended January 10, 1983.
[18] Applicant is filing under Gas Purchase Contract dated September 15, 1982.
[19] Texaco lease in SE¼ Block 71, High Island was sold and assigned to Galaxy Energies, Inc. Texaco leases were released in High Island Block 88 Field for Block 72, Block 87 and Block 88 on April 24, 1979, November 9, 1978 and October 27, 1975, respectively.
[20] All acreage covered by Rate Schedule No. 75 has been assigned by Applicant to others.
[21] Contract will expire of its own terms April 1, 1983. All wells on dedicated acreage have been plugged.
[22] Casing leak. Well not capable of producing due to casing leak.
[23] The Morrow formation reserves attributable to the Corbin Federal Well No. 1 have been depleted and deliveries of natural gas to El Paso have ceased. Contract dated February 13, 1978 will expire by its own term on May 14, 1983.
[24] Gulf's interest in the leases covered by the contract have been surrendered. The contract was cancelled March 23, 1977 pursuant to notice given by Gulf. All producing wells have been plugged and abandoned.
[25] Applicant is filing under Gas Purchase Contract dated January 2, 1981.

Filing Code: A—Initial Service. B—Abandonment. C—Amendment to add acreage. D—Amendment to delete acreage. E—Total Succession. F—Partial Succession.

BILLING CODE 6717–01–M

[Docket No. CP82–60–003]

Michigan Wisconsin Pipe Line Co.; Petition To Amend

February 17, 1983.

Take notice that on January 19, 1983, Michigan Wisconsin Pipe Line Company (Mich Wis), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP82–60–003, a petition to amend the order of April 29, 1982, in Docket No. CP 82–60–000 issuing a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act so as to authorize Mich Wis to transport and deliver natural gas for Natural Gas Pipeline Company of America (Natural) at a delivery point at Lake Arthur, Cameron Parish, Louisiana, all as more fully set forth in the petition to amend.

By order issued April 29, 1982, Mich Wis was authorized to transport for Natural up to 40,000 Mcf of natural gas per day attributable to the production in Vermillion Area Block 380, offshore Louisiana, and to construct and operate an interconnection between the pipeline systems of Mich Wis and Natural in Beaver County, Oklahoma, necessary for the redelivery of gas to Natural. It is asserted that until the interconnection in Beaver County is placed in service, Mich Wis is authorized to redeliver gas to Natural at an existing interconnection of the pipeline systems of Natural and Mich Wis located near Lake Arthur, Cameron Parish, Louisiana.

Mich Wis and Natural have subsequently amended their transportation agreement to provide that Mich Wis at its discretion may redeliver natural gas to Natural at either or both the proposed interconnection in Beaver County and/or the existing interconnection at Lake Arthur. It is stated that the amendatory agreement was entered into in order to provide Mich Wis with greater operating flexibility since an authorized delivery point would be available on either of Mich Wis' two main transmission systems. Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 9, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RE83-3-000]

New York State Electric and Gas Corp.; Application for Exemption

February 17, 1983.

Take notice that New York State Electric and Gas Corporation (NYSEG) filed an application on December 21, 1982 for exemption from certain requirements of Part 290 of the Commission's Regulations concerning collection and reporting of cost of service information under Section 133 of the Public Utility Regulatory Policies Act (PURPA), Order No. 48 (44 FR 58667, October 11, 1979). Exemption is sought from the requirement to file on or before June 30, 1984, information on the costs of providing electric service as specified in § 290.403(d) as it applies to Rate Classes SC-2 (General Service) and SC-6 (Small General Service).

In its application for exemption NYSEG states, in part, that it should not be required to file the specified data for the following reasons:

NYSEG's staff is presently engaged in unforeseen, extensive, one-time load studies required to comply with the requirements of the Public Service Commission of New York, State Case No. 28223. Because of limited personnel and equipment, NYSEG proposes to submit estimated load data for the specified rate classes based upon actual data gathered in 1979.

Copies of the application for exemption are on file with the Commission and are available for public inspection. The Commission's regulations require that said utility also apply to any State regulatory authority having jurisdiction over it to have the application published in any official State publication in which electric rate change applications are usually noticed, and that the utility publish a summary of the application in newspapers of general circulation in the affected jurisdiction.

Any person desiring to present written views, arguments, or other comments on the application for exemption should file such information with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before 45 days following the date this notice is published in the **Federal Register**. Within that 45 day period such persons must also serve a copy of such comments on:

John D. Scott, Vice President, New York State Electric and Gas Corporation, P.O. Box 287, Ithaca, New York 14850
and
Kenneth M. Jasinski, Esq., Huber Lawrence & Abell, 99 Park Avenue, New York, New York 10016

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-305-000]

Portland General Electric Co.; Filing

February 17, 1983.

Take notice that Portland General Electric Company (Portland) tendered for filing on February 4, 1983, 100 MW Power Sale Agreement and rate schedule under which Portland has agreed to supply energy at the constant rate of 100 MW to the State of California, Department of Water Resources, beginning 1 April 1983. The State of California, Department of Water Resources will pay Portland General Electric Company a fixed monthly charge and a variable charge for this service. The fixed monthly charges are for the following periods and amounts:

April, 1983–March, 1984, $750,000
April, 1984–March, 1985, $750,000
April, 1984–March–1986, $1,500,000

The variable charge will be 21 mills per kilowatt hour beginning on September 30, 1982 and will be subject to an automatic escalation based on increases in the purchase price of coal under Portland's AMAX coantract for coal transportation from Gilette, Wyoming to Portland's coal-fired Boardman plant. The third year of the Agreement is cancellable at the option of either party.

Copies of the filing were served upon the State of California, Department of Water Resources.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 2, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER83-302-000]

Arkansas Power & Light Co.; Filing

February 17, 1983.

Take notice that on February 1, 1983, Arkansas Power & Light Company (AP&L) tendered for filing a proposed change to the fuel adjustment formula contained in Rate Schedule W81S for service to AP&L's municipal and rural electric cooperative sales-for-resale customers located in the State of Arkansas (Arkansas customers).

The change to the fuel adjustment formula in Rate Schedule W81S being proposed herein would increase the base cost of fuel and purchased power, expressed as the "B factor" in the fuel adjustment formula by .464 mills per kilowatt-hour, from 12.213 to 12.677 mills per kWh, thereby reducing fuel adjustment revenues from the Arkansas customers. Other than the change in the B factor, no changes are being made to Rate Schedule W81S. The changed B factor would be used in billing the Arkansas customers, subject to refund, pending the outcome of Docket No. ER81-577.

AP&L respectfully requests that the proposed B factor change be made effective as of January 18, 1983, the date of commercial operation of the Independence unit. Therefore, AP&L requests waiver of the Commission's regulations. In the event waiver is denied, AP&L requests an effective date of no more than 60 days from the date of filing.

Copies of this filing were served upon all recipients of the original filing and all parties in Docket No. ER81-577.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 4, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. EL83-8-000]

Cajun Electric Power Cooperative, Inc. v. Central Louisiana Electric Company, Inc.; Filing

February 18, 1983.

Take notice that on February 2, 1983, Cajun Electric Power Cooperative, Inc. ("Cajun") filed a complaint against Central Louisiana Electric Company, Inc. ("CLECO") and a motion to consolidate pursuant to Sections 205, 206, 306 and 307 of the Federal Power Act and pursuant to Rules 205 and 212 of the Commission's Rules of Practice and Procedure. Cajun alleges that CLECO has overcharged Cajun with regard to CLECO's "excess power" transmission charge.

Cajun requests that the Commission order a hearing and investigation, order CLECO to refund all excess charges made by CLECO with regard to the "excess power" transmission charge, and grant such further relief as the Commission deems appropriate. Cajun further requests consolidation of this proceeding with the proceeding in Docket No. ER82-704-000.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.211, 385.214). All such motions or protests should be filed on or before March 15, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commisison and are available for public inspeciton.

Kenneth F. Plumb,

Secretary.

[Project No. 2380-000]

Carolina Power & Light Co.; Exemption From Licensing

February 18, 1983.

A notice of exemption from licensing of a small hydroelectric project known as Marshall Hydroelectric Project, Project No. 2380, was filed on January 19, 1983, by Carolina Power and Light Company. The proposed hydroelectric project would have an installed capacity of 5000 kW and would be located on the French Broad River, at the Redmon Dam, in Madison County, North Carolina.

Pursuant to § 4.109(c) and 375.308(ss) of the Commission's regulations, and subject to the terms and conditions set forth in § 4.111 of the Commission's regulations, the Director, Office of Electric Power Regulation, issues this notification that the above project is exempted from licensing as of February 19, 1983.

Lawrence R. Anderson,

Director, Office of Electric Power Regulation.

Cities Service Company, et al.; Applications To Amend Certificates To Establish Entitlement to Section 109 Price [1]

February 18, 1983.

Take notice that each of the Applicants listed herein has either filed a petition to amend certificate pursuant to Section 7 of the Natural Gas Act or a notice of change in rate which is being treated as a petition to amend certificate to establish Applicant's right to collect the section 109 price consistent with the court order issued in *Tenneco Exploration Ltd v. FERC*, 649 F2d. 376, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before March 7, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-168-000]

El Paso Natural Gas Co.; Request Under Blanket Authorization

February 18, 1983.

Take notice that on January 24, 1983, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP83-168-000 a request pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) that Applicant proposes to construct and operate a sales tap for the delivery of gas to Arizona Public Service Company (APS) for resale to the Goodyear Airport Commercenter (Commercenter) in Maricopa County, Arizona, under the authorization issued in Docket No. CP82-435-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Applicant states that pursuant to a request by APS it proposes to construct and operate a 2-inch O.D. tap and valve assembly on Applicant's existing 8⅝-inch O.D. Avondale pipeline in Maricopa County, Arizona. These facilities would be utilized to deliver an estimated 142,000 Mcf of gas by the third year of operation, it is stated. It is further stated that the $1,893 estimated cost of construction would be financed by internally generated funds.

APS would pay the ABD-Arizona rate as set forth in Sheet No. 3-B of Applicant's FERC Gas Tariff, Original Volume No. 1, it is stated. Applicant claims the requested sales would not increase APS' currently effective entitlements or contract volumes.

It is indicated that the tap would serve the Commercenter with gas for flame stabilization in the manufacture of microchips and for commercial space heating.

Any person or the Commission's staff may file, within 45 days after issuance of the instant notice by the Commission, pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214), a motion to intervene or notice of intervention and, pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a

protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-139-001]

Inland Gas Company, Inc.; Amendment

February 18, 1983.

Take notice that on January 31, 1983, The Inland Gas Company, Inc. (Applicant), 340 Seventeenth Street, Ashland, Kentucky 41101, filed in Docket No. CP83-139-001 an amendment to its pending application in Docket No. CP83-139-000 filed pursuant to Section 7 of the Natural Gas Act and Subpart F of Part 157 of the Commission's Regulations so as to reflect a request for waiver of Section 157.204(a) of the Commission's Regulations, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

It is stated that § 157.204(a) provides that any interstate pipeline which has been issued a certificate, other than a limited-jurisdiction certificate, pursuant to Section 7 of the Natural Gas Act and has had rates accepted by the Commission may apply for a blanket certificate under this subpart. Applicant states that it has been granted certificates by this Commission but currently does not have any rates approved or on file with the Commission. Applicant states it would utilize the requested blanket certificate for construction of facilities to connect either right-of-way customers or customers who receive service pursuant to the requirements of Kentucky Revised Statute (KRS) 278.485.[1]

Any person desiring to be heard or to make any protest with reference to said amendments should on or before March 11, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any persons wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. All persons who have heretofore file need not file again.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-4645 Filed 2-23-83; 8:45 am]

BILLING CODE 6717-01-M

---

[1] KRS 278.485 requires gas pipeline companies in Kentucky to establish service to property owners who have a producing well or gathering pipeline located on their property or owners whose property and point of desired service is located within one-half air-mile of a producing well or gathering pipeline.

[Docket No. OF83-155-000]

Charles Krivanek; Application for Commission Certification of Qualifying Status of a Small Power Production Facility

February 18, 1983.

On January 20, 1983, Charles Krivanek (Applicant), P.O. Box 1397, Columbia, New Jersey, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's rules.

The wind-powered small power production facility is located in White Township, New Jersey. The electric power production capacity of the facility is 10 kilowatts. There are no other wind-powered small power production facilities owned by Applicant located within one mile of the facility. No electric utility, electric utility holding company, or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER82-128-001]

Mississippi Power & Light Co.; Compliance Filing

February 18, 1983.

Take notice that on February 10, 1983, Mississippi Power & Light Company submitted for filing revised Rate Schedule MW-16, revised Service Schedule E and a refund report in compliance with the Commission's order dated January 24, 1983.

Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 325 North Capitol Street, NE., Washington, D.C. 20426, on or before March 7, 1983. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-155-000]

Montana-Dakota Utilities Co.; Request Under Blanket Authorization

February 18, 1983.

Take notice that on January 14, 1983, Montana-Dakota Utilities Co. (MDU), 400 North Fourth Street, Bismarck, North Dakota 58501, filed in Docket No. CP83-155-000 a request as supplemented on January 26, 1983, pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) that MDU proposes to add a new delivery point for its sale of natural gas for resale to Cody Gas Company (Cody Gas) under the authorization issued in Docket No. CP83-1-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in its request, as supplemented, which is on file with the Commission and open to public inspection.

It is asserted that MDU proposes to add a new delivery point to Cody Gas to be located in Section 24, T58N, R100W, Park County, Wyoming. MDU states that the deliveries would be made pursuant to authorization granted by order issued November 26, 1982, in Docket No. CP82-405-000. Said order authorized MDU to sell Cody Gas up to 6,000 Mcf of gas per day. MDU further states that no additional volumes beyond those previously authorized would be sold or delivered to Cody Gas by means of this new delivery point. It is stated that the new delivery point is intended to add flexibility and ease of operation to MDU's sale-for-sale to Cody Gas in order to assist Cody Gas in serving its existing residential, commerical and some small industrial customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and, pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP83-153-000]

Northern Natural Gas Company, Division of InterNorth, Inc.; Application

February 18, 1983

Take notice that on January 12, 1983, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP83-153-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon and remove wellhead facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests abandonment authorization for specific wellhead purchase facilities for those wells which have been abandoned or where service has ceased permanently after October 11, 1979, and in addition, blanket abandonment authorization for unspecified wellhead purchaser facilities abandoned prior to October 11, 1979. Applicant states that prior to October 11, 1979, it routinely removed such wellhead facilities that were plugged and abandoned and reused such equipment elsewhere. Applicant asserts that the removal of such facilities was considered to be nonjurisdictional during such time because of their classification as gathering. Applicant states that the facilities proposed to be abandoned were required for measurement and connection of gas purchased by Applicant from various wells in various areas.

Applicant asserts that the facilities proposed to be abandoned are no longer required and would not result in the termination of service or detriment to any of Applicant's customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 11, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules

of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 3466-001]

Pacific Northwest Generating Company and Tumalo Irrigation District; Surrender of Preliminary Permit

February 18, 1983.

Take notice that Pacific Northwest Generating Company and Tumalo Irrigation District, Permittee for the proposed Columbia Southern Canal Hydroelectric Project No. 3466, has requested that its preliminary permit be terminated. The preliminary permit was issued on March 11, 1981, and would have expired February 28, 1983. The project would have been located on Tumalo Creek in Deschutes County, Oregon.

The Permittee filed its request on January 20, 1983, and the surrender of the preliminary permit for Project No. 3466 is deemed effective as of the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-4627 Filed 2-23-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. EL83-9-000]

Pennsylvania Power Co.; Filing

February 17, 1983.

Take notice that on February 2, 1983, the Pennsylvania Boroughs of Ellwood City, Grove City, New Wilmington, Wampum and Zelienople ("Boroughs") filed a complaint against Pennsylvania Power Company ("Penn"). The Boroughs allege that Penn has violated section 205 of the Federal Power Act and §§ 35.1(a), 35.2(b) and 35.13(a) of Part 35 of the Commission's regulations.

The Boroughs request that the Commission order Penn to refund all charges made to the Boroughs during the Docket No. ER77-277 period (September 11, 1977 to January 4, 1982) for rates gauged on costs of capital in excess of the level which the Boroughs state was applied to Penn's transactions with Ohio Edison Company during the same period.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 18, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. CS72-0203-004, et al.]

Petro-Lewis Funds, Inc. (Terra Resources, Inc.), et al.; Applications for "Small Producer" Certificates [1]

February 18, 1983.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and § 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before March 7, 1983 file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER83-318-000]

Public Service Company of Indiana, Inc.; Filing

February 18, 1983.

Take notice that Public Service Company of Indiana, Inc. (PSC) on February 9, 1983, tendered for filing pursuant to the Interconnection Agreement between PSCI and Indiana Michigan Electric Company, an AEP affiliated operating subsidiary, (Indiana Company) a Modification No. 10 to become effective February 7, 1983.

Said Modification provides for the following additional services and increased rates for Short Term Power:

(1) Schedule Weekly Short Term Power for periods of one or more weeks or "Daily Short Term Power" for periods of one or more days.

(2) Short Term Power provided by PSCI for not less than 100 MW level for not less than 13 consecutive weeks at a minimum load factor of 75% and a minimum hourly schedule of 50% of the reservation or such load factor minimum schedule combination that the parties mutually agree.

(3) Indiana Company's transmission demand rate from a third party for PSCI has been increased from $0.24 to $0.35 per kilowatt per week.

PSCI requests an effective date of February 7, 1983, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon American Electric Power Service Corporation, the Michigan Public Service Commission and the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 8, 1983. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. QF81-21-001]

Simpson Paper Co.; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

February 18, 1983.

On February 3, 1983, Simpson Paper Company, P.O. Box 637, Anderson, California 96007, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules.

The topping-cycle congeneration facility is under construction on the premises of the Simpson Paper Company's Shasta Mill in rural Shasta County, California, two miles southeast of the City of Anderson. The energy source to the facility will be natural gas with #2 fuel oil backup. The gas turbine congeneration facility has a rated electric power output of 33 megawatts. Steam will be produced in a waste heat recovery boiler at a rate of 121,000 lbs/hr. An additional 119,000 lbs/hr of steam can be produced by supplemental natural gas firing of the heat recovery steam generator. Installation of the facility began in 1982. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5704-001]

James H. Stephens; Surrender of Preliminary Permit

February 18, 1983.

Take notice that James H. Stephens, Permittee for the proposed Stephens Project No. 5704, requested by letter filed January 24, 1983, that his preliminary permit be surrendered. The preliminary permit was issued on May 21, 1982, and would have expired on December 31, 1983. The project would have been located on Sweetwater Creek, in Garfield County, Colorado. Mr. Stephens has determined that the project is too far from a three-phase power line for transmission and that costs to complete the project are deemed prohibitive at this time.

The surrender of the preliminary permit for Project No. 5704 is accepted as of the date of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-4646 Filed 2-23-83; 8:46 am]

BILLING CODE 6717-01-M

[Docket No. CP83-157-000]

Trunkline Gas Co. and Panhandle Eastern Pipe Line Co.; Application

February 18, 1983.

Take notice that on January 18, 1983, Trunkline Gas Company (Trunkline), P.O. Box 1642, Houston, Texas 77001, and Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP83-157-000 a joint application as supplemented January 25, 1983, pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Trunkline and Panhandle to sell natural gas to existing utility customers under a new rate schedule, the Industrial Incentive Rate Schedule, for a term to be effective from March 1, 1983, through February 28, 1985, with eligibility to be automatically renewed every six months during the term thereof, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

It is stated that the Industrial Incentive Rate Schedule would enable Trunkline and Panhandle to offer an incentive gas rate to their present jurisdictional customers under specified limited conditions which is lower than the rates under their existing rate schedules to aid these customers in regaining industrial load loss of natural gas sales and to avoid further industrial load loss due to price competition from alternate fuels and adverse national economic conditions. The Industrial Incentive Rate Schedule, it is asserted, would only be available to Trunkline's and Panhandle's existing customers for sales within their traditional service areas and within the limits of the annual and daily contract quantities previously authorized by the Commission. Trunkline and Panhandle state that no change in their currently authorized facilities, method or terms of delivery or other terms of sale are proposed.

It is stated that Trunkline's current rates reflect a settlement agreement dated August 26, 1981, which was approved by the Commission's order dated December 18, 1981, in Docket No. RP80-106 which rates went into effect December 1, 1980. Trunkline is proposing herein to include the volumes sold pursuant to this Industrial Incentive Rate Schedule in the sales refund obligation computation prescribed in this settlement agreement to insure that there is no over-recovery by Trunkline of its applicable fixed-costs as a result of the proposed new service.

Further, it is stated that Panhandle's rates are pursuant to its as filed alternate rates in Docket No. RP82-58-000 which went into effect, subject to refund, on October 1, 1982. Thus, Panhandle's current rates are subject to the final outcome of the RP82-58-000 proceeding, it is said.

It is asserted that due to the decline in sales Trunkline is faced with a temporary, but substantial, surplus of natural gas which would result in sizable take-or-pay obligations. Trunkline's projected take-or-pay obligations for the first six months of 1983 is 80,000,000 Mcf or $259 million. For the second half of 1983 the amount is 74,000,000 Mcf or $241 million. The Industrial Incentive Rate Schedule is intended to help avoid these substantial take-or-pay obligations, it is explained.

It is stated that this service would be provided to customers which can certify a specific industrial load loss to alternate fuels. Therefore, it is critical that the selling price of gas under the Industrial Incentive Rate Schedule be competitive with alternate fuels, it is explained. Trunkline proposes a rate of $3.5089 per dekatherm equivalent ($3.5545/Mcf) with Panhandle's proposed rate under the Industrial

Incentive Rate Schedule being $3.5666 per dekatherm equivalent ($3.5545/Mcf).

Any person desiring to be heard or to make any protest with reference to said application should on or before March 11, 1983, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Trunkline and Panhandle to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 83-4833 Filed 2-23-83; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. QF83-95-000]

United Ethanol Corp. of Delano; Application for Commission Certification of Qualifying Status of a Cogeneration Facility

February 18, 1983.

On December 10, 1982, United Ethanol Corp. of Delano, 3188-H Airway Avenue, Costa Mesa, California, filed with the Federal Energy Regulatory Commission (Commission) an application for certification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's rules. On January 18, 1982, supplementary information was filed to complete the application.

The topping-cycle cogeneration facility will be located on an abandoned waste water treatment facility owned by the City of Delano, California. The facility will consist of three fluidized bed combuster-boilers, a dual fuel combustion turbine generator set, a waste heat recovery boiler, a condensing steam turbine and a back pressure steam turbine. The primary energy source to the facility will be biomass in the form of woody cotton stalks, barley straw and nut shells. The electric power production capacity of the facility will be 45 megawatts. Exhaust steam will be used in ethanol production and grain drying. Installation of the facility will begin in March 1983. No electric utility, electric utility holding company or any combination thereof has any ownership interest in the facility.

Any person desiring to be heard or objecting to the granting of qualifying status should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests must be filed within 30 days after the date of publication of this notice and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

purchaser
notice.

The app
available
extent suc

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register**.

Categories within each IGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: 15,000 feet or deeper
107–GB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formulation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-C

UMI 1983 FEB 24 ISS 38 VOL 48

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA section are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2.5 mile rule)
102–3: New well (1000 ft rule)
102–4: New onshore reservoir
102–5: New reservoir on old BCS lease
Section 107–DP: 15,000 feet or deeper
107–CB: Geopressured brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

Office of the Secretary

International Atomic Energy Agreements; Proposed Subsequent Arrangement; European Atomic Energy Agreements (EURATOM)

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above mentioned agreement involves approval of the following contract:

Contract Number S–EU–752B, to Saunders-Roe Development, Ltd., England, 700,000 curies of tritium, for use in the manufacture of illuminated signs, dials, and meters. U.S. Nuclear Regulatory Commission export license XB001010, amendment number 5, was issued December 22, 1982 permitting the export of this material.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of the nuclear material will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: February 17, 1983.

For the Department of Energy.

George Bradley,

Principal Deputy Assistant Secretary for International Affairs.

[FR Doc. 83–4551 Filed 2–23–83; 8:45 am]

BILLING CODE 6450–01–M

International Atomic Energy Agreements; Proposed Subsequent Arrangement; European Atomic Energy Community (EURATOM)

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above mentioned agreement involves approval of the following contract:

Contract Number WC–EU–242, with the University of Munich, Federal Republic of Germany, for the return of equipment loaned to the U.S. Department of Energy, which contains 92.3 nanograms of plutonium-242 and 0.3 nanograms of helium-3.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: February 17, 1983.

For the Department of Energy

George Bradley,

Principal Deputy Assistance Secretary for International Affairs.

[FR Doc. 83–4550 Filed 2–23–83; 8:45 am]

BILLING CODE 6450–01–M

International Atomic Energy Agreements; Proposed Subsequent Arrangement; Government of Sweden

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Agreement for Cooperation Between the Government of the United States of America and the Government of Sweden Concerning Civil Uses of Atomic Energy, as amended, and the Agreement for Cooperation Between the Government of the United States of America and the Government of Finland Concerning Civil Uses of Atomic Energy.

The subsequent arrangement to be carried out under the above mentioned agreements involves approval of the following retransfer:

RTD/FI(SW)–2, from Sweden to Finland, 243 grams of uranium, in the form of pellets, enriched to an average of 2.9% in U–235, for analytical work to be performed at Statens Tekniska Forskningcentral, Espoo, Finland.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: February 17, 1983.

For the Department of Energy.

George Bradley,

Principal Deputy Assistant Secretary for International Affairs.

BILLING CODE 6450–01–M

Compliance With the National Environmental Policy Act: Extension of Comment Period for Scoping the Environmental Impact Statement for Long-Term Management of Existing Radioactive Wastes and Residues at the Niagara Falls Storage Site

AGENCY: Department of Energy.

ACTION: Extension of comment period.

SUMMARY: On February 1, 1983, the Department of Energy (DOE) published in the **Federal Register**, a Notice of Intent to prepare an Environmental

SOURCE DATA FOR THIS NOTICE IS AVAILABLE ON MAGNETIC TAPE FROM THE NATIONAL TECHNICAL INFORMATION SERVICE (NTIS). FOR INFORMATION CONTACT STUART WEISBAR (NTIS) AT (703) 487-4808, 5285 PORT ROYAL RD, SPRINGFIELD, VA 22161, OR SANDRA SPEAR (FERC) (202) 357-8681.

BILLING CODE 6717-01-C

Impact Statement (EIS) relative to the long-term management of radioactive wastes and residues currently stored at the Niagara Falls Storage Site (NFSS) in Lewiston, New York (48 FR 4522). The scoping comment deadline specified in that Notice was February 25, 1983. On February 11, 1983, the New York State Department of Environmental Conservation requested that this deadline be extended until March 11, 1983. DOE has determined that the requested extension is reasonable.

DATES: Written comments or suggestions on the appropriate scope of the NFSS EIS will be accepted by DOE through March 11, 1983. Comments postmarked after March 11, 1983, will be considered to the maximum extent practicable.

Dated at Washington, D.C., this 22 day of February 1983 for the Department of Energy.

William A. Vaughan,

Assistant Secretary, Environmental Protection, Safety, and Emergency Preparedness.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-140032; TSH-FRL 2310-7]

ICF Inc. and Research Triangle Institute; Transfer of Data to Contractor and Subcontractor

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA will transfer to its contractor, ICF Inc., of Washington, D.C., and ICF's subcontractor, Research Triangle Institute (RTI), of Research Triangle Park, North Carolina, information which has been or will be submitted to EPA by manufacturers, processors, and importers of asbestos or asbestos products under section 8(a) of the Toxic Substances Control Act (TSCA). ICF and RTI will review this information and use it to perform regulatory impact analyses for any TSCA section 6 regulatory actions on asbestos which the agency may consider. Some of the information may be claimed to be confidential.

DATE: The transfer of confidential data submitted to EPA will occur no sooner than 10 working days after publication of this notice in the Federal Register.

FOR FURTHER INFORMATION CONTACT: J. P. McCarthy, Director, Industry Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Room E-511, 401 M St., SW., Washington, D.C. 20460, Toll-free: (800-424-9065), In Washington, D.C.: (554-1404), Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION: Under section 6(c) of TSCA, 15 U.S.C. 2605(c), EPA must estimate the costs and benefits of any regulatory actions it plans to take under section 6(a). The agency has gathered information from the asbestos industry under authority of section 8(a) of TSCA which will be of use in determining the economic impact of possible future regulation under section 6. To assist in its cost-benefit analyses, EPA will require the services of its contractor, ICF Inc. of Washington, D.C., and ICF's subcontractor, Research Triangle Institute of Research Triangle Park, North Carolina. RTI has developed an input-output model centered around the asbestos industry to estimate the impact of possible section 6 regulatory actions. Under the terms of the contract (No. 68-01-6287), EPA will provide ICF and RTI with information submitted by asbestos manufacturers, processors, and importers on production volumes, production processes, product type, worker exposure, and safety measures under the section 8(a) Asbestos Reporting Requirements rule, 47 FR 33198 (July 30, 1982).

In accordance with 40 CFR 2.306(j), EPA has determined that it will need to disclose confidential business information to ICF Inc. and its subcontractor, RTI, since much of the asbestos industry data submitted to the agency under section 8(a) of TSCA may be claimed confidential.

ICF and RTI have been authorized to have access to TSCA confidential business information under the EPA "Contractor Requirements for the Control and Security of TSCA Confidential Business Information" security manual. EPA has approved the ICF and RTI security plans and has conducted the required inspections of the ICF and RTI facilities and found them to be in compliance with the provisions of the manual.

Since ICF and RTI will review information claimed to be confidential, EPA is publishing this notice to inform all submitters of data on asbestos that ICF and RTI will receive confidential business information from EPA. After completing regulatory impact analyses of possible asbestos regulatory actions, ICF and RTI will return all confidential business information to EPA.

The ICF and RTI personnel will be required to sign a nondisclosure agreement before they are permitted access to confidential information. ICF and RTI are required to treat all confidential business information in accordance with the requirements of the TSCA Confidential Business Information Security Manual and the Contractor Requirements manual.

Dated: February 14, 1983.

Don R. Clay,

Director, Office of Toxic Substances.

[OPTS-51448A; BH-FRL 2310-8]

Premanufacture Notices; Certain Chemicals; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice corrects the PMN exposure data on a premanufacture notice (PMN) published in the Federal Register on January 7, 1983 (48 FR 863).

FOR FURTHER INFORMATION CONTACT: Theodore Jones, Acting Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M St., SW., Washington, DC 20460, (202-382-3729).

SUPPLEMENTARY INFORMATION: In the Federal Register of January 7, 1983 (48 FR 863), EPA issued a notice of receipt of a PMN.

In the FR Doc. 83-452 appearing at page 863 under "PMN 83-350", first column, the exposure data, "Manufacture and processing: dermal and inhalation, a total of 42,512 workers, up to 8 hrs/da, up to 250 da/yr" is corrected to read "Manufacture, processing and use: dermal and inhalation, a total of 42,512 workers, up to 8 hrs/da, up to 250 da/yr."

Dated: February 16, 1983.

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

[MM Docket No. 83-51, File No. BPCT-820712KM et al.]

William H. Graham, et al. d.b.a. Dona Ana County Television et al.; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 28, 1983.

Released: Feburary 7, 1983.

In re applications of William H. Graham et al. d.b.a. Dona Ana County

Television, Las Cruces, New Mexico, MM Docket No. 83–51, File No. BPCT–820712KM; Adib Eden, Sr. and Lillian Elaine Manfredi, d.b.a. Las Cruces Family Television, Las Cruces, New Mexico, MM Docket No. 83–52, File No. BPCT–820907KJ; Kask Inc., Las Cruces, New Mexico, MM Docket No. 83–53, File No. BPCT–820909KL; for construction permit.

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications of William H. Graham et al. d/b/a Dona Ana County Television (Dona Ana), Las Cruces Family Television, LTD. (Family) and KASK Incorporated (KASK) for authority to construct a new commercial television station on Channel 48, Las Cruces, New Mexico.

2. The effective radiated visual power, antenna heights above average terrain and other technical data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would be served by each of the proposals. Consequently, for the purpose of comparison, the areas and populations which would be within the predicted 64 dBu (Grade B) contours, together with the availability of other television service of 64 dBu (Grade B) or greater intensity, will be considered under the standard comparative issue, for the purpose of determining whether comparative preferences should accrue to one or more of the applicants.

3. Since we have not received a determination from the Federal Aviation Administration that Dona Ana's proposed tower height and location would not constitute a hazard to air navigation, an issue regarding this matter will be specified.

4. Dona Ana failed to submit the contour maps which are required by Item 10, Section V–C, FCC Form 301. Consequently, Dona Ana will be required to submit appropriate maps to the presiding Administrative Law Judge within 30 days of the release of this Order.

5. Section 73.636(a)(1) of the Commission's Rules sets forth a policy against granting a television construction permit to an applicant with principals who, directly or indirectly, own, operate, or control a radio station licensed to a community which is completely encompassed by the predicted Grade A contour of their proposed television station. Note 8 exempts UHF applicants from the blanket prohibition of § 73.636(a)(1) and, instead, requires case-by-case analysis to determine whether common ownership, operation, or control of the station in question would be in the public interest. KASK states that Logan D. Matthews, president and 51% stockholder of the applicant, is also 51% owner of KASK(FM), Las Cruces, New Mexico. Mr. Matthews states that he will terminate all of his interest in KASK(FM) prior to KASK's filing of an application for license. Accordingly, any grant to KASK will be appropriately conditioned.

6. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Dona Ana, whether there is a reasonable possibility that the tower height and location proposed would constitute a hazard to air navigation.

2. To determine which of the proposals would, on a comparative basis, best serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

8. It is further ordered, That the Federal Aviation Administration is made a party respondent with respect to Issue 1.

9. It is further ordered, That within 30 days of the release of this Order, William H. Graham et al. d/b/a Dona Ana County Television shall submit the required contour maps to the presiding Administrative Law Judge.

10. It is further ordered, That, in the event of a grant of KASK Incorporated's application, the construction permit shall contain the following condition: Prior to the commencement of operation, Logan D. Matthews shall certify to the Commission that he has severed all interest in, and connection with, KASK(FM), Las Cruces, New Mexico.

11. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

12. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934 as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Roy J. Stewart,

Chief, Video Services Division, Mass Media Bureau.

[FR Doc. 83–4573 Filed 2–23–83; 8:45 am]

BILLING CODE 6712–01–M

[MM Docket No. 83–58, File No. BPCT–820712KK et. al.]

William H. Graham et al. d.b.a. Lea County Television, Inc., et al.; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 28, 1983.

Released: February 4, 1983.

By the Chief, Mass Media Bureau:

In re applications of William H. Graham et al d.b.a. Lea County Television, Inc., Abilene, Texas, MM Docket No. 83–58, File No. BPCT–820712KK; Helen Oman, Abilene, Texas, MM Docket No. 83–59, File No. BPCT–820908KF; TV Tech Systems, Inc., Abilene, Texas, MM Docket No. 83–60, File No. BPCT–820909KH; For construction permit.

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications of William H. Graham et al d/b/a Lea County Television, Inc. (Lea), Helen Oman, and TV TECH SYSTEMS, INC. (TTS) for authority to construct a new commercial television station on Channel 15, Abilene, Texas.

William H. Graham et al, d.b.a. Lea County Television, Inc.

2. Lea's proposed tower is to be located 1.53 miles from the directional tower of AM station KRBC, Abilene, Texas. Because of the proximity of Lea's proposed tower to KRBC, any grant of a construction permit to Lea will be conditioned to ensure that KRBC's radiation pattern is not adversely affected by the construction of the proposed station.

Helen Oman

3. No determination has been made that the tower height and location proposed by Helen Oman would not constitute a hazard to air navigation.[1] Accordingly, an appropriate issue will be specified.

Conclusion and Order

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since the applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Helen Oman, whether there is a reasonable possibility that the tower height and location proposed would constitute a hazard to air navigation.

2. To determine which of the proposals would, on a comparative basis, best serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

6. It is further ordered, That any grant of a construction permit to Lea will be subject to the following condition:

Prior to the construction of the TV tower authorized herein, permittee shall notify AM station KRBC so that the AM station may deterime operating power by the indirect method and, if necessary, request temporary authority from the Commission in Washington to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station. Both prior to construction of the TV tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the array of the AM station has not been adversely affected. The results shall be submitted to the Commission and the AM station. Thereafter, the TV station may commence Limited Program Tests.

7. It is further ordered, That the Federal Aviation Administration is made a party respondent with respect to Issue 1.

8. It is further ordered, That to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

9. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

Edward M. Johnson; and Sue Martin Kimmerly et al. d.b.a. Razorback TV Broadcasting; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 28, 1983.

Released: February 4, 1983.

By the Chief, Mass Media Bureau:

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications of Edward M. Johnson Hot Springs, Arkansas and Sue Martin Kimmerly et al d.b.a. Razorback TV Broadcasting (Razorback) Hot Springs, Arkansas for authority to construct a new commercial television station on Channel 26, Hot Springs, Arkansas.

2. The effective radiated visual power, antenna heights above average terrain and other technical data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would be served by each of the proposals. Consequently, for the purpose of comparison, the areas and populations which would be within the predicted 64 dBu (Grade B) contours, together with the availability of other television service of 64 dBu (Grade B) or greater intensity, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

3. No determination has been reached that the tower height and location proposed by Razorback [1] would not constitute a hazard to air navigation. Accordingly, an issue regarding this matter will be specified.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since these applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Razorback, whether there is a reasonable possibility that the tower height and location proposed would constitute a hazard of air navigation.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

6. It is further ordered, That the Federal Aviation Administration is made a party respondent with respect to Issue 1.

7. It is further ordered, That to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written

[1] The Commission is not in receipt of FAA's determination for the tower proposed by Razorback.

appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

8. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Roy J. Stewart,

Chief, Video Services Division, Mass Media Bureau.

[FR Doc. 83-4574 Filed 2-23-83; 8:45 am]

BILLING CODE 6712-01-M

[MM Docket No. 83-39, File No. BPCT-820707KG]

Sterling Associates, Ltd., et al.; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: January 25, 1983.

Released: February 2, 1983.

In re applications of Sterling Associates, Ltd., Anacortes, Washington, MM Docket No. 83-39, File No. BPCT-820707KG; Vanwash Communications Group, Anacortes, Washington, MM Docket No. 83-40, File No. BPCT-820902KR; Paul M. Crawford, S. Eberhardt, et al., Mt. Vernon, Washington, MM Docket No. 83-41, File No. BPCT-820909KM; Roy W. Mayhugh, Anacortes, Washington, MM Docket No. 83-42, File No. BPCT-820909KN; Mt. Baker Broadcasting Co., Inc., Anacortes, Washington, MM Docket No. 83-43, File No. BPCT-820909KO; for construction permit.

By the Chief, Mass Media Bureau:

1. The Commission, by the Chief, Mass Media Bureau, acting pursuant to delegated authority, has before it the above mutually exclusive applications of Sterling Associates, Ltd. (Sterling), Vanwash Communications Group (Vanwash), Paul M. Crawford, S. Eberhardt, et al. (Crawford), Roy W. Mayhugh (Mayhugh) and Mt. Baker Broadcasting Co., Inc. (Mt. Baker) for a new commercial television station to operate on Channel 24, Anacortes, Washington.

2. Crawford specifies Mt. Vernon as its community of license.[1] All of the other applicants specify Anacortes. Consequently, it will be necessary to determine, pursuant to Section 307(b) of the Communications Act of 1934, as amended, whether a new station in Mt. Vernon or Anacortes would better provide a fair, efficient and equitable distribution of television service. If the Section 307(b) issue is not determinative (the applicants would serve substantial areas in common), all applicants can be considered under the comparative issue.

3. The effective radiated visual power, antenna height above average terrain and other technical data submitted by Mayhugh indicates that there would be a significant difference in the size of the area and population that it proposes to serve and the size of the areas and populations that the other four applicants propose to serve. Consequently, for the purpose of comparison, the areas and populations which would be within the predicted 64 dBu (Grade B), contour, together with the availability of other television service of 64 dBu (Grade B) or greater intensity, will be considered under the standard comparative issue, for the purpose of determining whether comparative preferences should accrue to one or more of the applicants.

4. No determination has been reached that the tower heights and locations proposed by Vanwash and Crawford would not constitute a hazard to air navigation.[2] Accordingly, an issue regarding this matter will be specified.

5. All applicants, except Mayhugh, propose to operate from sites located within 250 miles of the Canadian border with maximum visual effective radiated power (ERP) of more than 1000 kilowatts. The proposals pose no interference threat to United States television stations; however, they contravene an agreement between the United States and Canada which limits the maximum visual ERP of United States television stations located within 250 miles of Canada to 1000 kilowatts. *Agreement Effectuated by Exchange of Notes,* T.I.A.S. 2594 (1952). Canadian consent has been issued for Crawford; however, consent for the other applicants (excluding Mayhugh) is still pending. Accordingly, in the event of a grant of any of those applications, the construction permit shall be appropriately conditioned.

Roy W. Mayhugh

6. Section 76.501(a)(2) of the Commission's Rules prohibits direct or indirect ownership of both a cable system and a television broadcast station if the station would place a Grade B contour over any part of the service area of the cable system. Mayhugh owns and operates San Juan Cable TV, located in Friday Harbor, Washington, which lies within the City Grade contour of its proposed television station. Mayhugh has represented to the Commission that he will sell the cable television system, if he is granted a construction permit. Accordingly, any grant of a construction permit to the applicant will be conditioned upon the divestiture of all interest in, and connection with, San Juan Cable TV, Friday Harbor, Washington.

Mt. Baker Communications Co., Inc.

7. Section 73.636 of the Commission's Rules prohibits any party from owning two or more stations in the same service if there would be overlap of the station's Grade B contours. Micheal Parker has eleven per cent ownership interest in Family Broadcasting Company, Inc. (Family), which holds a construction permit for Channel 20, Tacoma, Washington. There would be Grade B contour overlap of the Channel 20 facility and the proposed station. However, Mr. Parker has represented to the Commission that he will divest himself of his interest in Channel 20, Tacoma, Washington, prior to the commencement of operation of the Anacortes television station. Accordingly, any grant of a construction permit to Mt. Baker will be conditioned upon Mr. Parker's divestiture of all interest in, and connection with, Channel 20, Tacoma, Washington.

8. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issue specified below.

9. Accordingly, it is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to Vanwash Communications Group and Paul M. Crawford, S. Eberhardt, et al., whether there is a reasonable possibility that the tower height and locations proposed by each would constitute a hazard to air navigation.

2. To determine the areas and populations that would receive Grade B or better service from the proposals and

---

[1] Channel 24 is assigned to Anacortes, Washington. Mt. Vernon is located within 15 miles of Anacortes. Accordingly, pursuant to § 73.607 of the Commission's Rules, Channel 24 is available for use in Mt. Vernon.

[2] We have not received FAA's determination for the applicants.

the availability of other Grade B services to such areas and populations.

3. To determine, in light of Section 307(b) of the Communications Act of 1934, as amended, which of the proposals would provide a fair, efficient and equitable distribution of television service.

4. In the event it is concluded from Issue 3, above, that a choice among applicants should not be based solely on considerations relating to Section 307(b), to determine which proposal would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which application should be granted.

10. It is further ordered, That the Federal Aviation Administration is made a party respondent to the proceeding with respect to issue 1.

11. It is further ordered, That, in the event of a grant of Sterling Associates, Ltd.'s application, Vanwash Communications Group's application or Mt. Baker Broadcasting Company, Inc.'s application, the construction permit shall be conditioned as follows:

Operation with maximum visual effective radiated power in excess of 1000 kW shall not commence absent Canadian consent.

12. It is further ordered, That, in the event of a grant of Paul M. Crawford, S. Eberhardt, et al's application, the construction permit shall, be conditioned as follows:

Subject to the condition that operation with visual effective radiated power in excess of 1000 kW after December 1, 1984, is subject to a further extension of consent by Canada.

13. It is further ordered, That in the event of a grant of Roy W.Mayhugh's application, it will be conditioned as follows:

Prior to the commencement of operation of the television station authorized herein, Roy W. Mayhugh shall certify to the Commission that he has divested himself of all interest in, and connection with, San Juan Cable TV, Friday Harbor, Washington.

14. It is further ordered, That, in the event of a grant of Mr. Baker Broadcasting Co., Inc.'s application, it will be conditioned as follows:

Prior to the commencement of operation of the television station authorized herein, permittee shall certify to the Commssion that Micheal Parker has divested himself of all interest in, and connection with, Channel 20, Tacoma, Washington.

15. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall pursuant to § 1.223(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

16. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

BILLING CODE 6712-01-M

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

February 15, 1983.

Background

When executive departments and independent agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirments under the Paperwork Reduction Act (44 U.S.C. Chapter 35). Departments and agencies use a number of techniques to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibilities under the act also considers comments on the forms and recordkeeping requirements that will affect the public. Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. OMB's usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

List of Forms Under Review

Immediately following the submission of a request by the Federal Reserve for OMB approval of a reporting or recordkeeping requirement, a description of the report is published in the **Federal Register**. This information contains the name and telephone number of the Federal Reserve Board clearance officer (from whom a copy of the form and supporting documents is available). The entries are grouped by type of submission—i.e., new forms, revisions, extensions (burden change), extensions (no change), and reinstatements.

Copies of the proposed forms and supporting documents may be obtained from the Federal Reserve Board clearance officer whose name, address, and telephone number appear below. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF 83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review.

For Further Information Contact:

Federal Reserve Board Clearance Officer—Cynthia Glassman—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551; (202-452-3829), or

OMB Reviewer—Richard Sheppard—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3208, Washington, D.C. 20503; (202-395-6880).

Request for Approval To Revise

1. Report title: Report of Transaction Accounts, Other Deposits and Vault Cash Agency form number: FR 2900
Frequency: Weekly, quarterly
Reporters: Depository institutions
SIC Code: 602, 603, 605, 612, 614
Small businesses are affected.
General description of report:
Respondent's obligation to respond is mandatory (12 U.S.C. 248, 461); a pledge of confidentiality is promised (5 U.S.C. 552 (b)(4) and (b)(8)).

As a result of the technical amendment to the Garn-St Germain Depository Institutions Act of 1982 exempting the money market deposit account (MMDA) from the phase-in of reserve requirements under the Monetary Control Act of 1980 for all depository institutions covered by the rules of the Depository Institutions Deregulation Committee (DIDC), it is necessary to add two line items to the FR 2900—MMDA's personal and nonpersonal—in order to facilitate the accurate calculation of required reserves.

Board of Governors of the Federal Reserve System, February 17, 1983.

James McAfee,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers For Disease Control

Motivational and Job Design Factors To Control Exposure of Roofers to Carcinogens; Open Meeting

The following meeting will be convened by the National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and will be open to the public for observation and participation, limited only by space available.

Date: March 8, 1983
Time: 9:00 a.m. to 3:00 p.m.
Place: Robert A. Taft Laboratories Auditorium, 4676 Columbia Parkway, Cincinnati, Ohio 45226
Purpose: To review a project study of work practices and other control techniques used by the roofing industry as they relate to roofing workers' exposures to carcinogens in asphalts and coal tar pitches. A set of control principles for use by roofers will be developed and a sample of workers will be trained in the use of these principles. Of particular interest to NIOSH are biological indicators of exposure.
Additional information may be obtained from: Robert W. Mason, Ph. D., Division of Biomedical and Behavioral Science, National Institute for Occupational Safety and Health, Centers for Disease Control, 4676 Columbia Parkway, Cincinnati, Ohio 45226, Telephone: (513) 684–8448

Dated: February 16, 1983.

William C. Watson, Jr.,

Acting Director, Centers for Disease Control.

BILLING CODE 4160–19–M

Health Resources and Services Administration

Application Announcement for Grants for Nurse Practitioner Programs

The Bureau of Health Professions, Health Resources and Services Administration, announces that applications for Nurse Practitioner Training grants are being accepted under the authority of Section 822(a) of the Public Health Service Act.

Section 822(a) authorizes the award of grants to public or nonprofit private schools of nursing, medicine, or public health, public or nonprofit private hospitals or other public or nonprofit private entities to meet the costs of projects to: (a) Plan, develop and operate; (b) significantly expand, or (c) maintain existing programs for the training of nurse practitioners.

To receive support, programs must meet the requirements of final regulations published in the **Federal Register** on November 29, 1977, Volume 42, No. 299 and a technical amendment dated June 27, 1978, Volume 43, No. 124.

Requests for application materials and questions regarding grants policy should be directed to: Grants Management Officer (D–24), Bureau of Health Professions, Health Resources and Services Administration, 3700 East-West Highway, Room 4–27, Hyattsville, Maryland 20782, telephone (301) 436–6005.

Requests for programmatic information should be directed to: Nurse Practitioner Program, Division of Nursing, Bureau of Health Professions, Health Resources and Services Administration, 3700 East-West Highway, Room 3–50, Hyattsville, Maryland 20782, telephone (301) 436–5070.

Approximately $3.3 million is expected to be available in Fiscal Year 1983 for competitive grants. The deadline dates for receipt of applications are July 1, and November 1, 1983 and March 1, 1984.

This program is listed at 13.298 in the *Catalog of Federal Domestic Assistance.* Applications in response to this announcement are not subject to review by State and areawide clearinghouses under the procedures in the Office of Management and Budget Circular A–95.

Dated: February 16, 1983.

John H. Kelso,

Acting Administrator.

[FR Doc. 83–2840 Filed 2–23–83; 8:45 am]
BILLING CODE 4110–15–M

Public Health Service

National Center for Health Services Research; Assessment of Medical Technology; Cardiac Pacemakers

The Public Health Service (PHS) through the Office of Health Technology Assessment (OHTA) annouces that it is coordinating an assessment of what is known of the safety, clinical effectiveness, appropriateness, and medical indications for telephone follow up or cardiac pacemakers—the use of telephone transmitters. Specifically, we are interested in: (1) The medical indications for the use of telephone transmitters to monitor pacemakers, (2) whether all persons with pacemakers should have telephone transmitters, or (3) whether they should be limited to a particular group or class of pacemaker patients, in light of the fact that some rhythm abnormalities may be considered unsuitable for the telephone check.

For the purposes of this announcement, transtelephonic monitoring is defined as the telephone transmission of the electrocardiogram (ECG) to process a patient's ECG that may be to the physician's office, pacemaker clinic, or proprietary service which informs the physician of any abnormality discovered. The telephone ECG transmitter may be equipped with a logic circuit information processor pertinent to assess such parameters as rate, capture and sensing of the demand pulse generator, and detect system malfunction. Transtelephonic monitoring is differentiated from self-contained pacemaker monitors, or indirect pacemaker generator function analyzers.

The PHS assessment consists of a synthesis of information obtained from appropriate organizations in the private sector and from PHS agencies and others in the Federal Government. PHS assessments are based on the most current knowledge concerning the safety and clinical effectiveness of a technology. Based on this assessment, a PHS recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide OHTA with information relevant to this assessment should do so in writing no later than May 30, 1983, or approximately 90 days from the date of publication of this notice.

The information being sought is a review and assessment of past, current, and planned research related to this technology, a bibliography of published, controlled studies since 1971 and other information related to the characterization of the patient population most likely to benefit, the clinical acceptability, and the effectiveness of this technology. Proprietary information is not being sought.

Written material should be submitted to: Office of Health Technology Assessment, Park Bldg., Room 3–10, Stop #2, 5600 Fishers Lane, Rockville, Maryland 20852.

For further information contact: Dr. Rita K. Chow, Health Science Analyst, at the above address or by telephone (301) 443–4990.

Dated: February 10, 1983.

Harold Margulies,

Director, Office of Health Technology Assessment, National Center for Health Services Research.

[FR Doc. 83–4630 Filed 2–23–83; 8:45 am]
BILLING CODE 4160–17–M

National Center for Health Services Research; Assessment of Medical Technology Cardiac Pacemaker Monitors

The Public Health Service (PHS) through the Office of Health Technology Assessment (OHTA announces that it is coordinating an assessment of what is known of the safety and clinical effectiveness of self-contained cardiac pacemaker monitors. Specifically, we are interested in: (1) Generically defining a self-contained pacemaker monitor that will permit us to: (a) distinguish between a telephone transmitting device and a self-contained monitor; and (b) permit the patient to acquire sufficient information to enable him or her to make an informed decision as to whether to seek medical intervention; (2) medical indications for the type or types of patient(s) who would benefit from a self-contained pacemaker; and (3) whether the use of a self-contained pacemaker monitor eliminates or reduces the need for transtelephonic monitoring of the patient's pacemaker. If research data for the third query are positive, then appropriate guidelines are needed for screening transtelephonic pacemaker monitoring. Also, frequency guidelines for transtelephonic pacemaker monitoring will need review in the light of the newest research data related to the effectiveness and accuracy of self-contained pacemaker monitors in detecting, e.g., state of the battery, electronic circuitry component failure, electrode displacement, generator-electrode junction failure, and exit block. For the purposes of this announcement, self-contained pacemaker monitors are a type of indirect pacemaker generator function analyzers that are used to identify early signs of possible cardiac pacemaker failure or malfunction.

The PHS assessment consists of a synthesis of information obtained from appropriate organizations in the private sector and from PHS agencies and others in the Federal Government. PHS assessments are based on the most current knowledge concerning the safety and clinical effectiveness of a technology. Based on this assessment, a PHS recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide OHTA with information relevant to this assessment should do so in writing no later than May 30, 1983, or approximately 90 days from the date of publication of this notice.

The information being sought is a review and assessment of past, current, and planned research related to this technology, a bibliography of published, controlled clinical trials and other well-designed clinical studies since 1979, and other information related to the characterization of the patient population most likely to benefit, the clinical acceptability, and the effectiveness of this technology. Proprietary information is not being sought.

Written material should be submitted to: Office of Health Technology Assessment, Park Bldg., Room 3–10, Stop #2, 5600 Fishers Lane, Rockville, Maryland 20852.

For further information contact: Dr. Rita K. Chow, Health Science Analyst, at the above address or by telephone (301) 443–4990.

Dated: February 10, 1983.

Harold Margulies,

Director, Office of Health Technology Assessment, National Center for Health Services Research.

BILLING CODE 4160-17-M

National Toxicology Program Board of Scientific Counselors; Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Toxicology Program (NTP) Board of Scientific Counselors, U.S. Public Health Service, in the Conference Center, Building 101, South Campus, National Institute of Environmental Health Sciences, Research Triangle Park, North Carolina, on March 14 and 15, 1983.

The meeting will be open to the public from 9:00 a.m. to 4:00 p.m., March 14. The preliminary agenda with *approximate* times are as follows:

9:00 a.m.–10:00 a.m. Status Report on NIH/NTP Investigation of Exocrine Pancreas Lesions in Male F344 Rats

10:00 a.m.–10:30 a.m. NIH/NTP Cellular and Genetic Toxicology Program—Concept Review: Evaluation of Human Cells *in Vitro* for Genetic Toxicity Assay

Review of NTP Reproductive and Developmental Toxicology Programs:

11:00 a.m.–12:00 p.m.—I. Overview of Programs

1:00 p.m.–4:00 p.m.—II. Teratology
- a. Conventional Teratology Testing
- b. Short-Term *In Vivo* Reproductive Toxicity Assay
- c. *In Vitro* Teratology Test Development
- d. Collaborative Behavioral Teratology Study

The meeting on March 15 will be open to the public from 8:30 a.m. to 12:30 p.m., and from 3:00 p.m. to adjournment. The preliminary agenda with *approximate* times are as follows:

8:30 a.m.–11:30 a.m.—III. Fertility and Reproductive Toxicity
- a. Evaluation of Sperm Morphology and Vaginal Cytology in Prechronic Toxicity Testing
- b. Fertility Assessment Using Continuous Breeding
- c. Experimental Models of Female Reproductive Toxicity
- d. Experimental Models of Male Reproductive Toxicity
- e. Methods for Fertility Assessment
- f. Postnatal Toxicity

11:30 a.m.–12.30 p.m.—IV. A Proposal To Develop Guidelines for the Detection and Hazard Evaluation of Chemical Carcinogens

3:00 p.m.–5:00 p.m.—Peer Review and Priority Ranking of Chemicals Nominated for NTP Testing. (Sixteen chemical nominations will be reviewed and are listed in the **Federal Register**, Volume 47, No. 197, pp. 44884–44885, October 12, 1982.)

In accordance with the provisions set forth in Section 552b(c)(6) Title 5 U.S. Code and Section 10(d) of Public Law 92–463, the meeting will be closed to the public on March 14 from 4:00 p.m. to adjournment and on March 15 from 1:00 p.m. to 3:00 p.m. for further evaluation of NTP programs in reproductive and developmental toxicology, including the consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. The closed meeting will be used also to discuss professional qualifications and select members for an ad hoc scientific panel which will report to the NTP Board with an evaluation and recommendations concerning the proposal to develop quidelines for the detection and hazard evaluation of chemical carcinogens. Disclosure of these discussions would constitute a clearly unwarranted invasion of personal privacy with regard to persons being considered for the panel.

The Executive Secretary, Dr. Larry G. Hart, Office of the Director, National Toxicology Program, P.O. Box 12233, Research Triangle Park, North Carolina 27709, telephone (919) 541–3971, FTS 629–3971, will furnish a roster of Board members and expert consultants and other program information prior to the meeting, and summary minutes subsequent to the meeting.

Dated: January 28, 1983.

David P. Rall,

Director, National Toxicology Program.

[FR Doc. 83-4734 Filed 2-23-83; 8:45 am]

BILLING CODE 4140-01-M

Office of the Secretary

Advisory Council on Social Security; Meeting

AGENCY: Office of the Secretary, HHS.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Section 10(a)(2) of Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given of a meeting of the Advisory Council on Social Security, as established by the Secretary of Health and Human Services in accordance with Section 706 of the Social Security Act, 42 U.S.C. 907.

DATE/ADDRESS: The meeting will be held on March 13 from 12 noon to 6:00 p.m. and on March 14 from 9:00 a.m. to 4:00 p.m. at the Columbia Club, 121 Monument Circle, Indianapolis, Indiana 46204.

FOR FURTHER INFORMATION CONTACT: Thomas R. Burke, Executive Director, Advisory Council on Social Security, 200 Independence Avenue, S.W., Washington, D.C. 20201; telephone (202) 755-8670/71.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Attendance will be limited to the space available. Interested parties may submit written presentations for consideration by Council until March 15, 1983.

Correspondence can be addressed to Advisory Council on Social Security, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Sign language interpreting services will be provided if requested in advance.

The proposed meeting agenda includes further briefings and discussion on the Medicare program; and such other business as the Chairperson, the Executive Director, or the membership may put before the Council.

A previous meeting of the Advisory Council on Social Security was announced in 48 FR 4048-4049, January 28, 1983.

Records are kept of all Council proceedings and are available for public inspection at the Office of the Administrative Officer, Advisory Council on Social Security, Room 317-H, HHH Building, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Philip M. Jos,

Acting Executive Director.

[FR Doc. 83-4670 Filed 2-23-83; 8:45 am]

BILLING CODE 4120-03-M

Advisory Council of Social Security; Public Hearing

AGENCY: Office of the Secretary, HHS.

ACTION: Notice of public hearing.

SUMMARY: The Secretary of Health and Human Services announced on September 16, 1982 the establishment of the Advisory Council on Social Security. The Council is charged to place particular emphasis on a review of the Medicare program, and to prepare and submit reports on its findings and recommendations.

In an effort to obtain the views of interested organizations and individuals, within the constraints of available time, the Council decided to conduct public hearings in designated locations around the country. Notice is hereby given that a 1-day hearing will be held in New Brunswick, New Jersey on March 22, 1983. Similar 1-day hearings were previously announced in 47 FR 56723, December 20, 1982 for San Francisco, California on February 24; in 48 FR 1549, January 13, 1983 for the Chicago area on March 9, and in 48 FR 5312, February 4, 1983 for St. Petersburg, Florida on March 1. All hearings will run from 9:00 a.m. to 5:00 p.m.

ADDRESS: The New Brunswick hearing will be held in the Labor Education Center, Rutgers University, Ryder's Lane and Clifton Avenue, New Brunswick, New Jersey 08903

FOR FURTHER INFORMATION CONTACT: Thomas R. Burke, Executive Director, Advisory Council on Social Security, 200 Independence Avenue, S.W., Washington, D.C. 20201; telephone (202) 755-8670 or 755-8671.

SUPPLEMENTARY INFORMATION: The hearings are open to the public. Attendance will be limited to the space available. Interested parties are invited to present testimony on Medicare issues; however, only those requesting in advance, preferably in writing, to appear will be permitted to present oral statements. Presenters should submit, 5 days in advance, 20 copies of their presentation, and should bring an additional 50 copies to the hearing to be made available to the public. Oral presentation should summarize the written statement, and will be limited to a maximum of 5 minutes. Other written material can be submitted for the record. Submit written requests to present testimony to the Advisory Council on Social Security, ATTN: Public Hearing, 200 Independence Avenue, S.W., Washington, D.C. 20201, or telephone (202) 755-8670 or 755-8671. The designated Chairperson or the Executive Director reserves the right to determine order of presentation, but will make every effort, within available time, to hear all who wish to be heard.

Sign language interpreting services will be provided if requested in advance.

Records will be kept of all public hearings and will be available for public inspection at the Office of the Administrative Officer, Advisory Council on Social Security, Room 317-H, HHH Building, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Philip M. Jos,

Acting Executive Director.

BILLING CODE 4190-11-M

1983 Contribution and Benefit Base Under Pre-1977 Amendment Law

AGENCY: Social Security Administration, HHS.

ACTION: Notice of determinaiton of the "Old-Law" Social Security contribution and benefit base.

SUMMARY: The Social Security Amendments of 1977 set the contribution and benefit base at $22,900 for 1979, $25,900 for 1980 and $29,700 for 1981. After 1981, the base increases as average wage levels rise. The contribution and benefit base is the maximum annual amount of earnings that is subject to Social Security taxes and is creditable toward Social Security

benefits. The 1977 amendments also provide for separate annual determinations of the contribution and benefit base that would have been in effect under old law (pre-1977 law). This "old-law" base is used only for certain purposes under the railroad retirement program and the Employee Retirement Income Security Act of 1974 (ERISA) and for computing special minimum Social Security benefits for workers with many years of low earnings. This notice specifies that the amount for 1983 under pre-1977 law is $26,700.

FOR FURTHER INFORMATION CONTACT: Eli Donkar, Office of the Actuary, Social Security Administration, 6401 Security Boulevard, Baltimore, Md. 21235, telephone (301) 594–3365.

SUPPLEMENTARY INFORMATION: The Social Security Amendments of 1977 (Pub. L. 95–216) changed the contribution and benefit base, which is the maximum annual amount of earnings on which Social Security taxes are paid and a person's Social Security benefits are figured. Section 230(c) of the Social Security Act specifies the contribution and benefit base for 1979, 1980, and 1981 and a computation formula to use for years after 1981. Using this computation formula, we determined the contribution and benefit base to be $35,700 for 1983. We published this information in the **Federal Register** on November 10, 1982 (47 FR 51003).

"Old-Law" Contribution and Benefit Base

The "old-law" contribution and benefit base is the base that would have been effective in each year after 1977 under the Social Security Act before the enactment of the 1977 amendments. This "old-law" base is used:

(1) For certain purposes under the railroad retirement program and the Employee Retirement Income Security Act of 1974 (ERISA); and

(2) To compute special minimum Social Security benefits for certain workers with many years of low earnings.

The base is computed under section 230 of the Social Security Act as it read prior to the 1977 amendments.

Computation

Under section 230 of the Social Security Act as in effect before the 1977 amendments, we would determine the contribution and benefit base for 1983 by multiplying the "old-law" 1982 base by the ratio of average wages reported for 1981, $13,773.10, to average wages reported for 1980, $12,513.46 or 1.1006628. We previously explained in the **Federal Register** how we computed these average wages (November 10, 1982 at 47 FR 51003).

Multiplying the "old-law" 1982 contribution and benefit base of $24,300 by the above ratio results in the amount of $26,746.11, which must be rounded to the nearest multiple of $300. Therefore, we determine the "old-law" base for 1983 to be $26,700.

Railroad Retirement Uses

The railroad retirement program will use the $26,700 base to determine:

(1) Employee and employer tax liability under sections 3201(a) and 3221(a) of the Internal Revenue Code of 1954;

(2) The portion of the employee representative tax liability under section 3211(a) of the Internal Revenue Code of 1954 which results from the application of the 11.75 percent rate specified in that section; and

(3) Average monthly compensation under section 3(j) of the Railroad Retirement Act of 1974, but not annuity amounts determined under sections 3(a) or 3(f)(3) of that act.

These uses are stated in section 230(c) of the Social Security Act.

Employee Retirement Income Security Act (ERISA) Use

Under section 230(d) of the Social Security Act, ERISA will use the 1983 "old-law" base of $26,700 to determine the maximum pension benefit guaranteed by the Pension Benefit Guaranty Corporation for pension benefit plans terminating in 1983.

Social Security Use

Special minimum Social Security benefits are payable to workers with many years of low earnings. If, in 1983, a worker's earnings amount to at least 25 percent of the "old-law" base of $26,700, we will credit the worker with a "year of coverage" for 1983. Years of coverage are used to compute the special minimum benefit payable under section 215(a) of the Social Security Act.

(Catalog of Federal Domestic Assistance Program Nos. 13.803, Social Security-Retirement Insurance; 57.001, Social Security Insurance for Railroad Workers)

Dated: February 16, 1983.

Thomas R. Donnelly,

Acting Secretary of Health and Human Services.

BILLING CODE 4190-11-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Arizona; Phoenix District, Kingman Resource Area, Grazing Advisory Board Meeting

Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Kingman Resource Area (Phoenix District) Grazing Advisory Board will be held on March 29, 1983.

The meeting will begin at 9:00 a.m. in the conference room of the Bureau of Land Management Office, 2475 Beverly Avenue, Kingman, Arizona 86401.

The agenda for the meeting will include:

1. Review of Allotment Management Plan Program.
2. Report on Grazing Advisory Board Funds and projected use.
3. Status of Range Improvements—FY 1983.

Proposed Range Improvements—FY 1984.

5. Review of Range Program Summary-Cerbat/Black Mountain and Hualapai/Aquarius.
6. Asset Management—Imports on the Range Program.
7. Arrangements for future meeting.

The meeting is open to the public. Anyone wishing to make oral or written statements to the Board is requested to do so through the office of the District Manager, 2929 West Clarendon Avenue, Phoenix, Arizona 85017, at least seven days prior to the meeting date.

Summary minutes of the Board meeting will be maintained in the District Office and be made available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

Dated: February 14, 1983.

William K. Barker,

District Manager.

Containing 140,310.69 (±) acres of which 135,190.69 (±) acres are in Harney County and 5,120 (±) acres are in Malheur County, Oregon.

The purpose of the exhange is to facilitate the resource management program of the Bureau of Land Management and to improve the resource base, through consolidation of scattered tracts of the Oregon State Lands Division. The Public Lands to be exchanged are composed of two large blocks on the east and west side of the District whereas the State lands to be exchanged are comprised of many scattered sections which lie over much of the District. The State intends to manage the lands for income generation through livestock production and the overall benefit of the people of Oregon.

The State land to be conveyed to the Federal Government has important wildlife habitat, scenic, botanic, and recreation resources as well as many tracts which fall within the boundaries of proposed Wilderness Study Areas. These lands will be managed mainly for multiple use and/or for wilderness dependent upon the designated uses of the existing Federal land around them.

The fair market value of the lands involved will be the basis for the ultimate adjustment of acreages which will be adjusted to bring the values as close as possible. Full equalization of values will be achieved by payment to one party or the other of funds in the amount not to exceed 25% of the total value of the public land to be transferred.

It is planned that the exchange will, for the most part, be for the entire fee estate, with a minimum of reservations—this is, however, still being negotiated at this time.

The public lands will be subject to the following terms and conditions.

1. Valid, existing rights including any right-of-way, easement, or lease of record.

2. A reservation to the US for rights-for-ways for ditches and canals under the Act of August 30, 1890.

3. Access, where needed, to other Federal lands.

Publication of this notice in the **Federal Register** segregates the public lands, described above, from appropriation under the public land laws, including the mining laws, but not from exchange pursuant to Section 206 of the Federal Land Policy and Management Act of 1976. The segregative effect of this notice will terminate upon issuance of patent or in two years, whichever occurs first.

Detailed information concerning the exchange, is available for review at the Burns District Office, 74 South Alvord, Burns, Oregon 97720.

For a period of 45 days from the date of this notice, interested parties may submit comments to the Burns District Manager at the above address. Any adverse comments will be evaluated by the Oregon State Director, Bureau of Land Management, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Joshua L. Warburton,

District Manager.

BILLING CODE 4310-84-M

California Desert Conservation Area Plan: 1983 Review

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the Bureau of Land Management is initiating the 1983 Review of the California Desert Conservation Area Plan in accordance with the amendment procedures outlined in Chapter 7 of that Plan. The purpose of this review is to consider the need for possible amendments to the Plan based on requests from individuals, public and private organizations, and the Bureau's own observations.

DATES: Proposed amendments are being accepted from the public until April 15, 1983.

FOR FURTHER INFORMATION CONTACT: Gerald E. Hillier, District Manager, California Desert District, 1695 Spruce Street, Riverside, California 92507.

SUPPLEMENTARY INFORMATION: Requests for amendments or changes in the California Desert Plan are now being solicited from public agencies and interested individuals and organizations. Supporting rationale should be provided for each proposed change. The requests will be considered in light of the following criteria:

(1) Is the proposed amendment based on new data not considered when the plan was developed?

(2) Does the information represent a change in legal or regulatory mandate?

(3) Is the supporting detail sufficient and the problem clearly stated so that the request can be considered?

(4) Does the information represent a formal change in State or local government or agency plans?

Organizations or individuals who propose three or more amendments should rank their requests according to relative importance to the proponent.

The type of amendments proposed will determine the issues to be considered in the review. Previous amendment reviews have considered a variety of issues, including recreation, archaeology, livestock grazing, mining and wilderness. The composition of the interdisciplinary team will be determined by the nature of the issues which arise.

The California Desert District Advisory Council will review the suggested amendments at its public meeting on May 19 to 21, 1983 in Palm Springs, California. This meeting will serve as the public scoping meeting for the environmental document to be prepared on the amendments.

Please send your comments and proposals to the following address by April 15, 1983: 1983 Amendments, Bureau of Land Management, California Desert District, 1695 Spruce Street, Riverside, CA 92507, (714) 351–6394.

Dated: February 24, 1983.

H. W. Riecken,

Associate District Manager.

BILLING CODE 4301–84–M

[M 46145]

Montana; Conveyance and Order Providing for Opening of Public Lands

February 15, 1983.

Notice is hereby given that pursuant to Section 206 of the Act of October 21, 1976 (43 U.S.C. 1716 (1976)), the surface estate only in the following described land has been conveyed to the Sky Hook Ranch, Roundup, Montana:

Principal Meridian, Montana

T. 12 N., R., 25 E.,
Sec. 25, S½.
T. 12 N., R., 26 E.,
Sec. 30, Lot 4, SE¼SW¼ and S½SE¼;
Sec. 31, N½NE¼ and SE¼SE¼; and
Sec. 32, WEST 440 feet of the E½NW¼, and W½NW¼.

Aggregating 702.15 acres.

In exchange for the above land, the United States acquired the surface estate only in the following described land in Petroleum County, Montana:

Principal Meridian, Montana

T. 12 N., R., 25 E.,
Sec. 1, Lots, 1 through 4, incl., and S½NW¼; and
Sec. 2, Lot 1 and SE¼NE¼.
T. 13 N., R., 25 E.,
Sec. 34, N½SE¼, NE¼SW¼ and S½S½; and
Sec. 35, S½S½.
T. 12 N., R. 26 E.,
Sec. 5, Lots 3 and 4; and
Sec. 6, Lots 1 through 4, incl.

Aggregating 966.02 acres.

This order restores the land acquired by the United States to the operation of the public land laws generally.

The lands are located approximately 14 miles southwest of Winnett, Montana, and are contiguous to a large block of public land. Topography is mostly broken drainages. Vegetation is native grasses. Historic and present use of the land is for grazing purposes.

At 8 a.m., on March 23, 1983, the lands shall be open to the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All applications receive at or prior to 8 am., on March 23, 1983, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Ronald L. Bartley,

Acting Deputy State Director, Division of Lands and Renewable Resources.

BILLING CODE 4310–84–M

Salt Lake District, Utah; Grazing Advisory Board Notice

February 11, 1983.

AGENCY: Bureau of Land Management, Salt Lake District, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Salt Lake District Grazing Advisory Board will be held on March 21, 1983. The meeting will begin at 10 a.m. at the Bureau of Land Management Office at 2370 South 2300 West, Salt Lake City, Utah 84119.

The purpose of the meeting will be to:

(1) Develop strategy for implementing the Bureau's Range Improvement Maintenance Policy.

(2) Report on FY–82 and FY–83 project work.

(3) Discuss the grazing fee study.

(4) Other business.

Persons wishing to attend are requested to notify Frank Olsen by March 7, 1983.

Frank W. Snell,

District Manager.

BILLING CODE 4310–84–M

Wyoming-Utah; Availability of Final Environmental Impact Statement for the Frontier Pipeline Project

AGENCY: Rawlins District Office, Rawlins, Wyoming, Interior.

ACTION: Notice of availability of final environmental impact statement.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Land Management, U.S. Department of the Interior, has prepared a Final Environmental Impact Statement (FEIS) for the Frontier Pipeline Project. Copies of the FEIS have been made available for public review and comment. Frontier Pipeline Company has proposed construction of 288 miles of common carrier pipeline (and related facilities) from the eastern edge of Summit County, Utah, through Uinta, Sweetwater, Fremont, Carbon, and Natrona counties in Wyoming, to existing pipeline distribution points in Casper, Wyoming. The final environmental impact

statement analyzes environmental impacts of the proposal (including social and economic impacts) in addition to various alignment alternatives for certain segments of the route. All comments received during the public review period for the draft environmental impact statement were considered. Those comments which raised questions or issues concerning the effects of the proposed action or alternatives, presented new data, or questioned the analysis or conclusions were responded to in the final EIS.

DATES: The final environmental impact statement (FEIS) will be available on or before February 25, 1983. Written comments on the FEIS will be accepted until March 27, 1983. It is anticipated that a decision on this action will be made shortly after the conclusion of the comment period.

ADDRESSES: Written comments on the final environmental impact statement should be sent to the District Manager, Bureau of Land Management, Rawlins District Office, Box 670, Rawlins, Wyoming 82301. The final environmental impact statement is available for inspection at the following locations: Rawlins District Office, 1300 Third Street, Rawlins, Wyoming; Kemmerer Resource Area Office, U.S. Highway 30, Diamondville, Wyoming; Rock Springs District Office, Highway 187 North, Rock Springs, Wyoming; Lander Resource Area, Jett Building, Highway 287 South, Lander, Wyoming; Casper District Office, 951 Rancho Road, Casper, Wyoming; Wyoming State Office, 2515 Warren Avenue, Cheyenne, Wyoming; or Office of Public Affairs, Bureau of Land Management, 18th and C Streets, NW, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mike Karbs or Kirby Boldan, Rawlins District Office, Bosx 670, Rawlins, Wyoming 82301, Telephone (307) 324–7171.

David J. Walter,

District Manager.

BILLING CODE 4310-55-M

Minerals Management Service

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS 0577, Block 208, Eugene Island Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the Plan and that it is available for public review at the Office of the Regional Manager, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: Minerals Management Service, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the MInerals Management Service makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federa! Regulations.

Dated: February 16, 1983.

John L. Rankin,

Acting Regional Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-MR-M

Office of Surface Mining Reclamation and Enforcement

Receipt of Complete Petition for Designation of Lands as Unsuitable for Surface Coal Mining Operations; Colorado

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of receipt of a complete petition for designation of lands as unsuitable for surface coal mining operations and request for comments.

SUMMARY: Notice is given that the Office of Surface Mining Reclamation and Enforcement (OSM) has received a petition to designate certain Federal lands in Adams County, Colorado, as unsuitable for surface coal mining operations, pursuant to Section 522 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272). Interested persons are requested to submit relevant information and comment on the issues raised in the petition.

DATE: Information on which to base analyses of the issues raised by the petitioner is being sought from all interested parties. In order to be considered in a timely manner, comments should be received by March 28, 1983, or as soon as possible thereafter.

ADDRESS: Comments should be sent to: Office of Surface Mining, Western Technical Center, Attn: Charles Albrecht, Brooks Towers, 2d floor, 1020 15th Street, Denver, Colorado 80202.

FOR FURTHER INFORMATION CONTACT: Charles Albrecht at the address listed above. Telephone: (303) 837–5656 or FTS 327–5656.

SUPPLEMENTARY INFORMATION: Under Section 522 of the Surface Mining Control and Reclamation Act of 1977 (Act) and its implementing regulations, persons with interests which are or may be adversely affected by surface coal mining operations may petition OSM to have an area of Federal land designated as unsuitable for all or certain types of

mining. The petitioners allege that surface mining would be incompatible with Adams County land use plans and programs. In support of this allegation, the petitioners have presented numerous studies and reports, including the decision on rezoning, the Adams County Airport masterplan, and the county petition on condemnation. The petition was received by OSM on January 14, 1983, and was determined to be complete on February 11, 1983. The petition for Federal lands will be processed by OSM in accordance with the procedures as set forth in 30 CFR Part 769.

The following describes the petitioners and the land involved:

Petitioners: Front Range Airport Authority/Board of Adams County Commissioners

State: Colorado

County: Adams

The petition area (160 acres) comprises NW¼, sec. 14, T. 3 S., R. 64 W., 6th principal meridian.

A review of the Federal land area's suitability for mining will be undertaken by OSM. Factual information such as coal resource data will be supplied by the Bureau of Land Management (formerly the Minerals Management Service). In addition, the Bureau of Land Management, as the surface managing agency, will make recommendations on the petition. A decision on the petition will be made on or before January 13, 1984.

Copies of the petition may be obtained upon request from OSM at the address listed above. The public record on the petition is available for public review during normal working hours at the OSM office listed above.

After reviewing and analyzing available information, OSM will issue a draft evaluation document which will be available for public review. This will be followed by a public hearing held near the area covered by the petition. The time and place of the hearing will be announced at a later date.

After completion of the analyses and public hearing, the Department of the Interior may designate the area or a portion thereof as unsuitable for all or certain types of surface coal mining operations. The Department may also decline to designate all or part of the area as unsuitable.

Dated: February 17, 1983.

James R. Harris,

Director, Office of Surface Mining.

BILLING CODE 4310-05-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-88 (Final)]

Carbon Steel Wire Rod From Venezuela; Import Investigation

Determination

On the basis of the record[1] developed in the subject investigation, the Commission determines, pursuant to section 735(b)(1) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)(1)), that an industry in the United States is not materially injured or threatened with material injury, and that the establishment of an industry in the United States is not materially retarded, by reason of imports from Venezuela of carbon steel wire rod, provided for in item 607.17 of the Tariff Schedules of the United States, which have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV). Accordingly, pursuant to section 734(f)(3)(A) of the Act, the suspension agreement entered into by CVG-Siderurgica del Orinoco C.A. and the Department of Commerce shall have no force or effect and investigation No. 731-TA-88 (Final) is hereby terminated.

Background

The Commission instituted this investigation effective July 23, 1982, following a preliminary determination by the Department of Commerce that carbon steel wire rod from Venezuela is being sold or is likely to be sold in the United States at LTFV. Notice of the institution of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, D.C., and by publishing the notice in the **Federal Register** on August 4, 1982 (47 F.R. 33815). The hearing was held in Washington, D.C., on September 23, 1982, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its report on the investigation to the Secretary of Commerce on February 11, 1983. A public version of the Commission's report, Carbon Steel Wire Rod from Venezuela (investigation No. 731-TA-88 (Final), USITC Publication 1338, 1983), contains the views of the Commissioners and information developed during the investigation. Copies may be obtained by contacting the Office of the Secretary, 701 E Street NW, Washington, D.C. 20436, telephone (202) 523-5178.

[1] The record is defined in 207.2(i) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(i), 47 FR 6190, Feb. 10, 1982).

Issued: February 14, 1983.

By Order of The Commission.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-139]

Caulking Guns; Investigation

AGENCY: International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on January 28, 1983, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), on behalf of Peter J. Chang, 9645 Gerwig Lane, P.O. Box 8, Columbia, Maryland 21046. A supplement to the complaint was filed on February 9, 1983. The complaint as supplemented (hereinafter "the complaint") alleges unfair methods of competition and unfair acts in the importation of certain caulking guns into the United States, or in their sale, by reason of alleged: (1) Direct infringement of claims 1-5 of U.S. Letters Patent 4,081,112; (2) passing off; (3) false advertising; and (4) misrepresentation of source and origin including failure to mark country of origin. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to prevent the establishment of an efficiently and economically operated domestic industry in the United States.

The complainant requests that the Commission institute an investigation and, after a temporary relief hearing on the non-patent allegations, issue both a temporary exclusion order, prohibiting importation of said articles into the United States except under bond, and a temporary cease and desist order. After a full investigation, complainant requests that the Commission issue both a permanent exclusion order and a permanent cease and desist order.

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in section 210.12 of the Commission's Rules of Practice and Procedure (19 CFR 210.12).

Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission on February 17, 1983, Ordered That—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, an

investigation be instituted to determine whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain caulking guns into the United States, or in their sale, by reason of alleged: (1) Direct infringement of the claims of U.S. Letters Patent 4,081,112; (2) passing off; (3) false advertising; and (4) violation of section 43(a) of the Lanham Act by reason of false designation of origin and source, the effect or tendency of which is to prevent the establishment of an efficiently and economically operated domestic industry in the United States;

(2) An investigation be made as to whether there is reason to believe that there is a violation of subsection (a) of section 337 with regard to the non-patent allegations of paragraph (1) above;

(3) For purposes of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is— Peter J. Chang, 9645 Gerwig Lane, P.O. Box 8, Columbia, Maryland 21046.

(b) The respondents are the following companies, alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:

Thumb Enterprise Co., Ltd., 6th Floor, Taishin Bldg., No. 30, Sec. 2, Chi-Nan Rd., Taipei, Taiwan
Winmax, Inc., P.O. Box 53–422, Taipei, Taiwan
Fuerza International Co., Ltd., 141–1 Hoping Rd., Luchou Hsiang, Taipei-Hsien, Taiwan
Taiwan Seven Rings Ind. Co., Ltd., P.O. Box 30–422, Taipei, Taiwan
Viva International Corp., 11 4th Floor, NCR Bldg., P.O. Box 13–361, 955 Tun Hwa Rd., Taipei, Taiwan

(c) Jeffrey S. Neeley, Esq., Unfair Import Investigations Division, U.S. International Trade Commission, 701 E Street NW., Room 125, Washington, D.C. 20436, shall be the Commission investigative attorney, a party to this investigation; and

(4) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall designate the presiding officer. Pursuant to § 210.30(c) of the Commission's Rules of Practice and Procedure (19 CFR 210.30(c)), discovery should be allowed in connection with the temporary relief phase of the investigation only to the extent necessary to weigh the standards that are applicable in determining whether temporary relief should be granted.

Responses must be submitted by the named respondents in accordance with § 210.21 of the Commission's Rules of Practice and Procedure (19 CFR 210.21). Pursuant to §§ 201.16(d) and 210.21(a) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Room 156, Washington, D.C. 20436, telephone 202–523–0471.

FOR FURTHER INFORMATION CONTACT: Jeffrey S. Neeley, Esq., Unfair Import Investigation Division, U.S. International Trade Commission, telephone 202–523–0115.

By order of the Commission.

Issued: February 17, 1983.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 731–TA–124 (Preliminary)]

Fresh Potatoes From Canada

AGENCY: International Trade Commission.

ACTION: Institution of a preliminary antidumping investigation and scheduling of a conference to be held in connection with the investigation.

EFFECTIVE DATE: February 9, 1983.

SUMMARY: The United States International Trade Commission hereby gives notice of the institution of a preliminary antidumping investigation under section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)) to determine whether there is a reasonable indication that an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Canada of fresh or chilled round white potatoes, provided for in items 137.20, 137.21, 137.25, or 137.28 of the Tariff Schedules of the United States, which are alleged to be sold in the United States at less than fair value.

FOR FURTHER INFORMATION CONTACT: Mr. George Deyman, Office of Investigations, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0481.

SUPPLEMENTARY INFORMATION:

Background.—This investigation is being instituted in response to a petition filed on February 9, 1983, on behalf of the Maine Potato Council, a trade association of Maine potato producers. The Commission must make its determination in the investigation within 45 days after the date of the filing of the petition, or by March 28, 1983 (19 CFR 207.17).

Participation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided for in § 201.11 of the

Commission's Rules of Practice and Procedure (19 CFR 201.11), not later than seven (7) days after the publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the notice.

Service of documents.—The Secretary will compile a service list from the entries of appearance filed in the investigation. Any party submitting a document in connection with the investigation shall, in addition to complying with § 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 13791, Apr. 1, 1982), serve a copy of the nonconfidential version of each such document on all other parties to the investigation. Such service shall conform with the requirements set forth in § 201.16(b) of the rules (19 CFR 201.16(b)), as amended by 47 FR 33682, Aug. 4, 1982).

In addition to the foregoing, each document filed with the Commission in the course of this investigation must include a certificate of service setting forth the manner and date of such service. This certificate will be deemed proof of service of the document. Documents not accompanied by a certificate of service will not be accepted by the Secretary.

Written submissions.—Any person may submit to the Commission on or before March 9, 1983, a written statement of information pertinent to the subject matter of this investigation (19 CFR 207.15). A signed original and fourteen (14) copies of such statements must be submitted (19 CFR 201.8, as amended by 47 FR 13791, Apr. 1, 1982).

Any business information which a submitter desires the Commission to treat as confidential shall be submitted separately, and each sheet must be clearly marked at the top "Confidential Business Data." Confidential submissions must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6). All written submissions, except for confidential business data, will be available for public inspection.

Conference.—The Director of Operations of the Commission has scheduled a conference in connection with this investigation for 9:30 a.m., on March 7, 1983, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. Parties wishing to participate in the conference should contact the staff investigator, Mr. George Deyman (202–523–0481), not later than March 3, 1983, to arrange for their appearance. Parties in support of the imposition of antidumping duties in the investigation and parties in opposition to the imposition of such duties will each be collectively allocated one hour within which to make an oral presentation at the conference.

Public inspection.—A copy of the petition and all written submissions, except for confidential business data, will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C.

For further information concerning the conduct of this investigation and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and B (19 CFR part 207, as amended by 47 FR 33682, Aug. 4, 1982), and part 201, subparts A through E (19 CFR part 201, as amended by 47 FR 13791, Apr. 1, 1982, and 47 FR 33682, Aug. 4, 1982). Further information concerning the conduct of the conference will be provided by Mr. Deyman.

This notice is published pursuant to § 207.12 of the Commission's rules (19 CFR 207.12).

Issued: February 17, 1983.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 731-TA-87 (Final)]

Seamless Steel Pipes and Tubes From Japan

Determinations

On the basis of the record [1] developed in the subject investigation, the Commission determines,[2] pursuant to section 735(b)(1) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)(1)), that an industry in the United States is materially injured by reason of imports from Japan of seamless heat-resisting steel pipes and tubes,[3] provided for in items 610.5206, 610.5208, 610.5229, or 610.5234 of the Tariff Schedules of the United States Annotated (TSUSA), which have been found by the Department of Commerce to be sold at less than fair value (LTFV).

In addition, the Commission determines [4] that an industry in the United States is materially injured by reason of imports from Japan of seamless stainless steel pipes and tubes,[3] provided for in TSUSA items 610.5205, 610.5229, or 610.5230, which have been found by Commerce to be sold at LTFV.

Background

The Commission instituted this investigation effective August 25, 1982, following preliminary determinations by the Department of Commerce that certain seamless steel pipes and tubes from Japan are being sold, or are likely to be sold, in the United States at LTFV.

Notice of the institution of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notices in the Office of the Secretary, U.S. International Trade Commission, Washington, D.C. and by publishing the notices in the **Federal Register** (47 FR 42847, Sept. 28, 1982, and 47 FR 47708, Oct. 27, 1982). The hearing was held in Washington, D.C. on January 12, 1983, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its report on the investigation to the Secretary of Commerce on February 14, 1983. A public version of the Commission's report, *Certain Seamless Steel Pipes and Tubes from Japan* (investigation No. 731–TA–87 (Final), USITC Publication 1347, 1983), contains the views of the Commissioners and information developed during the investigation.

Issued: February 14, 1983.

By Order of the Commission.

Kenneth R. Mason,

Secretary.

[FR Doc. 83-4704 Filed 2-23-83; 8:45 am]

BILLING CODE 7020-02-M

---

[1] The record is defined in sec. 207.2(i) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(i)).

[2] Commissioner Stern dissenting.

[3] Excluding oil country tubular goods suitable for use as oil or gas well casing or tubing, oil or gas field drill pipe or oil or gas line pipe, all of the foregoing having a tensile strength of at least 95,000 pounds per square inch (psi) and a yield strength of at least 75,000 psi.

[4] Commissioner Stern determines only that there is a threat of material injury to an industry in the United States by reason of LTFV imports of seamless stainless steel pipes and tubes from Japan. Accordingly, pursuant to section 735(b)(4)(B) of the Tariff Act (19 U.S.C. 1673d(b)(4)(B)), Commissioner Stern further determines that she would have found material injury but for any suspension of liquidation of entries of this merchandise.

Monthly Report on Selected Steel Industry Data

AGENCY: International Trade Commission.

ACTION: At the request of the Subcommittee on Trade, Committee on

Ways and Means, U.S. House of Representatives, and in accordance with the provisions of section 332(b) of the Tariff Act of 1930 (19 U.S.C. 1332(b)), the Commission has instituted investigation No. 332–153, for the purpose of gathering and compiling data on the U.S. steel industry from public sources and reporting such data to the Subcommittee on a monthly basis through December 1985. The monthly reports will include data on steel production and shipments, imports, exports, apparent consumption, market shares, prices, and employment.

EFFECTIVE DATE: February 16, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Peter Avery, Minerals and Metals Division, Office of Industries, U.S. International Trade Commission, Washington, D.C. 20436 (telephone 202–523–0342).

[Investigation No. 731–TA–95 (Final)]

Stainless Steel Sheet and Strip From France; Import Investigation

AGENCY: International Trade Commission.

ACTION: Rescheduling of the hearing to be held in connection with the subject investigation.

EFFECTIVE DATE: February 10, 1983.

SUMMARY: As a result of the extension by the United States Department of Commerce of its investigations involving stainless steel sheet and strip from France (48 FR 1529, January 13, 1983), the United States International Trade Commission hereby gives notice that its hearing scheduled for March 3, 1983 in connection with the subject investigation (48 FR 539), is rescheduled for May 4, 1983. Other dates specified in 48 FR 539, such as those for the prehearing conference and for the submission of briefs, are also rescheduled as indicated below.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen A. Vastagh (202–523–0283), Office of Investigations, U.S. International Trade Commission.

SUPPLEMENTARY INFORMATION:

Background.—On June 17, 1982, the Commission determined, on the basis of the information developed during the course of its preliminary investigation, that there was a reasonable indication that an industry in the United States was materially injured or threatened with material injury by reason of allegedly LTFV imports of stainless steel and strip from France. The preliminary investigation was instituted in response to a petition filed on May 10, 1982, by members of the Tool & Stainless Steel Industry Committee (since renamed: Specialty Steel Industry of the United States), and the United Steelworkers of America.

Participation in the investigation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, Feb. 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register.** Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to section 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, Feb. 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR 201.16(c), as amended by 47 FR 33682, Aug. 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on April 21, 1983, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a joint hearing in connection with this investigation and with Inv. 731–TA–92 (Final), Stainless Steel and Strip from the Federal Republic of Germany, beginning at 10:00 a.m. on May 4, 1983, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on April 12, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m. on April 20, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is April 29, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials, relevant to the public hearing should be included in prehearing briefs in accordance with § 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Posthearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, Feb. 10, 1982) and must be submitted not later than the close of business on May 12, 1983.

Written submissions.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before May 12, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6186, Feb. 10, 1982, and 47 FR 13791, Apr. 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and C (19 CFR part 207, as amended by 47 FR 6190, Feb. 10, 1982, and 47 FR 33682, Aug. 4, 1982), and part 201, subparts A through E (19 CFR part 201, as amended by 47 FR 6186, Feb. 10, 1982; 47 FR 13791, Apr. 1, 1982; and 47 FR 33682, Aug. 4, 1982).

This notice is published pursuant to § 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, Feb. 10, 1982).

Issued: Feburary 15, 1983.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[Investigation No. 731-TA-92 (Final)]

Stainless Steel Sheet and Strip From Germany; Import Investigation

AGENCY: International Trade Commission.

ACTION: Rescheduling of the hearing to be held in connection with the subject investigation.

EFFECTIVE DATE: February 10, 1982.

SUMMARY: As a result of the extension by the United States Department of Commerce of its investigations involving stainless steel sheet and strip from the Federal Republic of Germany (48 FR 4864, February 3, 1983), the United States International Trade Commission hereby gives notice that its hearing scheduled for March 3, 1983 in connection with the subject investigation (48 FR 538), is rescheduled for May 4, 1983. Other dates specified in 48 FR 538, such as those for the prehearing conference and for the submission of briefs, are also rescheduled as indicated below.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen A. Vastagh (202-523-0283), Office of Investigations, U.S. International Trade Commission.

SUPPLEMENTARY INFORMATION:

Background.—On June 2, 1982, the Commission determined, on the basis of the information developed during the course of its preliminary investigation, that there was a reasonable indication that an industry in the United States was materially injured or threatened with material injury by reason of allegedly LTFV imports of stainless steel and strip from the Federal Republic of Germany. The preliminary investigation was instituted in response to a petition filed on April 26, 1982, by members of the Tool & Stainless Steel Industry Committee (since renamed: Specialty Steel Industry of the United States), and the United Steelworkers of America.

Participation in the investigation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, Feb. 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register.** Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to section 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, Feb. 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR § 201.16(c), as amended by 47 FR 33682, Aug. 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on April 21, 1983, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a joint hearing in connection with this investigation and with Inv. 731-TA-95 (Final), Stainless steel and Strip from France, beginning at 10:00 a.m. on May 4, 1983, at the U.S. International Trade Commisison Building, 701 E Street NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the secretary to the Commisison not later than the close of business (5:15 p.m.) on April 12, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m. on April 20, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is April 29, 1983.

Testimony at the public hearing is governed by section 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, Aug. 4, 1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with § 207.22 (19 CFR 207.22, as amended by 47 FR 33682, Aug. 4, 1982). Posthearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, Feb. 10, 1982) and must be submitted not later than the close of business on May 12, 1983.

Written submissions.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before May 12, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, Feb. 10, 1982, and 47 FR 13791, Apr. 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procecure, part 207, subparts A and C (19 CFR part 207, as amended by 47 FR 6190, Feb. 10, 1982, and 47 FR 33682, Aug. 4, 1982), and part 201, subparts A through E (19 CFR part 201, as amended by 47 FR 6188, Feb. 10, 1982; 47 FR 13791, Apr. 1, 1982; and 47 FR 33682, Aug. 4, 1982).

This notice is published pursuant to section 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, Feb. 10, 1982).

By order of the Commission.

Issued: February 15, 1983.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-124]

Textile Spinning Frames and Automatic Doffers Therefor; Termination of Two Respondents by Summary Determination

AGENCY: International Trade Commission.

ACTION: Notice is hereby given that the Commission has affirmed an initial determination that granted a motion for summary judgment that respondents Schubert & Salzer Machinenfabrik A.G. and Schubert & Salzer Machine Works (S & S) have not as a matter of law violated section 337, and terminated the investigation with respect to such respondents.

Authority: The authority for Commission disposition of this matter is contained in section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and in section 210.56 of the Commission's Rules of Practice and Procedure (47 FR 25134 - (June 10, 1982); to be codified at 19 CFR 210.56).

SUPPLEMENTARY INFORMATION: The initial determination was issued in response to a motion for summary determination and termination as to the S & S respondents on the grounds that S & S had not sold, or engaged in contracts to sell, the allegedly infringing equipment in the past and that they did not intend to do so in the future. On October 19, 1982, the Commission self-initiated review of the initial determination regarding certain legal issues and published notice thereof in the **Federal Register**. The S & S respondents and the Commission investigative attorney filed reply briefs supporting adoption of the presiding officer's initial determination. On February 10, 1983, the Commission affirmed the initial determination and terminated the investigation with respect to those respondents.

Copies of the presiding officer's initial determination, the Commission Action and Order and all other nonconfidential documents filed in connection with this investigation are available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0161.

FOR FURTHER INFORMATION CONTACT: Sheila Landers, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-523-0421.

Issued: February 14, 1983.

By order of the Commission.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-137]

Certain Heavy-Duty Staple Gun Tackers; Investigation

AGENCY: International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on January 7, 1983, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), on behalf of Arrow Fastener Co., Inc., 271 Mayhill St., Saddle Brook, N.J. 07662. The complaint alleges unfair methods of competition and unfair acts in the importation of certain heavy-duty staple gun tackers into the United States, or in their sale, by reason of alleged (1) infringement of Arrow's common law trademark under section 43(a) of the Lanham Act, in the heavy-duty staple gun tacker, (2) passing off, and (3) infringement of Arrow's common law trademark under section 43(a) of the Lanham Act, in the pictorial of the heavy-duty staple gun tacker. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

The complainant requests the Commission to institute an investigation and, after a full investigation, to issue both a permanent exclusion order and a permanent cease and desist order.

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in § 210.12 of the Commission's Rules of Practice and Procedure (19 CFR 210.12).

Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission, on February 2, 1983, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, an investigation be instituted to determine whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain heavy-duty staple gun tackers into the United States, or in their sale, by reason of alleged: (1) Infringement of Arrow's common law trademark under section 43(a) of the Lanham Act, in the heavy-duty staple gun tacker, (2) passing off, and (3) infringement of Arrow's common law trademark under section 43(a) of the Lanham Act, in the pictorial of the heavy-duty staple gun tacker. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—Arrow Fastener Co., Inc., 271 Mayhill Street, Saddle Brook, N.J. 07662.

(b) The following respondents are alleged to be in violation of section 337, and are the parties upon which the complaint is to be served. The first five respondents listed below are alleged to be committing all three of the unfair methods of competition and unfair acts listed in paragraph (1) and the remaining respondents are alleged to be committing the first two of the unfair methods of competition and unfair acts listed in paragraph (1):

Test-Rite Products Corp., 1144 Clifton Ave., Clifton, N.J. 07013
Test-Rite Int'l (Taiwan) Ltd., 293 Chung Hsiao East Rd., 2nd Floor, Sec. 4, Taipei, Taiwan
Test-Rite Automotive Ltd., Room 1504, Star House, 3 Salisbury Rd., T.S.T., Kowloon, Hong Kong

(c) Robert S. Budoff, Esq., Unfair Import Investigations Division, U.S. International Trade Commission, 701 E Street NW., Room 124, Washington, D.C. 20436, shall be the Commission investigative attorney, a party to this investigation; and

(3) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall designate the presiding officer.

Responses must be submitted by the named respondents in accordance with § 210.21 of the Commission's Rules of Practice and Procedure (19 CFR 210.21). Pursuant to §§ 201.16(d) and 210.21(a) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both an initial determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., room 156, Washington, D.C. 20436, telephone 202–523–0471.

FOR FURTHER INFORMATION CONTACT: Robert S. Budoff, Esq., Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202–523–0113.

By order of the Commission.

Issued: February 17, 1983.

BILLING CODE 7020-02-M

[Investigation No. 731-TA-102 (Final)]

Certain Radio Paging and Alerting Receiving Devices

AGENCY: International Trade Commission.

ACTION: Institution of final antidumping investigation and scheduling of a hearing to be held in connection with the investigation.

EFFECTIVE DATE: February 1, 1983.

SUMMARY: As a result of an affirmative preliminary determination by the U.S. Department of Commerce that there is a reasonable basis to believe or suspect that imports from Japan of certain radio paging and alerting receiving devices, provided for in items 685.24 and 685.70 of the Tariff Schedules of the United States, are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Tariff Act of 1930 (19 U.S.C. 1673), the United States International Trade Commission hereby gives notice of the institution of Investigation No. 731–TA–102 (Final) under section 735(b) of the act (19 U.S.C 1673d(b)) to determine whether an industry in the United States is materially injured, or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of such merchandise. The Department of Commerce will make its final dumping determination in the case on or before June 11, 1983, and within 45 days of the Department of Commerce's determination the Commission will notify the Department of Commerce of its final injury determinations (19 CFR 207.25).

FOR FURTHER INFORMATION CONTACT: Bill Schechter, Investigator, Office of Investigations, U.S. International Trade Commission, telephone 202–523–0300.

SUPPLEMENTARY INFORMATION:

Background

On October 4, 1982, the Commission notified the Department of Commerce that, on the basis of the information developed during the course of its preliminary investigation, there is a reasonable indication that an industry in the United States is threatened with material injury by reason of alleged LTFV imports of certain radio paging and alerting devices from Japan. The preliminary investigation was instituted in response to a petition filed on August 19, 1982, by counsel for Motorola, Inc., the largest domestic producer of radio paging and alerting receiving devices.

Participation in the investigation.—Persons wishing to participate in this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's Rules of Practice and Procedure (19 CFR 201.11, as amended by 47 FR 6189, February 10, 1982), not later than 21 days after the publication of this notice in the **Federal Register**. Any entry of appearance filed after this date will be referred to the Chairman, who shall determine whether to accept the late entry for good cause shown by the person desiring to file the entry.

Upon the expiration of the period for filing entries of appearance, the Secretary shall prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation, pursuant to § 201.11(d) of the Commission's rules (19 CFR 201.11(d), as amended by 47 FR 6189, February 10, 1982). Each document filed by a party to this investigation must be served on all other parties to the investigation (as identified by the service list), and a certificate of service must accompany the document. The Secretary will not accept a document for filing without a certificate of service (19 CFR 201.16(c), amended by 47 FR 33682, August 4, 1982).

Staff report.—A public version of the staff report containing preliminary findings of fact in this investigation will be placed in the public record on June 10, 1983, pursuant to § 207.21 of the Commission's rules (19 CFR 207.21).

Hearing.—The Commission will hold a hearing in connection with this investigation beginning at 10:00 a.m., on June 21, 1983, at the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. 20436. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission not later than the close of business (5:15 p.m.) on June 3, 1983. All persons desiring to appear at the hearing and make oral presentations should file prehearing briefs and attend a prehearing conference to be held at 10:00 a.m., on June 14, 1983, in room 117 of the U.S. International Trade Commission Building. The deadline for filing prehearing briefs is June 16, 1983.

Testimony at the public hearing is governed by § 207.23 of the Commission's rules (19 CFR 207.23, as amended by 47 FR 33682, August 4,

1982). This rule requires that testimony be limited to a nonconfidential summary and analysis of material contained in prehearing briefs and to information not available at the time the prehearing brief was submitted. All legal arguments, economic analyses, and factual materials relevant to the public hearing should be included in prehearing briefs in accordance with § 207.22 (19 CFR 207.22, as amended by 47 FR 33682, August 4, 1982). Post hearing briefs must conform with the provisions of section 207.24 (19 CFR 207.24, as amended by 47 FR 6191, February 10, 1982) and must be submitted not later than the close of business on March 8, 1983.

Written submission.—As mentioned, parties to this investigation may file prehearing and posthearing briefs by the dates shown above. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation on or before June 28, 1983. A signed original and fourteen (14) true copies of each submission must be filed with the Secretary to the Commission in accordance with section 201.8 of the Commission's rules (19 CFR 201.8, as amended by 47 FR 6188, February 10, 1982, and 47 FR 13791, April 1, 1982). All written submissions except for confidential business data will be available for public inspection during regular business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission.

Any business information for which confidential treatment is desired shall be submitted separately. The envelope and all pages of such submissions must be clearly labeled "Confidential Business Information." Confidential submissions and requests for confidential treatment must conform with the requirements of § 201.6 of the Commission's rules (19 CFR 201.6).

For further information concerning the conduct of the investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 207, subparts A and C (19 CFR part 207, as amended by 47 FR 6190, February 10, 1982, and 47 FR 33682, August 4, 1982), and part 201, subparts A through E (19 CFR Part 201, as amended by 47 FR 6188, February 10, 1982; 47 FR 13791, April 1, 1982; and 47 FR 33682, August 4, 1982).

This notice is published pursuant to § 207.20 of the Commission's rules (19 CFR 207.20, as amended by 47 FR 6190, February 10, 1982).

Issued: February 18, 1982.

By order of the Commission.

Kenneth R. Mason,

Secretary.

[Investigation No. 337-TA-136]

Certain Marine Hardware and Accessories; Prehearing Conference and Hearing

Notice is hereby given that a prehearing conference will be held in this case at 9:00 a.m. on March 14, 1983 in Room 201, Waterfront Center, 1010 Wisconsin Avenue, NW., Washington, D.C., and the hearing on temporary relief will commence immediately thereafter.

The purpose of the prehearing conference is to review the trial memoranda submitted by the parties, to stipulate exhibits into the record, and to discuss any questions raised by the parties relating to the hearing.

The Secretary shall publish this notice in the **Federal Register.**

Issued: February 17, 1983.

BILLING CODE 7020-02-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find: Each transaction is exempt from section 11343 of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1181.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 20 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered: The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

In the matter of Motor Common and Contract Carriers of Property (except fitness-only); Motor Common Carriers of Passengers (public interest); Freight Forwarders; Water Carriers; Household Goods Brokers.

The following applications for motor common or contract carriers of property, water carriage, freight forwarders, and household goods brokers are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register**, December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common carriage of passengers, filed on or after November 19, 1982, are governed by Subpart D of 49 CFR Part 1160, published in the **Federal Register** on November 24, 1982 at 47 FR 53271. For compliance procedures, see 49 CFR 1160.86. Carriers operating pursuant to an intrastate certificate also must comply with 49 U.S.C. 10922(c)(2)(E). Persons wishing to oppose an application must follow the rules inder 49 CFR Part 1160, Subpart E. In addition to fitness grounds, these applications may be opposed on the grounds that the transportation to be authorized is not consistent with the public interest.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations.

We make an additional preliminary finding with respect to each of the following types of applications as indicated: common carrier of property—that the service proposed will serve a useful public purpose, responsive to a

public demand or need; water common carrier—that the transportation to be provided under the certificate is or will be required by the public convenience and necessity; water contract carrier, motor contract carrier of property, freight forwarder, and household goods broker—that the transportation will be consistent with the public interest and the transportation policy of section 10101 of chapter 101 of Title 49 of the United States Code.

These presumptions shall not be deemed to exist where the application is opposed. Except noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the for of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance.The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over routes as a motor common carrier of passengers are duly noted. Please direct status inquiries to Team 2, (202) 275–7030.

Volume No. OP2–070

Decided: February 7, 1983.

By the Commission, Review Board No. 2, members Carleton, Williams, and Ewing.

FF–653, filed January 19, 1983. Applicant: ADVANCE FORWARDERS, INC., P.O. Box 4067, Burlingame, CA 94010. Representative: Alan F. Wohlstetter, 1700 K St., NW., Washington, DC 20006, (202) 833–8884. *As a freight forwarder* in connection with the transportation of used household goods, unaccompanied baggage, and used automobiles, between points in the U.S.

MC 662 (Sub-44), filed January 11, 1983. Applicant: BURNHAM VAN SERVICE, INC., 5000 Burnham Blvd., Columbus, GA 31907. Representative: David Earl Tinker, 1000 Connecticut Ave., NW., Suite 1112, Washington, DC 20036–5391, 202–887–5868. Transporting *general commodities* (except classes A and B explosives, and commodities in bulk), between points in the U.S., under continuing contract(s) with Visual Graphics Corporation, of Tamarac, FL.

MC 1222 (Sub-58), filed January 6, 1983. Applicant: THE REINHARDT TRANSFER COMPANY, 1410 Tenth St., P.O. Box 7, Portsmouth, OH 45662. Representative: Robert H. Kinker, 314 West Main St., P.O. Box 464, Frankfort, KY 40602, 502–223–6244. Transporting *metal products*, between Detroit, MI, on the one hand, and, on the other, points in IL, IN, KY, OH, TN, and WV.

MC 97642 (Sub-4), filed January 19, 1983. Applicant: YOUNG TRUCKING, INC., P.O. Box 9197, Corpus Christi, TX 78408. Representative: John W. Carlisle, P.O. Box 967, Missouri City, TX 77459, (713) 437–1768. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S., (except AK and HI).

MC 107002 (Sub-594), filed January 13, 1983. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, MS 39205. Representative: Harold D. Miller, Jr., 17th Floor, Deposit Guaranty Plaza, P.O. Box 22567, Jackson, MS 39205. (601) 948–5711. Transporting general commodities (except classes A and B explosives, household goods and commodities in bulk), (1) between points in Escambia, Santa Rosa, Okaloosa, Walton, Holmes, Washington, Bay, Jackson, Calhoun and Gulf Counties, FL, and AL, AR, LA, MS, and TN, and (2) between points in (1) above, on the one hand, and, on the other, points in the U.S., (except AK and HI).

MC 107012 (Sub-786), filed January 19, 1983. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, IN 46801. Representative: David D. Bishop (same address as applicant), 219–429–2110. Transporting *general commodities* (except classes A and B explosives, and commodities in bulk), between points in the U.S., under continuing contract(s) with Hills Department Stores, of Canton, MA.

MC 107012 (Sub-787), filed January 19, 1983. Applicant: NORTH AMERICAN VAN LINES, INC., 5001 U.S. Hwy. 30 West, P.O. Box 988, Fort Wayne, IN 46801. Representative: David D. Bishop (same address as applicant), 219–429–2110. Transportating *general commodities* (except classes A and B explosives and commodities in bulk), between points in the U.S., under continuing contract(s) with E-Systems, Inc., of Dallas, TX.

MC 117792 (Sub-11), filed January 17, 1983. Applicant: J C. JACKSON, JR., d.b.a. FARM PRODUCTS CO., P.O. Box 189, East Prairie, MO 63845. Representative: A. J. Swanson, P.O. Box 1103, Sioux Falls, SD 57101, (605) 335–1777. Transporting *food and related products*, between points in AL, AR, DE, FL, GA, IA, IL, IN, KY, LA, MI, MN, MO, MS, NC, NE, NY, OH, OK, PA, SC, TN, TX, VA, WI and WV.

MC 118142 (Sub-256), filed January 14, 1983. Applicant: M. BRUENGER & CO., 6250 North Broadway, Wichita, KS 67218. Representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, KS 67202, (316) 265–2634. Transporting *general commodities* (except classes A and B explosives and household goods), between points in the U.S. (except AD and HI).

MC 125813 (Sub-27), filed January 11, 1983. Applicant: CRESSLER TRUCKING, INC., 691 Orrstown Rd., Shippensbury, PA 17257. Representative: John Wills Beach, 34 West Middle St., Gettysburg, PA 71325, 717–334–9121. Transporting *pulp, paper and related products*, between points in the U.S (except AK and HI).

MC 134783 (Sub-81), filed January 19, 1983. Applicant: DIRECT SERVICE, INC., P.O. Box 2481, Lubbock, TX 79408. Representative: Charles M. Williams, 1600 Sherman St., No. 665, Denver, CO 80203, 303–839–5856. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the U.S. (except AD and HI).

MC 141603 (Sub-9), filed January 26, 1983. Applicant: CANADIAN PACIFIC EXPRESS & TRANSPORT, INC., LTD., Suite E330, Atria North, 2255 Sheppard Ave., E., Willowdale, Ontario, Canada M2J 4Y1. Representative: Harry J. Jordan, Suite 502, Solar Bldg., 1000 16th St., NW., Washington, DC 20036, (202) 783–8131. Transporting *general commodities* (except classes A and B explosives, commodities in bulk, and household goods), between points in Pennington and Kittson Counties, MN.

MC 141913 (Sub-5), filed January 17, 1983. Applicant: HEALTHCARE

TRANSPORTATION SYSTEM, INC., 7 Ensign Girardot Place, Cape Girardeau, MO 63701. Representative: Patricia F. Scott, P.O. Box 1000, Laurie, MO 65038, (314) 374–9618. Transporting *such commodities* as are dealt in and used in the operation and maintenance of a hospital, between points in MO and KS.

MC 148603 (Sub-3), filed January 17, 1983. Applicant: DARICA TRUCKING CO., INC., 338 South Oliver St., Elberton, GA 30635. Representative: Roger A. Kirshhenbaum, Suite 520, 3390 Peachtree Rd., NE., Atlanta, GA 30326, (404) 262–7855. Transporting *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in AL, FL, GA, and SC, on the one hand, and, on the other, points in the U.S. (except AK and HI).

MC 151193 (Sub-36), filed January 19, 1983. Applicant: PAULS TRUCKING CORPORATION, 286 Homestead Avenue, Avenel, NJ 07001. Representative: Michael A. Beam (same as applicant), (201) 499–3889. Transporting *general commodities* (except classes A and B explosives, and household goods), between points in the U.S., under continuing contract(s) with National Piggyback Services, Inc., of Indianapolis, IN.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 83–4586 Filed 2–23–83; 8:45 am,

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

In the matter of Motor Common and Contract Carriers of Property (fitness-only); Motor Common Carriers of Passengers (fitness-only); Motor Contract Carriers of Passengers; Property Brokers (other than household goods).

The following applications for motor common or contract carriage of property and for a broker of property (other than household goods) are governed by Subpart A of Part 1160 of the Commission's General Rules of Practice. See 49 CFR Part 1160, Subpart A, published in the **Federal Register** on November 1, 1982, at 47 FR 49583, which redesignated the regulations at 49 CFR 1100.251, published in the **Federal Register** on December 31, 1980. For compliance procedures, see 49 CFR 1160.19. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart B.

The following applications for motor common or contract carriage of passengers filed on or after November 19, 1982, are governed by Subpart D of the Commission's Rules of Practice. See 49 CFR Part 1160, Subpart D, published in the **Federal Register** on November 24, 1982, at 49 FR 53271. For compliance procedures, see 49 CFR 1160.86. Persons wishing to oppose an application must follow the rules under 49 CFR Part 1160, Subpart E.

These applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations.

Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce, over irregular routes unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Please direct status inquiries to Team 1, (202) 275–7992.

Volume No. OP1–64

Decided: February 17, 1983.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

MC 111750 (Sub-1), filed February 3, 1983. Applicant: HAHN'S CHARTER SERVICE, INC., R.D. No. 2, Box 85A, Millerstown, PA 17062. Representative: Lloyd R. Persun, P.O. Transporting for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S. (except AK and HI); and (2) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S. (except AK and HI).

MC 166023, filed February 1, 1983. Applicant: LOGAN TRANSPORTATION, INC., 97–14 Atlantic Ave., Ozone Park, NY 11416. Representative: Norman Turk, 225 Broadway, New York, NY 10007, (212) 619–1540. Transporting *passengers*, in charter and special operations, beginning and ending at Queens, NY, and extending to points in the U.S. (except HI).

Note.—Applicant seeks to provide privately funded charter and special transportation.

For the following, please direct status calls to Team 4 at 202–275–7669.

Volume No. OP4–082

Decided: February 10, 1983.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

MC 82007 (Sub-10), filed February 9, 1983. Applicant: GREGG BUS SERVICE, INC., P.O. Box 125, Yorklyn, DE 19736. Representative: Harry J. Jordan, Suite 502, Solar Bldg., 1000 16th St., NW., Washington, DC 20036. Transporting *passengers*, between Newark, DE and Philadelphia, PA, over U.S. Hwy 95, serving all intermediate points.

Condition: Issuance of a certificate in this proceeding is conditioned upon applicant certifying to the Commission, prior to commencing operations, that all rail service has actually terminated at specified points. The certification should be sent to the Deputy Director, Section of Operating Rights, Interstate Commerce Commission, Washington, DC 20423.

Note.—(1) Applicant seeks to serve a community not regularly served by an ICC-authorized motor common carrier of passengers, and (2) to substitute discontinued rail or commercial-air passenger service to a community.

MC 128097 (Sub-3), filed February 8, 1983. Applicant: LIZAK BUS SERVICE, INC., West Main St., Warren, MA 01083. Representative: David M. Marshall, Sixth Floor, 95 State St., Springfield, MA 01103, (413) 732–1136. Transporting *passengers*, in charter and special operations, between points in the U.S. (except HI).

Note.—Applicant seeks to provide privately funded charter and special transportation.

MC 166067, filed February 4, 1983. Applicant: CLEVELAND ASHTABULA BUS LINE, INC., 4862 Lee Rd., Cleveland, OH 44128. Representative: Rubin Sardon, 3368 East 113, Cleveland, OH 44104, (216) 581–2746. Transporting *passengers*, in charter operations, between points in the U.S. (except HI).

Note.— Applicant seeks to provide privately funded charter transportation.

MC 166117, filed February 4, 1983. Applicant: MUSIC MANN TRAVEL SERVICE, INCORPORATED, 421 Waterloo St., London, Ontario, Canada N6N 1B9. Representative: Andrew J. Carraway, Suite 1301, 1600 Wilson Blvd., Arlington, VA 22209, (703) 522–0900. Transporting *passengers*, in charter and special operations, between points in the U.S. (except HI).

Note.—Applicant seeks to provide privately funded charter and special transportation.

MC 166196, filed February 10, 1983. Applicant: AGATE TRANSPORT, INC., 38611 Monroe St., Agate, CA 80101. Representative: Lawrence Marquette, P.O. Box 629, Caramel Valley, CA 93924, (408) 625–2031. Transporting (1) *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), (2) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, (3) *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertlizers, and other soil*

conditioners by the owner of the motor vehicle in such vehicle, (4) *used household goods* for the United States Government incident to the performance of a pack-and-crate service on behalf of the Department of Defense, between points in the U.S. (except AK and HI), and (5) as a *broker of general commodities* (except household goods), between points in the U.S.

BILLING CODE 7035–01–M

[Ex Parte No. 387]

Rail Carriers; Exemptions for Contract Tariffs

AGENCY: Interstate Commerce Commission.

ACTION: Notices of provisional exemptions.

SUMMARY: Provisional exemptions are granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the below-listed contract tariffs may become effective on one day's notice. These exemptions may be revoked if protests are filed.

DATES: Protests are due within 15 days of publication in the **Federal Register.**

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway, (202) 275–7278, or Tom Smerdon, (202) 275–7277.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in these instances to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse of market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption requests meet the requirements of 49 U.S.C. 10505(a) and are granted subject to the following conditions:

These grants neither shall be construed to mean that the Commission has approved the contracts for purposes of 49 U.S.C. 10713(e) not that the Commission is deprived of jurisdiction to institute a preceding on its own initiative or on complaint, to review these contracts and to determine their lawfulness.

BILLING CODE 7035-01-M

[Docket No. AB-1 (Sub-No. 152)]

Chicago & North Western Transportation Co.—Abandonment—in Blackhawk and Tama Counties, IA; Findings

The Commission has issued a certificate authorizing the Chicago and North Western Transportation Company to abandon its 9.3-mile rail line between milepost 28.8 near Buckingham and milepost 38.1 near Hicks in Blackhawk and Tama Counties, IA. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that: (1) A financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Mr. Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, D.C. 20423, no later than 10 days from publication of this Notice. Any offer previously made must be remade within this 10-day period.

Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 and 49 CFR 1152.27.

BILLING CODE 7035-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 22856; (70-6797)]

Georgia Power Co.; Proposal To Organize Wholly Owned Financing Subsidiary

February 16, 1983.

In the matter of Georgia Power Co., 333 Piedmont Avenue, N.E., Atlanta, Georgia 30308.

Georgia Power Company ("Company"), a wholly-owned public utility subsidiary of The Southern Company ("Southern"), a registered holding company, has filed an application-declaration with this Commission pursuant to Sections 6, 7, 9, 10, and 12 of the Public Utility Holding Company Act of 1935 ("Act") and Rules 40, 44, 45, and 50 thereunder.

The Company proposes to organize as its wholly owned subsidiary a new corporation under the laws of the Netherlands Antilles ("Financing Subsidiary") for the purpose of obtaining financing for the Company from sources outside of the United States. In connection with the organization of Financing Subsidiary, the Company proposes to purchase capital stock of Financing Subsidiary, or make cash contributions to the capital of Financing Subsidiary, or both, in an aggregate amount not exceeding $60,000.

The Company has been advised that financing in the Eurodollar market may offer significant advantages in connection with meeting its external financing requirements. The Eurodollar market represents a new source of funds available to the Company and an alternative to domestic sources. The availability of such an alternative source is regarded as important to the Company in light of its ongoing external financing needs and the volatility of United States markets. In addition, interest rate savings at times may be available to the Company in the Eurodollar market relative to the domestic bond market. The Company also has been informed that certain covenants and conditions in connection with Eurodollar financings are less restrictive than those available in the domestic markets.

Among the principal reasons for organizing Financing Subsidiary as a Netherlands Antilles corporation are certain tax implications. Particularly, the Company has been advised that, under present law and subject to various conditions, no withholding of United States federal income tax will be required with respect to payments of principal, premium or interest to a

holder of debt obligations of Financing Subsidiary who is, as to the United States, a foreign corporation, a nonresident alien individual, a nonresident fiduciary of a foreign estate or trust or a nonresident foreign partnership. [Under the Internal Revenue Code of 1954, as amended, interest payments on bearer securities by a United States corporation to nonresident holders of its debt obligations are generally subject to 30% withholding tax.) In addition, no such withholding will be required with respect to gains realized by such a holder upon the sale or redemption of debt obligations of Financing Subsidiary; and debt obligations of Financing Subsidiary which are held by an individual who at the time of death is not a citizen or a resident of the United States will not be subject to U.S. federal estate tax as a result of such individual's death.

This favorable tax treatment is subject to various conditions, including the maintenance of Financing Subsidiary's total equity at a meaningful level. Experience to date would indicate that total indebtedness should be held to a level not exceeding approximately 3.3 times equity capital. Accordingly, in connection with financings by Financing Subsidiary as hereinafter set forth, the Company proposes to purchase such additional capital stock of Financing Subsidiary or make such additional cash contributions to the capital of Financing Subsidiary, or both, in such aggregate amount as shall be necessary from time to time to maintain Financing Subsidiary's debt to equity ratio at up to approximately 3.3 to 1.

Subject to post-effective amendment and further Commission authorization, the Company may: enter into a loan agreement to obtain the necessary funds for the purchase of capital stock or capital contributions; issue and sell up to $100 million aggregate principal amount of its debt obligations ("Debt") in one or more transactions from time to time; unconditionally guarantee the payment by Financing Subsidiary of the Debt and secure its obligations with respect to such guarantee; and/or issue a promissory note to Financing Subsidiary evidencing a loan to the Company of the net proceeds realized from the sale of the Debt.

The Company requests that the proposed sale or sales of Debt by Financing Subsidiary be excepted from the competitive bidding requirements of Rule 50 due to the nature of Eurodollar financing and because compliance with such requirements under the circumstances is unnecessary for the public interest or the interest of investors or consumers.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by March 14, 1983, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 13025; (811-3565)]

Warlick High Value-High Yield Fund, Inc.; Filing of an Application

February 16, 1983.

In the Matter of Warlick High Value-High Yield Fund, Inc., 250 Madison Avenue, Morristown, New Jersey 07960.

Notice is hereby given that Warlick High Value—High Yield Fund, Inc. ("Applicant"), an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on December 30, 1982, pursuant to Section 8(f) of the Act, for an order declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

A corporation duly organized under Maryland law, Applicant states that it has never engaged in operations and has never sold any of its shares. Applicant's registration statement never became effective, and its board of directors unanimously directed its officers, on December 23, 1982, to deregister Applicant under the Act.

Applicant declares that when it filed its application it had no assets and was not engaged nor did it propose to engage in any business activities other than those necessary for the winding up of its affairs. Applicant asserts that its only debts consist of sums owed to its adviser, Warlick Capital Management, Inc., for organizational expenses. Applicant further asserts that it is not a party to any litigation or administrative proceeding, that it has no securityholders, and that it has authorized its officers to take all necessary steps to dissolve it as a corporation in accordance with Maryland law.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the taking effect of such order, the registration of such company under the Act shall terminate.

Notice is hereby given that any interested person wishing to request a hearing on the application may, not later than March 14, 1983, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for his/her request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of the request should be served personally or by mail upon Applicant at the address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. Persons who request a hearing will receive any notices and orders issued in this matter. After said date an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

[Release No. 19505; (SR-Amex-82-23)]

Self-Regulatory Organizations; American Stock Exchange, Inc.; Order Approving Proposed Rule Change

February 16, 1983.

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, NY 10006.

The American Stock Exchange, Inc. ("Amex") submitted on December 3, 1982, copies of a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b–4 thereunder, to amend Article IV, Section 3(b) of the Amex Constitution to permit the designation of authorized representatives to act on the Exchange floor on behalf of Options Principal Member ("OPM") Governors as well as regular member and OPM Exchange officials while such Governors and officials are either engaged in Exchange business or attending meetings of the Exchange Board of Governors.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by the issuance of a Commission Release (Securities Exchange Act Release No. 19331, December 13, 1982) and by publication in the **Federal Register** (47 FR 2089, January 17, 1983). No Comments were received with respect to the proposed rule change.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, the requirements of Section 6 and the rules and the regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

[FR Doc. 83-4864 Filed 2-23-83; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 19506; File No. SR–PSE–83–3]

Self-Regulatory Organizations; Pacific Stock Exchange, Inc.; Filing of Proposed Rule Change

February 16, 1983.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on January 28, 1983, the Pacific Stock Exchange, Inc. ("PSE") filed with the Securities and Exchange Commission the proposed rule change as described herein. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

The proposed rule change would amend current PSE Options Floor Procedure Advice B–6, concerning a market maker's use of floor brokers to effect transactions for the market maker's account. According to the Exchange, the proposed amendment to paragraph 1(a) of the Advice is intended to resolve a possible ambiguity in the language of that paragraph with respect to market makers giving verbal instructions, rather than written order tickets, to floor brokers. The Advice is being amended to provide that a floor broker should "if possible" prepare an order ticket, whereas the current Advice provides that the order should be prepared by the market maker "under all circumstances". In addition, the Advice currently requires the market maker to time-stamp the order ticket before giving it to the floor broker but does not expressly require the floor broker to again time-stamp the order ticket to reflect the time of the receipt. According to the PSE, the proposed amendment to paragraph 1(a) would expressly make applicable to floor brokers who handle market makers orders the time-stamping requirements of Rule VI, Section 42 of the rules of the Board of Governors of the PSE. The PSE states in its filing that the statutory basis for the proposed rule change is Section 6(b)(5) of the Act in that the proposed change will promote just and equitable principles of trade.

In order to assist the Commission in determining whether to approve the proposed rule change or institute proceedings to determine whether the proposed rule change should be disapproved, interested persons are invited to submit written data, views and arguments concerning the submission within 21 days after the date of publication in the **Federal Register**. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Reference should be made to File No. SR–PSE–83–3.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room. Copies of the filing and of any subsequent amendments also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF STATE

[Public Notice 848]

El Salvador; Certification To Authorize Continued Assistance

January 21, 1983.

Pursuant to Sections 728 (b) and (d) of the International Security and Development Cooperation Act of 1981 and Executive Order No. 12163, as amended, I hereby determine and certify:

(1) That the Government of El Salvador is making a concerted and significant effort to comply with internationally recognized human rights;

(2) That the Government of El Salvador is achieving substantial control over all elements of its own armed forces, so as to bring to an end the indiscriminate torture and murder of Salvadoran citizens;

(3) That the Government of El Salvador is making continued progress in implementing essential economic and political reforms, including the land reform program;

(4) That the Government of El Salvador is committed to the holding of free elections at an early date and to that end has demonstrated its good faith efforts to begin discussions with all major political factions in El Salvador which have declared their willingness to find and implement an equitable political solution to the conflict.

Therefore, to the extent otherwise consistent with law, the furnishing of assistance for El Salvador under chapters 2 and 5 of part II of the Foreign Assistance act of 1961, the issuance of letters of offer and the extension of credits and guarantees for El Salvador under the Arms Export Control Act, and the assignment of members of the Armed Forces to El Salvador to carry out functions under those Acts are hereby authorized.

This certification together with the justification therefor shall be reported to the Congress immediately.

This certification shall be published in the **Federal Register.**

George P. Shultz,

Secretary of State.

BILLING CODE 4710-10-M

[Public Notice CM-3/606]

Integrated Services Digital Network (ISDN) Working Party of the U.S. Organization for the International Telegraph and Telephone Consultative Committee; Meeting

The Department of State announces that the ISDN Working Party of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on March 10, 1983 at 9:30 a.m. in Room 1105 of the Department of State, 2201 C Street, NW., Washington, D.C. This Working Party deals with the evolution of ISDN.

The agenda for the meeting is as follows:

1. Report of the results of the meeting of the CCITT Study Group XVIII Group of Experts on ISDN, Kyoto, February 14–25;
2. Consideration of contributions for CCITT Study Group XI/6 and Study Group XVIII meetings; and
3. Any other business.

Members of the general public may attend the meeting and join in the discussion subject to the instructions of the Chairman. Admittance of public members will be limited to the seating available. In that regard, entrance to the Department of State building is controlled and entry will be facilitated between 9:15 and 9:30 if arrangements are made in advance of the meeting. It is suggested that prior to March 10, members of the general public who plan to attend the meeting so advise Mr. William Lowell, Office of International Communications Policy, Department of State, Washington, D.C. 20520, telephone (202) 632–6583. All attendees must use the C Street entrance to the building during designated time.

Dated: February 15, 1983.

James L. Gorman,

Director, Acting Office of International Communications Policy.

BILLING CODE 4710-07-M

[Public Notice CM-6/605]

Study Group CMTT of the U.S. Organization for the International Radio Consultative Committee (CCIR); Meeting

The Department of State announces that Study Group CMTT of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on March 15, 1983, in Conference Room F, 10th Floor, American Telephone and Telegraph Company, 1120 20th Street NW., Washington, D.C. The meeting will begin at 9:30 a.m.

Study Group CMTT deals with the specifications to be satisfied by telecommunication systems for transmission of radio and television programs over long distances. The purpose of the meeting is discussion of preparations for the international meeting of CMTT in August–September 1983.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman. Request for further information should be directed to Mr. Gordon Huffcutt, State Department, Washington, D.C. 20520, telephone (202) 632–2592.

Dated: February 15, 1983.

Gordon L. Huffcutt,

Chairman, U.S. CCIR National Committee.

BILLING CODE 4710-07-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Radio Technical Commission for Aeronautics (RTCA), Special Committee 147—Traffic Alert & Collision Avoidance Systems; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I) notice is hereby given of a meeting of RTCA Special Committee 147 on Traffic Alert & Collision Avoidance Systems to be held on March 16–18, 1983, in the RTCA Conference Room, 1425 K Street NW., Suite 500, Washington, D.C. commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Approval of Minutes of the Eleventh Meeting Held on January 18–20, 1983; (3) Presentation of Status Reports on Related Studies and Activities; (4) Consideration of TCAS–I Working Group Report; (5) Review of Fourth Draft Report on Minimum Operational Performance Standards for TCAS; and (6) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1425 K Street NW., Suite 500, Washington, D.C. 20005; (202) 682–0266. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C., on February 17, 1983.

Karl F. Bierach,

Designated Officer.

BILLING CODE 4910-13-M

Maritime Administration

[Docket No. S-731]

Participation by Vessels Built With Construction-Differential Subsidy in the Carriage of Crude Oil in the Domestic Trade; Application ARCO Transportation Company

Notice is hereby given that by application of February 11, 1983, ARCO Transportation Company (ARCO) requested permission under section 506 of the Merchant Marine Act, 1936, as amended, and Part 250 of Title 46 of the Code of Federal Regulations, for its owned vessel, ARCO Spirit to operate for six months in the Alaskan oil trade. The 262,400 deadweight ton ARCO SPIRIT, which was built with construction-differential subsidy (CDS), would carry crude oil from Valdez, Alaska, to Panama for oncarriage only to a U.S. port. The vessel would be under time charter to Exxon Company (Exxon) during the six-month period and would commence Alaskan service on or about March 21, 1983.

Exxon notified Arco of its need for the ARCO SPIRIT inasmuch as the waiver period of Exxon's time chartered CDS tanker, ARCO Independence, is expiring. Exxon stated that it has a continuing need for a 262,000 DWT tanker to move its Alaskan crude oil. Exxon further advised that, to its knowledge, no suitable Jones Act tonnage is available which can provide the full shipping capacity required by Exxon in the Alaskan oil trade.

Interested parties may inspect the application in the Office of the Secretary, Maritime Administration, Room 7300A, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590.

Any person, firm, or corporation who is a "competitior," as defined in § 250.2 of the regulations as set forth in 46 CFR Part 250 published in the Federal Register issue of June 29, 1977 (42 FR 33035), and desires to protest such application for carriage of oil in the domestic trade from Alaska to Panama should submit such protest in writing, in triplicate, to the Secretary, Maritime' Administration, Washington, D.C. 20590.

Protests must be received within five working days after the date of publication of this Notice in the Federal

Register. If a protest is received, the applicant will be advised of such protest by telephone or telegram and will be allowed three working days to respond in a manner acceptable to the Maritime administrator. Within five working days after the due date for the applicant's response, the Maritime Administrator will advise the applicant, as well as those submitting protests, of the action taken, with a concise written explanation of such action. If no protest is received concerning the application, the Maritime Administrator will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 20.800 Construction-Differential Subsidy (CDS))

By Order of the Maritime Administrator.

Dated: February 18, 1983.

Georgia P. Stamas,

Acting Secretary.

BILLING CODE 4910-81-M

Federal Aviation Administration

Radio Technical Commission for Aeronautics (RTCA) (Utilized as an Advisory Committee); Renewal

Notice is hereby given of the renewal of the Radio Technical Commission for Aeronautics (RTCA) as an advisory committee utilized by the Federal Aviation Administration (FAA) and other Government agencies. The Associate Administrator for Development and Logistics, Federal Aviation Administration, is the sponsor.

The membership of RCTA comprises over 140 Government and industry organizations. At this time, eight Government agencies, the Departments of State, Commerce, Army, Navy and Air Force; the Federal Aviation Administration (FAA) and U.S. Coast Guard of the Department of Transportation; and the National Aeronautics and Space Administration (NASA), participate in RCTA. Private sector members include Aeronautical Radio, Incorporated (ARINC); Air Line Pilots Association (ALPA); Air Transport Association of America (ATA); Aircraft Owners and Pilots Association (AOPA); National Business Aircraft Association (NBAA); General Aviation Manufacturers Association (GAMA); Electronics Industries Association (EIA) Members; and Affiliated Independent Members.

The objective of RCTA is to advance the art and science of aeronautics through the investigation of all available or potential applications of the telecommunication art. Their coordination with allied arts, and the adaptation thereof to recognized operational requirements. To achieve this objective, the RCTA through its special committees seeks solutions to problems involving the application of electronics and telecommunications to aeronautical operations and frequently recommends technical performace standards and operational requirements for consideration by Government, industry and aviation users.

The Secretary of Transportation has determined that the utilization of RCTA is necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law. Except as provided in section 10(d) of the Federal Advisory Committee Act (86 Stat. 770), meetings of all RTCA committees when utilized as an advisory committee, will be open to the public.

Issued in Washington, D.C., on February 11, 1983.

A. P. Albrecht,

Associate Administator for Development and Logistics.

BILLING CODE 4910-13-M

National Highway Traffic Safety Administration

Denial of Petition To Conduct Defect Proceeding

This notice sets forth the reasons for denial of a petition to determine whether to issue an order pursuant to section 152(b) of the National Traffic and Motor Vehicle Safety Act, 15 U.S.C. 1412(b).

On April 18, 1982 Jonathan E. Hardis of Chicago, Illinois, petitioned for an investigation of alleged throttle sticking problems on Volkswagens equipped with fuel injected engines. The NHTSA conducted a technical review of the Bosch K-Jetronic CIS fuel-injected system, found on more than 950,000 Volkswagen-manufactured vehicles of model years 1976–80. The agency's files revealed only nine similar complaints. The Canadian Ministry of Transport reported no problems with sticky throttle valves. Thus, the review revealed no trend of a safety problem. There being no reasonable possibility that an order of the nature requested would be issued at the conclusion of an investigation, the petition was denied on October 29, 1982.

However, Mr. Hardis wished to demonstrate the malfunction on his vehicle and brought it to Washington for the agency's inspection on December 27, 1982. The conditions complained of could not be replicated, but Mr. Hardis was informed on February 7, 1983 that the agency would, nevertheless, continue to monitor complaints to determine if investigative effort is warranted in the future.

(Secs. 124, 152 Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1410a, 1412); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on: February 17, 1983.

Lynn L. Bradford,

Associate Administrator for Enforcement.

BILLING CODE 4910-59-M

Research and Special Programs Administration

Grants and Denials of Applications for Exemptions

AGENCY: Materials Transportation Bureau, Research and Special Programs Administration, DOT.

ACTION: Notice of grants and denials of applications for exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given of the exemptions granted in January 1983. The modes of transportation involved are identified by a number in the "Nature of Exemption Thereof" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft. Application numbers prefixed by the letters EE represent applications for Emergency Exemptions.

RENEWAL AND PARTY TO EXEMPTIONS

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
2709-P	DOT-E 2709	Atlantic Research Corp., Camden, AR	49 CFR 173.52, 173.93, 177.821, 177.834(L)(1), 177.836(c).	To become a party to Exemption 2709. (Mode 1.)

RENEWAL AND PARTY TO EXEMPTIONS—Continued

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
2709–X	DOT–E 2709	U.S. Department of Defense, Washington, DC.	49 CFR 173.52, 173.93, 177.821, 177.834(L)(1), 177.835(k).	To authorize 6D/2S 30 gallon capacity drum as an alternate container, for shipment of various explosives. (Mode 1.)
4336–X	DOT–E 4336	Stauffer Chemical Co., Westport, CT	49 CFR 173.119(m), 173.245a, 173.247	To authorize use of DOT specification 3AA2015 cylinders and DOT Specification 51 portable tanks, for shipment of corrosive and a flammable liquid. (Modes 1, 2, 3.)
5186–X	DOT–E 5186	U.S. Department of Energy, Washington, DC.	49 CFR 173.395(c)(2), 175.3	To authorize shipment of radioactive materials and nonliquefied compressed gases, in non-DOT specification pressure vessels overpacked in metal drums. (Modes 1, 2, 4.)
5248–P	DOT–E 5248	U.S. Department of Energy, Richland, WA	49 CFR 173.389(g), 175.3	To become a party to Exemption 5248. (Modes 1, 2, 4, 5.)
5649–X	DOT–E 5649	Great Lakes Chemical Corp., Adrian, MI	49 CFR 173.154(a)	To authorize shipment of an oxidizer, in non-DOT specification polypropylene or polyethylene bags. (Modes 1, 2.)
5778–P	DOT–E 5778	Lil-O-Gen Division of Allied Healthcare Products, St. Louis, MO.	49 CFR 173.302(a)(4), 173.304(a)(1)(i)	To become a party to Exemption 5778. (Modes 1, 2.)
6243–X	DOT–E 6243	Liquid Carbonic Corp., Chicago, IL	49 CFR 172.101, 173.315(a)	To allow an increased filling density for liquid carbon monoxide in tank motor vehicles. (Mode 1.)
6293–X	DOT–E 6293	Hercules, Inc., Wilmington, DE	49 CFR 173.21(b), 173.248	To authorize shipment of specific corrosive materials in DOT Specification MC–311 or MC–312 tank motor vehicles. (Mode 1.)
6293–X	do	Olin Corp., East Alton, IL	do	To renew and to modify shipping name for spent mixed acid to nitrating acid. (Mode 1.)
6296–X	DOT–E 6296	Olin Chemicals Group, Stamford, CT	49 CFR 173.377(g)	To authorize additional bag packagings for the transportation of certain Class B poisons in DOT 44D multi-wall paper bags. (Modes 1, 2.)
6403–X	DOT–E 6403	El Paso Products Co., Odessa, TX	49 CFR 172.101, 173.315(a)	To authorize shipment of a flammable gas in a non-DOT specification cargo tank. (Mode 1.)
6403–X	do	Ethyl Corp., Baton Rouge, LA	do	To authorize shipment of a flammable gas in a non-DOT specification cargo tank. (Mode 1.)
6538–P	DOT–E 6538	Pan Products Inc., Macedonia, OH	49 CFR 173.304(d)(3)(ii), 178.33	To become a party to Exemption 6538. (Modes 1, 3.)
6556–X	DOT–E 6556	Castle & Cooke, Inc., San Francisco, CA	49 CFR 173.132	To authorize use of a non-DOT specification single compartment portable tank, for transportation of a flammable liquid. (Modes 1, 3.)
6564–X	DOT–E 6564	Castle & Cooke, Inc., San Francisco, CA	49 CFR 173.119, 173.128	To authorize shipment of certain flammable liquids in non-DOT specification dual compartment portable tanks. (Modes 1, 3.)
6571–X	DOT–E 6571	Utilities Board, City of Trussville, Trussville, AL.	49 CFR 172.101, 173.315(a)	To authorize use of a non-DOT specification insulated cargo tank, for transportation of certain flammable gases. (Mode 1.)
6762–P	DOT–E 6762	National Chemical, Atlanta, GA	49 CFR 173.266(b)(2), 175.3	To become a party to Exemption 6762. (Modes 1, 2, 3, 4.)
6762–P	do	Aqua-Serv Engineers, Inc., Los Angeles, CA.	do	Do.
6762–X	do	Taylor Chemicals, Inc., Baltimore, MD	do	To authorize transport of chemical kits in plastic inside bottles, packed in plastic boxes overpacked in fiberboard boxes. (Modes 1, 2, 3, 4.)
6772–P	DOT–E 6772	Rhone-Poulenc, Inc., Monmouth Junction, NJ.	49 CFR 173.119(a)(22), 173.245, 173.264(a), 173.346, 173.349, 173.369.	To become a party to Exemption 6772. (Mode 1.)
6874–X	DOT–E 6874	ICI Americas, Inc., Wilmington, DE	49 CFR 172.101, 173.370(a)(13)	To renew and to authorize a polypropylene bag as an inside container and to increase dimensions of outer box. (Modes 1, 2, 3.)
6922–X	DOT–E 6922	Halocarbon Products Corp., Hackensack, NJ.	49 CFR 173.314(c), 179.300–15	To authorize use of a DOT Specification 106A500–X multi-unit tank car tank, for shipment of certain compressed gases. (Modes 1, 2, 3.)
6923–X	DOT–E 6923	Dow Chemical Co., Midland, MI	49 CFR 172.101, 173.315(a)(1)	To authorize use of non-DOT specification insulated cargo tanks, for transportation of a flammable gas. (Mode 1.)
6971–P	DOT–E 6971	Analabs, North Haven, CT	49 CFR Parts 100–199	To become a party to Exemption 6971(Modes 1, 2, 3, 4, 5.)
7052–P	DOT–E 7052	AVCO, Wilmington, DE	49 CFR 172.101, 175.3	To become a party to Exemption 7052. (Modes 1, 2, 3, 4.)
7052–X	do	General Electric Co., Gainesville, FL	do	To authorize shipment of batteries containing lithium and other materials, classed as a flammable solid. (Modes 1, 2, 3, 4.)
7052–P	do	The Bendix Corp., Kansas City, MO	do	To become a party to Exemption 7052. (Modes 1, 2, 3, 4.)
7052–P	do	Geophysical Research Corp., Tulsa, OK	do	Do.
7070–P	DOT–E 7070	Vanguard Research Associates, Inc., South Plainfield, NJ.	49 CFR 173.365, 175.3, 175.630	To become a party to Exemption 7070. (Modes 4, 5.)
7206–X	DOT–E 7206	Ruan Transport Corp., Des Moines, IA	49 CFR 173.245(a)	To authorize shipment of certain corrosive materials in non-DOT specification stainless steel cargo tanks. (Mode 1.)
7207–X	DOT–E 7207	Matheson Gas Products, Secaucus, NJ	49 CFR 172.101, 173.315(a)(1)	To authorize shipment of cryogenic liquid ethylene in non-DOT specification cargo tanks. (Mode 1.)
7268–X	DOT–E 7268	Union Carbide Corp., Danbury, CT	49 CFR 173.304(a)(1)	To authorize use of a DOT Specification 39 nonrefillable cylinder, for shipment of a nonflammable compressed gas. (Modes 1, 2, 3.)
7285–P	DOT–E 7285	Parlefen, Paris, France	49 CFR 173.315(a)	To become a party to Exemption 7285. (Modes 1, 2, 3.)
7286–X	DOT–E 7286	Liquid Carbonic Corp., Chicago, IL	49 CFR 173.34(e)(15)(i)	To authorize shipment of certain nonliquefied compressed gases in DOT Specification 3A or 3AA cylinders and cylinders marked ICC–3, 3A or 3AA. (Modes 1, 2, 3, 4, 5.)
7444–X	DOT–E 7444	James Russell Engineering Works, Inc., Boston, MA.	49 CFR 172.101, 173.315(a)	To authorize shipment of liquefied flammable gases in non-DOT specification cargo tanks. (Mode 1.)
7574–X	DOT–E 7574	Remmers-Tomkins Flight Service, Inc., Burlington, IA.	49 CFR 172.101, 172.204(c)(3), 173.27, 175.30(a)(1), 175.320(b), Part 107, Appendix B.	To authorize an additional Class A explosive as packaged under DOT–E 6658. (Mode 4.)
7633–X	DOT–E 7633	Sea Containers Atlantic Ltd., Hamilton, Bermuda	49 CFR 173.119, 173.126(a), 173.129, 173.131(a)(1), 173.132(a)(1), 173.245(a), 173.32(a)(2), 173.346(a), 173.510, 173.605(a), 173.630(b), 46 CFR 90.05–35.	To authorize use of non-DOT specification portable tanks, for shipment of certain hazardous materials. (Modes 1, 2, 3.)
7648–P	DOT–E 7648	Sunwest Aviation, Roy, UT	49 CFR 172.204(c), 172.300(a), 172.400(a), 173.91(a), 173.91(l), 175.3, 175.35(a).	To become a party to Exemption 7648. (Mode 4.)
7671–X	DOT–E 7671	Sea Containers Atlantic Ltd., Hamilton, Bermuda, NY.	49 CFR 173.119, 173.125, 173.126(a), 173.129, 173.131(a)(1), 173.132(a)(1), 173.245(a), 173.32(a)(2), 173.346(a), 173.510, 173.630(b), 46 CFR 90.05–35.	To authorize use of non-DOT specification IMO Type 2 insulated portable tanks, for transportation of certain hazardous materials. (Modes 1, 2, 3.)
7694–X	DOT–E 7694	Borg Warner Corp., Van Nuys, CA	49 CFR 173.302(a)(4), 175.3	To authorize use of non-DOT specification welded, or seamless, nonrefillable cylinders, containing non-liquefied compressed gases. (Modes 1, 2, 4.)
7735–X	DOT–E 7735	Rheem Manufacturing Co., Linden, NJ	49 CFR 173.119, 173.264(a), 173.272(g)	To authorize hydrofluoric acid solution and sulfuric acid classed as corrosive materials as additional commodities. (Modes 1, 2, 3.)
7765–X	DOT–E 7765	Carleton Controls Corp., East Aurora, NY	49 CFR 173.302(a)(4), 175.3	To authorize use of nonrefillable, non-DOT specification cylinders, for transportation of a nonflammable gas. (Modes 1, 2, 4.)
7770–P	DOT–E 7770	Parlefer, Paris, France	49 CFR 173.143, 173.264(b)(4)	To become a party to Exemption 7770. (Modes 1, 2, 3.)

RENEWAL AND PARTY TO EXEMPTIONS—Continued

Application No.	Exemption No.	Applicant	Regulation(s) affected	Nature of exemption thereof
7623-X	DOT-E 7623	Air Products and Chemicals, Inc., Allentown, PA.	49 CFR 173.246	To authorize transport of iodine pentafluoride in non-DOT specification welded stainless steel cylinders complying with DOT Specification 4BW with certain exceptions. (Modes 1, 2, 3.)
7649-X	DOT-E 7649	Weber Aircraft, Burbank, CA	49 CFR 173.87, 175.3, 176.83	To authorize transport of a Class C explosive and a nonflammable compressed gas, in the same non-DOT specification fiberboard shipping container. (Modes 1, 2, 3, 4, 5.)

BILLING CODE 4910–60–M

UNITED STATES INFORMATION AGENCY

Advisory Committee on Ethical Values; Meeting

The Advisory Committee on Ethical Values will hold its next meeting on Monday, February 28, 1983 from 10:00 a.m. to 1:00 p.m. in Room 600, 1750 Pennsylvania Avenue, N.W., Washington, D.C. The committee will discuss ways in which the Agency can more effectively explain the U.S. position on nuclear deterrence and arms control as related to Agency programming objectives. Due to recent inclement weather which caused some government scheduling problems, the notice of this meeting for the **Federal Register** was delayed.

Dated: February 22, 1983.

Mary Jane Winnett,

Management Assistant, Management Plans, Analysis, and Directives Staff.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, February 28, 1983, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Application for Federal deposit insurance:

Security Bank of Cairo, a proposed new bank to be located at 800 Commercial Avenue, Cairo, Illinois.

Applications for consent to merge and establish branches:

Bourbon-Agricultural Bank & Trust Company, Paris, Kentucky, an insured State nonmember bank, for consent to merge, under its charter and title, with North Middletown Deposit Bank, North Middleton, Kentucky, and to establish the sole office of North Middletown Deposit Bank as a branch of the resultant bank.

The Northwestern Bank, North Wilkesboro, North Carolina, an insured State nonmember bank, for consent to merge, under its charter and title, with Cabarrus Bank and Trust Company, Concord, North Carolina, a noninsured bank, and to establish the twelve offices of Cabarrus Bank and Trust Company as branches of the resultant bank.

Application for consent to merge and establish one facility:

Benton Community Bank, Benton, Illinois, an insured State nonmember bank, for consent to merge, under its charter and title, with Ewing State Bank, Ewing, Illinois, and to establish the sole office of Ewing State Bank as a facility of the resultant bank.

Recommendation regarding the Corporation's assistance agreement involving an insured bank pursuant to section 13(e) of the Federal Deposit Insurance Act.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,589-L: The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee

Memorandum and Resolution re: South Side Bank, Chicago, Illinois

Memorandum and Resolution re: Final amendment to Part 303 of the Corporation's rules and regulations, entitled "Applications, Requests, Submittals, Delegations of Authority, and Notices of Acquisition of Control," which would provide that any petition for reconsideration of a denied request, application, or petition must be addressed to the Corporation's Board of Review where the initial request, application, or petition was denied by the Board of Review acting pursuant to authority delegated by the Board of Directors, except that action taken by the Board of Review on any enforcement matter brought under section 8 of the Federal Deposit Insurance Act shall be subject to review by the Board of Directors in accordance with section 303.13(o)(7).

Memorandum and Resolution re: Final amendments to Part 308 of the Corporation's rules and regulations, entitled "Rules of Practice and Procedure," which would implement provisions of the Garn-St Germain Depository Institutions Act of 1982: (1) That authorize the Corporation to compromise, modify, or remit certain civil money penalties; and (2) that allow the removal of a management official for any violation of the Depository Institutions Management Interlocks Act.

Memorandum and Resolution re: Proposed amendment to Part 309 of the Corporation's rules and regulations, entitled "Disclosure of Information," which would: (1) Permit the Director of the Division of Bank Supervision to delegate his existing authority regarding the disclosure of reports of examination and other exempt records; and (2) permit the General Counsel or his designee to authorize Corporation personnel to testify on confidential information without the service of a subpoena.

Memorandum and Resolution re: FDIC regulations selected for review during 1983.

Reports of committees and officers:

Minutes of actions approved by the standing committees of the Corporation pursuant to authority delegated by the Board of Directors.

Reports of the Division of Bank Supervision with respect to applications or requests approved by the Director or Associate Director of the Division and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Reports of the Director, Division of Liquidation:

Memorandum re: Sale of Residential Mortgage Loans to the Federal National Mortgage Association.

Memorandum re: Guidelines for the Sale of Real Estate/Servicing of Mortgage Loans—Revised.

Report of the Director, Division of Accounting and Corporate Services:

Memorandum re: Investment Management Report as of December 31, 1982.

Report of the General Counsel:

Memorandum re: Reports of Actions Approved Under Delegated Authority: Settlements of Claims, Attorneys' Fees Approved for Payment and Law Firms Retained.

Reports of the Director, Office of Corporate Audits and Internal Investigations:

Audit Report re: Corporate Assessment Income, dated June 15, 1982.

Audit Report re: Summary of Five Liquidation Site Audits, dated January 13, 1983

Discussion Agenda:

No matters scheduled.

The meeting will be held in the Board Room on the sixth floor of the FDIC building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: February 18, 1983.

Federal Deposit Insurance Corporation.
Hoyle L. Robinson
Executive Secretary.

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, February 28, 1983, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Notice of acquisition of control:

Southeast Mississippi Bank, Quitman, Mississippi

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act "[5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii).

Note: Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Application for consent to merge and establish branches:

The Banking Center, Waterbury, Connecticut, an insured mutual savings bank, for consent to merge, under its charter and title, with Woodbury Savings Bank, Woodbury, Connecticut, and to establish the three offices of Woodbury Savings Bank as branches of the resultant bank.

Applications pursuant to section 19 of the Federal Deposit Insurance Act for consent to service of a person convicted of an offense involving dishonesty or a breach of a trust as a director, officer, or employee of an insured bank:

Names of persons and of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, NW., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: February 18, 1983.
Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

BILLING CODE 6714-01-M

3

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 3:25 p.m. on Friday, February 18, 1983, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to consider a recommendation with respect to the initiation and conduct of a cease-and-desist proceeding against an insured bank (name and location of bank authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

In calling the meeting, the Board determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director C. T. Conover (Comptroller of the Currency), that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting pursuant to subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Dated: February 22, 1983.
Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

NATIONAL TRANSPORTATION SAFETY BOARD

[NM–83–5]

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 48 FR 7030, February 17, 1983.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9 a.m., Thursday, February 24, 1983.

CHANGE IN MEETING: A majority of the Board determined by recorded vote that the business of the Board required revising the agenda of this meeting and that no earlier announcement was possible. The agenda as now revised is set forth below:

STATUS: The first two items will be open to the public; the last two will be closed under Exemption 10 of the Government in the Sunshine Act.

1. *Marine Accident Report:* Collision of the U.S. Towboat *Creole Genii* and the Liberian Tank Vessel *Arkas* near Mile 130, Mississippi River, March 31, 1982, and Recommendations to U.S. Coast Guard, Le Beouf Brothers Towing Company, Inc., and New Orleans—Baton Rouge Steamship Pilots Association.
2. *Recommendation* to Federal Aviation Administration regarding use of child restraint systems in aircraft.
3. *Opinion and Order:* Petition of Bellenger, Dkt. SM–2928; disposition of the Administrator's appeal.
4. *Opinion and Order:* Administrator v. Mommsen, Dkt. SE–5576; disposition of respondent's appeal.

CONTACT PERSON FOR MORE INFORMATION: Sharon Flemming, (202) 382–6525.

February 22, 1983.

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

TIME AND DATE: 10 a.m., March 24, 1983.

PLACE: Suite 316, 1825 K Street, N.W., Washington, D.C.

STATUS: Because of the subject matter, it is likely that this meeting will be closed.

MATTERS TO BE CONSIDERED: Discussion of specific cases in the Commission adjudicative process.

CONTACT PERSON FOR MORE INFORMATION: Mrs. Patricia Bausell (202) 634–4015.

Dated: February 22, 1983.

[FR S-303-83 Filed 2-22-83; 2:28 pm]
BILLING CODE 7600-01-M

13

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

TIME AND DATE: 10 a.m., March 17, 1983.

PLACE: Suite 316, 1825 K Street, N.W., Washington, D.C.

STATUS: Because of the subject matter, it is likely that this meeting will be closed.

MATTERS TO BE CONSIDERED: Discussion of specific cases in the Commission adjudicative process.

CONTACT PERSON FOR MORE INFORMATION: Mrs. Patricia Bausell (202) 634–4015.

Dated: February 22, 1983.

SECURITIES AND EXCHANGE COMMISSION

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: (To be published).

STATUS: Closed/open meeting.

PLACE: 450 Fifth Street, N.W., Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Tuesday, February 15, 1983.

CHANGES IN THE MEETING: Rescheduling/Deletion items. The following closed items previously scheduled for Wednesday, February 23, 1983, at 10 a.m. have been rescheduled for Friday 25, 1983, following the 12 p.m. open meeting:

Formal order of investigation.
Settlement of administrative proceedings of an enforcement nature.

The following closed item previously scheduled for Thursday, February 24, 1983, following the 10 a.m. open meeting has been rescheduled for Wednesday, February 23, 1983, at 10 a.m.:

Institution of administrative proceeding of an enforcement nature.

The following closed item scheduled for Wednesday, February 23, 1983, at 10 a.m. will not be considered:

Litigation matter.

The following open items previously scheduled for Thursday, February 24, 1983, at 10 a.m. in Room 1C30 have been rescheduled for Friday, February 25, 1983, at 12 p.m.

1. Consideration of whether to amend the Commission's rules governing maintenance of employee performance appraisal related documents in order to conform the rules to new regulations adopted by the Office of Personnel Management. For further information, please contact Laurie S. Schaffer at (202) 272–2453.

2. Consideration of whether to proceed with rulemaking or other appropriate steps with respect to one or more of the seven securities recommendations from the first SEC Government-Business Forum on Small Business Capital Formation. For further information, please contact H. Steven Holtzman at (202) 272–7617.

3. Consideration of whether to publish for comment certain technical amendments relating to various rules, forms and schedules under the Securities Act of 1933 and the Securities Exchange Act of 1934. Such amendments clarify certain language and correct technical omissions and errata. For further information, please contact Gerard V. Comizio at (202) 272–2589.

4. Consideration of whether to adopt on a final basis under the Investment Advisers Act of 1940 certain temporary amendments to Form ADV, the investment adviser registration application. For further information, please contact Arthur E. Dinerman at (202) 272–3021.

5. Consideration of whether to publish for comment Rule 6c–8 under the Investment Company Act of 1940, which would provide registered insurance company separate accounts and others with exemptive relief from various provisions of the Act with respect to variable annuity contracts participating in such accounts to the extent necessary to permit them to impose a deferred sales loan upon redemption of any such contract and to deduct a full annual fee under certain circumstances. For further information, please contact Mary K. Crook at (202) 272–3010.

6. Consideration of whether to propose for comment amendments to Rule 482 under the Securities Act of 1933 and Item 17 of Part I of Form N–1 under the Investment Company Act of 1940 to permit investment companies to advertise their securities by direct mail, modify the method by which money market mutual funds calculate their yield, and permit money market mutual funds to advertise their compound yield. For further information, please contact Gregory K. Todd at (202) 272–7317.

7. Consideration of whether to authorize issuance of a release which announces the adoption of amendments to the Commission's rule regarding the independence of accountants. The amendments revise the definition of the term "member" in § 210.2–01(b) (Rule 2–01(b) of Regulation S–X) and make minor clarification changes in the rule. For further information, please contact Clarence M. Staubs at (202) 272–2130.

Chairman Shad and Commissioners Evans and Treadway determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any matters have been added, deleted or postponed, please contact: Diane Klinke at (202) 272–2014.

February 18, 1983.

Part II

Department of the Interior

Office of Surface Mining Reclamation and Enforcement

Surface Mining and Reclamation Operation Under a Federal Program for Washington; Interim Final Rule

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 947

Surface Mining and Reclamation Operation Under a Federal Program for Washington

January 27, 1983.

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Interim final rule.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) of the Department of the Interior promulgates a Federal program for regulation of coal exploration and surface coal mining and reclamation operations on non-Federal and non-Indian lands in Washington. This includes surface effects of underground coal mining. This program is necessary in order to regulate surface coal mining activities in the absence of a State program.

EFFECTIVE DATE: The effective date for this program is April 25, 1983.

DATES: Written comments will be accepted until 5:00 p.m. on April 14, 1983, at the address below.

ADDRESSES: Written comments must be mailed to: Administrative Record Room (R & I—21), Office of Surface Mining, Wyoming State Office, P.O. Box 1420, Mills, Wyoming 82644, or hand-delivered to Office of Surface Mining, Wyoming State Office, Freden Building, 935 Pendell Boulevard, Mills, Wyoming 82244.

FOR FURTHER INFORMATION CONTACT: James M. Kress, Office of Surface Mining, Branch of Regulatory Programs, Room 222, 1951 Constitution Avenue, NW., Washington, D.C. 20240. Phone (202) 343–5866.

SUPPLEMENTARY INFORMATION:

Availability of Copies. Copies of the Washington Federal program are available for inspection and may be obtained at the OSM office listed above under "**ADDRESSES**."

Public Comment Period. The comment period on this interim final program will extend until April 14, 1983. All comments must be received at the location listed above under "**ADDRESSES**" by the close of business on that date. All written comments received, summaries of public meetings held at the request of any person or organization to receive advice and recommendations concerning the program with representatives of OSM, and other documents comprising the administrative record on the Washington Federal program will be made available for public review during regular business hours at the location listed above under "**ADDRESSES**."

Comments should be as specific as possible, focus on the issues of this rulemaking, and provide reasons for any recommendations. OSM will not consider comments that do not pertain to the issues in this rulemaking. Nor can OSM ensure consideration of comments received after the comment period ends or those delivered to an address other than that specified.

Because public hearings were held for the proposed Washington Federal program, none will be scheduled during the interim final rule comment period. Persons wishing to meet with OSM officials should contact the person listed above under "**FOR FURTHER INFORMATION CONTACT**" in order to schedule such a meeting.

To assist the reader, this preamble is arranged as follows:

I. Federal Programs Generally
II. Washington Federal Program
A. Background
B. Content and Organization of the Program
C. Detailed Discussion
D. Discussion and Disposition of Comments
III. Other Information

I. Federal Programs Generally

Under Section 504(a) of the Surface Mining Control and Reclamation Act of 1977 (the Act), Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*, the Secretary of the Interior (the Secretary) is required to promulgate a Federal program within 34 months after passage of the Act if a State fails to submit a program to assume responsibility for regulating surface mining activities, fails to resubmit a program within 60 days of disapproval, or fails at any time to implement, enforce, or maintain an approved State program. The time for submitting State programs was extended by seven months to March 3, 1980, as the result of litigation, *In re: Permanent Surface Mining Regulation Litigation*, 13 Envir. Rep. Cas. 1447 (July 25, 1979). The date for the required implementation of a Federal program in any State which did not submit a program to obtain primary regulatory responsibility has passed.

Once a decision has been made that a Federal program is necessary for a State, the Secretary must make several determinations before promulgating a program. Section 504(a) of the Act requires that, in implementing a Federal program, the Secretary must take into consideration the nature of the State's terrain, climate, biological, chemical, and other relevant physical conditions. This requirement is also found in the regulations for Federal programs, 30 CFR 736.22(a)(1). The Act (Section 505(b)) and the regulations (Section 736.23(b)) also provide that if a State has more stringent land use and environmental laws or regulations, they shall not be construed to be inconsistent with the Act or the Secretary's regulations. The Secretary believes that the requirements of Section 505(b) can best be met by identifying State laws and regulations which impose more stringent environmental controls and listing them in this Federal program. If the State's laws or regulations establish more stringent standards than those of the Act or the Secretary's regulations, or if the State regulates or protects an aspect of the environment which neither the Act nor the Secretary's regulations protect, OSM would then specifically preserve those State standards in the Federal program. However, by identifying more stringent State environmental controls in a Federal program, OSM would not be assuming any responsibility for enforcing such State laws. That would be left to the State.

Also, in promulgating a program for a State, Section 504(g) specifies that any State statutes or regulations which regulate surface mining and reclamation operations are to be identified by the Secretary and will be superseded and preempted to the extent that they interfere with the achievement of the purposes and requirements of the Act and Federal program. This provision is reinforced by Section 505(a) of the Act which states that only inconsistent State laws shall be superseded by the Federal program. Thus, State statutes and rules regulating the same activities as those covered by the Federal law and regulations and which do not provide as much protection as do the Federal law and regulations are considered to interfere with achievement of the purposes of the Act. Accordingly, they must be identified and preempted by OSM.

Federal programs are based on the Secretary's permanent program regulations. 30 CFR Subchapters A, F, G, J, K, L, and M. The permanent program regulations implement the procedures and performance standards of the Act. They form the benchmark for State programs. In order for a State to have a program approved by the Secretary, Section 503(a)(7) requires that the State's rules and regulations be consistent with the Secretary's regulations.

Pursuant to Section 504(a), the Secretary becomes the regulatory authority when a Federal program is

implemented for a State. The permanent program regulations contain references to "the regulatory authority" and to "the State regulatory authority," both of which mean the Secretary when a Federal program is involved. Section 701(22) of the Act. The Secretary has delegated all authority for surface coal mining activities to the Director of the Office of Surface Mining (the Director), who is the official responsible for implementing the Washington Federal program.

The parts of the permanent program regulations that must be included in a Federal program are listed in the regulations, 30 CFR 736.22(b). They include general requirements and definitions (Parts 700 and 701), the exemption for coal extraction incident to government-financed highway or other construction (Part 707), the designation of lands unsuitable for surface mining (Parts 760, 761, 762 and 765), permits and permit applications (Subchapter G), reclamation bonding (Subchapter J), performance standards (Subchapter K), inspection and enforcement (Parts 842, 843 and 845), and blaster training and certification (Subchapter M). In addition, the provisions in the permanent regulations on protection of employees (Subchapter P) and restrictions on financial interests (Part 706) are applicable to Federal employees who, in the instance of a Federal program, are directly enforcing the Act.

The national permanent program regulations in 30 CFR Chapter VII establish the minimum standards for the regulatory programs in each State and the procedures for developing, promulgating, and implementing the programs. The rules for the national permanent program are found in 30 CFR Parts 700–707 and 730–865. Part 705 was published October 20, 1977 (42 FR 56064). Parts 795 and 865 (originally Part 830) were published December 13, 1977 (42 FR 62639). The other permanent program regulations were published at 44 FR 15323–15393 (March 13, 1979). Subchapter M was published on December 12, 1980 (45 FR 82098). Corrections were published at 44 FR 15485 (March 14, 1979), 44 FR 53507–53509 (September 14, 1979), 44 FR 66195 (November 19, 1979), 45 FR 26001 (April 16, 1980), 45 FR 37818 (June 5, 1980), and 45 FR 47424 (July 15, 1980). Amendments to the rules have been published at 44 FR 60969 (October 22, 1979), as corrected at 44 FR 75143 (December 19, 1979), at 44 FR 77440–77447 (December 31, 1979), 45 FR 2828–2829 (January 11, 1980), 45 FR 25998–26001 (April 16, 1980), 45 FR 33926–33927 (May 20, 1980), 45 FR 39446–39447 (June 10, 1980), 45 FR 52306–52324 (August 6, 1980), 45 FR 52375 (August 7, 1980), 45 FR 58780–58786 (September 4, 1980), and 45 FR 76932 (November 20, 1980), 46 FR 37232 (July 17, 1981); 46 FR 41702 (August 17, 1981); 46 FR 47720 (September 29, 1981); 46 FR 53376 (October 28, 1981); 46 FR 52287 (December 7, 1981); 47 FR 32942 (July 30, 1982); 47 FR 33481 (August 2, 1982); 47 FR 35620 (August 16, 1982); 47 FR 38486 (August 31, 1982); 47 FR 44942 (October 12, 1982); 47 FR 47212 (October 22, 1982); 47 FR 51316 (November 13, 1982); 48 FR 1166 (January 10, 1983); and 48 FR 2286 (January 18, 1983).

Representatives of industry, two States and several environmental groups challenged the national permanent regulatory program in the U.S. District Court for the District of Columbia. These suits were consolidated and heard in a single lawsuit entitled *In re: Permanent Surface Mining Regulation Litigation*, Civil Action No. 79–1144, U.S.D.C., D.C. In response to the arguments raised in the challenges, the Secretary voluntarily suspended several permanent program regulations. These suspensions were announced in the **Federal Register** on November 27, 1979 (44 FR 67942), December 31, 1979 (44 FR 77447–77454), January 30, 1980 (45 FR 6913) and August 4, 1980 (45 FR 51547–51550). In two opinions, the court remanded certain other regulations which had been challenged in the lawsuit. These opinions were filed on February 26, 1980, and May 16, 1980. Many of the issues decided by the District Court have been appealed to the Court of Appeals for the District of Columbia Circuit. *In re: Permanent Surface Mining Regulation Litigation*, Nos. 80–1810, 80–1811, 80–1812, 80–1813 and 80–1823. The appeals are pending as this notice is being prepared.

Explanation of Cross-Referencing. To take advantage of the results which revision of the permanent program regulations will achieve, OSM has developed and promulgated this Federal program in the following manner. Rather than repeating the full text of the permanent regulations, there is instead only a cross-reference to the appropriate permanent program regulations. For example, criteria for the designation of lands unsuitable for surface coal mining are provided by making the criteria in 30 CFR Part 762 applicable to this program (see Section 947.762).

One effect of the cross-referencing to the permanent program regulations is that as the permanent program regulations are revised, this Federal program will be similarly revised. Over time, all of the permanent program regulations will undergo review and many will be revised. No separate rulemaking will be undertaken or necessary for revision of this program, however, unless OSM determines that special conditions are present which necessitate different rules for Washington. In any case, the promulgation of this cross-referencing Federal program would not result in any modification of the substance of OSM's permanent program rules.

In the general notice of intent to promulgate Federal programs of May 16, 1980 (45 FR 32228), it was stated that each Federal program would be specific to the particular State and would implement the permanent program procedures and environmental protection provisions of the Act (45 FR at 32229). However, except for changes to incorporate more stringent State environmental protection standards and to list other State laws requiring permits for which coordination is required, OSM believes that few changes are needed in the permanent program regulations for any particular State for which a Federal program must be promulgated.

A notice concerning both the proposed and final permanent program rules appeared on July 13, 1982, in connection with the availability of a draft supplemental environmental impact statement on the permanent program rules. 47 FR 30266–67. It advised the public that any change in a permanent program rule would also result in a corresponding change in this program, absent special conditions. The statement invited comments on necessary modifications to accommodate unique or unusual aspects of surface mining in any Federal program State so that the Federal program for such a State could be tailored as necessary.

Several provisions of the permanent program regulations are already applicable to all Federal programs because they were fully promulgated for application to all regulatory programs and, therefore, need not be cross-referenced here. Those provisions are 30 CFR Chapter VII, Subchapter P—Protection of Employees; Part 706—Restrictions on Financial Interest of Federal Employees; and Part 769—Petition Process for Designation of Federal Lands Unsuitable for Surface Coal Mining. 30 CFR Part 764—Designating Lands Unsuitable for Surface Coal Mining has been included in this program by a cross-reference under § 947.764, to provide a petition process on non-Federal lands in Washington. Also, Part 760 has not been included because its provisions do not provide any substantive requirements.

Instead, they impose requirements on the Secretary and his delegates which need not be incorporated in each Federal program. Part 765 was also not included because it is directly applicable to a Federal program State without being incorporated or cross-referenced.

With regard to bonding regulations (Subchapter J), only Part 800 is cross-referenced because OSM has proposed to revise Subchapter J to include just one part, Part 800. 46 FR 45082 (September 9, 1981). Should the Washington Federal program become effective before the final rule notice revising the bonding regulations appears, and the bonding rules not be revised by the time a permit under this Federal program is to be issued, as a condition of issuance of that permit the applicant will be required to abide by the then-effective bonding rules until such rules are superseded.

II. Washington Federal Program

A. Background

Under Sections 501–503 of the Act and 30 CFR Part 731, States were provided the opportunity to submit programs for approval by the Secretary and thus achieve primacy for regulating coal exploration and surface coal mining and reclamation operations on non-Federal and non-Indian lands. Most States in which surface coal mining is now occurring submitted programs, and most of those States have now been granted primary regulatory responsibility, either fully or conditionally. Because the State of Washington formally notified OSM in 1979 that it would not submit a program to obtain primary regulatory responsibility and because there is at least one active surface coal mining operation in the State, the Secretary is required to promulgate a Federal program for Washington.

On May 16, 1980, a notice of intent to promulgate Federal programs appeared in the **Federal Register**. 45 FR 32329. That notice announced that a Federal program would be developed for Washington. Later, the State indicated a possible change in its position and OSM provided a grant to the State to develop a program. In addition, the State indicated it would be unable to complete and submit an approvable program in the near future. Also in 1980, OSM received a notice of intent to sue from a number of environmental organizations which indicated their intention to commence litigation for the failure of OSM to promulgate Federal programs for a number of States, including Washington. In 1982, after extensive negotiations with the environmental organizations, OSM agreed to submit a final rulemaking notice to the Office of the Federal Register by February 15, 1983, for publication.

OSM published a proposed Federal program for Washington in the **Federal Register** on June 21, 1982. 47 FR 26794–26803. The notice announced a 45-day comment period ending on August 2, 1982 and a public hearing for July 24, 1982, in Olympia, Washington.

Shortly after publication of the proposed program, OSM received a request to postpone the hearing because of the number of pending changes to the permanent program rules on which the proposed Washington Federal program was based. Since comment on the proposed Washington Federal program was inextricably bound up with comment on the proposed revisions to the permanent program rules, OSM agreed to postpone the hearing date to September 17, 1982, and to extend the comment period to October 20, 1982. These extensions went beyond the comment period for the revisions to the permanent program rules. *See* notices of July 13, 1982, 47 FR 30267, and September 7, 1982, 47 FR 39201. Because of a further request for delay in the public hearing, the record for the hearing held on September 17th was held open for additional testimony on October 14, 1982.

Many commenters, as indicated below under "Disposition of Comments," requested that OSM further postpone promulgation of the Washington Federal program until after promulgation of OSM's revisions of the permanent program rules on which this Federal program is based. OSM recognizes the difficulty created by the contemporaneous promulgation of this program and the revisions of the permanent program rules, and the complications that poses in light of the use of cross-referencing, as explained above, for the substance of the program rules. Nevertheless, OSM believes it cannot delay promulgation of this program, because mining is being conducted in Washington, because Section 504(a) of the Act sets a deadline by which Federal programs must be promulgated, and because of the potential for litigation if delay continues. However, OSM has chosen to publish the program as an interim final rule in order to facilitate any required modification resulting from the imminent promulgation of revisions to the permanent program rules on which it is based.

As announced above, there will be a public comment period of 50 days from the date of publication of this interim final rule. The revisions to the permanent program rules are expected to have been published by the end of the post-publication comment period. This post-publication comment period will allow commenters to review the Washington Federal program as it is affected by OSM's imminent revisions of the permanent program rules. Should readers believe that the changes in those rules make modifications to the Washington Federal program necessary or desirable, those suggested modifications should be brought to OSM's attention during the post-publication comment period on this program. OSM will consider any comments submitted during this period, and by further rulemaking notice, either modify or affirm the Washington Federal program as promulgated today.

Section 504(a) of the Act and 30 CFR 736.22(a)(1) require that each Federal program consider the nature of the State's terrain, climate, biological, chemical, geological, hydrological, agronomic, and other relevant physical conditions. OSM has reviewed Washington State statutes and regulations to determine if there are provisions which might be relevant to surface coal mining and reclamation operations. Numerous parts of the Revised Code of Washington (RCW) and Washington Administrative Code (WAC) were compared with the Federal permanent program regulations in 30 CFR Subchapters A, F, G, J, K, L, and M. They are identified in the proposed program rulemaking notice, 47 FR at 26795 (June 21, 1982). The more stringent requirements, whether State or Federal, have been adopted for this program in the following manner. Section 505(b) of the Act provides that State statutes and regulations which provide for more stringent land use and environmental controls of surface coal mining and reclamation operations than do the provisions of the Act and the Secretary's regulations shall not be construed as inconsistent with the Act or those regulations. Section 947.700(e) of this program lists Washington State statutes which set different controls and for which compliance is required in a surface coal mining and reclamation operation. Even though OSM has made a comprehensive search of Washington law, the list in § 947.700(e) may not be complete. OSM does not intend an omission to mean that a permittee does not have to meet those obligations under State law. To the contrary, any relevant State law not superseded by these rules must be complied with by permittees and permit applicants.

Determining whether State statutes are more stringent than the Federal regulations will often require a case-by-case analysis, the result of which cannot be predetermined. Citation in the program of State statutes with which compliance is required is not meant as an adoption of those State statutes and regulations for purposes of enforcement by OSM. Citation of such statutes is instead intended as an aid to persons who must comply with both the Federal program requirements and State statutes.

The Washington statute and regulations cited at § 947.700(f) as interfering with the achievement of the purposes of the Act are superseded by the Federal program. Compliance with them by surface coal mine operators is not required for operations covered by this program.

OSM has primarily cited statutes, and has minimized citations to the Washington Administration Code, in the various parts of the Washington Federal program. This is because State regulations can readily change and OSM's incorporation of these changes would necessarily lag behind them. However, if an operator must comply with a State statute, he or she must also comply with the State regulations which implement that statute.

In accordance with 30 CFR 736.23, OSM has identified only the Washington Surface Mining Act, RCW 78.44, insofar as it regulates coal, and the complementary regulations, WAC 332-18, as interfering with the achievement of the purposes of the Act and this Federal program. OSM is, therefore, superseding and preempting them to the extent they relate to surface coal mining and reclamation subject to regulation under the Act. Permittees will be required to conduct surface coal mining activities in compliance with all other existing State statutes and regulations unless they obtain waivers pursuant to § 947.700(g), as described immediately below.

A new subsection (g) has been added to § 947.700 in this final rulemaking notice. It allows OSM to grant a limited variance from the performance standards of the permanent program rules based on a showing by a permit applicant or permittee that such a variance is made necessary by the unique nature of Washington's terrain, climate, biological, chemical, or other relevant physical conditions. Its addition has been prompted by comments, discussed below, which advocated exceptions to the performance standards of the permanent program rules because of particular environmental conditions in Washington, and which pointed out the difficulty of making abstract determinations as to whether a given State requirement was or was not more stringent than the corresponding permanent program requirement.

OSM does not wish to supersede any State law unless it is absolutely necessary and, therefore, proposed making such determinations on a case-by-case basis. This was because if a determination were made that a particular State statute or regulation established less environmental protection, compliance with both it and a corresponding Federal regulatory standard may prove impossible such that the State's requirements would have had to be superseded as interfering with accomplishment of the Federal program. Establishment of a variance procedure obviates the necessity of making stringency determinations in the abstract and preserves State law to the greatest extent possible. The operation of this variance provision is described more fully under "Detailed Discussion," below.

Section 504(h) of the Act requires that each Federal program include a process for coordinating the review and issuance of surface mining permits with other Federal or State permits applicable to the proposed operation. OSM will coordinate permit requirements with State agencies to the degree practicable to avoid unnecessary duplication. The Washington Department of Natural Resources (DNR) has a statutory requirement under the State Surface Mining Act (RCW 78.44) to review mine plans and issue permits for coal mining. OSM has concluded that this requirement interferes with the achievement of the purposes of the Federal program. Therefore, after the effective date of this Federal program, an operator need not obtain a permit to mine coal from the DNR under the State Surface Mining Act. However, OSM will inform the DNR of actions taken with respect to permit applications and enforcement, and the permit application and related documents will be filed at the Department of Natural Resources, the Department of Ecology, and the appropriate county recorder's office.

The Federal statutes for which compliance must be coordinated in the issuance of a surface mining permit are set out in 30 CFR 736.22(c). Federal and State statutes for which a permit is required are identified in § 947.770(b) and (c). The Washington Federal program provides for coordination with these permit review and issuance procedures by stipulating that no person may conduct coal exploration of surface coal mining operations without first obtaining all other necessary permits from the State (Section 947.700(d)), and by providing for extensive public notice and comment. References to Washington's "master application" have been deleted from this interim final program because Washington is not now using that procedure. However, OSM and the Washington State Department of Ecology will cooperate with the "lead agency," WAC 197-10-040, identified under the State Environmental Policy Act (SEPA) if the "master application" mechanism should be implemented by the State in the future. *See* Comment 33 below.

B. Content and Organization of the Program

The content and organization of the Federal program for Washington follows the permanent program regulations. But, as discussed above, instead of the full text appearing, each section includes only a reference to the pertinent permanent program regulation part. Sections 947.700(e) and (f) set out more stringent and inconsistent State statutes, respectively. A separate paragraph has been added under any section where there are deviations from the Federal permanent program regulation for the Washington Federal program. These paragraphs will generally be found in a subsection (b).

The content and organization of the Washington Federal program are based on the following provisions of the Federal permanent program regulations, 30 CFR Chapter VII:

Subchapter A—General
Subchapter F—Areas Unsuitable for Mining
Subchapter G—Surface Coal Mining and Reclamation Operations Permits and Coal Exploration Systems Under Regulatory Programs
Subchapter J—Bond and Insurance Requirements for Bonding of Surface Coal Mining and Reclamation Operations
Subchapter K—Permanent Program Performance Standards
Subchapter L—Permanent Program Inspection and Enforcement Procedures
Subchapter M—Training Program for Blasters and Members of Blasting Crews, and Certification Programs for Blasters

Technical literature cited by OSM in the preambles to the permanent regulatory program (44 FR 14901-15309, March 13, 1979), and to subsequent rulemaking notices revising those rules (cited above), was relied upon in developing the Washington Federal program. The reader is referred to those preambles for a discussion of the basis and purpose of the permanent program rules referenced in the Washington program without substantive change.

The numbering system of the permanent program regulations has been incorporated into the numbering system for the Washington Federal program. Subchapter T in 30 CFR Chapter VII has been established to include regulatory programs by State. Each State is assigned a part number; the Federal program for Washington is assigned Part 947. Program elements have been categorized under headings similar to the subchapter titles.

C. Detailed Discussion

General. Section 947.700 contains six subsections: The first four, subsections 947.700 (a), (b), (c), and (d), contain general statements on the scope and applicability of the program. Section 947.700(e) lists Washington State laws which have been identified as having provisions which regulate surface coal mining operations and are more stringent than the Act and the Secretary's regulations. A new clause has been added to the second sentence of the subsection to provide for an instance when a provision of one of the listed State laws establishes less environmental protection than does the Federal program, and the operator is placed in a situation of complying with one and violating the other. Section 504(g) of the Act authorizes a preemption of State laws in such an instance and a provision has been added to § 947.700(f) to authorize preemption of a particular State law where necessary in a particular case.

Section 947.700(f) identifies the Washington Surface Mining Act and regulations promulgated pursuant to it as interfering with the achievement of the purposes of the Act and Federal regulations, and, therefore, as being preempted and superseded by this Federal program insofar as they pertain to surface coal mining. A new sentence has been added to the paragraph, as discussed below under Performance Standards, to allow preemption of other State laws in an instance where the Federal Act or regulations set more stringent standards than an unpreempted State law or regulation. Such a preemption would be limited to the particular operation for which it is made.

Section 947.700(g) provides a mechanism for obtaining a variance from the performance standards of the cross-referenced permanent program rules by a showing that such a variance is necessary due to the unique characteristics of Washington's environment. The variance provided for allows for a deviation from the performance standards on a case-by-case basis. Under Section 504(a) of the Act, in promulgating a Federal program for a State, the Secretary is required to take into consideration the nature of its terrain, climate, biological, chemical and other relevant physical conditions. The Secretary has fulfilled this mandate by reviewing Washington laws on the assumption that those laws accurately reflect varying environmental conditions found in the State.

OSM also recognizes that there may be particular environmental conditions in a State which are not reflected in State laws, and which are of such a nature as to require accommodation in a Federal program. Rather than establish special categories of mining for a State for which a Federal program is being promulgated, OSM has chosen to provide the option of allowing for a variance on a case-by-case basis under § 947.700(g). The permit applicant has the burden of requesting the variance and of demonstrating that such variance is necessary based on the unique nature of the particular environmental conditions in Washington. Such a variance may be granted only with respect to particular performance standards in §§ 947.815–947.828 as identified by the permittee.

The option of establishing a standard other than that of necessity, such as unreasonableness, impracticability or impossibility, was considered and rejected. OSM believes that necessity is a sufficiently stringent test to use for granting exceptions on the narrow basis of Washington's unique environmental conditions.

Sections 947.701 through 947.707 establish the same provisions, where applicable, as 30 CFR Chapter VII, Subchapter A, General. Section 947.701(a) contains all applicable general requirements, including the definitions in 30 CFR 700.5 and 701.5. A definition of "Forestry (forest land)" has been included in paragraph (b) of § 947.701. It is taken from the Revised Code of Washington (RCW), although it has a counterpart in the Washington Administrative Code, and is included here in order to provide consistency since the State statutes are cited in other sections of this program.

The Washington Forest Practices Rules and Regulations at WAC 222–16–010 define the term "forest land" as including "* * * all land which is capable of supporting a merchantable stand of timber and is not being actively used in a manner (for a use) which is incompatible with timber growing." (RCW 76.09.020(6); WAC 222.16.010(17).) Such lands are included in the definition of "forest land" in this Federal program. The term "forest land" appears in parentheses next to the present term "foresting" for increased clarity and consistency. OSM considers the Washington definition more stringent because foresting is not more extensive in scope.

The proposed rulemaking notice would have included certain definitions in order for the Federal program to utilize Washington's "master application" procedures. However, because commenters pointed out that Washington is not now using the "master application" program, those definitions have been deleted from the Washington Federal program as promulgated today.

The proposed rulemaking notice also included a definition for "noxious plants" taken from the Washington Revised Code. That change is now considered unnecessary, as the definition in 30 CFR 701.5 adopts the State definition without citation.

As discussed below under Performance Standards, no modification in the definition of "alluvial valley floor" as contained in § 701.5 is being made for Washington. Instead, operators in the area west of the crest of the Cascade Mountains will have to show in their permit applications that the area of planned mining is not arid or semi-arid.

Section 947.701(c) requires that OSM make records available locally to the public at the county courthouse. This requirement also applies to §§ 947.770(b) and 947.782(b).

Area Unsuitable for Mining. Sections 947.761 through 947.764 establish the same provisions, where applicable, as 30 CFR Chapter VII Subchapter F, Areas Unsuitable for Mining. The effective date for implementing the petition process for designating lands unsuitable for surface coal mining or terminating designations is one year after Part 947 is effective, in accordance with the requirements of Section 504(a) of the Act and 30 CFR 765.13. No separate section for Federal lands is included because 30 CFR Part 769 is directly applicable and need not be made a part of a Federal program.

A paragraph has been added in § 947.764 to ensure that the Washington Department of Natural Resources and the Department of Ecology are notified of areas designated unsuitable or for which designations have been requested or terminated. This notification will be provided as a courtesy since those agencies regulate aspects of surface coal mining operations pursuant to their responsibilities under the Washington statutes listed in § 947.770.

Permits and Coal Exploration Approvals. Sections 947.770 through

947.705 establish the same provisions, where applicable, as 30 CFR Chapter VII, Subchapter G, Surface Coal Mining and Reclamation Operations Permits and Coal Exploration Procedures System. The following changes have been made:

Section 974.770 lists Washington State statutes which could affect permit issuance. The procedures for coordinating Federal, State and local permit applications to avoid unnecessary duplication are provided in this section.

The State's optional procedures (RCW 43.31 and RCW 90.62) for assisting those who must obtain a number of permits (through which the State coordinates administrative decision-making procedures on the several permits) has been deleted from the final rule because Washington is not now implementing those procedures. The proposed rule in § 947.770(b) would have provided for coordination through this "master application" procedure. That paragraph has been removed from the final rule and the remaining paragraphs of § 947.770 have been relettered accordingly.

Section 947.770(b) lists Federal laws and corresponding or relevant State laws that need to be coordinated by OSM in order to prevent or minimize duplication of effort with Washington. Section 947.770(c) lists State and local permits with which the Secretary will endeavor to coordinate when issuing a surface mining permit under this Federal program.

Sections 947.780 (for the surface mining reclamation and operations plan) and 947.784 (for the underground reclamation and operations plan) require an applicant to demonstrate compliance with the Washington Clean Air Act and the Washington Water Pollution Control Act. In addition, an applicant must also obtain approval from the local air pollution control authority if production will exceed 1 million tons per year. Approval is required under this program in order to ensure compliance with State air pollution control requirements (*See* 30 CFR 780.15 and 784.26).

The Washington Surface Mining Act regulates coal exploration which affects one acre in eight acres. The Federal Act does not apply to exploration which does not substantially disturb the natural land surface. Section 512 of the Act. This Federal program preempts the State statute only to the extent it interferes with the Federal Act. There may be an instance where exploration affecting one in eight acres does not substantially disturb the land. In that case, compliance with the State Surface Mining Act would be necessary.

Although a permit fee is required under § 947.771(b), no fee has been set in 30 CFR 736.25. Therefore, payment of a permit fee will be deferred until final promulgation of a fee schedule.

OSM is currently developing permit application forms. In the meantime, OSM should be contacted in order to determine the format for an application.

Bonding. Section 947.800 establishes the same provisions, where applicable, as 30 CFR Chapter VII, Subchapter J, Bond and Insurance Requirements for Surface Coal Mining and Reclamation Operations.

Only Part 800 is cross-referenced because OSM has proposed to revise Subchapter J to include just one part, Part 800. 46 FR 45082 (September 9, 1981). Should this program become effective before a final rule notice revising the bonding regulations appears, and the bonding rules not be revised by the time a permit under this Federal program is to be issued, as a condition of issuance of that permit, the applicant will be required to abide by the then-effective bonding rules until such rules are superseded.

There are currently no self-bonding rules in effect because most have been suspended (46 FR 59934 (December 7, 1981)) and subsequently reproposed in a separate rulemaking, 47 FR 36570 (August 20, 1982). Consequently, there will be no self-bonding available under the Washington Federal program until the revised self-bonding rules are made effective.

Performance Standards. Sections 947.815 through 947.828 establish the same provisions, where applicable, as 30 CFR Chapter VII, Subchapter K, Permanent Program Performance Standards. The following changes have been made:

Section 947.816(b) lists State laws with which compliance generally will be required notwithstanding the preemption of the State's Surface Mining Act. Pursuant to the Washington State Surface Mining Act, RCW 78.44.090(10), all surface mining that will disturb streams must comply with the requirements of the State fisheries law (Title 75 RCW), and every application for an operating permit for surface mining operations must have a reclamation plan that is approved by the Department of Fisheries with regard to operations in streams. The Hydraulic Project Approval Law, RCW 75.20.100, requires that any person desiring to divert, obstruct, or change the natural flow or bed of any river or stream must submit full plans and specifications of the proposed construction or work to the Department of Fisheries and Department of Game and obtain approval from the Directors of the Departments before commencing work. The Shoreline Management Act, RCW 90.58, concerns development of Washington's shorelines. The section also lists other State statutes with which compliance is necessary: The Forest Practices Act, the Water Pollution Control Act, the Minimum Water Flows and Levels Act, and the Pesticide Control Act. Compliance with all of these State statutes will be required except where OSM has provided otherwise.

When the unpreempted State statute or regulation establishes a less stringent standard than does the Federal program, the operator may be in a position of not being able to comply with both State and Federal provisions. Rather than place an operator in such an untenable position, OSM will make a determination in that instance that compliance with the State law or regulation, as provided by Section 504(g), interferes with the purposes of the Federal program. Thus, the State statute or regulation will be preempted in that instance so that compliance with a particular law could not be required by the State. In order to effectuate the *ad hoc* preemption, OSM will publish a notice in the Federal Register identifying the particular State law or regulation which is being preempted in the instance of a particular surface mining operation. Necessary changes have been made in §§ 947.700(e) and (f), 947.815, 947.816, 947.817, 947.818, 947.819, 947.822, 947.823, 947.824, 947.826, 947.827, and 947.828 to allow this preemption.

Section 947.817(b) lists for underground mining the same State laws with which compliance is required under § 947.816(b) for surface mining. One additional statute, the Washington Water Code (RCW 90.03), has been listed. In some instances, these statutes and their implementing regulations establish more stringent standards than those found in Part 817 of the permanent program regulations.

Determinations of stringency, however, will be made on a case-by-case basis.

No additions have been made to the permanent program regulations on special performance standards, 30 CFR Parts 818 through 829.

The proposed rule notice did not include a cross-reference to 30 CFR Part 822 on alluvial valley floors (AVF). However, there is evidence that the Cle Elum coal field, which lies east of the Cascade Mountain crest, may be in a semi-arid area, so a § 947.822 on AVF's has been included in the final rule

notice. Therefore, an operator seeking a variance under Section 947.700(g) will have to show in the permit application that the area of mining is not located in an arid or semi-arid area, as defined in 30 CFR 701.5. OSH could then either: (1) Make a determination that the AVF requirements do not apply, if the area is not arid or semi-arid, or (2) grant a waiver under § 947.700(g), so that compliance is not required.

Inspection and Enforcement Procedures. Sections 947.842, 947.843, and 947.845 establish the same provisions as 30 CFR Chapter VII, Subchapter L, Permanent Program Inspection and Enforcement Procedures. Two separate paragraphs have been added to §§ 947.842 and 947.843 to authorize the Secretary to furnish copies of OSM enforcement actions to the Washington Department of Natural Resources, the Department of Ecology, and, if there is a planning agency in the county government where the surface coal mining and reclamation operation is located, to that agency.

Blaster Training and Certification. A cross-reference to 30 CFR Part 850 was omitted from the proposed rule by oversight. It is included in the final rule as § 947.850.

D. Discussion and Disposition of Comments

OSM proposed a Federal program for Washington on June 21, 1982 (47 FR 26794). In the preamble to the proposed program OSM invited comments from all interested persons. Public hearings were held on September 17 and October 14, 1982, in Olympia, Washington. The public comment period ended on October 20, 1982. Relevant comments received are summarized below.

Many comments dealt with procedural matters such as the possibility of the postponement of the Federal program pending revision of the permanent program rules. These comments are discussed in the next part of this rulemaking notice, entitled "Procedural Comments." Comments on the substantive provisions of the program and on the permanent program rules, as they apply to Washington, are then discussed.

Many comments, especially the numerous comments submitted by a large operator in the State, Washington Irrigation & Development Company (WIDCO), addressed changes in the permanent program rules generally or changes in the permanent program rules as they affect Washington. These comments are responded to here only insofar as they concern some aspect of the Washington Federal program. Where the comment instead applied to the permanent program rules now being revised, it has been considered in that rulemaking if it was submitted for consideration for those rules. For example, comments of representatives of industry in Washington on OSM's proposed revisions to the coal processing waste rules, 30 CFR § 816.81 *et seq.* and 817.81 *et seq.*, 47 FR 26598 (June 18, 1982), did not raise issues peculiar to Washington, and were therefore considered under that rulemaking rather than here.

Procedural Comments. 1. One commenter suggested that, because both the final Washington Federal program and the final revised permanent regulations will be published at essentially the same time, the affected operators should be given a grace period before having to meet the new requirements.

OSM does not agree that a grace period is allowable or necessary. The Washington Federal program is being published as an interim final rule which will not become effective until sixty days after publication, during which time OSM will accept comments on the Washington program based on the changes in the permanent program rules. Any such comments will be considered and the Washington Federal program rules changed if necessary. During this period, however, coal operators in Washington will continue to operate under the interim program rules, as they have in the past.

2. One commenter expressed reservations about the desirability and usefulness of the cross-referencing technique used in the Washington Federal program. The commenter believed that use of the cross-referencing approach would prevent OSM from adequately tailoring the program to Washington's unique circumstances.

OSM does not agree that cross-referencing inhibits the Director's ability to tailor the Washington program to a State's circumstances. Additionally, the variance procedure of § 947.700(g) further ensures that OSM will be able to respond on a case-by-case basis to any aspect of surface coal mining in Washington which is not adequately addressed by the program as promulgated today.

3. Thirteen commenters stated that OSM was mandated to coordinate with State and local governments on a wide range of administrative processes and matters, particularly permitting the lands unsuitable designation process. The commenters requested that OSM develop a formal coordinating procedure to minimize any duplicative effort.

OSM has not accepted this comment. OSM agrees that coordinating with State and local jurisdictions is necessary and mandated. The Director believes, however, that OSM can ensure the necessary coordination under the Washington Federal program promulgated today.

Section 947.786 of this program makes applicable 30 CFR Part 786, which provides for extensive public (including governmental entities) involvement in the permitting process. This involvement is encouraged through: (1) The requirement that the applicant advertise each permit application in the area of the proposed mining, (2) through the public hearing and comment process, and (3) through OSM's availability for informal conferences on permit applications.

Similarly, the review of petitions to designate lands unsuitable for surface coal mining includes comprehensive public notice, comment and hearing requirements. For example, 30 CFR 764.15(b)(1) (made applicable to the Washington Federal program under § 947.764) requires OSM to circulate copies of any petition to, and request relevant information from, "* * * other interested governmental agencies, the petitioner, intervenors, persons with an ownership interest of record in the property, and other persons known to the regulatory authority to have an interest in the property."

The Director believes that these and other such provisions throughout OSM's regulations will ensure full and continuing coordination of the kind the commenters requested. Given the comprehensiveness of the public participation requirements already in OSM's regulations, however, the Director believes that the additional "formal coordination procedure" suggested by the commenters would be superfluous.

4. Three commenters requested that OSM clarify whether it plans to incorporate more stringent State laws into this program or simply to preserve them. Another commenter believed that the policy of incorporating State laws should be eliminated.

Section 947.700(e) identifies and preserves Washington statutes which may be more stringent than the Federal Act and regulations. Section 505(b) of the Act requires only that the Secretary "set forth" State laws "construed to be inconsistent" with the Act. Because the Director believes it helpful to the public, this program also lists those Washington laws which have provisions that may be more stringent than the Act and the permanent program regulations. The Act

does not require, however, that such laws be "incorporated" into Federal programs.

The Director recognizes that 30 CFR 736.23(b) and the preamble to the proposed Washington Federal program stated that such laws would be "incorporated" into the program. As a matter of policy, however, OSM has chosen to minimize its intrusion into State affairs. Because this program promulgation is a separate rulemaking, OSM intends not to follow the general directive of § 736.23(b). Therefore, more stringent Washington laws are being identified and preserved, but not incorporated in this Federal program. Further comment on this issue is solicited and will be considered before OSM takes additional action in the Washington Federal program.

5. Two commenters believed that OSM should delay promulgation of the Federal program until OSM has met its statutory and regulatory requirements to tailor this program to Washington's unique conditions.

OSM believes the program promulgated today meets all applicable statutory and regulatory requirements as described above in this preamble and that it adequately recognizes and accommodates the unique aspects of Washington's relevant circumstances. Further, as explained above under "Washington Federal program," the Director believes that the Act does not allow OSM to delay promulgation of this program.

6. Two commenters suggested that OSM had not completely responded, as mandated, to the public comments that were being made on this program.

The commenters may have misunderstood the nature of the public notice and comment process. The Administrative Procedure Act, 5 U.S.C. § 552, does not provide for response to public comments during the comment period. OSM is, of course, required to consider and repsond to public comments as part of this final rulemaking, and is doing so here today.

7. One commenter suggested that an "implementation task force" be established to make recommendations on difficult implementation problems.

OSM disagrees that such an approach is needed or useful. Because there are only a few active and potential operators in Washington, OSM believes that sufficient contact will be maintained with the State during the permitting and enforcement phases, both on formal and informal bases, to work out any difficult implementation problems.

8. One commenter suggested that this is an inappropriate time to comment on the Washington Federal program because OSM is in the process of revising the permanent program regulations. He and two other commenters expressed their confusion over whether they should comment on OSM's current regulations or the proposed revisions to those regulations.

OSM agrees that more time would be helpful for some reviewers, but believes also that the Act and circumstances compel final promulgation of the Washington Federal program now. The publication of this program as an interim final rule, however, is intended to allow OSM to meet its statutory mandate while enabling reviewers more time for their analyses.

9. A number of commenters expressed concern over the general issue of stringency. There are several issues underlying this general issue.

a. Two commenters stated that stringency determinations must be made on a case-by-case analysis between State statutes and the Federal regulations. Such an analysis is currently being made by the State. Until this is completed, these commenters argued, the substance of the Federal regulatory program will not be known. One of the commenters believes that OSM should consider the results of this study in any further refinement of the Federal program.

OSM agrees that the results of the State's case-by-case study should be reflected in the Washington Federal program. As stated above, however, the Act and circumstances compel promulgation of the Washington Federal program now. The Director is publishing this rule as interim final in part to facilitate future modification in light of the analysis now being conducted by the State.

b. Two commenters suggested that comparison of State and Federal statutes and regulations as written does not accurately measure relative stringency. The commenters agree that OSM's design standards are, in fact, more stringent than State design standards. The State, however, requires that the success of projects be judged on performance standards. Because those State performance standards are based on unique conditions found in particular areas of the State, the ultimate result of the State requirement, in the opinion of the commenters, is that the State regulations are more stringent than the Federal standards. Thus, the commenters requested that OSM perform stringency tests of State statutes on a case-by-case basis, in view of specific conditions in various geographic areas of Washington.

As stated in the response to Comment 9a, above, OSM agrees that the results of the State's case-by-case study should be reflected in the Washington Federal program. As stated above, however, the Act and circumstances compel promulgation of the Washington Federal program now. The Director is publishing this rule as interim final in part to facilitate future modification in light of the analysis now being conducted by the State.

It should be noted that OSM's proposed revisions to the permanent program regulations are aimed, in large measure, at eliminating rigid design standards and enhancing operators' flexibility to choose the most effective method of meeting the required performance standards. When the revisions of the permanent program are made final, OSM will accept comments on the Washington Federal program based on those revisions. In addition, the Washington program as promulgated today includes a variance procedure at 947.700(g) under which operators may seek variances based upon unique circumstances of the sort alluded to by the commenters.

c. Another commenter requested that OSM implement a "special mining section" to deal with unique regional conditions and cited the provisions in OSM's regulations for Wyoming and Pennsylvania as precedents.

OSM disagrees. The cited precedents rest on explicit provisions in Act (Sections 527 and 529); there are no such provisions for Washington. The basis for special regulations covering particular conditions in a State (e.g., 30 CFR Parts 830 and 825) is and must be special provisions in the Act (Sections 527 and 529). Furthermore, OSM believes that adequate accommodations for unique conditions in Washington can be made through the variance provisions in the Federal program promulgated today.

d. In a comment related to stringency, one commenter suggested that OSM require each permit applicant to submit satisfactory evidence that the proposed operation would not be contrary to local land use ordinances and regulations under the State's regulations (WAC 332–18–015).

OSM believes that the permit coordination procedure established by § 947.770 will ensure that interested and affected State and local entities have the opportunity to apprise OSM of any actual or potential conflicts between the proposed operation and their land use ordinances. (*See* also the discussion under Comment 10, below.)

10. The State asked for further explanation of the effect of the program

on its comprehensive plan, its shoreline management program, a proposed development guide and is zoning authority.

Those State laws identified in § 947.700(f) are superseded by this program. The laws and plans about which the State inquired, however, are not identified in § 947.700(f). These could be superseded only on an individual basis and after consultation with the State.

This Federal program does not supersede any State or local planning or land use control measures, except in one instance: Should OSM, in response to a petition, designate lands unsuitable for surface coal mining pursuant to §§ 947.762 and 947.764, that designation would override any contrary State or local land use decision and the State or local governmental jurisdiction could not then change its plans or zoning to permit surface coal mining. On the other hand, issuance of a surface mining permit by OSM to a prospective operator will not relieve that person from having to comply with otherwise applicable State laws. If a surface mining permit were issued for lands which were zoned for a use which does not include mining, for example, the permittee would have to obtain a variance before commencing mining.

11. An industry representative commented that it was preferable that regulation be by the State of Washington rather than by OSM. The commenter observed that his company's experience with mining operations in other States had convinced him that State agencies were better and more responsive regulators.

OSM agrees that it would be preferable to have the State of Washington regulate surface coal mining. Congress also indicated the same preference in the Act. However, Washington has not yet sought or obtained primacy under the Act. OSM will continue to encourage and assist Washington in every way to develop an approvable State program of its own, but, in the absence of an approved State program, Section 504(a) of the Act requires the Secretary to promulgate a Federal program where surface coal mining is taking place.

12. Two commenters pointed out that the proposed rulemaking notice failed to indicate an effective date for the program. They stated that this failure hampers their planning efforts in preparing permit applications.

The delayed effective date of the Washington Federal program is intended in part to ensure that prospective permit appicants have adequate advance notice of the program's requirements. As explained at Comment 13, below, OSM believes that this Federal program allows prospective permittees ample planning time.

13. The State asked which permanent program rules would be applicable to the Washington Federal program in light of the coincident promulgation of the Federal program at about the same time as OSM promulgates final rule notices for the permanent program rule revisions.

OSM has decided to delay only the effective date of the Washington program, and not its publication date. The revised permanent program rules will be published shortly, and some may even have been published before this notice. OSM believes that prospective permit applicants will have sufficient notice of the revised permanent program rules in order to incorporate those changed requirements into their permit applications without undue complication. The performance standards that must be adhered to are those which will be applicable at eight months after the effective date of this Federal program. This, combined with the two-month delay in the effective date itself, provide permits applicants fully ten months before having to comply with the performance standards, a period the Director believes to be ample for compliance planning.

14. The operator of a surface mine in the State questioned the basis for the conclusion that promulgation of the program is not a major rulemaking, since compliance with the program will have a major economic impact on the commenter's operation.

The proposed rulemaking notice concluded that promulgation of the Washington Federal program would not be a major rule under the criteria of Executive Order 12291, and the commenter offered no information on which to base a contrary conclusion. Although the program may impose additional costs on the commenter's operation, it does not meet the criteria of E.O. 12291. The relevant criteria are that the rulemaking have an economic impact of $100 million or more per year, cause a major increase in costs for individual industries or geographic regions, or have a significant adverse effect on the ability of an industry to compete with foreign-based enterprises. Although substantial costs may be induced by the program, they do not approach $100 million. Nor does OSM have reason to expect that competition will be adversely affected. To the contrary, the lack of a regulatory program in Wahington equivalent to those applicable in all other coal producing States could give an unfair economic advantage to Washington coal.

15. Related to the request that the final promulgation of the program be delayed, two commenters asked that the comment period be re-opened once the final rule notices for the permanent program rules are published.

OSM agrees that revision of the Washington Federal program may be appropriate in light of pending revisions to the permanent program regulations on which it is based. OSM's decision to publish the Washington Federal program as an interim final rule with a delayed effective date gives the public an additional 50-day comment period within which to address any issues raised by the final revisions to the permanent program rules. The Director may consider an extension or re-opening of the comment period if appropriate in the future.

16. Several commenters urged that the Washington Federal program not be promulgated until final revisions to the permanent program regulations are made. That would afford the public the opportunity to comment on those rules, as they form the basis for the Washington Federal program. Without having the benefit of seeing the final revisions to the permanent program rules, they argued, they could not comment in a fully informed way. This is especially so when the Federal program would supersede a State statute and regulations which were devised to address perceived problems by the State.

OSM recognizes the commenters' concerns. However, promulgation of a Federal program is a statutory duty of the Secretary of the Interior when a State does not submit a regulatory program for approval. Section 504(a) of the Act sets a deadline for Federal program promulgation—a date which has long passed. Therefore, the decision was made to publish an interim final rule with a comment period of 50 days so that interested parties may comment on any changes in the final permanent program rules which they believe require modification for the Washington Federal program.

17. One commenter asked about the applicability of the Washington Federal program to Federal lands in the State. Another commenter (11) suggested that operations on Federal lands should be subject to the same regulations as on private or State-owned lands under the Federal program.

Surface coal mining and reclamation operations on Federal lands are subject to the Federal Lands Program regulations, 30 CFR Subchapter D, which

is based upon the permanent program regulations, as is the Washington Federal program, and which makes this Federal program applicable to Federal lands in Washington.

Definitions. 18. A commenter suggested changing the modified definition of "Forestry (Forest Land)" in the proposed program at § 947.701(c) to make it compatible with the Washington Forest Practices rules from which the changes were taken.

OSM agrees. The final rule definition is renumbered § 947.701(b) removes the parentheses from the phrase "for a use" and adds the disjunctive "or" between it and the preceding phrase, "in a manner."

19. Another commenter suggested modification of the definition of "arid and semi-arid area" in 30 CFR 701.5 to exclude the area in Washington west of the Cascade crest.

OSM has not accepted this comment. Rather than modify the definition, OSM has chosen to allow the operator to make the showing required under 30 CFR 785.19 or to handle the matter under the variance procedure in § 947.700(g).

20. A commenter suggested that the definition of "undeveloped land" should be changed to exclude forestry in light of the proposed changes to the definition of forestry.

OSM rejected this comment. The definition in 30 CFR 701.5 is of "undeveloped rangeland" and applies only for purposes of the alluvial valley floor rules. Exclusion of forest lands from the land use category because of the changes in the term "forestry" would have no effect on the application of the alluvial valley floor rules.

Designation of Lands as Unsuitable for Surface Coal Mining. 21. The State of Washington urged that decisions on petitions to designate lands unsuitable for coal surface mining be made in full consultation with the State and its agencies. King County asked that it have a role in the designation process as well. The State also urged, as did another commenter, that OSM utilize Washington's data base of archeological and historical sites and its listing of endangered plants and animals.

OSM agrees. 30 CFR 764.15(b)(1) of the permanent program rules requires OSM to circulate copies of petitions to designate lands unsuitable to interested governmental agencies within three weeks of a determination that such petition is complete. Under 30 CFR 764.15(c), any person has the right to intervene in a proceeding until three days before a hearing on a petition. Thus, if the State, its agencies and local governments have indicated an interest (as have both the State and King County), they would be apprised of the proceeding within three weeks after a petition is determined to be complete and would have until three days before the hearing to formally intervene in the proceeding. Further, Section 522(a)(5) of the Act requires that determinations of unsuitability be integrated as closely as possible with present and future land use and regulation processes at the Federal, State, and local levels. Accordingly, OSM will consult with the State and appropriate county(ies) in processing any petitions to designate lands unsuitable in Washington.

The Secretary would find the State's data base with respect to archeological resources and endangered species exceedingly helpful in evaluating any petition. However, as is required of each State regulatory program under Section 522(a)(4)(B), each Federal program must develop such a data base pursuant to 30 CFR 764.21.

Coal Exploration. 22. A commenter recommended that OSM notify coal exploration applicants within 15 days of receiving an application if there will be a delay in processing.

OSM accepted this comment and has modified Section 947.776(b) accordingly.

Permitting. 23. Where commenters informed OSM that the Washington Environmental Coordinating Procedures Act (RCW 90.62) and the "Master Application" approach created under it are no longer utilized by the State.

OSM has removed mention of the Master Application and the Environmental Coordinating Procedures Act from the final Washington Federal program.

24. King County asked to receive copies of all permit applications and related documents, and of all enforcement actions involving mines within its jurisdiction.

OSM has accepted this comment. Pursuant to Section 507(e) of the Act, and 30 CFR 786.11(d)(1), which is made applicable through § 947.786 of the Washington Federal program, copies of all permit applications must be filed in the county courthouse of the county where mining is to occur. All documents forming a part of the permit application, such as maps, cross-sections and plans, would have to be filed there as well.

Further, § 947.843(b) of the final rule has been changed to provide that a copy of any enforcement action involving a surface mining operation be filed with the Department of Planning of the appropriate county where there is such an agency.

25. A commenter suggested changes to the proposed revisions in OSM's permitting regulations, 47 FR 27694 (June 25, 1982), although he did not make clear whether these changes were to be made just for the Washington Federal program or for the permanent program rules as well. The commenter urged that proposed 30 CFR 775.13(b) which allows only professional engineers and geologists to certify environmental data, be modified to also allow licensed land surveyors and others with a professional background in the environmental sciences to make such certifications. The commenter also urged that a definition of the term "technical data" be added in order to avoid confusion.

OSM has not accepted these comments for the Washington Federal program. These suggestions are directed at the rules generally and are not of unique concern for Washington. With respect to the certification of data, however, it should be noted that Section 507(b)(14) of the Act allows the preparation of cross-sections, maps and plans by qualified registered professional engineers or professional geologists, or persons under their direction, but provides that only those two professions may "certify" the plans. The Secretary's regulations cannot contravene the Act.

26. One commenter asked whether OSM expects the Washington Department of Natural Resources (DNR) to administer the existing State permit on an interim basis until a Federal permit is approved and what role DNR will have thereafter, especially with regard to forest practices.

OSM will become the regulatory authority on the effective date of this Federal program. The DNR is expected to administer the existing State permit until that time; thereafter, OSM will conduct the inspection and enforcement duties required by the Act and this program. Between the effective date of this Federal program and the issuance of a permanent program permit, an operator must comply with the OSM interim program regulations. Section 506(a) of the Act allows operators who have valid State permits, and who apply to OSM within two months of the effective date of this program, to continue operating until OSM issues or denies Federal permits; compliance with the permanent program performance standards will be required once OSM has issued such permits under this Federal program.

With respect to the Forest Practices Act, the DNR's role after the effective date of this program will be to administer that and other State Acts within its jurisdiction which are more stringent than are the requirements of the Federal Act and this program.

27. One commenter inquired about the mechanisms and procedures OSM has established, as the regulatory authority, to review, process, and approve permit applications.

Subchapter G of the permanent program regulations describes OSM's procedures for processing permit applications. Because OSM has proposed only minor revisions to this process, the present 30 CFR Subchapter G regulations remain an accurate guide to the procedures OSM will follow during a permit review.

28. One commenter asked if there will be an application fee as allowed, but not required, in 30 CFR 736.25.

There will be a permit application fee. A permit fee is required under Section 507(a) of the Act. Section 736.25, establishing a permit fee schedule, will be proposed in early 1983. Payment of the fee may be deferred, however, until a final version of that section is promulgated and takes effect.

29. One commenter asked whether OSM expects to utilize a two-stage completeness review for permit applications, i.e., reviewing separately for administrative and technical completeness. The commenter encouraged such a process, with an application required to be administratively complete at submittal, but with allowance for technical clarifications prior to final approval.

OSM will use the two-stage application review process described by the commenter. Allowance will also be made for technical clarification if required before final approval.

30. One commenter asked whether permittees were required to submit annual reports to OSM.

There is no requirement in either the Washington Federal program or in OSM's permanent program regulations for annual reports from permittees.

31. One commenter asked how the OSM intends to make the Environmental Assessment (EA) Finding of No Significant Impact (FONSI) and, if an Environmental Impact Statement (EIS) is required, whether its findings might conflict with procedures for State findings and assessments under Washington's State Environmental Policy Act (SEPA).

OSM completes the EA at the same time it completes the Technical Analysis. The results of the EA and TA determine whether a FONSI can be made or whether, alternatively, an EIS is required. If an EIS is required, data gathered in the TA is used. OSM has no reason to expect any conflict with the SEPA, since SEPA requirements generally correspond to those of the National Environmental Policy Act.

32. Four commenters questioned the twelve-month period provided for permit application review and, along with another commenter, questioned the six-month time period for reviewing a permit revision. The first commenter suggested that such a long lead time would make Washington coal less competitive. The other commenter pointed out that no explanation is given as to what constitutes a revision. The commenter noted that an operator may find it impossible to anticipate the need for minor amendments or revisions six months in advance. This same commenter urged OSM to establish standards to define "significant departures" under 30 CFR 788.12 where formal permit revisions would be required in order to take into account the faulting and folding coal seams in the State which make mine planning difficult.

The twelve-month period in § 947.772(b) for new permits is directory and not mandatory. Because OSM, unlike States in their regulatory programs, must comply with the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*, permit review and issuance is likely to take as much time as does the issuance of Federal coal leases. OSM believes that the twelve-month period is an accurate estimate of the time OSM will need to issue a permit. Prospective applicants should consult with OSM, however, to obtain a prediction of the likely processing time required for their particular permits.

OSM has eliminated the six-month lead time for permit revisions. However, the time required to review an application depends on the completeness of the application and on the time needed to prepare the technical and environmental analyses. Realistically, if OSM must request additional data from the applicant, a delay of six months or more could result.

As for the establishment of a special definition of "significant departure" for purposes of permit revision under 30 CFR 788.12, the commenter did not suggest any particular standard that would accommodate distinct conditions in the State. OSM solicits comments during the post-publication period on such a standard.

33. A commenter pointed out that the requirement in proposed § 947.785(b) for the approval of the Washington Departments of Natural Resources and Ecology in order to meet watershed improvements standards was unnecessary. The commenter asserted that the State agencies have the responsibility to approve such projects, pursuant to laws such as the Forest Practices Act, and to review them under the State Environmental Policy Act.

OSM agrees. OSM is not superseding either the Washington Forest Practices Act or the authority of State agencies under it by promulgation of this program; proposed § 947.785(b) has been deleted from this final rule.

34. Another commenter suggested that, even though the air quality monitoring requirements in 30 CFR 780.15 are required west of the 100th meridian, they should not apply to the area west of the Cascade crest, because of its wet climate.

OSM has not accepted this comment. For the same reasons OSM chose not to establish a special exemption from the alluvial valley floor provisions in 30 CFR 780.15 and Part 822, it is not doing so here. OSM will rely instead on the variance procedure of § 947.700(g) to provide operators with any necessary flexibility with respect to air quality monitoring requirements.

Bonding. 35. A coal operator requested that a provision be added to 30 CFR 805.13 to allow the reclamation bond to be posted on an area when topsoil is first removed. Thus, harvesting of timber, slash disposal and the grubbing of all vegetation from lands about to be mined would not be subject to bonding.

OSM has not accepted this comment. There is no basis for the addition of a special provision for the Washington Federal program that would allow the posting of a reclamation bond at a time later than required under the Act and permanent program rules. Further, even if the suggested provision were added to 30 CFR 805.13, the commenter's objective would not be achieved because Section 509(a) of the Act requires the posting of a bond after the regulatory authority approves the permit application, but before the permit is issued. Further, 30 CFR 800.11(b) provides that surface lands are not be be disturbed until the bond has been given to the regulatory authority; "disturbance" in that context includes the harvesting of timber.

The only alternative available to the operator is to identify discrete increments of the permit area. This would permit OSM to defer bonding on the successive increments until the timber is to be harvested—the first step in the disturbance process—on a particular increment. There would be no bond posted until the actual disturbance occurred. Thus, the operator would save any surety bond premium that would otherwise have to be paid if a larger area than that immediately affected by

mining activities were included in the permit or increment.

36. Another commenter recommended that self-bonding be allowed for the Washington Federal program.

As mentioned in the preceding part describing the rules, the suspension of OSM's self-bonding rules precludes self-bonding until OSM promulgates final rules establishing sufficient standards. OSM is currently reviewing comments on the proposed rule, 47 FR 36570 (August 20, 1982), but no date for a final rulemaking notice has been set. However, a permanent program self-bonding rule would automatically become part of the Washington Federal program because of the cross reference in § 947.800.

Performance Standards. 37. One commenter recommended that OSM adopt 30 CFR Part 810 in the Washington program as a basis for any special categories of mining.

OSM does not agree. OSM believes that Part 810 would be superfluous in the Washington Federal program.

38. One commenter indicated that the waste that is produced in the processing operation is generally non-toxic and the most effective way of disposing of it is placing it back in the open pit to be mixed with other spoil and covered. The commenter urged that the program address this particular problem, especially because the permanent program regulations for disposal of coal waste, 30 CFR 816.81–.93 and 817.81–.93, do not deal specifically with return of the waste to the pit, but require the placement of the waste in compacted layers. The cited sections also set certain static safety factors for the final waste pile which, if applied to Washington, may be greater than natural conditions.

The commenter urged that an exception to the coal waste rules be added for disposal in the back-filled and graded area, in addition to that which OSM already has for dewatered fine coal waste. *See* proposed 30 CFR 816.85(f), 47 FR 26598 (June 11, 1982).

OSM has not accepted this comment, as the commenter has raised a question which is not confined to Washington State. Although there is a prohibtion in the permanent program regulations against placement of coal processing waste in certain areas, OSM has proposed to eliminate it by removing the term "coal waste" from the definitions of "head of hollow fill" and "valley fill" in § 701.5. *See* rulemaking notice to revise excess spoil rules, 47 FR 27954 (June 8, 1982). Should the static safety factor requirement pose a problem due to unique circumstances in Washington, the operator may seek a variance under § 947.700(g). Therefore, it is neither necessary nor appropriate to modify the Washington Federal program as the commenter suggested.

39. A commenter advocated the use of either chemical or physical treatment facilities in lieu of sedimentation ponds to meet water quality standards because of the extraordinary climatic conditions in Washington west of the Cascade Mountains crest. The commenter suggested the addition of such a provision to the present rule, 30 CFR 816.42. He further argued that discharges from point sources in the State have to comply with the more stringent water quality standards and effluent limitations of the Department of Ecology, which administers the National Pollution Discharge Elimination System under the Federal Water Pollution Control Act, 33 U.S.C. 1151–1175.

OSM has not accepted this comment. The current permanent program water quality regulations neither conflict with nor interfere with the Federal Water Pollution Control Act (FWPCA) requirements; in fact, Section 702(a) of the Surface Mining Control and Reclamation Act specifically states that its requirements do not supersede those of the FWPCA. The Court of Appeals for the District of Columbia held in *In re: Surface Mining Regulation Litigation*, 627 F.2d 1346 (1980), that the Surface Mining Control and Reclamation Act gave the Secretary authority to regulate water quality only where the Federal Water Pollution Control Act was deficient with respect to surface coal mining, viz., discharges from non-point sources. 627 F.2d 1366–67. The Court also held that the variances and exemptions provided under Environmental Protection Agency regulations, 40 CFR 434.22(c), .32(b), .35(b), .42(b), and .45(b), could not be superseded by the Secretary through his water quality regulations, 627 F.2d at 1369.

While the permanent program hydrologic balance regulations do not currently allow for alternative treatment facilities, it is an option under consideration in revision to those rules. *See* proposed revision to 30 CFR 816.46, 46 FR 34784 (July 2, 1981). Should the final rule not allow for alternative treatment, a variance could be sought under § 947.700(g) based on the precipitation levels in western Washington.

40. Commenter urged that continued use of alternative sediment control measures be allowed in the Federal state program.

OSM has not accepted this comment. The permanent program rule, 30 CFR 816.45, provides a wide range of possible techniques for use in sediment control. The present rule and proposed revisions to the regulation afford the operator ample opportunity to demonstrate that his or her preferred method is suitable and will prove successful. In fact, OSM cited the commenter's own methods of sediment control in the notice promulgating its permanent program regulations as the best technology currently available, which had been developed to meet a particular need. *See* 44 FR 14926 (March 13, 1979). No change in the Federal program rule is needed.

41. A commenter suggested that a waiver is necessary from the 180-day backfilling and grading schedule requirement where complex, multi-seam mining operations are involved.

OSM has not accepted this comment. The commenter has not identified a problem unique to Washington. Further, the current permanent program regulations allow for an exemption from the 180-day or four-spoil ridge requirement for backfilling and grading when such a need is demonstrated in the mining and reclamation plan. Experience in other States has shown that additional time is necessary due to the complex mining conditions encountered. The proposed revision of the permanent program regulations, 30 CFR 816.101 (47 FR 26760, June 21, 1982) would delete the 180-day requirement. There is no need to add a particular exemption for the Washington Federal program.

42. A commenter advocated provisions that would allow an exemption from the 1.3 static safety factor requirement for backfilling and grading. *See* proposed amendments to 30 CFR 816 .101–.106, 47 FR 26760 (June 21, 1982). The commenter pointed out that many parts of Washington's coal area have naturally unstable slopes due to the manner in which the lands were formed, including naturally occurring factors of safety of as little at 1.0.

OSM has not accepted this comment. The condition that the commenter identified is not one unique to Washington, and, in fact, similar comments were submitted in response to OSM's proposed revisions to the permanent program regulations. As the commenter recognizes, the proposed revisions to the permanent program rules would not require that the stability of the reclaimed slope exceed that of the pre-mining slope. Further, a variance may be sought for a lesser factor of safety under § 947.700(g). The Director does not believe it necessary or appropriate to modify the program promulgated here as the commenter suggested.

43. A commenter urged that particular flexibility be allowed in the Washington Federal program for raptor protection. Because of the height of the trees in forested lands in which mining occurs, raptors would not utilize power poles for their hunting. Yet the regulations require operators to provide costly raptor protection on existing power poles to minesites. Therefore, the commenter suggested flexibility in order to allow for a more cost-effective way of protecting the wildlife.

OSM has not accepted this comment, since it is not directed to any environmental condition peculair to Washington. Rather, it applies generally to the permanent program regulations and is being considered in that separate rulemaking.

44. A commenter was concerned about the revisions to the postmining land use and variance from approximate original contour requirements as proposed in OSM's rulemaking notice of April 14, 1982. 47 FR 16152. The commenter noted that the requirement of 30 CFR 133(d)(7) for a 1.3 static safety factor for backfilled highwalls may preclude the establishment of final cut highwall lakes. The commenter argued that final cut highwall lakes are a desired addition in western Washington because of the lack of naturally formed small lakes useful for recreation.

OSM has not accepted this comment, since it is directed at the permanent program regulations generally. OSM's proposed revisions to those regulations do recognize limited instances when the final highwall need not be completely eliminated. Should the final permanent program regulations not provide the flexibility which the commenter believes necessary, he can seek a variance under § 947.700(g). No change to the Washington Federal program need be made in response to the comment.

45. Two commenters identified potential problems with OSM's application of the sedimentation pond design standards and sediment control measures to Washington. They pointed out that coal mining areas in Washington, due to heavy rainfall west of the Cascade Mountains, have saturated ground conditions and saturated valley sediments. Building sedimentation ponds, and even roads, in such areas, according to the commenters, requires different techniques from those used elsewhere. Further, OSM's design standards are based upon rare event storms. Given the terrain and climate in western Washington, they argued, application of these standards would result in extremely large ponds being built in narrow valleys. The commenters advocated flexibility in the requirements.

OSM agrees, and believes that the conditions pointed out by the commenters seem to be unique to Washington. Rather than modify the permanent program rules as they are applied to Washington, however, OSM has chosen to provide the variance procedure of § 947.700(g), which will allow an operator to seek any necessary modification of his permit due to the unique circumstances in Washington. The applicant, in such an instance, would have to show not only that there is a unique environmental condition in Washington which makes a variance necessary, but also that his proposed alternative method achieves a similar level of environmental protection to that afforded by the permanent program rule in question.

46. Several commenters sought exclusion of the area west of the Cascade Mountains crest from the alluvial valley floor (AVF) provisions in 30 CFR Part 822.

OSM has not accepted this comment. As discussed above, no exclusion is being added to the program. Exemption from the AVF requirements can be obtained either through the provisions in 30 CFR 785.19 or the variance under § 947.700(g)

47. Many commenters stated that OSM had not adequately considered Washington's particular environmental conditions in drafting the proposed program. Their concern focused mainly upon the heavy rainfall that occurs west of the Cascade Mountains crest and the steeply dipping coal seams that are found in the State.

With respect to the former condition, the alluvial valley floor portion of the Act is applicable to mining on lands located west of the 100th meridian west longitude and which have an arid or semi-arid climate. With respect to the latter condition, the Act provides for deference to State regulation of anthracite mines which have similarly steeply dipping seams and for special regulation of bituminous mines which meet certain criteria. Sections 529 and 527 of the Act, respectively. The commenters wanted OSM to either withdraw the proposed program and undertake an extensive analysis of unique environmental conditions in the State or show in the final rule that the special conditions had been taken into consideration.

OSM recognizes that there can be unique or special environmental conditions in a State which are not adequately reflected either in State laws or in the rules of the Federal program. Therefore, a provision for a variance has been added at § 947.700(g) that would allow an operator to obtain a variance from specific permanent program performance standards based on a showing that unique environmental conditions at the proposed mine site make such variance necessary.

The authority for this provision is the last sentence of Section 504(a) of the Act, which requires the Secretary to ". . . take into consideration the nature of [the] State's terrain, climate, biological, chemical, and other relevant physical conditions" in promulgating a Federal program. Congress was concerned about a general variance being provided in the Act, especially one which could be granted by State regulatory authorities. *See* S. Rpt. No. 95–128, 95th Cong. 1st Sess., at 55 (1977). Section 947.700(g) is not a general variance. It is instead a limited variance from specified performance standards which may be granted: (1) Only by OSM and (2) only upon a showing that such a variance is necessary because of Washington's unique environmental conditions. The permittee would also have to show that his proposed alternative achieved equal or greater environmental protection that did the performance requirement from which he was seeking a variance. Addition of this provision obviates the need for the extensive analysis urged by some commenters and allows OSM to expeditiously promulgate this program, while ensuring that OSM is able to consider and respond to any special environmental conditions at a particular mine site.

For the alluvial valley floor requirements not to apply, the permit applicant would first have to show that the area where mining is proposed is neither arid nor semi-arid as defined in 30 CFR 701.5. If such a showing is made, then the variance would actually amount to an exemption from § 947.822 of the Federal program which applies Part 822 of the permanent program alluvial valley floor rules.

III. Other Information

OSM has examined these proposed rules according to the criteria of Executive Order 12291 (46 FR 13193, February 19, 1981) and determined that they do not constitute a major rule. There would be no major economic impact through adoption of this rule because it would affect only a small number of mining operations.

OSM has examined these proposed rules pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and determined that they will not have a

significant impact on a substantial number of small entities.

Section 702(d) of the Act provides that promulgation of a Federal program shall not constitute a major Federal action under the National Environmental Policy Act, 42 U.S.C. 4332. Thus, no Environmental Assessment is required for this rulemaking.

OMB Review

The recordkeeping and reporting requirements of this rule are the same as those of the permanent program regulations which have been approved by the Office of Management and Budget under 44 U.S.C. Section 3507.

Although the rule contains information and recordkeeping requirements, OSM anticipates less than ten respondents. Under the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), clearance of information collection forms is required only if ten or more respondents are expected. If in the future the number of respondents appears to be increasing, the proper forms, if they differ from those already approved, will be submitted to the Office of Management and Budget with accompanying notices in the **Federal Register**, in accordance with the requirements of 44 U.S.C. Chapter 35.

List of Subjects in 30 CFR Part 947

Coal mining, Intergovernmental relations, Surface mining, Underground mining, Reporting requirements.

Drafting Information

These regulations were drafted by David Jones, Office of the Solicitor, and James M. Kress, Branch of Regulatory Programs, Office of Surface Mining.

Daniel N. Miller, Jr.,

Assistant Secretary, Energy and Minerals.

February 1, 1983.

30 CFR Chapter VII is amended by adding Part 947 to read as follows:

PART 947—WASHINGTON

Sec.

947.700 Washington Federal Program.
947.701 General.
947.707 Exemption for coal extraction incident to government-financed highway or other construction.
947.761 Areas designated unsuitable for surface coal mining by act of Congress.
947.762 Criteria for designating areas as unsuitable for surface coal mining operations.
947.764 Process for designating areas unsuitable for surface coal mining operations.
947.770 General requirements for permit and exploration procedures.
947.771 General requirements for permits and permit applications.
947.776 General requirements for coal exploration.
947.778 Surface mining permit applications—Minimum requirements for legal, financial, compliance, and related information.
947.779 Surface mining permit applications—Minimum requirements for information on environmental resources.
947.780 Surface mining permit applications—Minimum requirements for reclamation and operations plan.
947.782 Underground mining permit applications—Minimum requirements for legal, financial, compliance, and related information.
947.783 Underground mining permit applications—Minimum requirements for information on environmental resources.
947.784 Underground mining permit applications—Minimum requirements for reclamation and operation plan.
947.785 Requirements for permits for special categories of mining.
947.786 Reviews, public participation, and approval or disapproval of permit applications and permit terms and conditions.
947.787 Administrative and judicial review of decisions on permit applications.
947.788 Permit review, revisions, and renewals, and transfer, sale, and assignment of rights granted under permits.
947.795 Small operator assistance.
947.800 Requirements for bonding of surface coal mining and reclamation operations.
947.815 Performance standards—Coal exploration.
947.816 Performance standards—Surface mining activities.
947.817 Performance standards—Underground mining activities.
947.818 Special performance standards—Concurrent surface and underground mining.
947.819 Special performance standards—Auger mining.
947.822 Special performance standards—Operations on Alluvial Valley Floors.
947.823 Special performance standards—Operations on prime farmland.
947.824 Special performance standards—Mountaintop removal.
947.826 Special performance standards—Operations on steep slopes.
947.827 Special performance standards—Coal processing plants and support facilities not located at or near the minesite or not within the permit area for a mine.
947.828 Special performance standards—In situ processing.
947.842 Federal inspections.
947.843 Federal enforcement.
947.845 Civil penalties.
947.850 Blaster training and certification.

Authority: Pub. L. 95–87, The Surface Mining Control and Reclamation Act of 1977, 30 U.S.C. 1201 *et seq.*

§ 947.700 Washington Federal Program.

(a) This part contains all rules that are applicable to surface coal mining operations in Washington which have been adopted under the Surface Mining Control and Reclamation Act of 1977.

(b) Most of the rules in this part cross-reference pertinent parts of the permanent program regulations in this chapter. The full text of a rule is in the permanent program rule cited under the relevant section of the Washington Federal program.

(c) The rules in this part apply to all surface coal mining operations in Washington conducted on non-Federal and non-Indian lands. The rules in Subchapter D of this chapter apply to operations on Federal lands in Washington.

(d) The information collection requirements contained in this part do not require approval by the Office of Management and Budget under 44 U.S.C. 3507 because there are fewer than ten respondents annually.

(e) The following provisions of Washington laws generally provide for more stringent environmental control and regulation of some aspects of surface coal mining operations than do the provisions of the Surface Mining Control and Reclamation Act and the regulations in this chapter. Therefore, pursuant to Section 505(b) of the Act, they shall not generally be construed to be inconsistent with the Act, unless in a particular instance the rules in this Chapter are found by OSM to establish more stringent environmental controls:

(1) Washington Clean Air Act, RCW 70.94.

(2) Washington Food Fish and Shell Fish Laws pertaining to the Department of Fisheries on operation in streams, RCW 75.

(3) Washington Hydraulic Projects Approval Law, RCW 75.20.100.

(4) Washington Forest Practices Act, RCW 76.09.

(5) Washington Water Code, RCW 90.03.

(6) Washington Water Pollution Control Act, RCW 90.48.

(7) Washington Minimum Water Flows and Levels Act, RCW 90.22.

(8) Washington Shoreline Management Act, RCW 90.58.

(9) Washington Pesticide Control Act, RCW 15.58.

(f) The following are the Washington law and regulations that generally interfere with the achievement of the purposes and requirements of the Act and are, in accordance with Section 504(g) of the Act, preempted and superseded. Other Washington laws may in an individual situation interfere with the purposes and achievements of the Act and may be preempted and superseded with respect to the performance standards of §§ 947.815–

947.828 as they affect a particular coal exploration or surface mining operation by publication of a notice to that effect in the **Federal Register**.

(1) The Washington Surface Mining Act of 1971, Revised Code of Washington (RCW) 78.44, as related to surface coal mining, except to the extent that it regulates surface coal mining operations which affect two acres or less or which otherwise are not regulated by the Surface Mining Control and Reclamation Act.

(2) Surface Mined Land Reclamation regulations, Washington Administrative Code (WAC) 332–18, as they apply to surface coal mining, except to the extent that such regulations apply to surface coal mining operations which affect two acres or less or which otherwise are not regulated by the Surface Mining Control and Reclamation Act.

(g) The Secretary may grant a limited variance from the performance standards of §§ 947.815 through 947.828 of this Part if the applicant for a coal exploration approval or surface coal mining and reclamation permit submitted pursuant to §§ 947.770 through 947.788 of this Part can demonstrate in the application (1) that such a variance is necessary because of the unique nature of Washington's terrain, climate, biological, chemical, or other relevant physical conditions; and (2) that the proposed alternative will achieve equal or greater environmental protection than does the performance requirement from which the variance is requested.

§ 947.701 General.

(a) Sections 700.5, 700.11, 700.12, 700.13, 700.14, 700.15 and Part 710 of this chapter shall apply to surface coal mining operations in Washington.

(b) The following modified definition shall be applicable under § 701.5 of this chapter: *Forestry (Forest Land).* Includes land used or managed for the long-term production of wood, wood fiber, or wood derived products. All land which is capable of supporting a merchantable stand of timber and is not being actively used in a manner or for a use which is incompatible with timber growing is also included. Land used for facilities in support of forest harvest and management operations which is adjacent to or an integral part of these operations is also included.

(c) Records required by § 701.14 of this chapter to be made available locally to the public shall be retained at the county recorder's office of the county in which an operation is located, and at the nearest OSM Field Office.

§ 947.707 Exemption for coal extraction incident to government-financed highway or other construction.

Part 707 of this chapter, Exemption for Coal Extraction Incident to Government-Financed Highway or Other Construction, shall apply to surface coal mining and reclamation operations.

§ 947.761 Areas designated unsuitable for surface coal mining by act of Congress.

Part 761 of this chapter, Areas Designated by Act of Congress, shall apply to surface coal mining and reclamation operations.

§ 947.762 Criteria for designating areas as unsuitable for surface coal mining operations.

Part 762 of this chapter, Criteria for Designating Areas Unsuitable for Surface Coal Mining Operations, shall apply to surface coal mining and reclamation operations.

§ 947.764 Process for designating areas unsuitable for surface coal mining operations.

(a) Part 764 of this chapter, State Processes for Designating Areas Unsuitable for Surface Coal Mining Operations, pertaining to petitioning, initial processing, hearing requirements, decisions, data base and inventory systems, public information, and regulatory responsibilities shall apply to surface coal mining and reclamation operations.

(b) The Secretary shall notify the Washington Department of Natural Resources and the Department of Ecology of any area designated unsuitable or for which such designation has been requested or terminated.

§ 947.770 General requirements for permits and exploration procedures.

(a) Part 770 of this chapter, General Requirements for Permit Systems Under State Programs, shall apply to surface coal mining and exploration operations.

(b) The Secretary shall coordinate, to the extent practicable, his responsibilities under the following Federal laws with the relevant Washington State laws to avoid duplication:

	Federal law	Washington law
(1)	Clean Water Act, as amended, 33 U.S.C. 1251 *et seq.*	Water Pollution Control Act, Chapter 90.48 RCW.
(2)	Clean Air Act, as amended, 42 U.S.C. 7401 *et seq.*	Washington Clean Air Act, Chapter 70.94 RCW.
(3)	Resource Conservation and Recovery Act, 42 U.S.C. 3251 *et seq.*	Solid Waste Management Act, Chapter 70.95 RCW; Hazardous Waste Disposal Act, Chapter 70.105 RCW.
(4)	National Historic Preservation Act, 16 U.S.C. 470 *et seq.*	Indian Graves and Records, Chapter 27.44 RCW.
(5)	Archeological and Historic Preservation Act, 16 U.S.C. 469a *et seq.*	Archeological Sites and Resources, Chapter 27.53 RCW. Office of Archeology and Historic Preservation, Chapter 43.51A RCW.
(6)	National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*	State Environmental Policy Act, Chapter 43.21C RCW
(7)	Coastal Zone Management Act, 16 U.S.C. 1451, 1463–1464	Shoreline Management Act, Chapter 90.58 RCW.
(8)	Section 208 of the Clean Water Act, as amended, 33 U.S.C. 1251 *et seq.*	Water Pollution Control Act, Chapter 90.48 RCW, Washington Forest Practices Act, Chapter 76.09 RCW.
(9)	Endangered Species Act, 16 U.S.C. 1531 *et seq.*	Natural Area Preserves Act (Plants), Chapter 79.70 RCW; Department of Game, Chapter 43.17 RCW; Game Commission, Chapter 77.08 RCW.
(10)	Fish and Wildlife Coordination Act, 16 U.S.C. Sections 661–667	Water Resources Act of 1971, Chapter 90.54 RCW; Minimum Water Flows and Levels, Chapter 90.22 RCW.
(11)	Noise Control Act, 42 U.S.C. Section 4903	Noise Control Act of 1974, Chapter 70.107 RCW.
(12)	Bald Eagle Protection Act, 16 U.S.C. 668–668(d)	

(c) The following State permits shall be coordinated by the Secretary to avoid duplication to the extent possible:

(1) Department of Ecology:
- Surface Water Rights Permit, RCW 90.03.250
- Dam Safety Approval, RCW 90.03.350
- Reservoir Permit, RCW 90.03.370
- Approval of Change of Place or Purpose of Use (water); RCW 90.03.380
- Ground Water Permit, RCW 90.44.050
- New Source Construction Approval, RCW 70.94.152
- Burning Permit, RCW 70.94.650
- Flood Control Zone Permit RCW 86.16.080
- Waste Discharge Permit, RCW 90.48.180
- National Pollution Discharge Elimination System (NPDES) Permit, RCW 90.48
- Approval of Change of Point of Diversion, RCW 90.03.380
- Sewage Facilities Approval, RCW 90.48.110
- Water Quality Certification, RCW 90.48.160

(2) Department of Natural Resources:
- Burning Permit, RCW 76.04.150 & .170
- Dumping Permit, RCW 76.04.242
- Operating Permit for Machinery, RCW 76.04.275
- Cutting Permit, RCW 76.08.030
- Forest Practices, RCW 76.09.060
- Right of Way Clearing, RCW 76.04.310
- Drilling Permit, RCW 78.52.120

(3) Regional Air Pollution Control Agencies:

New Source Construction Approval, RCW 70.94.152
Burning Permit, RCW 70.94.650
(4) Department of Fisheries: Hydraulic Permit, RCW 75.20
(5) Department of Game: Hydraulic Permit, RCW 75.20.100
(6) Department of Social Health Services:
Public Sewage, WAC 248.92
Public Water Supply, WAC 248.54
(7) Department of Labor and Industries:
Explosive license, RCW 70.74.135
Blaster's license, WAC 296.52.040
Purchaser's license, WAC 296.52.220
Storage Magazine license, WAC 296.52.170
(8) Cities and Counties:
New Source Construction Approval, RCW 70.94.152
Burning Permit, RCW 70.94.650
Shoreline Substantial Develoment Permit, RCW 90.58.140
Zoning and Building Permits, Local Ordinances

(d) Where applicable, no person shall conduct coal exploration operations which result in the removal of more than 250 tons in one location or surface coal mining and reclamation operations without first obtaining permits required by the State of Washington.

§ 947.771 General requirements for permits and permit applications.

(a) Part 771 of this chapter, General Requirements for Permits and Permit Applications, shall apply to any person who makes application for a permit to conduct surface coal mining and reclamation operations.

(b) Any person who wishes to conduct new surface coal mining and reclamation operations shall file a complete application at least 12 months prior to the date upon which permit issuance is desired, and shall pay to the Secretary a permit fee in acordance with 30 CFR 736.25.

(c) Any person who wishes to revise a permit shall submit a complete application as early as possible prior to the date upon which permit issuance is desired and shall pay to the Secretary a fee in accordance with 30 CFR 736.25.

§ 947.776 General Requirements for Coal Exploration.

(a) Part 776 of this chapter, General Requirements for Coal Exploration, shall apply to any person who conducts or seeks to conduct coal exploration operations.

(b) The Office shall make every effort to act on an exploration application within 60 days of receipt or such longer time as may be reasonable under the circumstances. If additional time is needed, the Director shall notify the applicant within 15 days of receipt that more time is necessary to complete review of the application and set forth the reasons and the additional time that is needed.

§ 947.778 Surface mining permit applications—minimum requirements for legal, financial, compliance and related information.

Part 778 of this chapter, Surface Mining Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information, shall apply to any person who makes application for a permit to conduct surface coal mining and reclamation operations.

§ 947.779 Surface mining permit applications—minimum requirements for information on environmental resources.

Part 779 of this chapter, Surface Mining Permit Applications—Minimum Requirements for Information on Environmental Resources, shall apply to any person who makes application to conduct surface coal mining and reclamation operations.

§ 947.780 Surface mining permit applications—minimum requirements for reclamation and operation plan.

(a) Part 780 of this chapter, Surface Mining Permit Applications—Minimum Requirement for Reclamation and Operation Plan, shall apply to any person who makes application to conduct surface coal mining and reclamation operations.

(b) Any applicant for a surface coal mining permit which is to produce more than 1,000,000 tons per year shall demonstrate compliance with local Air Pollution Control Authorities and the Washington Clean Air Act, RCW 70.94.

(c) Any applicant for a surface mining permit shall describe the steps taken to comply with the Washington Water Pollution Control Act, RCW 90.48.

§ 947.782 Underground mining permit applications—minimum requirements for legal, financial, compliance, and related information.

Part 782 of this chapter, Underground Mining Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information, shall apply to any person who makes application for a permit to conduct underground coal mining operations.

§ 947.783 Underground mining permit applications—minimum requirements for information on environmental resources.

Part 783 of this chapter, Underground Mining Permit Applications—Minimum Requirements for Information on Environmental Resources, shall apply to any person who submits an application to conduct underground coal mining operations.

§ 947.784 Underground mining permit applications—minimum requirements for reclamation and operation plan.

(a) Part 784 of this chapter, Underground Mining Permit Applications—Minimum Requirements for Reclamation and Operation Plan, shall apply to any person who makes application to conduct underground coal mining operations.

(b) Any application for an underground mining permit which will produce more than 1,000,000 tons per year shall demonstrate specific compliance with local Air Pollution Control Authorities and the Washington Clean Air Act, RCW 70.94.

(c) Any applicant for an underground mining permit shall also indicate how compliance will be achieved with the Washington Water Pollution Control Act, RCW 90.48.

§ 947.785 Requirements for permits for special categories of mining.

Part 785 of this chapter, Requirements for Permits for Special Categories of Mining, shall apply to each person who makes application for a permit to conduct certain categories of surface coal mining and reclamation operations as specified therein.

§ 947.786 Review, public participation, and approval or disapproval of permit applications and permit terms and conditions.

(a) Part 786 of this chapter, Review, Public Participation, and Approval or Disapproval of Permit Applications and Permit Terms and Conditions, shall apply to the review of applications made by any person for surface coal mining and reclamation operations.

(b) The Secretary shall provide a copy of the decision to grant or deny a permit application to the Washington Department of Natural Resources, the Department of Ecology and to the county Department of Planning, if any, in which the operation is located.

§ 947.787 Administrative and judicial review of decisions on permit applications.

Part 787, Administrative and Judicial Review of Decisions by Regulatory Authority on Permit Applications, shall apply to the review of decisions on permit applications for surface coal mining and reclamation operations.

§ 947.788 Permit reviews, revisions, and renewals, and transfer, sale, and assignment of rights granted under permits.

Part 788 of this chapter, Permit Reviews, Revisions, and Renewals, and

Transfer, Sale, and Assignment of Rights Granted Under Permits, shall apply to review, revision, and renewal of permits for surface coal mine operations, and to transfer, sale, and assignment of rights granted under permits.

§ 947.795 Small operator assistance.

Part 795 of this chapter, Small Operator Assistance, shall apply to any person making application for assistance under the small operator assistance program.

§ 947.800 Requirements for bonding of surface coal mining and reclamation operations.

Part 800 of this chapter, Requirements for Bonding of Surface Coal Mining and Reclamation Operations Under Regulatory Programs, shall apply to all surface coal mining and reclamation operations.

§ 947.815 Performance standards—coal exploration.

(a) Part 815 of this chapter, Permanent Program Performance Standards—Coal Exploration, shall apply to any person conducting coal exploration operations.

(b) Any person who conducts coal exploration operations shall comply with the Washington Forest Practices Act, RCW 76.09, and regulations promulgated pursuant to it.

§ 947.816 Performance standards—surface mining activities.

(a) Part 816 of this chapter, Permanent Program Performance Standards—Surface Mining Activities, shall apply to any person who conducts surface coal mining and reclamation operations.

(b) All operators shall have a plan of reclamation approved by the Washington Department of Fisheries for operation in affected streams, RCW 75, and shall comply with the Hydraulic Project Approval Law, RCW 75.20.100, the Shoreline Management Act, RCW 90.58, the Forest Practices Act, RCW 76.09, the Water Pollution Control Act, RCW 90.48, the Minimum Water Flows and Levels Act, RCW 90.22, and the Pesticide Control Act, RCW 15.58, and regulations promulgated pursuant to these laws.

§ 947.817 Performance standards—underground mining activities.

(a) Part 817 of this chapter, Permanent Program Performance Standards—Underground Mining Activities, shall apply to any person who conducts underground coal mining operations.

(b) All operators shall have a plan of reclamation approved by the Washington Department of Fisheries for operation in affected streams, RCW 75, and shall comply with the Hydraulic Project Approval Law, RCW 75.20.100, the Shoreline Management Act, RCW 90.58, the Forest Practices Act, RCW 76.09, the Water Pollution Control Act, RCW 90.48, the Minimum Water Flows and Levels Act, RCW 90.22, the Pesticide Control Act, RCW 15.58, and the Washington Water Code, RCW 90.03, and regulations promulgated pursuant to these laws.

§ 947.818 Special performance standards—concurrent surface and underground mining.

Part 818 of this chapter, Special Permanent Program Performance Standards—Concurrent Surface and Underground Mining, shall apply to any person who conducts concurrent surface and underground coal mining operations.

§ 947.819 Special performance standards—auger mining.

Part 819 of this chapter, Special Permanent Program Performance Standards—Auger Mining, shall apply to any person who conducts surface coal mining operations which include auger mining.

§ 947.822 Special performance standards—operations on alluvial valley floors.

Part 822 of this chapter, Special Performance Standards—Operations on Alluvial Valley Floors, shall apply to any person who conducts surface coal mining operation on alluvial valley floors.

§ 947.823 Special performance standards—operations on prime farmland.

Part 823 of this chapter, Special Permanent Program Performance Standards—Operations on Prime Farmland, shall apply to any person who conducts surface coal mining and reclamation operations on prime farmland.

§ 947.824 Special performance standards—mountaintop removal.

Part 824 of this chapter, Special Permanent Program Performance Standards—Mountaintop Removal, shall apply to any person who conducts surface coal mining operations constituting mountaintop removal mining.

§ 947.826 Special performance standards—operation on steep slopes.

Part 826 of this chapter, Special Permanent Program Performance Standards—Operations on Steep Slopes, shall apply to any person who conducts surface coal mining and reclamation operations on steep slopes.

§ 947.827 Special performance standards—coal processing plants and support facilities not located at or near the minesite and not within the permit area for a mine.

Part 827 of this chapter, Special Permanent Program Performance Standards—Coal Processing Plants and Support Facilities Not Located at or Near the Minesite or Not Within the Permit Area for a Mine, shall apply to any person who conducts surface coal mining and reclamation operations which include the operation of coal processing plants and support facilities not located at or near the minesite and not within the permit area for a mine.

§ 947.828 Special performance standards—in situ processing.

Part 828 of this chapter, Special Permanent Program Performance Standards—In Situ Processing, shall apply to any person who conducts in situ processing activities.

§ 947.842 Federal inspections.

(a) Part 842 of this chapter, Federal Inspections, shall apply to all exploration and surface coal mining and reclamation operations.

(b) Upon request OSM shall furnish a copy of any inspection report to the Washington Department of Natural Resources and the Department of Ecology. If there is a planning department in the county government where the operation is located, a copy of the enforcement action shall be furnished to that agency.

§ 947.843 Federal enforcement.

(a) Part 843 of this chapter, Federal Enforcement, shall apply when enforcement action is required for violations on surface coal mining and reclamation operations.

(b) Upon request OSM shall furnish a copy of each enforcement action document and order to show cause issued pursuant to this section to the Washington Department of Natural Resources and the Department of Ecology. If there is a planning

department in the county government where the operation is located, a copy of the enforcement action shall be furnished to that agency.

§ 947.845 Civil penalties.

Part 845 of this chapter, Civil Penalties, shall apply when civil penalties are assessed for violations on surface coal mining and reclamation operations.

§ 947.850 Blaster training and certification.

Part 850 of this chapter, Programs for Blaster Training and Certification, shall apply to any person who conducts coal exploration or surface coal mining operations.

Part III

Department of the Interior

Fish and Wildlife Service

National Wildlife Refuges in Alaska; Description of Boundaries

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

National Wildlife Refuges in Alaska; Description of Boundaries

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: This notice sets out the legal descriptions of the external boundaries of national wildlife refuges established in Alaska under sections 302 and 303 of the Alaska National Interest Lands Conservation Act (ANILCA). Also described are the external boundaries of units of the National Wilderness Preservation System established within these refuges under section 702 of the ANILCA. Limited descriptions are included for wild and scenic rivers established on refuges under sections 602 and 603 and rivers designated for study under section 604. Publication of these legal descriptions is required by section 103 of the ANILCA. Generalized location maps are included also.

DATE: Pursuant to section 103(b) of ANILCA these boundary descriptions are effective as of December 2, 1980.

FOR FURTHER INFORMATION CONTACT:

Regional Director, U.S. Fish and Wildlife Service (Attn: Bill Mattice), 1011 East Tudor Road, Anchorage, Alaska 99507 (Phone: 907–276–3800),

or

Director, U.S. Fish and Wildlife Service (Attn: Christine Enright), 18th and C Streets, NW., Washington, D.C. 20240 (Phone: 202–653–7650).

SUPPLEMENTARY INFORMATION: Under section 103(b) of the Alaska National Interest Lands Conservation Act (ANILCA), Pub. L. 96–487 (94 Stat. 2371) the Secretary of the Interior was directed to publish legal descriptions and boundary maps for the land status changes effected by ANILCA, including national wildlife refuges and their wilderness areas. The official legal descriptions for refuges, and wilderness areas therein, are included in this notice. While generalized location maps for these areas also are included in this notice, the 1:250,000 scale maps developed for public use under section 103(b), whose official names and dates are listed below, are incorporated by this notice and are available for inspection at the Department of the Interior Library (Room 1140, 18th and C Streets, NW., Washington, D.C. 20240), U.S. Geological Survey map reference libraries in Alaska, and at the Fish and Wildlife Service Regional Office in Anchorage, Alaska. The maps are also available for sale from the U.S. Geological Survey. Limited descriptions of wild and scenic rivers and study rivers within refuges are included also, although they are not depicted on the 1:250,000 scale maps at this time.

The ANILCA established 16 national wildlife refuges in Alaska. All previously existing Alaska national wildlife refuges are included in these 16 units and are generally designated as units or subunits of the expanded refuges. The refuges established by ANILCA, with the date of their official maps noted in parentheses, are as follows:

Alaska Maritime National Wildlife Refuge (October 1979) (including the previously existing Aleutian Islands, Bering Sea, Bogoslof, Chamisso, Forrester Island, Hazy Islands, Pribilof, Semidi, Simeonof, St. Lazaria and Tuxedni National Wildlife Refuges)

Alaska Peninsula National Wildlife Refuge (October 1979)

Arctic National Wildlife Refuge (August 1980) (including the previously existing William O. Douglas Arctic National Wildlife Range)

Becharof National Wildlife Refuge (July 1980)

Innoko National Wildlife Refuge (October 1978)

Izembek National Wildlife Refuge (October 1978) (including the previously existing Izembek National Wildlife Range and a portion of the Aleutian Islands National Wildlife Refuge)

Kanuti National Wildlife Refuge (July 1980)

Kenai National Wildlife Refuge (October 1978) (including the previously existing Kenai National Moose Range)

Kodiak National Wildlife Refuge (October 1978) (including the previously existing Kodiak National Wildlife Refuge)

Koyukuk National Wildlife Refuge (July 1980)

Nowitna National Wildlife Refuge (July 1980)

Selawik National Wildlife Refuge (July 1980)

Tetlin National Wildlife Refuge (July 1980)

Togiak National Wildlife Refuge (April 1980) (including the previously existing Cape Newenham National Wildlife Refuge)

Yukon Delta National Wildlife Refuge (April 1980) (including the previously existing Clarence Rhode National Wildlife Range and Hazen Bay and Nunivak National Wildlife Refuges)

Yukon Flats National Wildlife Refuge (July 1980)

Use of Refuge Lands

The legal descriptions that follow are those of the external boundaries of the above-listed refuges. State, Native corporate, and private land holdings within these boundaries cannot be accurately described at this time and thus have not been identified on the available maps. Inclusion of these non-public lands within the described boundaries should not be interpreted as authorizing public use of such lands. Uses of the public lands within the described boundaries are controlled by the laws and regulations governing administration of units of the National Wildlife Refuge System and provisions of the ANILCA. Persons desiring information on land status or use of lands within the described refuges may contact the Alaska Regional Director of the U.S. Fish and Wildlife Service.

Many of the boundaries described for Alaska refuges follow natural features, such as lakes or rivers. Where such a water body forms a portion of the boundary, general riparian law shall apply to that boundary.

Note.—The term "public lands" as used throughout this Notice is defined by ANILCA as those lands, waters, and interests therein, the title to which is in the United States after December 2, 1980, except:

(A) Land selections of the State of Alaska which have been tentatively approved or validly selected under the Alaska Statehood Act and lands which have been confirmed to, validly selected by, or granted to the Territory of Alaska or the State under any other provision of Federal law;

(B) Land selections of a Native Corporation made under the Alaska Native Claims Settlement Act, Pub. L. 92–203 (85 Stat. 688), as amended, which have not been conveyed to a Native Corporation, unless any such selection is determined to be invalid or is relinquished; and

(C) Lands referred to in section 19(b) of the Alaska Native Claims Settlement Act.

Those lands selected by the State or a Native Corporation within the external boundaries of a national wildlife refuge are to be administered by the U.S. Fish and Wildlife Service under applicable refuge laws until conveyed or interimly conveyed. Those validly selected by, but not ultimately conveyed to, the State or a Native Corporation within the external boundaries of a national wildlife refuge become part of that refuge.

Within the coastal boundaries of areas added to the National Wildlife Refuge System, Federal ownership does not extend below mean high tide to include lands owned by the State of Alaska except where the State may agree to that extension. However, lands above mean high tide on islands, islets, rock, reefs or spires and Federal

tidelands within these external boundaries are part of the respective refuges.

Subject to valid existing rights, all public lands within Federal reservations for defense, navigation, communications and other purposes within the external boundaries of any refuge described are part of that refuge. Rights of holding agencies are set forth in section 1310 of ANILCA.

Wilderness Units Described

In this notice, legal descriptions of the external boundaries of units of the National Wilderness Preservation System established by ANILCA within national wildlife refuges in Alaska can be found after the boundary description for the refuge in which they are located. The wilderness units established by ANILCA, with the date of their official maps noted in parentheses, are as follows:

Aleutian Islands Wilderness (October 1978)—in Alaska Maritime NWR
Andreafsky Wilderness (April 1980)—in Yukon Delta NWR
Arctic Wildlife Refuge Wilderness (August 1980)—in Arctic NWR
Becharof Wilderness (July 1980)—in Becharof NWR
Innoko Wilderness (October 1978)—in Innoko NWR
Izembek Wilderness (October 1978)—in Izembek NWR
Kenai Wilderness (October 1978)—in Kenai NWR
Koyukuk Wilderness (July 1980)—in Koyukuk NWR
Nunivak Wilderness (July 1980)—in Yukon Delta NWR
Selawik Wilderness (July 1980)—in Selawik NWR
Semidi Wilderness (October 1978)—in Alaska Maritime NWR
Togiak Wilderness (July 1980)—in Togiak NWR
Unimak Wilderness (October 1978)—in Alaska Maritime NWR

Eight additional units of the National Wilderness Preservation System were established in Alaska national wildlife refuges prior to passage of ANILCA. In the interest of consolidating legal descriptions of all Alaska national wildlife refuges and refuge wilderness units in one publication, the descriptions of the following previously established wilderness units are included in this notice. All eight of these units are located in the Alaska Maritime National Wildlife Refuge: Bering Sea Wilderness, Bogoslof Wilderness, Forrester Island Wilderness, Hazy Islands Wilderness, Saint Lazaria Wilderness and Tuxedni Wilderness, which were established by Pub. L. 93–504; Chamisso Wilderness, Which was established by Pub. L. 93–632; and Simeonof Wilderness, which was established by Pub. L. 94–557.

Use of Wilderness Units

In addition to the laws and regulations governing the use of refuge lands, described above, the use of wilderness units is governed by provisions of the Wilderness Act (16 U.S.C. 1131 *et seq.*) ANILCA and applicable regulations in Title 50 of the Code of Federal Regulations Part 35.

National Wild and Scenic Rivers

ANILCA designated the following national wild rivers in national wildlife refuges in Alaska: Ivishak, Sheenjek (Upper) and Wind Wild Rivers in Arctic NWR; Nowitna Wild River in Nowitna NWR; Selawik Wild River in Selawik NWR; Andreafsky Wild River in Yukon Delta NWR; and a portion of Beaver Creek Wild River in Yukon Flats NWR.

Designated for 3-year study for possible addition to the National Wild and Scenic Rivers System are the following rivers: Kanektok River in Togiak NWR; Kisaralik River in Yukon Delta NWR; and the Porcupine and Sheenjek (Lower) Rivers in Yukon Flats NWR.

The ANILCA descriptions of national wild rivers within national wildlife refuges are included in this notice, but they are not depicted on the 1:250,000 scale maps at this time. These limited descriptions can be found following the description of the refuge in which they occur. The corridors of the designated wild rivers are to be identified and described as part of the comprehensive conservation planning process for each refuge (due in 2 to 6 years). Corridors for rivers designated for study include the public lands within the bed or banks of the river and the area extending 2 miles outward from each bank of the river channel. These corridors are withdrawn for a minimum period of 3 to 6 years pending review of their suitability for inclusion in the Wild and Scenic Rivers System. Beginning and ending points of these study rivers have been included in this notice.

At such time as managment corridors are finalized for the designated wild rivers, they will be described on the 1:250,000 scale maps.

In addition to regulations governing use of national wildlife refuges, use of these river areas is governed by the Wild and Scenic Rivers Act (16 U.S.C. 1271–1287), as amended by the ANILCA.

Availability of Maps

The maps of the Alaska national wildlife refuges included in this notice are generalized depictions of the lands described. Maps at this scale cannot accurately depict the actual boundaries and should be used only as general location references. Persons desiring more detailed information on refuge and wilderness boundaries are directed to maps, at the scale of 1:250,000, which are available for review at U.S. Geological Survey map reference libraries in Alaska and at the following locations:

Department of the Interior Library, Room 1140, 18th and C Streets, N.W., Washington, D.C. 20240
U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99507

Additionally, the 1:250,000 scale maps are available for sale by the U.S. Geological Survey at the following locations:

U.S. Geological Survey, Alaska Distribution Section, 101 12th Avenue, Fairbanks, Alaska 99701
U.S. Geological Survey, Public Inquiries Office, 503 National Center, Reston, Virginia 22092
U.S. Geological Survey, Western Distribution Branch, Box 25286—Mail Stop 306, Federal Center, Denver, Colorado 80226

Official Bureau of Land Management land status records for Alaska are maintained on maps at the scale of 1:63,360. The maps from which the legal descriptions in this notice were written are at the 1:63,360 scale, where available, and reflect greater detail and accuracy than that depicted on the 1:250,000 scale maps prepared for public use. These maps are available for review in the Office of the Regional Director, Anchorage, Alaska. A list of the specific maps used to develop these legal descriptions, follows the description for each refuge.

The large number of maps (approximately 850) necessary to depict the Alaska national wildlife refuges at the 1:63,360 scale precludes their reproduction for public use. However, as the U.S. Geological Survey revises individual maps at this scale, the new boundary lines will be depicted. These revised maps will eventually be available through normal U.S.G.S. sales outlets.

Dated: February 1, 1983.

Robert A. Jantzen,

Director, Fish and Wildlife Service.

CONSERVATION SYSTEM UNITS ESTABLISHED IN ALASKA

WITHIN THE NATIONAL REFUGE SYSTEM

ALASKA MARITIME NATIONAL WILDLIFE REFUGE

Section 303 (1):

"The Alaska Maritime National Wildlife Refuge shall consist of eleven existing refuges, including all lands (including submerged lands), waters and interests therein which were a part of such refuges and are hereby redesignated as subunits of the Alaska Maritime National Wildlife Refuge; approximately four hundred and sixty thousand acres of additional public lands on islands, islets, rocks, reefs, spires and designated capes and headlands in the coastal areas and adjacent seas of Alaska, and an undetermined quantity of submerged lands, if any, retained in Federal ownership at the time of statehood around Kodiak and Afognak Islands, as generally depicted on the map entitled "Alaska Maritime National Wildlife Refuge", dated October 1979."

CHUKCHI SEA UNIT--"including Cape Lisburne, Cape Thompson, the existing Chamisso National Wildlife Refuge, and all other public lands on islands, islets, rocks, reefs, spires, and designated capes and headlands in the Chukchi Sea, but excluding such other offshore public lands within the Bering Land Bridge National Preserve. That portion of the public lands on Cape Lisburne shall be named and appropriately identified as the "Ann Stevens-Cape Lisburne" subunit of the Chukchi Sea Unit;"

The Chukchi Sea Unit includes the following described lands:

Designated subunits:

ANN STEVENS - CAPE LISBURNE SUBUNIT

The Ann Stevens-Cape Lisburne Subunit includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner between sections 1 and 6, T. 7 S., Rs. 58 and 59 W., Umiat Meridian, at the line of mean high tide of the Chukchi Sea;

Thence southerly, between Rs. 58 and 59 W., approximately 11½ miles to the standard corner of T. 8 S., Rs. 58 and 59 W., Umiat Meridian;

Thence westerly, along the Second Standard Parallel South, approximately 3 miles to the summit of a ridge between sections 3 and 34, Tps. 8 and 9 S., Rs. 59 and 60 W., Umiat Meridian;

Thence southwesterly, along the crest of the divide between Ukinigak Creek, Oligavik Creek, Kapaloak Creek, Angowlik Creek, Sikrikpuk Creek, Oakvrorut Creek, Siniktukneyluk Creek and Akalakik Creek drainages, approximately 15¼ miles to the top of a hill in the easterly portion of section 34, T. 10 S., R. 61 W., Umiat Meridian, approximate elevation 940 feet;

Thence on an approximate forward bearing of S. 20° E., approximately ¼ mile to the corner of sections 2, 3, 34 and 35, Tps. 10 and 11 S., R. 61 W., Umiat Meridian;

Thence westerly, between Tps. 10 and 11 S., approximately 3½ miles to the meander corner of sections 5 and 31, Tps. 10 and 11 S., R. 61 W., Umiat Meridian, at the line of mean high tide of the Chukchi Sea;

Thence northerly and easterly, along the line of mean high tide of the Chukchi Sea and the Arctic Ocean, respectively, to the meander corner between sections 1 and 6, T. 7 S., Rs. 58 and 59 W., Umiat Meridian, the point of beginning.

CHAMISSO SUBUNIT

Chamisso Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1658, dated December 7, 1912, within rhumb lines connecting the following 18 geographic coordinates;

66° 13' 15" N., 161° 52' W., said coordinate being approximately N. 82° W., approximately 1 1/5 miles from the top of a hill near the center of Chamisso Island, approximate elevation 246 feet;

66° 13' N., 161° 52' W.;

66° 12' 45" N., 161° 52' W.;

66° 12' 27" N., 161° 50' 20" W., said coordinate being approximately S. 21° E., approximately ¼ mile from the most southern point on Chamisso Island at the line of mean high tide;

66° 12' 15" N., 161° 49' W.;

66° 12' 45" N., 161° 47' 30" W.;

66° 12' 45" N., 161° 46' 57" W.;

66° 13' N., 161° 46' 47" W.;

66° 13' 15" N., 161° 46' 53" W., said coordinate being approximately N. 82° E., approximately 3/5 miles from the most eastern point on Chamisso Island, at the line of mean high tide;

66° 13' 15" N., 161° 47' 18" W.;

66° 13' 45 N., 161° 47' 46" W.;

66° 14' N., 161° 48' 20" W.;

Thence on an approximate forward bearing of N. 76° E., approximately 1 1/8 miles to the top of a hill in the southwest portion of section 27, T. 34 N., R. 31 W., Kateel River Meridian, approximate elevation 750 feet;

66° 13' 15" N., 161° 47' 18" W.;

66° 13' 45 N., 161° 47' 46" W.;

66° 14' N., 161° 48' 20" W.;

66° 14' 14" N., 161° 49' 22" W.;

66° 14' 20" N., 161° 50' W.;

66° 14' N., 161° 50' 41" W.;

66° 14' N., 161° 51' 30" W.;

66° 13' 45" N., 161° 51' 48" W., said coordinate being due West, approximately 1/5 miles from the most northern point on Puffin Island, at the line of mean high tide;

66° 13' 30" N., 161° 52' W., to the point of beginning.

Designated capes and headlands:

CAPE THOMPSON

Cape Thompson includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner between sections 3 and 34, Tps. 33 and 34 N., R. 33 W., Kateel River Meridian, at the line of mean high tide of the Chukchi Sea;

Thence easterly, between Tps. 33 and 34 N., approximately 300 feet to the meander corner of section 3 and 34, Tps. 33 and 34 N., R. 33 W., Kateel River Meridian, at the line of mean high tide of Aiautak Lagoon;

Thence easterly, between Tps. 33 and 34 N., approximately 7 3/4 miles to the corner of Sections 1, 2, 35 and 36, Tps. 33 and 34 N., R. 32 W., Kateel River Meridian;

Thence on an approximate forward bearing of N. 31° E., approximately ½ mile to top of a hill on the east and west centerline of section 36, T. 34 N., R. 32 W., Kateel River Meridian, approximate elevation 250 feet;

Thence on an approximate forward bearing of N. 60° E., approximately 1½ miles to the top of a hill in the southeastern portion of section 30, T. 34 N., R. 31 W., Kateel River Meridian, approximate elevation 560 feet;

Thence on an approximate forward bearing of S. 77° E., approximately 1 5/8 miles to the top of a hill in the northwest portion of section 33, T. 34 N., R. 31 W., Kateel River Meridian, approximate elevation 605 feet;

Thence on an approximate forward bearing of N. 76° E., approximately 1 1/8 miles to the top of a hill in the southwest portion of section 27, T. 34 N., R. 31 W., Kateel River Meridian, approximate elevation 750 feet;

Thence on an approximate forward bearing of S. 61° E., approximately 3 5/8 miles to the top of a hill on the north and south centerline of section 6, T. 33 N., R. 30 W., Kateel River Meridian, approximate elevation 605 feet;

Thence on an approximate forward bearing of S. 47° E., approximately 5/8 miles to the top of a hill on the west boundary line of section 8, T.. 33 N., R. 30 W., Kateel River Meridian, approximate elevation 520 feet;

Thence on an approximate forward bearing of S. 38° E., approximately 2 miles to the summit of a ridge in the southwest portion of section 16, T. 33 N., R. 30 W., Kateel River Meridian, approximately elevation 800 feet;

Thence on an approximate forward bearing of S. 16° W., approximately ½ mile to a Horizontal Control Station on the summit of a ridge in the northwest ¼ of section 21, T. 33 N., R. 30 W., Kateel River Meridian, approximate elevation 886 feet;

Thence on an approximate forward bearing of S. 37° E., approximately 2 3/4 miles to the top of a hill in the northeast portion of section 34, T. 33 N., R. 30 W., Kateel River Meridian, approximate elevation 410 feet;

Thence on an approximate forward bearing of S. 65° 30' E., approximately 2 miles to the summit of a ridge in the northwest portion of section 3, T. 32 N., R. 30 W., Kateel River Meridian, approximate elevation 753 feet;

Thence on an approximate forward bearing of S. 11° W., approximately 2 miles to the summit of a ridge in the northeast portion of section 16, T. 32 N., R. 30 W., Kateel River Meridian, approximate elevation 1,020 feet;

Thence on an approximate forward bearing of S. 59° 30' E., approximately 1½ miles to the top of a hill in the southeast portion of section 15, T. 32 N., R. 30 W., approximate elevation 603 feet;

Thence on an approximate forward bearing of N. 85° 30' E., approximately 1 3/8 miles to the summit of a ridge in the southwest portion section 13, T. 32 N., R. 30 W., Kateel River Meridian, approximate elevation 1,070;

Thence on an approximate forward bearing of N. 33° W., approximately 3/4 miles to the summit of a ridge on the east and west centerline of section 23, T. 32 N., R. 30 W., Kateel River Meridian, approximate elevation 1,000 feet;

Thence on an approximate forward bearing of S. 15° E., approximately 1 mile to the summit of a ridge in the northwest portion of section 25, T. 32 N., R. 30 W., Kateel River Meridian, approximate elevation 880 feet;

Thence on an approximate forward bearing of N. 71° E., approximately 2 miles to the summit of a ridge in the southwest portion of section 20, T. 32 N., R. 29 W., Kateel River Meridian, approximate elevation 755 feet;

Thence on an approximate forward bearing of S. 72° 30' E., approximately 1¼ miles to the summit of a ridge in the northwest portion of section 28, T. 32 N., R. 29 W., Kateel River Meridian, approximate elevation 552 feet;

Thence on an approximate forward bearing of S. 25° 30' W., approximately 2 3/8 miles to the summit of a ridge in the northwest portion of section 5, T. 31 N., R. 29 W., Kateel River Meridian, approximate elevation 652 feet;

Thence on an approximate forward bearing of S. 21° E., approximately 1¼ miles to the summit of a ridge in the southeast portion of section 8, T. 31 N., R. 29 W., Kateel River Meridian, approximate elevation 602 feet;

Thence on an approximate forward bearing of S. 26° E., approximately 1¼ miles to the summit of a ridge on the east and west centerline of section 16, T. 31 N., R. 29 W., Kateel River Meridian, approximate elevation 665 feet;

Thence on an approximate forward bearing of N. 77° 45' E., approximately 3/4 of a mile to a top of a hill on the east boundary of section 16, T. 31 N., R. 29 W., approximate elevation 520 feet;

Thence on an approximate forward bearing of S. 67° E., approximately 5/8 of a mile to the summit of a ridge in the southeast portion of section 15, T. 31 N., R. 29 W., Kateel River Meridian, approximate elevation 760 feet;

Thence southerly, approximately 5¼ miles to the meander corner of sections 10 and 15, T. 30 N., R. 29 W., at the line of mean high tide of Pusigrak Lagoon;

Thence westerly, between sections 10 and 15, approximately 528 feet to the meander corner of sections 10 and 15, T. 30 N., R. 29 W., Kateel River Meridian, at the line of mean high tide of the Chukchi Sea;

Thence northwesterly, along the line of mean high tide of the Chukchi Sea, closing the mouths of all lagoons and creeks to the meander corner between sections 3 and 34, T. 33 N., R. 33 W., Kateel River Meridian, the point of beginning.

And, all public lands, as defined by the ANILCA, on all named and unnamed islands, islets, rocks, reefs and spires in the Chukchi Sea. It is the intent of this description to include all such public lands occurring within all arms, bays, bights, coves, entrances, gulfs, harbors, inlets, lagoons, passages, passes, ports, sounds and straits, but not to include lands inland of the mouths of rivers or lakes on the mainland of Alaska.

Section 303 (1):

> BERING SEA UNIT--"including the existing Bering Sea and Pribilof (Walrus and Otter Islands) National Wildlife Refuges, Hagemeister Island, Fairway Rock, Sledge Island, Bluff Unit, Besboro Island, Punuk Islands, Egg Island, King Island, and all other public lands on islands, islets, rocks, reefs, spires and designated capes and headlands in the Bering Sea;"

The Bering Sea Unit includes the following described lands:

Designated subunits:

BERING SEA SUBUNIT

Bering Sea Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1037, dated February 2, 1909, within rhumb lines connecting the following 16 geographic coordinates;

60° 40' N., 173° 17' W., said coordinate being approximately 6½ miles west of the top of a mountain on Hall Island, approximate elevation 1,665 feet;

60° 35' N., 173° 20' W.;

60° 30' N., 173° 18' W.;

60° 25' N., 173° 14' W.;

60° 15' N., 173° 00' W.;

60° 11' 40" N., 172° 51' W.;

60° 09' 40" N., 172° 40' W., said coordinate being approximately S. 10° 30' W., approximately 12 miles from the top of Sugar Loaf Mountain, approximate elevation 1,380 feet;

60° 09' 40" N.,172° 30' W.;

60° 11' N., 172° 20' W.;

60° 15' N., 172° 07' 30" W., said coordinate being approximately S. 46° E., approximately 6 miles from the top of a mountain located near Cape

57° 11' 16" N., 170° 00' W.;

57° 12' 16" N., 169° 57' W.;

57° 12' 40" N., 169° 55' W.;

60° 09' 40" N.,172° 30' W.;

60° 11' N., 172° 20' W.;

60° 15' N., 172° 07' 30" W., said coordinate being approximately S. 46° E., approximately 6 miles from the top of a mountain located near Cape Upright, approximate elevation 1,505 feet;

60° 20' N., 172° 03' 30" W.;

60° 25" N., 172° 07' W.;

60° 40' N., 172° 40' W., said coordinate being approximately N. 58° E., approximately 11½ miles from the top of a mountain in the northern portion of St. Matthew Island, approximate elevation 1,475 feet;

60° 45' N., 172° 48' W.;

60° 46' 18" N., 173° 00' W.;

60° 45' N., 173° 10' W., to the point of beginning.

PRIBILOF SUBUNIT

Pribilof Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1044, dated February 27, 1909, within rhumb lines connecting the following 32 geographic coordinates;

57° 03' 20" N., 170° 28' W.;

57° 04' 30" N., 170° 27' W.;

57° 05' 15" N., 170° 25' W.;

57° 05' 40" N., 170° 23' W.;

57° 06' N., 170° 21' W.;

57° 06' 02" N., 170° 19' W.;

57° 06' 03" N., 170° 18' W.;

57° 06' 05" N., 170° 17' W.;

57° 06' 25" N., 170° 15' W.;

57° 07' 20" N., 170° 10' W.;

57° 09' 15" N., 170° 05' W.;

57° 11' 16" N., 170° 00' W.;

57° 12' 16" N., 169° 57' W.;

57° 12' 40" N., 169° 55' W.;

57° 12' 40" N., 169° 54' W.;

57° 12' 20" N., 169° 53' W.;

57° 11' 30" N., 169° 52' W.;

57° 10' N., 169° 53' W.;

57° 09' 25" N., 169° 54' W.;

57° 09' 12" N., 169° 55' W.;

57° 08' 30" N., 169° 57' W.;

57° 08' N., 170° 00' W.;

57° 06' 40" N., 170° 05' W.;

57° 05' 15" N., 170° 10' W.;

57° 03' 30" N., 170° 15' W.;

57° 02' 40" N., 170° 17' W.;

57° 02' N., 170° 18' W.;

57° 01' 45" N., 170° 19' W.;

57° 01' N., 170° 21' W.;

57° 00' 40" N., 170° 23' W.;

57° 00' 40" N., 170° 25' W.;

57° 01' 40" N., 170° 27' W., to the point of beginning.

Designated capes and headlands:

CAPE YORK

Cape York includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner on the south boundary of section 35, T. 1 N., R. 43 W., on the Katsel River Base Line, at the line of mean high tide of the Bering Sea;

UMI
1983
FEB 24
ISS 38
VOL 48
4 8

Thence easterly, on the Kateel River Base Line, approximately 3 miles to the north and south centerline of section 2, T. 1 S., R. 43 W., Kateel River Meridian;

Thence southerly, approximately 2 miles to the ¼ section corner of section 11, T. 1 S., R. 43 W., Kateel River Meridian, at the line of mean high tide of the Bering Sea;

Thence northwesterly, along the line of mean high tide of the Bering Sea, closing the mouths of all rivers, creeks and inlets, approximately 3 miles to the meander corner on the south boundary of section 35, T. 1 N., R. 43 W., Kateel River Base Line, at the line at mean high tide of the Bering Sea, the point of beginning.

KOTZEBUE CREEK

Kotzebue Creek includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner of the north and south centerline of section 16, T. 1 S., R. 42 W., Kateel River Meridian, at the line of mean high tide of Bering Sea;

Thence northerly, along the line of mean high tide of the Bering Sea approximately 2/5 mile, to a point due South of a hill located in the northwest portion of section 16, T. 1 S., R. 42 W., Kateel River Meridian, approximate elevation 653 feet;

Thence due North, approximately ½ mile to the summit of the hill, approximate elevation 653 feet;

Thence on an approximate forward bearing of N. 74° 15' E., approximately 1 2/5 miles to a point on the north and south centerline of section 10, T. 1 S., R. 42 W., Kateel River Meridian;

Thence on an approximate forward bearing of S. 84° 15' E., approximately 1 3/5 miles to the head of an unnamed creek in the southwest portion of section 12, T. 1 S., R. 42 W., Kateel River Meridian;

Thence due South, approximately 7/10 mile to the top of a hill in the southwest portion of section 13, T. 1 S., R. 42 W., Kateel River Meridian, approximate elevation 443 feet;

Thence due South, to a point at the line of mean high tide of the Bering Sea in section 13, T. 1 S., R. 42 W., Kateel River Meridian;

Thence westerly, southwesterly and northwesterly, along the line of mean high tide of the Bering Sea closing the mouth of Kotzebue Creek, approximately 2½ miles to the meander corner of the north and south centerline of section 16, T. 1 S., R. 42 W., Kateel River Meridian, the point of beginning.

TOPOK HEAD

Topok Head includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner on the north and south centerline of section 3, T. 11 S., R. 27 W., Kateel River Meridian, at the line of mean high tide of Norton Sound;

Thence northerly, on the north and south centerline of section 3, approximately ½ mile to the center-north 1/16 section corner of sections 3, T. 11 S., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerlines of the northeast ¼ of section 3, the northwest ¼ and northeast ¼ of section 2, approximately 1 ½ miles to the north 1/16 section corner of sections 1 and 2, T. 11 S., R. 27 W., Kateel River Meridian;

Thence southerly, between sections 1 and 2, approximately ¼ mile to the ¼ section corner between section 1 and 2, T. 11 S., R. 27 W., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 1 and 6, T. 11 S., Rs. 26 and 27 W., approximately 1½ miles to a point on the left bank of the Topkok River, in the central portion of section 6, T. 11 S., R. 26 W., Kateel River Meridian;

Thence southerly, along the left bank of the Topkok River, approximately 900 feet to a point at the line of mean high tide of Norton Sound;

Thence southwesterly, southeasterly, northwesterly, southwesterly and northwesterly, along the line of mean high tide of Norton Sound, to the meander corner on the north and south centerline of section 3, T. 11 S., R. 27 W., Kateel River Meridian, the place of beginning.

BLUFF

Bluff includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner between sections 6 and 31, Tps. 10 and 11 S., R. 25 W., Kateel River Meridian, at the line of mean high tide of Norton Sound;

Thence easterly, between Tps. 10 and 11 S., approximately 11 3/4 miles to the corner of Tps. 10 and 11 S., Rs. 23 and 24 W., Kateel River Meridian;

Thence southerly, between Rs. 23 and 24 W., approximately 4¼ miles to the meander corner between sections 25 and 30, T. 11 S., Rs. 23 and 24 W., Kateel River Meridian, at the line of mean high tide of Norton Sound;

Thence northwesterly, along the line of mean high tide of Norton Sound to the meander corner between sections 6 and 31, Tps. 10 and 11 S., R. 25 W., Kateel River Meridian, the point of beginning.

Thence southerly, between sections 34 and 35, approximately 3/8 miles to the corner of sections 2, 3, 34 and 35, Tps 22 and 23 S., R. 19 W., Kateel River Meridian;

Thence northwesterly, along the line of mean high tide of Norton Sound to the meander corner between sections 6 and 31, Tps. 10 and 11 S., R. 25 W., Kateel River Meridian, the point of beginning.

CAPE DARBY

Cape Darby includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner between sections 3 and 35, Tps. 12 and 13 S., R. 21 W., Kateel River Meridian, at the line of mean high tide of Norton Sound and Golovnin Bay;

Thence easterly, on the Third Standard Parallel South, approximately 4 miles to a point on the south boundary of section 33, T. 12 S., R. 20 W., Kateel River Meridian, said point being a point in common with the Norton Bay Indian Reservation;

Thence southerly, approximately 1½ miles to a point at the line of mean high tide of Norton Sound, said point being a point common with the southwest boundary of Norton Bay Indian Reservation;

Thence southwesterly and northerly, along the line of mean high tide of Norton South and Golovnin Bay, to the meander corner between sections 3 and 35, Tps. 12 and 13 S. R. 21 W., Kateel River Meridian, the point of beginning.

CAPE DENBIGH

Cape Denbigh includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner betwen sections 28 and 29, T. 12 S., R. 14 W., Kateel River Meridian, at the line of mean high tide of Norton Sound;

Thence on an approximate forward bearing of S. 63° E., approximately 1 mile to a point on the line of mean high tide of Norton Sound in the northeast quarter of the Southeast quarter of Section 28, T. 12 S., R. 14 W., Kateel River Meridian;

Thence southwesterly, northwesterly and easterly, along the line of mean high tide of Norton Sound, to the meander corner between sections 28 and 29, T. 12 S., R. 14 W., Kateel River Meridian, the point of beginning.

CAPE STEPHENS

Cape Stephens includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner between sections 34 and 35, T. 22 S., R. 19 W., Kateel River Meridian, at the line of mean high tide of Norton Sound and Stephens Pass;

Thence southerly, between sections 34 and 35, approximately 3/8 miles to the corner of sections 2, 3, 34 and 35, Tps 22 and 23 S., R. 19 W., Kateel River Meridian;

Thence westerly, between Tps. 22 and 23 S., approximately 3/16 miles to the meander corner of sections 3 and 34, between Tps. 22 and 23 S., R. 19 W., Kateel River Meridian, at the time of mean high tide of Norton Sound and Stephens Pass;

Thence northwesterly and southeasterly, along the line of mean high tide of Norton Sound and Stephens Pass, to the meander corner between sections 34 and 35, T. 22 S., R. 19 W., Kateel River Meridian, the point of beginning.

And, all public lands, as defined by the ANILCA, on Hagemeister Island, Fairway Rock, Sledge Island, Besboro Island, Punuk Islands, Egg Island, King Island and on all other named and unnamed islands, islets, rocks, reefs and spires in the Bering Sea. It is the intent of this description to include all such public lands occurring within all arms, bays, bights, coves, entrances, gulfs, harbors, inlets, lagoons, passages, passes, ports, sounds and straits, but not to include lands inland of the mouths of rivers or lakes on the mainland of Alaska or such offshore public lands within the Bering Land Bridge National Preserve.

Section 303 (1):

> ALEUTIAN ISLANDS UNIT--"including the existing Aleutian Islands and Bogoslof National Wildlife Refuges, and all other public lands in the Aleutian Islands;"

The Aleutian Islands Unit includes the following described lands:

Designated subunits:

ALEUTIAN ISLAND SUBUNIT

Aleutian Islands Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1733, dated March 3, 1913, within rhumb lines connecting the following geographic coordinates;

55° 13' 00" N., 165° 00' W., said coordinate being approximately N. 4° 45' W., approximately 41.81 miles from Cape Sarichef lighthouse on Unimak Island (approximate latitude 54° 36' N., longitude 164° 54' W.);

55° 03' 00" N., 166° 00' W., said coordinate being approximately N. 10° 15' W., approximately 63.90 miles from the Akutan Harbor lighthouse on Akutan Island (approximate latitude 54° 09' N., longitude 165° 57' W.);

54° 50' 30" N., 167° 00' W., said coordinate being approximately N. 21° 45' W., approximately 67.06 miles from the Dutch Harbor lighthouse on Amaknak Island (approximate latitude 53° 54' N., longitude 166° 31' W.);

54° 35' 00" N., 168° 00' W.;

54° 14' 00" N., 169° 00' W.;

54° 00' N., 170° 00' W., said coordinate being approximately N. 45° 25' W., approximately 81.27 miles from the summit of Mt. Vsevidof on Umnak Island (approximate latitude 53° 07' 30" N., longitude 168° 41' 30" W., elevation 6,600 feet);

53° 53' 00" N., 171° 00' W.;

53° 42' 00" N., 172° 00' W., said coordinate being approximately N. 10° 50' E., approximately 97.83 miles from the top of Pyre Peak on Seguam Island (approximate latitude 52° 18' 45" N., longitude 172° 30' 30" W., elevation 3,458 feet);

53° 32' 00" N., 173° 00' W.;

53° 21' 00" N., 173° 42' 00" W.;

53° 12' 00" N., 174° 00' W.;

53° 08' 00" N., 174° 18' 00" W.;

53° 02' 30" N., 175° 00' W.;

52° 58' 00" N., 175° 30' 00" W.;

52° 54' 30" N., 176° 00' W.;

52° 51' 00" N., 176° 36' W.;

52° 52' 00" N., 177° 00' W., said coordinate being approximately N. 7° 30' W., approximately 65.48 miles from the summit of Mt. Moffett on Adak Island (approximate latitude 51° 51' 03" N., longitude 177° 45' W., elevation 3,924 feet);

52° 54' 00" N., 178° 00' W.;

52° 56' 00" N., 178° 42' 00" W.;

52° 55' 50" N., 179° 00' W., said coordinate being approximately N. 21° 10' W., approximately 79.68 miles from the summit of Mt. Gareloi on Gareloi Island (approximate latitude 51° 47' 21" N., longitude 178° 47' 30" W., elevation 5,160 feet);

52° 55' 00" N., 179° 30' 00" W.;

52° 58' 00" N., 180° 00';

52° 58' 00" N., 179° 30' 00" E.;

53° 01' 00" N., 179° 00' E., said coordinate being approximately N. 23° 50' W., approximately 75.74 miles from the top of Anvil Peak on Semisopochnoi Island (approximate latitude 51° 59' 15" N., longitude 179° 36' 30" E., elevation 4,007 feet);

53° 04' 30" N., 178° 00' E.;

53° 05' 30" N., 177° 36' E.;

53° 13' 00" N., 177° 00' E.;

53° 21' 00" N., 176° 18' 30" E.;

53° 24' 00" N., 176° 00' E., said coordinate being approximately N. 01° 20' E., approximately 72.58 miles from Vertical Control Station 2152 on Buldir Island (approximate latitude 52° 21' N., longitude 175° 55' E.);

53° 25' 00" N., 175° 12' 00" E.;

53° 25' 00" N., 175° 00' E.;

53° 27' 00" N., 174° 30' 00" E.;

53° 30' 00" N., 174° 00' E.;

53° 30' 30" N., 173° 42' 00" E.;

53° 30' 00" N., 173° 30' 00" E.;

53° 26' 00" N., 173° 00' E., said coordinate being approximately N. 29° 45' E., approximately 41.02 miles from Vertical Control Station 2217 on Attu Island (approximate latitude 52° 55' 30" N., longitude 172° 31' 30" E.);

53° 19' 00" N., 172° 24" E.;

53° 06' 00" N., 172° 00' E.;

52° 55' 00" N., 171° 48' 00" E., said coordinate being West, approximately 29.98 miles from Vertical Control Station 2217 on Attu Island (approximate latitude 52° 55' 30" N., longitude 172° 31' 30" E.);

52° 35' 00" N., 171° 42' 00" E.;

52° 12' 00" N., 171° 42' 00" E., said coordinate being approximately S.

50° 41' 00" N., 175° 00' W.;

50° 55' 00" N., 174° 00' W.;

52° 35' 00" N., 171° 42' 00" E.;

52° 12' 00" N., 171° 42' 00" E., said coordinate being approximately S. 36° W., approximately 76.53 miles from Vertical Control Station 2217 on Attu Island (approximate latitude 52° 55' 30" N., longitude 172° 31' 30" E.);

52° 00' N., 171° 48' 00" E.;

51° 30' 00" N., 172° 00' E.;

51° 40' 00" N., 172° 24' 00" E.;

51° 29' 00" N., 173° 00' E.;

51° 20' 00" N., 174° 00' E.;

51° 10' 00" N., 175° 00' E.;

51° 00' N., 175° 41' 00" E., said coordinate being approximately S. 04° 35' W., approximately 93.89 miles from Vertical Control Station 2152 on Buldir Island (approximate latitude 52° 21' N., longitude 175° 55' E.);

50° 54' 00" N., 176° 00' E.;

50° 47' 00" N., 176° 36' 00" E.;

50° 46' 00" N., 177° 00' E.;

50° 45' 00" N., 178° 00' E.;

50° 41' 00" N., 179° 00' E.;

50° 38' 30" N., 179° 30' 00" E.;

50° 40' 00" N., 180° 00', said coordinate being approximately S. 24° 50' E., approximately 86.79 miles from the top of Sugarloaf Peak on Semisopochnai Island (approximate latitude 51° 53' 39" N., longitude 179° 38' 14" E., elevation 2,800 feet);

50° 40' 00" N., 179° 00' W.;

50° 40' 00" N., 178° 00' W.; said coordinate being approximately S. 30° E., approximately 85.21 miles from the summit of Mt. Gareloi on Gareloi Island (approximate latitude 51° 47' 21" N., longitude 178° 47' 30" W., elevation 5,160 feet);

50° 37' 00" N., 177° 00' W.;

50° 36' 00" N., 176° 00' W.;

50° 36' 00" N., 175° 34' W.;

50° 41' 00" N., 175° 00' W.;

50° 55' 00" N., 174° 00' W.;

51° 10' 00" N., 173° 00' W., said coordinate being approximately S. 14° W., approximately 82.05 miles from the top of Pine Peak on Seguam Island (approximate latitude 52° 18' 45" N., longitude 172° 30' 30" W., elevation 3,458 feet);

51° 29' 00" N., 172° 00' W.;

51° 45' 00" N., 171° 00' W.;

51° 50' 00" N., 170° 00' W.;

51° 55' 00" N., 169° 00' W., said coordinate being approximately S. 04° 40' W., approximately 84.42 miles from the summit of Mt. Vsevidof on Umnak Island (approximate latitude 53° 07' 30" N., longitude 168° 41' 30" W., elevation 8,600 feet);

52° 05' 00" N., 168° 00' W., said coordinate being approximately S. 12° 20' W., approximately 83.03 miles from the summit of Mt. Tum Tum on Unalaska Island (approximate latitude 53° 16' N., longitude 167° 38' 12" W., elevation 1,960 feet);

52° 09' 00" N., 167° 00' W.;

52° 28' 00" N., 166° 00' W.;

52° 44' 00" N., 165° 18' 00" W.;

52° 54' 00" N., 165° 00' W., said coordinate being approximately N. 01° 30' E., approximately 81.26 miles from Horizontal Control Station Bridge on Tigalda Island (approximate latitude 54° 03' 54" N., longitude 165° 02' 24" W.);

53° 09' 00" N., 164° 36' 00" W.;

53° 25' 00" N., 164° 00' W.;

53° 51' 00" N., 163° 00' W., said coordinate being approximately S. 64° E., approximately 80.47 miles from the Scotch Cap lighthouse on Unimak Island (approximate latitude 54° 23' 39" N., longitude 164° 45' W.);

54° 00' N., 162° 18' 00" W.;

54° 15' 00" N., 162° 09' 00" W.;

54° 17' 30" N., 162° 08' 23" W.;

54° 20' 00" N., 162° 09' 00" W.;

54° 25' 00" N., 162° 12' 00" W.;

54° 30' 00" N., 162° 20' 30" W.;

54° 33' 30" N., 162° 30' 00" W., said coordinate being approximately N. 51° 30' W., approximately 11.04 miles from the top of Sanak Peak on Sanak Island (approximate latitude 54° 27' 51" N., longitude 162° 45' W., elevation 1,740 feet);

54° 37' 00" N., 162° 45' 00" W.;

54° 42' 00" N., 163° 00' 00" W., said coordinate being approximately N. 45° E., approximately 3.15 miles from the summit of an unnamed mountain on Unimak Island (approximate latitude 54° 40' 12" N., longitude 163° 03' 12" W., elevation 1,243 feet);

54° 45' 00" N., 163° 05' 00" W., said coordinate being approximately N. 34° 25' E., approximately 3.15 miles from the summit of an unnamed mountain on Unimak Island (approximate latitude 54° 42' 48" N., longitude 163° 07' 12" W., elevation 1,600 feet);

54° 47' 44" N., 163° 12' 00" W., said coordinate being N. 18° W., approximately 1.77 miles from the top of an unnamed hill on Unimak Island (approximate latitude 54° 46' 15" N., longitude 163° 12' W., elevation 458 feet);

54° 47' 44" N., 163° 21' 00" W., said coordinate being approximately S. 22° 30' W., approximately 2.36 miles from the top of Sentinal Peak on the Alaska Peninsula (approximate latitude 54° 49' 30" N., longitude 163° 19' 48" W., elevation 2,020 feet);

54° 49' 00" N., 163° 22' 00" W., said coordinate being approximately S. 67° W., approximately 1.57 miles from the top of Sentinal Peak on the Alaska Peninsula (approximate latitude 54° 49' 30" N., longitude 163° 19' 48" W., elevation 2,020 feet);

54° 49' 30" N., 163° 22' 00" W., said coordinate being West, approximately 1.38 miles from the top of Sentinel Peak on the Alaska Peninsula (approximate latitude 54° 49' 30" N., longitude 163° 19' 48" W., elevation 2,020 feet);

54° 51' 35" N., 163° 24' 00" W., said coordinate being approximately N. 79° W., approximately 1.77 miles from an unnamed mountain near Nichols Point on the Alaska Peninsula (approximate latitude 54° 51' 15" N., longitude 163° 21' 24" W., elevation 1,550 feet);

54° 53' 00" N., 163° 21' 40" W., said coordinate being approximately N. 09° W., approximately 1.97 miles from an unnamed mountain near Nichols Point, on the Alaska Peninsula (approximate latitude 54° 51' 15" N., longitude 163° 21' 24" W., elevation 1,550 feet);

54° 56' 00" N., 163° 22' 30" W., said coordinate being approximately N. 88° 30' W., approximately 2.56 miles from Traders Mountain on the Alaska Peninsula (approximate latitude 54° 56' N., longitude 163° 19' W., elevation 1,845 feet);

55° 02' 40" N., 163° 26' 30" W.;

55° 04' 30" N., 163° 30' 00" W.;

55° 12' 00" N., 163° 45' 00" W.;

55° 15' 40" N., 164° 00' 00" W.;

55° 15' 00" N., 164° 30' 00" W., thence to the beginning coordinate.

ALEUTIAN ISLANDS SUBUNIT (AMAK SEGMENT)

Aleutian Islands Subunit (Amak Segment) includes all lands (including submerged lands), waters and interests described in Executive Order No. 5318, dated April 7, 1930, within rhumb lines connecting the following 14 geographic coordinates;

55° 27' N., 163° 13' 30" W., said coordinate being approximately S. 41° W., approximately 1 2/5 miles from a lighthouse on Sealion Rock;

55° 29' N., 163° 13' W.;

55° 29' 50" N., 163° 11' W.;

55° 29' 40" N., 163° 10' W.;

55° 29' 10" N., 163° 08' W.;

55° 28' 10" N., 163° 06' W.;

55° 26' 45" N., 163° 05' W.;

55° 25' N., 163° 04' W., said coordinate being approximately S. 78° E., approximately 2 2/5 miles from Horizontal Control Station Amak;

55° 24' N., 163° 05' W.;

55° 23' 30" N., 163° 06' W.;

55° 23' 10" N., 163° 08' W.;

55° 23' 30" N., 163° 10' W., said coordinate being approximately S. 33° W., approximately 1 mile from Horizontal Control Station Badger;

55° 24' 20" N., 163° 12' W.;

55° 25' N., 163° 13' W., to the point of beginning.

BOGOSLOF SUBUNIT

Bogoslof Subunit includes all lands (including submerged lands), waters

Thence on an approximate forward bearing of N. 71° W., approximately 1 1/5 miles to the most southerly point of land in section 12, T. 48 S., R. 60 W., Seward Meridian, at the line of mean high tide of Sweater Bay;

BOGOSLOF SUBUNIT

Bogoslof Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1049, dated March 2, 1909, lying within a radius of 7 miles from Vertical Control Station 143, located at approximate latitude 53° 50' 42" N., longitude 168° 02' 00" W.

[illegible], all other public lands, as defined by the ANILCA, in the Aleutian Islands.

Section 303 (1):

> ALASKA PENINSULA UNIT--"including the existing Simeonof and Semidi National Wildlife Refuges, the Shumagin Islands, Sutwik Island, the islands and headlands of Puale Bay, and all other public lands on islands, islets, rocks, reefs, spires and designated capes and headlands south of the Alaska Peninsula from Katmai National Park to False Pass including such offshore lands incorporated in this unit under section 1427."

The Alaska Peninsula Unit includes the following described lands:

Designated subunits:

SEMIDI SUBUNIT

Semidi Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 5858, dated June 17, 1932, between latitudes 55° 51' N. and 56° 15' N., and longitudes 156° 30' W. and 157° 00' W.

SIMEONOF SUBUNIT

Simeonof Subunit, located in the Shumagin Island Group, at approximate latitude 54° 53' N., longitude 159° 15' W., includes all lands (including submerged lands), waters and interests described in Public Land Order 1749, dated October 30, 1958, as all of Simeonof Island and its tidelands, together with all adjacent areas of water extending one mile beyond mean low water, and including any islands within said one-mile area.

Designated capes and headlands:

SEAL CAPE

Seal Cape includes all public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner of sections 7 and 18, T. 48 S., R. 59 W., Seward Meridian, at the line of mean high tide of Kuiukta Bay and Sweater Bay;

Thence on an approximate forward bearing of N. 71° W., approximately 1 1/5 miles to the most southerly point of land in section 12, T. 48 S., R. 60 W., Seward Meridian, at the line of mean high tide of Sweater Bay;

Thence northeasterly, along the line of mean high tide of Sweater Bay, approximately 5 miles to the meander corner of sections 33 and 34, T. 47 S., R. 59 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, approximately 3/4 mile to the ¼ section corner of sections 27 and 28, T. 47 S., R. 59 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 27, approximately 1 mile to the special meander corner of section 27, T. 47 S., R. 59 W., Seward Meridian, at the line of mean high tide of Devils Bay;

Thence on an approximate forward bearing of S. 75° E., approximately 6,400 feet, to the most westerly point of land in section 35, T. 47 S., R. 59 W., Seward Meridian, at the line of mean high tide of Devils Bay;

Thence southeasterly, along the line of mean high tide of Devils Bay approximately 1¾ miles to the most southerly point of land in section 31, T. 47 S., R. 58 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean;

Thence on an approximate forward bearing of S. 14° W., approximately 1 3/10 miles to the most easterly point of land in section 7, T. 48 S., R. 58 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean;

Thence southwesterly, southeasterly, southwesterly, southeasterly, southwesterly and westerly, along the line of mean high tide of the Pacific Ocean, approximately 4½ miles to the most southwestern portion of section 25, T. 48 S., R. 59 W., Seward Meridian, at the line of mean high tide of Seal Bay;

Thence on an approximate forward bearing of S. 69° 30' W approximately 2 3/4 miles to the most southern point of land point in the east ½ of section 33, T. 48 S., R. 59 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean and Seal Bay;

Thence northwesterly, southwesterly and northwesterly, approximately 5 miles to the meander corner of sections 7 and 18, T. 48 S., R. 59 W., Seward Meridian, at the line of mean high tide of Kuiukta Bay and Sweater Bay, the place of beginning.

NOTE: The headlands in Chiniak Bay (North Point, Cape Ahlik and at Vertical Bench Mark Oil Triangle) are also included in the Kodiak National Wildlife Refuge, and have been described within the exterior boundary of that refuge.

And, all public lands, as defined by the ANILCA, on the Shumagin Islands, Hotwik Island and on all other named and unnamed islands, islets, rocks, reefs and spires south of the Alaska Peninsula. It is the intent of this description to include all such public lands occurring within all arms, bays, bights, coves, entrances, gulfs, harbors, inlets, lagoons, passages, passes, ports, sounds and straits, but not to include lands inland of the mouths of rivers or lakes on the mainland of Alaska.

Section 303 (1):

GULF OF ALASKA UNIT--"including the existing Forrester Island, Hazy Islands, Saint Lazaria and Tuxedni National Wildlife Refuges, the Barren Islands, Latax Rocks, Harbor Island, Pye and Chiswell Islands, Ragged, Natoa, Chat, Chevel, Granite and Middleton Islands, the Trinity Islands, all named and unnamed islands, islets, rocks, reefs, spires, and whatever submerged lands, if any, were retained in Federal ownership at the time of statehood surrounding Kodiak and Afognak Islands and all other such public lands on islands, islets, rocks, reefs, spires and designated capes and headlands within the the Gulf of Alaska, but excluding such lands within existing units of the National Park System, Nuka Island and lands within the National Forest System except as provided in section 1427 of this Act."

The Gulf of Alaska Unit includes the following described lands:

Designated subunits:

FORRESTER ISLAND SUBUNIT

Forrester Island Subunit includes all lands (including submerged lands) waters and interests described in Executive Order No. 1458, dated January 11, 1912, spires within: (a) North Segment--the rhumb lines connecting the following 6 geographic coordinates;

55° 02' 00" N., 133° 30' 00" W.;

55° 01' 45" N., 133° 31' 00" W.;

55° 00' 50" N., 133° 30' 30" W.;

55° 00' 15" N., 133° 29' 00" W.;

55° 00' 25" N., 133° 28' 00" W.;

55° 01' 30" N., 133° 28' 30" W., to the point of beginning; and,

(b) South Segment--the rhumb lines connecting the following 15 geographic coordinates:

54° 51' 30" N., 133° 35' 00" W., said coordinate being approximately N. 46° W., approximately 2 miles from Horizontal Control Station North located on Cape Horn Rocks;

54° 50' 00" N., 133° 35' 23" W.;

54° 48' 00" N., 133° 34' 36" W., said coordinate being approximately N. 84° 30' W., approximately 2 miles from the top located near the center of Forrester Island, approximate elevation 1,340 feet;

54° 46' 00" N., 133° 33' 23" W., said coordinate being approximately S. 89° W., approximately 1 3/10 miles from the top of a hill in the southern portion of Forrester Island, approximate elevation 270 feet;

54° 45' 00" N., 133 32' 28" W., said coordinate being approximately 1 3/10 miles from the Horizontal Control Station South, located on a group of rocks off the southern shore of Forrester Island;

54° 44' 00" N., 133° 30' 00" W.;

54° 44' 00" N., 133° 29' 09" W.;

54° 45' 00" N., 133° 28' 35" W., said coordinate being approximately S. 80° E., approximately 1 1/5 miles from Horizontal Control Station Petrel, located in the southern portion of Petrel Island;

54° 47' 13" N., 133° 29' 17" W.;

54° 50' 00" N., 133° 29' 17 W., said coordinate being approximately S. 81° E., approximately 1 7/10 miles from Horizontal Control Station Forrester, located in the northern portion of Forrester Island;

54° 52' 00" N., 133° 30' 00" W., said coordinate being approximately N. 66° E., approximately 1 2/3 miles from the most eastern point of Laurie Island;

54° 33' 00" N., 133° 31' 00" W.;

56° 59' 30" N., 135° 43' W.;

56° 59' 28" N., 135° 43' 35" W.;

UMI
VOL 48 ISS 38 FE - 24 1983

54° 33' 00" N., 133° 31' 00" W.;

54° 53' 39" N., 133° 32' 00" W.;

54° 53' 39" N., 133° 33' 00" W.;

54° 53' 00" N., 133° 34' 20" W., to the point of beginning.

HAZY ISLANDS SUBUNIT

Hazy Islands Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1459, dated January 11, 1912, within rhumb lines connecting the following 12 geographic coordinates:

55° 53' 30" N., 134° 36' W., said point being approximately N. 84° W., approximately 1 mile from Horizontal Control Station Hazy, located on the most northern island of the Subunit.

55° 53' 00" N., 134° 37' 50" W., said point being approximately S. 80° 30' W., approximately 1 mile from Horizontal Control Station Big, located on Big Hazy Islet;

55° 52' 00" N., 134° 36' 50" W.;

55° 51' 20" N., 134° 35' 25" W.;

55° 51' 20" N., 134° 34' 35" W.;

55° 51' 40" N., 134° 33' 17" W.; said point being approximately S. 85° E., approximately 1 mile from Horizontal Control Station Reef, located on the most southern island of the Subunit;

55° 52' 10" N., 134° 32' 35" W., said point being approximately N. 89° 30' E., approximately 1 1/10 miles from Horizontal Control Station Dome, located on the most eastern island of the Subunit;

55° 52' 40" N., 134° 32' 52" W.;

55° 53' 10" N., 134° 34' W.;

55° 54' 09" N., 134° 35' W.;

55° 54' 32" N., 134° 36' W.;

55° 54' 00" N., 134° 38' W.;

Thence to the point of beginning.

SAINT LAZARIA SUBUNIT

Saint Lazaria Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1040, dated February 27, 1909, within rhumb lines connecting the following 10 geographic coordinates;

56° 59' 30" N., 135° 43' W.;

56° 59' 20" N., 135° 43' 35" W.;

56° 59' 10" N., 135° 43' 43" W.;

56° 59' 00" N., 135° 43' 35" W.;

56° 58' 50" N., 135° 43' 35" W.;

56° 58' 50" N., 135° 42' 00" W.;

56° 59' 00" N., 139° 41' 30" W.;

56° 59' 10" N., 139° 41' 20" W.;

56° 59' 20" N., 139° 41' 20" W.;

56° 59' 30" N., 135° 42' 00" W.; to the point of beginning.

TUXEDNI SUBUNIT

Tuxedni Subunit includes all lands (including submerged lands), waters and interests described in Executive Order No. 1039, dated February 27, 1909, within rhumb lines connecting the following 17 geographic coordinates;

60° 11' 27" N., 152° 44' 42" W., said coordinate being a point dividing Lake Clark National Park and Preserve and said Subunit;

60° 13' 36" N., 152° 44' 42" W.;

60° 13' 30" N., 152° 44' 00" W.;

60° 13' 54" N., 152° 42' 00" W.;

60° 13' 24" N., 152° 39' 06" W.;

60° 12' 30" N., 152° 36' 00" W.;

60° 11' 05" N., 152° 33' 00" W.;

60° 08' 30" N., 152° 30' 00" W.; said coordinate being approximately S. 76° E., approximately 1 3/5 miles from the southeastern shore of Duck Island;

60° 06' 18" N., 152° 29' 30" W.;

60° 05' 12" N., 152° 30' 00" W.;

60° 04' 36" N., 152° 30' 48" W., said coordinate being approximately S. 52° E., approximately 4 3/20 miles from a lighthouse in the southern portion of section 16, T. 1 S., R. 19 W. Seward Meridian;

UMI

VOL 48

60° 04' 06" N., 152° 32' 00" W.;

60° 04' 24" N., 152° 33' 00" W.;

60° 06' 18" N., 152° 36' 00" W., said coordinate being approximately S. 89° W., approximately 1 1/10 miles from a hill in the west half of section 9, T. 1 S., R. 19 W., Seward Meridian, approximate elevation 609 feet;

60° 08' 30" N., 152° 39' 00" W.;

60° 09' 30" N., 152° 39' 54" W.;

60° 10' 21" N., 152° 40' 54" W., to the point of beginning.

Submerged lands surrounding Kodiak and Afognak Islands, retained at the time of statehood:

AFOGNAK ISLAND

Afognak Island includes all public land, as defined by the ANILCA, on islands, islets, rocks, reefs and spires together with all water and submerged land, described in Proclamation No. 39, dated December 24, 1892, encompassed in the following described boundary:

Beginning at a point located at the intersection of arcs drawn with 3 nautical mile radii from Rocky Island and Green Island, which point is at approximate latitude 58° 32' 15" N., longitude 152° 46' 30" W.;

Thence southwesterly, along a line 3 nautical miles seaward of the salient points on the westerly side of Afognak Island, closing Foul Bay and Paramanof Bay, (using as headlands Black Cape on the north and Cape Paramanof on the south), and closing Malina Bay, to a point located at the intersection of arcs drawn with 3 nautical mile radii from triangulation Station MUN and the most northerly point on Raspberry Island, which point is at approximate latitude 58° 11' 45" N., longitude 153° 18' 45" W.;

Thence southeasterly, along a median line through the main channel of Raspberry Narrows and Afognak Strait to a point located at the intersection of arcs drawn with 3 nautical mile radii from Hog Island and Treeless Island, which point is at approximate latitude 57° 58' 30" N., longitude 152° 36' 35" W.;

Thence northeasterly, along a line 3 nautical miles seaward of the salient points on the southeasterly side of Afognak Island, closing Afognak Bay, Kazakof Bay, Duck Bay and Izhut Bay to a point located at the intersection of arcs drawn with 3 mile radii from Marmot Island and Afognak Island south of King Cove, which point is at approximate latitude 58° 09' 00" N., longitude 151° 57' 50" W.;

Thence northerly, along a median line through Marmot Strait to a point located equidistant from Marmot Island, Sealion Rocks and Tonki Cape Peninsula, which point is at approximate latitude 58° 18' 30" N., longitude 151° 52' 45" W.;

Thence easterly, along a median line between Sealion Rocks and Marmot Island to a point located at the intersection of arcs drawn with 3 nautical mile radii from Marmot Island and Sealion Rocks, which point is at approximate latitude 58° 18' 20" N., longitude 151° 45' 00" W.;

Thence northerly and westerly, along a line 3 nautical miles seaward of the salient points around the easterly and northerly shores of Sealion Rocks to a point located at the intersection of arcs drawn with 3 nautical mile radii from Sealion Rocks and Tonki Cape, which point is at approximate latitude 58° 22' 25" N., longitude 151° 53' 15" W.;

Thence northwesterly, along a line 3 nautical miles seaward of the salient points on the northeasterly side of Afognak Island, closing Tonki Bay and Seal Bay to a point located at the intersection of arcs drawn with 3 nautical mile radii from Seal Islands and Sea Otter Island, which point is at approximate latitude 58° 28' 15" N., longitude 152° 11' 30" W.;

Thence northeasterly, northerly and westerly, along a line 3 nautical miles seaward of the salient points around the southerly, easterly and northerly shores of Sea Otter Island to a point located at the intersection of arcs drawn with 3 nautical mile radii from Sea Otter Island and Shuyak Island, which point is at approximate latitude 58° 34' 30" N., longitude 152° 14' 45" W.;

Thence southerly, along a median line between Sea Otter Island and Shuyak Island to a point located equidistant from Sea Otter Island, Shuyak Island and the northernmost of the Seal Islands, which point is at approximate latitude 58° 29' 45" N., longitude 152° 17' 30" W.;

Thence southwesterly and northwesterly, along a median line through Shuyak Strait to the point of beginning.

KARLUK

Karluk includes all water and submerged lands as described in Public Land Order 128, dated June 18, 1943, encompassed in following described boundary:

Beginning at the end of a point of land on the shore of Shelikof Strait on Kodiak Island, said point being about 1¼ miles east of Rocky Point, at approximate latitude 57° 39' 40" N., longitude 154° 12' 20" W.;

Thence due North, 3,000 feet from the shoreline at mean low tide;

Thence southwesterly, along a line parallel to and 3,000 feet distant from the shoreline at mean low tide to a point due West of the confluence of the north shore of Sturgeon River with the east shore of Shelikof Strait;

Thence due East, 3,000 feet to the confluence of the north shore of Sturgeon River with the east shore of Shelikof Strait at mean high tide;

Thence northeasterly, following the easterly shore of Shelikof Strait

Nuka Island or that are part of the Katmai National Park and Preserve, Glacier Bay National Park and Preserve and the Chugach and Tongass National Forests (except as provided by Section 1427).

Thence due East, 3,000 feet to the confluence of the north shore of Sturgeon River with the east shore of Shelikof Strait at mean high tide;

Thence northeasterly, following the easterly shore of Shelikof Strait along the line of mean high tide to the place of beginning.

WOMENS BAY

Womens Bay includes all water and submerged lands, described in Public Land Order 1182, dated July 7, 1955, encompassed in the following described boundary:

Beginning at point 9 of the perimeter survey of U.S. Survey No. 2539, which point is at the intersection of mean high tide on the south side of Middle Bay with the upland of Kodiak Island;

Thence N. 40° 36' E., 198.64 chains, to point 10 of U.S. Survey No. 2539;

Thence North, 184.55 chains, to point 11 of U.S. Survey No. 2539;

Thence N. 5° 05' 30" W., 259.70 chains, to point 12, of U.S. Survey No. 2539, which is the intersection of the mean high tide on the northerly side of Chiniak Bay with the upland of Kodiak Island;

Thence southwesterly northwesterly, northeasterly, southerly, southeasterly, along the line of mean high tide of Chiniak Bay, Womens Bay and Middle Bay to the point of beginning.

And, all other such public lands, as defined by the ANILCA, on the Barren Islands, Latax Rocks, Harbor Island, Pye and Chiswell Islands, Ragged, Natos, Chat, Chevel, Granite and Middleton Islands, the Trinity Islands and all other named and unnamed islands, inlets, rocks, reefs and spires in the Gulf of Alaska. It is the intent of this description to include all such public lands occurring within all arms, bays, bights, coves, entrances, gulfs, harbors, inlets, lagoons, passages, passes, ports, sounds and straits, but not to include lands inland of the mouths of rivers or lakes on the mainland of Alaska or such public lands on Nuka Island or that are part of the Katmai National Park and Preserve, Glacier Bay National Park and Preserve and the Chugach and Tongass National Forests (except as provided by Section 1427).

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE ALASKA MARITIME NATIONAL WILDLIFE REFUGE:

Wilderness areas established by P.L. 96-487, December 2, 1980:

Section 702 (1):

> "Aleutian Islands Wilderness of approximately one million three hundred thousand acres as generally depicted on a map entitled "Aleutian Islands Wilderness", dated October 1978."

This unit (in 2 segments) is described as follows:

ALEUTIAN ISLANDS SEGMENT

The Aleutian Islands Wilderness (Aleutian Islands Segment) includes all described in Executive Order No. 1733, dated March 3, 1913, above the mean high tide on islands, islets, rocks, reefs, and spires within rhumb lines connecting the following 97 geographic coordinates;

53° 13' 00" N., 165° 00' W., said coordinate being approximately N. 4° 45' W., approximately 41.81 miles from Cape Sarichef lighthouse on Unimak Island (approximate latitude 54° 36' N., longitude 164° 54' W.);

53° 03' 00" N., 166° 00' W., said coordinate being approximately N. 10° 15' W., approximately 63.90 miles from the Akutan Harbor lighthouse on Akutan Island (approximate latitude 54° 09' N., longitude 165° 57' W.);

54° 50' 30" N., 167° 00' W., said coordinate being approximately N. 21° 45' W., approximately 67.06 miles from the Dutch Harbor lighthouse on Amaknak Island (approximate latitude 53° 54' N., longitude 166° 31' W.);

54° 35' 00" N., 168° 00' W.;

54° 14' 00" N., 169° 00' W.;

54° 00' N., 170° 00' W., said coordinate being approximately N. 45° 25' W., approximately 81.27 miles from the summit of Mt. Vsevidof on Unimak Island (approximate latitude 53° 07' 30" N., longitude 168° 41' 30" W., elevation 6,600 feet);

51° 20' 00" N., 174° 00' E.;

51° 10' 00" N., 175° 00' E.;

51° 00' N., 175° 41' 00" E., said coordinate being approximately S. 04° 35' W., approximately 93.89 miles from Vertical Control Station 2152 on Buldir Island (approximate latitude 52° 21' N., longitude 175° 55' E.);

50° 54' 00" N., 176° 00' E.;

50° 47' 00" N., 176° 36' 00" E.;

50° 46' 00" N., 177° 00' E.;

50° 45' 00" N., 178° 00' E.;

50° 41' 00" N., 179° 00' E.;

50° 38' 30" N., 179° 30' 00" E.;

50° 40' 00" N., 180° 00', said coordinate being approximately S. 24° 50' E., approximately 86.79 miles from the top of Sugarloaf Peak on Semisopochnai Island (approximate latitude 51° 53' 39" N., longitude 179° 31' 14" E., elevation 2,800 feet);

50° 40' 00" N., 179° 00' W.;

50° 40' 00" N., 178° 00' W.; said coordinate being approximately S. 30° E., approximately 85.21 miles from the summit of Mt. Gareloi on Gareloi Island (approximate latitude 51° 47' 21" N., longitude 178° 47' 30" W., elevation 5,160 feet);

50° 37' 00" N., 177° 00' W.;

50° 36' 00" N., 176° 00' W.;

50° 36' 00" N., 175° 34' W.;

50° 41' 00" N., 175° 00' W.;

50° 55' 00" N., 174° 00' W.;

51° 10' 00" N., 173° 00' W., said coordinate being approximately S. 14° W., approximately 82.05 miles from the top of Pine Peak on Seguam Island (approximate latitude 52° 18' 45" N., longitude 172° 30' 30" W., elevation 3,458 feet);

51° 29' 00" N., 172° 00' W.;

51° 45' 00" N., 171° 00' W.;

51° 50' 00" N., 170° 00' W.;

51° 55' 00" N., 169° 00' W., said coordinate being approximately S. 04° 40' W., approximately 84.42 miles from the summit of Mt. Vsevidof on Umnak Island (approximate latitude 53° 07' 30" N., longitude 168° 41' 30" W., elevation 6,600 feet);

52° 05' 00" N., 168° 00' W., said coordinate being approximately S. 12° 20' W., approximately 83.63 miles from the summit of Mt. Tum Tum on Unalaska Island (approximate latitude 53° 16' N., longitude 167° 38' 12" W., elevation 1,960 feet);

52° 09' 00" N., 167° 00' W.;

52° 28' 00" N., 166° 00' W.;

52° 44' 00" N., 165° 18' 00" W.;

52° 54' 00" N., 165° 00' W., said coordinate being approximately S. 01° 30' E., approximately 81.26 miles from Horizontal Control Station Bridge on Tigalda Island (approximate latitude 54° 03' 54" N., longitude 165° 02' 24" W.);

53° 09' 00" N., 164° 36' 00" W.;

53° 25' 00" N., 164° 00' W.;

53° 51' 00" N., 163° 00' W., said coordinate being approximately S. 64° E., approximately 80.47 miles from the Scotch Cap lighthouse on Unimak Island (approximate latitude 54° 23' 39" N., longitude 164° 45' W.);

54° 00' N., 162° 18' 00" W.;

54° 15' 00" N., 162° 09' 00" W.;

54° 17' 30" N., 162° 08' 23" W.;

54° 20' 00" N., 162° 09' 00" W.;

54° 25' 00" N., 162° 12' 00" W.;

54° 30' 00" N., 162° 20' 30" W.;

54° 33' 30" N., 162° 30' 00" W., said coordinate being approximately N. 51° 30' E., approximately 11.04 miles from the top of Sanak Peak on Sanak Island (approximate latitude 54° 27' 51" N., longitude 162° 45' W., elevation 1,740 feet);

55° 15' 00" N., 164° 30' 00" W., thence to the beginning coordinate.

The following lands are <u>not</u> included in the Aleutian Islands Wilderness:

<u>Akun Island</u>, the entire island, above the line of mean high tide (approximate latitude 54° 12' N., longitude 165° 30' W.);

<u>Akutan Island</u>, the entire island, above the line of mean high tide (approximate latitude 54° 09' N., longitude 166° 00' W.);

<u>Sanak Island</u>, the entire island, above the line of mean high tide (approximate latitude 54° 25' N., longitude 162° 42' W.);

<u>Tigalda Island</u>, the entire island, above the line of mean high tide (approximate latitude 54° 06' N., longitude 165° 04' W.);

<u>Umnak Island</u>, the entire island, above the line of mean high tide (approximate latitude 53° 12' N., longitude 168° 30' W.);

<u>Unalaska Island</u>, the entire island, above the line of mean high tide (approximate latitude 53° 45' N., longitude 166° 45' W.);

<u>Sedanka Island</u>, the entire island, above the line of mean high tide (approximate latitude 53° 45' N., longitude 166° 14' W.);

<u>Amaknak Island</u>, the entire island, above the line of mean high tide (approximate latitude 53° 55' 30" N., longitude 166° 32' W.);

<u>Shemya Island</u>, the entire island, above the line of mean high tide (approximate latitude 52° 43' 40" N., longitude 174° 06" E.);

<u>Attu Island</u>, beginning at a point northeast of Krasni Point at the line of mean high tide, where a stream empties into the Pacific Ocean at approximate latitude 52° 47' 43" N., longitude 173° 08' 50" E.;

Thence upstream in a west-northwest direction, following the right branch to the 250-foot contour level;

Thence northeasterly, northerly and northwesterly, along the 250-foot contour to the intersection of the 250-foot contour and an unnamed stream at approximate latitude 52° 49' 07" N., longitude 173° 09' 12" E.;

Thence upstream in a west and southwest direction, to the 1,000-foot contour at approximate latitude 52° 48' 57" N., longitude 173° 08' 52" E.;

Thence northwesterly, along the 1,000-foot contour to the termination of the most westerly branch of Kingfisher Creek at approximately latitude 52° 49' 24" N., longitude 173° 07' 33" E;

Thence easterly and southerly, along the line of mean high tide around Chichagof Point and Chichagof Harbor, and easterly, along Chichagof Beach to a point at the intersection of a stream from Lake Canirus and Chichagof Harbor at approximate latitude 52° 55' 31" N.;

Thence northwesterly, along the 1,000-foot contour to the termination of the most westerly branch of Kingfisher Creek at approximately latitude 52° 49' 24" N., longitude 173° 07' 33" E;

Thence due North approximately 1,650 feet to the top of Lookout Hill, at approximate latitude 52° 49' 38" N., longitude 173° 07' 33" E.;

Thence north-northwesterly, approximately about 4,800 feet to the junction of Peaceful River and Angel Creek at approximate latitude 52° 50' 26" N., longitude 173° 07' 55" E.;

Thence northeasterly, approximately about 5,000 feet to the termination of the first right branch stream of Peaceful River, at approximate latitude 52° 50' 53" N., longitude 173° 09' 02" E.;

Thence along this branch downstream in an easterly direction, approximately 920 feet to the intersection with the 500-foot contour level;

Thence along the 500-foot contour easterly, northerly, and northwesterly, around Terrible Mountain, through Zwinge Valley and around Black Mountain to a point which is 200 feet from the Jarmin Pass Road at approximate latitude 52° 53' 18" N., longitude 173° 08' 21" E.;

Thence parallel to and 200 feet from the centerline of Jarmin Pass Road on the east, the north side of which passes through O'Donnell Valley to Addison Valley which ends in the West Arm of Holtz Bay, to the intersection of the road and Addison Creek, at approximate latitude 52° 55' 18" N., longitude 173° 07' 41" E.;

Thence down Addison Creek, approximately 400 feet;

Thence southerly and easterly along a line parallel to and 200 feet from the centerline of the road through O'Donnell Valley and Jarmin Pass to a point which lies about 300 feet from the road entering the World War II storage tunnel, at approximate latitude 52° 53' 11" N.;

Thence northeasterly, parallel to and 300 feet from the storage tunnel to the first branch of Bassett Creek;

Thence along this branch downstream into the main Bassett Creek, to a point that lies approximately 400 feet west of the Chichagof Harbor Road at approximate latitude 52° 53' 13" N., longitude 173° 12' 18" E.;

Thence along a line parallel to and 300 feet from the centerline of Chichagof Harbor Road on the northwest and westerly side, to a point and at the southern boundary of a small unnamed lake, at approximate latitude 52° 56' 14" N., longitude 173° 14' 34" E., which lies approximately 1,700 feet southwest of the Chichagof Point;

Thence due North, approximately 2,700 feet to a point at the line of mean high tide, on the Bering Sea shoreline, at approximate latitude 52° 56' 39" N., longitude 173° 14' 34" E.;

Thence easterly and southerly, along the line of mean high tide around Chichagof Point and Chichagof Harbor, and easterly, along Chichagof Beach to a point at the intersection of a stream from Lake Canirco and Chichagof Harbor at approximate latitude 52° 55' 31" N.;

Thence southerly, along this stream to the north end of Lake Canirco;

Thence along the northwest and western shoreline of Lake Canirco, the stream entering the southwest corner of the lake;

Thence along the left bank of this stream, to the north end of Lake Cories;

Thence along the northwest shoreline of Lake Cories, to a point at the southwest corner of the lake;

Thence southeast, approximately 200 feet to a point approximately 300 feet from the centerline of the Chichagof Harbor road;

Thence southwesterly, parallel to an 300 feet from the centerline of the road, to a point where the line intersects the left branch of the stream entering Lake Nicholas, at approximate latitude 52° 53' 30" N., longitude 173° 12' 18" E.;

Thence southwesterly, approximately 900 feet to a small promontory and benchmark at approximate latitude 52° 53' 07" N., longitude 173° 11' 28" E.;

Thence due South, approximately 300 feet to the 500-foot contour;

Thence southeasterly, along the 500-foot contour on the south side of Gilbert Ridge, to and around the old military post at Alexai Point, past Alexai Creek to the intersection of the 500-foot contour and a left branch of a small stream which enters Massacre Bay at Hidalgo Beach;

Thence downstream in a southeasterly direction, to the intersection of the stream and Massacre Bay at the line of mean high tide, at approximate latitude 52° 49' 53" N.;

Thence westerly and southerly, along the line of mean high tide of Massacre Bay to Alexai Point;

Thence northwesterly, northerly and northwesterly, around Alexai Point and along the base of Gilbert Ridge to Massacre Beach;

Thence southwesterly, along the line of mean high tide of Massacre Beach to and through Navy Cove;

Thence easterly and westerly, around Loaf Island and the spit connecting said island to the main island;

Thence south-southwesterly, past Barbara Point to Casco Point;

Thence northerly, westerly, southerly, southeasterly and northeasterly, along the line of mean high tide of Casco Point, Casco Beach, and Casco Cove to the point reaching into Casco Cove, which is just south of Casco Point;

Thence south-southeasterly, the line of mean high tide, along to Murder Point which at mean high tide is connected to Loaf Island;

Thence westerly, to the beginning point.

Kiska Island Beginning at an approximate point, latitude 51° 57' 32" N., longitude 177° 32' 30" E., at the line of mean high tide in the southwestern corner of Kiska Harbor;

Thence due South, approximately 950 feet to the 250-foot contour;

Thence westerly and easterly, along the 250-foot contour around the drainage in the southwestern section of Kiska Harbor;

Thence northerly, westerly, easterly and northeasterly, along the 250-foot contour around the drainage system for Trout Lagoon, except where the road arises above this level, when the northern edge of the road is followed;

Thence along the 250-foot contour, to the intersection of this contour and the most southerly branch of the stream draining the northwestern land area of Kiska Harbor, at approximate latitude 51° 59' 12" N., longitude 177° 32' 13" E.;

Thence westerly and northwesterly, along this stream and its right-hand branch to a point at approximate latitude 51° 59' 24" N., longitude 177° 31' 33" E.;

Thence due North, approximately 1,400 feet to a peak, approximate elevation 455 feet;

Thence due East, approximately 4,900 feet to a point on the mean high tide line of Salmon Lagoon, approximately 270 feet south of a stream emptying into the westernmost end of Salmon Lagoon;

Thence southeasterly, easterly, and northeasterly, along the line of mean high tide along the south shoreline of Salmon Lagoon to a point where the waters of Salmon Lagoon and the Pacific Ocean meet, at approximate latitude 51° 59' 32" N., longitude 177° 34' 20" E.;

Thence South, along the line of mean high tide to North Head and around the shoreline of Kiska Harbor to the point of beginning.

Amchitka Island

Tract A That land, above mean high tide on Amchitka Island, east of a line beginning at the mouth of a stream which empties into Landslide Cove, Bering Sea, at approximate latitude 51° 34' 20" N., longitude 178° 59' 25" E.;

Thence upstream in a southwesterly direction, to the unnamed lake at the head of the stream;

Thence around the southern shore of said unnamed lake;

Thence due West, to the Infantry Road;

Thence westerly, along said road for approximately 3/4 mile;

Thence southerly, around the eastern shore of the unnamed lake adjacent to the Infantry Road;

Thence downstream along the stream draining the unnamed lake, in a southerly direction, to the intersection of the stream and the Pacific Ocean, at approximate latitude 51° 32' 40" N., longitude 178° 57' 00" E.;

Tract B That land, above mean high tide on Amchitka Island, west of a line beginning at the mouth of the stream which empties into the Bering Sea, at approximate latitude 51° 38' 29" N., longitude 178° 42' 32" E.;

Thence upstream in a southwesterly direction, to the head of that draw;

Thence due South, following the draw of an intermittent stream to its intersection with the Pacific Ocean, at approximate latitude 51° 36' 34" N., longitude 178° 41' 26" E.;

Tract C That land on Amchitka Island lying within a radius of one-half mile from the peak of a hill, approximate elevation 1,160 feet, located at approximate latitude 51° 36' 23" N., longitude 178° 48' 40" E.;

Tract D That land on Amchitka Island within a 100-foot corridor on each side of the Infantry Road which bisects the island and connects above 3 tracts.

Oglhuga Island Beginning at a point on the northern coastline, where an unnamed stream empties into the Bering Sea, at approximate latitude 51° 36' 32" N., longitude 178° 39' 35" W.;

Thence upstream in a southeasterly direction, to the drainage ditch draining an abandoned airfield;

Thence southwesterly, approximately 300 feet along the northwest edge of said drainage ditch to its termination;

Thence due South, approximately 350 feet to the southwestern end of a drainage ditch that parallels the southeastern side of the airfield;

Thence northeasterly, along the southeast edge of the drainage ditch and

Thence easterly, along the 200-foot contour around the ridge separating Fox Creek and Little Fox Creek;

Thence northerly, easterly and southerly, along on the 200-foot contour

Thence due South, approximately 350 feet to the southwestern end of a drainage ditch that parallels the southeastern side of the airfield;

Thence northeasterly, along the southeast edge of the drainage ditch and runway where the drainage ditch terminates, to the most southerly road that serves the eastern portion of the island;

Thence easterly, along the southern edge of this road to its termination, at approximate latitude 51° 36' 30" N., longitude 178° 36' 55" W.;

Thence due North, approximately 320 feet to the line of mean high tide on the northern coastline, at approximate latitude 51° 36' 32" N., longitude 178° 36' 55" W.

Thence westerly, along the line of mean high tide, of the coast to the point of beginning.

Tanaga Island Beginning at a point southeast of Cape Amagalik, at the line of mean high tide, at approximate latitude 51° 39' 55" N., longitude 178° 05' 27" W.;

Thence due North, approximately 800 feet to a point just north and west of the World War II radar tower;

Thence east-northeasterly, along the northern boundary of the old military road connecting the radar tower area with the abandoned airfield, to the stream draining the northwest side of the runway, at approximate latitude 51° 40' 26" N., longitude 173° 03' 40" W.;

Thence upstream in a north-northeasterly direction, to and paralleling the northwest side of the abandoned airfield to a point approximately 500 feet north of the airfield, at approximate latitude 51° 41' 36" N., longitude 178° 02' 27" W.;

Thence due South, to a point on Lash Bay at the line of mean high tide, at approximate latitude 51° 40' 22" N., longitude 178° 02' 27" W.;

Thence westerly, along the line of mean high tide of the coast to the point of beginning.

Adak Island That part of the island east of the Bay of Islands and north of latitude 51° 47' 15" N.

Great Sitkin Island Beginning at a point on the shoreline at the bottom of the ridge west of Fox Creek, at approximate latitude 51° 59' 53" N.;

Thence uphill due West, to the 200-foot contour;

Thence northerly, easterly and southerly, along the 200-foot contour around the Fox Creek drainage;

Thence easterly, along the 200-foot contour around the ridge separating Fox Creek and Little Fox Creek;

Thence northerly, easterly and southerly, along on the 200-foot contour around the Little Fox Creek drainage;

Thence southerly, along the base of the bluff facing Sand Bay toward Zaliva Point to a midway point at approximate latitude 51° 59' 00" N., longitude 176° 05' 40" W.;

Thence due West, approximately 200 yards to the line of mean high tide, at approximate latitude 51° 59' 00" N., longitude 176° 05' 55" W.;

Thence northerly and northwesterly, along the line of mean high tide to the point of beginning.

Ugamak Island All lands above mean high tide lying east of longitude 164° 50' 00" W.

And the following tracts withdrawn for Native selection under the Alaska Native Claims Settlement Act for the villages of:

ALEUTIAN ISLANDS WILDERNESS (AMAK SEGMENT)

Aleutian Islands Wilderness (Amak Segment) includes all lands above the line of mean high tide on islands, islets, rocks, reefs and spires, described in Executive Order No. 5318, dated April 7, 1930, within rhumb lines connecting the following 14 geographic coordinates;

55° 27' N., 163° 13' 30" W., said coordinate being approximately S. 41° W., approximately 1 2/5 miles from a lighthouse on Sealion Rock;

55° 29' N., 163° 13' W.;

55° 29' 50" N., 163° 11' W.;

55° 29' 40" N., 163° 10' W.;

55° 29' 10" N., 163° 08" W.;

55° 28' 10" N., 163° 06' W.;

55° 26' 45" N., 163° 05' W.;

55° 25' N., 163° 04' W., said coordinate being approximately S. 78° E., approximately 2 2/5 miles from Horizontal Control Station Amak;

55° 24' N., 163° 05' W.;

55° 23' 30" N., 163° 06' W.;

55° 23' 10" N., 163° 08' W.;

55° 23' 30" N., 163° 10' W., said coordinate being approximately S. 33° W., approximately 1 mile from Horizontal Control Station Badger;

55° 24' 20" N., 163° 12' W.;

55° 25' N., 163° 13' W., to the point of beginning.

Section 702 (11):

> "Semidi Wilderness of approximately two hundred fifty thousand acres as generally depicted on a map entitled 'Semidi Wilderness', dated October 1978," and described as follows:

Semidi Wilderness includes all lands (including submerged lands), waters and interests in Executive Order No. 5858, dated June 17, 1932, between latitudes 55° 51' N. and 56° 15' N., and longitudes 156° 30' W. and 157° 00' W.

Section 702 (13):

> "Unimak Wilderness of approximately nine hundred and ten thousand acres, as generally depicted on a map entitled 'Unimak Wilderness', dated October 1978," and described as follows:

Unimak Wilderness includes all lands above the line of mean high tide, on Unimak Island located at approximate latitude 54° 58' N. and longitude 164° 12' W., excluding those tracts of land within the following described boundaries;

Tract A Beginning at the corner of Ts. 59 and 60 S., Rs. 95 and 96 W., Seward Meridian;

Thence southerly, between Rs. 95 and 96 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 60 S., Rs. 95 and 96 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, approximately 11 miles, to the corner of sections 13, 14, 23 and 24, T. 60 S., R. 94 W., Seward Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, approximately 1½ miles, to the ¼ section corner of sections 25 and 30, T. 60 S., Rs. 93 and 94 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 5 and 8, 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, approximately 7½ miles, to the corner of sections 4, 5, 8 and 9, T. 63 S., R. 92 W., Seward Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, approximately 1½ miles, to the ¼ section corner of sections 25 and 30, T. 60 S., Rs. 93 and 94 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 25, approximately 1 mile, to the ¼ section corner of sections 25 and 30, T. 60 S., Rs. 93 and 94 W., Seward Meridian;

Thence southerly, between Rs. 93 and 94, approximately ½ mile, to the corner of sections 25, 30, 31 and 36, T. 60 S., Rs. 93 and 94 W., Seward Meridian;

Thence easterly, between sections 30 and 31, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 60 S., R. 93 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile, to the standard corner of sections 31 and 32, T. 60 S., R. 93 W., Seward Meridian;

Thence westerly, on the 15th Standard Parallel South, approximately 2 1/10 miles, to standard corner of sections 1 and 6, Ts. 60 and 61 S., R. 94 and 95 W., Seward Meridian;

Thence southerly, between Rs. 94 and 95 W., approximately 6 miles to the corner of Ts. 61 and 62 S., Rs. 94 and 95 W., Seward Meridian;

Thence easterly, between Ts. 61 and 62 S., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Ts. 61 and 62 S., R. 94 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles, to the corner of sections 21, 22, 27 and 28, T. 62 S., R. 94 W., Seward Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, approximately 2 miles, to the corner of sections 19, 20, 29 and 30, T. 62 S., R. 94 W., Seward Meridian;

Thence southerly, between sections 29 and 30, 31 and 32, 5 and 6, approximately 3 miles, to the corner of sections 5, 6, 7 and 8, T. 63 S., R. 94 W., Seward Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, 3 and 10, approximately 2½ mile,, to a special meander corner with the west bank of Otter Cove in T, 63 S., R 94 W., Seward Meridian, at the line of mean high tide;

Thence northeasterly and southeasterly, along the bank of said cove, approximately 3 miles, to the corner of sections 6 and 7, T. 63 S., R. 93 W., Seward Meridian, at the line of mean high tide;

Thence easterly, between sections 6 and 7, 5 and 8, 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, approximately 7¼ miles, to the corner of sections 4, 5, 8 and 9, T. 63 S., R. 92 W., Seward Meridian;

Thence southerly, between section 8 and 9, approximately 1 mile, to the corner of sections 8, 9, 16 and 17, T. 63 S., R. 92 W., Seward Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 63 S., R. 92 W., Seward Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, approximately 3 miles, to the corner of sections 27, 28, 33 and 34, T. 63 S., R. 92 W., Seward Meridian;

Thence easterly, between sections 27 and 34, approximately 2/3 miles, to a special meander corner with East Anchor Cove in T. 63 S., R. 92 W., Seward Meridian, at the line of mean high tide;

Thence with the eastern coastline of Unimak Island, and along the line of mean high tide of said cove and Ikatan Bay, Isanatski Strait, Bechevin Bay, St. Catherine Cove and Swanson Lagoon, to the corner of sections 28 and 29, T. 59 S., R. 95 W., Seward Meridian, at the line of mean high tide of the Bering Sea;

Thence southerly, between sections 28 and 29, 32 and 33, approximately 1 9/10 miles, to the corner of sections 4, 5, 32 and 33, Tps. 59 and 60 S., R. 95 W., Seward Meridian;

Thence westerly, between Ts. 59 and 60 S., approximately 2 miles, to the corner of Tps. 59 and 60 S., Rs. 95 and 96 W., Seward Meridian, to the place of beginning; and,

Tract B Beginning at a point on the line of mean high tide of Umnak Island, between Tps. 63 and 64 N., R. 92 W., Seward Meridian;

Thence westerly, between Tps. 63 and 64 S., approximately 1 mile, to the ¼ section corner of sections 2 and 35, Tps. 63 and 64 N., R. 92 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 2, approximately 3/5 mile, to a point at the line of mean high tide of the Pacific Ocean in section 2, T. 64 S., R. 92 W,, Seward Meridian;

Thence easterly, southerly, easterly, northeasterly and northwesterly, with the line of mean high tide of said ocean, 2½ miles to a point between Tps. 63 and 64 S., R. 92 W., Seward Meridian; the place of beginning; and,

UMI

FEB 24
ISS 38
VOL 48

Tract C Beginning at a point on the line of mean high tide on Unimak Island, said point being three miles easterly of a point at low-water mark opposite Scotch Cap Pinnacle;

Thence due North, approximately 1 mile, to a point between Tps. 66 and 67 S., R. 104 W., Seward Meridian;

Thence N. 71° W. true, approximately 2 miles, to the eastern boundary of a service road near the center of section 34, T. 66 S., R. 104 W., Seward Meridian;

Thence following the eastern boundary of said service road and passing through sections 34, 27, 22, 21, 29, 20, 17, 8 and 7, T. 66 S., R. 104 W.; sections 12, 1 and 2, T. 66 S., R. 105 W.; and sections 36, 25, 24, 13, 12, 11, 10, 3, and 4, T. 65 S., R. 105 W., to a point in the northern portion of section 4, T. 65 S., R. 105 W., Seward Meridian;

Thence northeast true, approximately 1 2/5 miles, to a point in the southern portion of section 27, T. 64 S., R. 104 W., Seward Meridian;

Thence north-northwest true, to the line of mean high tide of Unimak Island;

Thence westerly southwesterly and southerly, along the line of mean high tide of said island, to the point of beginning.

Wilderness areas established by P.L. 91-504, October 23, 1970:

"Section 1. In accordance with section 3(c) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1132(c)), the following lands are hereby designated as wilderness:

(a) certain lands in the (1) Bering Sea, Bogoslof, and Tuxedni National Wildlife Refuges, Alaska, which comprise about forty-one thousand one hundred and thirteen acres,[1/] three hundred and ninety acres,[1/] and six thousand four hundred and two acres,[1/] respectively, and which are depicted on maps entitled "Bering Sea Wilderness--Proposed", and "Bogoslof Wilderness--Proposed", and "Tuxedni Wilderness--Proposed", dated August 1967, and (2) the lands comprising the Saint Lazaria, Hazy Island, and Forrester Island National Wildlife Refuges, Alaska, which comprise about sixty-two acres,[2/] forty-acres,[2/] and two thousand six hundred and thirty acres,[2/] respectively, which are depicted on maps entitled "Southeastern Alaska Proposed Wilderness Areas", dated August 1967, which shall be known as the "Bering Sea Wilderness", "Bogoslof Wilderness", "Tuxedni Wilderness", "Saint Lazaria Wilderness", "Hazy Islands Wilderness", and "Forrester Island Wilderness", respectively;

1/ Subsequently determined to be 81,340 acres, 175 acres and 5,610 acres respectively.

2/ Subsequently determined to be 65, 32 and 3,400 acres respectively.

These six units are described as follows:

BERING SEA WILDERNESS

Bering Sea Wilderness includes all lands above the line of mean high tide, described in Executive Order 1037, dated February 2, 1909, on islands, islets, rocks, reefs and spires, within rhumb lines connecting the following 16 geographic coordinates;

60° 40' N. 173° 17' W., said coordinate being approximately 6¼ miles west of the top of a mountain on Hall Island, approximate elevation 1,665 feet;

60° 35' N., 173° 20' W.;

60° 30' N., 173° 18' W.;

60° 23' N., 173° 14' W.;

60° 15' N., 173° 00' W.;

60° 11' 40" N., 172° 51' W.;

60° 09' 40" N. 172° 40' W., said coordinate being approximately S. 10° 30' W., approximately 12 miles from the top of Sugar Loaf Mountain, approximate elevation 1,380 feet;

60° 09' 40" N., 172° 30' W.;

60° 11' N., 172° 20' W.;

60° 13' N., 172° 07' 30" W., said coordinate being approximately S. 46° E., approximately 6 miles from the top of a mountain located near Cape Upright, approximate elevation 1,505 feet;

60° 20' N., 172° 03' 30" W.;

60° 25" N., 172° 07' W.;

60° 40' N., 172° 40' W., said coordinate being approximately N. 58° E., approximately 11¼ miles from the top of a mountain in the northern portion of St. Matthew Island, approximate elevation 1,475 feet;

60° 45' N., 172° 48' W.;

60° 46' 18" N., 173° 00' W.;

N. 63° 00' W., 79.86 feet;

N. 68° 12' W., 444.84 feet;

60° 45' N., 172° 48' W.;

60° 46' 18" N., 173° 00' W.;

60° 45' N., 173° 10' W., to the point of beginning;

BOGOSLOF WILDERNESS

Bogoslof Wilderness, includes all lands above the line of mean high tide, described in Executive Order No. 1949, dated March 2, 1909, on islands, islets, rocks, reefs and spires lying within a radius of 7 miles from Vertical Control Station 143, located at approximate latitude 53° 50' 42" N., longitude 168° 02' 00" W.

TUXEDNI WILDERNESS

Tuxedni Wilderness includes the following lands within the Tuxedni Subunit of the Alaska Maritime National Wildlife Refuge:

Duck Island, the entire island, above the line of mean high tide (approximate latitude 60° 08' 54" N., longitude 152° 32' 54" W.;

Chisik Island, the entire island, above the line of mean high tide, excluding those tracts of land lying within the following described boundaries:

Tract A Beginning at the intersection of section 16 and 17, T 1 N., R. 19 W., and the line of mean high tide of Tuxedni Bay;

Thence south, between section 16 and 17, T. 1 N., R. 19 W., to the intersection with the 100-foot contour;

Thence westerly, northwesterly and southwesterly, along the 100-foot contour, to its intersection with the section line between sections 17 and 18, T. 1 N., R. 19 W.;

Thence northerly, between sections 17 and 18, T. 1 N., R. 19 W., to the intersection with the line of mean high tide of Tuxedni Bay;

Thence northeasterly, northerly and southeasterly, along the line of mean high tide to the point of beginning;

Tract B Beginning at the intersection of the line of mean high tide on the northeast shore of Tuxedni Channel on Chisik Island, with corner No. 1 of U.S. Survey 2694, Alaska dated September 16, 1949 (approximate latitude 60° 06' 16" N., longitude 152° 34' 49" W.);

Thence with the following meanders of the Tuxedni Channel at the line of mean high tide the following (18) courses and distances;

N. 63° 00' W., 79.86 feet;

N. 68° 12' W., 444.84 feet;

N. 66° 46' W., 172.26 feet;

N. 60° 02' W., 265.98 feet;

N. 45° 59' W., 132.66 feet;

N. 27° 30' W., 37.62 feet;

N. 18° 04' W., 188.42 feet;

N. 12° 44' W., 307.94 feet;

N. 20° 53' W., 91.00 feet;

N. 39° 39' W., 108.24 feet, to the northwest corner of U.S. Survey 2694, at the line of mean high tide of Tuxedni Channel;

Thence east, along the northern boundary of U.S. 2694, approximately 1,180.74 feet, to an iron post set at the northeast corner of that survey;

Thence south, 1,045.44 feet, to the southeast corner of that survey, the place of beginning; and,

Tract C All that land lying within 100 feet of a pond at approximate longitude 152° 35' 30" W., latitude 60° 08' N., together with that land lying within 100 feet of either side of a trail bearing southwest from said pond and intersecting the northern boundary of the U.S. Survey 2694 land exclusion tract, approximately east 1,08.08 feet from its northwesternmost corner.

SAINT LAZARIA WILDERNESS

Saint Lazaria Wilderness includes all lands above the line of mean high tide, described in Executive Order 1040, dated February 27, 1909, on islands, islets, rocks, reefs and spires within rhumb lines connecting the following 10 geographic coordinates:

56° 59' 30" N., 135° 43' W.;

56° 59' 20" N., 135° 43' 35" W.;

56° 59' 10" N., 135° 43' 43" W.;

56° 59' 00" N., 135° 43' 35" W.;

56° 58' 50" N., 135° 43' 35" W.;

56° 58' 50" N., 135° 42' 00" W.;

56° 59' 00" N., 139° 41' 30" W.;

56° 59' 10" N., 139° 41' 20" W.;

56° 59' 20" N., 139° 41' 20" W.;

56° 59' 30" N., 135° 42' 00" W.; to the point of beginning.

HAZY ISLAND WILDERNESS

Hazy Island Wilderness includes all lands above the line of mean high tide, described in Executive Order 1459, dated January 11, 1912, on islands, islets, rocks, reefs, and spires within rhumb lines connecting the following 12 geographic coordinates:

55° 53' 30" N., 134° 36' W., said point being approximately N. 84° W., approximately 1 mile from Horizontal Control Station Hazy, located on the most northern island of the Subunit.

55° 53' 00" N., 134° 37' 50" W., said point being approximately S. 80° 30' W., approximately 1 mile from Horizontal Control Station Big, located on Big Hazy Islet;

55° 52' 00" N., 134° 36' 50" W.;

55° 51' 20" N., 134° 35' 25" W.;

55° 51' 20" N., 134° 34' 35" W.;

55° 51' 40" N., 134° 33' 17" W.; said point being approximately S. 85° E., approximately 1 mile from Horizontal Control Station Reef, located on the most southern island of the Subunit;

55° 52' 10" N., 134° 32' 35" W., said point being approximately N. 89° 30' E., approximately 1 1/10 miles from Horizontal Control Station Dome, located on the most easterly island of the Subunit;

55° 52' 40" N., 134° 31' 12" W.;

55° 53' 10" N., 134° 34' W.;

55° 54' 09" N., 134° 35' W.;

55° 54' 32" N., 134° 36' W.;

55° 54' 00" N., 134° 38' W.;

Thence to the point of beginning.

FORRESTER ISLAND WILDERNESS

Forrester Island Wilderness includes all lands above the line of mean high tide, described in Executive Order No. 1458, dated January 11, 1912, on islands, islets, rocks, reefs and spires within: (a) North Segment--the rhumb lines connecting the following 6 geographic coordinates;

55° 02' 00" N., 133° 30' 00" W.;

55° 01' 45" N., 133° 31' 00" W.;

55° 00' 30" N., 133° 30' 30" W.;

55° 00' 15" N., 133° 29' 00" W.;

55° 00' 25" N., 133° 28' 00" W.;

55° 01' 30" N., 133° 28' 30" W., to the point of beginning; and,

(b) South Segment--the rhumb lines connecting the following geographic 15 coordinates:

54° 51' 30" N., 133° 35' 00" W., said coordinate being approximately N. 46° W., approximately 2 miles from Horizontal Control Station North, located on Cape Horn Rocks;

54° 50' 00" N., 133° 35' 23" W.;

54° 48' 00" N., 133° 34' 36" W., said coordinate being approximately N. 84° 30' W., approximately 2 miles from the top located near the center of Forrester Island, approximate elevation 1,340 feet;

54° 46' 00" N., 133° 33' 23" W., said coordinate being approximately S. 89° W., approximately 1 3/10 miles from the top of a hill in the southern portion of Forrester Island, approximate elevation 270 feet;

54° 45' 00" N., 133 32' 26" W., said coordinate being approximately 1 3/10 miles from the Horizontal Control Station South, located on a group of rocks off the southern shore of Forrester Island;

54° 44' 00" N., 133° 30' 00" W.;

54° 44' 09" N., 133° 29' 00" W.;

54° 45' 00" N., 133° 28' 35" W., said coordinate being approximately S. 80° E., approximately 1 1/5 miles from Horizontal Control Station Petrel, located in the southern portion of Petrel Island;

54° 47' 13" N., 133° 29' 17" W.;

54° 50' 00" N., 133° 29' 17 W., said coordinate being approximately S. 81° E., approximately 1 7/10 miles from Horizontal Control Station Forrester, located in the northern portion of Forrester Island;

66° 12' 15" N., 161° 49' W.;

66° 12' 45" N., 161° 47' 30" W.;

54° 50' 00" N., 133° 29' 17 W., said coordinate being approximately N. 81° E., approximately 1 7/10 miles from Horizontal Control Station Forrester, located in the northern portion of Forrester Island;

54° 52' 00" N., 133° 30' 00" W., said coordinate being approximately N. 66° E., approximately 1 2/5 miles from the most eastern point of Laurie Island;

54° 53' 00" N., 133° 31' 00" W.;

54° 53' 39" N., 133° 32' 00" W.;

54° 53' 39" N., 133° 33' 00" W.;

54° 53' 00" N., 133° 34' 20" W., to the point of beginning.

Wilderness area established by P.L. 93-632, January 3, 1975:

"Section 1. That in accordance with subsection (c) of section 3 of the Wilderness Act (78 Stat. 890, 892), the following lands are hereby designated as wilderness and, therefore, as components of the national wilderness preservation system:

(a) certain lands in the Chamisso National Wildlife Refuge, Alaska, which comprise approximately four hundred and fifty-five acres, which are depicted on a map entitled "Chamisso Wilderness Proposal", dated November 1969, and which shall be known as the Chamisso Wilderness."

This unit is described as follows:

Chamisso Wilderness includes all lands above the line of mean high tide, described in Executive Order 1658, dated December 7, 1912, on islands, islets, rocks, reefs and spires, within rhumb lines connecting the following 18 geographic coordinates:

66° 13' 15" N., 161° 52' W., said coordinate being approximately N. 82° W., approximately 1 1/5 miles from the top of a hill near the center of Chamisso Island, approximate elevation 246 feet;

66° 13' N., 161° 52' W.;

66° 12' 45" N., 161° 52' W.;

66° 12' 22" N., 161° 50' 20" W., said coordinate being approximately S. 21° E., approximately ½ mile from the most southern point on Chamisso Island at the line of mean high tide;

66° 12' 15" N., 161° 49' W.;

66° 12' 45" N., 161° 47' 30" W.;

66° 12' 45" N., 161° 46' 57" W.;

66° 13' N., 161° 46' 47" W.;

66° 13' 15" N., 161° 46' 53" W., said coordinate being approximately N. 82° E., approximately 3/5 miles from the most eastern point on Chamisso Island, at the line of mean high tide;

66° 13' 15" N., 161! 47' 18" W.;

66° 13' 45 N., 161° 47' 46" W.;

66° 14' N., 161° 48' 20" W.;

66° 14' 14" N., 161° 49' 22" W.;

66° 14' 20" N., 161° 50' W.;

66° 14' N., 161° 50' 41" W.;

66° 14' N., 161° 51' 30" W.;

66° 13' 45" N., 161° 51' 48" W., said coordinate being due west, approximately 1/5 miles from the most northern point on Puffin Island, at the line of mean high tide;

66° 13' 30" N., 161° 52' W., to the point of beginning.

Wilderness area established by P.L. 94-557, October 19, 1976:

"Section 1. In accordance with subsection 3(c) of the Wilderness Act (78 Stat. 892), the following lands are hereby designated as wilderness and, therefore, as components of the National Wilderness Preservation System:

(a) certain lands in the Simeonof National Wildlife Refuge, Alaska, which comprise approximately twenty-five thousand one hundred and forty-one acres,[1/] which are depicted on a map entitled "Simeonof Wilderness Proposal", dated January 1971, and which shall be known as the Simeonof Wilderness."

1/ Subsequently determined to be 26,046 acres.

This unit is described as follows:

Simeonof Wilderness located in the Shumagin Island Group, at approximate latitude 54° 53' N., longitude 159° 15' W., includes all lands (including submerged lands), waters and interests described in Public Land Order 1749, dated October 30, 1958, as all of Simeonof Island and its tidelands, together with all adjacent areas of water extending one mile beyond mean low water, and including any islands within said one-mile area.

The following USGS quadrangle maps were used to prepare the legal description for the Alaska Maritime National Wildlife Refuge:

mr - minor revision
lr - limited revision
* - Quad depicts original Executive Order/public land order boundary and/or wilderness boundary

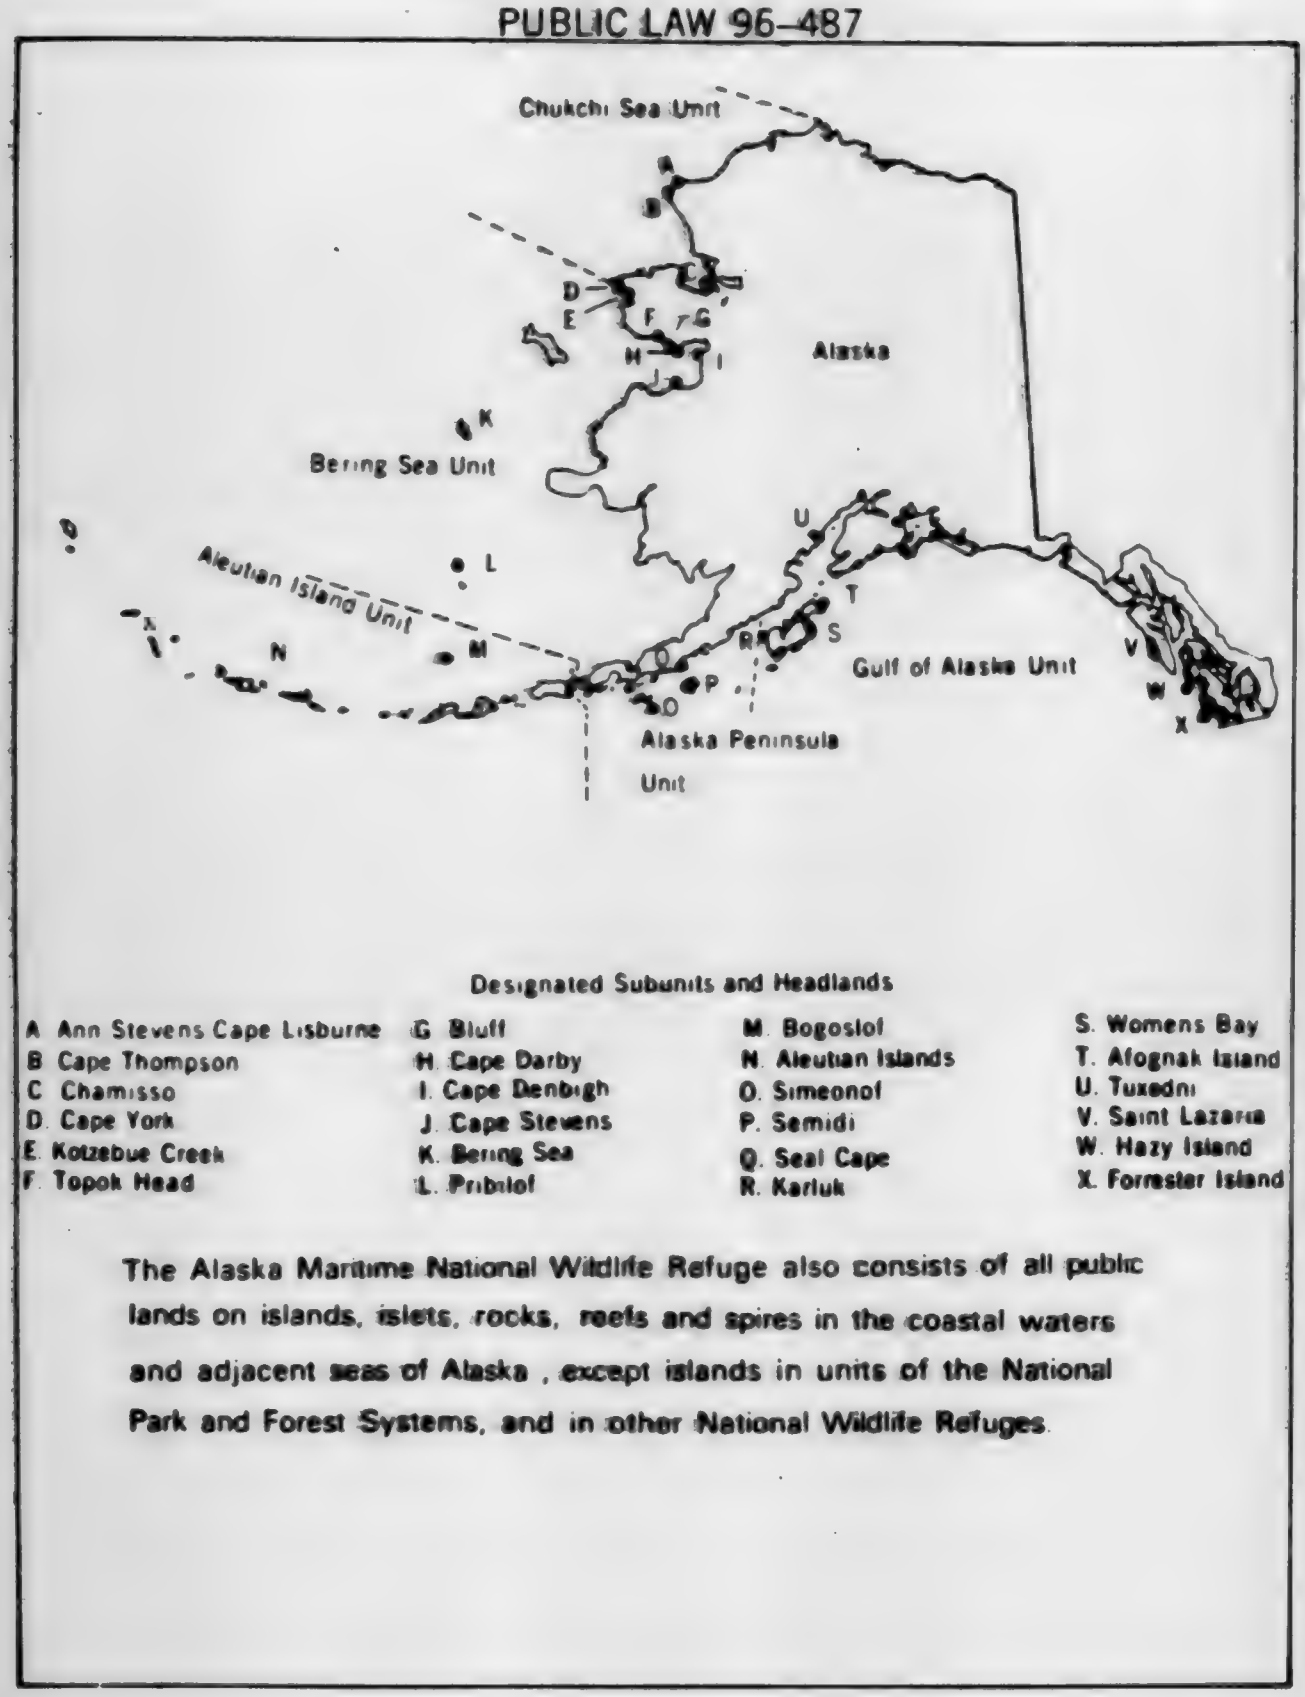
ALASKA MARITIME NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



Designated Subunits and Headlands

A. Ann Stevens Cape Lisburne	G. Bluff	M. Bogoslof	S. Womens Bay
B. Cape Thompson	H. Cape Darby	N. Aleutian Islands	T. Afognak Island
C. Chamisso	I. Cape Denbigh	O. Simeonof	U. Tuxedni
D. Cape York	J. Cape Stevens	P. Semidi	V. Saint Lazaria
E. Kotzebue Creek	K. Bering Sea	Q. Seal Cape	W. Hazy Island
F. Topok Head	L. Pribilof	R. Karluk	X. Forrester Island

The Alaska Maritime National Wildlife Refuge also consists of all public lands on islands, islets, rocks, reefs and spires in the coastal waters and adjacent seas of Alaska , except islands in units of the National Park and Forest Systems, and in other National Wildlife Refuges.

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 8 and 17, approximately 1 mile to the corner

ALASKA PENINSULA NATIONAL WILDLIFE REFUGE

ALASKA PENINSULA NATIONAL WILDLIFE REFUGE

Section 302 (1):

"The Alaska Peninsula National Wildlife Refuge shall consist of the approximately three million five hundred thousand acres of public lands as generally depicted on the map entitled 'Alaska Peninsula National Wildlife Refuge', dated October 1979 and shall include the lands on the Alaska Peninsula transferred to and made part of the refuge pursuant to section 1427 of this Act."

The Alaska Peninsula National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundaries:

Ugashik Unit

Beginning at a point at the line of mean high tide of Shelikof Strait, located approximately N. 45° E., 200 feet from the meander corner of sections 1 and 12, T. 32 S., R. 42 W., Seward Meridian;

Thence northwesterly, northerly and northwesterly, along the crest of a ridge, approximately 13 1/4 miles to the summit of a mountain located in the southerly portion of section 35, T. 30 S., R. 43 W., Seward Meridian, approximate elevation 2,445 feet;

Thence on an approximate forward bearing of N. 54° W., approximately 6 1/4 miles to the summit of Mt. Ugashik located in section 8, T. 30 S., R. 43 W., Seward Meridian, approximate elevation 2,230 feet;

Thence on an approximate forward bearing of N. 40° E., approximately 3 3/4 miles to the summit of Mt. Lee located in section 22, T. 29 S., R. 43 W., Seward Meridian, approximate elevation 2,650 feet;

Thence due West, approximately 1/4 mile to a point between sections 21 and 22, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 21 and 22, approximately 3/4 mile to the corner of sections 15, 16, 21 and 22, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 8 and 17, approximately 1 mile to the corner of sections 7, 8, 17 and 18, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 7 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 6 and 7, approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 29 S., Rs. 43 and 44 W., Seward Meridian;

Thence northerly, between Rs. 43 and 44 W., approximately 1 mile to the closing corner of T. 29 S., Rs. 43 and 44 W., Seward Meridian;

Thence westerly, on the Seventh Standard Parallel South, approximately 2,200 feet to the standard corner of sections 32 and 33, T. 28 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 32 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 28 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 28 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 28 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, approximately 2 miles to the corner of sections 13, 14, 23 and 24, T. 28 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 13 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 28 S., R. 44 W., Seward Meridian;

Thence westerly, between sections 11 and 14, 10 and 15, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 28 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 28 S., R. 44 W., Seward Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, approximately 3 miles to the corner of sections 1, 6, 7 and 12, T. 28 S., Rs. 44 and 45 W., Seward Meridian;

Thence northerly, between Rs. 44 and 45 W., approximately 1 mile to the corner of Tps. 27 and 28 S., Rs. 44 and 45 W., Seward Meridian;

Thence westerly, between Tps. 27 and 28 S., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 27 and 28 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 27 S., R. 45 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 27 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 28 and 29, 20 and 21, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 27 S., R. 45 W., Seward Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 27 S., Rs. 45 and 46 W., Seward Meridian;

Thence northerly, between Rs. 45 and 46 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 27 S., Rs. 45 and 46 W., Seward Meridian;

Thence westerly, between sections 12 and 13, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 11 and 12, approximately 1/2 mile to the 1/4 section corner of sections 11 and 12, T. 27 S., R. 46 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 11, approximately 1/2 mile to the center 1/4 section corner of section 11, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 11, approximately 1/2 mile to the 1/4 section corner of sections 2 and 11, T. 27 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1/2 mile to the corner of sections 2, 3, 10 and 11, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 2 and 3, approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 26 and 27 S., R. 46 W., Seward Meridian;

Thence westerly, between Tps. 26 and 27 S., approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 26 and 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 28 and 29, approximately 1/2 mile to the 1/4 section corner of sections 28 and 29, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 29, approximately 1/2 mile to the center 1/4 section corner of section 29, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 29, approximately 1/2 mile to the 1/4 section corner of sections 20 and 29, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1/2 mile to the corner of sections 19, 20, 29 and 30, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 26 S., Rs. 46 and 47 W., Seward Meridian;

Thence southerly, between Rs. 46 and 47 W., approximately 9 miles to the corner of Tps. 27 and 28 S., Rs. 46 and 47 W., Seward Meridian;

Thence westerly, between Tps. 27 and 28 S., approximately 6 miles to the corner of Tps. 27 and 28 S., Rs. 47 and 48 W., Seward Meridian;

Thence southerly, between Rs. 47 and 48 W., approximately 6 miles to the standard corner of T. 28 S., Rs. 47 and 48 W., Seward Meridian;

Thence easterly, on the Seventh Standard Parallel South, approximately 2 3/4 miles to the closing corner of T. 29 S., Rs. 47 and 48 W., Seward Meridian;

Thence southerly, between Rs. 47 and 48 W., approximately 12 miles to the theoretical position for the corner of Tps. 30 and 31 S., Rs. 47 and 48 W., Seward Meridian;

Thence westerly, between Tps. 30 and 31 S., approximately 6 miles to the corner of Tps. 30 and 31 S., Rs. 48 and 49 W., Seward Meridian;

Thence southerly, between Rs. 48 and 49 W., approximately 6 miles to the corner of Tps. 31 and 32 S., Rs. 48 and 49 W., Seward Meridian;

Thence westerly, between Tps. 31 and 32 S., approximately 12 miles to the corner of Tps. 31 and 32 S., Rs. 50 and 51 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 4, approximately 1/2 mile to the 1/4 section corner of sections 3 and 4, T. 39 S., R. 50 W., Seward Meridian;

Thence westerly, between Tps. 31 and 32 S., approximately 12 miles to the corner of Tps. 31 and 32 S., Rs. 50 and 51 W., Seward Meridian;

Thence southerly, between Rs. 50 and 51 W., approximately 6 miles to the standard corner of T. 32 S., Rs. 50 and 51 W., Seward Meridian;

Thence westerly, on the Eighth Standard Parallel South, approximately 3 miles to the closing corner of T. 33 S., Rs. 51 and 52 W., Seward Meridian;

Thence southerly, between Rs. 51 and 52 W., approximately 6 miles to the corner of Tps. 33 and 34 S., Rs. 51 and 52 W., Seward Meridian;

Thence westerly, between Tps. 33 and 34 S., approximately 6 miles to the corner of Tps. 33 and 34 S., Rs. 52 and 53 W., Seward Meridian;

Thence southerly, between Rs. 52 and 53 W., approximately 6 miles to the corner of Tps. 34 and 35 S., Rs. 52 and 53 W., Seward Meridian;

Thence easterly, between Tps. 34 and 35 S., approximately 12 miles to the corner of Tps. 34 and 35 S., Rs. 50 and 51 W., Seward Meridian;

Thence southerly, between Rs. 50 and 51 W., approximately 12 miles to the standard corner of T. 36 S., Rs. 50 and 51 W., Seward Meridian;

Thence westerly, on the Ninth Standard Parallel South, approximately 2 1/2 miles to the summit of a ridge on the south boundary of section 34, T. 36 S., R. 51 W., Seward Meridian;

Thence southeasterly, along the crest of a ridge between the drainages of Yantarni Creek, Northeast Creek, Main Creek and Painter Creek, approximately 9 1/2 miles to a point between sections 31 and 36, T. 37 S., Rs. 50 and 51 W., Seward Meridian, on the crest of a ridge between the drainages of Yantarni Creek and Northeast Creek, approximate elevation 700 feet;

Thence southerly, between Rs. 50 and 51 W., approximately 1 3/4 miles, to a point on the crest of a ridge between sections 7 and 12, T. 38 S., Rs. 50 and 51 W., Seward Meridian;

Thence southeasterly, along the crest of a ridge between the drainages of Yantarni Creek and Northeast Creek, approximately 5 1/2 miles to the summit of a mountain located in the southerly portion of section 28, T. 38 S., R. 50 W., Seward Meridian, approximate elevation 3,271 feet;

Thence on an approximate forward bearing of South, approximately 1 3/4 miles to the center 1/4 section corner of section 4, T. 39 S., R. 50 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 4, approximately 1/2 mile to the 1/4 section corner of sections 3 and 4, T. 39 S., R. 50 W., Seward Meridian;

Thence southerly, between sections 3 and 4, approximately 1/2 mile to the corner of sections 3, 4, 9 and 10, T. 39 S., R. 50 W., Seward Meridian;

Thence easterly, between sections 3 and 10, approximately 1/2 mile to the 1/4 section corner of sections 3 and 10, T. 39 S., R. 50 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 10 and 15, T. 39 S., R. 50 W., Seward Meridian;

Thence easterly, between sections 10 and 15, approximately 1/2 mile to the corner of sections 10, 11, 14 and 15, T. 39 S., R. 50 W., Seward Meridian;

Thence southerly, between sections 14 and 15, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 39 S., R. 50 W., Seward Meridian;

Thence easterly, between sections 14 and 23, approximately 1/2 mile to the 1/4 section corner of sections 14 and 23, T. 39 S., R. 50 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 23, approximately 1 mile to the 1/4 section corner of sections 23 and 26, T. 39 S., R. 50 W., Seward Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, approximately 1 1/2 miles to the corner of sections 19, 24, 25 and 30, T. 39 S., Rs. 49 and 50 W., Seward Meridian;

Thence southerly, between Rs. 49 and 50 W., approximately 1/2 mile to the meander corner of sections 25 and 30, T. 39 S., Rs. 49 and 50 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean;

Thence northeasterly, along the line of mean high tide of the Pacific Ocean, to the meander corner of sections 1 and 2, T. 36 S., R. 45 W., Seward Meridian;

Thence on an approximate forward bearing of N. 30° E., approximately 1 1/2 miles to the meander corner of sections 25 and 30, T. 35 S., Rs. 44 and 45 W., Seward Meridian;

Thence northeasterly, along the line of mean high tide of the Pacific Ocean, closing the mouths of all rivers and inlets, to the meander corner of sections 15 and 16, T. 33 S., R. 44 W., Seward Meridian;

Thence on an approximate forward bearing of N. 70° W., approximately 4 miles to the meander corner of sections 11 and 12, T. 33 S., R. 45 W., Seward Meridian, at the line of mean high tide of Wide Bay;

Thence northeasterly, along the line of mean high tide of Wide Bay to the most easterly point of section 2, T. 32 S., R. 43 W., Seward Meridian;

Thence on an approximate forward bearing of S. 87 1/2° E., approximately 4 3/4 miles to the most southerly point in section 10, T. 32 S., R. 42 W., Seward Meridian, at the line of mean high tide of Shelikof Strait;

Thence easterly and northeasterly, along the line of mean high tide of Shelikof Strait, approximately 3 miles to a point approximately N. 45° E., 200 feet from the meander corner of sections 1 and 12, T. 32 S., R. 42 W., Seward Meridian, the place of beginning.

Chignik-Pavlof Unit

Beginning at the meander corner of sections 7 and 12, T. 41 S., Rs. 54 and 55 W., Seward Meridian, at the line of mean high tide of Kujulik Bay;

Thence southerly, across Kujulik Bay, approximately 6 miles to the meander corner of sections 7 and 12, T. 42 S., Rs. 54 and 55 W., Seward Meridian, at the line of mean high tide of Kujulik Bay;

Thence easterly and southwesterly, along the line of mean high tide of Kujulik Bay, Hook Bay and Chignik Bay to the meander corner of sections 24 and 25, T. 44 S., R. 59 W., Seward Meridian;

Thence on an approximate forward bearing of S. 61° E., approximately 1 1/4 miles to the meander corner of sections 29 and 30, T. 44 S., R. 58 W., Seward Meridian;

Thence northeasterly and southwesterly, along the line of mean high tide of Chignik Bay to the meander corner of sections 28 and 33, T. 44 S., R. 58 W., Seward Meridian;

Thence on an approximate forward bearing of S. 69° E., approximately 3/4 miles to the meander corner of sections 33 and 34, T. 44 S., R. 58 W., Seward Meridian;

Thence southeasterly, along the line of mean high tide of Chignik Bay to the meander corner on the south boundary of section 34, T. 44 S., R. 58 W., Seward meridian;

Thence on an approximate forward bearing of N. 75° E., approximately 1 1/2 miles to the meander corner of sections 4 and 5, T. 45 S., R. 58 W., Seward Meridian;

Thence northeasterly and southeasterly, along the line of mean high tide of Chignik Bay, closing the mouth of Lake Bay, to the most easterly point in section 16, T. 45 S., R. 57 W., Seward Meridian;

Thence on an approximate forward bearing of S. 45° E., approximately 4 1/2 miles to the most northerly point in section 36, T. 45 S., R. 57 W., Seward Meridian;

*Thence southwesterly, along the line of mean high tide of the Pacific Ocean, closing the unnamed bay south of Nikola Cove, approximately 15 1/2 miles to the southernmost tip of land in section 9, T. 47 S., R. 58 W., Seward Meridian;

Thence on an approximate forward bearing of S. 23° W., approximately 4 1/2 miles crossing the mouth of Warner Bay to a point in the line of mean high tide in Section 31, T. 47 S., R. 58 W., Seward Meridian;

Thence northwesterly, with the line of mean high tide approximately 1 1/2 miles to the meander corner of sections 25 and 36, T. 47 S., R. 59 W., Seward Meridian;

++Thence on an approximate forward bearing of N. 71° W., approximately 1 1/2 miles to the special meander corner on the east and west centerline of section 27, T. 47 S., R. 59 W., Seward Meridian;

++Thence westerly, on the east and west centerline of section 27, approximately 1 mile to the 1/4 section corner of sections 27 and 28, T. 47 S., R. 59 W., Seward Meridian;

++Thence southerly, between sections 27 and 28, 33 and 34, approximately 3/4 mile to the meander corner of sections 33 and 34, T. 47 S., R. 59 W., Seward Meridian, on the line of mean high tide of Sweater Bay;

++Thence southwesterly, along the line of mean high tide of Sweater Bay to the most southerly point in section 12, T. 48 S., R. 60 W., Seward Meridian;

Thence approximate forward bearing of S. 25° W., approximately 5 miles to the most easterly point in section 12, T. 49 S., R. 61 W., Seward Meridian, at the line of mean high tide;

*Thence westerly, along the mean high tide of the Pacific Ocean to the most southerly point of land in section 11, at Triangulation Point "Witch", T. 49 S., R. 61 W., Seward Meridian;

*Thence on an approximate forward bearing of N. 86°, 30' W., approximately 2.1 miles to the most southerly point in section 9, T. 49 S., R. 61 W., Seward Meridian;

[++Note: The area adjoining this portion of the Alaska Peninsula NWR is the Seal Cape headland segment of the Alaska Maritime NWR, and is described within that refuge.]

Thence westerly, along the line of mean high tide of the Pacific Ocean to the meander corner of sections 5 and 8, T. 49 S., R. 61 W., Seward Meridian;

Thence westerly, approximately 1 mile, to the meander corner of sections 21 and 28, T. 59 S., R. 86 W., Seward Meridian, at the line of mean high tide of King Cove;

Thence westerly, along the line of mean high tide of the Pacific Ocean to the meander corner of sections 5 and 8, T. 49 S., R. 61 W., Seward Meridian;

Thence on an approximate forward bearing of N. 50° W., approximately 2 1/2 miles to the meander corner of sections 33 and 34, T. 48 S., R. 61 W., Seward Meridian;

Thence northwesterly and southwesterly, along the line of mean high tide of Mitrofania Bay and the Pacific Ocean, closing the mouths of all rivers and inlets, to the special meander corner on the north and south centerline of section 1, T. 51 S., R. 66 W., Seward Meridian;

Thence on an approximate forward bearing of S. 71° W., approximately 3 1/2 miles to the meander corner of sections 9 and 16, T. 51 S., R. 66 W., Seward Meridian;

Thence southwesterly, westerly and northerly, along the line of mean high tide of the Pacific Ocean, closing the mouths of all rivers and Boulder Bay, to the most westerly point on Cub Point, T. 53 S., R. 68 W., Seward Meridian;

Thence on an approximate forward bearing of N. 20° E., approximately 5 1/2 miles to the most westerly point in section 19, T. 52 S., R. 67 W., Seward Meridian, at the line of mean high tide of Stepovak Bay;

*Thence northeasterly, northwesterly and southwesterly, along the line of mean high tide of Stepovak Bay, and Unga Strait, closing the mouths of San Diego Bay and Albatross Anchorage and all rivers and inlets, to the most westerly point in section 34, T. 55 S., R. 80 W., Seward Meridian, at the line of mean high tide of Pavlof Bay;

Thence on an approximate forward bearing of N. 87° W., approximately 4 3/4 miles to the most southerly point in the Flat Island Group, located in the northerly portion of section 36, T. 55 S., R. 81 W., Seward Meridian;

Thence on an approximate forward bearing of N. 55° W., approximately 3 1/2 miles to the most easterly point of Black Point in the northerly portion of section 21, T. 55 S., R. 81 W., Seward Meridian, at the line of mean high tide of Pavlof Bay;

*Thence southwesterly, northwesterly, southeasterly and southwesterly, along the line of mean high tide of the Pacific Ocean, closing Bear Bay and Captain Harbor and the mouths of all rivers, inlets and lagoons, to the meander corner of sections 22 and 27, T. 59 S., R. 86 W., Seward Meridian;

Thence westerly, approximately 1 mile, to the meander corner of sections 21 and 28, T. 59 S., R. 86 W., Seward Meridian, at the line of mean high tide of King Cove;

Thence southwesterly, along the line of mean high tide of King Cove and Deer Passage, to the most southerly point in section 36, T. 59 S., R. 87 W., Seward Meridian;

Thence on an approximate forward bearing of S. 83° W., approximately 7 miles to the meander corner of sections 1 and 36, Tps. 59 and 60 S., R. 88 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean;

Thence southeasterly, northwesterly and southwesterly, along the line of mean high tide of the Pacific Ocean, closing the mouths of all inlets and rivers, to the most westerly point in section 27, T. 60 S., R. 90 W., Seward Meridian;

Thence on an approximate forward bearing of S. 87° W., approximately 4 1/2 miles to the most easterly point of Kenmore Head, located in the southwesterly portion of section 25, T. 60 S., R. 91 W., Seward Meridian, at the line of mean high tide of the Pacific Ocean;

Thence southwesterly, northwesterly and northeasterly, along the line of mean high tide of the Pacific Ocean, Ikatan Bay and Isanotski Strait to the meander corner of sections 25 and 30, T. 61 S., Rs. 93 and 94 W., Seward Meridian;

Thence northerly, between Rs. 93 and 94 W., approximately 3 1/4 miles to the meander corner of sections 7 and 12, T. 61 S., Rs. 93 and 94 W., Seward Meridian, at the line of mean high tide of Bechevin Bay;

Thence northerly, along the line of mean high tide of Bechevin Bay, to the most northerly point in section 26, T. 60 S., R. 93 W., Seward Meridian, at the line of mean high tide of Hot Springs Bay;

Thence on an approximate forward bearing of N. 36° E., approximately 3 miles to the most westerly point in section 7, T. 60 S., R 92 W., Seward Meridian, at the line of mean high tide of Bechevin Bay;

Thence northerly, along the line of mean high tide of Bechevin Bay, approximately 3 1/4 miles to its intersection with the mouth of an unnamed stream on the east shore of Bechevin Bay, at approximate latitude 55° 03' N., longitude 162° 59' W.

Thence easterly and northerly, along the boundary of the Izembek National Wildlife Refuge to Corner No. 9 on that boundary, at approximate latitude 55° 32' 10" N., longitude 162° 26' W., a point between sections 4 and 33, Tps. 54 and 55 S., R. 85 W., Seward Meridian;

Thence easterly, between Tps. 54 and 55 S., approximately 3 1/2 miles to the corner of Tps. 54 and 55 S., Rs. 84 and 85 W., Seward Meridian;

Thence northerly, between Rs. 84 and 85 W., approximately 12 miles to the closing corner of T. 53 S., Rs. 84 and 85 W., Seward Meridian;

Thence easterly, along the Thirteenth Standard Parallel South, approximately 26 miles to the meander corner on the south boundary of section 31, T. 52 S., R. 79 W., Seward Meridian, at the line of mean high tide of Pavlof Bay;

Thence easterly, along the line of mean high tide of Pavlof Bay, approximately 6 miles to the meander corner of sections 31 and 36, T. 52 S., Rs. 78 and 79 W., Seward Meridian;

Thence northerly, between Rs. 78 and 79 W., approximately 6 miles to the corner of Tps. 51 and 52 S., Rs. 78 and 79 W., Seward Meridian;

Thence easterly, between Tps. 51 and 52 S., approximately 24 miles to the meander corner of Tps. 51 and 52 S., R. 74 W., Seward Meridian, at the line of mean high tide on the east side of the westerly arm of Herendeen Bay;

Thence northerly, along the line of mean high tide of Herendeen Bay, approximately 4 miles to the meander corner of sections 19 and 20, T. 51 S., R. 74 W., Seward Meridian, at the line of mean high tide of Mine Harbor;

Thence northerly, approximately 2 1/4 miles to the meander corner of sections 7 and 8, T. 51 S., R. 74 W., Seward Meridian, at the line of mean high tide of Herendeen Bay;

Thence northwesterly and easterly, along the line of mean high tide of Herendeen Bay and Port Moller, approximately 22 miles to the meander corner of sections 12 and 13, T. 50 S., R. 73 W., Seward Meridian, at the line of mean high tide of Port Moller;

Thence on an approximate forward bearing of N. 76° E., approximately 5 1/2 miles to the meander corner of sections 2 and 35, Tps. 49 and 50 S., R. 72 W., Seward Meridian, at the line of mean high tide of Port Moller;

Thence easterly, between Tps. 49 and 50 S., approximately 14 miles to the corner of Tps. 49 and 50 S., Rs. 69 and 70 W., Seward Meridian;

Thence northerly, between Rs. 69 and 70 W., approximately 6 miles to the closing corner of T. 49 S., Rs. 69 and 70 W., Seward Meridian;

Thence westerly, on the Twelfth Standard Parallel South, approximately 3 3/4 miles to the standard corner of T. 48 S., Rs. 69 and 70 W., Seward Meridian;

Thence northerly, between Rs. 69 and 70 W., approximately 6 miles to the corner of Tps. 47 and 48 S., Rs. 69 and 70 W., Seward Meridian;

Thence easterly, between Tps. 47 and 48 S., approximately 6 miles to the corner of Tps. 47 and 48 S., Rs. 68 and 69 W., Seward Meridian;

Thence northerly, between Rs. 68 and 69 W., approximately 6 miles to the corner of Tps. 46 and 47 S., Rs. 68 and 69 W., Seward Meridian;

Thence easterly, between Tps. 46 and 47 S., approximately 6 miles to the corner of Tps. 46 and 47 S., Rs. 67 and 68 W., Seward Meridian;

Thence northerly, between Rs. 67 and 68 W., approximately 6 miles to the corner of Tps. 45 and 46 S., Rs. 67 and 68 W., Seward Meridian;

Thence easterly, between Tps. 45 and 46 S., approximately 6 miles to the corner of Tps. 45 and 46 S., Rs. 66 and 67 W., Seward Meridian;

Thence northerly, between Rs. 66 and 67 W., approximately 6 miles to the closing corner of T. 45 S., Rs. 66 and 67 W., Seward Meridian;

Thence easterly, on the Eleventh Standard Parallel South, approximately 8 1/2 miles to the standard corner of T. 44 S., Rs. 64 and 65 W., Seward Meridian;

Thence northerly, between Rs. 64 and 65 W., approximately 12 miles to the corner of Tps. 42 and 43 S., Rs. 64 and 65 W., Seward Meridian;

Thence easterly, between Tps. 42 and 43 S., approximately 12 miles to the corner of Tps. 42 and 43 S., Rs. 62 and 63 W., Seward Meridian;

Thence northerly, between Rs. 62 and 63 W., approximately 12 miles to the closing corner of T. 41 S., Rs. 62 and 63 W., Seward Meridian;

Thence easterly, on the Tenth Standard Parallel South, approximately 20 3/4 miles to the standard corner of T. 40 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 12 miles to the corner of Tps. 38 and 39 S., Rs. 58 and 59 W., Seward Meridian;

Thence easterly, between Tps. 38 and 39 S., approximately 6 miles to the corner of Tps. 38 and 39 S., Rs. 57 and 58 W., Seward Meridian;

Thence northerly, between Rs. 57 and 58 W., approximately 6 miles to the corner of Tps. 37 and 38 S., Rs. 57 and 58 W., Seward Meridian;

Thence easterly, between Tps. 37 and 38 S., approximately 6 miles to the corner of Tps. 37 and 38 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, between Rs. 56 and 57 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 38 S., Rs. 56 and 57 W., Seward Meridian;

The following USGS quadrangle maps were used to prepare the legal description for the Alaska Peninsula National Wildlife Refuge:

UMI 1983 FEB 24 VOL 48 ISS 38

Thence southerly, between Rs. 56 and 57 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 38 S., Rs. 56 and 57 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, approximately 3 miles to the corner of sections 15, 16, 21 and 22, T. 38 S., R. 57 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, approximately 6 miles to the corner of sections 15, 16, 21 and 22, T. 39 S., R. 57 W., Seward Meridian;

Thence easterly, between sections 15 and 22, 14 and 23, 13 and 24, approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 39 S., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, between Rs. 56 and 57 W., approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 40 S., Rs. 56 and 57 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 40 S., Rs. 55 and 56 W., Seward Meridian;

Thence southerly, between Rs. 55 and 56 W., approximately 3 miles to the standard corner of T. 40 S., Rs. 55 and 56 W., Seward Meridian;

Thence easterly, on the Tenth Standard Parallel South, approximately 9 miles to the closing corner of T. 41 S., Rs. 54 and 55 W., Seward Meridian;

Thence southerly, between Rs. 54 and 55 W., approximately 1 1/2 miles to the meander corner of sections 7 and 12, T. 41 S., Rs. 54 and 55 W., Seward Meridian, the place of beginning.

North Creek Unit

Beginning at the meander corner of sections 13 and 18, T. 53 S., Rs. 85 and 86 W., Seward Meridian at the line of mean high tide of Bering Sea;

Thence southerly, between Rs. 85 and 86 W., approximately 6 miles to the intersection with the boundary of Izembek National Wildlife Refuge;

Thence northwesterly, along the boundary of Izembek National Wildlife Refuge, approximately 3 miles to a point at the mean high tide of Bering Sea;

Thence northeasterly, along the line of mean high tide of the Bering Sea, approximately 4 1/2 miles to the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

ALASKA PENINSULA NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487

Thence on an approximate forward bearing of N. 72° W., approximately 6 miles to the summit of a hill located in section 34, T. 36 N., R. 2 W., Fairbanks Meridian, approximate elevation 4,200 feet;

Thence northwesterly, on the crest of a ridge between the drainages of Your

ARCTIC NATIONAL WILDLIFE REFUGE

Section 303 (2):

ARCTIC NATIONAL WILDLIFE REFUGE

Section 303 (2):

"The Arctic National Wildlife Refuge shall consist of the existing Arctic National Wildlife Range including lands, waters, interests, and whatever submerged lands, if any, were retained in federal ownership at the time of statehood and an addition of approximately nine million one hundred and sixty thousand acres of public lands, as generally depicted on a map entitled "Arctic National Wildlife Refuge", dated August 1980."

The Arctic National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at a point on the Venetie Indian Reservation boundary as surveyed and platted in U.S. Survey No. 5220, Alaska, dated April 26, 1978, between sections 31 and 36, T. 29 N., Rs. 3 and 4 E., Fairbanks Meridian;

Thence northerly, between Rs. 3 and 4 E., approximately 23 1/2 miles to the closing corner of T. 32 N., Rs. 3 and 4 E., Fairbanks Meridian;

Thence easterly, along the Eighth Standard Parallel North, approximately 1/2 mile to the standard corner of T. 33 N., Rs. 3 and 4 E., Fairbanks Meridian;

Thence northerly, between Rs. 3 and 4 E., approximately 6 miles to the corner of Tps. 33 and 34 N., Rs. 3 and 4 E., Fairbanks Meridian;

Thence westerly, between Tps. 33 and 34 N., approximately 16 miles to the corner of sections 4, 5, 32 and 33, Tps. 33 and 34 N., R. 1 E., Fairbanks Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, approximately 6 miles to the corner of sections 4, 5, 32 and 33, Tps. 34 and 35 N., R. 1 E., Fairbanks Meridian;

Thence westerly, between Tps. 34 and 35 N., approximately 5 miles to the corner of sections 3, 4, 33 and 34, Tps. 34 and 35 N., R. 1 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, approximately 4 1/2 miles to the summit of a ridge between sections 9 and 10, T. 35 N., R. 1 W., Fairbanks Meridian, approximate elevation 4,085 feet;

Thence on an approximate forward bearing of N. 72° W., approximately 6 miles to the summit of a hill located in section 34, T. 36 N., R. 2 W., Fairbanks Meridian, approximate elevation 4,200 feet;

Thence northwesterly, on the crest of a ridge between the drainages of Your Creek and the Middle Fork Chandalar River, approximately 35 miles to a point on the Continental Divide, in the northeasterly portion of section 4, T. 14 S., R. 16 E., Umiat Meridian;

Thence southwesterly and northwesterly, along the Continental Divide, approximately 27 miles to a point between sections 31 and 36, T. 14 S., Rs. 12 and 13 E., Umiat Meridian;

Thence northerly, between Rs. 12 and 13 E., approximately 12 miles to the closing corner of T. 13 S., Rs. 12 and 13 E., Umiat Meridian;

Thence easterly, on the Third Standard Parallel South, approximately 1 1/4 miles to the standard corner of T. 12 S., Rs. 12 and 13 E., Umiat Meridian;

Thence northerly, between Rs. 12 and 13 E., approximately 6 miles to the corner of Tps. 11 and 12 S., Rs. 12 and 13 E., Umiat Meridian;

Thence westerly, between Tps. 11 and 12 S., approximately 4 miles to the corner of sections 4, 5, 32 and 33, Tps. 11 and 12 S., R. 12 E., Umiat Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, approximately 2 miles to the corner of sections 20, 21, 28 and 29, T. 11 S., R. 12 E., Umiat Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 11 S., R. 12 E., Umiat Meridian;

Thence northerly, between sections 19 and 20, 17 and 18, approximately 1 1/2 miles to the 1/4 section corner of sections 17 and 18, T. 11 S., R. 12 E., Umiat Meridian;

Thence easterly, on the east and west centerline of section 17, approximately 1 mile to the 1/4 section corner of sections 16 and 17, T. 11 S., R. 12 E., Umiat Meridian;

Thence northerly, between sections 16 and 17, approximately 1/2 mile to the corner of sections 8, 9, 16 and 17, T. 11 S., R. 12 E., Umiat Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, 11 and 14, approximately 3 miles to the corner of sections 11, 12, 13 and 14, T. 11 S., R. 12 E., Umiat Meridian;

Thence northerly, between sections 11 and 12, 1 and 2, approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 10 and 11 S., R. 12 E., Umiat Meridian;

Thence easterly, between Tps. 10 and 11 S., approximately 13 miles to the corner of Tps. 10 and 11 S., Rs. 14 and 15 E., Umiat Meridian;

Thence northerly, between Rs. 14 and 15 E., approximately 12 miles to the closing corner of T. 9 S., Rs. 14 and 15 E., Umiat Meridian;

Thence easterly, along the Second Standard Parallel South, approximately 1 1/4 miles to the standard corner of T. 8 S., Rs. 14 and 15 E., Umiat Meridian;

Thence northerly, between Rs. 14 and 15 E., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 8 S., Rs. 14 and 15 E., Umiat Meridian;

Thence easterly, between sections 30 and 31, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 8 S., R. 15 E., Umiat Meridian;

Thence northerly, between sections 29 and 30, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 8 S., R. 15 E., Umiat Meridian;

Thence easterly, between sections 20 and 29, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 8 S., R. 15 E., Umiat Meridian;

Thence northerly, between sections 20 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 8 S., R. 15 E., Umiat Meridian;

Thence easterly, between sections 16 and 21, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 8 S., R. 15 E., Umiat Meridian;

Thence northerly, between sections 15 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 8 S., R. 15 E., Umiat Meridian;

Thence easterly, between sections 10 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 8 S., R. 15 E., Umiat Meridian;

Thence northerly, between sections 10 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 8 S., R. 15 E., Umiat Meridian;

Thence easterly, between sections 2 and 11, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 8 S., R. 15 E., Umiat Meridian;

Thence northerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 7 and 8 S., R. 15 E., Umiat Meridian;

Thence easterly, between Tps. 7 and 8 S., approximately 1 mile to the corner of Tps. 7 and 8 S., Rs. 15 and 16 E., Umiat Meridian;

Thence northerly, between Rs. 15 and 16 E., approximately 18 miles to the closing corner of T. 5 S., Rs. 15 and 16 E., Umiat Meridian;

Thence easterly, along the First Standard Parallel South, approximately 15 1/2 miles to the standard corner of sections 32 and 33, T. 4 S., R. 18 E., Umiat Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, approximately 6 miles to the corner of sections 4, 5, 32 and 33, Tps. 3 and 4 S., R. 18 E., Umiat Meridian;

Thence easterly, between Tps. 3 and 4 S., approximately 4 miles to the corner of Tps. 3 and 4 S., Rs. 18 and 19 E., Umiat Meridian;

Thence northerly, between Rs. 18 and 19 E., approximately 6 miles to the corner of Tps. 2 and 3 S., Rs. 18 and 19 E., Umiat Meridian;

Thence easterly, between Tps. 2 and 3 S., approximately 6 miles to the corner of Tps. 2 and 3 S., Rs. 19 and 20 E., Umiat Meridian;

Thence northerly, between Rs. 19 and 20 E., approximately 6 miles to the corner of Tps. 1 and 2 S., Rs. 19 and 20 E., Umiat Meridian;

Thence easterly, between Tps. 1 and 2 S., approximately 6 miles to the corner of Tps. 1 and 2 S., Rs. 20 and 21 E., Umiat Meridian;

Thence northerly, between Rs. 20 and 21 E., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 20 and 21 E., Umiat Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 21 and 22 E., Umiat Meridian;

Thence southerly, between Rs. 21 and 22 E., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 21 and 22 E., Umiat Meridian;

Thence easterly, between Tps. 1 and 2 S., approximately 21 3/4 miles to the meander corner of sections 3 and 34 at the line of mean high water on the west bank of the Canning River, Tps. 1 and 2 S., R. 25 E., Umiat Meridian;

Thence northerly, along the mean high water line of the left bank of the Canning River, approximately 60 miles to the intersection of the extreme left bank with the mean high tide of the Arctic Ocean in section 15, T. 9 N., R. 24 E., Umiat Meridian;

Thence on an approximate forward bearing of N. 56 1/2° E., approximately 3 1/4 miles to the line of extreme low water of the most westerly tip of the most northwesterly island, westerly of Brownlow Point, section 6, T. 9 N., R. 25 E., Umiat Meridian;

Thence easterly, along the line of extreme low water of the Arctic Ocean, including all offshore bars, reefs, and islands, to the intersection of the International Boundary line between Alaska and the Yukon Territory, Canada, in the vicinity of Monument 1 of said International Boundary line;

Thence southerly, along the International Boundary, approximately 51 3/4 miles to Monument Number 63, located at the summit of a ridge in section 21, T. 24 N., R. 31 E., Fairbanks Meridian, approximate elevation 3,472 feet;

Thence westerly, southwesterly and northwesterly, along the crest of the

Thence easterly, along the line of extreme low water of the Arctic Ocean, including all offshore bars, reefs, and islands, to the intersection of the International Boundary line between Alaska and the Yukon Territory, Canada, in the vicinity of Monument 1 of said International Boundary line;

Thence southerly, along the International Boundary, approximately 115 miles to the closing corner of section 3, T. 17 S., R. 48 E., Umiat Meridian and section 26, T. 37 N., R. 29 E., Fairbanks Meridian;

Thence westerly, between the Fairbanks and Umiat Meridians, approximately 38 1/2 miles to the left bank of the Sheenjek River located between section 1, T. 17 S., R. 38 E., Umiat Meridian and section 30, T. 37 N., R. 20 E., Fairbanks Meridian;

Thence southwesterly, along the left bank of the Sheenjek River, approximately 2 miles to a point opposite the mouth of Monument Creek in section 5, T. 36 N., R. 20 E., Fairbanks Meridian;

Thence westerly, across the Sheenjek River, to the right bank of Monument Creek located in section 5, T. 36 N., R. 20 E., Fairbanks Meridian;

Thence northwesterly along the right bank of Monument Creek, approximately 16 1/2 miles to a point opposite a north fork of Monument Creek in section 9, T. 16 S., R. 36 E., Umiat Meridian;

Thence northerly, along the right bank of the north fork of Monument Creek, approximately 12 miles to the intersection of the line between Rs. 35 and 36 E., T. 14 S., Rs. 35 and 36 E., Umiat Meridian;

Thence southerly, between Rs. 35 and 36 E., approximately 13 1/2 miles to the closing corner of T. 17 S., Rs. 35 and 36 E., Umiat Meridian;

Thence westerly, between the Fairbanks and Umiat Meridians, approximately 3/4 mile to the corner of T. 37 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence southerly, between Rs. 16 and 17 E., approximately 1 1/4 miles to the standard corner of T. 37 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence westerly, on the Ninth Standard Parallel North, approximately 1 1/2 miles to the closing corner of T. 36 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence southerly, between Rs. 16 and 17 E., approximately 24 miles to the standard corner of T. 33 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence easterly, on the Eighth Standard Parallel North, approximately 79 1/4 miles to the closing corner of Tps. 32 and 33 N., R. 30 E., Fairbanks Meridian, on the International Boundary between Canada and the United States of America;

Thence southerly, along the International Boundary, approximately 51 3/4 miles to Monument Number 63, located at the summit of a ridge in section 21, T. 24 N., R. 31 E., Fairbanks Meridian, approximate elevation 3,472 feet;

Thence westerly, southwesterly and northwesterly, along the crest of the divide between the Salmon Trout River, Fort Creek, Tetthejik Creek and Kevinjik Creek drainages, approximately 44 miles to a point on the south boundary of section 35, T. 25 N., R. 27 E., Fairbanks Meridian;

Thence westerly, on the Sixth Standard Parallel North, approximately 6 1/2 miles to the closing corner of T. 24 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence southerly, between Rs. 26 and 27 E., approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 24 N., Rs. 26 and 27 E., Fairbanks Meridian;

*Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, approximately 5 miles to the corner of sections 7, 8, 17 and 18, T. 24 N., R. 26 E., Fairbanks Meridian;

*Thence southerly, between sections 17 and 18, 19 and 20, 29 and 30, 31 and 32, approximately 4 miles to the corner of sections 5, 6, 31 and 32, Tps. 23 and 24 N., R. 26 E., Fairbanks Meridian;

*Thence westerly, between Tps. 23 and 24 N., approximately 1 mile to the corner of Tps. 23 and 24 N., Rs. 25 and 26 E., Fairbanks Meridian;

Thence southerly, between Rs. 25 and 26 E., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 23 N., Rs. 25 and 26 E., Fairbanks Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, approximately 4 miles to the corner of sections 16, 17, 20 and 21, T. 23 N., R. 25 E., Fairbanks Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 23 N., R. 25 E., Fairbanks Meridian;

Thence westerly, between sections 20 and 29, 19 and 30, approximately 2 miles to the corner of sections 19, 24, 25 and 30, T. 23 N., Rs. 24 and 25 E., Fairbanks Meridian;

Thence southerly, between Rs. 24 and 25 E., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 23 N., Rs. 24 and 25 E., Fairbanks Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, approximately 5 miles to the corner of sections 29, 30, 31 and 32, T. 23 N., R. 24 E., Fairbanks Meridian;

Thence northerly, between sections 29 and 30, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 23 N., R. 24 E., Fairbanks Meridian;

Thence westerly, between sections 19 and 30, 24 and 25, 23 and 26, approximately 3 miles to the corner of sections 22, 23, 26 and 27, T. 23 N., R. 23 E., Fairbanks Meridian;

Thence northerly, between sections 22 and 23, 14 and 15, 10 and 11, 2 and 3, approximately 4 miles to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 N., R. 23 E., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 6 miles to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 W., R. 22 E., Fairbanks Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 23 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 4 miles to the corner of sections 13, 18, 19 and 24, T. 23 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence northerly, between Rs. 21 and 22 E., approximately 3 miles to the corner of Tps. 23 and 24 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 23 and 24 N., R. 21 E., Fairbanks Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, 23 and 24, approximately 3 miles to the corner of sections 13, 14, 23 and 24, T. 24 N., R. 21 E., Fairbanks Meridian;

Thence easterly, between sections 13 and 24, 18 and 19, 17 and 20, approximately 3 miles to the corner of sections 16, 17, 20 and 21, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 10 and 11, 2 and 3, approximately 2 miles to the closing corner of sections 2 and 3, T. 24 N., R. 22 E., Fairbanks Meridian;

++Thence easterly, along the Sixth Standard Parallel North, approximately 3/4 mile to the standard corner of sections 33 and 34, T. 25 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, approximately 8 miles to the corner of sections 21, 22, 27 and 28, T. 26 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 26 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, 4 and 5, approximately 4 miles to the corner of sections 4, 5, 32 and 33, Tps. 26 and 27 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 26 and 27 N., approximately 2 miles to the corner of Tps. 26 and 27 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence northerly, between Rs. 21 and 22 E., approximately 6 miles to the corner of Tps. 27 and 28 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 27 and 28 N., approximately 6 miles to the corner of Tps. 27 and 28 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence northerly, between Rs. 20 and 21 E., approximately 6 miles to the closing corner of T. 28 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence westerly, along the Seventh Standard Parallel North, approximately 4 1/2 miles to the standard corner of T. 29 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence northerly, between Rs. 19 and 20 E., approximately 12 miles to the corner of Tps. 30 and 31 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence westerly, between Tps. 30 and 31 N., approximately 27 miles to the corner of sections 3, 4, 33 and 34, Tps. 30 and 31 N., R. 15 E., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 30 N., R. 15 E., Fairbanks Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, approximately 5 miles to the corner of sections 10, 11, 14 and 15, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence southerly, between sections 14 and 15, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 30 N., R. 14 E., Fairbanks Meridian;

[++Note: The USGS base map for this area (Coleen quad) inaccurately depicts the Range numbers at the bottom of the sheet. Beginning in the lower lefthand corner, the Range numbers should be increased by 1: thus R. 16 E. should be R. 17 E., etc.]

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence southerly, between sections 21 and 22, approximately 1 mile to the

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE ARCTIC NATIONAL WILDLIFE REFUGE:

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence southerly, between sections 21 and 22, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, 19 and 30, approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 30 N., Rs. 13 and 14 E., Fairbanks Meridian;

Thence northerly, between Rs. 13 and 14 E., approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 30 N., Rs. 13 and 14 E., Fairbanks Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 30 N., R. 13 E., Fairbanks Meridian;

Thence northerly, between sections 10 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 N., R. 13 E., Fairbanks Meridian;

Thence westerly, between sections 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 4 miles to the corner of sections 1, 6, 7 and 12, T. 30 N., Rs. 12 and 13 E., Fairbanks Meridian;

Thence southerly, between Rs. 12 and 13 E., approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 30 N., Rs. 12 and 13 E., Fairbanks Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, approximately 4 miles to the corner of sections 20, 21, 28 and 29, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 29 and 30 N., R. 12 E., Fairbanks Meridian;

Thence westerly, between Tps. 29 and 30 N., approximately 1 1/4 miles to a point on the easterly boundary of the Venetie Indian Reservation between sections 1 and 36, Tps. 29 and 30 N., R. 11 E., Fairbanks Meridian;

Thence northeasterly, northwesterly, easterly, northerly and southwesterly, along the easterly and northwesterly boundary of the Venetie Indian Reservation as surveyed and platted in U.S. Survey No. 5220, Alaska, dated April 26, 1978, approximately 162 miles to a point between sections 31 and 36, T. 29 N., Rs. 3 and 4 E., Fairbanks Meridian, the place of beginning.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE ARCTIC NATIONAL WILDLIFE REFUGE:

Section 702 (3):

"Arctic Wildlife Refuge Wilderness of approximately eight million acres as generally depicted on a map entitled "Arctic National Wildlife Refuge" dated August 1980;"

The Arctic Wildlife Refuge Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the intersection of the International Boundary between Alaska and the Yukon Territory, Canada, with the line of extreme low water of the Arctic Ocean in the vicinity of Monument Number 1 of said International Boundary line;

Thence southerly, along the International Boundary, approximately 101 miles to a point on the right bank of the Bilwaddy Creek located in section 34, T. 14 S., R. 46 E., Umiat Meridian;

Thence westerly, along the right bank of Bilwaddy Creek to the saddle between its headwater and those of an unnamed tributary of Coleen River, approximately 18 miles to a point in southwesterly portion of section 13, T. 14 S., R. 45 E., Umiat Meridian;

Thence southwesterly, across the saddle to a point on the headwaters of a tributary stream of the Coleen River in section 13, T. 14 S., R. 45 E., Umiat Meridian;

Thence westerly, along the left bank of the tributary stream of the Coleen River to its intersection with the Coleen River, approximately 11 miles to a point in section 10, T. 15 S., R. 44 E., Umiat Meridian;

Thence across and northwesterly, along the right bank of the Coleen River to an intersection of an unnamed tributary, approximately 8 miles to a point in section 10, T. 14 S., R. 43 E., Umiat Meridian;

*Thence westerly, along the right bank of the unnamed tributary of the Coleen River to the crest of the saddle between its headwaters and the headwaters of an unnamed tributary of Eskimo Creek, approximately 11 miles to a point in the southwesterly portion of section 11, T. 14 S., R. 41 E., Umiat Meridian;

*Thence southwesterly, across the saddle to a point on the headwaters of an unnamed tributary of Eskimo Creek in section 15, T. 14 S., R. 41 E., Umiat Meridian;

UMI

FEB 24
ISS 38
VOL 48
4 8

Thence westerly, along the left bank of the unnamed tributary of Eskimo to its junction with Eskimo Creek, approximately 8 miles to a point in section 3, T. 15 S., R. 40 E., Umiat Meridian;

Thence southwesterly, along the left bank of Eskimo Creek to its junction with the Sheenjek River, approximately 10 miles to a point in section 4, T. 16 S., R. 39 E., Umiat Meridian;

Thence southerly, along the left bank of the Sheenjek River, approximately 8½ miles to a point opposite the mouth of Monument Creek, in section 5, T. 36 N. R. 20 E., Fairbanks Meridian;

Thence westerly, across the Sheenjek River to the right bank of Monument Creek located in section 5, T. 36 N., R. 20 E., Fairbanks Meridian;

Thence northwesterly, along the right bank of Monument Creek, approximately 16½ miles to a point opposite a north fork of Monument Creek in section 9, T. 16 S., R. 36 E., Umiat Meridian;

Thence northerly, along the right bank of the north fork of Monument Creek, approximately 26 miles to the point where said creek intersects a straight line projected from Brushman Mountain to Index Mountain;

Thence northeasterly, along this straight line approximately 7½ miles to its intersection with the right bank of Old Woman Creek;

Thence northerly, along the right bank of Old Woman Creek, approximately 12½ miles to a point opposite an unnamed tributory in section 12, T. 11 S., R. 33 E., Umiat Meridian;

Thence northeasterly and northwesterly, along the right bank of the unnamed tributary of Old Woman Creek, approximately 15 miles to the crest of a mountain at the head of a branch of Old Woman Creek whose elevation is approximately 7,110 feet in the northwesterly portion of T. 9 S., R. 34 E., Umiat Meridian;

Thence northwesterly and southwesterly, along the left banks of an unnamed tributary to the Chandalar River and the Chandalar River, approximately 18 miles to a point opposite the right bank of Red Sheep Creek, in the northeasterly portion of T. 9 S., R. 31 E., Umiat Meridian;

Thence northwesterly, along the right bank of Red Sheep Creek and the right bank of one of its northern tributaries, approximately 18 miles to its source at the crest of an unnamed mountain whose elevation is approximately 7,900 feet, in the southeasterly portion of T. 6 S., R. 29 E., Umiat Meridian;

Thence northwesterly, across the crest of an unnamed mountain whose elevation is approximately 7,900 feet, to the head of an unnamed tributary of the Canning River, in the southerly portion of T. 6 S., R. 29 E., Umiat Meridian;

Thence northerly, along the left bank of an unnamed tributary of the Canning River, approximately 10 miles to its junction with the Canning River, in the southeasterly portion of T. 5 S., R. 28 E., Umiat Meridian;

Thence westerly and northerly, along the line of mean high water of the left bank of the Canning River, approximately 65 miles to the meander corner of section 35 on the First Standard Parallel North, T. 5 N., R. 23 E., Umiat Meridian;

Thence easterly, along the First Standard Parallel North, approximately 40 3/4 miles to the closing corner of T. 4 N., Rs. 30 and 31 E., Umiat Meridian;

Thence southerly, between Rs. 30 and 31 E., approximately 6 miles to the corner of Tps. 3 and 4 N., Rs. 30 and 31 E., Umiat Meridian;

Thence easterly, between Tps. 3 and 4 N., approximately 18 miles to the corner of Tps. 3 and 4 N., Rs. 33 and 34 E., Umiat Meridian;

Thence southerly, between Rs. 33 and 34 E., approximately 6 miles to the corner of Tps. 2 and 3 N., Rs. 33 and 34 E., Umiat Meridian;

Thence easterly, between Tps. 2 and 3 N., approximately 21 miles to the meander corner of sections 4 and 33, on the left bank of the Aichilik River, Tps. 2 and 3 N., R. 37 E., Umiat Meridian;

Thence northeasterly, along the line of mean high water on the left bank of the Aichilik River, approximately 32 miles to a point at the line of mean high tide of the Beaufort Lagoon, located in section 28, T. 6 N., R. 40 E., Umiat Meridian;

Thence on an approximate forward bearing of N. 65° E., approximately 7,600 feet to a point on the northerly boundary of the Arctic National Wildlife Refuge located in section 22, T. 6 N., R. 40 E., Umiat Meridian, at the line of extreme low tide;

Thence southeasterly, along the northerly boundary of the Aretic National Wildlife Refuge at the line of extreme low tide on the seaward side of all offshore bars, reefs and islands, approximately 31 miles to the International Boundary between Canada and the United States of America, the place of beginning.

UNITS OF THE NATIONAL WILD AND SCENIC RIVERS SYSTEM WITHIN THE ARCTIC NATIONAL WILDLIFE REFUGE:

Section 602:

"Ivishak, Alaska.--That portion from its source, including all headwaters and an unnamed tributary from Porcupine Lake within the boundary of the Arctic National Wildlife Range [sic]; to be administered by the Secretary of the Interior."

"Theenick, Alaska.--The segment within the Arctic National Wildlife

The following USGS quadrangle maps were used to prepare the legal description for the Arctic National Wildlife Refuge:

boundary of the Arctic National Wildlife Range [sic]; to be administered by the Secretary of the Interior."

"Sheenjek, Alaska.--The segment within the Arctic National Wildlife Refuge; to be administered by the Secretary of the Interior."

"Wind, Alaska.--That portion from its source, including all headwaters and one unnamed tributary in township 13 south, within the boundaries of the Arctic National Wildlife Refuge; to be administered by the Secretary of the Interior.".

NOTE: The boundaries of designated wild river corridors will be determined during the comprehensive conservation planning process for the Arctic National Wildlife Refuge and will be published upon completion of that plan (due by December 1985).

Designated Study River:

Section 604 (a): Porcupine, Alaska. The corridor withdrawn during the course of the study and consideration by Congress consists of those public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of that portion of the Porcupine River inside the Arctic National Wildlife Refuge from T. 30 N., R. 30 W., to T. 25 N., R. 22 E., Fairbanks Meridian.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

BECHAROF NATIONAL WILDLIFE REFUGE

Section 302 (2):

BECHAROF NATIONAL WILDLIFE REFUGE

Section 302 (2):

"The Becharof National Wildlife Refuge shall consist of the approximately one million two hundred thousand acres of public lands generally depicted on the map entitled 'Becharof National Wildlife Refuge', dated July 1980."

The Becharof National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at a point at the line of mean high tide of Shelikof Strait, located approximately N. 45° E., 200 feet from the meander corner of sections 1 and 12, T. 32 S., R. 42 W., Seward Meridian;

Thence northwesterly, northerly and northwesterly, along the crest of a ridge, approximately 13 1/4 miles to the summit of a mountain located in the southerly portion of section 35, T. 30 S., R. 43 W., Seward Meridian, approximate elevation 2,445 feet;

Thence on an approximate forward bearing of N. 54° W., approximately 6 1/4 miles to the summit of Mt. Ugashik located in section 6, T. 30 S., R. 43 W., Seward Meridian, approximate elevation 2,230 feet;

Thence on an approximate forward bearing of N. 50° E., approximately 3 3/4 miles to the summit of Mt. Lee located in section 22, T. 29 S., R. 43 W., Seward Meridian, approximate elevation 2,650 feet;

Thence due West, approximately 1/4 mile to a point between sections 21 and 22, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 21 and 22, approximately 3/4 mile to the corner of sections 15, 16, 21 and 22, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 8 and 17, approximately 1 mile to the corner of sections 7, 8, 17 and 18, T. 29 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 7 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 29 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 6 and 7, approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 29 S., Rs. 43 and 44 W., Seward Meridian;

Thence northerly, between Rs. 43 and 44 W., approximately 1 mile to the closing corner of T. 29 S., Rs. 43 and 44 W., Seward Meridian;

Thence westerly, on the Seventh Standard Parallel South, approximately 2,200 feet to the standard corner of sections 32 and 33, T. 28 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 32 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 28 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 28 S., R. 43 W., Seward Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 28 S., R. 43 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, approximately 2 miles to the corner of sections 13, 14, 23 and 24, T. 28 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 13 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 28 S., R. 44 W., Seward Meridian;

Thence westerly, between sections 11 and 14, 10 and 15, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 28 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 28 S., R. 44 W., Seward Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, approximately 3 miles to the corner of sections 1, 6, 7 and 12, T. 28 S., Rs. 44 and 45 W., Seward Meridian;

Thence northerly, between Rs. 44 and 45 W., approximately 1 mile to the corner of Tps. 27 and 28 S., Rs. 44 and 45 W., Seward Meridian;

Thence westerly, between Tps. 27 and 28 S., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 27 and 28 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 27 S., R. 45 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 27 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 28 and 29, 20 and 21, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 27 S., R. 45 W., Seward Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 27 S., Rs. 45 and 46 W., Seward Meridian;

Thence northerly, between Rs. 45 and 46 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 27 S., Rs. 45 and 46 W., Seward Meridian;

Thence westerly, between sections 12 and 13, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 11 and 12, approximately 1/2 mile to the 1/4 section corner of sections 11 and 12, T. 27 S., R. 46 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 11, approximately 1/2 mile to the center 1/4 section corner of section 11, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 11, approximately 1/2 mile to the 1/4 section corner of sections 2 and 11, T. 27 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1/2 mile to the corner of sections 2, 3, 10 and 11, T. 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 2 and 3, approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 26 and 27 S., R. 46 W., Seward Meridian;

Thence westerly, between Tps. 26 and 27 S., approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 26 and 27 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 28 and 29, approximately 1/2 mile to the 1/4 section corner of sections 28 and 29, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 29, approximately 1/2 mile to the center 1/4 section corner of section 29, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 29, approximately 1/2 mile to the 1/4 section corner of sections 20 and 29, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1/2 mile to the corner of sections 19, 20, 29 and 30, T. 26 S., R. 46 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 26 S., R. 46 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 26 S., Rs. 46 and 47 W., Seward Meridian;

Thence northerly, between Rs. 46 and 47 W., approximately 8 miles to the closing corner of sections 7 and 12, T. 25 S., Rs. 46 and 47 W., Seward Meridian;

Thence easterly, on the Sixth Standard Parallel South, approximately 1,900 feet to the standard corner of T. 24 S., Rs. 46 and 47 W., Seward Meridian;

Thence northerly, between Rs. 46 and 47 W., approximately 18 miles to the corner of Tps. 21 and 22 S., Rs. 46 and 47 W., Seward Meridian;

Thence easterly, between Tps. 21 and 22 S., approximately 6 miles to the corner of Tps. 21 and 22 S., Rs. 45 and 46 W., Seward Meridian;

Thence northerly, between Rs. 45 and 46 W., approximately 6 miles to the closing corner of T. 21 S., Rs. 45 and 46 W., Seward Meridian;

Thence easterly, on the Fifth Standard Parallel South, approximately 1,900 feet to the standard corner of sections 33 and 34, T. 20 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, approximately 5 miles to the meander corner of sections 3 and 4, T. 20 S., R. 45 W., Seward Meridian, at the line of mean high water of an unnamed lake;

Thence northerly, along the line of mean high water of the unnamed lake, approximately 1 mile to the meander corner of sections 3 and 4, T. 20 S., R. 45 W., Seward Meridian;

Thence northerly, between sections 3 and 4, approximately 700 feet to the corner of sections 3, 4, 33 and 34, Tps. 19 and 20 S., R. 45 W., Seward Meridian;

Thence easterly, between Tps. 19 and 20 S., approximately 1 mile to the corner

Thence northerly, between sections 9 and 10, approximately 1/2 mile to the 1/4 section corner of sections 9 and 10, T. 19 S., R. 44 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 10, approximately 1/2 mile to the center 1/4 section corner of section 10, T. 19 S., R. 44 W.,

Thence northerly, between Rs. 44 and 45 W., approximately 1/2 mile to the corner of sections 13, 18, 19 and 24, T. 19 S., Rs. 44 and 45 W., Seward Meridian;

Thence easterly, between sections 18 and 19, approximately 1/2 mile to the 1/4 section corner of sections 18 and 19, T. 19 S., R. 44 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 18, approximately 1/2 mile to the center 1/4 section corner of section 18, T. 19 S., R. 44 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 18 and 17, approximately 1 mile to the center 1/4 section corner of section 17, T. 19 S., R. 44 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 17, approximately 1/2 mile to the 1/4 section corner of sections 8 and 17, T. 19 S., R. 44 W., Seward Meridian;

Thence easterly, between sections 8 and 17, 9 and 16, approximately 1 1/2 miles to the corner of sections 9, 10, 15 and 16, T. 19 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1/2 mile to the 1/4 section corner of sections 9 and 10, T. 19 S., R. 44 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 10, approximately 1/2 mile to the center 1/4 section corner of section 10, T. 19 S., R. 44 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 10, approximately 1/2 mile to the 1/4 section corner of sections 3 and 10, T. 19 S., R. 44 W., Seward Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, approximately 1 1/2 miles to the corner of sections 1, 2, 11 and 12, T. 19 S., R. 44 W., Seward Meridian;

Thence northerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 18 and 19 S., R. 44 W., Seward Meridian;

Thence easterly, between Tps. 18 and 19 S., approximately 1 mile to the corner of Tps. 18 and 19 S., Rs. 43 and 44 W., Seward Meridian;

Thence southerly, between Rs. 43 and 44 W., approximately 1/2 mile to the 1/4 section corner of sections 1 and 6, T. 19 S., Rs. 43 and 44 W., Seward Meridian;

Thence on an approximate forward bearing of S. 89° E., approximately 9 3/4 miles to the vertical angle bench mark "Contact" located in section 4, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,136 feet;

Thence on an approximate forward bearing of S. 18° W., approximately 4 3/4 miles to the summit of a mountain located in the southwesterly portion of section 29, T. 19 S., R. 42 W., Seward Meridian, approximate elevation 1,125 feet;

Thence on an approximate forward bearing of S. 2° W., approximately 8 miles to vertical angle bench mark "Granite" located in section 11, T. 21 S., R. 43 W., Seward Meridian, approximate elevation 1,683 feet;

Thence on an approximate forward bearing of S. 30° E., approximately 13 1/4 miles to vertical angle bench mark horizontal control station "Red" located in the southeasterly portion of section 2, T. 23 S., R. 42 W., Seward Meridian, approximate elevation 1,721 feet;

Thence on an approximate forward bearing of S. 40° E., approximately 3 3/4 miles to vertical angle bench mark horizontal control station "Cert" located in the southwesterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian, approximate elevation 1,141 feet;

Thence on an approximate forward bearing of S. 78° E., approximately 4,000 feet to the confluence of the King Salmon River and Contact Creek located in the southeasterly portion of section 20, T. 23 S., R. 41 W., Seward Meridian;

Thence on an approximate forward bearing of S. 45° E., approximately 5 3/4 miles to the intersection of a ridge and the line between sections 13 and 18, T. 24 S., Rs. 40 and 41 W., Seward Meridian;

Thence southeasterly and easterly, along the crest of a ridge, approximately 24 3/4 miles to a point between sections 14 and 23, T. 25 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, approximately 4 1/4 miles to the corner of sections 15, 16, 21 and 22, T. 25 S., R. 37 W., Seward Meridian;

Thence on an approximate forward bearing of S. 32° E., approximately 3,100 feet to the summit of a mountain located in section 22, T. 25 S., R. 37 W., Seward Meridian, approximate elevation 2,267 feet;

Thence southerly and easterly, along the crest of a ridge, approximately 19 miles to a point N. 40° W. of vertical angle bench mark "Kubugakli," located in section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 1,150 feet;

Thence S. 40° E., approximately 3,800 feet to vertical angle bench mark "Kubugakli";

Thence S. 40° E., approximately 800 feet, to the line of mean high tide of Shelikof Strait;

Thence southwesterly, along the line of mean high tide of Shelikof Strait, closing the mouths of all rivers to a point approximately N. 45° E., 200 feet from the meander corner of sections 1 and 12, T. 32 S., R. 42 W., Seward Meridian, the place of beginning.

UNITS OF THE WILDERNESS PRESERVATION SYSTEM WITHIN THE BECHAROF NATIONAL WILDLIFE REFUGE:

Section 702 (4):

Becharof Wilderness of approximately four hundred thousand acres as generally depicted on a map entitled "Becharof National Wildlife Refuge" dated July 1980;

The Becharof Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at vertical angle bench mark "Kubugakli" located in the southeasterly portion of section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevation 139 feet;

Thence S. 40° E., approximately 800 feet, along the Becharof National Wildlife Refuge boundary, to the line of mean high tide of Shelikof Strait;

Thence southwesterly, along the line of mean high tide of Shelikof Strait, closing the mouths of all rivers to a point on the left bank of Jute Creek, located in the easterly portion of section 19, T. 30 S., R. 40 W., Seward Meridian;

Thence northwesterly, along the left bank of Jute Creek to the source of its branch in Section 12, T. 30 S., R. 41 W., Seward Meridian;

Thence northwesterly, in a straight line to the source of the branch of Bear Creek in Section 12, T. 30 S., R. 41 W., Seward Meridian;

Thence northwesterly, along the right bank of Bear Creek to its confluence with Becharof Lake, T. 29 S., R. 42 W., Seward Meridian;

Thence westerly , approximately 9,600 feet to a point on the left bank of Burls Creek in section 10, T. 29 S., R. 42 W., Seward Meridian;

Thence northwesterly, along the line of mean high water of Becharof Lake, closing the mouth of all rivers, approximately 12 miles, to the meander corner of sections 4 and 33, Tps. 27 and 28 S., R. 42 W., Seward Meridian;

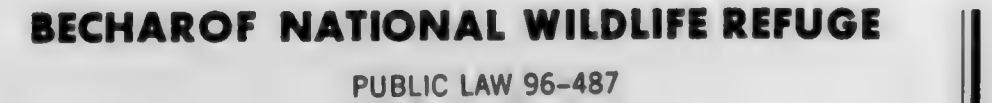
Thence on an approximate forward bearing of N. 45° E., approximately 8,000 feet to the meander corner of sections 26 and 27, T. 27 S., R. 42 W., Seward Meridian;

Thence northwesterly, easterly, northerly and northwesterly, along the line of mean high water of Becharof Lake, closing the mouths of all rivers, approximately 29 miles to the meander corner of sections 8 and 9, T. 25 S., R. 43 W., Seward Meridian;

Thence on an approximate forward bearing of N. 13° E., approximately 7,800 feet to the summit of Blue Mountain, located in section 4, T. 25 S., R. 43 W., Seward Meridian, approximate elevation 1,930 feet;

Thence on an approximate forward bearing of N. 55° E., approximately 42,500 feet to the summit of a mountain located in section 9, T. 24 S., R. 42 W., Seward Meridian, approximate elevation 1,344 feet;

Thence on an approximate forward bearing of S. 63° E., approximately 47,500



UMI

ISS 38
VOL 48
4

Thence on an approximate forward bearing of N. 55° E., approximately 42,500 feet to the summit of a mountain located in section 9, T. 24 S., R. 42 W., Seward Meridian, approximate elevation 1,344 feet;

Thence on an approximate forward bearing of S. 63° E., approximately 47,500 feet to the summit of a mountain, located in section 36, T. 24 S., R. 41 W., Seward Meridian, approximate elevation 1,845 feet;

Thence on an approximate forward bearing of S. 81° E., approximately 10,800 feet to the summit of a mountain located in section 32, T. 24 S., R. 40 W., Seward Meridian, approximate elevation 2,568 feet;

Thence on an approximate forward bearing of S. 89° E., approximately 9,600 feet to the summit of a mountain located in section 34, T. 24 S., R. 40 W., Seward Meridian, approximate elevation 3,355 feet;

Thence southeasterly and easterly, along the crest of a ridge, approximately 19 miles to a point between sections 14 and 23, T. 25 S., R. 38 W., Seward Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, approximately 4 1/4 miles to the corner of sections 15, 16, 21 and 22, T. 25 S., R. 37 W., Seward Meridian;

Thence on an approximate forward bearing of S. 32° E., approximately 3,100 feet to the summit of a mountain located in section 15, T. 25 S., R. 37 W., Seward Meridian, approximate elevation 2,267 feet;

Thence southerly and easterly, along the crest of a ridge, approximately 19 miles to a point N. 40° W. of vertical angle benchmark "Kubugakli" in section 6, T. 27 S., R. 35 W., Seward Meridian, approximate elevaton 1,150 feet;

Thence S. 40° E., approximately 3,800 feet to vertical angle bench mark "Kubugakli", the point of beginning.

The following USGS quadrangle maps were used to prepare the legal description for the Becharof National Wildlife Refuge:

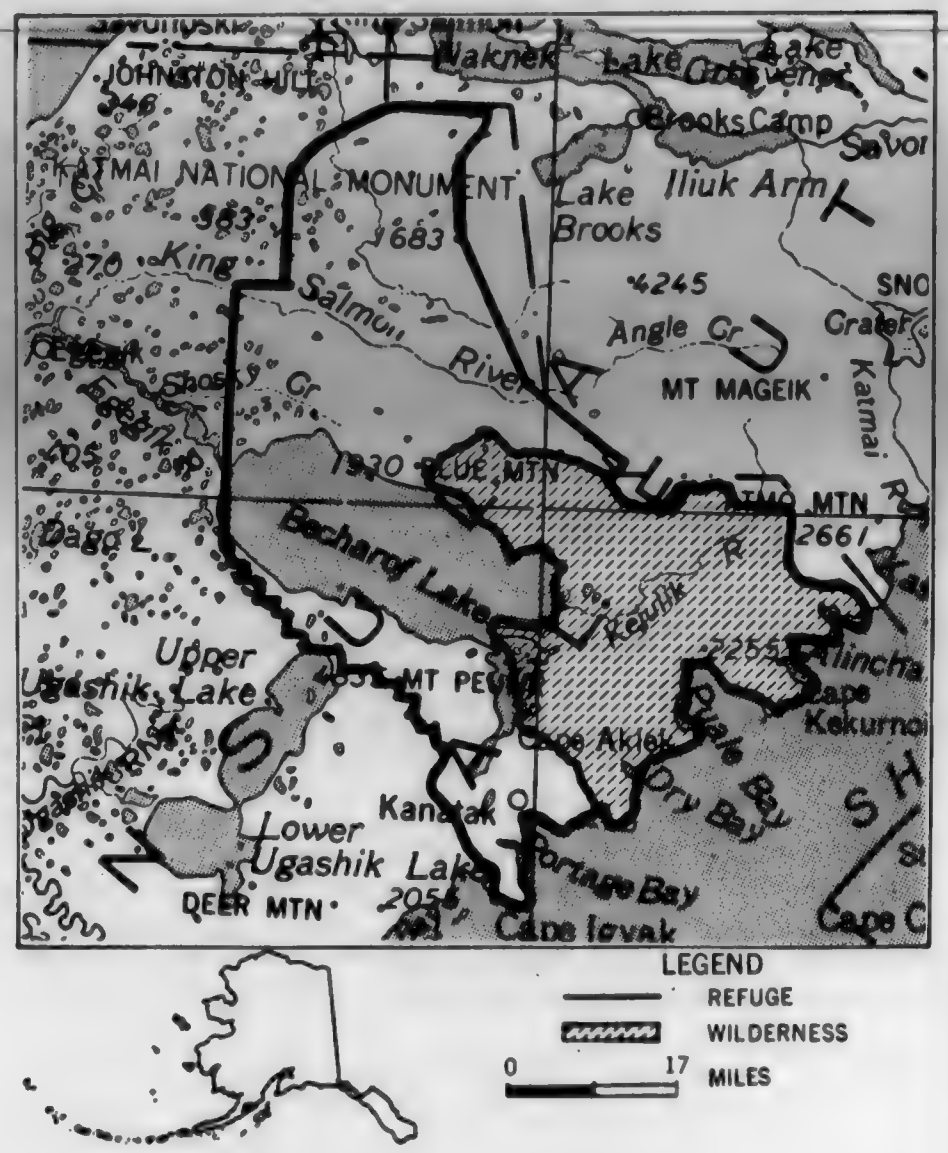
BECHAROF NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



INNOKO NATIONAL WILDLIFE REFUGE

Section 302 (3):

"The Innoko National Wildlife Refuge shall consist of the approximately three million eight hundred and fifty thousand acres of public lands generally depicted on the map entitled "Innoko National Wildlife Refuge", dated October 1978."

The Innoko National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundaries:

Innoko Unit

Beginning at the standard corner of T. 20 S., Rs. 12 and 13 E., Kateel River Meridian;

Thence northerly, between Rs. 12 and 13 E., approximately 6 miles to the corner of Tps. 19 and 20 S., Rs. 12 and 13 E., Kateel River Meridian;

Thence westerly, between Tps. 19 and 20 S., approximately 24 miles to the corner of Tps. 19 and 20 S., Rs. 8 and 9 E., Kateel River Meridian;

Thence northerly, between Rs. 8 and 9 E., approximately 12 miles to the corner of Tps. 17 and 18 S., Rs. 8 and 9 E., Kateel River Meridian;

Thence westerly, between Tps. 17 and 18 S., approximately 36 miles to the corner of Tps. 17 and 18 S., Rs. 2 and 3 E., Kateel River Meridian;

Thence northerly, between Rs. 2 and 3 E., approximately 2 1/2 miles to the 1/4 section corner of sections 19 and 24, T. 17 S., Rs. 2 and 3 E., Kateel River Meridian;

Thence westerly, on the east and west centerlines of sections 24, 23, 22, 21, 20, 19, 24, 23, 22, 21, 20 and 19, approximately 12 miles to a point at the line of mean high water on the left bank of the Yukon River located in section 19, T. 17 S., R. 1 E., Kateel River Meridian;

Thence southwesterly, along the left bank and including all islands above the line of mean high water of the Yukon River, approximately 22 miles to the meander corner between sections 2 and 35, Tps. 19 and 20 S., R. 3 W., Kateel River Meridian;

Thence easterly, between Tps. 19 and 20 S., approximately 7 1/2 miles to the corner of Tps. 19 and 20 S., Rs. 1 and 2 W., Kateel River Meridian;

Thence southerly, between Rs. 1 and 2 W., approximately 6 miles to the standard corner of T. 20 S., Rs. 1 and 2 W., Kateel River Meridian;

Thence easterly, on the Fourth Standard Parallel South, approximately 400 feet to the closing corner of T. 21 S., Rs. 1 and 2 W., Kateel River Meridian;

Thence southerly, between Rs. 1 and 2 W., approximately 6 miles to the corner of Tps. 21 and 22 S., Rs. 1 and 2 W., Kateel River Meridian;

Thence westerly, between Tps. 21 and 22 S., approximately 13 1/4 miles to the meander corner of sections 2 and 35, Tps. 21 and 22 S., R. 4 W., Kateel River Meridian, at the line of mean high water on the left bank of the Yukon River;

Thence southwesterly, along the left bank and including all islands above the line of mean high water of the Yukon River, approximately 69 miles to the meander corner between sections 6 and 31, Tps. 31 and 32 N., R. 57 W., Seward Meridian;

Thence easterly, between Tps. 31 and 32 N., approximately 30 miles to the corner of Tps. 31 and 32 N., Rs. 52 and 53 W., Seward Meridian;

Thence southerly, between Rs. 52 and 53 W., approximately 2 miles to the corner of Tps. 30 and 31 N., Rs. 52 and 53 W., Seward Meridian;

Thence easterly, between Tps. 30 and 31 N., approximately 42 miles to the corner of Tps. 30 and 31 N., Rs. 45 and 46 W., Seward Meridian;

Thence northerly, between Rs. 45 and 46 W., approximately 12 miles to the closing corner of T. 32 N., Rs. 45 and 46 W., Seward Meridian;

Thence easterly, on the Eighth Standard Parallel North, approximately 2 3/4 miles to the standard corner of T. 33 N., Rs. 44 and 45 W., Seward Meridian;

Thence northerly, between Rs. 44 and 45 W., approximately 7 miles to the corner of T. 34 N., Rs. 44 and 45 W., Seward Meridian;

Thence easterly, between the Seward and Kateel River Meridians, approximately 650 feet to the corner of sections 3 and 4, T. 29 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 4,500 feet to the corner of sections 3, 4, 33 and 34, Tps. 28 and 29 S., R. 6 E., Kateel River Meridian;

Thence easterly, between Tps. 28 and 29 S., approximately 3 miles to the corner of Tps. 28 and 29 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 24 miles to the closing corner of T. 25 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between sections 31 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32 T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly between sections 29 and 32, approximately 1 mile to the corner

Thence easterly, between Tps. 28 and 29 S., approximately 3 miles to the corner of Tps. 28 and 29 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 24 miles to the closing corner of T. 25 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence easterly, on the Sixth Standard Parallel South, approximately 18 1/2 miles to the standard corner of T. 24 S., Rs. 9 and 10 E., Kateel River Meridian;

Thence northerly, between Rs. 9 and 10 E., approximately 12 miles to the corner of Tps. 22 and 23 S., Rs. 9 and 10 E., Kateel River Meridian;

Thence easterly, between Tps. 22 and 23 S., approximately 18 miles to the corner of Tps. 22 and 23 S., Rs. 12 and 13 E., Kateel River Meridian;

Thence northerly, between Rs. 12 and 13 E., approximately 12 miles to the closing corner of T. 21 S., Rs. 12 and 13 E., Kateel River Meridian;

Thence easterly, on the Fifth Standard Parallel South, approximately 4,400 feet to the standard corner of T. 20 S., Rs. 12 and 13 E., Kateel River Meridian, the point of beginning.

Bullfrog Island and adjacent islands located above the line of mean high water between the Yukon River and Honeymoon Slough in Tps. 20 and 21 S., Rs. 3 and 4 W., Kateel River Meridian, are also included in this unit of the refuge; and

Kaiyuh Unit

Beginning at the corner of Tps. 9 and 10 S., Rs. 9 and 10 E., Kateel River Meridian;

Thence northerly, between Rs. 9 and 10 E., approximately 4 1/2 miles to the meander corner of sections 7 and 12, T. 9 S., Rs. 9 and 10 E., Kateel River Meridan, at the line of mean high water on the left bank of the Yukon River;

Thence northwesterly and southwesterly, along the left bank and including all the islands within the line of mean high water of the Yukon River excepting Koyukuk Island, approximately 74 miles to the meander corner between sections 5 and 32, Tps. 13 and 14 S., R. 1 E., Kateel River Meridian;

Thence easterly, between Tps. 13 and 14 S., approximately 29 miles to the corner of sections 5, 6, 31 and 32, Tps. 13 and 14 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 31 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32 T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly between sections 29 and 32, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 13 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 28 and 29, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly, between sections 21 and 28, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 13 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 21 and 22, approximately 1/2 mile to the 1/4 corner of section 21 and 22, T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 22 and 23, approximately 2 miles to the 1/4 section corner of sections 23 and 24, T. 13 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 23 and 24, approximately 1/2 mile to the corner of sections 13, 14, 23 and 24, T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly, between sections 13 and 24, approximately 1/2 mile to the 1/4 corner of sections 13 and 24, T. 13 S., Rs. 6, E., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 13, approximately 1 mile to the 1/4 section corner of sections 12 and 13, T. 13 S., R. 6 E., Kateel River Meridian;

Thence easterly, between sections 12 and 13, approximately 1/2 mile to the corner of sections 7, 12, 13 and 18, T. 13 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 2 miles to the closing corner of sections 1 and 6, T. 13 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence easterly, on the Third Standard Parallel South, approximately 1/2 mile to the standard corner of T. 12 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 1/2 mile to the 1/4 section corner of sections 31 and 36, T. 12 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 31, approximately 1 mile to the 1/4 section corner of sections 31 and 32, T. 12 S., R. 7 E., Kateel River Meridian;

Thence easterly, on the east and west centerlines of sections 15, 14, 13, 18 and 17, approximately 5 miles to the 1/4 section corner of sections 16 and 17, T. 12 S., R. 8 E., Kateel River Meridian;

Thence northerly, between sections 16 and 17, 8 and 9, approximately 1 1/2 miles to the corner of sections 4, 5, 8 and 9, T. 12 S., R. 8 E., Kateel River Meridian;

Thence easterly, between sections 4 and 9, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 12 S., R. 8 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 11 and 12 S., R. 8 E., Kateel River Meridian;

Thence easterly, between Tps. 11 and 12 S., approximately 1 1/2 miles to the 1/4 section corner of sections 2 and 35, Tps. 11 and 12, R. 8 E., Kateel River Meridian;

Thence northerly, on the north and south centerlines of sections 35, 26, and 23, approximately 3 miles to the 1/4 section corner of sections 14 and 23, T. 11 S., R. 8 E., Kateel River Meridian;

Thence easterly, between sections 14 and 15, 13 and 24, approximately 1 1/2 miles to the corner of sections 13, 18, 19 and 24, T. 11 S., Rs. 8 and 9 E., Kateel River Meridian;

Thence northerly, between Rs. 8 and 9 E., approximately 1/2 mile to the 1/4 section corner of sections 13 and 18, T. 11 S., Rs. 8 and 9 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 18, approximately 1 mile to the 1/4 section corner of sections 17 and 18, T. 11 S., R. 9 E., Kateel River Meridian;

Thence northerly, between sections 17 and 18, 7 and 8, approximately 1 mile to the 1/4 section corner of sections 7 and 8, T. 11 S., R. 9 E., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 8, approximately 1 mile to the 1/4 section corner of sections 8 and 9, T. 11 S., R. 9 E., Kateel River Meridian;

Thence northerly, between sections 8 and 9, 4 and 5, approximately 1 1/2 miles to the corner of sections 4, 5, 32 and 33, Tps. 10 and 11 S., R. 9 E., Kateel River Meridian;

Thence easterly, between Tps. 10 and 11 S., approximately 2 miles to the corner of sections 2, 3, 34 and 35, Tps. 10 and 11 S., R. 9 E., Kateel River Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, 22 and 23, 14 and 15, 10 and 11, approximately 5 miles to the corner of sections 2, 3, 10 and 11, T. 10 S., R. 9 E., Kateel River Meridian;

Thence easterly, between sections 2 and 11, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 10 S., R. 9 E., Kateel River Meridian;

Thence northerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 9 and 10 S., R. 9 E., Kateel River Meridian;

Thence easterly, between Tps. 9 and 10 S., approximately 1 mile to the corner of Tps. 9 and 10 S., Rs. 9 and 10 E., Kateel River Meridian, the place of beginning.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE INNOKO NATIONAL WILDLIFE REFUGE:

Sections 702 (5):

"Innoko Wilderness of approximately one million two hundred and forty thousand acres as generally depicted on a map entitled "Innoko National Wildlife Refuge", dated October 1978."

The Innoko Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Thence easterly, between Tps. 28 and 29 S., approximately 3 miles to the corner of Tps. 28 and 29 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 24 miles to the closing corner of T. 25 S., Rs. 6 and 7 E., Kateel River Meridian;

The Innoko Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the standard corner of T. 24 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 12 miles to the corner of Tps. 22 and 23 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence westerly, between Tps. 22 and 23 S., approximately 6 miles to the corner of Tps. 22 and 23 S., Rs. 5 and 6 E., Kateel River Meridian;

Thence northerly, between Rs. 5 and 6 E., approximately 5 miles to the meander corner of sections 7 and 12, T. 22 S., Rs. 5 and 6 E., Kateel River Meridian, at the line of mean high water on the left bank of the Innoko River;

Thence southwesterly, along the left bank of the Innoko River, approximately 191 miles to the meander corner of sections 4 and 33, Tps. 31 and 32 N., R. 54 W., Seward Meridian;

Thence easterly, between Tps. 31 and 32 N., approximately 10 miles to the corner of Tps. 31 and 32 N., Rs. 52 and 53 W., Seward Meridian;

Thence southerly, between Rs. 52 and 53 W., approximately 6 miles to the corner of Tps. 30 and 31 N., Rs. 52 and 53 W., Seward Meridian;

Thence easterly, between Tps. 30 and 31 N., approximately 42 miles to the corner of Tps. 30 and 31 N., Rs. 45 and 46 W., Seward Meridian;

Thence northerly, between Rs. 45 and 46 W., approximately 12 miles to the closing corner of T. 32 N., Rs. 45 and 46 W., Seward Meridian;

Thence easterly, on the Eighth Standard Parallel North, approximately 2 3/4 miles to the standard corner of T. 33 N., Rs. 44 and 45 W., Seward Meridian;

Thence northerly, between Rs. 44 and 45 W., approximately 7 miles to the corner of T. 34 N., Rs. 44 and 45 W., Seward Meridian;

Thence easterly, between the Seward and Kateel River Meridians approximately 650 feet to the corner of sections 3 and 4, T. 29 S., R. 6 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 4,500 feet to the corner of sections 3, 4, 33 and 34, Tps. 28 and 29 S., R. 6 E., Kateel River Meridian;

Thence easterly, between Tps. 28 and 29 S., approximately 3 miles to the corner of Tps. 28 and 29 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 24 miles to the closing corner of T. 25 S., Rs. 6 and 7 E., Kateel River Meridian;

Thence easterly, on the Sixth Standard Parallel South, approximately 1/2 mile to the standard corner of T. 24 S., Rs. 6 and 7 E., Kateel River Meridian, the point of beginning.

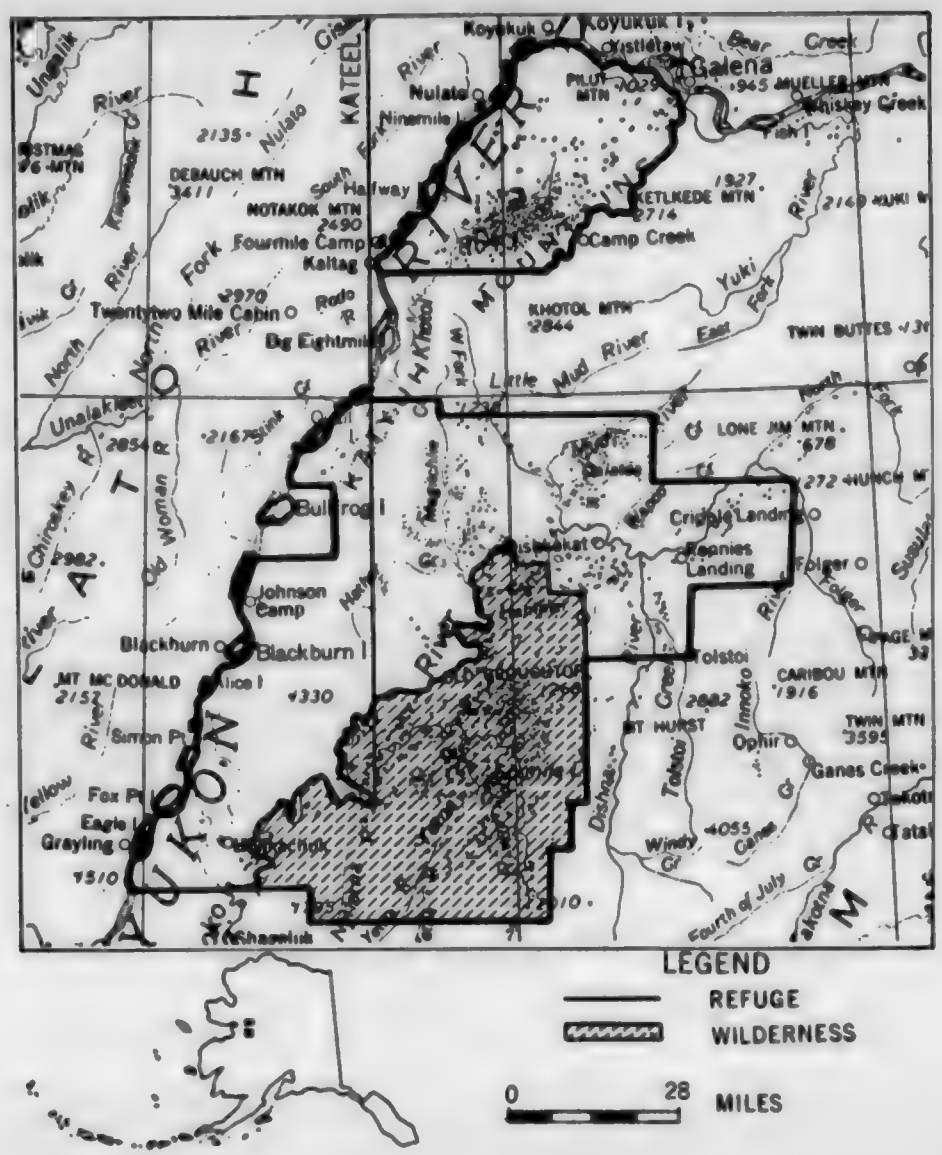
INNOKO NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



IZEMBEK NATIONAL WILDLIFE REFUGE

Section 303 (3):

"The existing Izembek National Wildlife Range including the lands, waters and interests of that unit which shall be redesignated as the Izembek National Wildlife Refuge."

NOTE: The Cape Krenitzin Peninsula was transferred from the Aleutian Islands NWR to Izembek NWR in compliance with the following Congressional directive on page 211 of Senate Report #96-413:

"Included within the Izembek wilderness is the Cape Krenitzin Peninsula. The peninsula is a 1,450-acre, geographical and ecological extension of the Alaska Peninsula land mass which is separated from the mainland by a narrow channel. Notwithstanding this fact, Cape Krenitzin was included within the Aleutian Islands National Wildlife Refuge at the time that refuge was established in 1913. The Committee intends that the Secretary should alter the present boundary and administer this peninsula as a part of the redesignated Izembek National Wildlife Refuge."

The Izembek National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

[Note: Due to inconsistencies between the portrayal of the Public Land Survey System on the 1:250,000 and the 1:63,360 scale maps of this area and the lack of complete coverage at the 1:63,360 scale, this unit has been described according to its physiographic features.]

Beginning at corner No. 1 from which U.S.C. and G.S. station COW, located on the edge of Cold Bay at approximate latitude 55° 12' 10.71" N. and longitude 162° 41' 57.76" W., bears N. 85° 52' 5" E., a distance of 1.34 miles;

Thence on an approximate forward bearing of S. 15° 30' W., approximately 1.61 miles to corner No. 2 on the easterly boundary of Air Navigation Site Withdrawal No. 176;

Thence due South, approximately 1 mile to corner No. 3, which is the southwest corner of Air Navigation Site Withdrawal No. 176;

Thence on an approximate forward bearing of S. 41° 00' W., approximately

Thence northwesterly, northeasterly, southwesterly, northeasterly and southwesterly, with the line of mean high tide along the banks of Bechevin Bay, approximately 19 miles to the most westerly point on Cape Krenitzin at approximate latitude 55° 04' 20" N., longitude 163° 26' W.;

Thence due South, approximately 1 mile to corner No. 3, which is the southwest corner of Air Navigation Site Withdrawal No. 176;

Thence on an approximate forward bearing of S. 41° 00' W., approximately 2.05 miles along the crest of a spur ridge to a point at approximate elevation 1,300 feet;

Thence on an approximate forward bearing of S. 68° 30' W., approximately 0.55 miles along the crest of a spur ridge to a point at approximate elevation 2,000 feet;

Thence on an approximate forward bearing of S. 34° 30' W., approximately 1.35 miles to corner No. 4 at forks of the spur ridge leading to Frosty Peak at approximate elevation 4,200 feet;

Thence on an approximate forward bearing of S. 30° 30' E., approximately 1.10 miles to point at approximate elevation 4,000 feet;

Thence on an approximate forward bearing of S. 19° 45' W., approximately 2.28 miles to corner No. 5 at the summit of Frosty Peak, approximate elevation 6,400 feet;

Thence on an approximate forward bearing of S. 83° 30' W., approximately 1.12 miles along the crest of a spur ridge to point at approximate elevation 4,000 feet;

Thence on an approximate forward bearing of S. 64° 00' W., approximately 2.04 miles along the crest of a spur ridge to a point at approximate elevation 1,600 feet;

Thence on an approximate forward bearing of S. 76° 30' W., approximately 4 miles to corner No. 6 at the mouth of an unnamed stream at the intersection of the line of mean high tide on the east bank of Morshovoi Bay, at approximate latitude 55° 03' N., longitude 162° 39' W.;

Thence northerly, westerly, and southwesterly, with the line of mean high tide of Morzhovoi Bay, approximately 14 miles to corner No. 7 at its intersection with the mouth of an unnamed stream on the west side of Morzhovoi Bay, at approximate latitude 55° 02' 40" N., longitude 163° 13' 30" W.;

Thence westerly, along the north bank of said unnamed stream and with the north shore of two (2) small unnamed lakes, approximately 2.10 miles to a point on the west shore of the most westerly lake at approximate latitude 55° 02' 45" N.;

Thence due West, approximately 1.00 mile to Corner No. 8 at the intersection of an unnamed stream with the line of mean high tide on the east side of Bechevin Bay, at approximate latitude 55° 02' 45" N., longitude 163° 17' 10" W.;

Thence northwesterly, northeasterly, southwesterly, northeasterly and southwesterly, with the line of mean high tide along the banks of Bechevin Bay, approximately 19 miles to the most westerly point on Cape Krenitzin at approximate latitude 55° 04' 20" N., longitude 163° 26' W.;

Thence northeasterly, along the line of mean high tide of the Alaska Peninsula-Bering Sea shore approximately 22 miles to the most northerly point of Cape Glazenap, at approximate latitude 55° 15' N., longitude 163° 00' W.;

Thence along the line of mean tide on the seaward side of the most westerly islands in the Kukiakof Island group and Naumann Island, closing all inlets to Izembek Lagoon and Moffet Lagoon, to Moffet Point at approximate latitude 55° 26' 30" N., longitude 162° 35' 20" W.;

Thence northeasterly, along the line of mean high tide of the Bering Sea, approximately 8.40 miles to corner No. 9 at approximate latitude 55° 32' 10" N., longitude 162° 26' W.;

Thence southeasterly, following the boundaries of the watershed of Moffet Bay, approximately 17.40 miles to a point on the summit of the Aghileen Pinnacles; at approximate elevation 4,800 feet;

Thence southerly, along said watershed approximately 13.60 miles to the summit of Mt. Dutton at approximate elevation 4,834 feet;

Thence westerly, along said watershed, approximately 10.20 miles to Corner No. 10 at the line of mean high tide on the east shore of Cold Bay at approximate latitude 55° 10' 22" N.;

Thence northerly, northwesterly, and southwesterly, along the line of mean high tide of said Bay, approximately 13.10 miles to Corner No. 11, on the northwest side of Cold Bay at approximate latitude 55° 13' 30" N., longitude 162° 40' 30" W.;

Thence due West, approximately 1.5 miles to Corner No. 12, which is the northeast corner of Air Navigation Withdrawal No. 176;

Thence due West, approximately 2.50 miles to Corner No. 13, on the boundary of Air Navigation Withdrawal No. 176;

Thence on an approximate forward bearing of S. 24° 57' 30" E., approximately 4.28 miles to corner No. 1, the place of beginning.

UNITS OF THE WILDERNESS PRESERVATION SYSTEM WITHIN THE IZEMBEK NATIONAL WILDLIFE REFUGE:

Section 702 (6):

"Izembek Wilderness of approximately three hundred thousand acres as generally depicted on a map entitled 'Izembek Wilderness', dated October 1978."

The Izembek Wilderness consists of the public lands, as defined by the ANILCA, within the following boundaries:

East Unit

Beginning at a point on the boundary of the Izembek National Wildlife Refuge, at approximate latitude 55° 15' 30" N., longitude 162° 44' 56" W.;

Thence due East, along the Izembek National Wildlife Refuge boundary, approximately 1 mile to a point at the line of mean high tide of Cold Bay;

Thence easterly, northeasterly, southeasterly, northeasterly, northwesterly and southwesterly, along the Izembek National Wildlife Refuge boundary, approximately 83.5 miles to Moffett Point at the line of mean high tide of Moffett Lagoon, at approximate latitude 55° 27' N., longitude 162° 34' W.;

Thence southeasterly, northeasterly, southwesterly, northwesterly and southwesterly, along the line of mean high tide of Moffett Lagoon and Izembek Lagoon, closing the mouths of all rivers, approximately 24 miles to a point at approximate latitude 55° 19' 15" N.;

Thence due South, approximately 2½ miles to a point at approximate latitude 55° 16' 52" N., the standard corner of sections 34 and 35, T. 56 S., R. 88 W., Seward Meridian;

Thence due West, approximately 500 feet to a point at approximate latitude 55° 16' 52" N., longitude 162° 44' 56" W.;

Thence due South, approximately 8,600 feet to a point on the Izembek National Wildlife Refuge boundary, the place of beginning; and,

West Unit

Beginning at a point on boundary the Izembek National Wildlife Refuge, at the summit of a mountain, at approximate latitude 55° 07' N., longitude 162° 50' W., approximate elevation 4,000 feet;

Thence on an approximate forward bearing of N. 30° W., approximately 4,200 feet to the centerline of an unnamed creek;

Thence northeasterly, along the centerline of the unnamed creek, approximately 1 mile to a point 100 feet southerly of, and parallel to, the centerline of Frosty Road;

Thence southwesterly, northwesterly and southwesterly, on a line 100 feet from, and parallel to the centerline of Frosty Road, approximately 4¾ miles to a point 100 feet from, and parallel to, the terminus of the centerline of Frosty Road;

Thence on a curve to the right, maintaining a radius of 100 feet from the terminus of the centerline of Frosty Road to a point 100 feet from, and parallel to, the centerline of Frosty Road at its terminus;

Thence northeasterly, southeasterly and northeasterly, on a line 100 feet from, and parallel to, the centerline of Frosty Road, approximately 4¾ miles to a point at the centerline of an unnamed creek;

Thence on an approximate forward bearing of N. 16° E., approximately 4,000 feet to a point on the southerly shore of an unnamed lake at approximate latitude 55°, 15' N., longitude 162° 48' W.;

Thence on an approximate forward bearing of North, approximately 6 miles to the intersection with the line of mean high water of the westernmost point of Blue Bill Lake;

Thence southwesterly and northeasterly, along the line of mean high water of Blue Bill Lake, approximately 1½ miles to a point due West of the previous point;

Thence due West, 1,000 feet to the intersection with the line of mean high water of Rescue Lake;

Thence southwesterly and northeasterly, along the line of mean high water of Rescue Lake, approximately ½ mile to a point due West of the previous point;

Thence due West, approximately 1¾ miles to the intersection with the line of mean high tide of Izembek Lagoon;

Thence southerly, northwesterly, southwesterly, northeasterly, southerly, westerly and northeasterly, along the line of mean high tide of Izembek Lagoon, closing the mouths of all inlets and rivers, approximately 27 miles to a point on the boundary of Izembek National Wildlife Refuge at Cape Glazenap, at approximate latitude 55° 15' N., longitude 163° 00'

IZEMBEK NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487

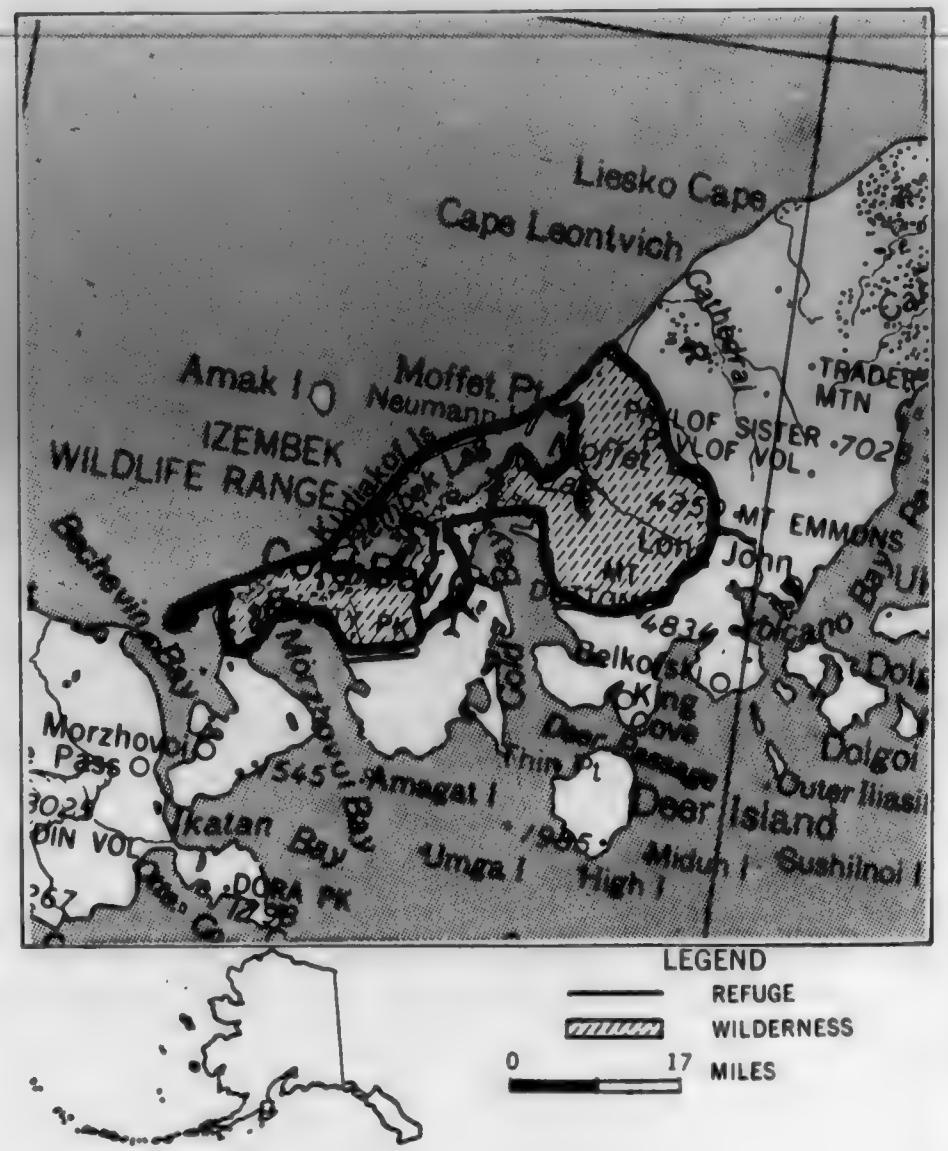
Thence southerly, northwesterly, southwesterly, northeasterly, southerly, westerly and northeasterly, along the line of mean high tide of Izembek Lagoon, closing the mouths of all inlets and rivers, approximately 27 miles to a point on the boundary of Izembek National Wildlife Refuge at Cape Glazenap, at approximate latitude 55° 15' N., longitude 163° 00' W;

Thence southwesterly, southerly, easterly and northerly, along the Izembek National Wildlife Refuge boundary, approximately 67 miles to a point on the summit of a mountain, approximate elevation 4,000 feet, the place of beginning; and

All public lands on islands, islets, rocks, reefs and spires, above the line of mean high tide within the Izembek National Wildlife Refuge.

IZEMBEK NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



KANUTI NATIONAL WILDLIFE REFUGE

Section 302 (4)

"The Kanuti National Wildlife Refuge shall consist of the approximately one million four hundred and thirty thousand acres of public lands generally depicted on the map entitled 'Kanuti National Wildlife Refuge', dated July 1960

The Kanuti National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the ¼ section corner of sections 4 and 33, Tps. 13 and 14 N., R. 20 W., Fairbanks Meridian,

Thence northerly, on the north and south centerline of section 33, approximately ½ mile to the center ¼ section corner of section 33, T. 14 N., R. 20 W., Fairbanks Meridian,

*Thence easterly, on the east and west centerline of sections 33, 34, 35 and 36, approximately 3½ miles to the ¼ section corner of section 36, T. 14 N., R. 20 W. and Section 31, T. 14 N., R. 19 W., Fairbanks Meridian;

*Thence northerly, between Rs. 19 and 20 W., approximately ½ mile to the corner of sections 25, 30, 31 and 36, T. 14 N., Rs. 19 and 20 W., Fairbanks Meridian;

*Thence easterly between sections 30 and 31, approximately ¼ mile to the ¼ section corner of sections 30 and 31, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 30, approximately ½ mile to the center ¼ section corner of section 30, T. 14 N., R. 19 W., Fairbanks Meridian.

Thence easterly, on the east and west centerline of section 30, approximately ½ mile to the ¼ section corner of sections 29 and 30, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, approximately 1 mile to the ¼ section corner of sections 19 and 20, T. 14 N., R. 19 W., Fairbanks Meridian,

Thence easterly, on the east and west centerline of section 20, approximately 1 mile to the ¼ section corner of sections 20 and 21, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, approximately 1 mile to the ¼ section corner of sections 16 and 17, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 16, approximately 1 mile to the ¼ section corner of sections 15 and 16, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence southerly, between sections 15 and 16, approximately ½ mile to the corner of sections 15, 16, 21 and 22, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence easterly, between sections 15 and 22, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence southerly, between sections 22 and 23, approximately ½ mile to the ¼ section corner of sections 22 and 23, T. 14 N., R. 19 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of sections 23, 24 and 19, approximately 2½ miles to the center ¼ section corner of section 19, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 19, approximately ½ mile to the ¼ section corner of sections 18 and 19, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 1 mile to the ¼ section corner of sections 17 and 20, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 17, approximately ½ mile to the center ¼ section corner of section 17, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 16 and 17, approximately 1 mile to the center ¼ section corner of section 16, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 16, approximately ½ mile to the ¼ section corner of sections 9 and 16, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, between sections 9 and 16, approximately ½ mile to the corner of sections 9, 10, 15 and 16, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence northerly, between sections 9 and 10, approximately ½ mile to the ¼ section corner of sections 9 and 10, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 10, approximately

Thence easterly, between Tps. 14 and 15 N., approximately 1 mile to the ¼ section corner of sections 2 and 35, Tps. 14 and 15 N., R. 17 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of sections 35,

Thence northerly, between sections 9 and 10, approximately ½ mile to the ¼ section corner of sections 9 and 10, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 14 N., R. 18 W., Fairbanks, Meridian;

Thence northerly, on the north and south centerlines of sections 10 and 3, approximately 1 mile to the center ¼ section corner of section 3, T. 14 N., R. 18 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 3, approximately ½ mile to the ¼ section corner of sections 2 and 3, T. 14 N., R. 18 W., Fairbanks, Meridian;

Thence northerly, between sections 2 and 3, approximately ½ mile to the corner of sections 2, 3, 34 and 35, Tps. 14 and 15 N., R. 18 W., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 N., approximately ½ mile to the ¼ section corner of sections 2 and 35, Tps. 14 and 15 N., R. 18 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 35, approximately ½ mile to the center ¼ section corner of section 35, T. 15 N., R. 18 W., Fairbanks Meridian;

Thence easterly, on the east and west centerlines of sections 35 and 36, approxoimately 1½ miles to the ¼ section corner of sections 31 and 36, T. 15 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence southerly, between Rs. 17 and 18 W., approximately ½ mile to the corner of Tps. 14 and 15 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 N., approximately 1½ miles to the ¼ section corner of sections 5 and 32, Tps. 14 and 15 N., R. 17 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of section 5, approximately ½ mile to the center ¼ section corner of section 5, T. 14 N., R. 17 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of sections 5, 4 and 3, approximately 2 miles to the center ¼ section corner of section 3, T. 14 N., R. 17 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 3, approximately ½ mile to the ¼ section corner of sections 3 and 34, Tps. 14 and 15 N., R. 17 W., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 N., approximately 1 mile to the ¼ section corner of sections 2 and 35, Tps. 14 and 15 N., R. 17 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 35, approximately ½ mile to the center ¼ section corner of section 35, T. 15 N., R. 17 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 35, approximately ½ mile to the ¼ section corner of sections 35 and 36, T. 15 N., R. 17 W., Fairbanks Meridian;

Thence northerly, between sections 35 and 36, approximately ½ mile to the corner of sections 25, 26, 35 and 36, T. 15 N., R. 17 W., Fairbanks Meridian;

Thence easterly, between sections 25 and 36, approximately ½ mile to the ¼ section corner of sections 25 and 36, T. 15 N., R. 17 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of section 25, approximately ½ mile to the center ¼ section corner of section 25, T. 15 N., R. 17 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 25, approximately ½ mile to the ¼ section corner of sections 25 and 30, T. 15 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence northerly, between Rs. 16 and 17 W., approximately 1 mile to the ¼ section corner of sections 19 and 24, T. 15 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 19, approximately ½ mile to the center ¼ section corner of section 19, T. 15 N., R. 16 W., Fairbanks Meridian;

Thence northerly, on the north and south centerline of sections 18 and 19, approximately 1½ miles to the ¼ section corner of sections 7 and 18, T. 15 N., R. 16 W., Fairbanks Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, approximately 1 mile to the ¼ section corner of sections 8 and 17, T. 15 N., R. 16 W., Fairnaks Meridian;

Thence northerly, on the north and south centerline of sections 5 and 8, approximately 2 miles to the ¼ section corner of sections 5 and 32, Tps. 15 and 16 N., R. 16 W., Fairbanks Meridian;

Thence westerly, between Tps. 15 and 16 N., approximately 1½ miles to the corner of Tps. 15 and 16 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence northerly, bewtween Rs. 16 and 17 W., approximately 6 miles to the closing corner of T. 16 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence westerly, on the Fourth Standard Parallel North, approximately 1¼ miles to the standard corner of T. 17 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence northerly, between Rs. 16 and 17 W., approximately 24 miles to the closing corner of T. 20 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence westerly, on the Fifth Standard Parallel North, approximately 1¼ miles to the standard corner of T. 21 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence northerly, between Rs. 16 and 17 W., approximately 17 miles to the corner of sections 1, 6, 7 and 12, T. 23 N., Rs. 16 and 17 W., Fairbanks Meridian;

Thence westerly, between sections 1 and 12, 2 and 11, 3 and 10, approximately 3 miles to the corner of sections 3, 4, 9 and 10, T. 23 N., R. 17 W., Fairbanks Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 23 and 24 N., R. 17 W., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 3 miles to the corner of Tps. 23 and 24 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence northerly, between Rs. 17 and 18 W., approximately 2 miles to the corner of sections 19, 24, 25 and 30, T. 24 N., Rs. 17 and 18 W., Fairbanks Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, approximately 10¼ miles to a point on the right bank of Jane Creek between sections 20 and 29, T. 24 N., R. 19 W., Fairbanks Meridian;

Thence northwesterly, along the right bank of Jane Creek, approximately 3,400 feet to a point on the east and west centerline of section 20, T. 24 N., R. 19 W., Fairbanks Meridian;

Thence westerly, on the east and west centerline of sections 20, 19, 24 and 23, approximately 3¼ miles to the ¼ section corner of sections 22 and 23, T. 24 N., R. 20 W., Fairbanks Meridian;

Thence northerly, between sections 22 and 23, approximately ½ mile to the corner of sections 14, 15, 22 and 23, T. 24 N., R. 20 W., Fairbanks Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 4 miles to the corner of sections 13, 18, 19 and 24, T. 24 N., Rs. 20 and 21 W., Fairbanks Meridian;

Thence southerly, between Rs. 20 and 21 W., approximately 3 miles to the corner of Tps. 23 and 24 N., Rs. 20 and 21 W., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 23 and 24 N., R. 21 W., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 23 N., R. 21 W., Fairbanks Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, approximately 3 miles to the corner of sections 7, 12, 13 and 18, T. 23 N., Rs. 21 and 22 W., Fairbanks Meridian;

Thence southerly, between Rs. 21 and 22 W., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 23 N., Rs. 21 and 22 W., Fairbanks Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, approximately 3 miles to the corner of sections 15, 16, 21 and 22, T. 23 N., R. 22 W., Fairbanks Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 6½ miles to the ¼ section corner of sections 21 and 22, T. 22 N., R. 22 W., Fairbanks Meridian;

Thence westerly, on the east and west centerlines of sections 20 and 21, approximately 2 miles to the ¼ section corner of sections 19 and 20, T. 22 N., R. 22 W., Fairbanks Meridian;

Thence southerly, between sections 19 and 20, 29 and 30, 31 and 32, approximately 2½ miles to the corner of sections 5, 6, 31 and 32, Tps. 21 and 22 N., R. 22 W., Fairbanks Meridian;

Thence westerly, between Tps. 21 and 22 N., approximately 1 mile to the corner of Tps. 21 and 22 N., Rs. 22 and 23 W., Fairbanks Meridian;

Thence southerly, between Rs. 22 and 23 W., approximately 3½ miles to the ¼ section corner of sections 19 and 24, T. 21 N., Rs. 22 and 23 W., Fairbanks Meridian;

Thence westerly, on the east and west centerline of sections 23 and 24, approximately 1½ miles to the center ¼ section corner of section 23, T. 21 N., R. 23 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of sections 23, 26 and 35, approximately 2½ miles to the standard ¼ section corner of section 35, T. 21 N., R. 23 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 25, approximately ½ mile to the center ¼ section corner of section 25, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 25 and

Thence southerly, on the north and south centerline of sections 23, 26 and 35, approximately 2½ miles to the standard ¼ section corner of section 35, T. 21 N., R. 23 W., Fairbanks Meridian;

Thence westerly, on the Fifth Standard Parallel North, approximately 2½ miles to the closing corner of T. 20 N., Rs. 23 and 24 W., Fairbanks Meridian;

Thence southerly, between Rs. 23 and 24 W., approximately 6 miles to the corner of Tps. 19 and 20 N., Rs. 23 and 24 W., Fairbanks Meridian;

Thence westerly, between Tps. 19 and 20 N., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 19 and 20 N., R. 24 W., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 18 N., R. 24 W., Fairbanks Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, approximately 2 miles to the corner of sections 19, 20, 29 and 30, T. 19 N., R. 24 W., Fairbanks Meridian;

Thence southerly, between sections 29 and 30, 31 and 32, 5 and 6, 7 and 8, 17 and 18, 19 and 20, approximately 6 miles to the corner of sections 19, 20, 29 and 30, T. 18 N., R. 24 W., Fairbanks Meridian;

Thence westerly, between sections 19 and 30, approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 18 N., Rs. 24 and 25 W., Fairbanks Meridian;

Thence southerly, between Rs. 24 and 25 W., approximately 2 miles to the corner of Tps. 17 and 18 N., Rs. 24 and 25 W., Fairbanks Meridian;

Thence westerly, between Tps. 17 and 18 N., approximately 5 miles to the corner of sections 5, 6, 31 and 32, Tps. 17 and 18 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, 19 and 20, approximately 3½ miles to the ¼ section corner of sections 19 and 20, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence easterly, on the east and west centerlines of sections 20, 21, 22 and 23, approximately 4 miles to the ¼ section corner of sections 23 and 24, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, approximately 1 mile to the ¼ section corner of sections 25 and 26, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 25, approximately ½ mile to the center ¼ section corner of section 25, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 25 and 36, approximately 1½ miles to the standard ¼ section corner of section 36, T. 17 N., R. 25 W., Fairbanks Meridian;

Thence westerly, on the Fourth Standard Parallel North, approximately 260 feet to the ¼ section corner of section 3, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 3, 10 and 15, approximately 3 miles to the ¼ section corner of sections 15 and 22, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence easterly, between sections 15 and 22, approximately ½ mile to the corner of sections 14, 15, 22 and 23, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 22 and 23, 26 and 27, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence westerly, between sections 27 and 34, approximately ½ mile to the ¼ section corner of sections 27 and 34, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of section 34, approximately ½ mile to the center ¼ section corner of section 34, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence westerly, on the east and west centerline of section 34, approximately ½ mile to the ¼ section corner of sections 33 and 34, T. 16 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 33 and 34, 3 and 4, 9 and 10, approximately 2 miles to the ¼ section corner of sections 9 and 10, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of sections 10 and 15, approximately 1 mile to the center ¼ section corner of section 15, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence westerly, on the east and west centerline of section 15, approximately ½ mile to the ¼ section corner of sections 15 and 16, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 3 miles to the ¼ section corner of sections 33 and 34, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 34, approximately ½ mile to the center ¼ section corner of section 34, T. 15 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerline of section 34, approximately ½ mile to the ¼ section corner of sections 3 and 34, Tps. 14 and 15 N., R. 25 W., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 N., approximately 1 mile to the ¼ section corner of sections 2 and 35, Tps. 14 and 15 N., R. 25 W., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 2 and 11, approximately 2 miles to the ¼ section corner of sections 11 and 14, T. 14 N., R. 25 W., Fairbanks Meridian;

Thence easterly, between sections 11 and 14, 12 and 13, approximately 1½ miles to the corner of sections 7, 12, 13 and 18, T. 14 N., Rs. 24 and 25 W., Fairbanks Meridian;

Thence southerly, between Rs. 24 and 25 W., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 14 N., Rs. 24 and 25 W., Fairbanks Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 14 N., R. 24 W., Fairbanks Meridian;

Thence southerly, between sections 20 and 21, 28 and 29, approximately 1½ miles to the ¼ section corner of sections 28 and 29, T. 14 N., R. 24 W., Fairbanks Meridian;

Thence easterly, on the east and west centerlines of sections 27 and 28, approximately 1½ miles to the center ¼ section corner of section 27, T. 14 N., R. 24 W., Fairbanks Meridian;

Thence southerly, on the north and south centerlines of sections 27 and 34, approximately 1½ miles to the ¼ section corner of sections 3 and 34, Tps. 13 and 14 N., R. 24 W., Fairbanks Meridian;

Thence easterly, between Tps. 13 and 14 N., approximately 23 miles to the ¼ section corner of sections 4 and 33, Tps. 13 and 14 N., R. 20 W., Fairbanks Meridian, the place of beginning.

The following USGS quadrangle maps were used to prepare the legal description of the Kanuti National Wildlife Refuge:

mr - minor revision

Scale of Map	Name and Date
1:63,360	Tanana (D-4) 1956 mr 1972; (D-5), (D-6) 1956.
1:63,360	Bettles (A-2), (A-3), (A-4), (A-6), (B-3), (B-6), (C-3), (C-5), (C-6), (D-3), (D-4), (D-5) 1970.

KANUTI NATIONAL WILDLIFE REFUGE

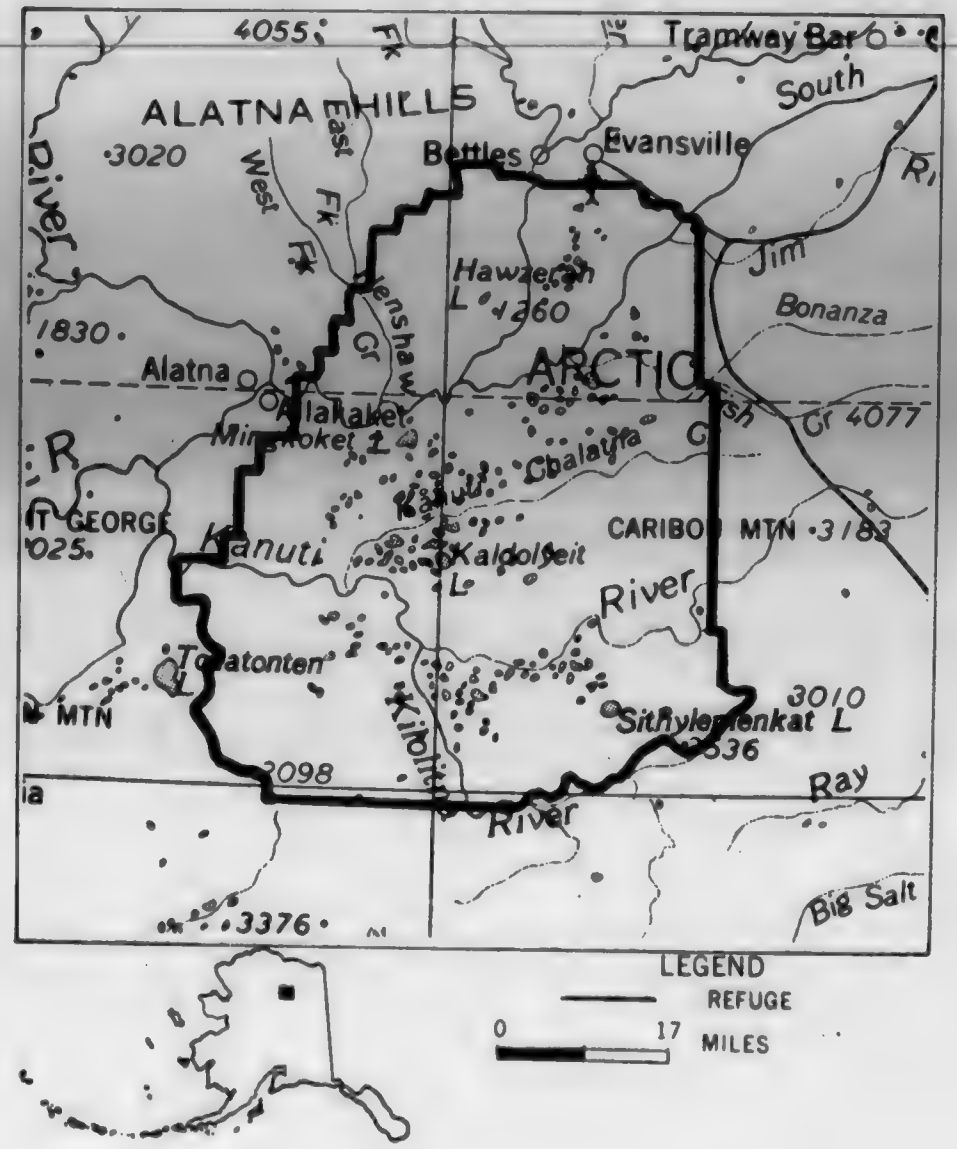
PUBLIC LAW 96-487

KENAI NATIONAL WILDLIFE REFUGE

Section 303 (4):

KANUTI NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



KENAI NATIONAL WILDLIFE REFUGE

Section 303 (4):

"The Kenai National Wildlife Refuge shall consist of the existing Kenai National Moose Range, including lands, waters, interests, and whatever submerged lands, if any, were retained in Federal ownership at the time of statehood, which shall be redesignated as the Kenai National Wildlife Refuge, and an addition of approximately two hundred and forty thousand acres of public lands as generally depicted on the map entitled 'Kenai National Wildlife Refuge', dated October 1978, excluding lands described in P.L.O. 3953, March 21, 1966, and P.L.O. 4056, July 22, 1966, withdrawing lands for the Bradley Lake Hydroelectric Project."

The Kenai National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the standard corner of sections 33 and 34, T. 8 S., R. 10 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel South, approximately 3 miles to the standard corner of T. 8 S., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 18 miles to the corner of Tps. 5 and 6 S., Rs. 10 and 11 W., Seward Meridian;

Thence easterly, between Tps. 5 and 6 S., approximately 12 miles to the corner of Tps. 5 and 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence northerly, between Rs. 8 and 9 W., approximately 6 miles to the closing corner of T. 5 S., Rs. 8 and 9 W., Seward Meridian;

Thence westerly, on the First Standard Parallel South, approximately 3½ miles to the standard corner of sections 33 and 34, T. 4 S., R. 9 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, approximately 6½ miles to the meander corner of sections 33 and 34, T. 3 S., R. 9 W., Seward Meridian;

UMI

FEB 24
ISSUE 38
VOL 48

Thence on an approximate bearing of N. 45° W., approximately 2.8 miles to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 9 W., Seward Meridian;

Thence northerly, between sections 19 and 20, 17 and 18, 7 and 8, approximately 3 miles to the corner of sections 5, 6, 7 and 8, T. 3 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, 1 and 12, approximately 8 miles to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 11 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, approximately 13 miles to the closing corner of sections 1 and 2, T. 1 S., R. 11 W., Seward Meridian;

Thence westerly, on the Seward Baseline, approximately 3.8 miles to the standard corner of sections 32 and 33, T. 1 N., R. 11 W., Seward Meridian;

Thence northerly, between sections 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, 32 and 33, 28 and 29, 20 and 21, 16 and 17, 8 and 9, 4 and 5, approximately 12 miles to the corner of sections 4, 5, 32 and 33, Tps. 2 and 3 N., R. 11 W., Seward Meridian;

Thence easterly, between Tps. 2 and 3 N., approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 2 and 3 N., R. 11 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, approximately 4 miles to the corner of sections 9, 10, 15 and 16, T. 3 N., R. 11 W., Seward Meridian;

Thence easterly, between sections 10 and 15, 11 and 14, approximately 2 miles to the corner of sections 11, 12, 13 and 14, T. 3 N., R. 11 W., Seward Meridian;

Thence northerly, between sections 11 and 12, 1 and 2, 35 and 36, 25 and 26, approximately 4 miles, to the corner of sections 23, 24, 25 and 26, T. 4 N., R. 11 W., Seward Meridian;

Thence easterly, between sections 24 and 25, approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 4 N., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 4 miles to the closing corner of T. 4 N., Rs. 10 and 11 W., Seward Meridian;

Thence easterly, between Tps. 4 and 5 N., approximately 17.3 miles to the standard corner of T. 5 N., Rs. 7 and 8 W., Seward Meridian;

Thence northerly, between Rs. 7 and 8 W., approximately 6 miles to the corner of Tps. 5 and 6, N., Rs. 7 and 8 W., Seward Meridian;

Thence westerly, between Tps. 5 and 6 N., approximately 17 miles to the corner of sections 5, 6, 31 and 32, Tps. 5 and 6 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 31 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 6 N., R. 10 W., Seward Meridian;

Thence westerly, between sections 30 and 31, approximately ½ mile to the ¼ section corner of sections 30 and 31, T. 6 N., R. 10 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximately 1 mile to the ¼ section corner of sections 19 and 30, T. 6 N., R. 10 W., Seward Meridian;

Thence westerly, between sections 19 and 30, approximately ½ mile to the corner of sections 19, 24, 25 and 30, T. 6 N., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 6 N., Rs. 10 and 11 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, approximately 2 miles to the corner of sections 14, 15, 22 and 23, T. 6 N., R. 11 W., Seward Meridian;

Thence northerly, between sections 14 and 15, 10 and 11, 2 and 3, 34 and 35, 26 and 27, 22 and 23, approximately 6 miles to the corner of sections 14, 15, 22 and 23, T. 7 N., R. 11 W., Seward Meridian;

Thence easterly, between sections 14 and 13, 13 and 24, approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 7 N., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 7 N., Rs. 10 and 11 W., Seward Meridian;

Thence easterly, between sections 6 and 7, approximately 1 mile to the corner of sections 5, 6, 7 and 8 and T. 7 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 5 and 6, 31 and 32, 29 and 30, 19 and 20, approximately 4 miles to the corner of sections 17, 18, 19 and 20, T. 8 N., R. 10 W., Seward Meridian;

Thence easterly, between sections 17 and 20, 16 and 21, 15 and 22, approximately 2¾ miles to the west 1/16 section corner of sections 15 and 22, T. 8 N., R. 10 W., Seward Meridian;

Thence northerly, on the north and south centerlines of the south west ¼ and the northwest ¼ of section 15, approximately 1 mile to the west 1/16 section corner of sections 10 and 15, T. 8 N., R. 10 W., Seward Meridian;

Thence easterly, between sections 6 and 7, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 9 N., R. 8 W., Seward Meridian;

Thence northerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 9 and 10 N., R. 8 W., Seward

Thence northerly, on the north and south centerlines of the south west ¼ and the northwest ¼ of section 15, approximately 1 mile to the west 1/16 section corner of sections 10 and 15, T. 8 N., R. 10 W., Seward Meridian;

Thence easterly, between sections 10 and 15, 11 and 14, approximately 1 3/4 miles to the corner of sections 11, 12, 13 and 14, T. 8 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 11 and 12, 1 and 2, approximately 2 miles to the closing corner of sections 1 and 2, T. 8 N., R. 10 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel North, approximately 0.9 mile to the standard ¼ section corner of section 31, T. 9 N., R. 9 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 31, approximately 1 mile, to the ¼ section corner of sections 30 and 31, T. 9 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, approximately 2½ miles to the corner of sections 27, 28, 33 and 34, T. 9 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 27 and 28, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 9 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 22 and 27, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 9 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 22 and 23, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 9 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 14 and 23, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 9 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 13 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 9 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 12 and 13, approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 9 N., Rs. 8 and 9 W., Seward Meridian;

Thence northerly, between Rs. 8 and 9 W., approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 9 N., Rs. 8 and 9 W., Seward Meridian;

Thence easterly, between sections 6 and 7, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 9 N., R. 8 W., Seward Meridian;

Thence northerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 9 and 10 N., R. 8 W., Seward Meridian;

Thence easterly, between Tps. 9 and 10 N., approximately 2 miles to the corner of sections 3, 4, 33 and 34, Tps. 9 and 10 N., R. 8 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 10 N., R. 8 W., Seward Meridian;

Thence easterly, between sections 27 and 34, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 10 N., R. 8 W., Seward Meridian;

Thence northerly, between sections 26 and 27, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 10 N., R. 8 W., Seward Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, approximately 2 miles to the corner of sections 19, 24, 25 and 30, T. 10 N., Rs. 7 and 8 W., Seward Meridian;

Thence northerly, between Rs. 7 and 8 W., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 10 N., Rs. 7 and 8 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 10 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 10 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 10 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 10 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, approximately 2 miles to the corner of sections 1, 2, 11 and 12, T. 10 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, approximately 2 miles to the corner of sections 25, 26, 35 and 36 T. 11 N., R. 7 W., Seward Meridian;

UMI
1983
FEB 24
ISS 38
VOL 48
4 8

Thence easterly, between sections 25 and 36, 30 and 31, approximately 2 miles to the corner of sections 29, 30, 31 and 32, T. 11 N., R. 6 W., Seward Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, 17 and 18, approximately 2.1 miles to the meander corner of sections 17 and 18, T. 11 N., R. 6 W., Seward Meridian;

Thence easterly, southeasterly, northeasterly, along the line of mean high tide of Turnagin Arm and Chickaloon Bay, approximately 27 miles to the special meander corner on the north and south centerline of section 14, T. 10 N., R. 3 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° E., approximately 1 mile to the northwesterly summit of a ridge, located in the northwesterly portion of section 24, T. 10 N., R. 3 W., Seward Meridian, approximate elevation 2,350 feet;

Thence on an approximate forward bearing of S. 82° E., approximately ¼ mile to the summit of a ridge in the north central portion of section 24, T. 10 N., R. 3 W., Seward Meridian, approximate elevation 2,650 feet;

Thence on an approximate forward bearing of S. 40° E., approximately 3/4 mile to Vertical Angle Bench Mark "Hope" located in the southeasterly portion of section 24, T. 10 N., R. 3 W., Seward Meridian, approximate elevation 3,708 feet;

Thence on an approximate forward bearing of S. 48° W., approximately 1 mile to the crest of the divide between the Resurrection Creek and Indian Creek drainages, located in the westerly portion of section 25, T. 10 N., R. 3 W., Seward Meridian, approximate elevation 3,950 feet;

Thence southerly, along the crest of the divide between Resurrection Creek and Indian Creek drainages, and descending a spur ridge, approximately 26 miles to the confluence of Chickaloon River and an unnamed creek, located in the southeasterly portion of section 1, T. 6 N., R. 4 W., Seward Meridian;

*Thence northwesterly, along the centerline of the Chickaloon River, approximately 4¼ miles to a point due North of the thread of the Russian River at its junction with the Kenai River, in the westerly portion of section 33, T. 7 N., R. 4 W., Seward Meridian;

Thence due South, approximately 11½ miles to the junction of the Russian River with the Kenai River in section 33, T. 5 N., R. 4 W., Seward Meridian;

Thence up the Russian River, following the thread of the stream, approximately 16 miles to the head of Upper Russian Lake located in section 30, T. 3 N., R. 3 W., Seward Meridian;

Thence across the divide, on an approximate forward bearing of S. 83½° E., approximately 1½ miles to an intersection with Summit Creek in section 28, T. 3 N., R. 3 W., Seward Meridian;

Thence down Summit Creek and Resurrection River, following the thread of the streams, approximately 1½ miles to a point where an unnamed stream flows easterly into Resurrection River, located in section 34, T. 3 N., R. 3 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° W., approximately 1.7 miles to Vertical Angle Bench Mark "Menker," located in section 9, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 3,205 feet;

Thence on an approximate forward bearing of S. 17° E., approximately 1.8 miles to the summit of a mountain located in the southwesterly portion of section 15, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 5,207 feet;

Thence on an approximate forward bearing of S. 2° E., approximately 4.9 miles to the summit of a mountain located in the southwesterly portion of section 10, T. 1 N., R. 3 W., Seward Meridian, approximate elevation 5,300 feet;

Thence on an approximate forward bearing of S. 65° W., over Harding Ice Field, approximately 13.9 miles to the summit of a mountain located in section 9, T. 1 S., R. 5 W., Seward Meridian, approximate elevation 5,355 feet;

Thence on an approximate forward bearing of S. 18½° E., over Harding Ice Field, approximately 9.2 miles to the summit of a mountain located in section 25, T. 2 S., R. 5 W., Seward Meridian, approximate elevation 5,244 feet;

Thence on an approximate forward bearing of S. 47° W., over Harding Ice Field, approximately 12.3 miles to the summit of a mountain located in section 4, T. 4 S., R. 6 W., Seward Meridian, approximate elevation 5,873 feet;

Thence on an approximate forward bearing of S. 4° W., across Chernoff Glacier, approximately 11½ miles to the summit of a mountain located near the section corner of sections 5, 6, 31 and 32, Tps. 5 and 6 S., R. 6 W., Seward Meridian, approximate elevation 5,375 feet;

Thence on an approximate forward bearing of N. 49½° W., approximately 500 feet to an intersection with the township line between Tps. 5 and 6 S., R. 6 W., Seward Meridian;

Thence westerly, between Tps. 5 and 6 S., approximately 11 miles to the corner of sections 4, 5, 32 and 33, Tps. 5 and 6 S., R. 8 W., Seward Meridian;

Thence southerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 6 S., R. 8 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 6 S., Rs. 8 and 9 W.,

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM
WITHIN THE KENAI NATIONAL WILDLIFE REFUGE:

Section 702 (7):

Thence southerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 6 S., R. 8 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence southerly, between Rs. 8 and 9 W., approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, approximately 3 miles to the corner of sections 21, 22, 27 and 28, T. 6 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 27 and 28, 33 and 34, 3 and 4, 9 and 10, approximately 4 miles to the corner of sections 9, 10, 15 and 16, T. 7 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 9 and 16, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 7 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, approximately 5 miles to the corner of sections 4, 5, 8 and 9, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 5 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 8 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, 15 and 22, approximately 4 miles to the corner of sections 15, 16, 21 and 22, T. 8 S., R. 10 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, approximately 3 miles to the standard corner of sections 33 and 34, on the south boundary of T. 8 S., R. 10 W., Seward Meridian, the place of beginning.

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, approximately 3 miles to the standard corner of sections 33 and 34, on the south boundary of T. 8 S., R. 10 W., Seward Meridian, the place of beginning.

*Department of the Interior 1:250,000 scale map issued in 1981, incorrectly depicts this portion of the description.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE KENAI NATIONAL WILDLIFE REFUGE:

Section 702 (7):

"Kenai Wilderness of approximately one million three hundred and fifty thousand acres as generally depicted on a map entitled 'Kenai National Wildlife Refuge', dated October 1978."

The Kenai Wilderness consists of the public lands, as defined by the ANILCA, within the following boundaries:

Andy Simons Unit

Beginning at the standard corner of sections 33 and 34, T. 8 S., R. 10 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel South, approximately 3 miles to the standard corner of T. 8 S., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 18 miles to the corner of Tps. 5 and 6 S., Rs. 10 and 11 W., Seward Meridian;

Thence easterly, between Tps. 5 and 6 S., approximately 12 miles to the corner of Tps. 5 and 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence northerly, between Rs. 8 and 9 W., approximately 6 miles to the closing corner of T. 5 S., Rs. 8 and 9 W., Seward Meridian;

Thence westerly, on the First Standard Parallel South, approximately 3 1/2 miles to the standard corner of sections 33 and 34, T. 4 S., R. 9 W., Seward Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, approximately 6 1/4 miles to the meander corner of sections 33 and 34 on the left bank of Sheep Creek, T. 3 S., R. 9 W., Seward Meridian;

Thence on an approximate forward bearing of N. 45° W., approximately 2.8 miles to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 9 W., Seward Meridian;

Thence northerly, between sections 19 and 20, 17 and 18, 7 and 8, approximately 3 miles to the corner of sections 5, 6, 7 and 8, T. 3 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, 1 and 12, approximately 8 miles to the corner of sections 1 2, 11 and 12, T. 3 S., R. 11 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, 35 and 36, 25 and 26, 23 and 24, 13 and 14, 11 and 12, 1 and 2, approximately 13 miles to the closing corner of sections 1 and 2, T. 1 S., R. 11 W., Seward Meridian;

Thence easterly, along the Seward Base Line, approximately 2,000 feet to the standard corner of T. 1 N., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 1 N., Rs. 10 and 11 W., Seward Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, approximately 3 miles to the corner of sections 27, 28, 33 and 34, T. 1 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 27 and 28, 21 and 22, 15 and 16, approximately 2 1/2 miles to the 1/4 section corner of sections 15 and 16, T. 1 N., R. 10 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 16, 17 and 18, approximately 3 miles to the 1/4 section corner of sections 13 and 18, T. 1 N., Rs. 10 and 11 W., Seward Meridian;

Thence northerly, between Rs. 10 and 11 W., approximately 3 miles to the meander corner of sections 31 and 36, T. 2 N., Rs. 10 and 11 W., Seward Meridian, at the line of mean high water on the Tustumena Lake;

Thence westerly, northeasterly and southeasterly, along the line of mean high water of Tustumena Lake, approximately 12 miles to the meander corner of sections 2 and 3, T. 2 N., R. 10 W., Seward Meridian;

Thence northerly, between sections 2 and 3, 34 and 35, approximately 1 3/4 miles to the corner of sections 26, 27, 34 and 35, T. 3 N., R. 10 W., Seward Meridian;

Thence easterly, between sections 26 and 35, 25 and 36, 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, approximately 7 miles to the corner of sections 25, 26, 35 and 36, T. 3 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 25 and 26, 23 and 24, 13 and 14, 11 and 12, approximately 3 1/2 miles to the 1/4 section corner of sections 11 and 12, T. 3 N., R. 9 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 11, approximately 1 mile to the 1/4 section corner of sections 10 and 11, T. 3 N., R. 9 W., Seward Meridian;

Thence northerly, between sections 10 and 11, 2 and 3, 34 and 35, 26 and 27, 22 and 23, approximately 4 1/2 miles to the corner of sections 14, 15, 22 and 23, T. 4 N., R. 9 W., Seward Meridian;

Thence easterly, between sections 14 and 23, approximately 1/2 mile to the 1/4 section corner of sections 14 and 23, T. 4 N., R. 9 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 14, 11 and 2, approximately 3 miles to the 1/4 section corner of section 2, T. 4 N., R. 9 W., Seward Meridian, on the Kenai National Wildlife Refuge boundary;

Thence easterly, between Tps. 4 and 5 N., approximately 6 miles to the 1/4 section corner of section 2, T. 4 N., R. 8 W., Seward Meridian;

Thence southerly, along the north and south centerline of section 2, approximately 1 mile to the 1/4 section corner of sections 2 and 11, T. 4 N., R. 8 W., Seward Meridian;

Thence easterly, between sections 2 and 11, 1 and 12, approximately 1 1/4 miles to the left bank of the Kenai River on the section line between sections 1 and 12, T. 4 N., R. 8 W., Seward Meridian;

Thence easterly, southeasterly, easterly, northeasterly, northwesterly and northeasterly, along the left bank of the Kenai River and the southerly and easterly shore of Skilak Lake, and again northeasterly, along the left bank of the Kenai River, approximately 35 1/2 miles to a point on the southerly right-of-way of a powerline, located in the northwesterly portion of section 32, T. 5 N., R. 4 W., Seward Meridian;

Thence southeasterly and easterly, along the southerly right-of-way of a powerline, approximately 1 1/2 miles to a point on the Kenai National Wildlife Refuge boundary located on the thread of the Russian River in the easterly portion in section 33, T. 5 N., R. 4 W., Seward Meridian;

Thence up the Russian River, following the thread of the stream, approximately 15 miles to the head of Upper Russian Lake located in section 30, T. 3 N., R. 3 W., Seward Meridian;

Thence across the divide, on an approximate forward bearing of S. 83 1/2° E., approximately 1 1/2 miles to an intersection with Summit Creek in section 28, T. 3 N., R. 3 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence across the divide, on an approximate forward bearing of S. 83 1/2° E., approximately 1 1/2 miles to an intersection with Summit Creek in section 28, T. 3 N., R. 3 W., Seward Meridian;

Thence down Summit Creek and Resurrection River, following the thread of the streams, approximately 11 1/2 miles to a point where an unnamed stream flows easterly into Resurrection River, located in section 34, T. 3 N., R. 3 W., Seward Meridian;

Thence on an approximate forward bearing of S. 30° W., approximately 1.7 miles to Vertical Angle Bench Mark "Menker," located in section 9, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 3,205 feet;

Thence on an approximate forward bearing of S. 17° E., approximately 1.8 miles to the summit of a mountain located in the southwesterly portion of section 15, T. 2 N., R. 3 W., Seward Meridian, approximate elevation 5,207 feet;

Thence on an approximate forward bearing of S. 2° E., approximately 4.9 miles to the summit of a mountain located in the southwesterly portion of section 10, T. 1 N., R. 3 W., Seward Meridian, approximate elevation 5,300 feet;

Thence on an approximate forward bearing of S. 65° W., over Harding Ice Field, approximately 13.9 miles to the summit of a mountain located in section 9, T. 1 S., R. 5 W., Seward Meridian, approximate elevation 5,355 feet;

Thence on an approximate forward bearing of S. 18 1/2° E., over Harding Ice Field, approximately 9.2 miles to the summit of a mountain located in section 25, T. 2 S., R. 5 W., Seward Meridian, approximate elevation 5,244 feet;

Thence on an approximate forward bearing of S. 47° W., over Harding Ice Field, approximately 12.3 miles to the summit of a mountain located in section 4, T. 4 S., R. 6 W., Seward Meridian, approximate elevation 5,873 feet;

Thence on an approximate forward bearing of S. 4° W., across Chernoff Glacier, approximately 11 1/2 miles to the summit of a mountain located near the section corner of sections 5, 6, 31 and 32 Tps. 5 and 6 S., R. 6 W., Seward Meridian, approximate elevation 5,375 feet;

Thence on an approximate forward bearing of N. 49 1/2° W., approximately 500 feet to an intersection with the township line between Tps. 5 and 6 S., R. 6 W., Seward Meridian;

Thence westerly, following the township line between Tps. 5 and 6 S., approximately 11 miles to the corner of sections 4, 5, 32 and 33, Tps. 5 and 6 S., R. 8 W., Seward Meridian;

Thence southerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 6 S., R. 8 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence southerly, following the range line between Rs. 8 and 9 W., approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 6 S., Rs. 8 and 9 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, approximately 3 miles to the corner of sections 21, 22, 27 and 28, T. 6 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 27 and 28, 33 and 34, 3 and 4, 9 and 10, approximately 4 miles to the corner of sections 9, 10, 15 and 16, T. 7 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 9 and 16, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 7 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, approximately 5 miles to the corner of sections 4, 5, 8 and 9, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 5 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 8 S., R. 9 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 8 S., R. 9 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, 15 and 22, approximately 4 miles to the corner of sections 15, 16, 21 and 22, T. 8 S. R. 10 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, approximately 3 miles to the standard corner of sections 33 and 34, on the south boundary of T. 8 S., R. 10 W., Seward Meridian, the place of the beginning.

All of Lucas Island, located in sections 28 and 29, T. 4 N., R. 5 W., Seward Meridian, is included within the Kenai Wilderness, Andy Simons Unit.

Canoe Lakes Unit

Beginning at the corner of sections 19, 24, 25 and 30, T. 7 N., Rs. 5 and 6 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, approximately 5 miles to the corner of sections 19, 20, 29 and 30, T. 7 N., R. 6 W., Seward Meridian;

Thence southerly, between sections 29 and 30, 31 and 32, 5 and 6, 7 and 8, 17 and 18, approximately 4 1/2 miles to the 1/4 section corner of sections 17 and 18, T. 6 N., R. 6 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 18, 13 and 14, approximately 3 miles to the 1/4 section corner of sections 14 and 15, T. 6 N., R. 7 W., Seward Meridian;

Thence southerly, between sections 14 and 15, approximately 1/2 mile to the corner of sections 14, 15, 22 and 23, T. 6 N., R. 7 W., Seward Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, approximately 4 3/4 miles to the centerline of Moose River, between sections 13 and 24, T. 6 N., R. 8 W., Seward Meridian;

Thence southwesterly, along the centerline of Moose River, approximately 2 3/4 miles to the confluence with the West Fork Moose River, located in the northwesterly portion of section 27, T. 6 N., R. 8 W., Seward Meridian;

Thence northeasterly, along the centerline of West Fork Moose River, approximately 1 1/2 miles to a point between sections 15 and 22, T. 6 N., R. 8 W., Seward Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 3 3/4 miles to the corner of sections 13, 18, 19 and 24, T. 6 N., Rs. 8 and 9 W., Seward Meridian;

Thence northerly, between Rs. 8 and 9 W., approximately 8 3/4 miles to a point on the southerly right-of-way of the Swanson River Road, between sections 1 and 6, T. 7 N., Rs. 8 and 9 W., Seward Meridian;

Thence easterly, along the southerly right-of-way of the Swanson River Road, approximately 8 1/4 miles to a point between sections 5 and 32, Tps. 7 and 8 N., R. 7 W., Seward Meridian;

Thence easterly, between Tps. 7 and 8 N., approximately 100 feet to a point between sections 5 and 32, Tps. 7 and 8 N., R. 7 W., Seward Meridian, on the westerly shore of an unnamed lake;

Thence northeasterly and southeasterly, along the line of mean high water of the unnamed lake, approximately 1/4 mile to a point between sections 5 and 32, Tps. 7 and 8 N., R. 7 W., Seward Meridian, on the east shore of the unnamed lake;

Thence easterly, between Tps. 7 and 8 N., approximately 3/4 mile to the 1/4 section corner of sections 4 and 33, Tps. 7 and 8 N., R. 7 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 4, approximately 1 mile to the 1/4 section corner of sections 4 and 9, T. 7 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 4 and 9, approximately 1/2 mile to the corner of sections 3, 4, 9 and 10, T. 7 N., R. 7 W., Seward Meridian;

Thence southerly, between sections 9 and 10, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 7 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 10 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 7 N., R. 7 W., Seward Meridian;

Thence southerly, between sections 14 and 15, approximately 1/2 mile to the 1/4 section corner of sections 14 and 15, T. 7 N., R. 7 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 14, 13 and 18, approximately 3 miles to the 1/4 section corner of sections 17 and 18, T. 7 N., R. 6 W., Seward Meridian;

Thence northerly, between sections 17 and 18, 7 and 8, 5 and 6, 31 and 32, 29 and 30, approximately 4 miles to the meander corner of sections 29 and 30, T. 8 N., R. 6 W., Seward Meridian, on the easterly shore of Buteo Lake;

Thence northeasterly, northwesterly and southerly, along the line of mean high water of Buteo Lake, approximately 3/4 mile to the special meander corner on the east and west centerline of section 30, T. 8 N., R. 6 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 30 and 25, approximately 1 1/4 miles to the 1/4 section corner of sections 25 and 26, T. 8 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 25 and 26, approximately 1,500 feet to the meander corner of sections 25 and 26, T. 8 N., R. 7 W., Seward Meridian, on the westerly shore of Takukak Lake;

Thence northwesterly and northeasterly, along the line of mean high water of Takukak Lake, approximately 1/4 mile to the meander corner of sections 25 and 26, T. 8 N., R. 7 W., Seward Meridian, on the westerly shore of Takukak Lake Takukak Lake appears on the 1:63,360 scale map, Kenai D-2, from which this description was derived.);

Thence northerly, between sections 25 and 26, approximately 1/4 mile to the corner of sections 23, 24, 25 and 26, T. 8 N., R. 7 W., Seward Meridian;

Thence westerly, between sections 23 and 26, approximately 1/4 mile to the meander corner of sections 23 and 26, T. 8 N., R. 7 W., Seward Meridian, on the easterly shore of Ursus Lake;

Thence southerly and northwesterly, along the line of mean high water of Ursus Lake, approximately 3/4 mile to the meander corner of sections 23 and 26, T. 8 N., R. 7 W., Seward Meridian, on the westerly shore of Ursus Lake;

Thence westerly, between sections 23 and 26, 22 and 27, 21 and 28, approximately 1 1/2 miles to the meander corner of sections 21 and 28, T. 8 N., R. 7 W., Seward Meridian, on the easterly shore of Paddle Lake;

Thence easterly, between sections 2 and 11, approximately 1/8 mile to the corner of sections 1, 2, 11 and 12, T. 9 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, approximately 1 1/4 miles to the meander corner of sections 35 and 36, T. 10 N., R. 7 W., Seward

Thence westerly, between sections 23 and 26, 22 and 27, 21 and 28, approximately 1 1/2 miles to the meander corner of sections 21 and 28, T. 8 N., R. 7 W., Seward Meridian, on the easterly shore of Paddle Lake;

Thence southeasterly, southwesterly and northwesterly, along the line of mean high water of Paddle Lake, approximately 1/2 mile to the meander corner of sections 21 and 28, T. 8 N., R. 7 W., Seward Meridian, on the westerly shore of Paddle Lake;

Thence westerly, between sections 21 and 28, approximately 1/4 mile to the 1/4 section corner of sections 21 and 28, T. 8 N., R. 7 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 21, approximately 1/2 mile to the center 1/4 section corner of section 21, T. 8 N., R. 7 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 21, 20 and 19, approximately 2 1/2 miles to the 1/4 section corner of sections 19 and 24, T. 8 N., Rs. 7 and 8 W., Seward Meridian;

Thence northerly, between Rs. 7 and 8 W., approximately 3 1/2 miles to the closing corner of T. 8 N., Rs. 7 and 8 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel North, approximately 1/2 mile to the standard corner of sections 31 and 32, T. 9 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 31 and 32, approximately 1/2 mile to a point between sections 31 and 32, T. 9 N., R. 7 W., Seward Meridian, on the southerly shore of an unnamed lake;

Thence northwesterly and northeasterly, on the line of mean high water of the unnamed lake, approximately 900 feet to a point between sections 31 and 32, T. 9 N., R. 7 W., Seward Meridian, on the northerly shore of the unnamed lake;

Thence northerly, between sections 31 and 32, approximately 1/2 mile to the corner of sections 29, 30, 31 and 32, T. 9 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 29 and 32, approximately 1/2 mile to the 1/4 section corner of sections 29 and 32, T. 9 N., R. 7 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 29, 20, 17 and 8, approximately 4 miles to the 1/4 section corner of sections 5 and 8, T. 9 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, 3 and 10, 2 and 11, approximately 3 miles to the meander corner of sections 2 and 11, T. 9 N., R. 7 W., Seward Meridian, on the westerly shore of an unnamed lake;

Thence northerly and southeasterly, on the line of mean high water of an unnamed lake, approximately 1/2 mile to the meander corner of sections 2 and 11, T. 9 N., R. 7 W., Seward Meridian, on the easterly shore of an unnamed lake;

Thence easterly, between sections 2 and 11, approximately 1/8 mile to the corner of sections 1, 2, 11 and 12, T. 9 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, approximately 1 1/4 miles to the meander corner of sections 35 and 36, T. 10 N., R. 7 W., Seward Meridian, on the westerly shore of Taiga Lake;

Thence northwesterly and southeasterly, on the line of mean high water of Taiga Lake, approximately 1/2 mile to the meander corner of sections 35 and 36, T. 10 N., R. 7 W., Seward Meridian, on the northerly shore of Taiga Lake;

Thence northerly, between sections 35 and 36, 25 and 26, 23 and 24, approximately 1 3/4 miles to the centerline of Seven Egg Creek, located between sections 23 and 24, T. 10 N., R. 7 W., Seward Meridian;

Thence northwesterly and westerly, along the centerline of Seven Egg Creek and the westerly shore of Kraenberi Lake, approximately 4 miles to a point between sections 9 and 10, T. 10 N., R. 7 W., Seward Meridian, on the Kenai National Wildlife Refuge boundary;

Thence northerly, between sections 9 and 10, approximately 3/4 mile to the corner of sections 3, 4, 9 and 10, T. 10 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, approximately 2 miles to the corner of sections 1, 2, 11 and 12, T. 10 N., R. 7 W., Seward Meridian;

Thence northerly, between sections 1 and 2, 35 and 36, approximately 2 miles to the corner of section 25, 26, 35 and 36, T. 11 N., R. 7 W., Seward Meridian;

Thence easterly, between sections 25 and 36, 30 and 31, approximately 2 miles to the corner of sections 29, 30, 31 and 32, T. 11 N., R. 6 W., Seward Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, 17 and 18, approximately 2.1 miles to the meander corner of sections 17 and 18, T. 11 N., R. 6 W., Seward Meridian;

Thence easterly, southeasterly, along the line of mean high tide of Turragin Arm and Chickaloon Bay, approximately 10 miles to the centerline of Bedlam Creek located in the northerly portion of section 30, T. 10 N., R. 5 W., Seward Meridian;

Thence westerly, along the centerline of Bedlam Creek, approximately 3 1/4 miles to a point between sections 26 and 27, T. 10 N., R. 6 W., Seward Meridian;

Thence southerly, between sections 26 and 27, 34 and 35, 2 and 3, 10 and 11, 14 and 15, 22 and 23, 26 and 27, 34 and 35, approximately 7 miles to the standard corner of sections 34 and 35, T. 9 N., R. 6 W., Seward Meridian;

Thence westerly, along the northerly right-of-way of the Sterling Highway, approximately 4,800 feet to a point on the northerly right-of-way of a powerline, located in the southwesterly portion of section 29, T. 5 N., R. 4 W., Seward Meridian;

Thence westerly, along the northerly right-of-way of a powerline, approximately 2 3/4 miles to a point on the northerly right-of-way of the Sterling Highway, located in the northerly portion of section 35, T. 5 N., R. 5 W., Seward Meridian;

Thence northwesterly, along the northerly right-of-way of the Sterling Highway, approximately 4½ miles to the centerline of Jean Creek, near the center of section 17, T. 5 N., R. 5 W., Seward Meridian;

Thence northwesterly, along the centerline of Jean Creek and the northerly shore of Upper Jean Lake, approximately 1 mile to a point on the north shore of an unnamed lake and the north and south centerline of section 18, T. 5 N., R. 5 W., Seward Meridian;

Thence northerly, on the north and south centerline of sections 18 and 7, approximately 1 1/8 mile to the ¼ section corner of sections 6 and 7, T. 5 N., R. 5 W., Seward Meridian;

Thence easterly, between sections 6 and 7, approximately ½ mile to the corner of sections 5, 6, 7 and 8, T. 5 N., R. 5 W., Seward Meridian;

Thence northerly, between sections 5 and 6, approximately ½ mile to the ¼ section corner of sections 5 and 6, T. 5 N., R. 5 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 4 and 5, approximately 2 miles to the ¼ section corner of sections 3 and 4, T. 5 N., R. 5 W., Seward Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, approximately 8½ miles to the corner of sections 21, 22, 27 and 28, T. 7 N., R. 5 W., Seward Meridian;

Thence easterly, between sections 22 and 27, 23 and 26, 24 and 25, approximately 3 miles to the corner of sections 24 and 25, T. 7 N., R. 5 W., Seward Meridian;

Thence southerly, between Rs. 4 and 5 W., approximately 200 feet to the corner of sections 19 and 30, T. 7 N., R. 4 W., Seward Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, approximately 2 1/8 miles to Seward Meridian;

Thence due South, approximately 13 miles to the place of beginning on Kenai National Wildlife Refuge boundary at the northerly right-of-way of the Sterling Highway, in Section 28, T. 5 N., R. 4 W., Seward Meridian.

Thence easterly, on the Second Standard Parallel North, approximately 1,600 feet to the closing corner of sections 2 and 3, T. 8 N., R. 6 W., Seward Meridian;

Thence southerly, between sections 2 and 3, approximately 1/2 mile to the 1/4 section corner of sections 2 and 3, T. 8 N., R. 6 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 2 and 1, approximately 2 miles to the 1/4 section corner of sections 1 and 6, T. 8 N., Rs. 5 and 6 W., Seward Meridian;

Thence southerly, between Rs. 5 and 6 W., approximately 1/2 mile to the corner of sections 1, 6, 7 and 12, T. 8 N., Rs. 5 and 6 W., Seward Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, 4 and 9, 3 and 10, approximately 4 miles to the corner of sections 2, 3, 10 and 11, T. 8 N., R. 5 W., Seward Meridian;

Thence southerly, between sections 10 and 11, 14 and 15, 22 and 23, 26 and 27, approximately 4 miles to the corner of sections 26, 27, 34 and 35, T. 8 N., R. 5 W., Seward Meridian;

Thence westerly, between sections 27 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 8 N., R. 5 W., Seward Meridian;

Thence southerly, between sections 33 and 34, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 7 and 8 N., R. 5 W., Seward Meridian;

Thence westerly, between Tps. 7 and 8 N., approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 7 and 8 N., R. 5 W., Seward Meridian;

Thence southerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 7 N., R. 5 W., Seward Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 7 N., Rs. 5 and 6 W., Seward Meridian;

Thence southerly, between Rs. 5 and 6 W., approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 7 N., Rs. 5 and 6 W., Seward Meridian, the place of beginning.

Mystery Creek Unit

Beginning at a point on Kenai National Wildlife Refuge boundary, at the northerly right-of-way of the Sterling Highway, in section 28, T. 5 N., R. 4 W., Seward Meridian;

KENAI NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487

KODIAK NATIONAL WILDLIFE REFUGE

Section 303 (5):

> "The Kodiak National Wildlife Refuge shall consist of the existing Kodiak National Wildlife Refuge including lands, waters, interests, and whatever submerged lands, if any, were retained in Federal ownership at the time of statehood, which is redesignated as the Kodiak Island Unit of the Kodiak National Wildlife Refuge, and the addition of all public lands on Afognak and Ban Islands of approximately fifty thousand acres as generally depicted on the map entitled 'Kodiak National Wildlife Refuge', dated October 1978. The described public lands on Afognak Island are those incorporated in this refuge from section 1427 of this Act."

The Kodiak National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundaries:

Kodiak Island Unit

Beginning at a point on the northerly shore of Viekoda Bay, approximately 1/2 mile north from the most southerly point of said bay in section 20, T. 27 S., R. 23 W., Seward Meridian;

Thence easterly, approximately 1 mile to the divide between Viekoda Bay and a stream flowing northwesterly into said bay, near the center of section 21, T. 27 S., R. 23 W., Seward Meridian;

Thence, on an approximate forward bearing of S. 45° E., approximately 1 mile to the divide between Viekoda Bay and Kishuyak Bay, in the northwesterly portion of section 27, T. 27 S., R. 23 W., Seward Meridian;

Thence southerly along the mountainous divide which traverses the center of the island to a point approximately 7 miles north of the head of Kiliuda Bay, located in section 24, T. 32 S., R. 25 W., Seward Meridian;

Thence southerly, along the spur between two minor drainages to the shore of Kiluida Bay at Triangulation Station Head;

Thence along the mean high water line of Kodiak Island, along such major bays as Kiliuda Bay, Sitkalidak Strait, Three Saints Bay, Kaiugnak Bay, Knoll Bay, Jap Bay, Kaguyak Bay, Geese Channel, Russian Harbor, Alitak Bay, Portage Bay, Suluva Bay, Dead Mans Bay, Moser Bay, Akhiok Bay, Klempff Bay, Alitak Bay, closing Lazy Bay, to the Pacific Ocean, Seward Meridian;

Thence with the Pacific Ocean, closing Alitak Lagoon, Sukhoi Lagoon, Grant Lagoon to the meander corner between sections 26 and 35, T. 30 S., R. 33 W., Seward Meridian;

Thence easterly, between sections 26 and 35, 25 and 36, 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, 25 and 36, 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, approximately 12 miles to the quarter corner of section 26 and 35, T. 30 S., R. 31 W., Seward Meridian;

Thence northerly, along the north south centerline of sections 26, 23, 14, 11, 2, 35, 26, 23 and 14, approximately 8 1/2 miles to the meander corner on Shelikof Strait in section 14, T. 29 S., R. 31 W., Seward Meridian;

Thence along the mean high water line of Shelikof Strait, and such major bays as Uyak Bay, Amook Bay, Zachar Bay, Spiridon Bay, Shelikof Strait, Uganik Bay, Uganik Passage, Terror Bay, Uganik Passage, Viekoda Bay, to the place of beginning.

This Unit also contains all of Uganik Island, above the line of mean high tide.

This Unit excludes an area 1 mile square, surrounding each of the native village of Old Harbor, Akhiok, Larsen Bay, Uganik, Uyak, Alitak, Ayakulik and Kaguyak.

Afognak Unit

Beginning at the meander corner of sections 7 and 18, T. 22 S., R. 21 W., Seward Meridian, at the line of mean high tide of Foul Bay;

Thence easterly, between sections 7 and 18, 8 and 17, 9 and 16, approximately 2 1/4 miles to the corner of sections 9, 10, 15 and 16, T. 22 S., R. 21 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 22 S., R. 21 W., Seward Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, approximately 2 miles to the corner of sections 1, 2, 11 and 12, T. 22 S., R. 21 W., Seward Meridian;

Thence northerly, between sections 1 and 2, approximately 1/2 mile to the 1/4 section corner of sections 1 and 2, T. 22 S., R. 21 W., Seward Meridian;

Thence westerly, between sections 30 and 31, approximately 1/2 mile to the 1/4 section corner of sections 30 and 31, T. 20 S., R. 20 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30,

UMI
1983
FEB 24
ISS 38
VOL 48

Thence northerly, between sections 1 and 2, approximately 1/2 mile to the 1/4 section corner of sections 1 and 2, T. 22 S., R. 21 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 1, approximately 1/2 mile to the center 1/4 section corner of section 1, T. 22 S., R. 21 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 1 and 36, approximately 1 mile to the center 1/4 section corner of section 36, T. 21 S., R. 21 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 36, approximately 1/2 mile to the 1/4 section corner of sections 31 and 36, T. 21 S., Rs. 20 and 21 W., Seward Meridian;

Thence northerly, between Rs. 20 and 21 W., approximately 2 1/2 miles to the corner of sections 13, 18, 19 and 24, T. 21 S., Rs. 20 and 21 W., Seward Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 1 1/2 miles to the 1/4 section corner of sections 17 and 20, T. 21 S., R. 20 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 17, approximately 1/2 mile to the center 1/4 section corner of section 17, T. 21 S., R. 20 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 17, approximately 1/2 mile to the 1/4 section corner of sections 16 and 17, T. 21 S., R. 20 W., Seward Meridian;

Thence northerly, between sections 16 and 17, approximately 1/2 mile to the corner of sections 8, 9, 16 and 17, T. 21 S., R. 20 W., Seward Meridian;

Thence easterly, between sections 9 and 16, approximately 1/2 mile to the 1/4 section corner of sections 9 and 16, T 21 S., R. 20 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 9 and 4, approximately 2 miles to the 1/4 section corner of section 4, T. 21 S., R. 20 W., Seward Meridian;

Thence westerly, on the Fifth Standard Parallel South, approximately 2 1/2 miles to the standard corner of sections 31 and 32, T. 20 S., R. 20 W., Seward Meridian;

Thence northerly, between sections 31 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 20 S., R. 20 W., Seward Meridian;

Thence westerly, between sections 30 and 31, approximately 1/2 mile to the 1/4 section corner of sections 30 and 31, T. 20 S., R. 20 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximately 1/2 mile to the center 1/4 section corner of section 30, T. 20 S., R. 20 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 30, approximately 1/2 mile to the 1/4 section corner of sections 25 and 30, T. 20 S., Rs. 20 and 21 W., Seward Meridian;

Thence southerly, between Rs. 20 and 21 W., approximately 1/2 mile to the corner of sections 25, 30, 31 and 36, T. 20 S., Rs. 20 and 21 W., Seward Meridian;

Thence westerly, between sections 25 and 36, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 20 S., R. 21 W., Seward Meridian;

Thence northerly, between sections 25 and 26, approximately 1/2 mile to the meander corner of sections 25 and 26, T. 20 S., R. 21 W., Seward Meridian, at the line of mean high tide of Bluefox Bay;

Thence westerly, northwesterly, southwesterly, southeasterly and southerly, along the line of mean high tide of Afognak Island, closing the mouth of Devil Inlet, to the meander corner of sections 7 and 18, T. 22 S., R. 21 W., Seward Meridian, the place of beginning.

Also included within this Unit is all of Ban Island above the line of mean high tide.

The following USGS quadrangle maps were used to prepare the legal descriptions for the Kodiak National Wildlife Refuge:

KOYUKUK NATIONAL WILDLIFE REFUGE

Section 302 (5):

"The Koyukuk National Wildlife Refuge shall consist of the approximately three million five hundred and fifty thousand acres of public lands generally depicted on the map entitled 'Koyukuk National Wildlife Refuge', dated July 1980."

The Koyukuk National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the standard corner of sections 33 and 34, T. 5 N., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, approximately 4 1/2 miles to the 1/4 section corner of sections 9 and 10, T. 5 N., R. 24 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 9, approximately 1/2 mile to the center 1/4 section corner of section 9, T. 5 N., R. 24 E., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 9, approximately 1/2 mile to the 1/4 section corner of sections 4 and 9, T. 5 N., R. 24 E., Kateel River Meridian;

Thence westerly, between sections 4 and 9, approximately 1/2 mile to the corner of sections 4, 5, 8 and 9, T. 5 N., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 5 and 6 N., R. 24 E., Kateel River Meridian;

Thence westerly, between Tps. 5 and 6 N., approximately 2¼ miles to the corner of Tps. 5 and 6 N., Rs. 19 and 20 E., Kateel River Meridian;

Thence northerly, between Rs. 19 and 20 E., approximately 2 3/4 miles to the summit of a mountain located between sections 19 and 24, T. 6 N., Rs. 19 and 20 E., Kateel River Meridian, approximate elevation 1,453 feet;

Thence northwesterly, along the ridge line of the Isahultila Mountains approximately 6 miles to vertical angle bench mark "BATZA" located in the northwest corner of section 26, T. 7 N., R. 19 E., Kateel River Meridian, approximate elevation 2,142 feet;

Thence due West, approximately 200 feet to a point between sections 26 and 27, T. 7 N., R. 19 E., Kateel River Meridian;

Thence northerly, between sections 26 and 27, approximately 1,300 feet to the corner of sections 22, 23, 26 and 27, T. 7 N., R. 19 E., Kateel River Meridian;

Thence westerly, between sections 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, approximately 10 miles to the corner of sections 19, 24, 25 and 30, T. 7 N., Rs. 17 and 18 E., Kateel River Meridian;

Thence northerly between Rs. 17 and 18 E., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 7 N., Rs. 17 and 18 E., Kateel River Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 7 N., Rs. 16 and 17 E., Kateel River Meridian;

Thence northerly, between Rs. 16 and 17 E., approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 7 N., Rs. 16 and 17 E., Kateel River Meridian;

Thence westerly, between sections 1 and 12, 2 and 11, 3 and 10, approximately 3 miles to the corner of sections 3, 4, 9 and 10, T. 7 N., R. 16 E., Kateel River Meridian;

Thence southerly, between sections 9 and 10, approximately 1 miles to the corner of sections 9, 10, 15 and 16, T. 7 N., R. 16 E., Kateel River Meridian;

Thence westerly, between sections 9 and 16, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 7 N., R. 16 E., Kateel River Meridian;

Thence southerly, between sections 16 and 17, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 7 N., R. 16 E., Kateel River Meridian;

Thence westerly, between sections 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, approximately 5 miles to the corner of sections 15, 16, 21 and 22, T. 7 N., R. 15 E., Kateel River Meridian;

Thence easterly and northeasterly, along the ridge line, approximately 10 1/4 miles to a point on the south boundary of section 32, T. 5 N., R. 4 E., Kateel River Meridian;

Thence easterly, on the First Standard Parallel North, approximately 11 1/2 miles to the closing corner of T. 4 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence southerly, between Rs. 5 and 6 E., approximately 12 miles to the corner of Tps. 2 and 3 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence westerly, between Tps. 2 and 3 N., approximately 6 miles to the corner of Tps. 2 and 3 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence southerly, between Rs. 4 and 5 E., approximately 10 miles to the corner of sections 19, 24, 25 and 30, T. 1 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence westerly, between sections 24 and 25, approximately 1 mile to the corner of sections 23, 24, 25 and 26, T. 1 N., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 25 and 26, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 1 N., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 26 and 35, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 1 N., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 34 and 35, approximately 1 mile to the standard corner of sections 34 and 35, T. 1 N., R. 4 E., Kateel River Meridian;

Thence westerly, on the Kateel River Base Line, approximately 1/4 mile to the closing corner of sections 2 and 3, T. 1 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, 22 and 23, approximately 3 1/2 miles to the 1/4 section corner of sections 22 and 23, T. 1 S., R. 4 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 22, approximately 1 mile to the 1/4 section corner of sections 21 and 22, T. 1 S., R. 4 E., Kateel River Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, approximately 2 miles to the corner of sections 3, 4, 9 and 10, T. 7 N., R. 15 E., Kateel River Meridian;

Thence westerly, between sections 4 and 9, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 7 N., R. 15 E., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 7 and 8 N., R. 15 E., Kateel River Meridian;

Thence westerly, between Tps. 7 and 8 N., approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 7 and 8 N., R. 15 E., Kateel River Meridian;

Thence northerly, between sections 31 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 8 N., R. 15 E., Kateel River Meridian;

Thence westerly, between sections 30 and 31, 25 and 36, approximately 2 miles to the corner of sections 25, 26, 35 and 36, T. 8 N., R. 14 E., Kateel River Meridian;

Thence northwesterly, along the ridge line of the Zane Hills, approximately 11 1/2 miles to to the summit of a mountain located in sections 14 and 15, T. 9 N., R. 13 E., Kateel River Meridian, approximate elevation 5,520 feet;

Thence southwesterly, along a ridge, approximately 4 miles to a point between sections 31 and 36, T. 9 N., Rs. 12 and 13 E., Kateel River Meridian;

Thence southerly, between Rs. 12 and 13 E., approximately 3/4 miles to the standard corner of T. 9 N., Rs. 12 and 13 E., Kateel River Meridian;

Thence westerly, on the Second Standard Parallel North, approximately 36 miles to the standard corner of T. 9 N., Rs. 6 and 7 E., Kateel River Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 6 miles to the corner of Tps. 9 and 10 N., Rs. 6 and 7 E., Kateel River Meridian;

Thence westerly, between Tps. 9 and 10 N., approximately 6 miles to the corner of Tps. 9 and 10 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence northerly, between Rs. 5 and 6 E., approximately 6 miles to a point on the Continental Divide between sections 1 and 6, T. 10 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence southwesterly, northeasterly and southerly, along the Continental Divide, approximately 88 miles to a junction of ridges located in the northerly portion of section 25, T.4 N., R. 2 E., Kateel River Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, approximately 1 mile to the 1/4 section corner of sections 27 and 28, T. 1 S., R. 4 E., Kateel River Meridian;

Thence westerly, along the east and west centerline of section 28, approximately 1 mile to the 1/4 section corner of sections 28 and 29, T. 1 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 10 and 15, T. 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 10 and 15, approximately 1/2 mile to the

Thence southerly, between sections 21 and 22, 27 and 28, approximately 1 mile to the 1/4 section corner of sections 27 and 28, T. 1 S., R. 4 E., Kateel River Meridian;

Thence westerly, along the east and west centerline of section 28, approximately 1 mile to the 1/4 section corner of sections 28 and 29, T. 1 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, approximately 1 mile to the 1/4 section corner of sections 32 and 33, T. 1 S., R. 4 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 32, approximately 1/2 mile to the center 1/4 section corner of section 32, T. 1 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 32, approximately 1/2 mile to the 1/4 section corner of sections 5 and 32, Tps. 1 and 2 S., R. 4 E., Kateel River Meridian;

Thence easterly, between Tps. 1 and 2 S., approximately 4 1/2 miles to the corner of Tps. 1 and 2 S., Rs. 4 and 5 E., Kateel River Meridian;

Thence southerly, between Rs. 4 and 5 E., approximately 5 1/2 miles to the 1/4 section corner of sections 31 and 36, T. 2 S., Rs. 4 and 5 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 36, approximately 1 mile to the 1/4 section corner of sections 35 and 36, T. 2 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 35 and 36, approximately 1/2 mile to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 2 and 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 2 and 3, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 3 and 10, approximately 1/2 mile to the 1/4 section corner of sections 3 and 10, T. 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 10 and 15, T. 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 10 and 15, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, approximately 1 1/2 miles to the 1/4 section corner of sections 21 and 22, T. 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 21, approximately 1/2 mile to the center 1/4 section corner of section 21, T. 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 21, approximately 1/2 mile to the 1/4 section corner of sections 21 and 28, T. 3 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 21 and 28, approximately 1/2 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of section 28, 29, 32 and 33, T. 3 S., R. 4 E., Kateel River Meridian;

Thence easterly, between sections 28 and 33, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 3 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 33 and 34, 3 and 4, 9 and 10, 15 and 16, approximately 4 miles to the corner of sections 15, 16, 21 and 22, T. 4 S., R. 4 E., Kateel River Meridian;

Thence easterly, between sections 15 and 22, 14 and 23, approximately 2 miles to the corner of sections 13, 14, 23 and 24, T. 4 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 23 and 24, 25 and 26, 35 and 36, approximately 3 miles to the standard corner of sections 35 and 36, T. 4 S., R. 4 E., Kateel River Meridian;

Thence westerly, on the First Standard Parallel South, approximately 3/4 miles to the 1/4 section corner of section 2, T. 5 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 2, approximately 1 mile to the 1/4 section corner of sections 2 and 11, T. 5 S., R. 4 E., Kateel River Meridian;

Thence southerly, between Rs. 8 and 9 E., approximately 6 miles to the corner of Tps. 6 and 7 S., Rs. 8 and 9 E., Kateel River Meridian;

Thence easterly, between Tps. 6 and 7 S., approximately 6 miles to the corner of Tps. 6 and 7 S., Rs. 9 and 10 E., Kateel River Meridian;

Thence southerly, between Rs. 9 and 10 E., approximately 6 miles to the corner of Tps. 7 and 8 S., Rs. 9 and 10 E., Kateel River Meridian;

Thence easterly, between Tps. 7 and 8 S., approximately 6 miles to the corner of Tps. 7 and 8 S., Rs. 10 and 11 E., Kateel River Meridian;

Thence northerly, between Rs. 10 and 11 E., approximately 12 miles to the corner of Tps. 5 and 6 S., Rs. 10 and 11 E., Kateel River Meridian;

Thence easterly, between Tps. 5 and 6 S., approximately 18 miles to the corner of Tps. 5 and 6 S., Rs. 13 and 14 E., Kateel River Meridian;

Thence northerly, between Rs. 13 and 14 E., approximately 6 miles to the closing corner of T. 5 S., Rs. 13 and 14 E., Kateel River Meridian;

Thence easterly, on the First Standard Parallel South, approximately 4 miles to the standard corner of sections 33 and 34, T. 4 S., R. 14 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16 approximately 10 miles to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 14 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 61 1/2° E., approximately 16,900 feet to the summit of a mountain located in the easterly portion of section 1, T. 3 S., R. 14 E., Kateel River Meridian, approximate elevation 875 feet;

Thence on an approximate forward bearing of N. 76 3/4° E., approximately 6,100 feet to the summit of a mountain located in sections 4 and 32, Tps. 2 and 3 S., R. 15 E., Kateel River Meridian, approximate elevation 820 feet;

Thence on an approximate forward bearing of N. 20° E., approximately 5,200 feet to the summit of a mountain in the northeast quarter of section 32, T. 2 S., R. 15 E., Kateel River Meridian, approximate elevation 885 feet;

Thence on an approximate forward bearing of N. 80° E., approximately 13,100 feet to the summit of a mountain located in the westerly portion of section 26, T. 2 S., R. 15 E., Kateel River Meridian, approximate elevation 1,020 feet;

Thence on an approximate forward bearing of N. 55° E., approximately 3,800 feet to a knoll in the easterly portion of section 26, T. 2 S., R. 15 E., Kateel River Meridian;

Thence on an approximate forward bearing of East, approximately 15,200 feet to the summit of Hochandochtla Mountain, section 35, T. 2 N., R. 19 E., Kateel River Meridian;

Thence westerly, between sections 2 and 11, 3 and 10, approximately 1 1/2 miles to the corner of sections 3, 4, 9 and 10, T. 5 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 9 and 10, 15 and 16, approximately 2 miles to the corner of sections 13, 16, 21 and 22, T. 5 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16 17, 20 and 21, T. 5 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 20 and 21, 28 and 29, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 5 S., R. 4 E., Kateel River Meridian;

Thence westerly, between sections 29 and 32, approximately 1/2 mile to the 1/4 section corner of sections 29 and 32, T. 5 S., R. 4 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 32, approximately 1 mile to the 1/4 section corner of sections 5 and 32, Tps. 5 and 6 S., R. 4 E., Kateel River Meridian;

Thence westerly, between Tps. 5 and 6 S., approximately 1/2 mile to the corner of sections 5, 6, 31 and 32, Tps. 5 and 6 S., R. 4 E., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, approximately 3 miles to the corner of sections 17, 18, 19 and 20, T. 6 S., R. 4 E., Kateel River Meridian;

Thence easterly, between sections 17 and 20, 16 and 21, 15 and 22, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 6 S., R. 4 E., Kateel River Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 6 S., R. 4 E., Kateel River Meridian;

Thence easterly, between sections 1 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 6 S., R. 4 E., Kateel River Meridian;

Thence northerly, between sections 11 and 12, 1 and 2, approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 5 and 6 S., R. 4 E., Kateel River Meridian;

Thence easterly, between Tps. 5 and 6 S., approximately 25 miles to the corner of Tps. 5 and 6 S., Rs. 8 and 9 E., Kateel River Meridian;

VOL 48 ISS 38 FEB 24 1983 UMI

Thence on an approximate forward bearing of N. 58° E., approximately 3,800 feet to a knoll in the easterly portion of section 26, T. 2 S., R. 15 E., Kateel River Meridian;

Thence on an approximate forward bearing of S. 62 1/2° E., approximately 8,500 feet to a point on the left bank of an unnamed stream, it crosses the section line between sections 30 and 31, T. 2 S., R. 16 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 40 1/2° E., approximately 4,600 feet to the summit of a mountain located in the northerly portion of section 32, T. 2 S., R. 16 E., Kateel River Meridian, approximate elevation 1,104 feet;

Thence on an approximate forward bearing of N. 57 3/4° E., approximately 16,900 feet to the summit of a mountain located in section 23, T. 2 S., R. 16 E., Kateel River Meridian, approximate elevation 1,222 feet;

Thence on an approximate forward bearing of N. 88 3/4° E., approximately 10,000 feet to the summit of a mountain located in the westerly portion of section 19, T. 2 S., R. 17 E., Kateel River Meridian, approximate elevation 1,640 feet;

Thence on an approximate forward bearing of N. 64° E., approximately 13,000 feet to the summit of a mountain located in the central portion of section 16, T. 2 S., R. 17 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 43° E., approximately 3,600 feet to the summit of a mountain located in sections 9 and 16, T. 2 S., R. 17 E., Kateel River Meridian, approximate elevation 2,235 feet;

Thence on an approximate forward bearing of N. 28° E., approximately 7,100 feet to the summit of a mountain located in the southerly portion of section 3, T. 2 S., R. 17 E., Kateel River Meridian;

Thence due east, approximately 1 1/2 miles to a point in the section line of sections 1 and 2, T. 2 S., R. 17 E., Kateel River Meridian;

Thence northerly, between sections 1 and 2 approximately 3/4 mile to the corner of sections 1, 2, 35 and 36, Tps. 1 and 2 S., R. 17 E., Kateel River Meridian;

Thence easterly, between Tps. 1 and 2 S., approximately 1/2 mile to a point on the crest of a ridge leading southerly from the summit of Dulbatna Mountain, sections 1 and 2, Tps. 1 and 2 S., R. 17 E., Kateel River Meridian;

Thence northerly, northeasterly, and easterly, following the crest of the divide between the Nayuka River and the Dulbi River approximately 18 miles to the summit of a mountain in the central portion of section 32, T. 2 N., R. 19 E., Kateel River Meridian, approximate elevation 1,880 feet;

Thence on an approximate forward bearing of East, approximately 15,200 feet to the summit of Hochandocntla Mountain, section 35, T. 2 N., R. 19 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 50° E., approximately 10,600 feet to the summit of a mountain in the northeasterly portion of section 25, T. 2 N., R. 19 E., Kateel River Meridian, approximate elevation 3,126 feet;

Thence on an approximate forward bearing of S. 61 1/2° E., approximately 21,900 feet to the summit of a mountain in the northerly portion of section 3, T. 1 N., R. 20 E., Kateel River Meridian, approximate elevation 2,105 feet;

Thence on an approximate forward bearing of N. 25° E., approximately 6,300 feet to the summit of a mountain in the northeast corner of section 34, T. 2 N., R. 20 E., Kateel River Meridian, approximate elevation 2,108 feet;

Thence on an approximate forward bearing of N. 52 1/2° E., approximately 14,800 feet to the summit of a mountain on the line between sections 19 and 14, T. N., Rs. 20 and 21 E., Kateel River Meridian;

Thence on an approximate forward bearing of S. 60° E., approximately 19,600 feet to the summit of a mountain located in the westerly portion of section 34, T. 2 N., R. 21 E., Kateel River Meridian, approximate elevation 1,764 feet;

Thence on an approximate forward bearing of N. 41 1/2° E., approximately 10,800 feet to the summit of a mountain located in the southerly portion of section 23, T. 2 N., R. 21 E., Kateel River Meridian, approximate elevation 2,414 feet;

Thence northeasterly and easterly, following the crest of a ridge approximately 18,500 feet to a summit on the ridge in the central portion of section 17, T. 2 N., R. 22 E., Kateel River Meridian, approximate elevation 2,209 feet;

Thence on an approximate forward bearing of N. 54° E., approximately 26,700 feet to a summit on the ridge in section 36, T. 3 N., R. 22 E., Kateel River Meridian, approximate elevation 1,620 feet;

Thence on an approximate forward bearing of N. 35 1/2° E., approximately 10,700 feet to a summit on the ridge in the southeasterly portion of section 19, T. 3 N., R. 23 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 50° E., approximately 19,40 feet to a summit on the ridge near the center of section 10, T. 3 N., R. 23 E., Kateel River Meridian;

Thence on as forward bearing of approximately S. 75° E., approximately 1,800 feet to a summit on the ridge in the easterly portion of section 10 T. 3 N., R. 23 E., Kateel River Meridian, approximate elevation 2,745 feet;

Thence on an approximate forward bearing of N. 66° E., approximately 12,800 feet to Vertical Angle Bench Mark "Flat" in the westerly portion of section 6, T. 3 N., R. 24 E., Kateel River Meridian, approximate elevation 3,214 feet;

Thence on an approximate forward bearing of N. 19° E., approximately 1,700 feet to a summit on the ridge in the northwestery portion of section 6, T. 3 N., R. 24 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 63 1/2° E., approximately 7,000 feet to a summit on the ridge in the southerly portion of section 32, T. 4 N., R. 24 E., Kateel River Meridian, approximate elevation 2,640 feet;

Thence on a forward bearing of approximately N. 18° E., approximately 8,400 feet to a summit on the ridge in the northwesterly portion of section 28, T. 4 N., R. 24 E., Kateel River Meridian, approximate elevation 1,930 feet;

Thence on an approximate forward bearing of approximately N. 80° E., approximately 6,100 feet to a summit on the ridge between sections 22 and 27, T. 4 N., R. 24 E., Kateel River Meridian, approximate elevation 1,560 feet;

Thence on an approximate forward bearing of N. 24° E., approximately 23,300 feet the standard corner of sections 33 and 34, T. 5 N., R. 24 E., Kateel River Meridian, the place of beginning.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE KOYUKUK NATIONAL WILDLIFE REFUGE:

Section 702 (8):

"Koyukuk Wilderness of approximately four hundred thousand acres as generally depicted on a map entitled 'Koyukuk National Wildlife Refuge', dated July 1980."

The Koyukuk Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the closing corner of T. 4 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence southerly, between Rs. 5 and 6 E., approximately 12 miles to the corner of Tps. 2 and 3 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence westerly, between Tps. 2 and 3 N., approximately 5 3/4 miles to the meander corner of sections 6 and 31, Tps. 2 and 3 N., R. 5 E., Kateel River Meridian, at the line of mean high water on the left bank of the Kateel River;

Thence southeasterly, easterly and northeasterly along the left bank of the Kateel River and the right bank of the Koyukuk River, approximately 76 miles to the meander corner of sections 25 and 30, T. 2 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence northerly, between Rs. 9 and 10 E., approximately 16 3/4 miles to the closing corner of T. 4 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence easterly, along the First Standard Parallel North, approximately 3/4 mile to the standard corner of T. 5 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence northerly, between Rs. 9 and 10 E., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, approximately 4 miles to the corner of sections 16, 17, 20 and 21, T. 5 N., R. 9 E., Kateel River Meridian;

Thence southerly, between sections 20 and 21, approximately 1/2 mile to the 1/4 section corner of sections 20 and 21, T. 5 N., R. 9 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 20, approximately 1 mile to the 1/4 section corner of sections 19 and 20, T. 5 N., R. 9 E., Kateel River Meridian;

Thence southerly, between sections 19 and 20, approximately 1/2 mile to the corner of sections 19, 20, 29 and 30, T. 5 N., R. 9 E., Kateel River Meridian;

Thence westerly, between sections 19 and 30, 24 and 25, 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30 approximately 7 miles to the corner of sections 19, 24, 25 and 30, T. 5 N., Rs. 7 and 8 E., Kateel River Meridian;

Thence northerly, between Rs. 7 and 8 E., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 5 N., Rs. 7 and 8 E., Kateel River Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, approximately 3 miles to the corner of sections 15, 16, 21 and 22, T. 5 N., R. 7 E., Kateel River Meridian;

Thence northerly, between sections 15 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 5 N., R. 7 E., Kateel River Meridian;

Thence westerly, between sections 9 and 16, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 5 N., R. 7 E., Kateel River Meridian;

Thence northerly, between sections 8 and 9, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 5 N., R. 7 E., Kateel River Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, 1 and 12, 2 and 11, 3 and 10, approximately 4 1/2 miles to the 1/4 section corner of sections 3 and 10, T. 5 N., R. 6 E., Kateel River Meridian;

The following USGS quadrangle maps were used to prepare the legal description for the Koyukuk National Wildlife Refuge:

UMI

FEB 24
ISS 38
VOL 48

Thence westerly, between sections 5 and 8, 6 and 7, 1 and 12, 2 and 11, 3 and 10, approximately 4 1/2 miles to the 1/4 section corner of sections 3 and 10, T. 5 N., R. 6 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 10 and 15, T. 5 N., R. 6 E., Kateel River Meridian;

Thence westerly, between sections 10 and 15, 9 and 16, approximately 1 mile to the 1/4 section corner of sections 9 and 16, T. 5 N., R. 6 E, Kateel River Meridian;

Thence southerly, on the north and south centerline of section 16, approximately 1 mile to the 1/4 section corner of sections 16 and 21, T. 5 N., R. 6 E., Kateel River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, approximately 1 mile to the 1/4 section corner of sections 17 and 20, T. 5 N., R. 6 E., Kateel River Meridian;

Thence southerly, on the north and south centerline of section 20, approximately 1/2 mile to the center 1/4 section corner of section 20, T. 5 N., R. 6 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 20, approximately 1/2 mile to tne 1/4 section corner of sections 19 and 20, T. 5 N., R. 6 E., Kateel River Meridian;

Thence southerly, between sections 19 and 20, approximately 1/2 mile to the corner of sections 19, 20, 29 and 30, T. 5 N., R. 6 E., Kateel River Meridian;

Thence westerly, between sections 19 and 30, approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 5 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence southerly, between Rs. 5 and 6 E., approximately 2 miles to the standard corner of T. 5 N., Rs. 5 and 6 E., Kateel River Meridian;

Thence westerly, along the First Standard Parallel North, approximately 2,200 feet to the closing corner of T. 4 N., Rs. 5 and 6 E., Kateel River Meridian, the place of beginning.

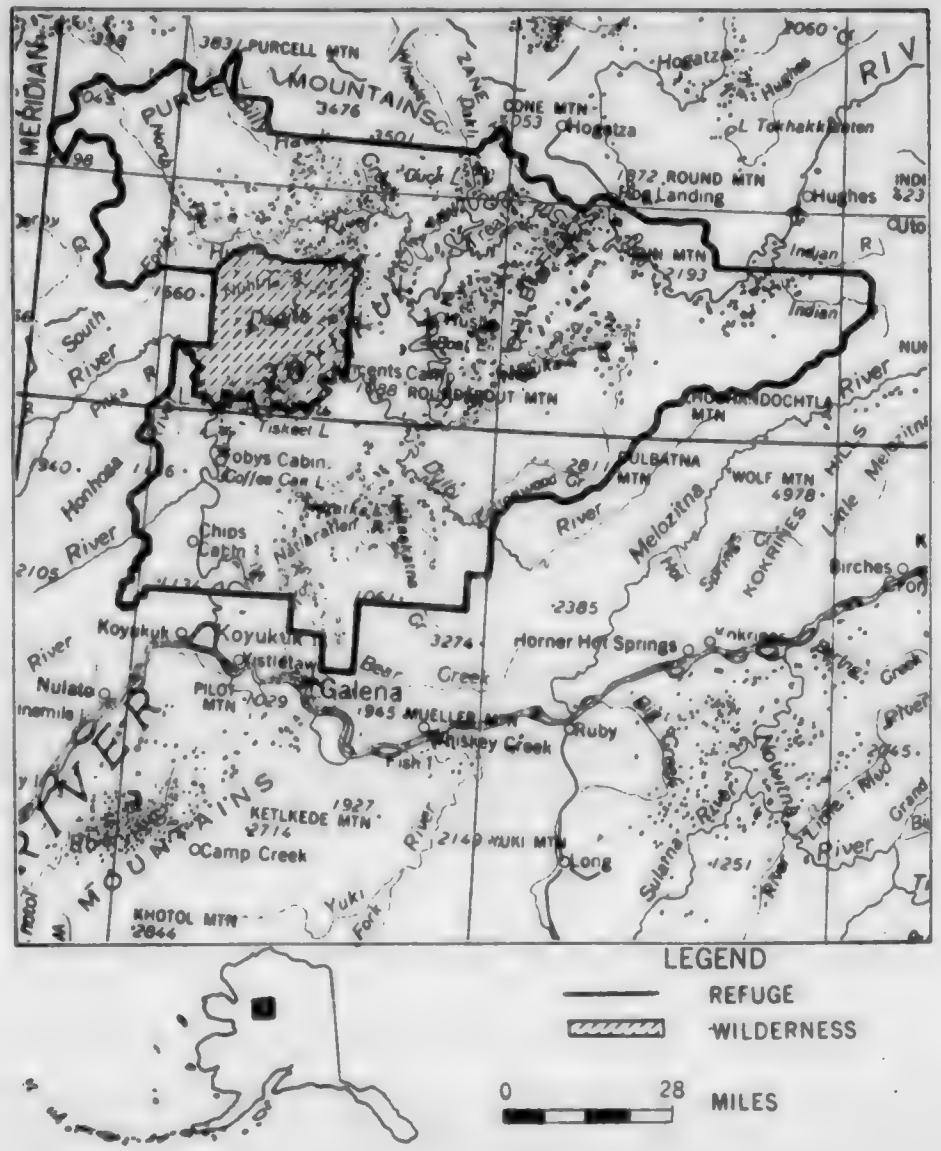
KOYUKUK NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



NOWITNA NATIONAL WILDLIFE REFUGE

Section 302 (6):

> "The Nowitna National Wildlife Refuge shall consist of the approximately one million five hundred and sixty thousand acres of public lands generally depicted in a map entitled 'Nowitna National Wildlife Refuge', dated July 1980."

The Nowitna National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the point for the closing corner of T. 9 S., Rs. 18 and 19 E., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 E., approximately 18 miles to the corner of Tps. 11 and 12 S., Rs. 18 and 19 E., Kateel River Meridian;

Thence easterly, between Tps. 11 and 12 S., approximately 18 miles to the corner of Tps. 11 and 12 S., Rs. 21 and 22 E., Kateel River Meridian;

Thence southerly, between Rs. 21 and 22 E., approximately 6 miles to the standard corner of T. 12 S., Rs. 21 and 22 E., Kateel River Meridian;

Thence easterly, on the Third Standard Parallel South, approximately 4 1/2 miles to the closing corner of T. 13 S., Rs. 22 and 23 E., Kateel River Meridian;

Thence southerly, between Rs. 22 and 23 E., approximately 1 mile to the corner of sections 1, 6, 7 and 12, T., 13 S., Rs. 22 and 23 E., Kateel River Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 13 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 8 and 9, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 13 S., R. 23 E., Kateel River Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 13 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 4 miles to the corner of sections 33, 34, T. 15 S., R. 23 E., Kateel River Meridian;

Thence westerly, between Tps. 15 and 16 S., approximately 3 miles to the corner of Tps. 15 and 16 S., Rs. 23 and 24 E., Kateel River Meridian;

Thence southerly, between Rs. 23 and 24 E., approximately 1 mile to the corner

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 13 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 4 miles to the corner of sections 3, 4, 33 and 34, Tps. 13 and 14 S., R. 23 E., Kateel River Meridian;

Thence easterly, between Tps. 13 and 14 S., approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 13 and 14 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 14 S., R. 23 E., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, approximately 8 miles to the corner of sections 13, 18, 19 and 24, T. 14 S., Rs. 24 and 25 E., Kateel River Meridian;

Thence southerly, between Rs. 24 and 25 E., approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 15 S., Rs. 24 and 25 E., Kateel River Meridian;

Thence westerly, between sections 13 and 24, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 15 S., R. 24 E., Kateel River Meridian;

Thence southerly, between sections 23 and 24, approximately 1 mile to the corner of sections 23, 24, 25 and 26, T. 15 S., R. 24 E., Kateel River Meridian;

Thence westerly, between sections 23 and 26, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 15 S., R. 24 E., Kateel River Meridian;

Thence southerly, between sections 26 and 27, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 15 S., R. 24 E., Kateel River Meridian;

Thence westerly, between sections 27 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 15 S., R. 24 E., Kateel River Meridian;

Thence southerly, between sections 33 and 34, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 15 and 16 S., R. 24 E., Kateel River Meridian;

Thence westerly, between Tps. 15 and 16 S., approximately 3 miles to the corner of Tps. 15 and 16 S., Rs. 23 and 24 E., Kateel River Meridian;

Thence southerly, between Rs. 23 and 24 E., approximately 1 mile to the corner of sections 1, 6, 7 and 12 T. 16 S., Rs. 23 and 24 E., Kateel River Meridian;

Thence westerly, between sections 1 and 12, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 16 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 11 and 12, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 16 S., R. 23 E., Kateel River Meridian;

Thence westerly, between sections 11 and 14, 10 and 15, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 16 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 16 S., R. 23 E., Kateel River Meridian;

Thence westerly, between sections 16 and 21, 17 and 20, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 16 S., R. 23 E., Kateel River Meridian;

Thence southerly, between sections 19 and 20, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 16 S., R. 23 E., Kateel River Meridian;

Thence westerly, between sections 19 and 30, 24 and 25, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 16 S., R. 22 E., Kateel River Meridian;

Thence southerly, between sections 25 and 26, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 16 S., R. 22 E., Kateel River Meridian;

Thence westerly, between sections 26 and 35, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 16 S., R. 22 E., Kateel River Meridian;

Thence southerly, between sections 34 and 35, approximately 1 mile to the standard corner of sections 34 and 35, T. 16 S., R. 22 E., Kateel River Meridian;

Thence westerly, on the Fourth Standard Parallel South, approximately 3 1/2 miles to the closing corner of sections 4 and 5, T. 17 S., R. 22 E., Kateel River Meridian;

Thence southerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 17 S., R. 22 E., Kateel River Meridian;

Thence westerly, between sections 5 and 8, 6 and 7 approximately 2 miles to the corner of sections 1, 6, 7 and 12, T. 17 S., Rs. 22 E., Kateel River Meridian;

Thence southerly, between Rs. 21 and 22 E., approximately 8 miles to the corner of sections 13, 18, 19 and 24, T. 18 S., Rs. 21 and 22 E., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 18 S., R. 22 E., Kateel River Meridian;

Thence northerly, between sections 16 and 17, 8 and 9, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 18 S., R. 22 E., Kateel River Meridian;

Thence easterly, between sections 4 and 9, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 18 S., R. 22 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 17 and 18 S., R. 22 E., Kateel River Meridian;

Thence easterly, between Tps. 17 and 18 S., approximately 3 miles to the corner of Tps. 17 and 18 S., Rs. 22 and 23 E., Kateel River Meridian;

Thence northerly, between Rs. 22 and 23 E., approximately 2 miles to the corner of sections 19, 24, 25 and 30, T. 17 S., Rs. 22 and 23 E., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, approximately 4 miles to the corner of sections 22, 23, 26 and 27, T. 17 S., R. 23 E., Kateel River Meridian;

Thence northerly, between sections 22 and 23, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 17 S., R. 23 E., Kateel River Meridian;

Thence easterly, between sections 14 and 23, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 17 S., R. 23 E., Kateel River Meridian;

Thence northerly, between sections 13 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 17 S., R. 23 E., Kateel River Meridian;

Thence easterly, between sections 12 and 13, approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 17 S., Rs. 23 and 24 E., Kateel River Meridian;

Thence northerly, between Rs. 23 and 24 E., approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 17 S., Rs. 23 and 24 E., Kateel River Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 17 S., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the closing corner of sections 4 and 5, T. 17 S., R. 24 E., Kateel River Meridian;

Thence easterly, on the Fourth Standard Parallel South, approximately 1 3/4 miles to the standard corner of sections 32 and 33, T. 16 S., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 32 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 16 S., R. 24 E., Kateel River Meridian;

Thence easterly, between sections 28 and 33, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 16 S., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 27 and 28, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 16 S., R. 24 E., Kateel River Meridian;

Thence easterly, between sections 22 and 27, 23 and 26, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 16 S., R. 24 E., Kateel River Meridian;

Thence northerly, between sections 23 and 24, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 16 S., R. 24 E., Kateel River Meridian;

Thence easterly, between sections 13 and 24, 18 and 19, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 16 S., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 17 and 18, 7 and 8, approximately 2 miles to the corner of sections ;5, 6, 7 and 8 T. 16 S., R. 25 E., Kateel River Meridian;

Thence easterly, between sections 5 and 8, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 16 S., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 S., R. 25 E., Kateel River Meridian;

Thence easterly, between Tps. 13 and 14 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 13 and 14 S., R. 26 E., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 15 and 16 S., R. 25 E., Kateel River Meridian;

Thence easterly, between Tps. 15 and 16 S., approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 15 and 16 S., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, approximately 2 miles to the corner of sections 21, 22, 27 and 28, T. 15 S., R. 25 E., Kateel River Meridian;

Thence easterly, between sections 22 and 27, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 15 S., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 22 and 23, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 15 S., R. 25 E., Kateel River Meridian;

Thence easterly, between sections 14 and 23, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 15 S., R. 25 E., Kateel River Meridian;

Thence northerly, between sections 13 and 14, 11 and 12, 1 and 2, 35 and 36, approximately 4 miles to the corner of sections 25, 26, 35 and 36, T. 14 S., R. 25 E., Kateel River Meridian;

Thence easterly, between sections 25 and 36, approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 14 S., Rs. 25 and 26 E., Kateel River Meridian;

Thence northerly, between Rs. 25 and 26 E., approximately 3 miles to the corner of sections 7, 12, 13 and 18, T. 14 S., Rs. 25 and 26 E., Kateel River Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, approximately 2 miles to the corner of sections 8, 9, 16 and 17, T. 14 S., R. 26 E., Kateel River Meridian;

Thence northerly, between sections 8 and 9, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 14 S., R. 26 E., Kateel River Meridian;

Thence easterly, between sections 4 and 9, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 14 S., R. 26 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 13 and 14 S., R. 26 E., Kateel River Meridian;

Thence easterly, between Tps. 13 and 14 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 13 and 14 S., R. 26 E., Kateel River Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 13 S., R. 26 E., Kateel River Meridian;

Thence easterly, between sections 24 and 25, approximately 1 mile to the corner of sections 19, 24, 25, 30, T. 13 S., Rs. 26 and 27 E., Kateel River Meridian;

Thence northerly, between Rs. 26 and 27 E., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 13 S., Rs. 26 and 27 E., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, approximately 2 miles to the corner of sections 16, 17, 20 and 21, T. 13 S., R. 27 E., Kateel River Meridian;

Thence northerly, between sections 16 and 17, 8 and 9, 4 and 5, approximately 3 miles to the closing corner of sections 4 and 5, T. 13 S., R. 27 E., Kateel River Meridian;

Thence westerly, on the Third Standard Parallel South, approximately 100 feet to the standard corner of T. 12 S., Rs. 26 and 27 E., Kateel River Meridian;

Thence northerly, between Rs. 26 and 27 E., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 12 S., Rs. 26 and 27 E., Kateel River Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, 27 and 34, 26 and 35, 25 and 36, approximately 6 miles to the corner of sections 25, 30 31 and 36, T. 12 S., Rs. 27 and 28 E., Kateel River Meridian;

Thence southerly, between Rs. 27 and 28 E., approximately 1 mile to the standard corner of T. 12 S., Rs. 27 and 28 E., Kateel River Meridian;

Thence easterly, on the Third Standard Parallel South, approximately 1 mile to the closing corner of sections 3 and 4, T. 13 S., R. 28 E., Kateel River Meridian;

Thence southerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 13 S., R. 28 E., Kateel River Meridian;

Thence easterly, between sections 3 and 10, 2 and 11, 1 and 12, 6 and 7, 5 and 8, 4 and 9, 3 and 10, 2 and 11, 1 and 12, 6 and 7, approximately 9 3/4 miles to the corner of sections 6 and 7, T. 13 S., R. 30 E., on the east boundary of the Kateel River Meridian;

UMI

FEB 24
ISS 38
VOL 48
4

Thence southerly, between the Fairbanks and Kateel River Meridians, approximately 200 feet to the 1/4 section corner of section 19, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 19, approximately 1 mile to the 1/4 section corner of sections 19 and 20, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence northerly, between sections 19 and 20, 17 and 18, approximately 1 mile to the 1/4 section corner of sections 17 and 18, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence easterly, on the east and west centerline of section 17, approximately 1 mile to the 1/4 section corner of sections 16 and 17, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence northerly, between sections 16 and 17, 8 and 9, approximately 1 1/2 miles to the corner of sections 4, 5, 8 and 9, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence easterly, between sections 4 and 5, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 6 S., R. 27 W., Fairbanks Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, approximately 2 miles to the corner of sections 27, 28, 33 and 34, T. 5 S., R. 27 W., Fairbanks Meridian;

Thence easterly, between sections 27 and 34, 26 and 35, 25 and 36, approximately 3 miles to the corner of sections 25, 30, 31 and 36, T. 5 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 W., approximately 4 miles to the corner of sections 1, 6, 7 and 12, T. 5 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence easterly, between sections 6 and 7, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 5 S., R. 26 W., Fairbanks Meridian;

Thence northerly, between sections 5 and 6, approximately 1 mile to the closing corner of sections 5 and 6, T. 5 S., R. 26 W., Fairbanks Meridian;

Thence easterly, on the First Standard Parallel South, approximately 500 feet to the standard corner of sections 33 and 34, T. 4 S., R. 26 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, approximately 18 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 26 W., Fairbanks Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 W., approximately 6 miles to the closing corner of T. 1 S., Rs. 26 and 27 W., Fairbanks Meridian;

Thence westerly, on the Fairbanks Base Line, approximately 2 miles to the standard corner of T. 1 N., Rs. 26 and 27 W., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 W., approximately 22 miles to the meander corner of sections 13 and 18, T. 4 N., Rs. 26 and 27 W., Fairbanks Meridian, on the left bank of the Yukon River;

Thence southwesterly, along the left bank of the Yukon River, approximately 93 miles to the meander corner on the south boundary of section 32, T. 8 S., R. 17 E., Kateel River Meridian;

Thence easterly, on the Second Standard Parallel South, approximately 9 1/2 miles to the closing corner of T. 9 S., Rs. 18 and 19 E., Kateel River Meridian, the place of beginning.

All islands located in the Yukon River from section 7, T. 4 N., R. 26 W., Fairbanks Meridian, southwestely to section 32, T. 8 S., R. 17 E., Kateel River Meridian, including all of Darvin Island, are included in the Nowitna National Wildlife Refuge.

UNITS OF THE NATIONAL WILD AND SCENIC RIVER SYSTEM
WITHIN THE NOWITNA NATIONAL WILDLIFE REFUGE

Designated Wild River:

Section 602:

> "Nowitna, Alaska--That portion from the point where the river crosses the west limit of township 18 south, range 22 east, Kateel River meridian, to its confluence with the Yukon River within the boundaries of the Nowitna National Wildlife Refuge; to be administered by the Secretary of the Interior."

NOTE: The boundary of the Nowitna Wild river corridor will be determined during the comprehensive conservation planning process for the Nowitna National Wildlife Refuge and will be published upon completion of that plan (due by December 1987).

The following USS quadrangle maps were used to prepare the legal description for the Nowitna National Wildlife Refuge:

VOL 48

SELAWIK NATIONAL WILDLIFE REFUGE

Section 302 (7):

"The Selawik National Wildlife Refuge shall consist of the approximately two million one hundred and fifty thousand acres of public land generally depicted on the map entitled 'Selawik National Wildlife Refuge', dated July 1980. No lands conveyed to any Native Corporation shall be considered to be within the boundaries of the refuge; except that if any such corporation desires to convey any such lands, the Secretary may acquire such lands with the consent of the owner and any such acquired lands shall become public lands of the refuge."

The Selawik National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the corner of sections 19, 24, 25 and 30, T. 7 N., Rs. 1 E. and 1 W., Kateel River Meridian;

Thence northerly, approximately 2 3/4 miles to vertical angle bench mark "Grizzly" located on the summit of a mountain between sections 7 and 12, T. 7 N., Rs. 1 E. and 1 W., Kateel River Meridian, approximate elevation 2,398 feet;

Thence northeasterly, along the crest of a ridge, approximately 2 miles to a point of intersection with the Continental Divide located in the southwesterly portion of section 32, T. 8 N., R. 1 E., Kateel River Meridian; approximate elevation 1,700 feet;

Thence northerly and northeasterly, along the Continental Divide, approximately 28 miles to a point between sections 25 and 30, T. 10 N., Rs. 3 and 4 E., Kateel River Meridian, approximate elevation 1,100 feet;

Thence northerly, between Rs. 3 and 4 E., approximately 8 miles to the corner of sections 13, 18, 19 and 24, T. 11 N., Rs. 3 and 4 E., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 11 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence northerly, between Rs. 4 and 5 E., approximately 5 miles to the corner of sections 19, 24, 25 and 30, T. 12 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, E., approximately 30 miles to the corner of sections 19, 24, 25 and 30, T. 12 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence southerly, between Rs. 9 and 10 E., approximately 4 miles to the corner of sections 7, 12, 13 and 18, T. 11 N., Rs. 9 and 10 E., Kateel River Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, 9 and 16, 10 and 15, 11 and 14, 12 and 13, approximately 6 miles to the corner of sections 7, 12, 13 and 18, T. 11 N., Rs. 10 and 11 E., Kateel River Meridian;

Thence northerly, between Rs. 10 and 11 E., approximately 7 miles to the corner of Tps. 11 and 12 N., Rs. 10 and 11 E., Kateel River Meridian;

Thence easterly, between Tps. 11 and 12 N., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 11 and 12 N., R. 11 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, approximately 2 miles to the corner of sections 21, 22, 27 and 28, T. 12 N., R. 11 E., Kateel River Meridian;

Thence easterly, between sections 22 and 27, 23 and 26, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 12 N., R. 11 E., Kateel River Meridian;

Thence northerly, between sections 23 and 24, 13 and 14, 11 and 12, 1 and 2, approximately 4 miles to the closing corner of sections 1 and 2, T. 12 N., R. 11 E., Kateel River Meridian;

Thence westerly, along the Third Standard Parallel North, approximately 1 mile to the standard corner of sections 33 and 34, T. 13 N., R. 11 E., Kateel River Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, approximately 2 miles to the corner of sections 21, 22, 27 and 28, T. 13 N., R. 11 E., Kateel River Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 13 N., R. 11 E., Kateel River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, approximately 3 miles to the corner of sections 4, 5, 8 and 9, T. 13 N., R. 11 E., Kateel River Meridian;

Thence southerly, between sections 7 and 8, approximately ½ mile to the ¼ section corner of sections 7 and 8, T. 10 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, approximately 3 miles to the corner of sections 4, 5, 8 and 9, T. 13 N., R. 11 E., Kateel River Meridian;

Thence westerly, between sections 5 and 8, 6 and 7, 1 and 12, 2 and 11, 3 and 10, approximately 5 miles to the corner of sections 3, 4, 9 and 10, T. 13 N., R. 10 E., Kateel River Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 13 and 14 N., R. 10 E., Kateel River Meridian;

Thence westerly, between Tps. 13 and 14 N., approximately 9 miles to the corner of Tps. 13 and 14 N., Rs. 8 and 9 E., Kateel River Meridian;

Thence southerly, between Rs. 8 and 9 E., approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 13 N., Rs. 8 and 9 E., Kateel River Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, 7 and 18, E., approximately 24 miles to the corner of sections 7, 12, 13 and 18, T. 13 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence northerly, between Rs. 4 and 5 E., approximately 20 miles to the closing corner of T. 16 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence easterly, along the Fourth Standard Parallel North, approximately 1,700 feet to the standard corner of T. 17 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence northerly, between Rs. 4 and 5 E., approximately 12 miles to the corner of Tps. 18 and 19 N., Rs. 4 and 5 E., Kateel River Meridian;

Thence westerly, between Tps. 18 and 19 N., approximately 5 miles to the corner of sections 3, 4, 33 and 34, Tps. 18 and 19 N., R. 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of S. 60° W., approximately 5,800 feet to the summit of a ridge located in the westerly portion of section 4, T. 18 N., R. 3 E., Kateel River Meridian; approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 45° W., approximately 1,800 feet to the summit of a mountain located in section 5, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,215 feet;

Thence on an approximate forward bearing of S. 50° W., approximately 3/4 mile to the corner of sections 5, 6, 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence southerly, between sections 7 and 8, approximately ½ mile to the ¼ section corner of sections 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 7, approximately ½ mile to the center ¼ section corner of section 7, T. 18 N., R. 3 E., Kateel River Meridian;

Thence southerly, on the north and south centerlines of sections 7 and 18, approximately 1¼ miles to the center south 1/16 section corner of section 18, T. 18 N., R. 3 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of the southwest ¼ of section 18, approximately ½ mile to S 1/16 section corner of sections 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence northerly, between Rs. 2 and 3 E., approximately 3/4 mile to the corner of sections 7, 12, 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 40° E., approximately 1 mile to the summit of a ridge located in the northeasterly portion of section 12, T. 18 N., R. 2 E., Kateel River Meridian, approximate elevation 1,550 feet;

Thence northwesterly and westerly, along the crest of the Waring Mountains, approximately 1¾ miles to the summit of a mountain located in sections 10 and 11, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 1,125 feet;

Thence on an approximate forward bearing of N. 80° W., approximately 6,100 feet to the summit of a mountain located in the easterly portion of section 9, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 950 feet;

Thence northwesterly, westerly and southerly, along the crest of the Waring Mountains, approximately 4½ miles to the summit of a mountain located in the northerly portion of section 18, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 900 feet;

Thence on an approximate forward bearing of S. 30° W., approximately 8,400 feet to the summit of a mountain located in section 24, T. 18 N., R. 2 W., Kateel River Meridian, approximate elevation 1,050 feet;

Thence westerly, northerly, and southwesterly, along the crest of the Waring Mountains, approximately 12½ miles to the summit of a mountain located in the northerly portion of section 27, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 800 feet;

VOL 48 ISS 38 FEB 24 1983 UMI

Thence on an approximate forward bearing of N. 85° W., approximately 7,100 feet to the summit of a mountain located in the northwesterly portion of section 28, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 975 feet;

Thence southwesterly, northwesterly and westerly, along the crest of the Waring Mountains between the drainages of the Kobuk River and Selawik River, approximately 24 miles to a point between sections 13 and 18, T. 18 N., Rs. 5 and 6 W., Kateel River Meridian, approximate elevation 900 feet;

Thence northerly, between Rs. 5 and 6 W., approximately 4 miles to the ¼ section corner of sections 25 and 30, T. 19 N., Rs. 5 and 6 W., Kateel River Meridian;

Thence due West, approximately 300 feet to a point at the line of mean high water on the right bank of the Kobuk River located in the easterly portion of section 25, T. 19 N., R. 6 W., Kateel River Meridian;

Thence southwesterly and westerly, along the right bank of the Kobuk River and the Melvin Channel, approximately 60 miles to its junction with the Ogrivey River and the east and west centerline of section 28, T. 17 N., R. 13 W., Kateel River Meridian;

Thence northerly, on the east bank of the Ogrivey River, approximately 3½ miles to a point between section 6 and 7, T. 17, N., R. 13 W., Kateel River Meridian;

Thence easterly, between section 6 and 7, 5 and 8, approximately 1 1/3 miles to the corner of sections 4, 5, 8 and 9, T. 17, N., R. 13 W., Kateel River Meridian;

Thence northerly, between sections 4 and 5, approximately ½ mile to the ¼ section corner of sections 4 and 5, T. 17 N., R. 13 W., Kateel River Meridian;

Thence easterly, along the east and west centerline of section 4, approximately 1 mile to the ¼ section corner of sections 3 and 4, T. 17 N., R. 13 W., Kateel River Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, approximately 1 mile to the ¼ section corner of sections 33 and 34, T. 18 N., R. 13 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 34, approximately 1 mile to the ¼ section corner of sections 34 and 35, T. 18 N., R. 13 W., Kateel River Meridian;

Thence northerly, between sections 34 and 35, 26 and 27, approximately 1½ miles to the corner of sections 22, 23, 26 and 27, T. 18 N., R. 13 W., Kateel River Meridian;

Thence westerly, between sections 22 and 27, approximately 2,100 feet to the meander corner of sections 22 and 27, at the line of mean high tide of Hotham Inlet, T. 18 N., R. 13 W., Kateel River Meridian;

Thence westerly, southwesterly, southeasterly, northerly, easterly and southerly, following the line of mean high tide of Hotham Inlet and Selawik Lake, closing the mouths of Potoniek Lake and the mouths of all rivers, channels, bays and inlets, to the meander corner of sections 1 and 6, on the south shore of Selawik Lake at the line of mean high tide, T. 11 N., Rs. 7 and 8 W., Kateel River Meridian;

Thence southerly, between Rs. 7 and 8 W., approximately 11½ miles to the corner of Tps. 9 and 10 N., Rs. 7 and 8 W., Kateel River Meridian;

Thence easterly, between Tps. 9 and 10 N., approximately 18 miles to the corner of Tps. 9 and 10 N., Rs. 4 and 5 W., Kateel River Meridian;

Thence southerly, between Rs. 4 and 5 W., approximately 6 miles to the standard corner of T. 9 N., Rs. 4 and 5 W., Kateel River Meridian;

Thence easterly, along the Second Standard Parallel North, approximately 6¾ miles to the closing corner of T. 8 N., Rs. 3 and 4 W., Kateel River Meridian;

Thence southerly, between Rs. 3 and 4 W., approximately 10 miles to the corner of sections 19, 24, 25 and 30 T. 7 N., Rs. 3 and 4 W., Kateel River Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, approximately 18 miles to the corner of sections 19, 24, 25 and 30, T. 7 N., Rs. 1 E. and 1 W., Kateel River Meridian, the place of beginning.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE SELAWIK NATIONAL WILDLIFE REFUGE

Section 702 (12):

"Selawik Wilderness of approximately two hundred and forty thousand acres as generally depicted on a map entitled 'Selawik Wildlife Refuge', dated July 1980."

The Selawik Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Thence on an approximate forward bearing of N. 40° E., approximately 1 mile to the summit of a ridge located in the northeasterly portion of section 12, T. 18 N., R. 2 E., Kateel River Meridian, approximate elevation 1,550 feet;

The Selawik Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the corner of sections 13, 14, 23 and 24, T. 17 N., R. 3 E., Kateel River Meridian;

Thence northerly, between sections 13 and 14, 11 and 12, 1 and 2, approximately 2½ miles to a point on the right bank of the Kugarak River between sections 1 and 2, T. 17 N., R. 3 E., Kateel River Meridian;

Thence northwesterly, along the right bank of the Kugarak River located in the southerly portion of section 4, T. 18 N., R. 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 28° W., approximately ½ mile to the summit of a ridge located in the westerly portion of section 4, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,050 feet;

Thence on an approximate forward bearing of N. 45° W., approximately 1,800 feet to the summit of a mountain located in section 5, T. 18 N., R. 3 E., Kateel River Meridian, approximate elevation 1,215 feet;

Thence on an approximate forward bearing of S. 50° W., approximately 3/4 mile to the corner of sections 5, 6, 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence southerly, between sections 7 and 8, approximately ½ mile to the ¼ section corner of sections 7 and 8, T. 18 N., R. 3 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of section 7, approximately ½ mile to the center ¼ section corner of section 7, T. 18 N., R. 3 E., Kateel River Meridian;

Thence southerly, on the north and south centerlines of sections 7 and 18, approximately 1½ miles to the center south 1/16 section corner of section 18, T. 18 N., R. 3 E., Kateel River Meridian;

Thence westerly, on the east and west centerline of the southwest ¼ of section 18, approximately ½ mile to S 1/16 section corner of sections 13 and 18, T. 18 N., Rs. 2 and 3 E., Kateel River Meridian;

Thence northerly, between Rs. 2 and 3 E., approximately 3/4 mile to the corner of sections 7, 12, 13 and 18, T. 18 N. Rs. 2 and 3 E., Kateel River Meridian;

Thence on an approximate forward bearing of N. 40° E., approximately 1 mile to the summit of a ridge located in the northeasterly portion of section 12, T. 18 N., R. 2 E., Kateel River Meridian, approximate elevation 1,550 feet;

Thence northwesterly and westerly, along the crest of the Waring Mountains, approximately 18 miles to the summit of a mountain located in sections 10 and 11, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 1,125 feet;

Thence on an approximate forward bearing of N. 80° W., approximately 6,100 feet to the summit of a mountain located in the easterly portion of section 9, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 950 feet;

Thence northwesterly, westerly and southerly, along the crest of the Waring Mountains, approximately 4½ miles to the summit of a mountain located in the northerly portion of section 18, T. 18 N., R. 1 W., Kateel River Meridian, approximate elevation 900 feet;

Thence on an approximate forward bearing of S. 30° W., approximately 8,800 feet to the summit of a mountain located in section 24, T. 18 N., R. 2 W., Kateel River Meridian, approximate elevation 1,050 feet;

Thence westerly, northerly, and southwesterly, along the crest of the Waring Mountains, approximately 12½ miles to the summit of a mountain located in the northerly portion of section 27, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 800 feet;

Thence on an approximate forward bearing of N. 85° W., approximately 7,100 feet to the summit of a mountain located in the northwesterly portion of section 28, T. 18 N., R. 3 W., Kateel River Meridian, approximate elevation 975 feet;

Thence southwesterly, northwesterly and westerly, along the crest of the Waring Mountains between the drainages of the Kobuk River and Selawik River approximately 24 miles to a point between sections 13 and 18, T. 18 N., Rs. 5 and 6 W., Kateel River Meridian, approximate elevation 900 feet;

Thence southerly, between Rs. 5 and 6 W., approximately 9 3/4 miles to the standard corner of T. 17 N., Rs. 5 and 6 W., Kateel River Meridian;

Thence easterly, along the Fourth Standard Parallel North, approximately 24 miles to the standard corner of T. 17 N., Rs. 1 and 2 W., Kateel River Meridian;

Thence northerly, between Rs. 1 and 2 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 17 N., Rs. 1 and 2 W., Kateel River Meridian;

Thence easterly, between sections 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, 13 and 24, 18 and 19, 17 and 20, 16 and 21, 15 and 22, 14 and 23, approximately 23 miles to the corner of sections 13, 14, 23 and 24, T. 17 N., R. 3 E., Kateel River Meridian, the place of beginning.

UNITS OF THE NATIONAL WILD AND SCENIC RIVERS SYSTEM WITHIN THE SELAWIK NATIONAL WILDLIFE REFUGE:

Section 604:

"Selawik, Alaska--That portion from a fork of the headwaters in township 12 north, range 10 east, Kateel River meridian to the confluence of the Kugarak River; within the Selawik National Wildlife Refuge to be administered by the Secretary of the Interior."

NOTE: The boundary of the Selawik Wild River corridor will be determined during the comprehensive conservation planning process for the Selawik National Wildlife Refuge and will be published upon completion of that plan (due by December 1985).

The following USGS quadrangle maps were used to prepare the legal description for the Selawik National Wildlife Refuge:

TETLIN NATIONAL WILDLIFE REFUGE

Thence on an approximate forward bearing of S. 38° E., approximately 5 1/2 miles to the summit of a mountain in the northwesterly portion of section 30, T. 8 N., R. 22 E., Copper River Meridian, approximate elevation 3,575 feet;

TETLIN NATIONAL WILDLIFE REFUGE

Section 302 (8):

"The Tetlin National Wildlife Refuge shall consist of the approximately seven hundred thousand acres of public land as generally depicted on a map entitled 'Tetlin National Wildlife Refuge', dated July 1980. The northern boundary of the refuge shall be a line parallel to, and three hundred feet south, of the centerline of the Alaska Highway."

The Tetlin National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the closing corner of sections 5 and 32, Tps. 7 and 8 N., R. 24 E., Copper River Meridian, on the International Boundary between the United States of America and Canada;

Thence northerly, along the International Boundary, appproximately 14 1/4 miles to a point on the southerly side of the Alaska Highway, 300 feet from and parallel to the centerline located on the east boundary of section 25, T. 10 N., R. 23 E., Copper River Meridian;

Thence northwesterly, 300 feet from and parallel to the Alaska Highway centerline, approximately 72 miles to a point on the Tetlin Indian Reservation boundary as surveyed and platted in U.S. Survey No. 2547, Alaska, dated October 25, 1979 located in the southeasterly portion of section 30, T. 17 N., R. 17 E., Copper River Meridian;

Thence southwesterly, southeasterly, southerly and southwesterly, along the Tetlin Indian Reservation boundary to a junction of ridges in the easterly portion of section 36, T. 10 N., R. 13 E., Copper River Meridian;

Thence southeasterly, on the crest of a ridge between drainages of the Chesling River and Platinum Creek, approximately 11 1/2 miles to a point between sections 31 and 36, T. 9 N., Rs. 14 and 15 E., Copper River Meridian;

Thence southerly, between Rs. 14 and 15 E., approximately 1/2 mile to the standard corner of T. 9 N., Rs. 14 and 15 E., Copper River Meridian;

Thence easterly, on the Second Standard Parallel North, approximately 37 1/2 miles to the meander corner of Tps. 8 and 9 N., R. 21 E., Copper River Meridian, on the right bank of the Chisana River;

Thence on an approximate forward bearing of S. 38° E., approximately 5 1/2 miles to the summit of a mountain in the northwesterly portion of section 30, T. 8 N., R. 22 E., Copper River Meridian, approximate elevation 3,575 feet;

Thence southeasterly, along the crest of a ridge, approximately 10 miles to a point between sections 4 and 33, Tps. 7 and 8 N., R. 23 E., Copper River Meridian;

Thence easterly, between Tps. 7 and 8 N., approximately 4 3/4 miles to the International Boundary between the United States of America and Canada at the closing corner of sections 5 and 32, T. 7 and 8 N., R. 24 E., Copper River Meridian, the point of beginning.

NOTE: Description of boundary is defined by the location of the centerline of the Alaska Highway on December 2, 1980.

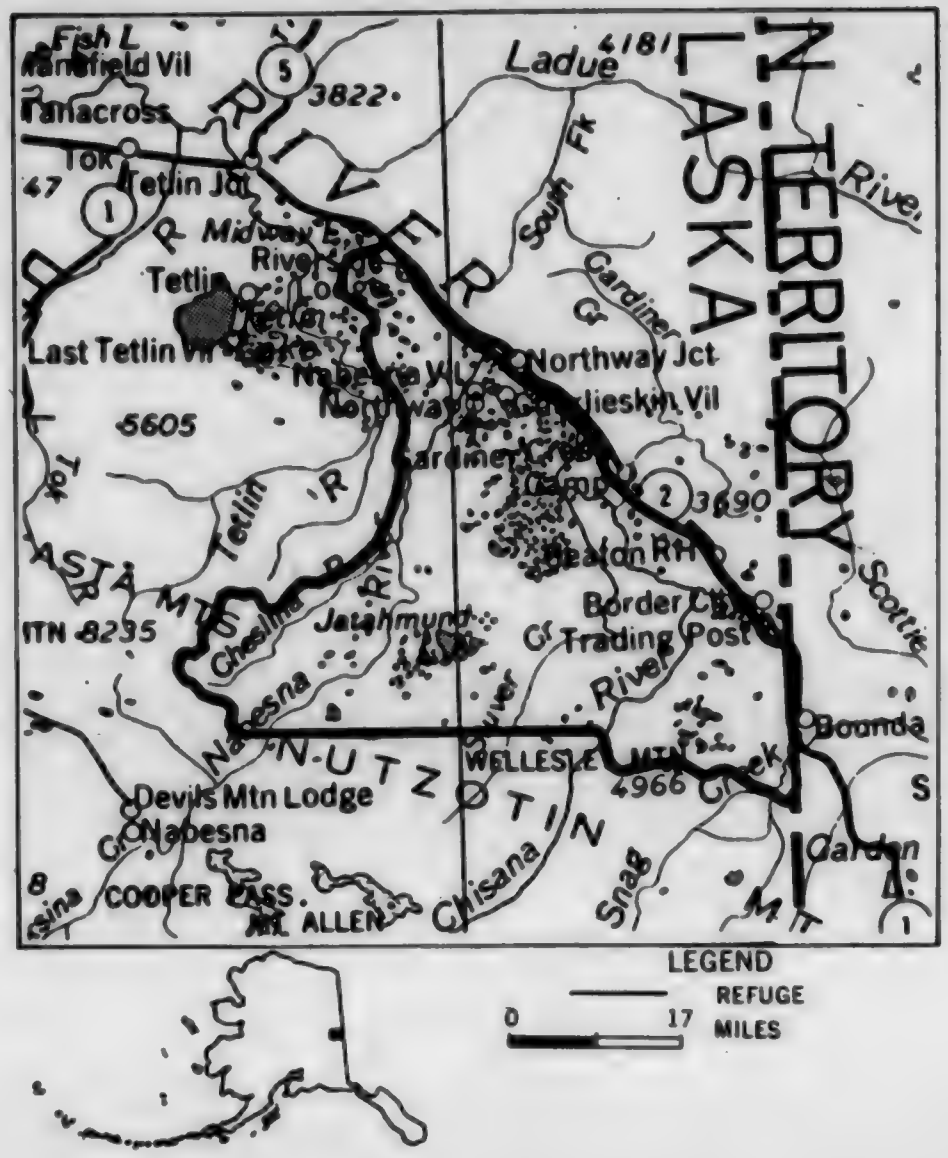
TETLIN NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



TOGIAK NATIONAL WILDLIFE REFUGE

Section 303 (6):

> "The Togiak National Wildlife Refuge shall consist of the existing Cape Newenham National Wildlife Refuge, including lands, waters, and interests therein, which shall be redesignated as a unit of the Togiak National Wildlife Refuge, and an addition of approximately three million eight hundred and forty thousand acres of public lands, as generally depicted on the map entitled 'Togiak National Wildlife Refuge', dated April 1980.

The Togiak National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner of sections 16 and 21, T. 4 S., R. 74 W., Seward Meridian, at the line of mean high tide of Kuskokwim Bay;

Thence southeasterly, southwesterly, westerly and southerly, along the line of mean high tide of Kuskokwim Bay, closing the mouths of inlets and rivers, approximately 35 miles to the meander corner of section 35, T. 8 S., R. 74 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel South, approximately 7 1/4 miles to the standard corner of T. 8 S., Rs. 72 and 73 W., Seward Meridian;

Thence northerly, between Rs. 72 and 73 W., approximately 6 miles to the corner of Tps. 7 and 8 S., Rs. 72 and 73 W., Seward Meridian;

Thence easterly, between Tps. 7 and 8 S., approximately 12 miles to the corner of Tps. 7 and 8 S., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 6 miles to the standard corner of T. 8 S., Rs. 70 and 71 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel South, approximately 4 1/4 miles to the closing corner of T. 9 S., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 24 miles to the standard corner of T. 12 S., Rs. 70 and 71 W., Seward Meridian;

Thence westerly, on the Third Standard Parallel South, approximately 7 3/4 miles to the closing corner of T. 13 S., Rs. 72 and 73 W., Seward Meridian;

Thence southerly, between Rs. 72 and 73 W., approximately 3 miles to the

Thence easterly, along the theoretical position for the south boundary of T. 19 S., Rs. 75 and 76 W., approximately 12 miles to the theoretical position for the southeast corner of T. 19 S., R. 75 W., Seward Meridian;

Thence southerly, along the theoretical position for the east boundary of T.

Thence westerly, on the Third Standard Parallel South, approximately 7 3/4 miles to the closing corner of T. 13 S., Rs. 72 and 73 W., Seward Meridian;

Thence southerly, between Rs. 72 and 73 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 13 S., Rs. 72 and 73 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 27, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, to the corner of sections 15, 16, 21, 22, T. 13 S., R. 74 W., Seward Meridian;

Thence southerly, between sections 21 and 22 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 9 miles to the corner of sections 3, 4, 33 and 34, Tps. 14 and 15 S., R. 74 W., Seward Meridian;

Thence westerly, between Tps. 14 and 15 S., approximately 3 miles to the corner of Tps. 14 and 15 S. Rs. 74 and 75 W., Seward Meridian;

Thence southerly, between Rs. 74 and 75 W., approximately 3 miles to the corner of sections 13 and 18, 19 and 24, T. 15 S., Rs. 74 and 75 W., Seward Meridian;

Thence westerly between sections 13 and 24, 14 and 23, 15 and 22, and theoretical sections 16 and 21, 17 and 20, 18 and 19, to theoretical position for the corner of sections 18 and 19 on the west boundary of T. 15 S., R. 75 W., Seward Meridian;

Thence southerly, along the west boundary of Tps. 15 and 16 S., R. 75 W., approximately 9 miles to the theoretical position for the southwest corner of T. 16 S., R. 75 W., Seward Meridian;

Thence westerly, along the theoretical position for the Fourth Standard Parallel South, approximately 13 1/2 miles to the theoretical position for the northwest closing township corner of T. 17 S., R. 78 W., Seward Meridian;

Thence southerly, along the theoretical position for the west boundary of Tps. 17 and 18 S., R. 78 W., approximately 12 miles, to the theoretical position of the southwest corner of T. 18 S., R. 78 W., Seward Meridian;

Thence easterly, along the theoretical position for the south boundary of T. 18 S. Rs. 77 and 78 W., approximately 12 miles to the theoretical position of the southwest corner of T. 18 S., R. 76 W., Seward Meridian;

Thence southerly, along the theoretical position for the west boundary of T. 19 S., R. 76 W., approximately 6 miles to the theoretical position for the southwest corner of T. 19 S., R. 76 W., Seward Meridian;

Thence easterly, along the theoretical position for the south boundary of T. 19 S., Rs. 75 and 76 W., approximately 12 miles to the theoretical position for the southeast corner of T. 19 S., R. 75 W., Seward Meridian;

Thence northerly, along the theoretical position for the east boundary of T. 19 S., R. 75 W., approximately 6 miles to the theoretical position for the southwest corner T. 18 S., R. 74 W., Seward Meridian;

Thence easterly, along the theoretical position for the south boundary of T. 18 S., R. 74 W., approximately 3 miles to the theoretical position of the corner of sections 33 and 34, T. 18 S., R. 74 W., Seward Meridian;

Thence northerly, between theoretical sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, approximately 5 miles to the meander corner of sections 9 and 10, T. 18 S., R. 74 W., Seward Meridian;

Thence northeasterly, southwesterly, northerly and northeasterly, along the line of mean high tide of Hagemeister Strait, approximately 23 miles to the meander corner of sections 13 and 18, T. 16 S., Rs. 71 and 72 W., Seward Meridian;

Thence on an approximate forward bearing of S. 83° E., approximately 1,800 feet to the meander corner of sections 18 and 19, T. 16 S., R. 71 W., Seward Meridian;

Thence northeasterly, southeasterly and northeasterly, along the line of mean high tide of Hagemeister Strait, Togiak Bay and Bristol Bay, closing the mouths of all inlets and rivers, approximately 41 miles to the most southerly point of mainland in the northwesterly portion of section 19, T. 16 S., R. 63 W., Seward Meridian;

Thence on an approximate forward bearing of N. 57° E., approximately 6,600 feet to the most southerly point of mainland in the northwesterly portion of section 17, T. 16 S., R. 63 W., Seward Meridian;

Thence northeasterly, along the line of mean high tide of Bristol Bay, approximately 2 miles to the meander corner of sections 4 and 9, T. 16 S., R. 63 W., Seward Meridian;

Thence on an approximate forward bearing of N. 27° E., approximately 8,600 feet to the most southerly point of mainland in section 34, T. 15 S., R. 63 W., Seward Meridian;

Thence on an approximate forward bearing of N. 80° E., approximately 21,800 feet to the meander corner of sections 29 and 32, T. 15 S., R. 62 W., Seward Meridian;

Thence easterly, northerly and southeasterly, along the line of mean high tide of Bristol Bay, approximately 4 miles to the most southerly point of the mainland on the westerly side of Tvativak Bay in the westerly portion of section 36, T. 15 S., R. 62 W., Seward Meridian;

Thence on an approximate forward bearing of S. 62° E., approximately 2,200 feet to the most southerly point of the mainland on the easterly side of Tvativak Bay in the southeasterly portion of section 36, T. 15 S., R. 62 W., Seward Meridian;

Thence southeasterly, northeasterly, northwesterly and northerly, along the line of mean high tide of Bristol Bay and Nushagak Bay, closing the mouths of all inlets and rivers, approximately 58 1/2 miles to the most northerly point of Nichols Spit, near the center of section 25, T. 18 S., R. 58 W., Seward Meridian;

Thence due West, approximately 1 mile to a point at the line of mean high tide of Nushagak Bay, near the center of section 26, T. 18 S., R. 58 W., Seward Meridian;

Thence northerly, easterly, northeasterly and northerly, along the line of mean high tide of Nushagak Bay and Nushagak River, closing the mouths of Igushik and Snake Rivers, approximately 35 miles to the meander corner of sections 25 and 36, T. 13 S., R. 56 W., Seward Meridian, on the right bank of Nushagak River;

Thence westerly, between sections 25 and 36, approximately 900 feet to a point on the westerly right-of-way of a road, T. 13 S., R. 56 W., Seward Meridian;

Thence northerly and northwesterly, along the westerly right-of-way of a road, approximately 6 1/2 miles to a point on the south boundary of section 32, T. 12 S., R. 55 W., Seward Meridian;

Thence westerly, on the Third Standard Parallel South, approximately 19 1/4 miles to the standard corner of T. 12 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 24 miles to the closing corner of T. 9 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel South, approximately 3 1/2 miles to the standard corner of T. 8 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 24 miles to the closing corner of T. 5 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the First Standard Parallel South, approximately 3 1/2 miles to the standard corner of T. 4 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence southerly, between Rs. 61 and 62 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 62 and 63 W., Seward Meridian;

Thence southerly, between Rs. 62 and 63 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 62 and 63 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 65 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 29 and 30, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 3 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 30 and 31, approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 3 S., Rs. 67 and 68 W., Seward Meridian;

Thence southerly, between sections 31 and 36, approximately 1 mile to the corner of sections 31, 32, 35 and 36, T. 3 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 35 and 36, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 3 S., R. 68 W., Seward Meridian;

Thence southerly, between sections 35 and 36, approximately 1 mile to the corner of sections 35, 36, T. 3 S., and 1 and 2, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 11 and 12, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 13 and 14, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 23 and 24, approximately 1 mile to the corner of sections 23, 24, T. 4 S., and 25 and 36, T. 3 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 25 and 36, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 3 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 25 and 26, approximately 1 mile to the corner of sections 23, 24, 25 and 26, T. 3 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 23 and 26, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 3 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 22 and 27, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 3 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 68 and 69 W., Seward Meridian;

Thence northerly, between Rs. 68 and 69 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 68 and 69 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 70 and 71 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 71 and 72 W., Seward Meridian;

Thence southerly, between Rs. 71 and 72 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 71 and 72 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 74 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 74 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 74 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 74 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 74 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 74 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 75 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 75 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 75 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 75 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 75 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 75 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 75 and 76 W., Seward Meridian;

Thence northerly, between Rs. 75 and 76 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 75 and 76 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 77 and 78 W., Seward Meridian;

Thence southerly, between Rs. 77 and 78 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 77 and 78 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 78 and 79 W., Seward Meridian;

Thence southerly, between Rs. 78 and 79 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 78 and 79 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 81 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 81 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 81 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 81 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 81 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 81 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 82 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 82 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 82 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 82 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 82 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 82 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 82 and 83 W., Seward Meridian;

Thence northerly, between Rs. 82 and 83 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 82 and 83 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 84 and 85 W., Seward Meridian;

Thence southerly, between Rs. 84 and 85 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 84 and 85 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 85 and 86 W., Seward Meridian;

Thence southerly, between Rs. 85 and 86 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 85 and 86 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 88 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 88 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 88 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 88 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 88 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 88 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 89 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 89 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 89 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 89 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 89 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 89 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 89 and 90 W., Seward Meridian;

Thence northerly, between Rs. 89 and 90 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 89 and 90 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 91 and 92 W., Seward Meridian;

Thence southerly, between Rs. 91 and 92 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 91 and 92 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 92 and 93 W., Seward Meridian;

Thence southerly, between Rs. 92 and 93 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 92 and 93 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 95 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 95 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 95 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 95 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 95 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 95 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 96 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 96 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 96 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 96 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 96 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 96 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 96 and 97 W., Seward Meridian;

Thence northerly, between Rs. 96 and 97 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 96 and 97 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 98 and 99 W., Seward Meridian;

Thence southerly, between Rs. 98 and 99 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 98 and 99 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 99 and 100 W., Seward Meridian;

Thence southerly, between Rs. 99 and 100 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 99 and 100 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 102 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 102 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 102 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 102 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 102 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 102 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 103 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 103 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 103 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 103 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 103 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 103 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 103 and 104 W., Seward Meridian;

Thence northerly, between Rs. 103 and 104 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 103 and 104 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 105 and 106 W., Seward Meridian;

Thence southerly, between Rs. 105 and 106 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 105 and 106 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 106 and 107 W., Seward Meridian;

Thence southerly, between Rs. 106 and 107 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 106 and 107 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 109 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 109 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 109 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 109 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 109 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 109 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 110 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 110 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 110 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 110 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 110 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 110 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 110 and 111 W., Seward Meridian;

Thence northerly, between Rs. 110 and 111 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 110 and 111 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 112 and 113 W., Seward Meridian;

Thence southerly, between Rs. 112 and 113 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 112 and 113 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 113 and 114 W., Seward Meridian;

Thence southerly, between Rs. 113 and 114 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 113 and 114 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 116 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 116 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 116 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 116 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 116 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 116 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 117 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 117 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 117 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately 1 mile to the corner of sections 16, 17, 20 and 21, T. 3 S., R. 117 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 3 S., R. 117 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 3 S., R. 117 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 3 S., Rs. 117 and 118 W., Seward Meridian;

Thence northerly, between Rs. 117 and 118 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 117 and 118 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 119 and 120 W., Seward Meridian;

Thence southerly, between Rs. 119 and 120 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 119 and 120 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 120 and 121 W., Seward Meridian;

Thence southerly, between Rs. 120 and 121 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 120 and 121 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 123 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 123 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, approximately 5 miles to the corner of sections 10, 11, 14 and 15, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, 26 and 27, approximately 3 miles to the corner of sections 26, 27, 34 and 35, T. 3 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 27 and 34, 28 and 33, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 32 and 33, 4 and 5, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 5 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence southerly, between Rs. 67 and 68 W., approximately 3 miles to the standard corner of T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence westerly, along the First Standard Parallel South, approximately 3 miles to the standard corner of sections 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 28 and 29, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 4 S., R. 69 W., Seward Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 10 and 15, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 4 S., R. 69 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, approximately 3 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence southerly, between Rs. 69 and 70 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, approximately 5 miles to the corner of sections 7, 8, 17 and 18, T. 4 S., R. 70 W., Seward Meridian;

Thence northerly, between sections 7 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 70 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 13 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 72 and 73 W., Seward Meridian;

Thence southerly, between Rs. 72 and 73 W., approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 4 S., Rs. 72 and 73 W. Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, approximately 9 1/2 miles to the meander corner of sections 16 and 21, T. 4 S., R. 74 W., Seward Meridian, the place of beginning.

UNITS OF THE NATIONAL WILDERNESS PRESERVATION SYSTEM WITHIN THE TOGIAK NATIONAL WILDLIFE REFUGE:

Section 702 (10):

"Togiak Wilderness of approximately two million two hundred and seventy thousand acres as generally depicted on a map entitled 'Togiak National Wildlife Refuge', dated July 1980."

The Togiak Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

TOGIAK WILDERNESS AREA

Beginning at the corner of sections 5, 6, 7 and 8, T. 4 S., R. 70 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 7 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 71 and 72 W., Seward Meridian;

Thence southerly, between Rs. 71 and 72 W., approximately 5 miles to the standard corner of T. 4 S., Rs. 71 and 72 W., Seward Meridian;

Thence easterly, on the First Standard Parallel South, approximately 4 1/4 miles to the closing corner of T. 5 S., Rs. 71 and 72 W., Seward Meridian;

Thence southerly, between Rs. 71 and 72 W., approximately 12 miles to the corner of Tps. 6 and 7 S., Rs. 71 and 72 W., Seward Meridian;

Thence easterly, between Tps. 6 and 7 S., approximately 3 miles to the corner of sections 3, 4, 33 and 34, Tps. 6 and 7 S., R. 71 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 6 miles to the corner of sections 3, 4, 33 and 34, Tps. 7 and 8 S., R. 71 W., Seward Meridian;

Thence easterly, between Tps. 7 and 8 S., approximately 3 miles to the corner of Tps. 7 and 8 S., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 6 miles to the standard corner of T. 8 S., Rs. 70 and 71 W., Seward Meridian;

Thence easterly, on the Second Standard Parallel South, approximately 4 1/4 miles to the closing corner of T. 9 S., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 12 miles to the corner of Tps. 10 and 11 S., Rs. 70 and 71 W., Seward Meridian;

Thence easterly, between Tps. 10 and 11 S., approximately 72 miles to the corner of Tps. 10 and 11 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 12 miles to the closing corner of T. 9 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the Second Standard Parallel South, approximately 3 1/2 miles to the standard corner of T. 8 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 24 miles to the closing corner of T. 5 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the First Standard Parallel South, approximately 3 1/2 miles to the standard corner of T. 4 S., Rs. 58 and 59 W., Seward Meridian;

Thence northerly, between Rs. 58 and 59 W., approximately 24 miles to the closing corner of T. 1 S., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 18 miles to the closing corner of T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence southerly, between Rs. 61 and 62 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 62 and 63 W., Seward Meridian;

Thence southerly, between Rs. 62 and 63 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 62 and 63 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 65 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, approximately 5 miles to the corner of sections 10, 11, 14 and 15, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, 26 and 27, approximately 3 miles to the corner of sections 26, 27, 34 and 35, T. 3 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 27 and 34, 28 and 33, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 32 and 33, 4 and 5, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 5 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence southerly, between Rs. 67 and 68 W., approximately 3 miles to the standard corner of T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence westerly, along the First Standard Parallel South, approximately 3 miles to the standard corner of sections 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 28 and 29, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 4 S., R. 69 W., Seward Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 10 and 15, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 4 S., R. 69 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, approximately 3 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence southerly, between Rs. 69 and 70 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, approximately 5 miles to the corner of sections 7, 8, 17 and 18, T. 4 S., R. 70 W., Seward Meridian;

Thence northerly, between sections 7 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 70 W., Seward Meridian, the place of beginning.

UNITS OF THE NATIONAL WILD AND SCENIC RIVERS SYSTEM WITHIN THE TOGIAK NATIONAL WILDLIFE REFUGE:

Section 604:

Kanektok, Alaska--The corridor withdrawn during the course of the study and consideration by Congress, consists of those public lands which constitute the bed or bank, or within an area extending two miles from the bank of the river channel on both sides of the Kanektok River within the Togiak National Wildlife Refuge from Kagati Lake in Tps. 3 and 4 S., R. 63 W., to its mouth, in Tps. 5 S., R. 75 W., Seward Meridian.

The following USGS quadrangle maps were used to prepare the legal description for the Togiak National Wildlife Refuge:

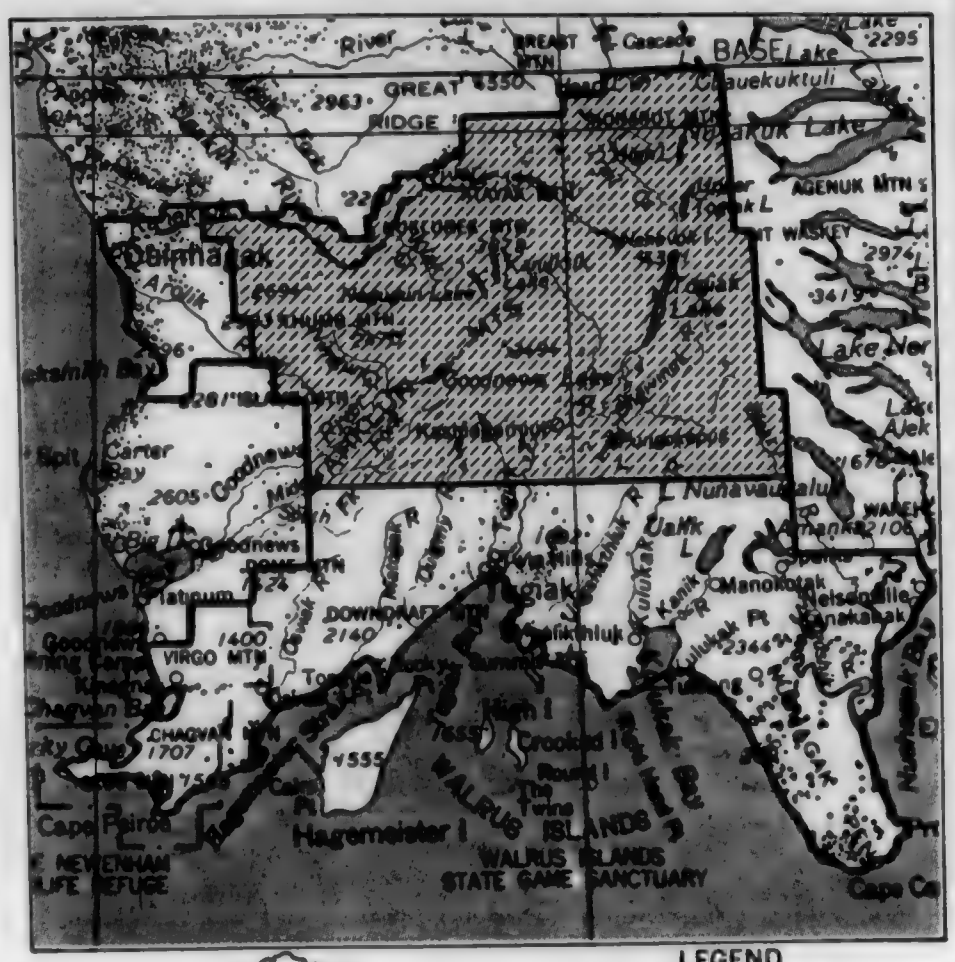
TOGIAK NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487



YUKON DELTA NATIONAL WILDLIFE REFUGE

Section 303 (7):

Thence northwesterly, along the line of mean high tide of Etolin Strait, approximately 20 miles to the meander corner of sections 7 and 8, T. 4 N., R. 91 W., Seward Meridian;

YUKON DELTA NATIONAL WILDLIFE REFUGE

Section 303 (7):

> "The Yukon Delta National Wildlife Refuge shall consist of the existing Clarence Rhode National Wildlife Range, Hazen Bay National Wildlife Refuge and Nunivak National Wildlife Refuge, including lands, waters, interests, and whatever submerged lands, if any, were retained in Federal ownership at the time of statehood, which shall be redesignated as units of the Yukon Delta National Wildlife Refuge and the addition of approximately thirteen million four hundred thousand acres of public lands, as generally depicted on the map entitled 'Yukon Delta National Wildlife Refuge', dated April 1980."

The Yukon Delta National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner of sections 16 and 21, T. 4 S., R. 74 W., Seward Meridian;

Thence northwesterly, along the line of mean high tide of Kuskokowim Bay, closing the mouths of all rivers and creeks, approximately 15 miles to the meander corner of sections 16 and 21,, T. 2 S., R. 75 W., Seward Meridian;

Thence westerly, approximately 11 miles to the meander corner of sections 15 and 22, T. 2 S., R. 77 W., Seward Meridian;

Thence southwesterly, westerly and northerly, along the line of mean high tide of Kuskokwim Bay, closing the mouth of Ishkowik River, Kugukilk and Kinak Rivers, approximately 76 miles to the most southerly tip of section 19, on the right bank of the Kinak River, T. 2 S., R. 86 W., Seward Meridian;

Thence northwesterly, along the line of mean high tide, closing the mouths of all rivers and streams, approximately 31 miles to the meander corner of sections 1 and 12, at the line of mean high tide of Etolin Strait, T. 2 N., R. 89 W., Seward Meridian;

Thence northwesterly, closing the mouth of Kolavinerak River, approximately 1 1/2 miles to the meander corner of sections 2 and 3, at the line of mean high tide of Etolin Strait, T. 2 N., R. 89 W., Seward Meridian;

Thence northwesterly, along the line of mean high tide of Etolin Strait, approximately 20 miles to the meander corner of sections 7 and 8, T. 4 N., R. 91 W., Seward Meridian;

Thence northwesterly, closing the mouth of Kangirlvar Bay, approximately 5 miles to the meander corner of sections 25 and 26, at the line of mean high tide of Etolin Strait, T. 5 N., R. 91 W., Seward Meridian;

Thence southwesterly and northwesterly, along the line of mean high tide of Etolin Strait, approximately 4 miles to the meander corner of sections 19 and 20, T. 5 N., R. 91 W., Seward Meridian;

Thence by rhumb lines connecting the following 23 geographic coordinates:

60° 18' N., 165° 02' W.;

60° 10' N., 164° 57' W.;

60° [illegible]' N., 164° 57' W.;

59° 55' N., 165° 05' W.;

59° 46' N., 165° 25' W.;

59° 40' N., 165° 45' W.;

59° 38' N., 166° 00' W.;

59° 38' N., 166° 25' W.;

59° 40' N., 166° 40' W.;

59° 44' N., 167° 00' W.;

59° 48' N., 167° 15' W.;

59° 53' N., 167° 30' W.;

60° 03' N., 167° 45' W.;

60° 08' N., 167° 50' W.;

60° 12' N., 167° 51' W.;

60° 15' N., 167° 50' W.;

60° 20' N., 167° 45' W.;

60° 25' N., 167° 30' W.;

60° 31' N., 167° 00' W.;

60° 36' N., 166° 35' W.;

60° 38' N., 166° 15' W.;

60° 39' N., 166° 00' W.;

60° 37' N., 165° 40' W.;

Thence, on an approximate rhumb line bearing of S. 70° E., approximately 10 miles to the meander corner of Tps. 5 and 6 N., R. 92 W., Seward Meridian;

Thence northeasterly and northwesterly, along the line of mean high tide of Hazen Bay, approximately 27 miles to the most northwesterly tip of Nelson Island, in section 11, T. 8 N., R. 90 W., Seward Meridian;

Thence on an approximate forward bearing of N. 22° W., approximately 4 miles to the most southerly tip of Nunivachak Island, in section 21, T. 9 N., R. 89 W., Seward Meridian;

Thence northwesterly and northeasterly, along the line of mean high tide of Hazen Bay on the seaward side of Nunivachak Island, approximately 1/2 mile to the most northerly tip of Nunivachak Island, in section 21, T. 9 N., R. 89 W., Seward Meridian;

Thence on an approximate forward bearing of N. 21° E., approximately 3 1/2 miles to a point on the Naskonat Peninula at the line of mean high tide, at the meander corner of sections 2 and 3, T. 9 N., R. 89 W., Seward Meridian;

Thence northwesterly along the line of mean high tide, on the shore of Bering Sea, approximately 8 miles to the point of a headland near latitude 60° 59' N., longitude 165° 12' W., at the south side of Hazen Bay, in section 2, T. 10 N., R. 90 W., Seward Meridian;

Thence on an approximate forward bearing of N. 38° W., approximately 8 miles across the mouth of Hazen Bay to a point of a headland at the west side of Hazen Bay in section 1, T. 11 N., R. 91 W., Seward Meridian;

Thence northwesterly, along the line of mean high tide of Bering Sea, approximately 20 miles to the meander corner of sections 28 and 29, T. 14 N., R. 91 W., Seward Meridian;

Thence northerly, approximately 4,200 feet to a point on the line of mean high tide, at the meander corner of sections 28 and 29, T. 14 N., R. 91 W., Seward Meridian;

Thence northwesterly, closing the mouths of all inlets, rivers and straits, along the line of mean high tide of Bering Sea, approximately 18 miles to the meander corner of sections 2 and 3, T, T. 15 N., R. 93 W., Seward Meridian;

Thence northwesterly, closing the mouth of Hooper Bay, on the seaward side of all islands, approximately 7 3/4 miles to the meander corner of sections 10 and 11, T. 16 N., R. 94 W., Seward Meridian;

Thence northwesterly and northerly, closing the mouth of all inlets and rivers along the line of mean high tide of the Bering Sea, approximately 16 miles to the meander corner of sections 22 and 27, T. 19 N., R. 93 W., Seward Meridian.

Thence on an approximate forward bearing of N. 18° E., approximately 2 miles to the meander corner of sections 10 and 15, T. 19 N., R. 93 W., Seward Meridian;

Thence northerly, along the line of mean high tide of the Bering Sea, approximately 3 miles to the most northerly point of Aniktun Island, located in section 34, T. 20 N., R. 93 W., Seward Meridian;

Thence on an approximate forward bearing of N. 29° E., approximately 7,300 feet to the meander corner of sections 23 and 26, T. 20 N., R. 93 W., Seward Meridian;

Thence northerly, southeasterly, northeasterly and easterly, along the line of mean high tide of the Bering Sea, closing the mouths of all inlets and streams, approximately 10 miles to the meander corner of sections 16 and 17, T. 20 N., R. 91 W., Seward Meridian;

Thence on an approximate forward bearing of N. 84° E., approximately 2 miles to the meander corner of sections 10 and 15, T. 20 N., R. 91 W., Seward Meridian;

Thence northerly, easterly, northwesterly and northeasterly, along the line of mean high tide of the Bering Sea, closing the mouth of all rivers, inlets and bays, approximately 162 miles to the meander corner of sections 8 and 9, T. 28 N., R. 85 W., Seward Meridian;

Thence northeasterly, closing the mouths of all bays, inlets, rivers and all passes and channels of the Yukon River, on the seaward side of all islands, approximately 17 miles to the meander corner of sections 28 and 33, T. 31 N., R. 83 W., Seward Meridian;

Thence northerly, along the line of mean high tide of the Bering Sea, closing the mouth of all bays, inlets and rivers, approximately 1 mile to the meander corner of sections 21 and 28, T. 31 N., R. 83 W., Seward

Thence easterly, between sections 30 and 31, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 23 S., R. 18 W., Kateel River Meridian;

Thence northerly, along the line of mean high tide of the Bering Sea, closing the mouth of all bays, inlets and rivers, approximately 1 mile to the meander corner of sections 21 and 28, T. 31 N., R. 83 W., Seward Meridian;

Thence on an approximate forward bearing of N. 22° W., approximately 6,600 feet to the meander corner of sections 16 and 17, T. 31 N., R. 83 W., Seward Meridian;

Thence northwesterly and easterly, along the line of mean high tide of the Bering Sea, approximately 1 mile to the meander corner of sections 16 and 17, T. 31 N., R. 83 W., Seward Meridian;

Thence on an approximate forward bearing of North, approximately 3,500 feet to the meander corner of sections 8 and 9, T. 31 N., R. 83 W., Seward Meridian;

Thence westerly, northerly and southeasterly, along the line of mean high tide of the Bering Sea, approximately 1 mile to the meander corner of sections 4 and 5, T. 31 N., R. 83 W., Seward Meridian;

Thence on an approximate forward bearing of N. 31° E., approximately 4,700 feet to the meander corner of sections 4 and 33, Tps. 31 and 32 N., R. 83 W., Seward Meridian;

Thence northerly, closing the mouth of all bays, inlets and rivers, following the line of mean high tide approximately 17 miles to the corner of sections 30 and 31, T. 28 S., Rs. 31 and 32 W., Kateel River Meridian;

Thence northerly, closing the mouth of Kawanak and Kwikpak Passes, on the seaward side of all islands, approximately 7 miles to a point at the most westerly tip of land in section 28, T. 27 S., R. 31 W., Kateel River Meridian;

Thence northeasterly, southeasterly, easterly and northeasterly, along the line of mean high tide of Norton Sound, closing the mouths of all bays, mouths, inlets, sloughs, passes and rivers, and on the seaward side of all islands, approximately 102 miles to the meander corner of sections 14 and 23, T. 23 S., R. 19 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, approximately 1 1/4 miles to the corner of sections 13, 18, 19 and 24, T. 23 S., Rs. 18 and 19 W., Kateel River Meridian;

Thence southerly, between Rs. 18 and 19 W., approximately 2 miles to the corner of sections 25, 30, 31 and 36, T. 23 S., Rs. 18 and 19 W., Kateel River Meridian;

Thence easterly, between sections 30 and 31, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 23 S., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 31 and 32, 5 and 6, approximately 2 miles to the corner of sections 5, 6, 7 and 8, T. 24 S., R. 18 W. Kateel River Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, approximately 2 miles to the corner of sections 3, 4, 9 and 10, T. 24 S., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 9 and 10, 15 and 16, 21 and 22, approximately 3 miles to the corner of sections 21, 22, 27 and 28, T. 24 S., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 22 and 27, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 24 S., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 26 and 27, 34 and 35, approximately 2 miles to the standard corner of sections 34 and 35, T. 24 S., R. 18 W., Kateel River Meridian;

Thence easterly, on the Sixth Standard Parallel South, approximately 1 1/4 miles to the closing corner of sections 2 and 3, T. 25 S., R. 18 W., Kateel River Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 25 S., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 25 S., Rs. 17 and 18 W., Kateel River Meridian;

Thence southerly, between Rs. 17 and 18, approximately 2 miles to the corner of sections 25, 30, 31 and 36, T. 25 S., Rs. 17 and 18 W., Kateel River Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 25 S., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 32 and 33, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 25 and 26 S., R. 17 W., Kateel River Meridian;

VOL 48 ISS 38 FEB 24 1983 UMI

Thence easterly, between Tps. 25 and 26 S., approximately 11 miles to the corner of sections 5, 6, 31 and 32, Tps. 25 and 26 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, 5 and 6, approximately 7 miles to the corner of sections 5, 6, 7 and 8, T. 27 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 5 and 8, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 27 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 8 and 9, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 27 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 27 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, 26 and 27, 34 and 35, 2 and 3, 10 and 11, 14 and 15, 22 and 23, approximately 8 miles to the corner of sections 22, 23, 26 and 27, T. 28 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, 19 and 30, 20 and 29, approximately 4 miles to the corner of sections 20, 21, 28 and 29, T. 28 S., R. 14 W., Kateel River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, approximately 2 miles to the corner of sections 8, 9, 16 and 17, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 28 S., R. 14 W., Kateel River Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of the sections 3, 4, 9 and 10, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 3 and 10, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 28 S., R. 14 W., Kateel River Meridian;

Thence southerly, between sections 10 and 11, 14 and 15, approximately 2 miles to the corner of sections 14, 15, 22 and 23, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, approximately 3 1/2 miles to the 1/4 section corner of sections 17 and 20, T. 28 S., R. 13 W., Kateel River Meridian;

Thence southerly, along the north and south centerlines of sections 20, 29, 32 and 5, approximately 4 miles to the 1/4 section corner of section 5 only, T. 29 S., R. 13 W., Kateel River Meridian;

Thence westerly, between the Seward and Kateel River Meridians, approximately 700 feet to the corner of sections 34 and 35, T. 34 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 34 and 35, 2 and 3, 10 and 11, 14 and 15, approximately 4 miles to the corner of sections 14, 15, 22 and 23, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 33 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 21 and 22, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 33 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, approximately 2 miles to the standard corner of sections 32 and 33, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, on the Eighth Standard Parallel North, approximately 1 3/4 miles to the closing corner of sections 4 and 5, T. 32 N., R. 64 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, 16 and 17, approximately 9 miles to the corner of sections 16, 17, 20 and 21, T. 31 N., R. 64 W., Seward Meridian;

Thence easterly, between sections 16 and 21, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 31 N., R. 64 W., Seward Meridian;

Thence southerly, between sections 21 and 22, 27 and 28, 33 and 34, 3 and 4, approximately 4 miles to the corner of sections 3, 4, 9 and 10, T. 30 N., R. 64 W., Seward Meridian;

Thence easterly, between sections 3 and 10, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 N., R. 64 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 22, approximately 1/2 mile to the 1/4 section corner of section 15, T. 29 N., R. 65 W., Seward Meridian;

Thence easterly, between sections 3 and 10, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 N., R. 64 W., Seward Meridian;

Thence southerly, between sections 10 and 11, 14 and 15, approximately 2 miles to the corner of sections 14, 15, 22 and 23, T. 30 N., R. 64 W., Seward Meridian;

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 30 N., R. 64 W., Seward Meridian

Thence southerly, between sections 21 and 22, 27 and 28, approximately 2 miles to the corner of sections 27, 28, 33 and 34, T. 30 N., R. 64 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 30 N., R. 64 W., Seward Meridian;

Thence southerly, between sections 32 and 33, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 29 and 30 N., R. 64 W., Seward Meridian;

Thence westerly, between Tps. 29 and 30 N., approximately 1 mile to the corner of sections 5 6, 31 and 32, Tps. 29 and 30 N., R. 64 W., Seward Meridian;

Thence southerly, between sections 5 and 6, approximately 1/2 mile to the 1/4 section corner of sections 5 and 6, T. 29 N., R. 64 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 6, approximately 1 mile to the 1/4 section corner of sections 1 and 6, T. 29 N., Rs. 64 and 65 W., Seward Meridian;

Thence southerly, between Rs. 64 and 65 W., approximately 3 1/2 miles to the corner of sections 19, 24, 25 and 30, T. 29 N., Rs. 64 and 65 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, approximately 2 miles to the corner of sections 22, 23, 26 and 27, T. 29 N., R. 65 W., Seward Meridian;

Thence northerly, between sections 22 and 23, approximately 1/2 mile to the 1/4 section corner of sections 22 and 23, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 22, approximately 1/2 mile to the center 1/4 section corner of section 22, T. 29 N, R. 65 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 22, approximately 1/2 mile to the 1/4 section corner of section 15, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, between sections 15 and 22, approximately 1/2 mile to the corner of sections 15, 16, 22 and 23, T. 29 N., R. 65 W., Seward Meridian;

Thence northerly, between sections 15 and 16, approximately 1/2 mile to the 1/4 section corner of sections 15 and 16, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 16, approximately 1 mile to the 1/4 section corner of sections 16 and 17, T. 29 N., R. 65 W., Seward Meridian;

Thence southerly, between sections 16 and 17, approximately 1/2 mile to the corner of sections 16, 17, 20 and 21, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, between sections 17 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 29 N., R. 65 W., Seward Meridian;

Thence southerly, between sections 19 and 20, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, between sections 19 and 30, approximately 1/2 mile to the 1/4 section corner of sections 19 and 30, T. 29 N., R. 65 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 30, approximatey 1/2 mile to the center 1/4 section corner of section 30, T. 29 N., R. 65 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 30, approximately 1/2 mile to the 1/4 section corner of sections 25 and 30, T. 29 N., Rs. 65 and 66 W., Seward Meridian;

Thence southerly, between Rs. 65 and 66 W., approximately 1/2 mile to the corner of sections 25, 30, 31 and 36, T. 29 N., Rs. 65 and 66 W., Seward Meridian;

Thence westerly, between sections 25 and 36, approximately 1/2 mile to the 1/4 section corner of sections 25 and 36, T. 29 N., R. 66 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 36, approximately 1/2 mile to the center 1/4 corner of setion 36, T. 29 N., R. 66 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 36, approximately 1/2 mile to the 1/4 section corner of sections 35 and 36, T. 29 N., R. 66 W., Seward Meridian;

Thence southerly, between sections 35 and 36, approximately 1/2 mile to the standard corner of sections 35 and 36, T. 29 N., R. 66 W., Seward Meridian;

Thence westerly, on the Seventh Parellel North, approximately 1/2 mile to the closing corner of T. 28 N., Rs. 66 and 67 W., Seward Meridian;

Thence southerly, between Rs. 66 and 67 W., approximately 23 1/2 miles to the 1/4 section corner of sections 31 and 36, T. 25 N., Rs. 66 and 67 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 31, approximately 1 mile to the 1/4 section corner of sections 31 and 32, T. 25 N., R. 66 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1/2 mile to the standard corner of sections 31 and 32, T. 25 N., R. 66 W., Seward Meridian;

Thence easterly, on the Sixth Standard Parallel North, approximately 1 mile to the 1/4 corner of section 3, T. 24 N., R. 67 W., Seward Meridian;

Thence southerly, on the north and south centerline of sections 3, 10, 15 and 22, approximately 3 1/2 miles to the center 1/4 section corner of section 22 T. 24 N., R. 67 W., Seward Meridian;

Thence easterly, on the east and west centerline of sections 22 and 23, approximately 1 1/2 mile to the 1/4 section corner of sections 23 and 24, T. 24 N., R. 67 W., Seward Meridian;

Thence southerly, between sections 23 and 24, approximately 1/2 mile to the corner of sections 23, 24, 25 and 26, T. 24 N., R. 67 W., Seward Meridian;

Thence easterly, between sections 24 and 25, approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 24 N., Rs. 66 and 67 W., Seward Meridian;

Thence southerly, between Rs. 66 and 67 W., approximately 2 miles to the corner of Tps. 23 and 24 N., Rs. 66 and 67 W., Seward Meridian;

Thence westerly, between Tps. 23 nd 24 N., approximately 2 miles to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 N., R. 67 W., Seward Meridian;

Thence southerly, between sections 2 and 3, approximately 1/2 mile to the 1/4 section corner of sections 2 and 3, T. 23 N., R. 67 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 3, approximately 1 mile to the 1/4 section corner of setions 3 and 4, T. 23 N., R. 67 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 23 N., R. 67 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 9 and 8, aproximately 2 miles to the 1/4 section corner of sections 7 and 8, T. 23 N., R. 67 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 1 mile to the 1/4 section corner of sections 17 and 18, T. 23 N., R. 67 W., Seward Meridian;

Thence westerly, on the east and west centerlines of sections 18, 13 and 14, approximately 2 1/2 miles to the center 1/4 section corner of section 14, T. 23 N., R. 68 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 14, approximately 1/2 mile to the 1/4 section corner of sections 14 and 23, T. 23 N., R. 68 W., Seward Meridian;

Thence westerly, between sections 14 and 23, 15 and 22, approximately 1 mile to the 1/4 section corner of sections 15 and 22, T. 23 N., R. 68 W., Seward Meridian;

Thence southerly, on the north and south centerlines of sections 22, 27 and 34, approximately 3 miles to the 1/4 section corner of sections 3 and 34, Tps. 22 and 23 N., R. 68 W., Seward Meridian;

Thence westerly, between Tps. 22 and 23 N., approximately 1 1/2 miles to the corner of sections 4, 5, 32 and 33, Tps. 22 and 23 N., R. 68 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, approximately 6 miles to the corner of sections 4, 5, 32 and 33, Tps. 21 and 22 N., R. 68 W., Seward Meridian;

Thence westerly, between Tps. 21 and 22 N., approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 21 and 22 N., R. 68 W., Seward Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, approximately 2 miles to the corner of sections 7, 8, 17 and 18, T. 21 N., R. 68 W., Seward Meridian;

Thence westerly, between sections 7 and 18, approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 21 N., Rs. 68 and 69 W., Seward Meridian;

Thence easterly, between Tps. 21 and 22 N., approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 21 and 22 N., R. 58 W., Seward Meridian;

Thence westerly, between sections 7 and 18, approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 21 N., Rs. 68 and 69 W., Seward Meridian;

Thence southerly, between Rs. 68 and 69 W., approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 21 N., Rs. 68 and 69 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, approximately 5 miles to the corner of sections 17, 18, 19 and 20, T. 21 N., R. 69 W., Seward Meridian;

Thence northerly, between sections 17 and 18, approximately 1 mile to the corner of sections 7, 8, 17 and 18, T. 21 N., R. 69 W., Seward Meridian;

Thence westerly, between sections 7 and 18, 12 and 13, approximately 2 miles to the corner of sections 11, 12, 13 and 14, T. 21 N., R. 70 W., Seward Meridian;

Thence northerly, between sections 11 and 12, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 21 N., R. 70 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 21 N., R. 70 W., Seward Meridian;

Thence northerly, between sections 2 and 3, approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 21 and 22 N., R. 70 W., Seward Meridian;

Thence westerly, between Tps. 21 and 22 N., approximately 2 3/4 miles to the meander corner of sections 5 and 32, at the line of mean high water on the right bank of Poltes Slough of the Yukon River, Tps. 21 and 22 N., R. 70 W., Seward Meridian;

Thence southeasterly and northeasterly, along the line of mean high water of the right banks of Poltes Slough, Wilson Creek Slough, Cross Slough, Thirtytwo Kazyga Slough, Circle Slough, Tuckers Slough, Summer Slough and the Yukon River, approximately 115 miles to the meander of sections 12 and 13, at the line of mean high water on the right bank of the Yukon River, T. 22 N., R. 59 W., Seward Meridian;

Thence easterly, between sections 12 and 13, 7 and 18, approximately 3 miles to the corner of sections 7, 8, 17 and 18, T. 22 N., R. 58 W., Seward Meridian;

Thence southerly, between sections 17 and 18, 19 and 20, 29 and 30, 31 and 32, approximately 4 miles to the corner of sections 5, 6, 31 and 32, Tps. 21 and 22 N., R. 58 W., Seward Meridian;

Thence easterly, between Tps. 21 and 22 N., approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 21 and 22 N., R. 58 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, approximately 3 miles to the corner of sections 16, 17, 20 and 21, T. 21 N., R. 58 W., Seward Meridian;

Thence easterly, between sections 16 and 21, 15 and 22, approximately 2 miles to the corner of sections 14, 15, 22 and 23, T. 21 N., R. 58 W., Seward Meridian;

Thence southerly, between sections 22 and 23, 26 and 27, 34 and 35, approximately 3 miles to the standard corner of sections 34 and 35, T. 21 N., R. 58 W., Seward Meridian;

Thence westerly, on the Fifth Standard Parallel North, approximately 300 feet to the closing corner of T. 20 N., Rs. 58 and 59 W., Seward Meridian;

Thence southerly, between Rs. 58 and 59 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 20 N., Rs. 58 and 59 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, approximately 2 miles the corner of sections 14, 15, 22 and 23, T. 20 N., R. 59 W., Seward Meridian;

Thence southerly, between sections 22 and 23, 26 and 27, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 20 N., R. 59 W., Seward Meridian;

Thence westerly, between sections 27 and 34, 28 and 33, 29 and 32, 30 and 31, approximately 4 miles to the corner of sections 25, 30, 31 and 36, T. 20 N., Rs. 59 and 60 W., Seward Meridian;

Thence northerly, between Rs. 59 and 60 W., approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 20 N., Rs. 59 and 60 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, approximately 2 miles to the corner of sections 22, 23, 26 and 27, T. 20 N., R. 60 W., Seward Meridian;

Thence southerly, between sections 26 and 27, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 20 N., R. 60 W., Seward Meridian;

Thence easterly, between sections 26 and 35, 25 and 36, approximately 2 miles to the corner of sections 25, 30, 31 and 36, T. 18 N., Rs. 56 and 57 W., Seward Meridian;

Thence southerly, between Rs. 56 and 57 W., approximately 3 miles to the corner of sections 7, 12, 13 and 18, T. 17 N., Rs. 56 and 57 W., Seward Meridian;

Thence easterly, between sections 7 and 18, 8 and 17, 9 and 16, approximately 3 miles to the corner of sections 9, 10, 15 and 16, T. 17 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 15 and 16, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 17 N., R. 56 W., Seward Meridian;

Thence easterly, between sections 15 and 22, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 17 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 22 and 23, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 17 N., R. 56 W., Seward Meridian;

Thence easterly, between sections 23 and 26, approximately 1 mile to the corner of sections 23, 24, 25 and 26, T. 17 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 25 and 26, 35 and 36, approximately 2 miles to the standard corner of sections 35 and 36, T. 17 N., R. 56 W., Seward Meridian;

Thence easterly, on the Fourth Standard Parallel North, approximately 1/2 mile to the closing corner of sections 4 and 5, T. 16 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, approximately 2 miles to the corner of sections 8, 9, 16 and 17, T. 16 N., R. 56 W., Seward Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 16 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, approximately 3 miles to the corner of sections 27, 28, 33 and 34, T. 16 N., R. 56 W., Seward Meridian;

Thence easterly, between sections 27 and 34, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 16 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 34 and 35, 2 and 3, 10 and 11, approximately 3 miles to the corner of sections 10, 11, 14, 15, T. 15 N., R. 56 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, approximately 2 miles to the corner of sections 8, 9, 16 and 17, T. 8 N., R. 61 W., Seward Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 8 N., R. 61 W., Seward Meridian;

Thence southerly, between sections 15 and 16, 21 and 22, 27 and 28, 33 and 34, 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 10 miles to the corner of sections 3, 4, 33 and 34, Tps. 6 and 7 N., R. 61 W., Seward Meridian;

Thence easterly, between Tps. 6 and 7 N., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 6 and 7 N., R. 61 W., Seward Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, 23 and 24, approximately 3 miles to the corner of sections 13, 14, 23 and 24, T. 7 N., R. 61 W., Seward Meridian;

Thence easterly, between sections 13 and 24, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 7 N., Rs. 60 and 61 W., Seward Meridian;

Thence northerly, between Rs. 60 and 61 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 7 N., Rs. 60 and 61 W., Seward Meridian;

Thence easterly, between sections 7 and 18, approximately 1/2 mile to the 1/4 section corner of sections 7 and 18, T. 7 N., R. 60 W., Seward Meridian;

Thence southerly, between Rs. 62 and 63 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 62 and 63 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the

Thence easterly, between sections 7 and 18, approximately 1/2 mile to the 1/4 section corner of sections 7 and 18, T. 7 N., R. 60 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 7, approximately 1/2 mile to the center 1/4 section corner of section 7, T. 7 N., R. 60 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 7, approximately 1/2 mile to the 1/4 section corner of sections 7 and 8, T. 7 N., R. 60 W., Seward Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, approximately 1 1/2 miles to the corner of sections 5, 6, 31 and 32, Tps. 7 and 8 N., R. 60 W., Seward Meridian;

Thence easterly, between Tps. 7 and 8 N., approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 7 and 8 N., R. 60 W., Seward Meridian;

Thence southerly, between sections 4 and 5, 8 and 9, 16 and 17, 20 and 21, 28 and 29, 32 and 33, 4 and 5, 8 and 9, approximately 8 miles to the corner of sections 8, 9, 16 and 17, T. 6 N., R. 60 W., Seward Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, 11 and 14, 12 and 13, approximately 4 miles to the corner of sections 7, 12, 13 and 18, T. 6 N., Rs. 59 and 60 W., Seward Meridian;

Thence southerly, between Rs. 59 and 60 W., approximately 10 miles to the standard corner of T. 5 N., Rs. 59 and 60 W., Seward Meridian;

Thence westerly, along the First Standard Parallel North, approximately 2 1/4 miles to the closing corner of T. 4 N., Rs. 60 and 61 W., Seward Meridian;

Thence southerly, between Rs. 60 and 61 W., approximately 24 miles to the standard corner of T. 1 N., Rs. 60 and 61 W., Seward Meridian;

Thence westerly, along the Seward Base Line, approximately 2 1/4 miles to the closing corner of T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence southerly, between Rs. 61 and 62 W., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 61 and 62 W., Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 6 miles to the corner of sections 13, 18, 19 and 24, T. 1 S., Rs. 62 and 63 W., Seward Meridian;

Thence southerly, between Rs. 62 and 63 W., approximately 3 miles to the corner of Tps. 1 and 2 S., Rs. 62 and 63 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 15 miles to the corner of sections 3, 4, 33 and 34, Tps. 1 and 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, 15 and 16, 21 and 22, approximately 4 miles to the corner of sections 21, 22, 27 and 28, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 2 S., R. 65 W., Seward Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 2 S., R. 65 W., Seward Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 2 and 3 S., R. 65 W., Seward Meridian;

Thence westerly, between Tps. 2 and 3 S., approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 2 and 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 10 and 11, approximately 1/2 mile to the 1/4 section corner of sections 10 and 11, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 10, approximately 1 mile to the 1/4 section corner of sections 9 and 10, T. 3 S., R. 66 W., Seward Meridian;

Thence southerly, between sections 9 and 10, approximately 1/2 mile to the corner of sections 9, 10, 15 and 16, T. 3 S., R. 66 W., Seward Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, approximately 5 miles to the corner of sections 10, 11, 14 and 15, T. 3 S., R. 67 W., Seward Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 10 and 15, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 4 S., R. 69 W., Seward Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 4 S., R. 69 W., Seward Meridian;

Thence westerly, between sections 4 and 9, 5 and 8, 6 and 7, approximately 3 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence southerly, between Rs. 69 and 70 W., approximately 1 mile to the corner of sections 7, 12, 13 and 18, T. 4 S., Rs. 69 and 70 W., Seward Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, approximately 5 miles to the corner of sections 7, 8, 17 and 18, T. 4 S., R. 70 W., Seward Meridian;

Thence northerly, between sections 7 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 70 W., Seward Meridian;

Thence westerly, between sections 6 and 7, 1 and 12, 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, 1 and 12 and 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 13 miles to the corner of sections 1, 6, 7 and 12, T. 4 S., Rs. 72 and 73 W., Seward Meridian;

Thence southerly, between Rs. 72 and 73 W., approximately 2 miles to the corner of sections 13, 18, 19 and 24, T. 4 S., Rs. 72 and 73 W. Seward Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, 17 and 20, 18 and 19, 13 and 24, 14 and 23, 15 and 22, 16 and 21, approximately 9 1/2 miles to the meander corner of sections 16 and 21, T. 4 S., R. 74 W., Seward Meridian, the place of beginning.

Also included within the Yukon Delta National Wildlife Refuge are those islands in sections 3, 9 and 10, T. 24 N., R. 89 W., Seward Meridian.

UNITS OF THE WILDERNESS PRESERVATION SYSTEM WITHIN THE YUKON DELTA NATIONAL WILDLIFE REFUGE:

Section 702 (2):

"Andreafsky Wilderness of approximately one million three hundred thousand acres as generally depicted on a map entitled 'Yukon Delta National Wildlife Refuge' dated April 1980."

Thence southerly, between sections 14 and 15, 22 and 23, 26 and 27, approximately 3 miles to the corner of sections 26, 27, 34 and 35, T. 3 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 27 and 34, 28 and 33, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 3 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 32 and 33, 4 and 5, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 5 and 8, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 4 S., R. 67 W., Seward Meridian;

Thence southerly, between sections 7 and 8, 17 and 18, approximately 2 miles to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 67 W., Seward Meridian;

Thence westerly, between sections 18 and 19, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence southerly, between Rs. 67 and 68 W., approximately 3 miles to the standard corner of T. 4 S., Rs. 67 and 68 W., Seward Meridian;

Thence westerly, along the First Standard Parallel South, approximately 3 miles to the standard corner of sections 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 28 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 28 and 29, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 4 S., R. 68 W., Seward Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 4 S., R. 68 W., Seward Meridian;

Thence westerly, between sections 18 and 19, 13 and 24, 14 and 23, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 4 S., R. 69 W., Seward Meridian;

The Andreafsky Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 28 S., R. 14 W., Kateel River Meridian;

UMI
1983
FEB 24

The Andreafsky Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the corner of sections 25, 30, 31 and 36, T. 25 S., Rs. 17 and 18 W., Kateel River Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, approximately 2 miles to the corner of sections 28, 29, 32 and 33, T. 25 S., R. 17 W., Kateel River Meridian;

Thence southerly, between sections 32 and 33, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 25 and 26 S., R. 17 W., Kateel River Meridian;

Thence easterly, between Tps. 25 and 26 S., approximately 11 miles to the corner of sections 5, 6, 31 and 32, Tps. 25 and 26 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 5 and 6, 7 and 8, 17 and 18, 19 and 20, 29 and 30, 31 and 32, 5 and 6, approximately 7 miles to the corner of sections 5, 6, 7 and 8, T. 27 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 5 and 8, approximately 1 mile to the corner of sections 4, 5, 8 and 9, T. 27 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 8 and 9, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 27 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 27 S., R. 15 W., Kateel River Meridian;

Thence southerly, between sections 14 and 15, 22 and 23, 26 and 27, 34 and 35, 2 and 3, 10 and 11, 14 and 15, 22 and 23, approximately 8 miles to the corner of sections 22, 23, 26 and 27, T. 28 S., R. 15 W., Kateel River Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, 19 and 30, 20 and 29, approximately 4 miles to the corner of sections 20, 21, 28 and 29, T. 28 S., R. 14 W., Kateel River Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, approximately 2 miles to the corner of sections 8, 9, 16 and 17, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 9 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 28 S., R. 14 W., Kateel River Meridian;

Thence northerly, between sections 9 and 10, approximately 1 mile to the corner of sections 3, 4, 9 and 10, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 3 and 10, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 28 S., R. 14 W., Kateel River Meridian;

Thence southerly, between sections 10 and 11, 14 and 15, approximately 2 miles to the corner of sections 14, 15, 22 and 23, T. 28 S., R. 14 W., Kateel River Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, 18 and 19, 17 and 20, approximately 3½ miles to the ¼ section corner of sections 17 and 20, T. 28 S., R. 13 W., Kateel River Meridian;

Thence southerly, along the north and south centerlines of sections 20, 29, 32 and 5, approximately 4 miles to the ¼ section corner of section 5 T. 29 S., R. 13 W., Kateel River Meridian;

Thence westerly, between the Seward and Kateel River Meridians, approximately 700 feet to the corner of sections 34 and 35, T. 34 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 34 and 35, 2 and 3, 10 and 11, 14 and 15, approximately 4 miles to the corner of sections 14, 15, 22 and 23, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 33 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 21 and 22, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 33 N., R. 63 W., Seward Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, approximately 2 miles to the standard corner of sections 32 and 33, T. 33 N., R. 63 W., Seward Meridian;

Thence westerly, on the Eighth Standard Parallel North, approximately 4½ miles to a point on the crest of a ridge between sections 2 and 34, Tps. 32 and 33 N., Rs. 64 and 65 W., Seward Meridian, approximate elevation 1,850 feet;

Thence on an approximate forward bearing of S. 25° W., approximately 3,500 feet to a summit of a hill near the center of section 2, T. 32 N., R. 65 W., Seward Meridian, approximate elevation 1,695 feet;

Thence on an approximate forward bearing of N. 80° W., approximately 6,000 feet to the confluence of an unnamed stream from the west and the Atchuelinguk River, near the center of section 3, T. 32 N., R. 65 W., Seward Meridian;

Thence on an approximate forward bearing of S. 53° W., approximately 7,600 feet to the summit of a hill in the northwesterly portion of section 9, T. 32 N., R. 65 W., Seward Meridian, approximate elevation 1,500 feet;

Thence on an approximate forward bearing of N. 16° W., approximately 3,400 feet to the summit of a hill in the southwesterly portion of section 4, T. 32 N., R. 65 W., Seward Meridian, approximate elevation 1,432 feet;

Thence southwesterly, along the crest of the divide between the East Fork Andreafsky River and the Atchuelinguk River, approximately 43 miles to a point between sections 11 and 14, T. 27 N., R. 70 W., Seward Meridian;

Thence easterly, between sections 11 and 14, approximately ½ mile to the corner of sections 11, 12, 13 and 14, T. 27 N., R. 70 W., Seward Meridian;

Thence southerly, between sections 13 and 14, 23 and 24, 25 and 26, 35 and 36, approximately 3 3/10 miles to the meander corner of sections 35 and 36, Tps. 27 N., R. 70 W., Seward Meridian with the line of mean high water of an unnamed lake;

Thence southwesterly, along the west bank of an unnamed lake, approximately 2½ miles to ¼ section corner of sections 10 and 11, T. 26 N., R. 70 W., Seward Meridian, at the line of mean high water;

Thence westerly, on the east and west centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 26 N., R. 70 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 10, approximately ½ mile to the ¼ section corner of sections 10 and 15, T. 26 N., R. 70 W., Seward Meridian;

Thence westerly, between sections 10 and 15, approximately ½ mile to the corner of sections 9, 10, 15 and 16, T. 26 N., R. 70 W., Seward Meridian;

Thence southerly, between section 15 and 16, approximately ½ mile to the ¼ section corner of sections 15 and 16, T. 26 N., R. 70 W., Seward Meridian;

Thence westerly, on the east and west centerline of section 16, approximately ½ mile to the center ¼ section corner of section 16, T. 26 N., R. 70 W., Seward Meridian;

Thence southerly, on the north and south centerline of section 16, approximately ½ mile to the ¼ section corner of sections 16 and 21, T. 26 N., R. 70 W., Seward Meridian;

Thence westerly, between sections 16 and 21, approximately ½ mile to the corner of sections 16, 17, 20 and 21, T. 26 N., R. 70 W., Seward Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 26 N., R. 70 W., Seward Meridian;

Thence westerly, between sections 20 and 29, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 26 N., R. 70 W., Seward Meridian;

Thence southerly, between sections 29 and 30, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 26 N., R. 70 W., Seward Meridian;

Thence westerly, between sections 30 and 31, approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 26 N., Rs. 70 and 71 W., Seward Meridian;

Thence southerly, between Rs. 70 and 71 W., approximately 1 mile to the corner of Tps. 25 and 26 N., Rs. 70 and 71 W., Seward Meridian;

Thence westerly, between Tps. 25 and 26 N., approximately ½ mile to the ¼ section corner of sections 1 and 36, Tps. 25 and 26 N., R. 71 W., Seward Meridian;

Thence southerly, on the north and south centerline of sections 1, 12, 13 and 24, approximately 4 miles to the ¼ section corner of sections 24 and 25, T. 25 N., R. 71 W., Seward Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, approximately 1 mile to a point on the south bank of a stream near the ¼ section corner of sections 23 and 26, T. 25 N., R. 71 W., Seward Meridian;

Thence following along the south bank of said stream, approximately 3¾ miles to the standard ¼ section corner of sections 4 and 33 Tps. 24 and 25 N., R. 71 W., Seward Meridian;

Thence westerly, on the Sixth Standard Parallel North, approximately 8¾ miles to the standard corner of T. 25 N., Rs. 72 and 73 W., Seward Meridian;

Thence northerly, between Rs. 72 and 73 W., approximately 12 miles to the corner of Tps. 26 and 27 N., Rs. 72 and 73 W., Seward Meridian;

Thence westerly, between Tps. 26 and 27 N., approximately 6 miles to the corner of Tps. 26 and 27 N., Rs. 73 and 74 W., Seward Meridian;

Thence southerly, between Rs. 73 and 74 W., approximately 6 miles to the corner of Tps. 25 and 26 N., Rs. 73 and 74 W., Seward Meridian;

Thence westerly, between Tps. 25 and 26 N., approximately 24½ miles to the ¼ section corner of sections 1 and 36, Tps. 25 and 26 N., R. 78 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 36,

Thence easterly, on the east and west centerline of section 3, approximately 3/4 mile to the ¼ section corner of sections 2 and 3, T. 26 N., R. 77 W., Seward Meridian;

Thence westerly, between Tps. 25 and 26 N., approximately 24½ miles to the ¼ section corner of sections 1 and 36, Tps. 25 and 26 N., R. 78 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 36, approximately ½ mile to the center ¼ section corner of section 36, T. 26 N., R. 78 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 36, approximately ½ mile to the ¼ section corner of sections 31 and 36, T. 26 N., Rs. 77 and 78 W., Seward Meridian;

Thence northerly, between Rs. 77 and 78 W., approximately ½ mile to the corner of sections 25, 30, 31 and 36, T. 26 N., Rs. 77 and 78 W., Seward Meridian;

Thence easterly, between sections 30 and 31, approximately ½ mile to the ¼ section corner of sections 30 and 31, T. 26 N., R. 77 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximatley ½ mile to the center ¼ section corner of section 30, T. 26 N., R. 77 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 30, approximately ½ mile to the ¼ section corner of sections 29 and 30, T. 26 N., R. 77 W., Seward Meridian;

Thence northerly, between sections 29 and 30, 19 and 20, approximately 1 mile to the ¼ section corner of sections 19 and 20, T. 26 N., R. 77 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 20, approximately ½ mile to the center ¼ section corner of section 20, T. 26 N., R. 77 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 20, approximately ½ mile to the ¼ section corner of sections 17 and 20, T. 26 N., R. 77 W., Seward Meridian;

Thence easterly, between sections 17 and 20, approximately ½ mile to the corner of sections 16, 17, 20 and 21, T. 26 N., R. 77 W., Seward Meridian;

Thence northerly, between sections 16 and 17, approximately 3/4 mile to a special meander corner of sections 16 and 17, T. 26 N., R. 77 W., Seward Meridian, with the line of mean high water of an unnamed lake;

Thence northeasterly, along the easterly shore of an unnamed lake, approximately 2 miles to the special meander corner on the east and west centerline of section 3, T. 26 N., R. 77 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 3, approximately 3/4 mile to the ¼ section corner of suctions 2 and 3, T. 26 N., R. 77 W., Seward Meridian;

Thence northerly, between sections 2 and 3, approximately ½ mile to the corner of sections 2, 3, 34 and 35, Tps. 26 and 27 N., R. 77 W., Seward Meridian;

Thence easterly, between Tps. 26 and 27 N., approximately ½ mile to the ¼ section corner of sections 2 and 35, Tps. 26 and 27 N., R. 77 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 35, approximately ½ mile to the center ¼ section corner of section 35, T. 27 N., R. 77 W., Seward Meridian;

Thence easterly, on the east and west centerlines of sections 35 and 36, approximately 1 mile to the center ¼ section corner of section 36, T. 27 N., R. 77 W., Seward Meridian;

Thence northerly on the north and south centerline ofsection 36, approximately ½ mile to the ¼ section corner of sections 25 and 36, T. 27 N., R. 77 W., Seward Meridian;

Thence easterly, between sections 25 and 36, 30 and 31, approximately 1 mile to the ¼ section corner of sections 30 and 31, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximately ½ mile to the ¼ section corner of section 30, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 30, approximately ½ mile to the ¼ section corner of sections 29 and 30, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, between sections 29 and 30, approximately ½ mile to the corner of section 19 and 20, 29 and 30, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, between sections 20 and 29, approximately ½ mile to the ¼ section corner of sections 20 and 29, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 20, approximately ½ mile to the center ¼ section corner of section 20, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 20, approximately ½ mile to the ¼ section corner of sections 20 and 21, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, between sections 20 and 21, approximately ½ mile to the corner of sections 16, 17, 20 and 21, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, between sections 16 and 21, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, between sections 15 and 16, approximately 1 mile to the corner of sections 9, 10, 15 and 16, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, between sections 10 and 15, approximately ½ mile to the ¼ section corner of section 10, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 10, approximately ½ mile to the ¼ section corner of sections 10 and 11, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, between sections 10 and 11, approximately ½ mile to the corner of sections 2, 3, 10 and 11, T 27 N., R. 76 W., Seward Meridian;

Thence easterly, between sections 2 and 11, approximately ½ mile to the ¼ section corner of sections 2 and 11, T. 27 N., R. 76 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 2, approximately ½ mile to the center ¼ section corner of section 2, T. 27 N., R. 76 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 2, approximately ½ mile to the ¼ section corner of sections 1 and 2, T. 27 N.,R. 76 W., Seward Meridian;

Thence northerly, between sections 1 and 2, approximately ½ mile to the corner of sections 1, 2, 35 and 36, Tps. 27 and 28 N., R. 76 W., Seward Meridian;

Thence easterly, between Tps. 27 and 28 N., approximately ½ mile to the ¼ section corner of sections 1 and 36, Tps. 27 and 28 N., R. 76 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 36, approximately ½ mile to the center ¼ section corner of section 36, T. 28 N., R. 76 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 36, approximately ½ mile to the ¼ section corner of sections 31 and 36, T. 28 N., Rs. 75 and 76 W., Seward Meridian;

Thence northerly, between Rs. 75 and 76 W., approximately ½ mile to the corner of sections 25, 30, 31 and 36, T. 28 N., Rs. 75 and 76 W., Seward Meridian;

Thence easterly, between sections 30 and 31, approximately ½ mile to the ¼ section corner of sections 30 and 31, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximately ½ mile to the center ¼ section corner of section 30, T. 28 N., R. 75 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 30, approximately ½ mile to the ¼ section corner of sections 29 and 30, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, between sections 29 and 30, approximately ½ mile to the corner of sections 19, 20, 29 and 30, T. 28 N., R. 75 W., Seward Meridian;

Thence easterly, between section 20 and 29, approximately ½ mile to the ¼ section corner of sections 20 and 29, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 20, approximately ½ mile to the center ¼ section corner of section 20, T. 28 N., R. 75 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 20, approximately ½ mile to the ¼ section corner of sections 20 and 21, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, between sections 20 and 21, approximately ½ mile to the corner of sections 16, 17, 20 and 21, T. 28 N., R. 75 W., Seward Meridian;

*Thence easterly, between sections 16 and 21, approximately ½ mile to the ¼ section corner of sections 16 and 21, T. 28 N., R. 75 W., Seward Meridian;

*Thence northerly, on the north and south centerline of section 16, approximately ½ mile to the center ¼ section corner of section 16, T. 28 N., R. 75 W., Seward Meridian;

*Thence easterly, on the east and west centerline of section 16, approximately ½ mile to the ¼ section corner of sections 15 and 16, T. 28 N., R. 75 W., Seward Meridian;

*Thence northerly, between sections 15 and 16, approximately ½ mile to the corner of sections 9, 10, 15 and 16, T. 28 N., R. 75 W., Seward Meridian;

*Thence easterly, between sections 10 and 15, approximately ½ mile to the ¼ section corner of sections 10 and 15, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 28 N., R. 75 W., Seward Meridian;

*Thence northerly, on the north and south centerline of section 18, approximately ½ mile to the center ¼ section corner of section 18, T. 29 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 10, approximately ½ mile to the center ¼ section corner of section 10, T. 28 N., R. 75 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 10, approximately ½ mile to the ¼ section corner of sections 10 and 11, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, between sections 10 and 11, approximately ½ mile to the corner of sections 2, 3, 10 and 11, T. 28 N., R. 75 W., Seward Meridian;

Thence easterly, between sections 2 and 11, approximately ½ mile to the ¼ section corner of sections 2 and 11, T. 28 N., R. 75 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 2, approximately 1 mile to the ¼ section corner of section 2, Tp. 28 N., R. 75 W., Seward Meridian;

Thence easterly, on the Seventh Standard Parallel North, approximately ½ mile to the corner of sections 34 and 35, T. 29 N., R. 74 W., Seward Meridian;

Thence northerly, between sections 34 and 35, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 29 N., R. 74 W., Seward Meridian;

Thence easterly, between sections 26 and 35, approximately 1 mile to the corner of sections 25, 26, 35 and 36, T. 29 N., R. 74 W., Seward Meridian;

Thence northerly, between sections 25 and 26, approximately ½ mile to the ¼ section corner of sections 25 and 26, T. 29 N., R. 74 W., Seward Meridian;

*Thence easterly, on the east and west centerline of section 25, approximately ½ mile to the center ¼ section corner of section 25, T. 29 N., R. 74 W., Seward Meridian;

*Thence northerly, on the north and south centerline of section 25, approximately ½ mile to the ¼ section corner of sections 24 and 25, T. 29 N., R. 74 W., Seward Meridian;

*Thence easterly, between sections 24 and 25, approximately 1½ miles to the corner of sections 19, 24, 25 and 30, T. 29 N., Rs. 73 and 74 W., Seward Meridian;

*Thence northerly, between sections 19 and 24, approximately 1 mile to the corner of sections 13, 18, 19 and 24, T. 29 N., Rs. 73 and 74 N., Seward Meridian;

*Thence easterly, between sections 18 and 19, approximately ½ mile to the ¼ corner of sections 18 and 19, T. 29 N., R. 73 W., Seward Meridian;

*Thence northerly, on the north and south centerline of section 18, approximately ½ mile to the center ¼ section corner of section 18, T. 29 N., R. 73 W., Seward Meridian;

*Thence easterly, on the east and west centerline of section 18, approximately ½ mile to the ¼ section corner of sections 17 and 18, T. 29 N., R. 73 W., Seward Meridian;

*Thence northerly, between sections 17 and 18, 7 and 8, approximately 1 mile to the ¼ section corner of sections 7 and 8, T. 29 N., R. 73 W., Seward Meridian;

Thence easterly, on the east and west centerline of section 8, approximately ½ mile to the center ¼ section corner of section 8, T. 29 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 8, approximately ½ mile to the ¼ section corner of sections 5 and 8, T. 29 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 5 and 8, approximately ½ mile to the corner of sections 4, 5, 8 and 9, T. 29 N., R. 73 W., Seward Meridian;

Thence northerly, between sections 4 and 5, approximately 1 mile to the corner of sections 4, 5, 32 and 33, Tps. 29 and 30 N., R. 73 W., Seward Meridian;

Thence easterly, between Tps. 29 and 30 N., approximately ½ mile to the ¼ section corner of sections 4 and 33, Tps. 29 and 30 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south ¼ centerline of section 33, approximately 1 mile to the ¼ section corner of sections 28 and 33, T. 30 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 28 and 33, approximately 3/4 mile to the corner of sections 27, 28, 33 and 34, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, between sections 27 and 28, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 30 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 22 and 27, approximately ¼ mile to the ¼ section corner of sections 22 and 27, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 22, approximately 1 mile to the ¼ section corner of sections 15 and 22, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerlines of sections 32 and 29, approximately 2 miles to the ¼ section corner of sections 20 and 29, T. 32 N., R. 72 W., Seward Meridian;

Thence easterly, between sections 20 and 29, approximately ½ mile to the corner of sections 20, 21, 28 and 29, T. 32 N., R. 72 W., Seward Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, approximately 2½ miles to the ¼ section corner of sections 8 and 9, T. 32 N., R. 72 W., Seward Meridian;

Thence easterly, on the east west centerline of section 9, T. 32 N., R. 72 W., Seward Meridian, to the center ¼ section of section 9;

Thence northerly, with the north south centerlines of section 9 and 4, approximately 1½ miles to the ¼ section corner on the Eighth Standard Parallel North, T. 32 N., R. 72 W., Seward Meridian;

Thence easterly, on the Eighth Standard Parallel North, approximately 1/10 mile to the ¼ section corner of section 32, Tps. 32 and 33 N., R. 71 W., Seward Meridian;

Thence northerly, on the north and south centerline of sections 32, 29, 20 and 17, approximately 4 miles to the ¼ section corner of sections 8 and 17, T. 33 N., R. 71 W., Seward Meridian;

Thence westerly, between sections 8 and 17, approximately ½ mile to the corner of sections 7, 8, 17 and 18, T. 33 N., R. 71 W., Seward Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, 31 and 32, approximately 3 miles to the closing corner of sections 31 and 32, T. 34 N., R. 71 W., Seward Meridian;

Thence easterly, between the Seward and Kateel River Meridians, approximately 1 mile to the ¼ section corner of section 1 T. 29 S., R. 22 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 1 and 36, approximately 1½ miles to the center ¼ section corner of section 36, T. 28 S., R. 22 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 36, approximately ½ mile to the ¼ section corner of sections 31 and 36, T. 28 S., Rs. 21 and 22 W., Kateel River Meridian;

Thence northerly, between Rs. 21 and 22 W., approximately 1 mile to the ¼ section corner of sections 25 and 30, T. 28 S., Rs. 21 and 22 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 30, approximately ½ mile to the center ¼ section corner of section 30, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 15 and 22, approximately ½ mile to the corner of sections 14, 15, 22 and 23, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 30 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 11 and 14, approximately ½ mile to the ¼ section corner of sections 11 and 14, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 11, approximately 1 mile to the ¼ section corner of sections 2 and 11, T. 30 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 2 and 11, approximately ½ mile to the corner of sections 1, 2, 11 and 12, T. 30 N., R. 73 W., Seward Meridian;

Thence northerly, between sections 1 and 2, approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 30 and 31 N., R. 73 W., Seward Meridian;

Thence easterly, between Tps. 30 and 31 N., approximately ½ mile to the ¼ section corner of sections 1 and 36, Tps. 30 and 31 N., R. 73 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 36, approximately 1 mile to the ¼ section corner of sections 25 and 36, T. 31 N., R. 73 W., Seward Meridian;

Thence easterly, between sections 25 and 36, approximately ½ mile to the corner of sections 25, 30, 31 and 36, T 31 N., Rs. 72 and 73 W., Seward Meridian;

Thence northerly, between Rs. 72 and 73 W., approximately 3 miles to the corner of sections 7, 12, 13 and 18, T. 31 N., Rs. 72 and 73 W., Seward Meridian;

Thence easterly, between sections 7 and 18, approximately 1 mile to the corner of sections 7, 8, 17 and 18, T. 31 N., R. 72 W., Seward Meridian;

Thence northerly, between sections 7 and 8, 5 and 6, approximately 2 miles to the corner of sections 5, 6, 31 and 32, Tps. 31 and 32 N., R. 72 W., Seward Meridian;

Thence easterly, between Tps. 31 and 32 N., approximately ½ mile to the ¼ section corner of sections 5 and 32, Tps. 31 and 32 N., R. 72 W., Seward Meridian;

Thence northerly, on the north and south centerline of section 30, approximately ½ mile to the ¼ section corner of sections 19 and 30, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 19 and 30, approximately ½ mile to the

Thence northerly, on the north and south centerline of section 3, approximately ½ mile to the ¼ section corner of section 3, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 3, approximately

Thence northerly, on the north and south centerline of section 30, approximately ½ mile to the ¼ section corner of sections 19 and 30, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 19 and 30, approximately ½ mile to the corner of sections 19, 20, 29 and 30, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 19 and 20, approximately 1 mile to the corner of sections 17, 18, 19 and 20, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 17 and 20, approximately ½ mile to the ¼ section corner of sections 17 and 20, T. 28 S., R. 21 W., Kateel Meridian;

Thence northerly, on the north and south centerline of section 17, approximately ½ mile to the center ¼ section corner of section 17, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 17, approximately ½ mile to the ¼ section corner of sections 16 and 17, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 16 and 17, approximately ½ mile to the corner of sections 8, 9, 16 and 17, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 9 and 16, approximately ½ mile to the ¼ section corner of sections 9 and 16, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 9, approximately ½ mile to the center ¼ section corner of section 9, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 9, approximately ½ mile to the ¼ section corner of sections 9 and 10, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 9 and 10, approximately ½ mile to the corner of sections 3, 4, 9 and 10, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 3 and 10, approximately ½ mile to the ¼ section corner of sections 3 and 10, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 3, approximately ½ mile to the ¼ section corner of section 3, T. 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 3, approximately ½ mile to the ¼ section corner of sections 2 and 3, T. 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, between sections 2 and 3, approximately ½ mile to the corner of sections 2, 3, 34 and 35, Tps. 27 and 28 S., R. 21 W., Kateel River Meridian;

Thence easterly, between Tps. 27 and 28 S., approximately ½ mile to the ¼ section corner of sections 2 and 35, Tps. 27 and 28 S., R. 21 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 35, approximately ½ mile to the ¼ center corner of section 35, T. 27 S., R. 21 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of sections 35 and 36, approximately 1 mile to the center ¼ section corner of section 36, T. 27 S., R. 21 W., Kateel River Meridian;

Thence northerly, on the north and south centerline of section 36, approximately ½ mile to the ¼ section corner of sections 25 and 36, T. 27 S., R. 21 W., Kateel River Meridian;

Thence easterly, between sections 25 and 36, 30 and 31, 29 and 32, 28 and 33, approximately 3½ miles to the corner of sections 27, 28, 33 and 34, T. 27 S., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 27 and 28, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 27 S., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 22 and 27, 23 and 26, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 27 S., R. 20 W., Kateel River Meridian;

Thence northerly, between sections 23 and 24, approximately 1 mile to the corner of sections 13, 14, 23 and 24, T. 27 S., R. 20 W., Kateel River Meridian;

Thence easterly, between sections 13 and 24, 18 and 19, 17 and 20, 16 and 21, approximately 3½ miles to the ¼ section corner of sections 16 and 21, T. 27 S., R. 19 W., Kateel River Meridian;

NUNIVAK WILDERNESS

Section 702 (9):

"Nunivak Wilderness of approximately six hundred thousand acres as generally depicted on a map entitled 'Yukon Delta National Wildlife Refuge', dated July 1980."

The Nunivak Wilderness consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the meander corner of sections 6 and 31, Tps. 1 and 2 S., R. 95 W., Seward Meridian;

Thence westerly, between Tps. 1 and 2 S., approximately 24 1/4 miles to the corner of Tps. 1 and 2 S., Rs. 99 and 100 W., Seward Meridian;

Thence northerly, between Rs. 99 and 100 W., approximately 1,500 feet to a point due East of the summit of a low hill, between sections 31 and 36, T. 1 S., Rs. 99 and 100 W., Seward Meridian;

Thence due West, approximately 950 feet to the summit of a hill in the southeasterly portion of section 36, T. 1 S., R. 100 W., Seward Meridian, approximate elevation 1,185 feet;

Thence on an approximate forward bearing of N. 62° W., approximately 23,900 feet to the summit of a hill in the southeasterly portion of section 20, T. 1 S., R. 100 W., Seward Meridian, approximate elevation 960 feet;

Thence on an approximate forward bearing of N. 84° W., approximately 9,600 feet to the summit of a hill in the northeasterly portion of section 24, T. 1 S., R. 101 W., Seward Meridian, approximate elevation 755 feet;

Thence on an approximate forward bearing of N. 73° W., approximately 18,200 feet to the summit of a hill in the northeasterly portion of section 16, T. 1 S., R 101 W., Seward Meridian, approximate elevation 615 feet;

Thence on an approximate forward bearing of N. 50° W., approximately 9,200 feet to the summit of a low hill, in sections 5 and 8, T. 1 S., R. 101 W., Seward Meridian, approximate elevation 465 feet;

Thence approximately due West, approximately 3,200 feet to the corner of

Thence northeasterly, along the line of mean high tide of the Bering Sea, approximately 1,000 feet to the meander corner of sections 5 and 6, T. 1 N., R. 104 W., Seward Meridian;

Thence due North, to a point in the Bering Sea, 7,437.5 feet from the

Thence northerly, on the north and south centerline of section 16, approximately ½ mile to the center ¼ section corner of section 16, T. 27 S., R. 19 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of sections 16 and 15, approximately 1½ miles to the ¼ section corner of sections 14 and 15, T. 27 S., R. 19 W., Kateel River Meridian;

Thence northerly, between sections 14 and 15, approximately ½ mile to the corner of sections 10, 11, 14 and 15, T. 27 S., R. 19 W., Kateel River Meridian;

Thence easterly, between sections 11 and 14, 12 and 13, approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 27 S., Rs. 18 and 19 W., Kateel River Meridian;

Thence northerly, between Rs. 18 and 19 W., approximately ½ mile to the ¼ section corner of sections 7 and 12, T. 27 S., R. 18 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of sections 7 and 8, approximately 2 miles to the ¼ section corner of sections 8 and 9, T. 27 S., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 8 and 9, approximately ½ mile to the corner of sections 4, 5, 8 and 9, T. 27 S., R. 18 W., Kateel River Meridian;

Thence easterly, between sections 4 and 9, 3 and 10, approximately 2 miles to the corner of sections 2, 3, 10 and 11, T. 27 S., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 2 and 3, approximately ½ mile to the ¼ section corner of sections 2 and 3, T. 27 S., R. 18 W., Kateel River Meridian;

Thence easterly, on the east and west centerline of section 2, approximately 1 mile to the ¼ section corner of sections 1 and 2, T. 27 S., R. 18 W., Kateel River Meridian;

Thence northerly, between sections 1 and 2, approximately ½ mile to the corners of sections 1, 2, 35 and 36, Tps. 26 and 27 S., R. 18 W., Kateel River Meridian;

Thence easterly, between Tps. 26 and 27 S., approximately 1 mile to the corner of Tps. 26 and 27 S., Rs. 17 and 18 W., Kateel River Meridian;

Thence northerly, between Rs. 17 and 18 W., approximately 7 miles to the corner of sections 25, 30, 31 and 36, T. 25 S., Rs. 17 and 18 W., Kateel River Meridian, the place of beginning.

UMI 1983 FEB 24 ISS 38 VOL 48 4

Thence on an approximate forward bearing of N. 50° W., approximately 9,200 feet to the summit of a low hill, in sections 5 and 8, T. 1 S., R. 101 W., Seward Meridian, approximate elevation 465 feet;

Thence approximately due West, approximately 3,200 feet to the corner of sections 5, 6, 7 and 8, T. 1 S., R. 101 W., Seward Meridian;

Thence northerly, between sections 5 and 6, approximately 1 mile to the closing corner of sections 5 and 6, approximately 1 mile to the closing corner of sections 5 and 6, T. 1 S., R. 101 W., Seward Meridian;

Thence westerly, on the Seward Base Line, approximately 7 1/2 miles to a point due South of the summit of a low hill in the southerly portion of section 36, T. 1 N., R. 102 W., Seward Meridian;

Thence due North, approximately 1,000 feet to the summit of a hill in the southerly portion of section 36, T. 1 N., R. 102 W., Seward Meridian, approximate elevation 540 feet;

Thence on an approximate forward bearing of N. 76° W., approximately 31,300 feet to the summit of a hill in the northwesterly portion of section 19, T. 1 N., R. 102 W., Seward Meridian, approximate elevation 490 feet;

Thence on an approximate forward bearing of S. 70° W., approximately 13,300 feet to the summit of Seemalik Butte in the northeasterly portion of section 27, T. 1 N., R. 103 W., Seward Meridian, approximate elevation 866 feet;

Thence on an approximate forward bearing of S. 80° W., approximately 10,400 feet to the summit of a hill in the southeasterly portion of section 29, T. 1 N., R. 103 W., Seward Meridian, approximate elevation 460 feet;

Thence on an approximate forward bearing of S. 83° W., approximately 18,600 feet to the summit of a hill in the northerly portion of section 35, T. 1 N., R. 104 W., Seward Meridian, approximate elevation 505 feet;

Thence on an approximate forward bearing of S. 47° W., approximately 4,700 feet to the summit a hill in the southeasterly portion of section 34, T. 1 N., R. 104 W., Seward Meridian, approximate elevation 515 feet;

Thence on an approximate forward bearing of N. 31° W., approximately 30,100 feet to a point on the right bank of an unnamed river at the line of mean high tide of the Bering Sea, in the southeasterly portion of setion 6, T. 1 N., R. 104 W., Seward Meridian;

Thence northeasterly, along the line of mean high tide of the Bering Sea, approximately 1,000 feet to the meander corner of sections 5 and 6, T. 1 N., R. 104 W., Seward Meridian;

Thence due North, to a point in the Bering Sea, 7,437.5 feet from the line of mean high tide of the shore of Nunivak Island;

Thence westerly, southeasterly, northeasterly, and northwesterly, along a line 7,437.5 feet from the line of mean high tide of Nunivak Island, including all submerged lands within the described line, to a point 7,437.5 feet due East of the meander corner of sections 6 and 31, Tps. 1 and 2 S., R. 95 W., Seward Meridian;

Thence due West, 7,437.5 feet to the meander corner of sections 6 and 31, Tps. 1 and 2 S., R. 95 W., Seward Meridian, the place of beginning.

UNITS OF THE NATIONAL WILD AND SCENIC RIVERS SYSTEM WITHIN THE YUKON DELTA NATIONAL WILDLIFE REFUGE:

Designated Wild River:

Section 602:

"Andreafsky, Alaska--That portion from its source, including all headwaters, and the East Fork, within the boundary of the Yukon Delta National Wildlife Refuge; to be administered by the Secretary of the Interior."

NOTE: The boundaries of the designated wild river corridors will be determined during the comprehensive conservation of planning process for the Yukon Delta National Wildlife Refuge and will be published upon completion of that plan (due by December 1985).

Designated Study River:

Section 604 (a):

Kisaralik, Alaska--The corridor withdrawn during the course of the study and consideration by Congress consists of those public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of that portion of the Kisaralik River from its entrance into the Yukon Delta National Wildlife Refuge in T. 3 N., R. 61 W., Seward Meridian, to its confluence with the Kuskokwim River.

*Department of the Interior 1:250,000 scale map issued in 1980, incorrectly depicts this portion of the description.

The following USGS quadrangle maps were used to prepare the legal description for the Yukon Delta National Wildlife Refuge:

YU

YUKON DELTA NATIONAL WILDLIFE REFUGE

PUBLIC LAW 96-487

YUKON FLATS NATIONAL WILDLIFE REFUGE

Section 302 (9):

> "The Yukon Flats National Wildlife Refuge shall consist of approximately eight million six hundred and thirty thousand acres of public lands as generally depicted on the map entitled 'Yukon Flats National Wildlife Refuge', dated July 1980."

The Yukon Flats National Wildlife Refuge consists of the public lands, as defined by the ANILCA, within the following boundary:

Beginning at the corner of sections 7, 12, 13 and 18, T. 24 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, 10 and 15, 9 and 16, 8 and 17, approximately 5 miles to the corner of sections 7, 8, 17 and 18, T. 24 N., R. 26 E., Fairbanks Meridian;

Thence southerly, between sections 17 and 18, 19 and 20, 29 and 30, 31 and 32, approximately 4 miles to the corner of sections 5, 6, 31 and 32, Tps. 23 and 24 N., R. 26 E., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 1 mile to the corner of Tps. 23 and 24 N., Rs. 25 and 26 E., Fairbanks Meridian;

Thence southerly, between Rs. 25 and 26 E., approximately 3 miles to the corner of sections 13, 18, 19 and 24, T. 23 N., Rs. 25 and 26 E., Fairbanks Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, 16 and 21, approximately 4 miles to the corner of sections 16, 17, 20 and 21, T. 23 N., R. 25 E., Fairbanks Meridian;

Thence southerly, between sections 20 and 21, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 23 N., R. 25 E., Fairbanks Meridian;

Thence westerly, between sections 20 and 29, 19 and 30, approximately 2 miles to the corner of sections 19, 24, 25 and 30, T. 23 N., Rs. 24 and 25 E., Fairbanks Meridian;

Thence southerly, between Rs. 24 and 25 E., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 23 N., Rs. 24 and 25 E., Fairbanks Meridian;

Thence westerly, between sections 25 and 36, 26 and 35, 27 and 34, 28 and 33, 29 and 32, approximately 5 miles to the corner of sections 29, 30, 31 and 32, T. 23 N., R. 24 E., Fairbanks Meridian;

Thence northerly, between sections 29 and 30, approximately 1 mile to the corner of sections 19, 20, 29 and 30, T. 23 N., R. 24 E., Fairbanks Meridian;

Thence westerly, between sections 19 and 30, 24 and 25, 23 and 26, approximately 3 miles to the corner of sections 22, 23, 26 and 27, T. 23 N., R. 23 E., Fairbanks Meridian;

Thence northerly, between sections 22 and 23, 14 and 15, 10 and 11, 2 and 3, approximately 4 miles to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 N., R. 23 E., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 6 miles to the corner of sections 2, 3, 34 and 35, Tps. 23 and 24 N., R. 22 E., Fairbanks Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, 14 and 15, approximately 3 miles to the corner of sections 14, 15, 22 and 23, T. 23 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between sections 15 and 22, 16 and 21, 17 and 20, 18 and 19, approximately 4 miles to the corner of sections 13, 18, 19 and 24, T. 23 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence northerly, between Rs. 21 and 22 E., approximately 3 miles to the corner of Tps. 23 and 24 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 23 and 24 N., approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 23 and 24 N., R. 21 E., Fairbanks Meridian;

Thence northerly, between sections 35 and 36, 25 and 26, 23 and 24, approximately 3 miles to the corner of sections 13, 14, 23 and 24, T. 24 N., R. 21 E., Fairbanks Meridian;

Thence easterly, between sections 13 and 24, 18 and 19, 17 and 20, approximately 3 miles to the corner of sections 16, 17, 20 and 21, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 16 and 17, approximately 1 mile to the corner of sections 8, 9, 16 and 17, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence easterly, between sections 9 and 16, 10 and 15, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 10 and 11, 2 and 3, approximately 2 miles to the closing corner of sections 2 and 3, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence southerly, between sections 14 and 15, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 30 N., R. 14 E., Fairpanks Meridian;

Thence westerly, between sections 15 and 22, approximately 1 mile to the

Thence northerly, between sections 10 and 11, 2 and 3, approximately 2 miles to the closing corner of sections 2 and 3, T. 24 N., R. 22 E., Fairbanks Meridian;

Thence easterly, along the Sixth Standard Parallel North, approximately 3/4 mile to the standard corner of sections 33 and 34, T. 25 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, approximately 8 miles to the corner of sections 21, 22, 27 and 28, T. 26 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between sections 21 and 28, approximately 1 mile to the corner of sections 20, 21, 28 and 29, T. 26 N., R. 22 E., Fairbanks Meridian;

Thence northerly, between sections 20 and 21, 16 and 17, 8 and 9, 4 and 5, approximately 4 miles to the corner of sections 4, 5, 32 and 33, Tps. 26 and 27 N., R. 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 26 and 27 N., approximately 2 miles to the corner of Tps. 26 and 27 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence northerly, between Rs. 21 and 22 E., approximately 6 miles to the corner of Tps. 27 and 28 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence westerly, between Tps. 27 and 28 N., approximately 6 miles to the corner of Tps. 27 and 28 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence northerly, between Rs. 20 and 21 E., approximately 8 miles to the closing corner of T. 28 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence westerly, along the Seventh Standard Parallel North, approximately 4 1/2 miles to the standard corner of T. 29 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence northerly, between Rs. 19 and 20 E., approximately 12 miles to the corner of Tps. 30 and 31 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence westerly, between Tps. 30 and 31 N., approximately 27 miles to the corner of sections 3, 4, 33 and 34, Tps. 30 and 31 N., R. 15 E., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 30 N., R. 15 E., Fairbanks Meridian;

Thence westerly, between sections 9 and 16, 8 and 17, 7 and 18, 12 and 13, 11 and 14, approximately 5 miles to the corner of sections 10, 11, 14 and 15, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence southerly, between sections 14 and 15, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence westerly, between sections 15 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence southerly, between sections 21 and 22, approximately 1 mile to the corner of sections 21, 22, 27 and 28, T. 30 N., R. 14 E., Fairbanks Meridian;

Thence westerly, between sections 21 and 28, 20 and 29, 19 and 30, approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 30 N., Rs. 13 and 14 E., Fairbanks Meridian;

Thence northerly, between Rs. 13 and 14 E., approximately 2 miles to the corner of sections 7, 17, 13 and 18, T. 30 N., Rs. 13 and 14 E., Fairbanks Meridian;

Thence westerly, between sections 12 and 13, 11 and 14, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 30 N., R. 13 E., Fairbanks Meridian;

Thence northerly, between sections 10 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 N., R. 13 E., Fairbanks Meridian;

Thence westerly, between sections 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 4 miles to the corner of sections 1, 6, 7 and 12, T. 30 N., Rs. 12 and 13 E., Fairbanks Meridian;

Thence southerly, between Rs. 12 and 13 E., approximately 3 miles to the corner of sections 19, 24, 25 and 30, T. 30 N., Rs. 12 and 13 E., Fairbanks Meridian;

Thence westerly, between sections 24 and 25, 23 and 26, 22 and 27, 21 and 28, approximately 4 miles to the corner of sections 20, 21, 28 and 29, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 28 and 29, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence westerly, between sections 29 and 32, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 30 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 31 and 32, approximately 1 mile to the corner of sections 5, 6, 31 and 32, Tps. 29 and 30 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 29 and 30, approximately 1 mile to the corner of sections 29, 30, 31 and 32, T. 26 N., R. 2 E., Fairbanks Meridian;

Thence westerly, between sections 30 and 31, 25 and 36, approximately 2 miles to the corner of sections 25, 26, 35 and 36, T. 26 N., R. 1 E., Fairbanks Meridian;

Thence northerly, between sections 25 and 26, approximately 1 mile to the corner of sections 23, 24, 25 and 26, T. 26 N., R. 1 E., Fairbanks Meridian;

Thence westerly, between sections 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, 24 and 25, 23 and 26, approximately 7 miles to the corner of sections 22, 23, 26 and 27, T. 26 N., R. 1 W., Fairbanks Meridian;

Thence southerly, between sections 26 and 27, approximately 1 mile to the corner of sections 26, 27, 34 and 35, T. 26 N., R. 1 W., Fairbanks Meridian;

Thence westerly, between sections 27 and 34, 28 and 33, 29 and 32, 30 and 31, 25 and 36, 26 and 35, 27 and 34, 28 and 33, approximately 8 miles to the corner of sections 28, 29, 32 and 33, T. 26 N., R. 2 W., Fairbanks Meridian;

Thence northerly, between sections 33 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 25 N., R. 8 W., Fairbanks Meridian;

Thence westerly, between sections 28 and 33, approximately 1/2 mile to the 1/4 section corner of sections 28 and 33, T. 25 N., R. 8 W., Fairbanks Meridian;

Thence northerly, between sections 28 and 29, 20 and 21, 16 and 17, approximately 3 miles to the corner of sections 8, 9, 16 and 17, T. 25 N., R. 8 W., Fairbanks Meridian;

Thence westerly, between sections 8 and 17, approximately 1 mile to the corner of sections 7, 8, 17 and 18, T. 25 N., R. 8 W., Fairbanks Meridian;

Thence northerly, between sections 7 and 18, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 25 N., Rs. 8 and 9 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, 3 and 10, 4 and 9, 5 and 8, 6 and 7, approximately 5 miles to the corner of sections 1, 2, 11 and 12, T. 25 N., R. 9 W., Fairbanks Meridian;

Thence northerly, between sections 1 and 12, approximately 1 mile to the corner of sections 31, 32, T. 26 N., R. 9 W., Fairbanks Meridian;

Thence westerly, between sections 31 and 32, approximately 1 mile to the corner of sections 31, 32, T. 26 N., R. 10 W., Fairbanks Meridian;

Thence southerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 31 and 32, T. 25 N., R. 9 W., Fairbanks Meridian;

Thence westerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 31 and 32, T. 25 N., R. 10 W., Fairbanks Meridian;

Thence southerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 31 and 32, T. 24 N., R. 10 W., Fairbanks Meridian;

Thence westerly, between sections 1 and 12, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 24 N., R. 11 W., Fairbanks Meridian;

Thence southerly, between sections 1 and 12, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 23 N., R. 11 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 23 N., R. 12 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 22 N., R. 12 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 22 N., R. 13 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 21 N., R. 13 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 21 N., R. 14 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 20 N., R. 14 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 20 N., R. 15 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 19 N., R. 15 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 19 N., R. 16 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 18 N., R. 16 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 18 N., R. 17 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 17 N., R. 17 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 17 N., R. 18 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 16 N., R. 18 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 16 N., R. 19 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 15 N., R. 19 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 15 N., R. 20 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 14 N., R. 20 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 14 N., R. 21 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 13 N., R. 21 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 13 N., R. 22 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 12 N., R. 22 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 12 N., R. 23 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 11 N., R. 23 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 11 N., R. 24 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 10 N., R. 24 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 10 N., R. 25 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 9 N., R. 25 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 9 N., R. 26 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 8 N., R. 26 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 8 N., R. 27 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 7 N., R. 27 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 7 N., R. 28 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 6 N., R. 28 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 6 N., R. 29 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 5 N., R. 29 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 5 N., R. 30 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 4 N., R. 30 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 4 N., R. 31 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 N., R. 31 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 N., R. 32 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 2 N., R. 32 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 2 N., R. 33 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 1 N., R. 33 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 1 N., R. 34 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 1 S., R. 34 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 1 S., R. 35 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 2 S., R. 35 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 2 S., R. 36 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 36 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 3 S., R. 37 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 4 S., R. 37 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 4 S., R. 38 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 5 S., R. 38 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 5 S., R. 39 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 6 S., R. 39 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 6 S., R. 40 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 7 S., R. 40 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 7 S., R. 41 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 8 S., R. 41 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 8 S., R. 42 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 9 S., R. 42 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 9 S., R. 43 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 10 S., R. 43 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 10 S., R. 44 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 11 S., R. 44 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 11 S., R. 45 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 12 S., R. 45 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 12 S., R. 46 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 13 S., R. 46 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 13 S., R. 47 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 14 S., R. 47 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 14 S., R. 48 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 15 S., R. 48 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 15 S., R. 49 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 16 S., R. 49 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 16 S., R. 50 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 17 S., R. 50 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 17 S., R. 51 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 18 S., R. 51 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 18 S., R. 52 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 19 S., R. 52 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 19 S., R. 53 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 20 S., R. 53 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 20 S., R. 54 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 21 S., R. 54 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 21 S., R. 55 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 22 S., R. 55 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 22 S., R. 56 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 23 S., R. 56 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 23 S., R. 57 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 24 S., R. 57 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 24 S., R. 58 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 25 S., R. 58 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 25 S., R. 59 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 26 S., R. 59 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 26 S., R. 60 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 27 S., R. 60 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 27 S., R. 61 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 28 S., R. 61 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 28 S., R. 62 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 29 S., R. 62 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 29 S., R. 63 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 S., R. 63 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 30 S., R. 64 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 31 S., R. 64 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 31 S., R. 65 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 32 S., R. 65 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 32 S., R. 66 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 33 S., R. 66 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 33 S., R. 67 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 34 S., R. 67 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 34 S., R. 68 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 35 S., R. 68 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 35 S., R. 69 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 36 S., R. 69 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 36 S., R. 70 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 37 S., R. 70 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 37 S., R. 71 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 38 S., R. 71 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 38 S., R. 72 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 39 S., R. 72 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 39 S., R. 73 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 40 S., R. 73 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 40 S., R. 74 W., Fairbanks Meridian;

Thence southerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 41 S., R. 74 W., Fairbanks Meridian;

Thence westerly, between sections 2 and 11, approximately 1 mile to the corner of sections 2, 3, 10 and 11, T. 41 S., R. 75 W., Fairbanks Meridian;

VOL 48

Thence northerly, between Rs. 7 and 3 W., approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 12 N., Rs. 2 and 3 W., Fairbanks Meridian;

Thence easterly, between sections 6 and 7, 5 and 8, approximately 2 miles to the corner of sections 4, 5, 8 and 9, T. 12 N., R. 2 W., Fairbanks Meridian;

Thence southerly, between sections 8 and 9, 16 and 17, 20 and 21, approximately 3 miles to the corner of sections 20, 21, 28 and 29, T. 12 N., R. 2 W., Fairbanks Meridian;

Thence easterly, between sections 21 and 28, 22 and 27, approximately 2 miles to the corner of sections 22, 23, 26 and 27, T. 12 N., R. 2 W., Fairbanks Meridian;

Thence southerly, between sections 26 and 27, approximately 1/2 mile to the 1/4 section corner of sections 26 and 27, T. 12 N., R. 2 W., Fairbanks Meridian;

Thence easterly, along the east and west centerlines of sections 26, 25, 30, 29, 28, 27 and 26, approximately 7 miles to the 1/4 section corner of sections 25 and 26, T. 12 N., R. 1 W., Fairbanks Meridian;

Thence southerly, between sections 25 and 26, approximately 1/2 mile to the corner of sections 25, 26, 35 and 36, T. 12 N., R. 1 W., Fairbanks Meridian;

Thence easterly, between sections 25 and 36, approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 12 N., Rs. 1 E. and 1 W., Fairbanks Meridian;

Thence northerly, between Rs. 1 E. and 1 W., approximately 3,000 feet to a point on the summit of a ridge between sections 25 and 30, T. 12 N., Rs. 1 E. and 1 W., Fairbanks Meridian;

Thence northeasterly and easterly, along the divide between the Yukon River and Victoria Creek drainages, approximately 31 miles to the summit of a mountain located in the easterly portion of section 7, T. 12 N., R. 5 E., Fairbanks Meridian, approximate elevation 2,905 feet;

Thence on an approximate forward bearing of N. 72° E., approximately 1/2 mile to the headwaters of Glacier Creek located near the center of section 8, T. 12 N., R. 5 E., Fairbanks Meridian;

Thence southeasterly, along the centerline of Glacier Creek, approximately 6 1/2 miles to a point on the right bank of Victoria Creek at the line of mean high water located in the northwesterly portion of section 2, T. 11 N., R. 5 E., Fairbanks Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 12 N., R. 6 W., Fairbanks Meridian;

Thence northerly, between sections 26 and 27, approximately 1 mile to the corner of sections 22, 23, 26 and 27, T. 12 N., R. 6 W., Fairbanks Meridian;

Thence easterly, between sections 23 and 26, 24 and 25, 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, approximately 7 miles to the corner of sections 23, 24, 25 and 26, T. 12 N., R. 5 W., Fairbanks Meridian;

Thence southerly, between sections 25 and 26, 35 and 36, approximately 2 miles to the corner of sections 1, 2, 35 and 36, Tps. 11 and 12 N., R. 5 W., Fairbanks Meridian;

Thence easterly, between Tps. 11 and 12 N., approximately 2 miles to the corner of sections 5, 6, 31 and 32, Tps. 11 and 12 N., R. 4 W., Fairbanks Meridian;

Thence southerly, between sections 5 and 6, approximately 1 mile to the corner of sections 5, 6, 7 and 8, T. 11 N., R. 4 W., Fairbanks Meridian;

Thence easterly, between sections 5 and 8, 4 and 9, approximately 2 miles to the corner of sections 3, 4, 9 and 10, T. 11 N., R. 4 W., Fairbanks Meridian;

Thence northerly, between sections 3 and 4, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 11 and 12 N., R. 4 W., Fairbanks Meridian;

Thence easterly, between Tps. 11 and 12 N., approximately 5 miles to the corner of sections 4, 5, 32 and 33, Tps. 11 and 12 N., R. 3 W., Fairbanks Meridian;

Thence northerly, between sections 32 and 33, approximately 1 mile to the corner of sections 28, 29, 32 and 33, T. 12 N., R. 3 W., Fairbanks Meridian;

Thence easterly, between sections 28 and 33, 27 and 34, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 12 N., R. 3 W., Fairbanks Meridian;

Thence northerly, between sections 26 and 27, 22 and 23, 14 and 15, approximately 3 miles to the corner of sections 10, 11, 14 and 15, T. 12 N., R. 3 W., Fairbanks Meridian;

Thence easterly, between sections 11 and 14, 12 and 13, approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 12 N., Rs. 2 and 3 W., Fairbanks Meridian;

Thence southeasterly, along the right bank of Victoria Creek, approximately 1/2 mile to a point on the right bank of Beaver Creek at the line of mean high water located in the southerly portion of section 2, T. 11 N., R. 5 E., Fairbanks Meridian;

Thence easterly, along the east and west centerlines of sections 19, 20 and 21, approximately 3 miles to the 1/4 section corner of sections 21 and 22, T. 11 N., R. 12 E., Fairbanks Meridian;

Thence southeasterly, along the right bank of Victoria Creek, approximately 1/2 mile to a point on the right bank of Beaver Creek at the line of mean high water located in the southerly portion of section 2, T. 11 N., R. 5 E., Fairbanks Meridian;

Thence northeasterly, along the right bank of Beaver Creek, approximately 9 miles to the centerline of Moose Creek, located in section 31, T. 12 N., R. 6 E., Fairbanks Meridian;

Thence southeasterly, along the centerline of Moose Creek, approximately 9 miles to a point between sections 2 and 11, T. 10 N., R. 6 E., Fairbanks Meridian;

Thence easterly, between sections 2 and 11, 1 and 12, approximately 1 1/4 miles to the corner of sections 1, 6, 7 and 12, T. 10 N., Rs. 6 and 7 E., Fairbanks Meridian;

Thence northerly, between Rs. 6 and 7 E., approximately 1,800 feet to a point on the summit of a ridge between sections 1 and 6, T. 10 N., Rs. 6 and 7 E., Fairbanks Meridian;

Thence northeasterly, easterly and southeasterly, along the divide between Beaver Creek, Discovery Creek, North Fork Preacher Creek, and Preacher Creek, approximately 26 miles to the summit of a mountain in the southeasterly portion of section 4, T. 11 N., R. 10 E., Fairbanks Meridian, approximate elevation 3,338 feet;

Thence northeasterly and southeasterly, along a ravine and the centerline of an unnamed creek, approximately 4 1/2 miles to the centerline of Preacher Creek in the northwesterly portion of section 18, T. 11 N., R. 11 E., Fairbanks Meridian;

Thence northeasterly, along the centerline of Preacher Creek, approximately 10 1/2 miles to the centerline of Rock Creek, located in section 35, T. 12 N., R. 11 E., Fairbanks Meridian;

Thence southerly, along the centerline of Rock Creek, approximately 4 miles to a point between sections 14 and 23, T. 11 N., R. 11 E., Fairbanks Meridian;

Thence easterly, between sections 14 and 23, 13 and 24, approximately 1 3/4 miles to the corner of sections 13, 18, 19 and 24, T. 11 N., Rs. 11 and 12 E., Fairbanks Meridian;

Thence southerly, between Rs. 11 and 12 E., approximately 1/2 mile to the 1/4 section corner of sections 19 and 24, T. 11 N., Rs. 11 and 12 E., Fairbanks Meridian;

Thence easterly, along the east and west centerlines of sections 19, 20 and 21, approximately 3 miles to the 1/4 section corner of sections 21 and 22, T. 11 N., R. 12 E., Fairbanks Meridian;

Thence southerly, between sections 21 and 22, approximately 1/2 mile to the corner of sections 21, 22, 27 and 28, T. 11 N., R. 12 E., Fairbanks Meridian;

Thence easterly, between sections 22 and 27, approximately 1/2 mile to the 1/4 section corner of sections 22 and 27, T. 11 N., R. 12 E., Fairbanks Meridian;

Thence southerly, along the north and south centerline of section 27, approximately 1/2 mile to the center 1/4 section corner of section 27, T. 11 N., R. 12 E., Fairbanks Meridian;

Thence easterly, along the east and west centerlines of sections 27, 26, 25, 30 and 29, approximately 4 1/2 miles to the 1/4 section corner of sections 28 and 29, T. 11 N., R. 13 E., Fairbanks Meridian;

Thence southerly, between sections 28 and 29, 32 and 33, approximately 1 1/4 miles to the centerline of an unnamed creek located in sections 32 and 33, T. 11 N., R. 13 E., Fairbanks Meridian;

Thence northeasterly, along the centerline of an unnamed creek, approximately 9 miles to a point between sections 3 and 4, T. 11 N., R. 14 E., Fairbanks Meridian;

Thence northerly, between sections 3 and 4, 33 and 34, approximately 1 1/2 miles to the 1/4 section corner of sections 33 and 34, T. 12 N., R. 14 E., Fairbanks Meridian;

Thence easterly, along the east and west centerline of section 34, approximately 1/2 mile to the center 1/4 section corner of section 34, T. 12 N., R. 14 E., Fairbanks Meridian;

Thence northerly, along the north and south centerline of section 34, approximately 1/2 mile to the 1/4 section corner of sections 27 and 34, T. 12 N., R. 14 E., Fairbanks Meridian;

Thence easterly, between sections 27 and 34, 26 and 35, 25 and 36, approximately 2 miles to the 1/4 section corner of sections 25 and 36, T. 12 N., R. 14 E., Fairbanks Meridian;

Thence southerly, along the north and south centerline of section 36, approximately 1 mile to the 1/4 section corner of sections 1 and 36, Tps. 11 and 12 N., R. 14 E., Fairbanks Meridian;

UMI

Thence westerly, along the Fourth Standard Parallel North, approximately 1 3/4 miles to the standard corner of T. 17 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence northerly, between Rs. 16 and 17 E., approximately 6 miles to the corner of Tps. 17 and 18 N., Rs. 16 and 17 E., Fairbanks Meridian;

Thence easterly, between Tps. 17 and 18 N., approximately 6 miles to the corner of Tps. 17 and 18 N., Rs. 17 and 18 E., Fairbanks Meridian;

Thence northerly, between Rs. 17 and 18 E., approximately 6 miles to the corner of Tps. 18 and 19 N., Rs. 17 and 18 E., Fairbanks Meridian;

Thence easterly, between Tps. 18 and 19 N., approximately 6 miles to the corner of Tps. 18 and 19 N., Rs. 18 and 19 E., Fairbanks Meridian;

Thence southerly, between Rs. 18 and 19 E., approximately 4 miles to the corner of sections 19, 24, 25 and 30, T. 18 N., Rs. 18 and 19 E., Fairbanks Meridian;

Thence easterly, between sections 19 and 30, 20 and 29, 21 and 28, 22 and 27, 23 and 26, 24 and 25, approximately 6 miles to the corner of sections 19, 24, 25 and 30, T. 18 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence southerly, between Rs. 19 and 20 E., approximately 1 mile to the corner of sections 25, 30, 31 and 36, T. 18 N., Rs. 19 and 20 E., Fairbanks Meridian;

Thence easterly, between sections 30 and 31, 29 and 32, 28 and 33, approximately 3 miles to the corner of sections 27, 28, 33 and 34, T. 18 N., R. 20 E., Fairbanks Meridian;

Thence southerly, between sections 33 and 34, approximately 1 mile to the corner of sections 3, 4, 33 and 34, Tps. 17 and 18 N., R. 20 E., Fairbanks Meridian;

Thence easterly, between sections 3 and 34, approximately 1 mile to the corner of sections 2, 3, 34 and 35, Tps. 17 and 18 N., R. 20 E., Fairbanks Meridian;

Thence southerly, between sections 2 and 3, 10 and 11, approximately 2 miles to the corner of sections 10, 11, 14 and 15, T. 17 N., R. 20 E., Fairbanks Meridian;

Thence easterly, between sections 11 and 14, 12 and 13, approximately 2 miles to the corner of sections 7, 12, 13 and 18, T. 17 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence southerly, between Rs. 20 and 21 E., approximately 4 miles to the standard corner of T. 17 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence easterly, between Tps. 11 and 12 N., approximately 1 1/2 miles to the corner of sections 5, 6, 31 and 32, Tps. 11 and 12 N., R. 15 E., Fairbanks Meridian;

Thence northerly, between sections 31 and 32, 29 and 30, approximately 2 miles to the corner of sections 19, 20, 29 and 30, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence easterly, between sections 20 and 29, 21 and 28, approximately 2 miles to the corner of sections 21, 22, 27 and 28, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence northerly, between sections 21 and 22, approximately 1 mile to the corner of sections 15, 16, 21 and 22, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence easterly, between sections 15 and 22, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence northerly, between sections 14 and 15, approximately 1 mile to the corner of sections 10, 11, 14 and 15, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence easterly, between sections 11 and 14, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence northerly, between sections 11 and 12, approximately 1 mile to the corner of sections 1, 2, 11 and 12, T. 12 N., R. 15 E., Fairbanks Meridian;

Thence easterly, between sections 1 and 12, approximately 1 mile to the corner of sections 1, 6, 7 and 12, T. 12 N., Rs. 15 and 16 E., Fairbanks Meridian;

Thence northerly, between Rs. 15 and 16 E., approximately 1 mile to the closing corner of T. 12 N., Rs. 15 and 16 E., Fairbanks Meridian;

Thence easterly, along the Third Standard Parallel North, approximately 13 1/2 miles to the standard corner of T. 13 N., Rs. 17 and 18 E., Fairbanks Meridian;

Thence northerly, between Rs. 17 and 18 E., approximately 15 miles to the corner of sections 13, 18, 19 and 24, T. 15 N., Rs. 17 and 18 E., Fairbanks Meridian;

Thence westerly, between sections 13 and 24, 14 and 23, 15 and 22, approximately 3 miles to the corner of sections 15, 16, 21 and 22, T. 15 N., R. 17 E., Fairbanks Meridian;

Thence northerly, between sections 15 and 16, 9 and 10, 3 and 4, 33 and 34, 27 and 28, 21 and 22, 15 and 16, 9 and 10, 3 and 4, approximately 9 miles to the closing corner of sections 3 and 4, T. 16 N., R. 17 E., Fairbanks Meridian;

Thence easterly, along the Fourth Standard Parallel North, approximately 1 1/4 miles to the closing corner of sections 3 and 4, T. 16 N., R. 21 E., Fairbanks Meridian;

Thence southerly, between sections 22 and 23, 26 and 27, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 14 N., R. 20 E., Fairbanks Meridian;

Thence easterly, along the Fourth Standard Parallel North, approximately 1 1/4 miles to the closing corner of sections 3 and 4, T. 16 N., R. 21 E., Fairbanks Meridian;

Thence southerly, between sections 3 and 4, 9 and 10, approximately 2 miles to the corner of sections 9, 10, 15 and 16, T. 16 N., R. 21 E., Fairbanks Meridian;

Thence easterly, between sections 10 and 15, 11 and 14, approximately 2 miles to the corner of sections 11, 12, 13 and 14, T. 16 N., R. 21 E., Fairbanks Meridian;

Thence southerly, between sections 13 and 14, 23 and 24, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 16 N., R. 21 E., Fairbanks Meridian;

Thence easterly, between sections 24 and 25, approximately 1 mile to the corner of sections 19, 24, 25 and 30, T. 16 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence southerly, between Rs. 21 and 22 E., approximately 4 miles to the corner of sections 7, 12, 13 and 18, T. 15 N., Rs. 21 and 22 E., Fairbanks Meridian;

Thence westerly, between sections 12 and 13, approximately 1 mile to the corner of sections 11, 12, 13 and 14, T. 15 N., R. 21 E., Fairbanks Meridian;

Thence southerly, between sections 13 and 14, 23 and 24, approximately 2 miles to the corner of sections 23, 24, 25 and 26, T. 15 N., R. 21 E., Fairbanks Meridian;

Thence westerly, between sections 23 and 26, 22 and 27, 21 and 28, 20 and 29, 19 and 30, approximately 5 miles to the corner of sections 19, 24, 25 and 30, T. 15 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence southerly, between Rs. 20 and 21 E., approximately 2 miles to the corner of Tps. 14 and 15 N., Rs. 20 and 21 E., Fairbanks Meridian;

Thence westerly, between Tps. 14 and 15 N., approximately 1 mile to the corner of sections 1, 2, 35 and 36, Tps. 14 and 15 N., R. 20 E., Fairbanks Meridian;

Thence southerly, between sections 1 and 2, 11 and 12, 13 and 14, approximately 3 miles to the corner of sections 13, 14, 23 and 24, T. 14 N., R. 20 E., Fairbanks Meridian;

Thence westerly, between sections 14 and 23, approximately 1 mile to the corner of sections 14, 15, 22 and 23, T. 14 N., R. 20 E., Fairbanks Meridian;

Thence southerly, between sections 22 and 23, 26 and 27, approximately 2 miles to the corner of sections 26, 27, 34 and 35, T. 14 N., R. 20 E., Fairbanks Meridian;

Thence westerly, between sections 27 and 34, approximately 1 mile to the corner of sections 27, 28, 33 and 34, T. 14 N., R. 20 E., Fairbanks Meridian;

Thence southerly, between sections 33 and 34, 3 and 4, 9 and 10, 15 and 16, 21 and 22, 27 and 28, 33 and 34, approximately 7 miles to the standard corner of sections 33 and 34, T. 13 N., R. 20 E., Fairbanks Meridian;

Thence easterly, along the Third Standard Parallel North, approximately 21 miles to the standard corner of T. 13 N., Rs. 23 and 24 E., Fairbanks Meridian;

Thence northerly, between Rs. 23 and 24 E., approximately 12 miles to the corner of Tps. 14 and 15 N., Rs. 23 and 24 E., Fairbanks Meridian;

Thence easterly, between Tps. 14 and 15 N., approximately 18 miles to the corner of Tps. 14 and 15 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 E., approximately 12 miles to the closing corner of T. 16 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence easterly, along the Fourth Standard Parallel North, approximately 2 miles to the standard corner of T. 17 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 E., approximately 24 miles to the closing corner of T. 20 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence easterly, along the Fifth Standard Parallel North, approximately 2 miles to the standard corner of T. 21 N., Rs. 26 and 27 E., Fairbanks Meridian;

Thence northerly, between Rs. 26 and 27 E., approximately 22 miles to the corner of sections 7, 12, 13 and 18, T. 24 N., Rs. 26 and 27 E., Fairbanks Meridian, the place of beginning.

UNITS OF THE NATIONAL WILD AND SCENIC RIVERS SYSTEM WITHIN THE YUKON FLATS NATIONAL WILDLIFE REFUGE:

Designated Wild River:

Section 603:

Beaver Creek, Alaska--The segment of the main stem from the vicinity of the confluence of the Bear and Champion Creeks downstream to its exit from the northeast corner of township 12 north, range 6 east, Fairbanks Meridian within the White Mountains National Recreation Area, and the Yukon Flats National Wildlife Refuge, to be administered by the Secretary of the Interior."

NOTE: The boundaries of that portion of the designated wild river corridor within the Yukon Flats National Wildlife Refuge will be determined during the comprehensive conservation planning process for that refuge and will be published upon completion of that plan (due by December 1985).

Designated Study Rivers:

Section 604 (a):

Porcupine, Alaska--The corridor withdrawn during the course of the study and consideration by Congress consists of those public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of that portion of the Porcupine River from its entrance into the Yukon Flats National Wildlife Refuge in T. 25 N., R. 22 E., Fairbanks Meridian, to its confluence with the Yukon River.

Section 604 (a):

Sheenjek (lower segment), Alaska--The corridor withdrawn during the course of the study and consideration by Congress consists of those public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of that portion of the Sheenjek River from its entrance into the Yukon Flats National Wildlife Refuge in T. 30 N., R. 16 E., Fairbanks Meridian to its confluence with the Yukon River.

The following USGS quadrangle maps were used to prepare the legal description for the Yukon Flats National Wildlife Refuge:

Part IV

Department of Housing and Urban Development

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

Revision of Minimum Property Standards (MPS) for Multifamily Housing

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 200

[Docket No. R-83-1059]

Revision of Minimum Property Standards (MPS) for Multifamily Housing

AGENCY: Department of Housing and Urban Development.

ACTION: Proposed rule.

SUMMARY: HUD proposes to revise its Minimum Property Standards (MPS) for Multifamily Housing. The principal revisions would delete marketability and livability criteria from the present Multifamily MPS to the same extent that they recently have been deleted from the MPS for One- and Two-Family Dwellings and would delete all health and safety criteria in favor of the provisions of nationally recognized model building codes or other State and local codes acceptable to the HUD Area Office.

DATES: Comments Due: April 25, 1983.

ADDRESS: Interested persons are invited to submit comments regarding this rule to the Office of General Counsel, Rules Docket Clerk, Room 10278, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410. Comments should refer to the above docket number and title. A copy of each comment submitted will be available for public inspection and copying during regular business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Richard A. Atwell, Construction Standards Division, Department of Housing and Urban Development, 451 7th Street, S.W., Room 3228, Washington, D.C. 20410, telephone (202) 755-5929. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The proposed revised version of the Minimum Property Standards for Multifamily Housing, HUD 4910.1, will be incorporated by reference into the HUD regulations pursuant to 1 CFR Part 51 and are not published with the notice of proposed rulemaking. However, HUD 4910.1 as proposed to be revised is available for examination in all HUD field offices and in Headquarters Room 3222, Office of Manufactured Housing and Construction Standards, Construction Division, at the above address during regular business hours. HUD's Minimum Property Standards are composed of design, construction and amenities criteria used to determine the acceptablity of new residential construction for a number of HUD programs. These programs include mortgage insurance, public housing, and Section 8 programs other than Existing Housing and Moderate Rehabilitation. There are separate MPS volumes which are applicable to One- and Two-Family Dwellings (HUD 4900.1), Multifamily Housing (HUD 4910.1), and Care-Type Housing (e.g., nursing homes) (HUD 4920.1). There are also minimum property standards stating minimum acceptable levels of quality for existing buildings containing one to four living units and their sites (Handbook 4905.1) and a supplement to the several MPS applicable to new construction intended to provide a technical basis for the planning and design of solar heating and domestic hot water systems (HUD 4930.2). The MPS are published separately and are incorporated by reference into HUD regulations at 24 CFR § 200.927. HUD regulations contemplate periodic updating and revision of the MPS through informal rulemaking procedures including notice and comment and publication in the **Federal Register** (24 CFR § 200.933). This publication proposes substantial revisions to the MPS for Multifamily Housing and republication of HUD 4910.1, as revised, as a whole.

Background

The original MPS (then entitled "Minimum Property Requirements") applied only to a single-family housing and were adopted in 1935, following the passage of the National Housing Act of 1934. The Act was a cornerstone of the Federal Government's effort to rescue and restructure the nation's housing markets by reducing lenders' risks through mortgage insurance while also assisting homeowners and stimulating construction through the encouragement of low down payment loans which would self-amortize over periods as long as 30 years.

Inducement of lenders to enter into this then-radical type of loan required several innovations, including introduction of the MPS. The main underpinning in law for the MPS is in the very title of the National Housing Act: "An Act to encourage improvement in housing standards and conditions, to provide a system of mortgage insurance, and for other purposes". Standards were required to assure lenders of the quality of the housing they were being asked to finance in this new manner while also protecting the FHA insurance fund through assuring that insured properties, if foreclosed and acquired, could be resold at minimum loss to the fund. With the later development of secondary market facilities such as the Federal National Mortgage Association, the MPS also served as a means by which lenders purchasing loans secured by properties outside their areas could be reasonably assured of the acceptability of the properties from an underwriting perspective. A national standard in the form of the MPS was developed because of the uneven quality of codes and building inspection processes and, in many areas, the absence of codes. The first MPS for Multifamily Housing (then entitled "Minimum Requirements for Rental Housing") were adopted in 1939.

Since their origin, HUD's MPS have been revised periodically and their coverage and requirements increased in conjunction with an expanding Federal role in improving the quality of the Nation's housing stock. Today, the MPS apply to FHA-insured housing, to HUD's low-rent public housing and other subsidy programs, and to the Veterans' Administration and Farmers Home Administration housing programs. In addition, the MPS over time have come to be used as a reference standard for many conventionally-financed housing units; many of their provisions have been incorporated into State and local building codes and generally accepted appraisal and underwriting procedures.

In 1974, Congress directed an additional function of the MPS by enactment of Section 526 of the National Housing Act, which requires the Secretary "to the maximum extent feasible * * * [to] promote the use of energy savings techniques through minimum property standards established by him for newly constructed residential housing subject to mortgages insured under this Act" (12 U.S.C. 1735f-4).

Alongside the course of the development and expansion of the MPS, building codes have been developed under the obligations of the States to protect the "health, safety and public welfare" of their citizens. Generally, this obligation has been delegated by the States to local governing bodies. Model building codes have been developed and have gained national recognition as guides to localities for the protection of health and safety.

The evolution of the various model codes with comparable standards and their broad acceptance by local authorities, insurance companies, and banks have fostered movement toward a common market standard. In addition, housing consumers have come to expect a certain size and amenity level and

would be expected to continue to do so if HUD's MPS ceased to exist.

In September 1980, HUD proposed revisions to its MPS for One- and Two-Family Dwellings, a major purpose of which was to remove criteria that did not bear directly on health, life safety, legislative requirements, or durability—that is, to remove "livability" and "marketability" criteria. In March 1981, the Presidential Task Force on Regulatory Relief took note of this proposal and recommended that the review be expanded in scope and extended to the MPS for Multifamily Housing as well. The Task Force commented:

> * * * An expanded review would examine whether much more extensive deletions maybe in order. For numerous objectives of the MPS, alternative government programs and private market forces (e.g., local building codes, homebuilders' warranties) may achieve the same purposes. No improvements in the MPS for Multifamily Dwellings have been proposed to date, but there appear to be equally strong grounds for a comprehensive review of them as well.

In April 1981, the National Institute of Building Sciences also recommended that HUD recognize "any of the nationally recognized model building codes for the protection of health and safety in HUD-insured multifamily housing. Once recognized, the nationally recognized model building code appropriate to the area would become the document HUD would adopt by reference and then would use to measure substantial equivalency of existing State and local code in that area, and use where no code exists in that area."

More recently, the President's Commission on Housing advanced similar recommendations regarding reliance on locally enforced building codes but recognized that marketability and durability concerns may be more serious in the case of multifamily than single-family dwellings. The Commission recommended:

> The Department of Housing and Urban Development, the Farmers Home Administration, and the Veterans Administration should phase out their use of the single and multifamily MPS and depend entirely on locally enforced building codes that are consistent with the One and Two Family Dwelling Code or one of the current nationally recognized model building codes. Additional marketability and durability criteria may be used for federally subsidized multifamily rental housing if required to establish a reasonable level of risk for Federal funds. (Report of the President's Commission on Housing 216 (1982).)

Proposal

The principal revisions of the MPS for Multifamily Housing which are now proposed are the following:

1. Removal of all mandatory criteria relating to livability and marketability, principally from Chapters 3 (Site Design) and 4 (Building Design). This parallels changes recently effected in the MPS for One- and Two-Family Dwellings (45 FR 34344 (August 8, 1982)). The Department believes that market requirements are adequate determines of acceptable performance levels for marketability and livability.

2. Removal of health and safety criteria. Although acceptability of new construction for mortgage insurance requires compliance with minimum health and safety standards, the Department believes that the nationally recognized model building codes establish health and safety criteria which are adequate for these purposes. The nationally recognized codes are the Basic Building Code (Building Officials and Code Administrators International, Inc. (BOCA)), National Building Code (American Insurance Association), Standard Building Code (Southern Building Code Congress), and Uniform Building Code (International Conference of Building Officials). The proposed MPS provides that it is to be used in conjunction with a nationally recognized code which has been adopted by a local government, or a local code which the HUD Area Office has confirmed to be comparable to one of the model codes. If no model code has been adopted and HUD has not confirmed acceptability of a different local code, or if no local code exists, then the HUD Area Office, in consultation with the project's architect, will designate a controlling model code. The provision regarding utilization of a model or local code are contained in Section 102–1 of the proposed revision.

3. Consolidation of various requirements applicable to housing for elderly in a single section (Section 100–1.2).

4. Consolidation of variances required to accomplish accessibility to physically handicapped persons in a single section (Section 100–1.3). This section generally references the American National Standards Institute Standard No. A117.1, Standards for Making Buildings and Facilities Accessible To and Usable by Physically Handicapped People, and identifies the specific construction features which must comply with such standards where building accessibility or unit accessibility are required. The MPS do not contain scoping requirements (i.e., the extent of accessibility or number of accessible units required). Instead, the HUD Field Office will advise as to such scoping requirements on a project-by-project basis, based upon program requirements or other applicable requirements, including implementing regulations adopted under Section 504 of the Rehabilitation Act of 1973.

5. Revision of various specific standards and criteria to make them more comparable to criteria generally utilized for conventionally financed construction.

Other Matters

The Department has determined initially that the proposed revision to the MPS does not constitute a "major rule" as defined in Executive Order 12291. The proposed revision will not result in a major increase in costs or prices and is not likely to have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. Whether the proposal will have "an annual effect on the economy of $100 million or more" is more difficult to predict. Because the MPS directly affects a substantial portion of multifamily construction undertaken in the nation, even a modest reduction of cost per unit may have an aggregate impact nearing or exceeding $100 million. However, the principal cause of difficulty in assessing the impact of the proposal is that the proposal does not, as an absolute matter, remove basic requirements from the construction process but merely defers to other sources for those requirements.

In the area of livability and marketability criteria, for example, removal of criteria from the MPS will permit reliance upon consumer demand as a marketplace influence. Builders, appraisers, and lenders all influence building practices and all have market incentives to assure that newly constructed housing will maintain its marketability. To what degree, if any, new construction will be performed to lower livability or marketability standards as a result of the removal of the specific mandatory criteria contained in the current MPS cannot be accurately assessed.

A similar analysis is made in the area of health and safety criteria. Nearly ever city in the nation has a building code to address health and safety requirements as do other localities, and increasingly States have adopted building codes which apply in areas not covered by local codes. In addition, the four nationally recognized model codes

contain criteria which achieve substantially the same level of protection as the current MPS, although specific provisions differ. Under the proposal, adherence to a standard not lower than that provided by one of the four nationally recognized codes is assured. This may result in cost savings resulting from elimination of overlapping or duplicative alternative means of achieving identical objectives. Again, however, the extent of such savings is difficult to measure.

In view of the foregoing, no preliminary Regulatory Impact Analysis had been prepared with respect to either the changes proposed to be made to the MPS or to the resulting revised MPS taken as a whole. Depending upon the extent to which comments received raise questions regarding the benefits or costs of the proposed rule, a Regulatory Impact Analysis may be prepared in connection with a final rule.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR Part 50, which implement Section 102(2)(c) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection during regular business hours in the Office of the Rules Docket Clerk at the above address.

The Catalog of Federal Domestic Assistance does not apply to this Rule.

This Rule was listed as Item H–82–81 in the Department's most recent Semiannual Agenda of Regulations (47 FR 48422, 48428 (October 26, 1982)) published pursuant to Executive Order 12291 and the Regulatory Flexibility Act.

Pursuant to Section 605(b) of the Regulatory Flexibility Act, the undersigned hereby certifies that this Rule will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 24 CFR Part 200

Administrative practice and procedure, Claims, Equal employment opportunity, Fair housing, Housing standards, Loan programs—housing and community development, Mortgage insurance, Organization and functions (Government agencies), Reporting and recordkeeping requirements, Minimum property standards, Incorporation by reference.

Accordingly, HUD proposes to revise the Minimum Property Standards for Multifamily Housing (incorporated by reference at 24 CFR 200.927 under the title "MPS for Multifamily Dwellings 4910.1").

(Sec. 526, National Housing Act (12 U.S.C. 1735f–4); Section 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

Dated: December 15, 1982.

Philip Abrams,

Assistant Secretary for Housing—Federal Housing Commission.

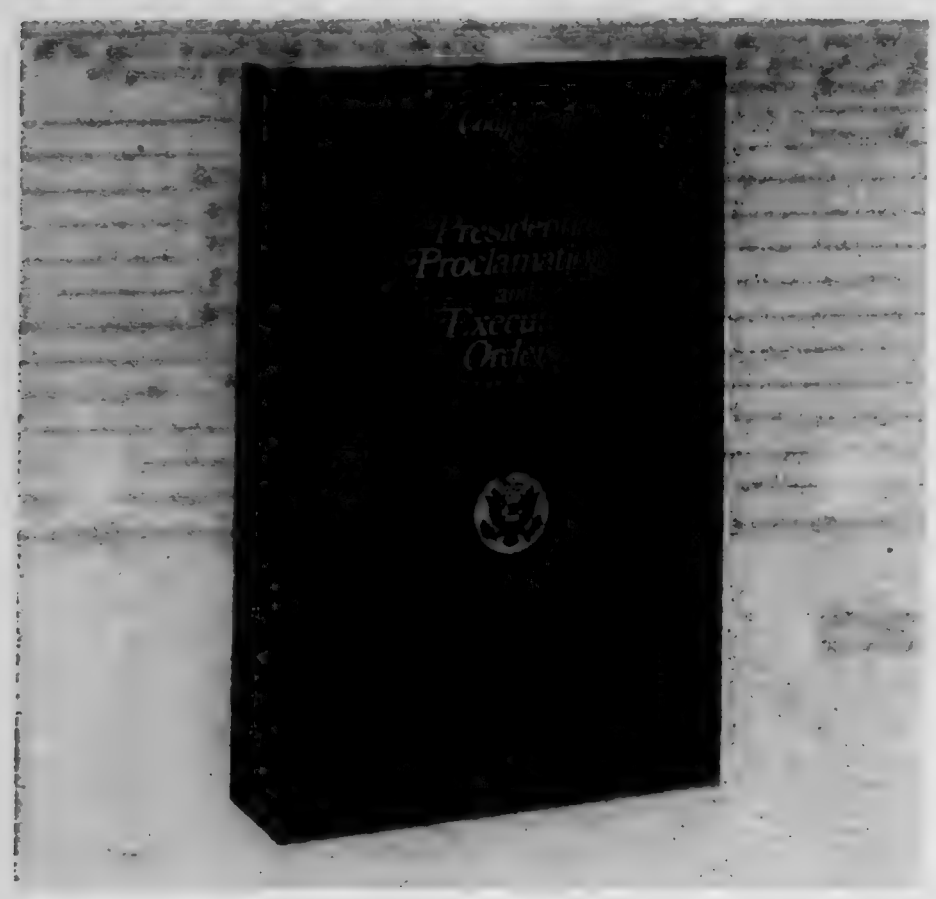
UPDATED EDITION NOW AVAILABLE



For those of you who must keep informed about Presidential proclamations and Executive orders, there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1981, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1981 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Service, General Services Administration

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Executive Order 12408 of February 23, 1983

Reports on International Organizations

By the authority vested in me as President by the Constitution and laws of the United States of America, including specifically Section 301 of Title 3 of the United States Code, it is hereby ordered as follows: Executive Order No. 12374 of July 28, 1982, is amended by adding the following new section:

"Sec. 3. The functions vested in the President by Sections 104(c) and 108(d) of the Department of State Authorization Act, Fiscal Years 1982 and 1983 (Public Law 97–241) are delegated to the Secretary of State.".

Rules and Regulations

Federal Register
Vol. 48, No. 39
Friday, February 25, 1983

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 27

Regulations Under Cotton Futures Act; Removal of Augusta, Ga., From the List of Bona Fide Spot Cotton Markets

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule removes Augusta, Georgia from the list of nine bona fide spot cotton markets designated by the Secretary of Agriculture to be used to establish settlement differences for futures contracts whenever the quality of cotton delivered from the base quality. This is one of several cost-cutting actions made necessary by the reduced Fiscal Year 1983 budget for cotton market news activities. The Augusta spot market has only marginally met the criteria as a designated spot market for a number of years. Its removal will have no impact on settlement differences for futures contracts and no impact on the accuracy or representativeness of daily spot cotton quotations. The revision in this final rule is the same as that published in the proposed rule.

EFFECTIVE DATE: March 28, 1983.

FOR FURTHER INFORMATION CONTACT: Loyd R. Frazier, Chief, Marketing Services Branch, Cotton Division, AMS, USDA, Washington, D.C. 20250, (202) 447–2147.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under the USDA procedures established in accordance with Executive Order 12291 and Secretary's Memorandum 1512–1 and has been classified "non-major" as it does not meet criteria contained therein for major regulatory action.

William T. Manley, Deputy Administrator for Marketing Programs Operations, has determined that this action will not have a significant impact on a substantial number of small business entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because (i) Augusta quotations have not been used for futures contract settlement purposes since 1968, (ii) the accuracy of the daily spot cotton quotations will not be reduced by the removal of Augusta, and (iii) the trading of spot cotton on the Augusta market will not be restricted by this action.

The removal of Augusta as a designated spot cotton market was proposed on November 12, 1982 (47 FR 51147). The Department accepted public comment for 30 days following the publication of this rule. No comments were received during the public comment period in response to the proposal. Expressions of support for the continuation of Augusta as a designated market were received prior to the public comment period and all information presented was taken into account in the preparation of the proposed action as well as this final rule. The rule is made final as it was proposed.

The United States Cotton Futures Act (7 U.S.C. 15b) authorizes the Secretary of Agriculture to designate bona fide spot cotton markets to be used to establish settlement differences for futures contacts whenever the quality of cotton delivered differs from the base quality. The Act directs the Secretary to designate those cotton markets in which spot cotton is sold in such volume and under such conditions as customarily to reflect accurately the value of Middling cotton and the differences between the prices or values of Middling cotton and of other grades for which standards have been established. There are nine markets so designated at the present time. Prices from only seven of these markets are used for futures contract settlement purposes. The other two, Augusta, Georgia and Fresno, California are carried as extra or reserve markets although the Act does not require reserve markets.

Each designated spot market is required to establish and maintain a competent spot quotations committee for the purpose of establishing daily price quotations for that market. The U.S. Department of Agriculture is responsible for the accuracy of the spot quotations established in each designated market. A USDA employee is assigned to each market to collect, analyze, and present pertinent price information at twice-weekly committee meetings.

A reduction in the Fiscal Year 1983 budget for cotton market news activities necessitated a close review of all market news programs on a cost/benefits basis. A number of program reductions were necessary, one of which was the removal of Augusta, Georgia from the list of nine bona-fide spot cotton markets. The Augusta spot market is supervised by a USDA employee headquartered in Macon, Georgia who travels to Augusta each week to canvass the market and meet with the quotations committee. Savings resulting from the removal of the Augusta market will augment savings from other market news program reductions that are necessary to operate within the Fiscal Year 1983 budget.

The Augusta market has only marginally met the criteria for designation for several years and it is currently at a level that is significantly lower than any other bona fide market. The volume of spot cotton traded on the Augusta market declined significantly during the 15 years prior to 1977 and the validity of Augusta's designation as a bona fide spot cotton market became questionable. Due to this continuing downward trend, it was determined in 1977 that the Augusta market no longer met the market designation criteria of the Cotton Futures Act and a rule was issued on October 31 of that year removing Augusta from the list of bona fide spot cotton markets (42 FR 56949). Removal of the Augusta market was subsequently postponed until August 1, 1981 pending an evaluation of the cotton market news needs in the State of Georgia (44 FR 45917). The rule removing Augusta from the list of bona fide spot cotton markets was rescinded on January 14, 1981 due to an increase in participation of Augusta cotton exchange members in the establishment of spot cotton quotations (46 FR 3203).

This increase in participation was accompanied by an increase in reported purchases which strengthened the validity of Augusta's designation as a bona fide spot cotton market. In rescinding the action to remove Augusta, USDA reiterated its responsibility to continue to monitor all

of the designated bona fide spot cotton markets to insure that each one continues to meet the criteria for designation. It was the expectation of USDA that the increased volume of purchases reported on the Augusta market would be supported by an accompanying increase in availability of information on actual transactions in the market.

Although the volume of reported purchases on the Augusta market increased after January 1981, the availability of additional price information on actual transactions failed to materialize. Furthermore, it has been determined that much of the increased volume of reported purchases is Texas grown cotton which is not representative of spot sales of Georgia or southeastern cotton.

The declining volume of locally-produced cotton being traded and the lack of actual sales information indicates that the Augusta market is, at best, only marginally qualified to continue as a bona fide spot cotton market and its value as a spot cotton market reporting point does not warrant its continuation especially within the constraints of a reduced Fiscal Year 1983 budget. In view of the above, it has been determined that the Augusta, Georgia spot market should no longer be designated as a bona fide spot market under the Cotton Futures Act.

List of Subjects in 7 CFR PART 27

Classification, Cotton, Micronaire, Samples.

PART 27—COTTON CLASSIFICATION UNDER COTTON FUTURES LEGISLATION

Accordingly, § 27.93 of the regulations (7 CFR 27.93) promulgated pursuant to the Cotton Futures Act is amended by removing the reference to Augusta, Georgia from the list of bona fide spot cotton markets as follows:

§ 27.93 [Amended]

7 CFR 27.93 is amended by removing the words "Augusta, GA," from the list of bona fide spot markets.

(90 Stat. 1841–1846; 7 U.S.C. 15b)

Dated: January 6, 1983.

William T. Manley,

Deputy Administrator, Marketing Program Operations.

[FR Doc. 83-4721 Filed 2-24-83; 8:45 am]

BILLING CODE 3410-02-M

7 CFR Part 910

[Lemon Reg. 400]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period February 27–March 5, 1983. Such action is needed to provide for orderly marketing of fresh lemons for the period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: February 27, 1983.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has certified that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona lemon crop for the benefit of producers, and will not substantially affect costs for the directly regulated handlers.

This final rule is issued under Marketing Order No. 910, as amended (7 CFR Part 910; 47 FR 50196), regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1982–83. The marketing policy was recommended by the committee following discussion at a public meeting on July 6, 1982. The committee met again publicly on February 22, 1983, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

PART 910—[AMENDED]

Section 910.700 is added as follows:

§910.700 Lemon regulation 400.

The quantity of lemons grown in California and Arizona which may be handled during the period February 27, 1983, through March 5, 1983, is established at 245,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 24, 1983.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 83-5092 Filed 2-24-83; 12:00 pm]

BILLING CODE 3410-02-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Parts 1, 3, and 100

[Order No. 999–83]

Board of Immigration Appeals; Immigration Review Function; Editorial Amendments

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Final rule.

SUMMARY: In order to improve the management, direction and control of the immigration judicial review programs currently within the Immigration and Naturalization Service (INS), the Attorney General has reorganized within the Department of

Justice so as to place the immigration review function with the Board of Immigration Appeals (BIA) under a newly created office entitled the Executive Office for Immigration Review (EOIR). The Excutive Office for Immigration Review will be under the Associate Attorney General's supervision. This realignment will place similar quasi-judicial functions within a single organization and will result in a more effective and efficient operation of the Department's immigration judicial review programs.

EFFECTIVE DATE: February 15, 1983.

FOR FURTHER INFORMATION CONTACT: Kevin D. Rooney; Assistant Attorney General for Administration; U.S. Department of Justice; 10th and Constitution Avenue, N.W., Room 1111; Washington, D.C. 20530. Telephone: (202) 633–3101.

SUPPLEMENTARY INFORMATION: In accordance with the reorganization within the Department of Justice, 8 CFR is being amended to reflect the new functional statements of the Executive Office for Immigration Review, the Board of Immigration Appeals, and the Office of the Chief Special Inquiry Officer.

This order is not a rule within the meaning of either Executive Order 12291, Section 1(a), or the Regulatory Flexibility Act, 5 U.S.C. 601, et seq.

List of Subjects

8 CFR Part 1

Administrative practice and procedure, Immigration.

8 CFR Part 3

Administrative practice and procedure, Authority delegations (Government agencies), Immigration, Organization and function (Government agencies).

8 CFR Part 100

Administrative practice and procedure, Aliens, Authority delegations (Government agencies), Harbors, Organizations and functions (Government agencies), Ports of entry.

By virtue of the authority vested in me, as Attorney General, by 28 U.S.C. 509, 510, 5 U.S.C. 301, and 8 U.S.C. 1103, Parts 1, 3, and 100 of Title 8 of the Code of Federal Regulations, are hereby amended as follows:

PART 1—[AMENDED]

1. Section 1.1 of Part 1 is amended by adding a new paragraph (n) to read as follows:

§ 1.1 Definitions.

* * * * *

(n) The term "Executive Office" means Executive Office for Immigration Review.

2. Section 2.1 is revised to read as follows:

§ 2.1 Authority of the Commissioner.

Without divesting the Attorney General of any of his powers, privileges, or duties under the immigration and naturalization laws, and except as to the Executive Office, the Board, the Office of the Chief Special Inquiry Officer, and Special Inquiry Officers, there is delegated to the Commissioner the authority of the Attorney General to direct the administration of the Service and to enforce the Act and all other laws relating to the immigration and naturalization of aliens. The Commissioner may issue regulations as deemed necessary or appropriate for the exercise of any authority delegated to him by the Attorney General, and may redelegate any such authority to any other officer or employee of the Service.

3. Part 3 is amended by:

a. Revising the heading of Part 3 to read as follows:

PART 3—EXECUTIVE OFFICE FOR IMMIGRATION REVIEW

b. Adding a new § 3.0 to read as follows:

§ 3.0 Executive Office for Immigration Review.

The Executive Office for Immigration Review shall be headed by a Director, who shall be responsible for the general supervision of the Board of Immigration Appeals and the Office of the Chief Special Inquiry Officer in the execution of their duties in accordance with 8 CFR Part 3. The Director may redelegate the authority delegated to him by the Attorney General to the Chairman of the Board of Immigration Appeals or the Chief Special Inquiry Officer. The Director shall be assisted in the performance of his duties by an Executive Assistant.

c. Designating §§ 3.1–3.8 as Subpart A and adding a heading for Subpart A as follows:

Subpart A—Board of Immigration Appeals.

d. Revising the heading of § 3.1 and revising paragraphs (a)(1) and (2), (c), (d)(2) and (3) and (g) to read as follows:

§ 3.1 General authorities.

(a)(1) *Organization.* There shall be in the Department of Justice a Board of Immigration Appeals, subject to the general supervision of the Director, Executive Office for Immigration Review. The Board shall exercise so much of the immigration and nationality laws as he may delegate to it. The Board shall consist of a Chairman and four other members. A vacancy, or the absence or unavailability of a Board Member, shall not impair the right of the remaining members to exercise all the powers of the Board, and three members of the Board shall, at all times, constitute a quorum of the Board. There shall also be attached to the Board such number of attorneys and other employees as the Associate Attorney General, upon recommendation of the Chairman, shall from time to time direct.

(2) *Chairman.* The Chairman shall direct, supervise, and establish internal operating procedures and policies of the Board. He shall designate a member of the Board to act as Chairman in his absence or unavailability. The Chairman shall be assisted in the performance of his duties by a Chief Attorney Examiner, who shall be directly responsible to the Chairman. The Chief Attorney Examiner shall serve as an Alternate Board Member when, in the absence or unavailability of a Board Member or Members, his participation is deemed necessary by the Chairman. Once designated, his participation in a case shall continue to its normal conclusion.

* * * * *

(c) *Jurisdiction by certification.* The Commissioner, or any other duly authorized officer of the Service, any Special Inquiry Officer, or the Board may in any case arising under paragraph (b) of this section require certification of such case to the Board.

(d) * * *

(2) *Finality of decision.* The decision of the Board shall be final except in those cases reviewed by the Attorney General in accordance with paragraph (h) of this section. The Board may return a case to the Service or Special Inquiry Officer for such further action as may be appropriate, without entering a final decision on the merits of the case.

(3) *Rules of practice: discipline of attorneys and represenatives.* The Board shall have authority, with the approval of the Director, EOIR, to prescribe rules governing proceedings before it. It shall also determine whether any organization desiring representation is of a kind described in § 1.1(j) of this chapter, and shall regulate the conduct of, and may disbar for cause, attorneys, representatives of organizations, and others who appear in a representative

capacity before the Board or the Service or any Special Inquiry Officer.

* * * * *

(g) *Decisions of the Board as precedents.* Except as they may be modified or overruled by the Board or the Attorney General, decisions of the Board shall be binding on all officers and employees of the Service or Special Inquiry Officers in the administration of the Act, and selected decisions designated by the Board shall serve as precedents in all proceedings involving the same issue or issues.

* * * * *

e. Revising paragraph (c) of § 3.3 to read as follows:

§ 3.3 Notice of appeal.

* * * * *

(c) *Briefs.* Briefs in support of or in opposition to an appeal shall be filed in triplicate with the officer of the Service having administrative jurisdiction over the case within the time fixed for appeal or within any other additional period designated by the Special Inquiry Officer or Service Officer who made the decision. Such Special Inquiry Officer or the Board for good cause may extend the time for filing a brief or reply brief. The Board in its discretion may authorize the filing of briefs directly with it, in which event the opposing party shall be allowed a specified time to respond.

f. Revising paragraph (b) of § 3.8 to read as follows:

§ 3.8 Motion to reopen or motion to reconsider.

* * * * *

(b) *Distribution of motion papers when alien is moving party.* In any case in which a motion to reopen or a motion to reconsider is made by the alien or other party affected, the three copies of the motion papers shall be submitted to the officer of the Service having administrative jurisdiction over the place where the proceedings were conducted. Such officer shall retain one copy, forward one copy to the officer of the Service or Special Inquiry Officer who made the initial decision in the case, and submit the third copy with the case to the Board.

* * * * *

g. Adding a Subpart B as set forth below:

Subpart B—Office of the Chief Special Inquiry Officer

§ 3.9 Chief Special Inquiry Officer.

The Chief Special Inquiry Officer shall be reponsible for the general supervision, direction and scheduling of the Special Inquiry Officers in the conduct of the various programs assigned to them. This shall include:

(a) Establishment of operational policies;

(b) Evaluation of the performance of Special Inquiry Officer offices, making appropriate reports and inspections and taking corrective action where indicated.

§ 3.10 Special Inquiry Officers.

Special Inquiry Officers shall exercise the powers and duties in this chapter regarding the conduct of exclusion and deportation hearings and such other proceedings which the Attorney General may assign them to conduct.

PART 100—[AMENDED]

4. Part 100 is amended by revising paragraph (a) of § 100.2 to read as follows:

§ 100.2 Organization and delegations.

(a) The Attorney General has delegated to the Commissioner, the principal officer of the Immigration and Naturalization Service, authority to direct the administration of the Service and enforce the Act and all other laws relating to immigration and naturalization, except the authority delegated to the Executive Office for Immigration Review, the Board of Immigration Appeals, the Office of the Chief Special Inquiry Officer, or Special Inquiry Officers. The Deputy Commissioner is authorized to exercise all power and authority of the Commissioner unless any such power or authority is required to be exercised by the Commissioner personally or has been exclusively delegated to another immigration offical or class of immigration officer. Subject to the general supervision of the Commissioner and the direction of the Deputy Commissioner, the Associate Commissioners have responsibility for Service program development, coordination, evaluation and counseling relating to Service policy and recommendations within their program areas of activity and general direction of the Assistant Commissioners with technical responsibility for each of the program areas as follows: The Associate Commissioner, Examinations, the Adjudications, Inspections, and Citizenship and Naturalization programs and general direction of the Assistant Commissioners for Adjudications, Inspections, and Naturalization; the Associate Commissioner, Enforcement, the Border Patrol, Investigations, and Detention and Deportation programs and general direction of the Assistant Commissioners for Border Patrol, Investigations, and Detention and Deportation; the Associate Commissioner, Management, the Administrative, Records and Information, and Personnel programs and general direction of the Assistant Commissioners for Administration, Information Services, and Personnel. The Assistant Commissioners have responsibility for the planning, coordinating, evaluating, and technical counseling relating to their program areas as follows: The Assistant Commissioner for Adjudications, the Adjudicative programs; the Assistant Commissioner for Inspections, the Inspection Programs; the Assistant Commissioner for Naturalization, the Citizenship and Naturalization programs; the Assistant Commissioner for Border Patrol, the Border Patrol programs; the Assistant Commissioner for Investigations, the Investigations programs; the Assistant Commissioner for Detention and Deportation, Detention and Deportation programs; the Assistant Commissioner for Administration, the Administrative programs; the Assistant Commissioner for Information Services, the Records Administration and Information, Statistics, and Automated Data Processing programs; the Assistant Commissioner for Personnel, the Personnel programs.

BILLING CODE 4410-01-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 531

FSLIC-Guaranteed Advances; Loans to the Federal Savings and Loan Insurance Corporation

Dated: February 10, 1983.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule.

SUMMARY: As the first step in implementing sections 352 and 125 of the Garn-St Germain Depository Institutions Act of 1982, the Federal Home Loan Bank Board has adopted a policy statement that (1) directs the Federal Home Loan Banks ("Banks") to include in their credit policies a category of advances secured by a written guarantee of repayment from the Federal Savings and Loan Insurance Corporation ("FSLIC") and (2)

authorizes the Banks to make loans to the FSLIC.

EFFECTIVE DATE: February 18, 1983.

FOR FURTHER INFORMATION CONTACT: Bobby Hughes (202–377–6612), Deputy Director, Office of Federal Savings and Loan Insurance Corporation; Susan C. Evans (202–377–6658), Senior Financial Analyst, Office of District Banks; or Deborah C. Jenkins (202–377–6464), Attorney, Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: The recently enacted Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97–320, 96 Stat. 1469 ("DIA"), among other things, authorizes the Banks to make loans to the FSLIC, eliminates the extensive collateralization requirements for advances made pursuant to section 10 of the Federal Home Loan Bank Act ("Bank Act"), 12 U.S.C. 1430 (1976 & Supp. IV 1980), and empowers the Federal Home Loan Bank Board ("Board") to prescribe the requisite security for such advances. As a first step in implementing these provisions of the DIA, the Board has adopted a policy statement, to be codified as 12 CFR 531.2, directing each Bank to include in its credit policy a category of advances secured by a written guarantee of repayment from the FSLIC and authorizing the Banks to make loans directly to the FSLIC.

FSLIC-Guaranteed Advances

The FSLIC, with the express approval of the Board, on occasion has entered into written agreements with various Banks, guaranteeing the repayment of advances made to members with insufficient collateral to obtain advances under the existing credit policies of their Banks, to prevent default of such insured institutions, but only during the period that an acceptable supervisory solution was being arranged by the FSLIC. The FSLIC will continue to guarantee advances when, in its judgment, such action will facilitate transactions undertaken pursuant to its authority under section 406(f) of the National Housing Act, 12 U.S.C. 1729(f) (1976 & Supp. IV 1980), as amended by the DIA, to prevent default of an insured institution or to restore an insured institution in default to normal operations. Such actions include providing financial assistance to another institution that has merged or consolidated with, or purchased the assets and assumed the liabilities of, a failing institution.

Pursuant to section 10(a) of the Bank Act, 12 U.S.C. 1430(a) (1976), as amended by section 352 of the DIA, 96 Stat. 1469, 1507, each Bank is authorized to make advances to its members upon such security as the Board may prescribe. Implementing partially section 352 of the DIA, the Board has determined that a guarantee of repayment agreement entered into by the FSLIC with a Bank constitutes security for an advance made pursuant to section 10 of the Bank Act. Accordingly, the Board has adopted paragraph (a) of new section 531.2 of the Federal Home Loan Bank System Regulations, which directs the Banks to include in their credit policies a category of advances secured by a written guarantee of repayment from the FSLIC.

Since the FSLIC may guarantee an advance when a member institution is unable to qualify under the normal credit policy of its Bank, paragraph (a) of new § 531.2 permits a Bank to make an advance upon the security of a written guarantee of repayment from the FSLIC, without regard to the Bank's normal underwriting standards dealing with the creditworthiness of an institution. The terms and conditions of such advances shall conform to those set forth in paragraph (b) of the Board's Policy Statement on Advances to Members, 12 CFR 531.1(b), as amended by Board Resolution No. 82–789 (Dec. 8, 1982), 47 FR 56316 (Dec. 16 , 1982), which requires that the Banks generally offer a range of maturities up to ten years, price advances above the replacement cost of Bank obligations, and charge prepayment and commitment fees. In addition, the borrowing member must satisfy the capital maintenance requirement of section 10(c) of the Bank Act, 12 U.S.C. 1430(c) (1976), as amended by section 352 of the DIA, which states that the total of all outstanding advances of a member shall not exceed twenty times the amount of the capital stock investment of such member in its Bank.

It is the Board's opinion that the boards of directors of the Banks can administer their credit policies, including implementation of a category of advances secured by a written guarantee of repayment from the FSLIC, fairly and without discriminating for or against any member and without adversely affecting the claims and demands of other member institutions or the credit standing of the Banks and their obligations, in accordance with section 7(j) of the Bank Act, 12 U.S.C. 1427(j) (1976).

Loans to the Federal Savings and Loan Insurance Corporation

Section 125 of the DIA (96 Stat. 1469, 1485), amending section 402(d) of the National Housing Act, 12 U.S.C. 1725(d) (1976 & Supp. IV 1980), expands the FSLIC's borrowing authority by permitting it to borrow from the Banks upon certain prescribed terms. The DIA, in adding section 11(k) of the Bank Act (to be codified as 12 U.S.C. 1431(k)), also authorizes the Banks to lend to the FSLIC. To implement this section, the Board has determined that the loans to the FSLIC shall bear interest at rates equal to the rates on advances with comparable maturities that are offered to members of the Bank or Banks making the loan, and shall be secured or unsecured, as determined by the Board. In addition, such loans shall be subject to the existing prepayment policy and fees and commitment fees of the Bank or Banks making the loan. For purposes of reflecting this new authorization, the Board has adopted paragraph (b) of new section 531.2, which provides that the Banks shall make loans to the FSLIC in accordance with the conditions set forth in section 125 of the DIA and certain prescribed terms and conditions that are similar to those upon which the Banks make advances to their members.

The Board finds that observance of the notice and comment procedures prescribed by 5 U.S.C. 553(b) and 12 CFR 508.12, 508.13, and delay of the effective date pursuant to 5 U.S.C. 553(d) and 12 CFR 508.14, are unnecessary for the following reasons: (1) this policy statement is interpretative in that it states and clarifies the Board's interpretation of several provisions of the recently enacted Garn-St Germain Depository Institutions Act of 1982; and (2) it is in the public interest for this policy statement to take effect at the earliest feasible time to assist the Federal Savings and Loan Insurance Corporation in its efforts to aid failing thrift institutions.

List of Subjects in 12 CFR Part 531

Federal home loan banks.

Accordingly, the Federal Home Loan Bank Board hereby amends Part 531, Subchapter B, Chapter V of Title 12 of the Code of Federal Regulations, as set forth below.

SUBCHAPTER B—REGULATIONS FOR THE FEDERAL HOME LOAN BANK SYSTEM

PART 531—STATEMENTS OF POLICY

Add a new § 531.2 as follows:

§ 531.2 Policy on Federal Savings and Loan Insurance Corporation-guaranteed advances and loans to the Federal Savings and Loan Insurance Corporation.

(a) *Guaranteed advances.* Each Bank shall include in its credit policy advances that are secured by a written

guarantee of repayment from the Federal Savings and Loan Insurance Corporation ("Corporation"). Such guaranteed advances generally shall conform to the conditions set forth in § 531.1(b) of this Part.

(b) *Loans to the Corporation.* After application by the Corporation to the Board and when directed to do so by the Board, the Federal Home Loan Bank(s) shall make loans to the Corporation. Any loan to the Corporation by the Banks or a Bank shall satisfy the following conditions as well as any other conditions that may be imposed by the Board:

(1) Such loans may be secured or unsecured, as determined by the Board;

(2) Such loans shall be made by one or more Banks, as determined by the Board;

(3) Such loans shall bear interest at rates equal to the rates on advances with comparable maturities that are offered to members of the Bank or Banks making the loans; and

(4) Such loans shall be subject to existing prepayment policies and fees and commitment fees of the Bank or Banks making the loans.

BILLING CODE 6720-01-M

CIVIL AERONAUTICS BOARD

14 CFR Part 202

[Amdt. No. 5; Docket 40734; Regulation ER-1325]

Certificates Authorizing Scheduled Route Service; Terms, Conditions, and Limitations

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury and death in international travel at not less than $75,000 per person. This rule conditions air carrier certificates for scheduled air transportation to require that the carrier become a party to the Montreal Agreement and comply with the Board rule implementing it.

DATES: In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673-5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673-5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER-1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 202

Air carriers, Airports.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 202, *Certificate Authority for Scheduled Route Service: Terms, Conditions and Limitations*, as follows:

PART 202—[AMENDED]

1. The authority for Part 202 is:

Authority: Secs. 204, 401, Pub. L. 85-726, as amended, 72 Stat. 743, 754, 49 U.S.C. 1324, 1371.

2. A new § 202.12 is added to read:

§ 202.12 Filing requirements for adherence to Montreal Agreement.

It shall be a condition upon the holding of a certificate that the holder have and maintain in effect and on file with the Board a signed counterpart of CAB Agreement 18900 (CAB Form 263), and a tariff (for those carriers otherwise generally required to file tariffs) that includes its terms, and that the holder comply with all other requirements of Part 203. CAB Form 263 may be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

3. The table of contents is amended by adding a new § 202.12 to read:

Sec.

* * * * *

202.12 Filing requirements for adherence to Montreal agreement.

* * * * *

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

[FR Doc. 83-4800 Filed 2-24-83; 8:45 am]

BILLING CODE 6320-01-M

14 CFR Part 203

[Docket 40734; Regulation ER-1324]

Waiver of Warsaw Convention Liability Limits and Defenses

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement. Under that Agreement, the carriers waive the Warsaw Convention provisions which limit their liability for deaths or injuries to international passengers so as to provide a higher limit of not less than $75,000 per person. Carriers are also precluded under the Agreement from asserting the defense allowed by the Warsaw Convention of proof that they were not negligent. Under the rule, carriers that have operating authority from the Board or operate in air transportation are deemed to have accepted the provisions of the Montreal Agreement. The rule further requires that carriers make the terms of the Montreal Agreement part of their transportation contract with the passenger. The new rules will insure that all international passengers will have the benefit of the higher liability limits and standards of the Montreal Agreement.

DATES: Effective March 28, 1983. In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in § 203.3, have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673-5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673-5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The Warsaw Convention (49 Stat. 3000), to which the United States is a party, provides a low liability limit for airlines with respect to deaths of, or injuries suffered by, their international passengers. It also includes a provision that permits carriers to exonerate themselves from liability if they prove that they were not negligent. However, in 1966, carriers operating to the United States became parties to the so-called Montreal Agreement (CAB Agreement 18900). Under that Agreement, the participating carriers waive the

Convention's passenger liability limit up to $75,000, and waive the carrier defense of proof of non-negligence.

Our past rules only required that commuter air carriers and certain other U.S. air taxi operators become parties to the Montreal Agreement. In addition, a standard condition in foreign air carrier permits required that foreign air carriers become signatories. Since U.S. certificated carriers had voluntarily adhered to the Montreal Agreement, we had not previously found it necessary to require their adherence by rule.

As a result of the Airline Deregulation Act (Pub. L. 95–504), and the licensing of many new U.S. certificated carriers, it became apparent that all U.S. certificated air carriers should be required to become parties to the Montreal Agreement, rather than relying on voluntary compliance, and that all Board requirements on this subject should be consolidated. A rule requiring adherence to the Agreement by all direct U.S. and foreign air carriers will assure that international passengers will not be subjected to the unconscionably low passenger liability limit applicable under the Convention in the absence of the Agreement. Accordingly, by EDR–443 (47 FR 25019, June 9, 1982), the Board proposed amendments to our rules to accomplish this objective.

Only two comments have been received in response to the proposed rule. Executive Air Fleet Corporation, an air taxi operator, expressed its support for the provisions.

Southwest Airlines Co. requested that the proposed rule be modified to exclude from the required adherence to the Montreal Agreement certificated air carriers that do not engage in foreign air transportation, and do not interline on their system. Southwest contended that the rule's applicability to such certificated carriers, which, according to Southwest, would not be subject to the liability limitations of the Warsaw Convention, would be unnecessarily burdensome. The rule, requiring a ticket notice, would be especially burdensome to Southwest, it further argued, since it uses a simple register receipt as a ticket instead of the uniform ticket stock used by other carriers. Southwest points to the exclusion from the applicability of the rule of certain air taxi operators in support of its request.

The Board has decided to adopt the rule without change.

It is true that the Warsaw Convention would hardly ever apply to a carrier such as Southwest which exclusively engages in domestic service and does not participate in interline agreements. This is because, in the absence of interlining, any connecting traffic to a foreign point would require double ticketing. Under such circumstances, it is not likely that the transportation would be construed as an international journey under the Warsaw Convention.

Nevertheless, the Convention by its terms applies to wholly domestic segments of a through international journey, even where the carrier performing the domestic segment neither performs, nor is authorized to engage in, foreign air transportation. Indeed, the Warsaw Convention may be applied to connecting successive carriage, even where double ticketing is involved, "if it has been regarded by the parties as a single operation." (Art. 1(3).) Although it is unlikely that a court would find transportation on Southwest as part of an international journey, there exists a small risk that a court might in the future conclude that a passenger traveling on Southwest in order to connect with a flight of another carrier to a foreign point on a separate ticket was subject to the provisions of the Warsaw Convention. Should Southwest in the future engage in interlining, so that a connecting foreign flight could be included on a single ticket, it would, of course, become probable that the Warsaw Convention would apply in many cases.

While the risk of applicability of the Convention may not be large, the burden of the rule, at least with respect to the one time filing of the Montreal Agreement, and inclusion of appropriate provisions in Southwest's conditions of carriage, is minimal. Therefore, we conclude that the public interest requires that the rule be applicable to all domestic scheduled carriers, even those that voluntarily choose to refrain from interlining arrangements with other carriers. Otherwise there would exist an unnecessary risk that recovery against the airline for death or injury of a passenger might be unconscionably limited because of the unanticipated applicability of the Warsaw Convention, and the failure of the carrier to adhere to the Montreal Agreement. The application of this rule (Part 203) in no way implies applicability of the Convention under any particular circumstances.

The proper remedy for Southwest's ticketing problems, or that of any other air carrier or foreign air carrier, is not inapplicability of the rule, but rather application to the Board for approval under, or exemption from, the provisions of § 221.175 to authorize use of alternative forms of passenger liability notice. Southwest or any other carrier with similar ticketing procedures may thus ask for changes in the notice required by this rule and § 221.175. The Board will consider such requests as it does other requests for waivers or modifications of Board notice requirements.

Carriers should be aware, however, that Article 3 of the Warsaw Convention has been interpreted by some courts as precluding the carrier from availing itself of the Convention's limitations on liability, unless the carrier delivers a ticket to the passenger with a readable notice of the limits of liability. *Lisi v. Alitalia—Linee Aeree Italiane, S.p.A.*, 370 F. 2d 508 (CA2, 1966), *aff'd.* by an equally divided Supreme Court, 390 U.S. 455 (1968). See also, *In Re Air Crash Disaster at Warsaw, Poland, on March 14, 1980,* 535 F. Supp. 833, 835–39 (E.D.N.Y. 1982).

A carrier could also consider incorporation in its conditions of carriage of a provision that the carrier does not avail itself of the limits of liability of the Warsaw Convention, and agrees that no limit of liability shall apply, even in the event that the Convention should be applicable. Such a provision would constitute a special contract between the airline and its passengers under Article 22(1) of the Convention, and would avoid the otherwise existing possibility that passengers might unconscionably be limited in their recovery for death or injuries against the airline by reason of the liability limits of the Convention. In such circumstances, the liability limit notice would be superfluous. A provision to this effect should be submitted with an application for a waiver.

The exemption for certain air taxi operators is not inconsistent with the application of the rule to Southwest. To the contrary, all commuter air carriers (air taxi operators conducting scheduled operations) are subject to these regulations whether or not they engage in foreign air transportation or interline with other carriers. The exception applies only to "on-demand" air taxi operators who neither interline nor engage in foreign air transportation. There is a difference, however, between the operations of Southwest and those of the such on-demand air taxi operators. The possibility of passengers using those air taxi operators as part of an international journey is exceedingly remote. This is not the case with certificated air carriers not engaging in interline operations but providing substantial scheduled service.

The rules thus require all U.S. and foreign direct air carriers (except certain domestic air taxi operators) to become parties to the Montreal Agreement by filing a signed counterpart of the

Agreement with the Board (CAB Form 263). Carriers issued license authority by the Board or operating in air transportation would be deemed to have accepted the Agreement's provisions with the same effect as if they had signed a counterpart of the Agreement.

The rule further requires, in accordance with the requirement of the Montreal Agreement, that a carrier give notice of the liability limit as provided by 14 CFR 221.175, along with the passenger ticket. In addition, it specifies that participation in the Agreement shall constitute an agreement between the carrier and its passengers that for death or injury a liability limit of not less than $75,000 shall apply under Article 22(1) of the Convention. These provisions insure that the procedure of Article 22(1) of the Convention, for a special contract between the carrier and its passengers to provide for higher limits of liability, has been properly implemented.

Finally, to facilitate adherence to the Montreal Agreement by commuter carriers and other air taxi operators to which the rule applies, the Montreal Agreement is incorporated by reference into a revised CAB Form 298–A so that execution of the Air Taxi Registration Form will constitute adherence to the Montreal Agreement. Registered air taxi operators who are currently parties to the Montreal Agreement, as required by 14 CFR 298.3, need not re-register. The previous requirement of § 298.70, that commuter carriers and other air taxi operators required to adhere to the Montreal Agreement file a special tariff incorporating its terms, is deleted.

Contemporaneously with the adoption of this rule, technical implementing amendments are also being made to Parts 202, 204, 208, 211, 212, 213, 294 and 298. Part 215 is also being amended to require a new filing upon the change of the name of an air carrier.

CAB Form 263 is attached to Part 203 as Appendix A. CAB Form 298–A (Rev.) is also attached to this rule for information.

Final Regulatory Flexibility Analysis

The discussion above constitutes the Board's final regulatory flexibility analysis of the rule pursuant to the Regulatory Flexibility Act (5 U.S.C. 604). Copies of this document can be obtained from the Distribution Section, Civil Aeronautics Board, Washington, D.C. 20428, 202–673–5432, by referring to the "ER" number at the top of the document.

List of Subjects in 14 CFR Part 203

Air carriers, Air transportation, Foreign relations, Intergovenmental relations.

Accordingly, the Board amends 14 CFR Chapter II by adding a new Part 203 to read:

PART 203—WAIVER OF WARSAW CONVENTION LIABILITY LIMITS AND DEFENSES

Sec.
203.1 Scope.
203.2 Applicability.
203.3 Filing requirements for adherence to Montreal Agreement.
203.4 Montreal Agreement as part of airline-passenger contract and conditions of carriage.
203.5 Compliance as condition on operations in air transportation.

Authority: Secs. 101, 204, 401, 402, 403, 404, 407, 408, 411, 416, 417, 418, 419, Pub. L. 85–726, as amended, 72 Stat. 737, 743, 754, 757, 758, 760, 766, 767, 769, 771; 76 Stat. 145; 91 Stat. 1284; 92 Stat. 1732; 49 U.S.C. 1301, 1324, 1371, 1372, 1373, 1374, 1377, 1378, 1381, 1386, 1387, 1388, 1389.

§ 203.1 Scope.

This part requires that certain U.S. and foreign direct air carriers waive the passenger liability limits and certain carrier defenses in the Warsaw Convention in accordance with the provisions of CAB Agreement 18900, dated May 13, 1966, and provides that acceptance of authority for, or operations by the carrier in, air transportation shall be considered to act as such a waiver by that carrier.

§ 203.2 Applicability.

This part applies to all direct U.S. and foreign direct air carriers, except for air taxi operators as defined in Part 298 of this chapter that (a) are not commuter air carriers, (b) do not participate in interline agreements, and (c) do not engage in foreign air transportation.

§ 203.3 Filing requirements for adherence to Montreal Agreement.

All direct U.S. and foreign air carriers shall have and maintain in effect and on file in the Board's Docket Section (Docket 17325) on CAB Form 263 a signed counterpart to CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and Hague Protocol approved by Board Order E–23680, dated May 13, 1966, (the Montreal Agreement), and a signed counterpart of any amendment or amendments to such Agreement that may be approved by the Board and to which the air carrier or foreign air carrier becomes a party. U.S. air taxi operators may comply with this requirement by signing and filing CAB Form 298–A (Rev.) with the Board's Special Authorities Division. Canadian charter air taxi operators registering under Part 294 of this chapter may comply by filing CAB Form 263 with their registration application with the Regulatory Affairs Division, Bureau of International Aviation. CAB Form 263 is set forth as Appendix A to this part. CAB Forms 263 and 298–A (Rev.) can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

§ 203.4 Montreal Agreement as part of airline-passenger contract and conditions of carriage.

(a) As required by the Montreal Agreement, carriers that are otherwise generally required to file tariffs shall file with the Board's Tariff Division a tariff that includes the provisions of the counterpart to CAB Agreement 18900.

(b) As further required by that Agreement, each participating carrier shall include the Agreement's terms as part of its conditions of carriage. The participating carrier shall give each of its passengers the notice required by the Montreal Agreement as provided in § 221.175 of this chapter.

(c) Participation in the Montreal Agreement, whether by signing the Agreement, filing a signed counterpart to it under § 203.3, or by operation of law under § 203.5, shall constitute a special agreement between the carrier and its passengers as a condition of carriage that a liability limit of not less than $75,000 (U.S.) shall apply under Article 22(1) of the Warsaw Convention for passenger injury and death. Such participation also constitutes a waiver of the defense under Article 20(1) of the Convention that the carrier was not negligent.

§ 203.5 Compliance as condition on operations in air transportation.

It shall be a condition on the authority of all direct U.S. and foreign carriers to operate in air transportation that they have and maintain in effect and on file with the Board a signed counterpart of CAB Agreement 18900, and a tariff (for those carriers otherwise generally required to file tariffs) that includes its provisions, as required by this subpart. Notwithstanding any failure to file that counterpart and such tariff, any such air carrier or foreign air carrier issued license authority (including exemptions) by the Board or operating in air transportation shall be deemed to have agreed to the provisions of CAB Agreement 18900 as fully as if that air carrier or foreign air carrier had in fact filed a properly executed counterpart to that Agreement and tariff.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,
Secretary.

Appendix A

CAB Agreement 18900

CAB Form 263 (Rev. 2–83)

To be filed in D–17325

The undersigned carriers (hereinafter referred to as "the Carriers") hereby agree as follows:

1. Each of the Carriers shall, effective May 16, 1966, include the following in its conditions of carriage, including tariffs embodying conditions of carriage filed by it with any government:

"The Carrier shall avail itself of the limitation of liability provided in the Convention for the Unification of Certain Rules Relating to International Carriage by Air signed at Warsaw October 12th, 1929, or provided in the said Convention as amended by the Protocol signed at The Hague September 28th, 1955. However, in accordance with Article 22(1) of said Convention, or said Convention as amended by said Protocol, the Carrier agrees that, as to all international transportation by the Carrier as defined in the said Convention or said Convention as amended by said Protocol, which, according to the Contract of Carriage, includes a point in the United States of America as a point of origin, point of destination, or agreed stopping place.

(1) The limit of liability for each passenger for death, wounding, or other bodily injury shall be the sum of US $75,000 inclusive of legal fees and costs, except that, in case of a claim brought in a State where provision is made for separate award of legal fees and costs, the limit shall be the sum of US $58,000 exclusive of legal fees and costs.

(2) The Carrier shall not, with respect to any claim arising out of the death, wounding, or other bodily injury of a passenger, avail itself of any defense under Article 20(1) of said Convention or said Convention as amended by said Protocol.

Nothing herein shall be deemed to affect the rights and liabilities of the Carrier with regard to any claim brought by, on behalf of, or in respect of any person who has wilfully caused damage which resulted in death, wounding, or other bodily injury of a passenger."

2. Each Carrier shall, at the time of delivery of the ticket, furnish to each passenger whose transportation is governed by the Convention, or the Convention as amended by the Hague Protocol, and by the special contract described in paragraph 1, the following notice, which shall be printed in type at least as large as 10 point modern type and in ink contrasting with the stock on (i) each ticket; (ii) a piece of paper either placed in the ticket envelope with the ticket or attached to the ticket; or (iii) on the ticket envelope:

"ADVICE TO INTERNATIONAL PASSENGER ON LIMITATION OF LIABILITY

Passengers on a journey involving an ultimate destination or a stop in a country other than the country of origin are advised that the provisions of a treaty known as the Warsaw Convention may be applicable to the entire journey, including any portion entirely within the country of origin or destination. For such passengers on a journey to, from, or with an agreed stopping place in the United States of America, the Convention and special contracts of carriage embodied in applicable tariffs provide that the liability of
[certain ——————————]*
[(name of carrier) and certain other]
carriers parties to such special contracts for death of or personal injury to passengers is limited in most cases to proven damages not to exceed US $75,000 per passenger, and that this liability up to such limit shall not depend on negligence on the part of the carrier. For such passengers travelling by a carrier not a party to such special contracts or on a journey not to, from, or having an agreed stopping place in the United States of America, liability of the carrier for death or personal injury to passengers is limited in most cases to approximately US $10,000 or US $20,000.

*Either alternative may be used.

The names of Carriers parties to such special contracts are available at all ticket offices of such carriers and may be examined on request.

Additional protection can usually be obtained by purchasing insurance from a private company. Such insurance is not affected by any limitation of the carrier's liability under the Warsaw Convention or such special contracts of carriage. For further information please consult your airline or insurance company representative."

3. This Agreement shall be filed with the Civil Aeronautics Board of the United States for approval pursuant to Section 412 of the Federal Aviation Act of 1958, as amended, and filed with other governments as required. The Agreement shall become effective upon approval by said Board pursuant to said Section 412.

4. This Agreement may be signed in any number of counterparts, all of which shall constitute one Agreement. Any Carrier may become a party to this Agreement by signing a counterpart hereof and depositing it with said Civil Aeronautics Board.

5. Any Carrier party hereto may withdraw from this Agreement by giving twelve (12) months' written notice of withdrawal to said Civil Aeronautics Board and the other Carriers parties to the Agreement.

CAB Form 298-A
(Rev.)

AIR TAXI OPERATOR AND COMMUTER AIR CARRIER REGISTRATION AND AMENDMENTS UNDER PART 298 OF THE ECONOMIC REGULATIONS OF THE CIVIL AERONAUTICS BOARD

FOR USE BY CAB ONLY

INSTRUCTIONS: Please submit this form in duplicate to Special Authorities Division, Civil Aeronautics Board, Washington, D.C. 20428. If this is an initial registration for air taxi service, enclose an $8 fee (check, draft, or postal money order) payable to the Civil Aeronautics Board. The fee for initial registrations for commuter (i.e. scheduled passenger) service is $670. There is no filing fee for amendments to information previously filed, except when changing status from an air taxi operator to a commuter air carrier. In such cases, a fee of $670 is required.

Effective date of registration/amendments

1. Name and Mailing Address of the Registering Carrier:

2. Address of principal place of business (if different from above), and the carrier's Area Code and Telephone Number:

3. Federal Aviation Administration certificate number (if any), and address and telephone number of local FAA office:

4. Is this filing the carrier's:

☐ Initial ☐ Amendment to reflect changes since previous filing

If initial registration, give proposed date of commencement of operations _____.

5. Check type or types of service the carrier intends to perform upon commencement of operations, or, for amendments, service the carrier is currently performing:

☐ *scheduled passenger ☐ on-demand passenger

☐ scheduled cargo ☐ on-demand cargo

☐ mail under a U. S. Postal Service contract ☐ **other

*Check only if service is of at least five (5) round trips per week on at least one route between two or more points and is operated pursuant to published flight schedules which specify the times, days of the week, and places between which such flights are performed. If not already submitted, a copy of such schedules, or proposed schedules, should be enclosed with this registration.

**For example, if the carrier performs air ambulance operations, or fire fighting operations for the U.S. Forest Service, or if the operations are seasonal, it should be indicated here.

6. Aircraft which the carrier proposes to operate in air taxi or commuter service or, for amendments, aircraft currently operated:

	Aircraft Type/Make	FAA Registration Number	Passenger Seats Installed*
1.			
2.			
3.			
4.			
5.			

(Add additional sheets if necessary)

*This does not include seats occupied by the pilot or co-pilot unless the latter is available for passenger use.

7. Is the registering carrier a U.S. citizen? NOTE: Under the Federal Aviation Act a corporation is a U.S. citizen only if the president and two-thirds or more of the officers and directors are U.S. citizens and 75 percent of the voting interest is owned or controlled by U.S. citizens.

☐ YES ☐ NO

8. If this is an amendment, state whether the carrier has carried passengers in foreign air transportation, that is, between any point in the United States and any point outside thereof, during the past 12 months:

☐ YES ☐ NO

9. (For use in reporting any changes or amendments to information previously filed).

a. Change in carrier's name and/or address:

b. Description of any other changes or amendments:

10. Certification

I certify that the information contained in this application is complete and accurate to the best of my knowledge. If operating as a commuter air carrier or in foreign air transportation or participating in an interline agreement, the carrier subscribes to CAB Agreement 18900 (included as Appendix A to 14 CFR Part 203 of the Board's regulations), and in accordance with that Agreement agrees that a liability limit of not less than $75,000 shall apply under Article 22(1) of the Warsaw Convention for passenger injury or death in international transportation as defined in the Convention.

Signature: _____ (see note)

Date: _____

Name: _____ (Please type)

Place: _____ (City and State)

Title: _____

NOTE: This registration must be signed by a responsible officer, such as the President, Vice President, Secretary or Treasurer, or partner or owner of the carrier.

BILLING CODE 4320-01-C

14 CFR Part 204

[Amdt. No. 6; Docket 40734; Regulation ER-1326]

Data To Support Fitness Determinations

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury or death in international travel at not less than $75,000 per person. This rule requires that carriers file a signed counterpart of the Agreement with the other fitness data they are required to file.

DATES: In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673-5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673-5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER-1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 204

Air carriers, Essential air service, Reporting requirements.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 204, *Data to Support Fitness Determinations*, as follows:

PART 204—[AMENDED]

1. The authority of Part 204 is:

Authority: Secs. 204, 401, 407, 419, Pub. L. 85-726, as amended, 72 Stat. 743, 754, 766, 92 Stat. 1732; 49 U.S.C. 1324, 1371, 1377, 1389.

2. A new paragraph (v) is added to § 204.5 to read:

§ 204.5 Applicants for certificate authority not currently certificated.

* * * * *

(v) A signed counterpart of CAB Agreement 18900 (CAB Form 263) as required by Part 203 of this chapter. That form can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

3. A new paragraph (a)(22) is added to § 204.6 to read:

§ 204.6 Carriers providing or proposing to provide essential air transportation.

(a) * * *

(22) A signed counterpart of CAB Agreement 18900 (CAB Form 263 or CAB Form 298-A (Rev.) for air taxi operators), as required by Part 203 of this chapter. Those forms can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

4. A new paragraph (r) is added to § 204.7 to read:

§ 204.7 Commuter carriers serving an eligible point but not providing essential air services or applying for certificate authority.

* * * * *

(r) A signed counterpart of CAB Agreement 18900 (CAB Form 263 or CAB Form 298-A (Rev.)), as required by Part 202 of this chapter. Those forms can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

By the Civil Aeronautics Board.

Terms, Conditions, and Limitations of Certificates To Engage in Charter Air Transportation

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury and death in international air travel at not less than $75,000 per person. This rule conditions air carrier certificates for charter air transportation to require that the carrier become a party to the Montreal Agreement and comply with the Board rule implementing it.

DATES: Effective March 28, 1983. In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673-5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673-5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W. Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER-1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 208

Charter flights, Insurance, Military air transportation, Reporting requirements, Surety bonds, and Travel agent.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 208, *Terms, Conditions, and Limitations of Certificates to Engage in Charter Air Transportation*, as follows:

PART 208—[AMENDED]

1. The authority for Part 208 is:

Authority: Secs. 101(3), 102, 204, 401, 403, 404, 407, 411, 416, 417, 1002, Pub. L. 85-726, as amended, 72 Stat. 737, 740, 743, 754, 758, 760, 766, 769, 771, 788; 76 Stat. 145; 49 U.S.C. 1301, 1302, 1324, 1371, 1373, 1374, 1377, 1381, 1386, 1387, 1482.

2. The subheading, *Liability Insurance Requirements*, under Subpart A, *General Provisions*, is amended, and a new § 208.11 is added to read:

Subpart A—General Provisions

* * * * *

Liability Insurance Requirements; Waiver of Warsaw Convention Liability Limits

* * * * *

§ 208.11 Filing requirements for adherence to Montreal Agreement.

It shall be a condition upon the holding of a certificate or other authority authorizing air transportation that the holder have and maintain in effect and on file with the Board a signed counterpart of CAB Agreement 18900 (CAB Form 263), and comply with all other requirements in Part 203 of this chapter. That form can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

3. The table of contents is amended by adding a new § 208.11 and replacing the subheading, *Liability Insurance Requirements*, to read:

Air carriers, Air transportation—foreign, Airports, and Reporting requirements.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 213, *Terms, Conditions, and Limitations of Foreign Air Carrier Permits,* as follows:

PART 213—[AMENDED]

1. The authority for Part 213 is:

Authority: Secs. 204, 402, Pub. L. 85–726, as amended, 72 Stat. 743, 757, 49 U.S.C. 1324, 1372.

2. A new § 213.7 is added to read:

§ 213.7 Filing requirements for adherence to Montreal Agreement.

It shall be a condition upon the holding of a foreign air carrier permit or other authority authorizing direct foreign scheduled air transportation that the holder have and maintain in effect and on file with the Board a signed counterpart of CAB Agreement 18900 (CAB Form 263), and a tariff (for those carriers otherwise generally required to file tariffs) that includes its provisions, and comply with all other requirements of Part 203 of this chapter. That form can be obtained from the Publications Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

3. The table of contents is amended by adding a new § 213.7 to read:

Sec.

* * * * *

213.7 Filing requirements for adherence to Montreal agreement.

BILLING CODE 6320-01-M

14 CFR Part 215

[Amdt. No. 5 to Part 215, Docket 40734; Regulation ER–1331]

Names of Air Carriers and Foreign Air Carriers

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury or death in international travel at not less than $75,000 per person. This rule requires that carriers filing for a change in name include in the application a counterpart of the Agreement signed in the new name.

DATES: In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673–5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673–5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER–1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 215

Air carriers, Trade names.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 215, *Names of Air Carriers and Foreign Air Carriers,* as follows:

PART 215—[AMENDED]

1. The authority for Part 215 is:

Authority: Secs. 101, 204, 401, 402, 411, 416, 417, Pub. L. 85–726, 72 Stat. 737, 743, 754, 757, 769, 771; 76 Stat. 145; 49 U.S.C. 1301, 1324, 1371, 1372, 1381, 1386, 1387.

2. A new paragraph (c) is added to § 215.3 to read:

§ 215.3 Change of name or use of trade name.

* * * * *

(c) *Montreal Agreement.* Each application for a change in name under this section shall be accompanied by three copies of a counterpart to the Montreal Agreement (CAB 18900) (CAB Form 263) signed by the carrier using the proposed name change. Upon approval of the application, the Board will place a copy of the signed CAB Form 263 in Docket 17325.

By the Civil Aeronautics Board.

BILLING CODE 6320-01-M

14 CFR Part 294

[Amdt. No. 1; Docket 40734; Regulation ER–1332]

Canadian Charter Air Taxi Operators

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury and death in international travel at not less than $75,000 per person. This rule changes the registration requirement for Canadian charter air taxi operators to include the filing of a signed counterpart of the Agreement and compliance with the Board rule implementing it.

DATES: In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673–5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673–5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER–1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 294

Air taxis, Canada, Charter flights, Insurance, Trade names.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 294, *Canadian Charter Air Taxi Operators,* as follows:

PART 294—[AMENDED]

1. The authority for Part 294 is:

Authority: Sec. 204, 416, Pub. L. 85–726, as amended, 72 Stat. 743, 771; 49 U.S.C. 1324, 1386.

2. Section 294.3(d) is revised to read:

§ 294.3 General requirements for Canadian charter air taxi operators.

* * * * *

(d) Has and maintains in effect and on file with the Board a signed counterpart of CAB Agreement 18900 (CAB Form 263) and complies with all other requirements of Part 203 of this chapter.

14 CFR Part 298

[Amendment No. 25; Docket 40734; Regulation ER-1333]

Exemption for Air Taxi Operations

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: The CAB is requiring that direct U.S. and foreign air carriers become parties to the Montreal Agreement, which sets the carrier liability limit for passenger injury and death in international travel at not less than $75,000 per person. The rule changes the air taxi operator registration requirements to incorporate the provisions of the Montreal Agreement in the registration statement and to require that the carriers become a party to that Agreement and comply with the Board rule implementing it.

DATES: In accordance with the Paperwork Reduction Act (44 U.S.C. 3507), the reporting provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until an OMB control number has been obtained. Adopted: February 8, 1983.

FOR FURTHER INFORMATION CONTACT: Peter B. Schwarzkopf, Assistant General Counsel, International Affairs, (202) 673-5928, or Joseph A. Brooks, Office of the General Counsel, (202) 673-5442, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUPPLEMENTARY INFORMATION: The reasons for this rule are fully explained in ER-1324, adopted contemporaneously.

List of Subjects in 14 CFR Part 298

Air taxis, Alaska, Antitrust, Consumer protection, Insurance, Reporting requirements.

Accordingly, the Civil Aeronautics Board amends 14 CFR Part 298, *Exemptions for Air Taxi Operations*, as follows:

PART 298—[AMENDED]

1. The authority for Part 298 is:

Authority: Secs. 204, 401, 407, 416, 418, Pub. L. 85-726, as amended, 72 Stat. 743, 754, 766, 771; 91 Stat. 1284; 49 U.S.C. 1324, 1371, 1377, 1386, 1388.

2. Section 298.3(a)(5) is revised to read:

§ 298.3 Classification.

(a) * * *

(5) If operating as a commuter air carrier or in foreign air transportation or participating in an interline agreement, have and maintain in effect and on file with the Board a signed counterpart of CAB Agreement 18900 (CAB Form 263 or CAB Form 298-A (Rev.)) and comply with all other requirements of Part 203 of this chapter.

3. A new paragraph (c)(4) is added to § 298.21 to read:

§ 298.21 Filing for registration by air taxi operators.

* * * * *

(c) * * *

(4) For air taxi operators that (i) are commuter air carriers, (ii) engage in foreign air transportation, or (iii) participate in an interline agreement, a signed counterpart of CAB Agreement 18900 (CAB Form 263), which may be the revised registration form (CAB Form 298-A (Rev.)), as required by Part 203 of this chapter. These forms can be obtained from the Publication Services Division, Civil Aeronautics Board, Washington, D.C. 20428.

Subpart G—[Removed and Reserved]

4. Subpart G—*Waiver of Liability Limits Under the Warsaw Convention* is removed and reserved.

5. The table of contents is amended by removing and reserving Subpart G.

Debt collection practices.

The Order Reopening Proceeding and Modifying Order to Cease and Desist is as follows:

United States of America Before Federal Trade Commission

Commissioners: James C. Miller III, Chairman, Michael Pertschuk, David A. Clanton, Patricia P. Bailey, and George W. Douglas.

Order Reopening Proceeding and Modifying Order to Cease and Desist

In the Matter of G C Services Corp., et al.; Docket No C-2511.

By petition filed September 21, 1982, pursuant to Rule 2.51, petitioners G C Services Corp. and Jerold B. Katz, William A. Inglehart and Martin M. Katz, ("GCSC"), request the Commission to reopen this proceeding and modify Paragraph 6 of the Order to Cease and Desist issued on April 16, 1974, and amended on June 21, 1978.

Paragraph 6, as written in the original 1974 Order, prohibited GCSC from receiving from debtors post-dated checks which would not be deposited immediately or which would be held for more than 15 business days after their receipt. On June 21, 1978, the Commission modified this Order Paragraph to permit GCSC to hold debtor's checks up to 60 days provided GCSC complied with certain conditions, including the requirement that GCSC make a good faith effort to reach debtors by attempting to contact them by telephone three times to obtain their permission to deposit any post-dated checks.

The present petition seeks modification of Paragraph 6 by eliminating, (1) The 60 day period limitation for GCSC's holding of post-

dated checks and (2) the telephone contact requirement. In place of the current Paragraph 6, GCSC requests that the Section 808 (2) (3) and (4), of the FDCPA, as well as other requirements, be incorporated into the Order. In addition to being bound by the FDCPA requirements, GCSC requests that the Order prohibit respondents for a period of 5 years from accepting a check post-dated by more than 60 days unless the debtor is given, along with the notice required by Section 808(2) of the FDCPA, a notice, (a) of the date and amount of each additional post-dated check that GCSC holds and intends to cash and (b) that advises the debtor to contact GCSC in the event the debtor is unable to cover the check to arrange a revised payment schedule. Additionally, GCSC would be required to return to the debtor, when so asked, any post-dated check that the debtor is unable to cover.

In support of their request, petitioners assert that the current restrictions in Paragraph 6 are unnecessary in view of the requirements and restrictions set forth in Section 808 of the FDCPA which are binding on GCSC as a debt collector. The current Order restrictions on GCSC, petitioners argue, places them at a competitive disadvantage. Further, the telephone-debtor contact required by the current Paragraph 6 is not only burdensome to GCSC but bothersome to consumers as well.

The Commission, having considered the petition, is of the opinion that petitioners have made a sufficient showing of changed conditions of law and fact to reopen the proceeding, and have decided to grant their request. However, the Commission is persuaded that incorporation of Section 808 (2) (3) and (4) into the Order would provide adequate protection for consumers and that the additional restrictions proposed by petitioners are not necessary. Petitioners have agreed to this change.

Accordingly, it is ordered that the proceeding be, and it hereby is reopened.

It is further ordered that the Order to Cease and Desist be, and it hereby is, modified by striking Paragraph Six, amended on June 21, 1978, and substituting therefor the following:

6. (a) Accepting from any person a check or other payment instrument post-dated by more than five days unless such person is notified in writing of the intent to deposit such check or instrument not more than ten nor less than three business days prior to such deposit;

(b) Soliciting any post-dated check or other post-dated payment instrument for the purpose of threatening or instituting criminal prosecution; and

(c) Depositing or threatening to deposit any post-dated check or other post-dated payment instrument prior to the date on such check or instrument.

By the Commission.

Issued: February 8, 1983.

Benjamin I. Berman,

Acting Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 5

Delegations of Authority and Organization; New Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the regulations for delegations of authority regarding approval of new drug applications. The amendment updates position titles and regulation citations.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Robert L. Miller, Office of Management and Operations (HFA-340), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4976.

SUPPLEMENTARY INFORMATION: FDA is amending § 5.80 (21 CFR 5.80) in paragraph (a) to correct the title of the Scientific Director of the National Center for Drugs and Biologics and in paragraph (a)(2) to correct a regulation citation. In the **Federal Register** January 21, 1983 (48 FR 2751), § 314.1 (21 CFR 314.1) was amended by removing paragraph (f) which related to abbreviated new drug applications and by adding new § 314.2 *Abbreviated new drug applications.* The paragraph is amended accordingly.

Further redelegation of the authority delegated is not authorized. Authority delegated to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis.

List of Subjects in 21 CFR Part 5

Authority delegations (Government agencies), Organization and functions (Government agencies).

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a) 52 Stat. 1055 (21 U.S.C. 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 5 is amended in § 5.80 by revising the introductory text of paragraph (a) and by revising paragraph (a)(2) to read as follows:

PART 5—DELEGATIONS OF AUTHORITY AND ORGANIZATION

§ 5.80 Approval of new drug applications and their supplements.

(a) The Director and Scientific Director of the National Center for Drugs and Biologics (NCDB) and the Director of the Office of New Drug Evaluation, NCDB, are authorized to perform all functions of the Commissioner of Food and Drugs with regard to approval of new drug applications and supplements thereto on drugs for human use that have been submitted under section 505 of the Federal Food, Drug, and Cosmetic Act, except that the Director of the Office New Drug Evaluation, NCDB, is not authorized to approve those drug products under the jurisdiction of the Office of Biologics, NCDB, in § 314.1 (a)(2) of this chapter for which authority has been delegated in paragraph (b) of this section.

* * * * *

(2) The Associate and Deputy Associate Director for Drug Monographs and the Director of the Division of Generic Drug Monographs of the Office of Drugs, NCDB, are authorized to perform all functions of the Commissioner of Food and Drugs regarding the approval of abbreviated new drug applications and supplements thereto for drugs for human use that have been submitted under §§ 314.2 and 314.8 of this chapter, except those under the jurisdiction of the Office of Biologics, NCDB, in § 314.1(a)(2) of this chapter for which authority has been delegated in paragraph (b) of this section.

* * * * *

Effective date: This regulation shall become effective February 25, 1983.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371 (a)))

Dated: February 16, 1983.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

FD&C Blue No. 2

Correction

In FR Doc. 83-2812 beginning on page 5252 in the issue of Friday, February 4, 1983, make the following changes:

1. On page 5256, the third column, the paragraph immediately below "VI. Findings From the Second Examination", the phrases "from $p-0.017$ to 0.038", "from $p-0.040$ to 0.053", "from $p-0.005$ to 0.018" and "from $p-0.021$ to 0.047" should read "from $p=0.017$ to 0.038", "from $p=0.040$ to 0.053", "from $p=0.005$ to 0.018" and "from $p=0.040$ to 0.053" respectively.

2. On page 5257, the first column, the last line, the word "certainly" should read "certainty".

BILLING CODE 1505-01-M

---

21 CFR Part 101

[Docket No. 77P-0413]

Labeling of Firming Ingredients

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is permitting ingredients used as firming agents in food (e.g., calcium salts in canned vegetables and tomato products) to be listed together in the ingredient statement in order of predominance appropriate for the total amount of all firming agents, by specific common or usual names in parentheses following the collective name "firming agents." FDA also is permitting the firming ingredients listed within the parentheses to appear other than in descending order of predominance and is permitting the declaration of firming ingredients which may not always be present. The action is in response to a petition filed by the Canners League of California.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Howard N. Pippin, Bureau of Foods (HFF-312), Food and Drug Administration, 200 C St., SW., Washington, DC 20204, 202-245-3092.

SUPPLEMENTARY INFORMATION: A proposal, in response to a Canners League of California Petition, was published in the **Federal Register** of April 18, 1978 (43 FR 16347), to amend 21 CFR 101.4 to permit ingredients used as firming agents to be parenthetically listed together in the ingredient statement following the collective name "firming agents." The proposal also provided that ingredients used as firming agents in food may be declared in the order of predominance appropriate for the total amount of all firming agents in the food. Further, it allowed the firming ingredients listed within the parentheses to appear other than in descending order of predominance. Finally, the proposal provided for the declaration of firming ingredients which may not always be present.

FDA received 12 comments on the proposal, from industry, trade associations, a Federal agency, and consumers. Ten comments supported the proposal while two opposed it. In addition to considering the comments received on this proposal, FDA also considered comments received on FDA's tentative position on the issue of labeling flexibility for fats and oils ingredients set forth in an advance notice of proposed rulemaking published in the **Federal Register** of December 21, 1979 (44 FR 75990). FDA also has considered comments that addressed the issue of flexibility for labeling ingredients that were received at public hearings on food labeling held jointly by FDA, the United States Department of Agriculture (USDA), and the Federal Trade Commission (FTC) in the fall of 1978 and spring of 1980.

The comments on the proposal and FDA's responses are as follows:

1. One comment contended that the proposed regulation lacks adequate consumer input and adequate consideration of consumers' views. This comment recommended that final action on the proposal be deferred until the comprehensive food labeling evaluation is completed, public comments have been received and considered, and FDA develops a food labeling policy consistent with the results of the evaluation.

FDA agrees that consumer involvement in food labeling rulemaking is important. To this end, the hearings held in the fall of 1978 by FDA, USDA, and FTC allowed consumers and other interested persons an opportunity to express their views on a variety of food labeling issues, including flexibility in labeling ingredients (the so-called "and/or" labeling). After considering the views expressed at these hearings, the agencies published in the **Federal Register** of December 21, 1979 (44 FR 75990), tentative positions on a number of food labeling issues, including the flexibility in labeling fats or oils ingredients. FDA's tentative position on the latter issue was that "and/or" labeling should be permitted for fats and oils when they are not the predominant ingredient in the food. The agencies again held public hearings on March 4 and 5, 1980, in Washington, DC, to allow consumer groups, State associations, industry, trade associations, and individuals to testify on the agencies' tentative proposals to revise food labels.

Consumers commenting on the agencies' tentative positions on this issue and at the 1978 and 1980 hearings generally opposed the use of "and/or" labeling for certain ingredients. They argued that this type of labeling makes it difficult for consumers to avoid specific ingredients due to dietary, health (e.g., allergies), or religious reasons.

FDA believes that, whatever is the ultimate decision on the labeling of fats and oils, a distinction can be made between ingredients such as fats and oils that may be major constituents of consumer food products and those ingredients such as firming agents, dough conditioners, and leavening agents that are added for their technological function and are not major constituents of consumer food products.

Ingredients used as firming agents (calcium, magnesium, and aluminum salts) are present in the finished product in very small quantities, usually much less than 1 percent by weight. These firming ingredients are added for the technological function of maintaining a desired firmness in the finished canned vegetable product so that the vegetables do not become mushy. Ingredients approved for use as firming agents are safe, and FDA is unaware of any dietary or health restrictions or religious reasons why any consumer must avoid these ingredients. Therefore, the reasons cited by consumers for opposing the use of "and/or" labeling in general, or for fats and oils, are inapplicable to ingredients used as firming agents in canned vegetables. Even individuals who wish to avoid firming agents for other reasons can do so under this regulation, which maintains the requirement for providing specific information about the identity of ingredients that are or may be present in a food. Consumers who wish to avoid specific ingredients such as firming agents for any reason will continue to have enough label information to avoid them if they so choose by not selecting those foods with labels indicating that any of several firming ingredients may be present.

FDA concluded that there has been ample consumer involvement in this proceeding and that there appears to be no compelling reasons for delaying this action.

2. Two comments objected to the regulation's effect of allowing ingredients to be listed that are not actually present in the food. One comment asserted that this is not in the interest of consumers.

FDA disagrees with both comments. This final regulation is in the interest of consumers because they may derive indirect economic benefits due to savings to manufacturers. Because FDA is permitting the use of "and/or" labeling for firming agents when these ingredients are used interchangeably in the formulation or processing of a food, manufacturers will benefit economically in two ways. They will not be forced to change their labels each time they use a different firming agent. Under current regulations, a change from one salt to another salt requires a separate label even though the change has little impact

on the final composition of the food. Further, manufacturers will also be able to make purchases that take advantage of price fluctuations of firming agents and use whatever is cheapest at the time of packing. Because the regulation will enable manufacturers to purchase ingredients on the basis of price and availability, it will foster competition in the pricing of firming agents. The net effect of these benefits to manufacturers should be to help keep their production costs down. These lower production costs may help keep down the price that consumers pay for the finished food.

The requirement for a regulatory flexibility analysis under the Regulatory Flexibility Act does not apply to this final rule because the proposed rule was issued prior to January 1, 1981, and is therefore exempt.

At the time the proposal was published in the **Federal Register** of April 18, 1978, FDA's Bureau of Foods placed on file with the Dockets Management Branch a copy of an economic impact assessment concluding that there would be no economic impact from adoption of the proposal. In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this final rule, and the agency has determined, as discussed above in paragraph 2, that the final rule will not be a major rule, as defined by the Order.

List of Subjects in 21 CFR Part 101

Food labeling, Misbranding, Nutrition labeling, Warning statements.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040–1042 as amended, 1047–1048 as amended, 1055 (21 U.S.C. 321, 343, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 101 is amended in § 101.4 by adding new paragraph (b)(19), to read as follows:

PART 101—FOOD LABELING

§ 101.4 Food; designation of ingredients.

* * * * *

(b) * * *

(19) Ingredients that act as firming agents in food (e.g., salts of calcium and other safe and suitable salts in canned vegetables) may be declared in the ingredient statement, in order of predominance appropriate for the total of all firming agents in the food, by stating the specific common or usual name of each individual firming agent in descending order of predominance in parentheses following the collective name "firming agents." If the manufacturer is unable to adhere to a constant pattern of firming agents in the food, the listing of the individual firming agents need not be in descending order of predominance. Firming agents not present in the product may be listed if they are sometimes used in the product. Such ingredients shall be identified by words indicating that they may not be present, such as "or", "and/or", "contains one or more of the following:".

* * * * *

Effective date. This amendment shall become effective February 25, 1983.

(Secs. 201, 403, 701(a), 52 Stat. 1040–1042 as amended, 1047–1048 as amended, 1055 (21 U.S.C. 321, 343, 371(a)))

Mozzarella Cheese and Low-Moisture Mozzarella Cheese; Revision of Standards of Identity

Correction

In FR Doc. 83-1889 beginning on page 3363 in the issue of Tuesday, January 25, 1983, make the following corrections.

1. On page 3364, first column, first paragraph of **SUPPLEMENTARY INFORMATION,** fourth line from the bottom,"133.156)" should read "133.155)" and the following should be inserted after "and" but before the comma: "low-moisture mozzarella cheese (21 CFR 133.156) and"

2. On page 3366, third column, § 133.156(b), second paragraph, eleventh line from the bottom, "used" should read "iced".

BILLING CODE 1505-01-M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Iodochlorhydroxyquin Boluses

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to codify a previously approved new animal drug application (NADA) sponsored by E. R. Squibb & Sons., Inc. The NADA provides for safe and effective use of iodochlorhydroxyquin boluses in horses for treating diarrhea.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Terence Harvey, Bureau of Veterinary Medicine (HFV-110), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: E. R. Squibb & Sons, Inc., P.O. Box 4000, Princeton, NJ 08540, is sponsor of NADA 31-448 providing for use of Rheaform Boluses. Each bolus contains 10 grams of iodochlorhydroxyquin. One bolus is administered daily to a 1,000-pound horse for treating diarrhea.

The NADA was originally approved October 15, 1965. At that time, approvals were not codified by publication in the **Federal Register.** Accordingly, the regulations are now amended to codify E. R. Squibb & Sons' approved NADA.

This action, reflecting an approved NADA, does not constitute reaffirmation of the safety and effectiveness data supporting this approval. Since the NADA was approved before July 1, 1975, the sponsor has not been required to submit a summary of the safety and effectiveness data and information in accordance with the freedom of information provisions of the animal drug regulations in 21 CFR 514.11(e)(2)(ii).

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor and environmental impact statement is required.

List of Subjects in 21 CFR Part 520

Animal drugs, Oral use.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended by adding new § 520.1158, to read as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

§ 520.1158 Iodochlorhydroxyquin boluses.

(a) *Specifications.* Each bolus contains 10 grams of iodochlorhydroxyquin.

(b) *Sponsor.* See No. 000003 in § 510.600(c) of this chapter.

(c) *Condition of use*—(1) *Amount.* 1 bolus (10 grams) daily for a 1,000-pound horse.

(2) *Indications for use.* For treatment of equine diarrhea.

(3) *Limitations.* For horses only; not to be administered to food-producing animals. Do not administer to horses intended for use as food. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. February 25, 1983.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: February 17, 1983.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Bambermycins

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed for Carl S. Akey, Inc., providing for use of 10 gram-per-pound bambermycins premix to make 0.4 and 2 gram-per-pound bambermycins premixes for making swine feeds and 2 gram-per-pound premixes for turkey feeds, for increased rate of weight gain and improved feed efficiency.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Bureau of Veterinary Medicine (HFV-128), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4317.

SUPPLEMENTARY INFORMATION: Carl S. Akey, Inc., P.O. Box 607, Lewisburg, OH 45338, is sponsor of NADA 131-413 providing for safe and effective use of 10 gram-per-pound bambermycins premix to make 0.4 and 2 gram-per-pound bambermycins premixes. The intermediate premixes are used to manufacture finished feed for growing-finishing swine (0.4 and 2 gram-per-pound premixes) and growing turkeys (2 gram-per-pound only), for increased rate of weight gain and improved feed efficiency. The application was filed by American Hoechst Corp., Animal Health Div., on behalf of the sponsor.

Approval of this application is based on safety and effectiveness data contained in American Hoechst's approved NADA 44-759 for Flavomycin (bambermycins). American Hoechst authorized use of the data in NADA 44-759 to support this application. The NADA is approved, and the regulations are amended to reflect the approval.

Approval of this NADA does not change the approved use of the drug. Consequently, approval of the NADA poses no increased human risk of exposure to residues of the animal drug, nor does it change the conditions of the drug's safe use in the target animal species. Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977), this approval is equivalent to a Category II supplement, which does not require reevaluation of the safety and effectiveness data in parent NADA 44-759.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Pyrantel Tartrate

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed for Wayne Feed Division, Continental Grain Co., providing for safe and effective use of 9.6- and 19.2-gram-per-pound pyrantel tartrate premixes for making complete swine feeds.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Bureau of Veterinary Medicine (HFV-128), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4317.

SUPPLEMENTARY INFORMATION: Wayne Feed Division, Continental Grain Co., P.O. Box 459, Libertyville, IL 60048, is sponsor of NADA 132-136 submitted on its behalf by Pfizer, Inc. The NADA provides for use of premixes containing 9.6 and 19.2 grams of pyrantel tartrate per pound for making complete swine feeds used for aid in prevention of migration and establishment of large roundworm (*Ascaris suum*) infections, for aid in prevention of establishment of nodular worm (*Oesophagostomum*) infections, and for removal and control of large roundworm (*Ascaris suum*) infections.

Approval of this application relies on safety and effectiveness data contained in Pfizer's approved NADA 43-290. Use

of the data in NADA 43-290 to support this application has been authorized by Pfizer. This approval does not change the approved use of the drug. Consequently, approval of this NADA poses no increased human risk from exposure to residues of the animal drug, nor does it change the conditions of the drug's safe use in the target animal species. Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy (42 FR 64367; December 23, 1977), approval of this NADA has been treated as would approval of a Category II supplement and did not require reevaluation of the safety and effectiveness data in NADA 43-290.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360 (i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 558 is amended in § 558.485 by adding new paragraph (a)(13), to read as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

§ 558.485 Pyrantel tartrate.

(a) * * *

(13) To 034936: 9.6 and 19.2 grams per pound, paragraph (e)(1) and (2) of this section.

DEPARTMENT OF JUSTICE

28 CFR Part 0

[Order No. 998-83]

Board of Immigration Appeals; Immigration Review Function; Editorial Amendments

AGENCY: Justice Department.

ACTION: Final rule.

SUMMARY: In order to improve the management, direction and control of the immigration judicial review programs currently within the Immigration and Naturalization Service (INS), the Attorney General has reorganized within the Department of Justice so as to place the immigration review function with the Board of Immigration Appeals (BIA) under a newly created office entitled the Executive Office for Immigration Review (EOIR). The Executive Office for Immigration Review will be under the Associate Attorney General's supervision. This realignment will place similar quasi-judicial functions within a single organization and will result in a more effective and efficient operation of the Department's immigration judicial review programs.

EFFECTIVE DATE: February 15, 1983.

FOR FURTHER INFORMATION CONTACT: Kevin D. Rooney; Assistant Attorney General for Administration; U.S. Department of Justice; 10th and Constitution Avenue, N.W., Room 1111; Washington, D.C. 20530. Telephone (202) 633-3101.

SUPPLEMENTARY INFORMATION: In accordance with the reorganization within the Department of Justice, 28 CFR is being amended to reflect the new functional statements of the Executive Office for Immigration Review, the Board of Immigration Appeals, and the Office of the Chief Special Inquiry Officer.

This order is not a rule within the meaning of either Executive Order 12291, Section 1(a), or the Regulatory Flexibility Act, 5 U.S.C. 601, et seq.

List of Subjects in 28 CFR Part 0

Government employees, Organization and functions (Government agencies), Authority delegations (Government agencies).

PART 0—[AMENDED]

By virtue of the authority vested in me, as Attorney General, by 28 U.S.C. 509, 510; 5 U.S.C. 301, and 8 U.S.C. 1103, Part 0 of Title 28 of the Code of Federal Regulations is hereby amended as follows:

1. Section 0.19 is amended by revising paragraph (a) introductory text to read as follows:

§ 0.19 Associate Attorney General.

(a) The Associate Attorney General shall advise and assist the Attorney General and the Deputy Attorney General in formulating and implementing Departmental policies and programs pertaining to criminal matters. The Associate Attorney General shall also provide overall supervision and direction for the following organizational units: Criminal Division; Drug Enforcement Administration; Immigration and Naturalization Service; Executive Office for United States Attorneys; Bureau of Prisons; Federal Prison Industries, Inc.; Office of Pardon Attorney; Executive Office for Immigration Review; United States Marshals Service; and the United States National Central Bureau, INTERPOL. The United States Parole Commission is under the supervision of the Associate Attorney General for administrative purposes. In addition the Associate Attorney General shall:

* * * * *

2. Section 0.105 is amended by revising paragraph (a) to read as follows:

§ 0.105 General functions.

* * * * *

(a) Subject to the limitations contained in section 103 of the Immigration and Nationality Act (8 U.S.C. 1103) and excepting the authority delegated to the Executive Office of Immigration Review, the Board of Immigration Appeals, the Office of the Chief Special Inquiry Officer, and the Special Inquiry Officers, administer and enforce the Immigration and Nationality Act and all other laws relating to immigration (including but not limited to, admission, exclusion, and deportation), naturalization, and nationality. Nothing in this paragraph shall be construed to authorize the Commissioner of Immigration and Naturalization to supervise the litigation of, or to approve the filing of records on review, appeals, or petitions for writs of certiorari or to intervene or have independent representation in cases

under the immigration and nationality laws except as provided in paragraph (e) of this section.

* * * * *

3. Subpart U is revised to read as follows:

Subpart U—Executive Office for Immigration Review

Sec.
0.115 General functions.
0.116 Board of Immigration Appeals.
0.117 Office of Chief Special Inquiry Officer.

Subpart U—Executive Office for Immigration Review

§ 0.115 General functions.

The Executive Office for Immigration Review shall be headed by a Director, who shall be responsible for the general supervision of the Board of Immigration Appeals and the Office of the Chief Special Inquiry Officer in the execution of their duties in accordance with 8 CFR Part 3. The Director may redelegate the authority delegated to him by the Attorney General to the Chairman of the Board of Immigration Appeals or the Office of the Chief Special Inquiry Officer.

§ 0.116 Board of Immigration Appeals.

The Board of Immigration Appeals shall consist of a Chairman and four other members. The Chairman shall be responsible for providing supervision and establishing internal operating procedures of the Board in the exercise of its authorities and responsibilities as delineated in 8 CFR 3.1–3.8.

§ 0.117 Office of Chief Special Inquiry Officer.

The Chief Special Inquiry Officer shall provide general supervision to the Special Inquiry Officers in performance of their duties in accordance with the Immigration and Nationality Act, 8 U.S.C. 1226 and 1252 and 8 CFR 3.9.

(28 U.S.C. 509, 510; 5 U.S.C. 301; 8 U.S.C. 1103)

Dated: February 15, 1983.

William French Smith,

Attorney General.

[FR Doc. 83-4738 Filed 2-24-83; 8:45 am]
BILLING CODE 4410-01-M

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Part 1602

Records and Reports; Elementary and Secondary Schools; Staff Information Report (EEO–5)

AGENCY: Equal Employment Opportunity Commission.

ACTION: Final rule.

SUMMARY: The Equal Employment Opportunity Commission (EEOC) is amending its reporting regulations that cover unlawful employment practices of elementary and secondary schools. The amendments will reduce the filing requirement from once a year to once every two years for these employers. This change will reduce the reporting burden on elementary and secondary schools as required under the Paperwork Reduction Act.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Joachim Neckere, Chief, Survey Branch, 2401 E Street, NW., Washington, D.C. 20506 phone: (703) 756–6020.

SUPPLEMENTARY INFORMATION: EEOC published a notice of proposed rulemaking (47 FR 20630) on May 13, 1982, proposing to amend the regulation set forth at 29 CFR 1602.41. Today's action makes final the amendment of that regulation exactly as proposed in the May 13, 1982 notice. Section 709(c) of Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e–8(c), requires employers to make and keep records relevant to a determination of whether unlawful employment practices have been or are being committed and to make reports therefrom as required by the Equal Employment Opportunity Commission. Accordingly, the Commission has issued regulations which set forth the reporting requirements for various kinds of employers. Elementary and secondary schools in their capacity as employers have been required to submit annual reports to the EEOC. Now they will report biennially. This change has been made in consultation with the Office of Management and Budget and is intended to reduce the reporting burden on elementary and secondary schools as required under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* The Commission will require affected schools to file only on even numbered years when they are also required to file staffing reports with the Office of Civil Rights, Department of Education, thus substantially reducing the reporting burden. Note, however, that the recordkeeping requirements of § 1602.39 remain unchanged.

Comments

Comments were received from two representatives of State Education Agencies and two from advocacy groups on behalf of women and girls in education. The representatives of the State Education agencies fully supported the change to the biennial survey because it would reduce the reporting burden while still accurately reflecting staffing patterns. The women's advocacy groups opposed the change on the grounds that (1) it appears to be an indication from the Commission that EEO compliance is less important; (2) the effect on Commission statutory beneficiaries has not been considered and (3) the increased time lapse between reports for smaller school districts would decrease the important process of self-assessment the districts make when filing their reports.

The Commission has carefully considered these comments. This rule change concerning the periodicity of data collection represents no change in the determination of this Commission to honor its mandate under Title VII to eliminate discrimination in employment due to race, sex, religion, color, national origin, age and handicap (in the Federal Government). The recordkeeping requirements for school districts have not been changed. Therefore, annually when each school district compiles the required information for its employment profile, the same process of self-assessment will result. Thus, the Commission has concluded that this revision will not be detrimental to its statutory beneficiaries but will benefit elementary and secondary schools.

In accordance with the Regulatory Flexibility Act, 5 U.S.C. 1601.612, and Executive Order 12291, the Equal Employment Opportunity Commission certifies that the economic effects of this rule have been carefully analyzed, and that it has been determined that neither a regulatory flexibility analysis nor a regulatory impact analysis is required.

A regulatory flexibility analysis is required whenever a rule will have a significant economic impact on a substantial number of small entities, e.g., school districts with a population of less than fifty thousand. The rule will not have an impact on any of the affected school districts except to reduce the existing reporting burden and attendant costs. Similarly this is not a major rule as defined by Section 1(b) of Executive Order 12291 and therefore does not require a regulatory impact analysis.

In compliance with Executive Order 12067 (43 FR 28967, July 5, 1978), the Commission has consulted with the representatives of the necessary federal departments and agencies on the revision of its reporting regulations.

By virtue of the authority vested in the Commission under section 709(c) of Title VII of the Civil Rights Act of 1964, 42 U.S.C. 2000e–8(c), the Equal Employment Opportunity Commission hereby

publishes the following revision to its regulations on Recordkeeping and Reports, 29 CFR Part 1602, specifically 1602.41.

List of Subjects in 29 CFR Part 1602

Administrative practice and procedure, Educational facilities, Elementary and secondary education, Equal employment opportunity, Reporting requirements.

PART 1602—RECORDS AND REPORTS

Section 1602.41 is revised to read as follows:

§ 1602.41 Requirement for filing and preserving copy of report.

On or before November 30, 1982, and biennially thereafter, certain public elementary and secondary school systems and districts, including individually or separately administered districts within such systems, and individual schools within such systems or district shall file with the Commission or its delegate executed copies of Elementary-Secondary Staff Information Report EEO–5 in conformity with the directions set forth in the form and accompanying instructions. The elementary and secondary school systems and districts covered are: (a) Every one of those which have 100 or more employees, and (b) every one of those others which have 15 or more employees from whom the Commission requests the filing of reports. Every such elementary or secondary school system or district shall retain at all times, for a period of 3 years, a copy of the most recently filed report EEO–5 at the central office of the school system or district, or the individual school which is the subject of the report, where more convenient, and shall make the same available if requested by an officer, agent, or employee of the Commission under the authority of section 710 of Title VII, as amended. It is the responsibility of the school systems or districts above described in this section to obtain from the Commission or its delegate necessary supplies of the form.

Signed at Washington, D.C. this 18th day of January 1983.

For the Commission.

Clarence Thomas,

Chairman.

Certification

Pursuant to 5 U.S.C. 605(b), Clarence Thomas, Chairman, Equal Employment Opportunity Commission certifies that the Commission has carefully analyzed the economic effects of the amendment of 29 CFR Part 1602 and has determined that no regulatory flexibility analysis is required. Such analysis is required whenever a rule will have a significant economic impact on a substantial number of small entities, e.g., school districts with a population of less than fifty thousand. This rule will have no impact on any of the affected school districts except to reduce the reporting burden and attendant costs.

Clarence Thomas,

Chairman.

[FR Doc. 83-4730 Filed 2-24-83; 8:45 am]

BILLING CODE 6570-06-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 942

Extension of Deadline for Satisfaction of Conditions of Approval of the Tennessee Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: OSM is announcing its decision to extend the deadline for Tennessee to meet two conditions of approval of its permanent regulatory program under the Surface Mining Control and Reclamation Act of 1977 (SMCRA).

By executive order of the Governor, the Tennessee Division of Surface Mining (DSM) is to be transferred from the Department of Conservation to the Department of Public Health and Environment. This transfer may necessitate some changes in the material submitted by the DSM to meet conditions of approval concerning procedures and forms for permitting, inspection and enforcement, and information on staffing and funding of the Division. Accordingly, OSM is granting DSM an extension which will enable it to revise the amendments submitted to the Secretary to satisfy the two conditions of approval.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. James Curry, Field Office Director, Office of Surface Mining Reclamation and Enforcement, 530 Gay Street, S.W., Suite 400, Knoxville, Tennessee 37902. (615–524–7648)

SUPPLEMENTARY INFORMATION: The Tennessee program was conditionally approved by the Secretary on August 10, 1982 (47 FR 34724–34754). The approval was conditioned on the State's correction of 11 minor deficiencies in its program.

Information pertinent to the general background, revisions, modifications and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and explanation of the conditions of approval of the Tennessee program can be found in the August 10, 1982, Federal Register (47 FR 34724–34754).

Submission of Revisions

On November 1 and 10, 1982, Tennessee submitted amendments to its approved permanent program to satisfy condition "I" concerning procedures and forms for permitting, inspection and enforcement, and condition "J" concerning staffing and funding. The amendments included extensive modifications of Chapters V, VI, VII, X, XI and XII of the Tennessee permanent regulatory program.

On December 3, 1982, OSM announced receipt of these amendments and scheduled a 30-day comment period on the adequacy of the amendments in meeting the Secretary's conditions of approval (47 FR 54474–54475). Subsequently, Tennessee notified OSM by letter dated January 25, 1983, that by executive order of the Governor, the Division of Surface Mining, which is the regulatory authority under Tennessee's approved program, is to be transferred from the Department of Conservation to the Department of Public Health and Environment, effective approximately February 15, 1983. This transfer will necessitate some revision of the amendments submitted to meet the conditions of approval. For this reason, the State requested an extension of the deadline for the State to meet conditions "I" and "J" to April 30, 1983. This extension will allow the State an opportunity to revise the amendments submitted to OSM to reflect changes to be made as a result of the transfer.

Secretary's Determination

The Secretary has determined that the impending transfer to the Department of Public Health and Environment may render pottions of Tennessee's earlier submission of amendments incomplete with respect to satisfying conditions "I" and "J".

In view of Tennessee's November 1 and 10, 1982, submission of amendments which demonstrates the State's good faith effort to satisfy the conditions by the original deadline, and in light of the reorganizational changes which are expected to have a bearing on the adequacy of the amendments submitted in meeting the conditions of approval, the Secretary has determined that it is appropriate and desirable to grant the State an extension of time to meet the

two conditions. The extension will allow the State an opportunity to revise previously submitted material and to provide additional materials to meet the conditions which will reflect the organizational changes. Thus, the Secretary hereby extends the deadline for Tennessee to satisfy conditions "i" and "j" to April 30, 1983.

Following the submission of additional materials, the public will be provided an opportunity to comment on their adequacy in meeting the conditions before the Secretary makes his final decision to approve or disapprove the amendments.

Additional Determinations

1. *Compliance with the National Environmental Policy Act.*—The Secretary has determined that, pursuant to Section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. *Executive Order No. 12291 and the Regulatory Flexibility Act.*—On August 28, 1981, the Office of Management and Budget (OMB) granted OSM an exemption from Sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a Regulatory Impact Analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule does not impose any new requirements; rather, it ensures that existing requirements established by SMCRA and the Federal rules will be met by the State.

3. *Paperwork Reduction Act.*—This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

List of Subjects in 30 CFR Part 942

Coal mining, Intergovernmental relations, Surface mining, Underground mining.

Accordingly, 30 CFR Part 942 is amended as set forth herein.

Dated: February 18, 1983.

Daniel N. Miller, Jr.,

Assistant Secretary for Energy and Minerals.

PART 942—[AMENDED]

§ 942.11 [Amended]

1. 30 CFR Part 942.11 is amended in paragraphs (i) and (j) by substituting "April 30, 1983," for "October 31, 1982" in each paragraph.

BILLING CODE 4310-05-M

DEPARTMENT OF THE TREASURY

Fiscal Service

31 CFR Part 354

Regulations Governing Book-Entry Securities of the Student Loan Marketing Association (Sallie Mae)

AGENCY: Fiscal Service, Treasury.

ACTION: Final rule.

SUMMARY: The Department of the Treasury, acting for the Student Loan Marketing Association (Sallie Mae), hereby issues regulations to govern the issuance of, and transactions in, all Sallie Mae securities issued in book-entry form. The securities shall be held in accounts maintained through Federal Reserve Banks, acting as fiscal agents for the Association by designation of the Department of the Treasury. These regulations shall apply only to Sallie Mae securities issued in book-entry form on or before September 30, 1983. The regulations permit the Student Loan Marketing Association to issue and market its securities in non-competitive form to a wider class of investors.

EFFECTIVE DATE: February 25, 1983.

FOR FURTHER INFORMATION CONTACT: Joanne W. Trimble, Senior Staff Attorney, Student Loan Marketing Association. (202–333–8000)

SUPPLEMENTARY INFORMATION: The Student Loan Marketing Association, established by the Congress as a private corporation and financed by private capital, serves as a secondary market and warehousing facility for student loans. The Association, popularly referred to as "Sallie Mae," is authorized, with the approval of the Secretary of the Treasury, to issue obligations having such maturities and bearing such rate or rates of interest as may be determined by the Association.

The Secretary of the Treasury, to discharge fully his responsibility for approving the issuance of Sallie Mae securities, had designated the Federal Reserve Bank of New York to act as fiscal agent for the Association. To facilitate the issuance of, and transactions in, Sallie Mae securities, the Secretary of the Treasury hereby authorizes all Federal Reserve Banks, as fiscal agents, to maintain for the Association securities issued in book-entry form.

The authority of the Federal Reserve Banks to act as fiscal agents for the Student Loan Marketing Association and for the Association to issue securities pursuant to these regulations, shall terminate on September 30, 1983. Sallie Mae obligations issued prior to that date shall continue to be serviced by Federal Reserve Banks, as fiscal agents, until their respective maturities, and these regulations shall apply to such obligations for the period that they remain outstanding.

It has been determined that these regulations, which are based on book-entry regulations governing United States securities heretofore published by the Fiscal Service, Department of the Treasury in Parts 306 and 350 of Title 31, Code of Federal Regulations, do not require a notice of proposed rulemaking as they involve the fiscal policy of the United States, and that they are not a "major rule" for purposes of Executive Order 12291, dated February 17, 1981.

List of Subjects in 31 CFR Part 354

Bonds, Securities.

Dated: February 22, 1983.

John Kilcoyne,

Assistant Fiscal Assistant Secretary.

Title 31, Code of Federal Regulations is amended by adding a Part 354 to read as follows:

PART 354—REGULATIONS GOVERNING BOOK-ENTRY SECURITIES OF THE STUDENT LOAN MARKETING ASSOCIATION (SALLIE MAE)

Sec.

354.0 Applicability and effect.
354.1 Definition of terms.
354.2 Authority of Reserve Banks.
354.3 Scope and effect of book-entry Sallie Mae securities accounts.
354.4 Transfer or pledge.
354.5 Withdrawal of Sallie Mae securities.
354.6 Delivery of Sallie Mae securities.
354.7 Classes of accounts.
354.8 Identification of accounts.
354.9 Servicing book-entry Sallie Mae securities.

Authority: Section 1087–2(h)(1) of the Higher Education Act of 1965, as amended, 88 Stat. 285; 94 Stat. 1427–1430; 95 Stat. 457 (20 U.S.C. 1087–2); 12 U.S.C. 391; and 5 U.S.C. 301.

§ 354.0 Applicability and effect.

(a) *Applicability.* The regulations in this part govern the issuance of, and transactions in, all securities issued by the Student Loan Marketing Association, sometimes hereafter referred to as "Sallie Mae" or "Association," on or before September 30, 1983.

(b) *Effect.* The Sallie Mae securities to which these regulations apply are obligations, which, by the terms of their issue, are available exclusively in book-entry form, or, which, by the terms of their issue, or otherwise, are convertible from book-entry to definitive form, or vice versa.

§ 354.1 Definition of terms.

In this part, unless the context otherwise requires or indicates:

(a) "Reserve Bank" means a Federal Reserve Bank acting as fiscal agent for Sallie Mae and, when indicated, in its individual capacity.

(b) "Sallie Mae" means the Student Loan Marketing Association, a stockholder-owned corporation established in 1972 by the Higher Education Act of 1965, Pub. L. 92–318, 86 Stat. 265 (20 U.S.C. 1087–2), to provide liquidity for financial and educational institutions and other lenders participating in the Federal Guaranteed Student Loan Program and the Health Education Assistance Loan Program to support the credit needs of students.

(c) "Sallie Mae security" or "security" means notes, bonds, debentures or other similar obligations of the Student Loan Marketing Association issued under the Higher Education Act of 1965, as amended.

(d) "Definitive Sallie Mae security" or "definitive security" means a Sallie Mae security issued in engraved or printed form.

(e) "Book-entry Sallie Mae security" or "book-entry security" means a Sallie Mae security issued in the form of an entry made as prescribed in this part on the records of a Federal Reserve Bank.

(f) "Convertible" means a definitive Sallie Mae security that is convertible into a book-entry Sallie Mae security or vice versa.

(g) "Pledge" includes a pledge of, or any other security interest in, book-entry Sallie Mae securities as collateral for loans or advances, or to secure deposits of public moneys or the performance of an obligation.

(h) "Depository institution" means any national bank, or State bank, other bank or trust company, or any other financial institution, authorized under the Monetary Control Act of 1980, to secure Reserve Bank services.

(i) "CUSIP number" is a unique identification for each security issue established by the Committee on Uniform Security Identification Procedures.

§ 354.2 Authority of Reserve Banks.

Each Reserve Bank is hereby authorized, in accordance with the provisions of this part, to:

(a) Issue book-entry Sallie Mae securities by means of entries on its records, which shall include the name of the Bank's depositor, the latter's employer identification number, where appropriate, and the amount, maturity date and CUSIP number of each security;

(b) Effect conversions between book-entry Sallie Mae securities and definitive Sallie Mae securities;

(c) Service and maintain book-entry Sallie Mae securities; and

(d) Issue a confirmation of transaction in the form of an advice (serially-numbered or otherwise), which specifies the amount, maturity date, and CUSIP number of the security, as well as the date of the transaction.

(e) The foregoing authority shall terminate at the close of business on September 30, 1983, except that, with respect to each issue of book-entry Sallie Mae securities outstanding on said date, the authority shall terminate on its respective maturity date.

§ 354.3 Scope and effect of book-entry Sallie Mae securities accounts.

(a) *Scope and effect of accounts at Reserve Bank.* The Reserve Banks, as fiscal agents for the Student Loan Marketing Association, may apply the regulations in this part to any Sallie Mae securities which are available either in book-entry or definitive form, which have been or are hereafter deposited with a Reserve Bank for any purpose, or which, by the terms of their issuance, are available only in book-entry form, in accounts held in its individual capacity under terms and conditions which indicate that the Reserve Bank will continue to maintain such deposit accounts in its individual capacity notwithstanding their maintenance in book-entry form. This paragraph shall be applicable, but not limited to, Sallie Mae securities deposited or maintained:

(1) As collateral pledged to the Reserve Bank (in its individual capacity) for advances by it;

(2) For a depository institution for its sole account;

(3) For a depository institution held for the account of its customers;

(4) In connection with deposits in a depository institution of funds of States, municipalities, or other political subdivisions;

(5) In connection with the performance of an obligation or duty under federal, state, municipal, or local law, or judgments or decrees of courts.

The maintenance of book-entry Sallie Mae securities under this paragraph shall not derogate from or adversely affect the relationships that would otherwise exist between a Reserve Bank, in its individual capacity, and the entities for which accounts are maintained. Whenever Sallie Mae securities are held in book-entry form, the Reserve Bank is authorized to take all actions necessary in respect of said securities to enable such Reserve Bank, in its individual capacity, to perform its obligations as depository with respect to such Sallie Mae securities.

(b) *Conversion of securities to book-entry.* A Reserve Bank shall convert to book-entry any Sallie Mae securities deposited in definitive form as collateral pledged to the United States, and may hold as book-entries any Sallie Mae securities deposited therewith.

(c) *Consent to conversion.* Any person having an interest in Sallie Mae securities, which are available in either definitive or book-entry form, which are deposited in definitive form with a Reserve Bank (in either its individual capacity or as fiscal agent of the Student Loan Marketing Association) for any purpose shall be deemed to have consented to their conversion to book-entry Sallie Mae securities pursuant to the provisions of this part and in the manner and under procedures prescribed by the Reserve Bank.

§ 354.4 Transfer or pledge.

(a) *Reserve Bank records.* A transfer or a pledge of book-entry Sallie Mae securities to a Reserve Bank or to any transferee or pledgee eligible to maintain an appropriate book-entry account in its name with the Reserve Bank under this part, is effected and perfected, notwithstanding any provision of law to the contrary, by the Reserve Bank making an appropriate entry in its records of the Sallie Mae securities transferred or pledged. The making of such an entry in the records of the Reserve Bank shall:

(1) Have the same effect as the delivery of Sallie Mae securities in bearer definitive form;

(2) Have the effect of a taking of delivery by the transferee or pledgee;

(3) Constitute the transferee or pledgee a holder;

(4) If a pledge, effect a perfected security interest therein in favor of the pledgee. A transfer or pledge of book-entry Sallie Mae securities shall have priority over any transfer, pledge or other interest, theretofore or thereafter effected or perfected under paragraph (b) of this section or in any other manner.

(b) *Member banks or others.* A transfer or a pledge of book-entry Sallie Mae securities, or any interest therein, maintained by a Reserve Bank (in its individual capacity or as fiscal agent of

Sallie Mae) in a book-entry account under this part, including Sallie Mae securities in book-entry form under § 354.3, is effected, and a pledge is perfected, by any means that would be effective under applicable law to effect a transfer or to effect and perfect a pledge of Sallie Mae securities or any interest therein, if the securities were maintained by the Reserve Bank in bearer definitive form. For purposes of transfer or pledge hereunder, book-entry Sallie Mae securities maintained by the Reserve Bank shall, notwithstanding any provision of the law to the contrary, be deemed to be maintained in bearer definitive form. The Reserve Bank maintaining book-entry Sallie Mae securities either in its individual capacity, or as agent of Sallie Mae, is not a bailee for purposes of notification of pledges of those securities under this paragraph. Where Sallie Mae securities are recorded on the books of an entity for account of the pledgor or transferor thereof and such securities are on deposit or are maintained with the Reserve Bank in a book-entry account hereunder, such entity shall, for purposes of perfecting a pledge of such securities or effecting their delivery to a purchaser under applicable provisions of law, be the bailee to which notification of the pledge of the securities may be given or the third person in possession from which acknowledgment of the holding of the securities for the purchase may be obtained. The Reserve Bank will not accept notice or advice of a transfer or a pledge effected or perfected under this paragraph, and any such notice or advice shall have no effect. The Reserve Bank may continue to deal with its depositors in accordance with the provisions of this part, notwithstanding any transfer or pledge effected or perfected under this paragraph.

(c) *Filing and recording unnecessary.* No filing or recording with a public recording office or officer shall be necessary or effective with respect to any transfer or pledge of book-entry Sallie Mae securities or any interest therein.

(d) *Conversion.* The Reserve Bank shall, upon receipt of appropriate instructions, convert book-entry Sallie Mae securities into definitive Sallie Mae securities, if convertible, and deliver them in accordance with such instructions. No such conversion shall affect existing interests in such Sallie Mae securities.

(e) *Transfer by Reserve Bank.* A transfer of book-entry Sallie Mae securities within a Reserve Bank shall be made in accordance with the procedure established by the Bank not inconsistent with this part. The transfer of book-entry Sallie Mae securities by a Reserve Bank may be made through a telegraphic transfer procedure.

(f) *Timeliness of requests.* All requests for transfer, withdrawal or any authorized transaction, must be received prior to the date of call or maturity of the security.

§ 354.5 Withdrawal of Sallie Mae securities.

(a) *Withdrawal of convertible securities.* A depositor of book-entry Sallie Mae securities may withdraw them, if convertible, from a Reserve Bank by requesting delivery of like definitive Sallie Mae securities to itself or, on its order, to a transferee.

(b) *Registration.* Sallie Mae securities, issued on or after the effective date of these regulations, which, by the terms of their issuance, are available in definitive form, may be withdrawn in registered form only.

§ 354.6 Delivery of Sallie Mae securities.

Where a Reserve Bank has received Sallie Mae securities and effected pledges, made entries regarding them, or transferred or delivered them according to the instructions of its depositor, it shall not be liable for conversion or for participation in breach of fiduciary duty even though the depositor has no right to dispose of or take other action in respect of the securities. A Reserve Bank shall be fully discharged of its obligations under this part by the transfer or delivery of Sallie Mae securities in book-entry form to its depositor or upon the order of such depositor. Customers of a depository institution or other entity (other than a Reserve Bank) may obtain Sallie Mae securities in definitive form, if convertible, only by causing the depositor of the Reserve Bank to order the withdrawal thereof from the Reserve Bank.

§ 354.7 Classes of accounts.

A Reserve Bank is authorized to maintain book-entry Sallie Mae securities for depository institutions located in its district for securities such institutions hold for their own account, or hold for the account of their customers, and as otherwise specified in § 354.3. Purchasers of book-entry Sallie Mae securities, on original issue or otherwise, may have such securities maintained in book-entry form at depository institutions of a Federal Reserve Bank or in accounts maintained at entities providing securities safekeeping services for customers (*e.g.*, securities dealers) which have related accounts at such institutions.

§ 354.8 Identification of accounts.

Book-entry accounts may be established in such form or forms as customarily permitted by the entity (*e.g.*, depository institution, securities dealer, etc.) maintaining them, except that each account should include data to permit both customer identification by name, address, and taxpayer identifying number, as well as a determination of the Sallie Mae securities being held in such account by amount, maturity, date, and CUSIP number, and of transactions relating thereto.

§ 354.9 Servicing book-entry Sallie Mae securities.

Payment of interest, payment at upon call or at maturity.

(a) *Payment of interest.* Interest becoming due on book-entry Sallie Mae securities shall be charged to the appropriate Sallie Mae account at the Reserve Bank on the interest-due date and remitted or credited in accordance with the instructions of the depository institution.

(b) *Payment of principal.* Upon call or at maturity book-entry Sallie Mae securities shall be redeemed and charged to the appropriate Sallie Mae account at the Reserve Bank and the redemption proceeds, i.e., principal and any interest payable with the principal, shall be disposed of in accordance with the instructions of the depository institution for whose account the securities were maintained.

BILLING CODE 4810-40-M

DEPARTMENT OF EDUCATION

34 CFR Part 601

Eligibility of Foreign Medical Schools Under the Guaranteed Student Loan Program (GSLP)

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary issues regulations for the purpose of determining whether medical schools located outside the United States and Canada are eligible to apply for participation in the Guaranteed Student Loan Program (GSLP). Participation in the GSLP by a foreign medical school means that its students who are citizens or nationals of the United States may apply for loans from eligible lenders under that program. These regulations establish new procedures and criteria that will be used by the Secretary in determining eligibility.

EFFECTIVE DATE: Unless Congress takes certain adjournments, these regulations will take effect 45 days after publication in the **Federal Register**. If you want to know the effective date of these regulations, call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: Mr. Richard J. Rowe, Director, Eligibility and Agency Evaluation Staff, Office of Postsecondary Education, United States Department of Education, Washington, D.C. 20202, Telephone (202) 245-9873.

SUPPLEMENTARY INFORMATION:

Background

Section 435(a) of the Higher Education Act of 1965, as amended, provides that foreign schools are eligible to apply for participation in the Guaranteed Student Loan Program (GSLP) if they are comparable to institutions of higher education or vocational schools located in the United States and are otherwise approved by the Secretary for purposes of the GSLP.

Sections 435 (b) and (c) of the Higher Education Act of 1965, as amended, provide that institutions of higher education and vocational schools located in the United States must, among other things, be accredited to be eligible to apply for participation in the GSLP. In the United States there is a nationally recognized accrediting agency which accredits medical schools. The same nationally recognized accrediting agency which accredits United States medical schools also accredits medical schools located in Canada. Accordingly, the Secretary is able to use the same procedures and criteria for determining the eligibility of Canadian medical schools under the GSLP as are used for United States medical schools.

With respect to foreign medical schools other than those in Canada, however, there exists no accrediting agency on whose opinion the Secretary can rely. No organization comparable to a nationally recognized accrediting agency makes site reviews of foreign medical schools and makes expert judgments as to the content, scope, and quality of the training offered, nor does the Secretary have the resources to undertake such reviews. The Secretary recognizes the great value an international accrediting agency such as the one just described would have to the American educational community, and the Secretary encourages the establishment of such an agency as the most effective means of monitoring the educational quality of all foreign schools, including foreign medical schools. The regulations promulgated by the Department concerning foreign medical school eligibility under the GSLP are viewed as only an interim solution in only one limited area of the much broader problem of assessing the "comparability" of all foreign schools which are not now monitored by a comprehensive international accrediting body.

In making past eligibility determinations regarding foreign medical schools, the Department sought to determine two facts—whether the medical school was "recognized" or "approved" by any relevant foreign professional organization or government ministry, and whether the educational programs offered by the medical school were of adequate quality by American standards. In making these determinations, the Department sought and considered information from every available source.

With respect to "recognition" of foreign medical schools, the primary sources of information included international directories, yearbooks or handbooks, and organizations of such institutions within the foreign country, for example, the Association of Commonwealth Universities for countries in the British Commonwealth of Nations, or the Union of Latin American Universities.

Sources of information relating to the quality of a medical school included school catalogs, foreign educational organizations and direct observations by third parties. These sources, however, did not always provide reliable information, or any information, about the quality of a school, especially one which had just opened. As a practical matter, therefore, in the absence of any reliable information volunteered by these sources which indicated that a school's educational quality was unsatisfactory, the school's educational quality was assumed to be "comparable", and therefore the school was granted eligibility.

By January 1978, the Department (at that time, the United States Office of Education) had concluded that the indicators of quality it had primarily relied upon in the past were not totally reliable indicators of quality and, in many cases, were not objective or verifiable. The Department therefore decided, under the authority of sections 435(b) and 435(c) of the Higher Education Act, to appoint a special advisory committee of qualified experts, to recommend more reliable measures of the quality of education provided at foreign medical schools as compared with the quality of that provided at United States medical schools. The committee recommended an objective standard for measuring relative medical school quality—performance of a school's three most recent graduating classes on a commonly taken, standardized test of medical knowledge, the examination given by the Educational Commission for Foreign Medical Graduates (ECFMG), Philadelphia, Pennsylvania.

The then Commissioner of Education took cognizance of the "comparability" measure recommended by the special advisory committee, and this measure formed the basis for the Notice of Proposed Rulemaking (NPRM) published by the Department in the **Federal Register** on April 23, 1979 (44 FR 23888) as proposed subpart E of 45 CFR Part 149 (now redesignated as 34 CFR Part 601).

These final regulations adopt as a measure of institutional "comparability" the "output" measure set forth in the proposed regulations of April 23, 1979, but with some modifications made in light of comments submitted by members of the public.

Specifically, the Secretary will require that for a foreign medical school to be eligible to participate in the GSLP, its students who are United States citizens or nationals must have passed the ECFMG examination on 50 percent of the occasions on which such United States citizens or nationals took the ECFMG examination during the most recent twenty-four month period for which data are available from the Educational Commission for Foreign Medical Graduates. The ECFMG examination is a common and readily accessible examination by which a United States citizen or national who is attending a foreign medical school may qualify for entry into the United States health care system. Public comment on the proposed regulations provided information that the ECFMG examination, though not actually taken by United States-trained medical students, would, by design, be passed by at least 87 percent of such United States-trained medical students on a given testing. Therefore, the Secretary considered setting the minimum pass rate for "comparable" foreign medical schools at 87 percent. For reasons set forth in detail in Appendix A, however, groups of students at *individual* foreign medical schools who are United States citizens or nationals cannot each be fairly expected to achieve or exceed the *average* pass rate that the *entire group* of domestically-trained American medical students would be expected to achieve on the ECFMG examination. The Secretary believes instead that a pass rate of *50 percent* at a foreign

medical school establishes a reasonable likelihood that its students who are United States citizens or nationals will successfully enter the United States health care delivery system at a rate comparable to that at which graduates of many accredited domestic medical schools enter the system, thereby evidencing a similar reasonable likelihood that the foreign medical school's academic program is comparable to that of most accredited American medical schools.

The only schools which will not have to comply strictly with the 50 percent pass rate requirement are those schools that only a very small number of Americans attend. The Secretary will deal with those schools in a more flexible fashion, in light of the possible unfairness to those schools of making eligibility decisions based on an exceedingly small sample of student performance.

Section 601.4(c), like the corresponding section in the proposed regulations, provides that an eligible school must provide a period of clinical and classroom medical education of not less than 32 months. Unlike the corresponding section in the proposed regulations, however, § 601.4(c) provides that an eligible school must directly supervise the education it provides its students and must provide such education in facilities adequately equipped and staffed to afford students comprehensive clinical and classroom medical training. Section 601.4(c) has been modified in response to the views of many commenters and in light of the findings of the General Accounting Office (GAO) set forth in its report "Policies on U.S. Citizens Studying Medicine Abroad Need Review and Reappraisal" (HRD–81–32, issued November 21, 1980).

The purpose of § 601.4(c) as modified is both to provide greater assurance that the facilities and staff of an eligible foreign medical school are comparable to those of most accredited United States medical schools and to provide assurance that the eligible foreign medical school is itself providing the educational services its students' loan proceeds are intended to pay for. The Department intends to require a school to submit information relevant to this criterion only after the school has demonstrated its satisfaction of all other criteria for statutory eligibility, thereby reducing the administrative burdens placed upon many applicants and upon the Department in its implementation of these regulations.

The criterion set forth in § 601.4(d) provides that a foreign medical school which has not yet graduated two classes will be unable to qualify. The Secretary believes that approval of a new foreign medical school should not be issued until the school has become firmly established and its entire educational program has been exposed to a significant number of students.

In addition, foreign medical schools must demonstrate, as they have had to do in the past, that they meet a number of other basic requirements, such as being listed in the *World Directory of Medical Schools* published by the World Health Organization and being recognized by evaluative bodies in their own countries.

Once a foreign medical school is determined eligible to apply for participation in the GSLP, the Secretary will not review the ECFMG examination scores of that school's students again for two years. After two years, another review of those scores will be required. Therefore, even if a school's pass rate drops below the ECFMG pass rate criterion during those two years, the school will not lose its eligibility for the GSLP. The purpose of this provision is to reduce the administrative burdens placed upon eligible foreign medical schools and upon the Department in the implementation of these regulations.

A foreign medical school will lose its eligibility immediately, however, if at any time it no longer meets any eligibility criterion other than the ECFMG pass rate criterion. Most of these criteria are fundamental to a school's existence as a medical school and are satisfied by a foreign medical school early in its existence; it is highly unlikely that a foreign medical school, once eligible, will subsequently fail to meet one of these criteria. If a school does lose its eligibility because it no longer meets an eligibility criterion other than the ECFMG pass rate criterion, however, no student attending that school may receive a Guaranteed Student Loan Program loan during that school's ineligibility. The only exception to this rule is the situation of a student who, on the publication date of these regulations, is attending a foreign medical school which is eligible to participate in the GSLP and who is a recipient of a GSLP loan for a previous period of study at that school. Such a student may qualify to receive additional GSLP loans for the remainder of his or her enrollment at the school, thereby mitigating any deleterious effects the Department's promulgation of these regulations might have had upon a student who is currently attending an eligible school and is financing his or her education at least in part with GSLP loans.

Similarly, when a foreign medical school that has established its eligibility to apply under these regulations subsequently loses its eligibility solely because of its failure, after two years of eligibility, to continue to meet the ECFMG pass rate criterion, those students who received loans under the GSLP while the school was eligible may qualify to receive additional loans for the remainder of their enrollment at the school; however, no other students at the school may qualify for GSLP loans during the school's ineligibility. The purpose of this rule is to give students a fairly high degree of assurance that an educational program begun at an eligible foreign medical school with the help of GSLP loans may be completed with the help of GSLP loans as well.

Summaries of changes resulting from public comment and summaries of other comments that did not result in changes in these regulations, together with the Secretary's responses to those comments, are contained in Appendices A and B following these regulations.

Executive Order 12291: These regulations have been reviewed in accordance with Executive Order 12291. They are classified as non-major because they do not meet the criteria for major regulations established in the order.

List of Subjects in 34 CFR Part 601

Colleges and universities, Education, Foreign medical schools.

Citation of Legal Authority

A citation of statutory or other legal authority is placed in parentheses on the line following each substantive provision of these final regulations.

(Catalog of Federal Domestic Assistance 84.032—Guaranteed Student Loan Program)

Dated: February 16, 1983.

T. H. Bell,

Secretary of Education.

The Secretary adds a new Part 601 to Chapter VI of Title 34 of the Code of Federal Regulations, to read as follows:

PART 601—ELIGIBILITY OF FOREIGN MEDICAL SCHOOLS UNDER THE GUARANTEED STUDENT LOAN PROGRAM (GSLP)

Sec.

601.1 Purpose and scope.
601.2 Definitions.
601.3 Requesting an eligibility determination.
601.4 Criteria for determination of eligibility to apply for participation in the GSLP.
601.5 Duration of eligibility determination.
601.6 Determination that a school previously eligible under this subpart is no longer eligible.

Sec.

601.7 Exception for students who received GSLP loans to attend foreign medical schools prior to publication date of this subpart.

Authority: Sections 432 and 435(a) of the Higher Education Act of 1965, as amended (20 U.S.C. 1082, 1085(a)).

§ 601.1 Purpose and scope.

(a) An educational institution located outside the United States is eligible to apply for participation in the Guaranteed Student Loan Program (GSLP) if it is comparable to medical schools in the United States and has been otherwise approved by the Secretary for purposes of the GSLP. This subpart sets forth procedures and criteria by which the Secretary determines whether medical schools located outside the United States and Canada are eligible to apply for participation in the GSLP.

"Participation" in the GSLP by a foreign medical school means that its students who are citizens or nationals of the United States may apply for loans from eligible lenders under that program.

(b) This subpart does not cover the procedures and criteria by which a foreign medical school determined eligible to apply for participation in the GSLP actually applies for such participation. Those procedures and criteria are set forth in the GSLP regulations, 34 CFR Part 682.

(c) With respect to medical schools located in Canada, the Secretary uses the same procedures and criteria for determining eligibility as for medical schools located in the United States, because the nationally recognized accrediting agency which accredits medical schools located in the United States also accredits medical schools located in Canada. Similarly, any other school, wherever located, which acquires the accreditation of an accrediting agency which the Secretary recognizes as comparable to the agency which accredits United States medical schools shall be subject to the procedures and criteria applied to United States medical schools, rather than to the provisions of this part.

(20 U.S.C. 1082, 1085)

§ 601.2 Definitions.

For purposes of this subpart:

"Foreign medical school" means a medical school not located in a State or in Canada.

"Guaranteed Student Loan Program (GSLP)" means the student loan program authorized by Title IV, Part B of the Higher Education Act of 1965, as amended (20 U.S.C. 1071 to 1087–2, regulations in 34 CFR Part 682) and includes the PLUS program (Auxiliary Loan Program, regulations in 34 CFR Part 683), also authorized by Part B.

"Medical school" means a school which satisfies the criteria for listing as a medical school in the *World Directory of Medical Schools* published by the World Health Organization (WHO).

"Pass rate" means the number of examinations passed (with passing scores on both medicine *and* English sections) by persons counted as "United States citizens" for tabulation purposes by the ECFMG who were graduates of the medical school, or in attendance at the school, at the time the examinations they passed were administered, divided by the number of examinations taken by all persons counted as "United States citizens" for tabulation purposes by the ECFMG who were graduates of the medical school, or were in attendance at the school, at the time the examinations they took were administered, expressed as a percentage.

"State" or "United States" includes, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

(20 U.S.C. 1082, 1085, 1141)

§ 601.3 Requesting an eligibility determination.

The Secretary may determine a foreign medical school eligible to apply for participation in the GSLP at any time, upon the request of either:

(a) A person who is

(1) Enrolled, or accepted for enrollment, at that school, and

(2) Otherwise eligible to receive a GSLP loan, or

(b) The school, on behalf of eligible students in attendance.

(20 U.S.C. 1082, 1085)

§ 601.4 Criteria for determination of eligibility to apply for participation in the GSLP.

The Secretary determines that a foreign medical school is eligible to apply for participation in the GSLP only if it meets all of the following criteria:

(a) The school is a medical school, as defined in § 601.2.

(b) The school is both recognized as a medical school and approved by those evaluating bodies (such as medical associations or educational agencies) in the country in which the school is located whose views are considered relevant by the Secretary.

(c) The school provides, and in the normal course requires its students to complete, a program of clinical and classroom medical instruction of not less than 32 months in length, which is supervised closely by members of the school's faculty and which is provided either (1) outside the United States, in facilities adequately equipped and staffed to afford students comprehensive clinical and classroom medical instruction, or (2) in the United States, through a training program for foreign medical students which has been approved by all medical licensing boards and evaluating bodies whose views are considered relevant by the Secretary.

(d) The school has graduated classes during each of the two twelve-month periods immediately preceding the date the Secretary receives the school's request for an eligibility determination.

(e) During the most recent twenty-four month period for which data is available prior to the date the Secretary receives a request for a determination of the school's eligibility, the school's American students have achieved a pass rate of not less than 50 per cent on the examination of the Educational Commission for Foreign Medical Graduates (ECFMG), Philadelphia, Pennsylvania; provided, however, that if the number of ECFMG examinations taken by American students or graduates of the school during the preceding twenty-four month period is less than eight, the Secretary shall not deem the school to have failed to satisfy this criterion unless, after assessing the ECFMG examination performance of the school's students and graduates over a preceding period greater than twenty-four months, the Secretary concludes that the ECFMG examination performance of the school's students and graduates has been significantly and consistently substandard for a prolonged period of time.

(20 U.S.C. 1082, 1085)

§ 601.5 Duration of eligibility determination.

(a) A determination by the Secretary that a foreign medical school is eligible to apply for participation in the GSLP is effective for two years, subject to the qualifications set forth in § 601.6. The determination is not rescinded during the two-year period even if at any time during that period the school no longer meets the criterion set forth in § 601.4(e).

(b) At any time, the Secretary may require a school or student to update the information the school or student provided in an earlier request for an eligibility determination.

(20 U.S.C. 1082, 1085)

§ 601.6 Determination that a school previously eligible under this subpart is no longer eligible.

(a) If at any time a school previously eligible under this subpart no longer meets any of the criteria set forth in § 601.4 other than the criterion set forth in § 601.4(e), it loses its eligibility on the date it no longer meets that criterion. In such a case, except as provided in § 601.7, no student may subsequently receive a GSLP loan for attendance at that school, until the school's eligibility is restored.

(b) Upon a determination, made by the Secretary after the expiration of the two-year period described in § 601.5, that a foreign medical school which was previously eligible under this subpart no longer satisfies the criterion set forth in § 601.4(e) but satisfies all other eligibility criteria, only those students enrolled at the foreign medical school who actually received GSLP loans for a period during which the school was eligible under this subpart may receive additional loans for the remainder of their enrollment at the school, provided the school continues to satisfy all eligibility criteria other than the criterion set forth in § 601.4(e) and provided those students continue to satisfy all other student eligibility requirements.

(20 U.S.C. 1082, 1085)

§ 601.7 Exception for student who received GSLP loan to attend foreign medical school prior to publication date of this subpart.

Any student who was enrolled at a foreign medical school that was eligible to participate in the GSLP on the publication date of this subpart and who actually received a GSLP loan to attend that school for a period during which the school was eligible to participate in the GSLP may receive GSLP loans for the remainder of his or her enrollment at that school, despite the school's loss of eligibility under this subpart, provided the school continues to be a medical school, as defined in § 601.2, and provided the student continues to satisfy all other student eligibility requirements.

(20 U.S.C. 1082, 1085)

Note.—This Appendix is included for information. It is not to be codified in the Code of Federal Regulations.

Appendix A—Summary of Changes Resulting From Rulemaking

A Notice of Proposed Rulemaking was published in the **Federal Register** on April 23, 1979 as Subpart E of 45 CFR Part 149 (44 FR 23888–23890), now redesignated as 34 CFR Part 601. Interested persons were given 60 days in which to comment. Comments were analyzed in relation to their bearing on the fundamental concern of these regulations—namely, that American students in foreign medical schools benefit from a medical education which is comparable to that offered by most accredited American medical schools. Discussed below are those comments that resulted in changes from positions taken in the Department's proposed regulations.

1. *Section 601.4(a)—listing in the World Directory of Medical Schools.*

Comments. Several commenters indicated that a foreign medical school's listing in the *World Directory of Medical Schools* published by the World Health Organization (WHO) is not an indication of the quality of that medical school's program, but only an indication that that school has been licensed to operate by its country's government. These commenters suggested that the WHO listing requirement be deleted.

Response. The Department fully agrees with the substantive point made by these commenters but points out that WHO listing is merely one of a number of requirements a foreign medical school must meet in order to be eligible to apply for GSLP participation. The Department, however, as the result of these comments, has incorporated the WHO listing requirement into the definition of "medical school" for purposes of these regulations, arguably a more appropriate location.

2. *Section 601.4(c)—concern over the nature of the instruction provided at a foreign school.*

Comments. Proposed section 149.84, among other things, proposed to require an eligible foreign medical school to provide a period of "instruction" of at least 32 months, without specifying the characteristics of that "instruction". The generality of this proposed provision reflects the Department's acknowledged lack of the resources necessary to do site reviews at foreign institutions and its recognition of the fact that inexpert third-party reports concerning the facilities and staff of a foreign institution are not always completely accurate or reliable. However, a substantial number of commenters, including *some students enrolled at foreign medical schools at the time they submitted their comments,* expressed great concern and dissatisfaction regarding the lack of comprehensive *clinical* training at a number of foreign medical schools. They similarly questioned whether a high pass rate among its students on the ECFMG examination guarantees that a foreign medical school is providing adequate clinical training.

These comments were bolstered by the findings of a review done by the United States General Accounting Office (GAO) (HRD–81–32 issued November 21, 1980), based upon site visits to six foreign medical schools in the Caribbean, Mexico and Europe, made between July and November 1979. A major shortcoming at each school, the GAO found, was a lack of adequate clinical training facilities; at some schools, clinical faculty and clinical curriculum were found to be lacking or of poor quality as well. The GAO also found that though some foreign medical schools attempt to compensate for their lack of adequate clinical facilities by sending their students to the United States for clinical training, the United States programs to which those students are sent often have not been approved by State medical licensing boards or other relevant professional agencies in the jurisdiction in which the programs are conducted. Furthermore, students sent to the United States for clinical training, the GAO found, often are not supervised at all by staff members of the foreign medical school to whom the students have paid their tuition.

Response. Since in the opinion of the concerned commenters and the GAO, adequate clinical training is an absolutely essential component of a medical doctor's education, the Department feels it should examine the nature of the training provided by a foreign medical school in making its determination of foreign medical school eligibility. Perhaps more accurately, the Department believes it should not be precluded from considering information regarding the nature of the training provided by a foreign medical school, at least when the Department has strong reason to believe that that information is reliable.

3. *Section 601.4(e)—the ECFMG standard.* By far the most commented-upon sections of the proposed regulations were those concerning the requirement that a school demonstrate that not less than 95 percent of its American graduates during the past 24-month period had passed the ECFMG examination on their first attempt. The 95 percent figure was based upon a professional opinion, published in the *New England Journal of Medicine,* to the effect that at least 95 percent of American-trained medical graduates would be likely to pass the ECFMG on their first attempt.

(a) *The relationship between the ECFMG examination and tests taken by American-trained medical students.*

Comment. Many commenters argued that no basis existed for the 95 percent

projected pass rate, noting that American medical graduates do not take the ECFMG examination and that as a result, no such comparison can be made with foreign medical school graduates' performance on the ECFMG examination.

Response. The Department has found the commenters' criticisms in this regard to be unjustified; however, as described below, as a result of information provided by *another commenter* concerning the same issue, the Department has redefined its concept of "pass rate" for purposes of the regulations and has accordingly modified the percentage associated with that concept.

According to one commenter who provided information solicited directly from the Educational Commission for Foreign Medical Graduates, there is a direct relationship between the ECFMG exam, which is taken by foreign-educated medical trainees, and Parts I and II of the examination series given by the National Board of Medical Examiners (NBME), which is taken by all American-educated medical trainees. The questions which make up the ECFMG examination are selected from a large pool of test questions which is maintained by the NBME. Each of these questions has been used in at least one previous NBME examination; hence each question has a known "track record" of performance in the previous examinations in which it was used, and precise information is available regarding the precentage of correct answers given to each question on previous examinations.

On any NBME I and II examination series, the lowest passing score in the reference group of examinees is set at 1.2 standard deviations below the mean for basic science questions and at 2.1 standard deviations below the mean for clinical science questions. In practice, these standards result in a passing score for approximately the top 89 percent on the basic science questions and for approximately the top 98 percent on the clinical science questions. Therefore, even assuming the highly unlikely circumstance that none of the NBME I and II examinees who fail the basic science section also fail the clinical science section, and *vice versa*, the maximum rate at which a group of students who take both the NBME I and II will fail one or the other section is 13 percent (11 percent basic science plus 2 percent clinical science), and the minimum pass rate, accordingly, is 87 percent.

The passing standard for any ECFMG examination, in turn, is set at the level of correct answers that it would have been necessary for American medical students to have attained in order to have passed a hypothetical NBME I and II series consisting of the questions actually used in the ECFMG examination in question. Since the ECFMG passes every student whose score is as high or higher than the lowest passing score on the hypothetical NBME series just described, and because by design no less than 87 percent of American students would achieve a passing score on that hypothetical examination, it follows that at least 87 percent of the American citizens or nationals who take a given ECFMG exam should pass it if they are as well trained as their American-trained counterparts.

There does exist, therefore, a basis for relating the performance of domestically-trained medical students on the NBME I and II examinations to the performance of foreign-trained medical students on the ECFMG examination. Indeed, because at least 87 percent of American-educated medical trainees could be expected to pass the ECFMG examination on *any* given testing, there is no need for the Department to apply its standard only to *first-time* takers of the ECFMG examination, as the Notice of Proposed Rulemaking provided; therefore, as many commenters requested, the "first time taker" provision has been deleted from the regulations.

(b) *Biasing factors in the application of the ECFMG pass rate criterion.* Though, as indicated above, a case could be made for establishing a pass rate of 87 percent with respect to all examinations taken by American students at each foreign medical school, certain comments from members of the public have convinced the Secretary to depart from the 87 percent pass rate that the statistical analysis above suggests. There are essentially three such comments that the Secretary believes are worthy of consideration.

Comments. First, as some commenters mentioned, it is clear that neither every domestic medical school nor every foreign medical school has an American student population comprised of a randomly-drawn cross section of American medical school students. Though the Department of Education has learned that no less than 87 percent of all *medical students* who take both the NBME I and II examinations will pass both examinations on the first try, the Department has been unable to obtain data from the NBME regarding the performance of United States-trained NBME test takers on a *school-by-school* basis. It is virtually certain, however, that because some United States schools are likely to enroll proportionately more passing students than other schools, on a given NBME testing series, at a substantial number of accredited domestic medical schools, less than 87 percent of the students who take the examination series pass both NBME I and II on the first try. Because not all accredited United States schools produce a group of test takers who pass the NBME I and II series at an 87 percent rate, it is arguably unfair to require all foreign schools to achieve a pass rate as high as 87 percent in order to attain GSLP eligibility.

Second, a number of comenters pointed out that the rules for certain transfer and placement programs for foreign medical students who are beyond their second year of medical education—most notably the "Fifth Pathway" programs—require foreign medical students to take the ECFMG examination substantially earlier in their education than American-trained students are required to take Part II of the NBME examination series. Therefore, the commenters asserted, because many foreign students seek to take advantage of such transfer programs, a substantial number of foreign-trained students are not as well prepared to take their first ECFMG examination as American-trained students are prepared to take their first NBME II examination. As a result, foreign-trained students should not be expected to perform as well, as a group, on the ECFMG examination as American-trained fourth-year medical students could be expected to perform on that examination.

Finally, many commenters noted that it is a common practice at foreign medical schools for students to take the ECFMG examination for the first time well before their fourth year of education, purely for purposes of gaining experience in taking the examination. In many cases, such students take the examination substantially before they have a reasonable likelihood of passing it and, as a consequence, their performance significantly reduces the overall pass rate of foreign medical students on the ECFMG examination.

Response. Because of the three factors described above, the Secretary believes it inappropriate to hold foreign medical school students to a passing standard of 87 percent on a school-by-school basis. After assessing the likely extent to which the two test-taking practices described above may depress the overall pass rate of foreign medical students on the ECFMG, and after taking into account the Department's interest in not imposing upon those

foreign medical students compliance burdens not directly related to the Department's regulatory objectives, the Secretary has set the required pass rate for eligible foreign medical schools at 50 percent.

(c) *Application of the ECFMG pass rate criterion to schools with small numbers of American students.*

Comment. A final criticism of the proposed ECFMG pass rate criterion that was raised by a large number of commenters concerns the fact that the criterion could deal harshly and unfairly with foreign medical schools that graduate only a very small number of Americans each year. Commenters indicated that a school's future eligibility could depend completely upon the testing performance of that school's *one* American student each year, and that the performance of a single student is much too small a sample of overall student performance to serve as a basis for an eligibility judgment. Some commenters suggested a lower pass rates for schools with a small number of Americans, and others suggested that such schools should be entirely exempt from the pass rate criterion.

Response. The Secretary recognizes the merit of the point made by the commenters and has chosen a more flexible approach with regard to foreign medical schools at which American students have taken the ECFMG examination less than eight times during the relevenat 24-month period. The Secretary will not automatically exclude such a school merely because it fails to satisfy the ECFMG pass rate criterion applied to larger schools. The Secretary will instead survey the ECFMG examination performance of that school's American students over a period of time greater than the preceding 24 months. After that survey, the Secretary will exclude the school only if its students have performed poorly on the ECFMG examination so consistently and for such a long period of time that the Secretary finds the students' poor performance a significant indicant of an educational problem at the school. Though the Secretary will therefore exercise a great deal more discretion with respect to the eligibility of foreign medical schools with a small number of Americans, the Secretary will by no means completely exempt these schools from critical examination under the ECFMG pass rate criterion.

4. *Proposed section 149.4(h)—requirement that graduates of school be capable of being licensed in country in which school is located.*

Comment. A small number of commenters pointed out that this criterion was duplicative of the requirements of proposed section 149.84(b), regarding recognition and approval by local medical authorities; the commenters indicated that seldom, if ever, would a medical school be approved by local authorities if its graduates could not be licensed to practice in the jurisdiction those authorities regulate. Other commenters, particularly students attending Mexican medical schools, also pointed out that the concepts of "graduation" and "licensing" as thought of in the United States and many other countries do not transfer neatly to Mexico.

Response. After consideration of these comments, the Department has chosen to eliminate the criterion in question from the final regulations.

5. *Section 601.6—treatment of students in attendance at eligible school when school loses eligibility.*

Comment. A small number of commenters indicated that though they supported the proposed section which "grandfathers in" those students attending eligible schools when the regulation is issued who had received GSLP loans in the past, the commenters felt there was likewise a need for protection for *any* student who in the future is placed in a similar situation, especially when the school's loss of eligibility is due to its failure to continue to meet the ECFMG pass rate requirement.

Response. Though the Department recognizes that in general, neither foreign nor domestic students attending ineligible educational institutions are entitled to receive GSLP loans, the Department also recognizes that a foreign medical student reliant on GSLP loans is especially burdened when his or her school loses its eligibility. Moving to another eligible medical school (if that option exists) would most likely require such a student to move to another country as well as to move into a different educational system. The Department believes that for largely the same reasons it is "grandfathering in" those GSLP recipients attending eligible foreign medical schools on the date the regulation is published, a continuing but somewhat more limited "grandfather" provision is appropriate for future American foreign medical school students who choose to attend a foreign medical school which is eligible when they begin their education but which later becomes ineligible. The Department has included such a limited "grandfather" provision in its final regulations.

A summary of other comments that did not result in changes in these regulations and the Secretary's reponses to them are contained in Appendix B.

Appendix B—Summary of Comments That Did Not Result in Changes and Responses to Those Comments

In the notice of proposed rule making published in the **Federal Register** on April 23, 1979 (44 FR 23888–23890), the Department invited comments on the proposed regulations to implement Section 435(a) of the Higher Education Act of 1965, as amended, as it applies to the determination of the eligibility of foreign medical schools to apply for participation in the Guaranteed Student Loan Program (GSLP).

The following is a summary of the substantive public comments which were received and considered but which did not result in changes from the positions taken by the Department in the proposed regulations. Appendix A contains a summary of the substantive public comments which did result in changes from positions taken by the Department in its proposed regulations. The comments and responses are organized to the extent possible in the same order as the referenced sections are organized in the final regulations.

General Comments

Comment. A large number of people objected to the Department's entire regulatory effort regarding foreign medical schools. They objected to the concept of different eligibility criteria for foreign as opposed to domestic medical schools, and they objected to the Department's action to "single out" foreign medical school eligibility from all other possible foreign school eligibility matters. Some commenters found similarly "discriminatory" both the exemption of Canadian schools from the regulation's application and the Department's failure to exempt Mexican schools from the regulation's application.

Response. Different treatment of foreign medical school eligibility and domestic medical school eligibility is necessitated by the absence of relevant accrediting bodies for foreign medical schools. Canadian medical schools are exempted from the regulations because the accrediting body that accredits United States medical schools also accredits Canadian medical schools. The Department considers foreign medical school eligibility a matter particularly worthy of regulation because of the enormous responsibility placed upon doctors and because of the possibly disastrous consequences of mistakes resulting from a doctor's inadequate training.

Comment. Some commenters questioned the validity of using student

examination performance as a measure of school's educational quality. These commenters indicated that a student's performance on a standardized examination does not always accurately reflect his or her competence or training and that many American citizens and nationals are attending foreign medical schools precisely because they are "bad testers" and, as a consequence, were not admitted to American medical schools. The noteworthy alternatives to the "output" approach suggested by the commenters included site reviews performed either by the Department of Education or by the Overseas Liaison Committee of the American Council of Education, and close examination of schools' entrance requirements and curricula.

Response. Section 435(a) of the Higher Education Act of 1965, as amended, allows the Secretary to find statutorily eligible those foreign schools that are, among other things, "comparable to an [American] institution of higher education or to a vocational school". The Secretary has little doubt that the most scientifically reliable manner in which to implement the "comparability" standard is to conduct site visits at foreign schools; indeed, accrediting bodies regularly make such visits to American institutions of higher education and vocational schools. Unfortunately, no accrediting body conducts site visits at foreign medical schools and, as indicated in the preamble, the Department lacks the resources to conduct such visits itself. Even if the Department had the resources necessary to conduct such visits, it is not clear that such an "accreditation" system for foreign schools, administered by the United States Government, would be diplomatically advisable; certainly the administration of such an accreditation system would place the Department of Education in an unaccustomed—indeed unprecedented—role. Over the years, many organizations and accrediting bodies, including the Overseas Liaison Committee of the American Council of Education, have repeatedly shunned the task of foreign medical school certification. The Department is continuing to explore the possibility of the formation of a private international accrediting body for all foreign schools, including foreign medical schools.

Left without the option of site reviews, the Department believes the "output" approach is the next best option. Though the approach has its limitations, it is clearly superior to examination of admission requirements and curricula as a method for determining educational quality, for the latter approach indicates nothing about whether a school is actually imparting significant knowledge to its admittedly well qualified students through its admittedly impressive-looking curriculum. Arguably the most relevant indicator of a professional school's quality is the extent to which it successfully prepares its students for practice in their profession. The Department strongly believes that the performance of a foreign medical school's students on the ECFMG examination is probative of the school's capacity to prepare its students for professional practice in the United States and that a standard based on such performance is superior to any other measure of "comparability" presently available to the Department. Indeed, many commenters indicated that the "output" approach *does not go far enough* in assuring that only foreign schools providing high quality clinical education programs are found to be statutorily eligible.

Section-by-Section Comments

Section 601.4(b)—Criteria for determination of eligibility to apply for GSLP—approval by local evaluating bodies.

Comment. A few commenters objected to the requirement that a foreign medical school be "recognized" by any local professional evaluating bodies "whose views are considered relevant by the Secretary". These commenters were concerned that the provision gives too much discretion to local authorities in foreign countries, authorities whose approval or disaproval might hinge upon political or other non-educational considerations. One commenter indicated that this provision raises "serious questions of foreign policy".

Response. The Department agrees that this provision does have foreign policy implications; indeed, it was written precisely to allow the Secretary to consider the diplomatic factors involved in foreign medical school establishment and GSLP eligibility. The Secretary believes that much more serious diplomatic problems would be raised were the Department to completely ignore a foreign evaluating body's disagreements—whatever their nature—with a foreign medical school located in its country, rather than to honor those local expressions of dissatisfaction. The Secretary notes, however, that a local evaluating body which acts completely unreasonably with respect to a foreign medical school risks losing its status as a body "whose views are considered relevant by the Secretary".

Section 601.4(d)—Criteria for determination of eligibility to apply for GSLP—graduation of two classes.

A few commenters felt that it is unfair to delay granting eligibility to a newly-established foreign medical school until it has graduated two classes merely because until then, the Department does not have the data needed to apply its ECFMG pass rate test. The commenters suggested that alternate measures be used to evaluate a school that has not been in existence long enough to generate two years of ECFMG examination results.

Response. The commenters have assumed that the purpose of the requirement is more limited than intended. The Department has a significant interest, independent of the existence of the ECFMG pass rate requirement, in making sure that a foreign medical school is not a "fly-by-night" operation and that the school is capable of providing and likely to continue to provide, for many years into the future, a complete medical education for all those American citizens and nationals who choose to enroll there. The requirement that the two graduating classes be spaced over a period of at least twelve months is intended to prevent a new school from evading the spirit and purpose of the requirement by, for example, arbitrarily dividing its first group of graduates into two segments, each of which it might call a separate "class", then holding the graduations of these "classes" on consecutive days.

Section 601.4(e)—Criteria for determination of eligibility to apply for GSLP—ECFMG standard.

Comment. A number of commenters suggested the use of examinations other than the ECFMG examination for purposes of the "output" measure. The plausible suggestions included performance on Part I of the examination series given by the National Board of Medical Examiners (NBME) alone, performance on Part II of that examination series alone, performance on both Parts I and II of that examination series, and performance on the Federation Licensing Examination (FLEX) used as the physician licensing examination in many States.

Response. The Secretary believes that in theory, each of the alternatives suggested has both positive and negative aspects when considered for use in these regulations. A fundamental problem exists, however, in the implementation of any of these alternatives—the fact that the organizations who administer the suggested alternatives refused to

provide the Department the data the Department would need in order to evaluate students' performance on a school-by-school basis. The Department would have liked very much to have considered as an option students' performance on both NBME I and NBME II, because those examiniations probe both basic science and clinical science knowledge and are taken while students are still in school or shortly after they graduate. Unfortunately this option was not available to the Department. Fortunately, however, the ECFMG examination option was available, allowing the Department to use an examination possessing very much the same virtues possessed by NBME I and II and which might well have been selected for use over NBME I and II in any event.

[FR Doc. 83-4792 Filed 2-24-83; 8:45 am]

BILLING CODE 4000-01-M

VETERANS ADMINISTRATION

38 CFR Parts 6, 8 and 9

United States Government Life Insurance, National Service Life Insurance, and Servicemen's and Veterans' Group Life Insurance

AGENCY: Veterans Administration.

ACTION: Final regulations.

SUMMARY: The Veterans Administration is amending its regulations relating to insurance matters to reflect amendments made under Pub. L. 97-66. These amendments: (1) Provide that a beneficiary may elect to receive payment of National Service and United States Government Life Insurance proceeds in a lump sum if the policyholder has not selected a mode of payment and the policy matures after September 30, 1981; (2) provide for an increase in the maximum amount of Servicemen's and Veterans' Group Life Insurance which may be purchased; (3) require Retired Reservists, insured under Servicemen's Group Life Insurance, to apply for the increased coverage within one year; and (4) provide for the collection of premiums for the Servicemen's Group Life Insurance program. In addition, certain terms are being changed to eliminate gender reference in those regulations which are being amended.

EFFECTIVE DATES: October 17, 1981, except that the amendments to 38 CFR Part 9 concerning the increased coverage under Servicemen's and Veterans' Group Life Insurance are effective December 1, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert W. Carey, Assistant Director for Insurance, Veterans Administration Regional Office and Insurance Center, P.O. Box 8079, Philadelphia, Pa. 19101; (215-951-5360).

SUPPLEMENTARY INFORMATION: Public Law 97-66, in part, amends sections 717, 752, 767, 769 and 777 of title 38 of the United States Code. The amendments to sections 717 and 752 provide that a beneficiary may, in the case of insurance maturing after September 30, 1981, elect to receive payment of the insurance proceeds in a lump sum if the insured has not selected a settlement option. The amendments to sections 767 and 777 provided for an increase from $20,000 to $35,000 in the maximum amount of Servicemen's and Veterans' Group Life Insurance. Section 767 is further amended to require Retired Reservists to apply within one year for the increased coverage. The amendment to section 769 provides that the Secretary of Defense shall prescribe regulations to ensure that the Secretaries of the military departments remit premiums to cover Ready Reservists insured under Servicemen's Group Life Insurance. Pursuant to these amendments in the law, Veterans Administration regulations are being amended accordingly.

The Veterans Administration is publishing these amendments as final regulations. An opportunity for public comment is not being provided as the agency finds that public comment would be impracticable unnecessary and contrary to public interest (38 CFR 1.12). Since the amendments merely reflect statutory changes in the law, allowing public comment would have no effect on implementing the changes mandated by Congress. Additionally, the cost to the Government, ultimately a burden to the taxpayers, for prior publication is saved. Since a proposed notice will not be published, these regulation changes are not subject to requirements of the Regulatory Flexibility Act, Pub. L. 96-354.

The agency has determined that these regulations are nonmajor in accordance with Executive Order 12291, Federal Regulation. These regulations will not have a large effect on the economy, will not cause an increase of costs or prices, and will not otherwise have any significant adverse economic effects.

List of Subjects in 38 CFR Parts 6, 8 and 9

Life insurance, Military personnel, Veterans.

(Catalog of Federal Domestic Assistance Program number, 64.103)

Approved: February 7, 1983.

By direction of the Administrator.

Everett Alvarez, Jr.,

Deputy Administrator.

PART 6—UNITED STATES GOVERNMENT LIFE INSURANCE

1. Section 6.64 is revised as follows:

§ 6.64 Selection, recording, revocation, and election.

The insured under a United States Government Life Insurance policy may select one of the optional settlements set forth in § 6.68, but notice of the selection shall not be valid unless and until it is recorded in the Veterans Administration. The insured may revoke his or her selection of the optional settlement, but the revocation shall not be valid unless and until it is recorded in the Veterans Administration. If the insured does not select one of the optional settlements, then he or she shall be deemed to have made no election, and the insurance shall be payable in 240 monthly installments, unless an election under option 2, 3 or 4 is made by the beneficiary: Provided, that if the insurance matures after September 30, 1981 and the insured has not selected one of the optional settlements, the beneficiary may elect to receive the proceeds in a lump sum.

(38 U.S.C. 752)

2. In § 6.65, the introductory paragraph is revised as follows:

§ 6.65 Election of optional settlement by beneficiary.

If the insured under a United States Government Life Insurance policy has not selected one of the optional settlements then at the death of the insured the designated beneficiary may elect to receive settlement under option 2, 3 or 4, as provided in § 6.68, but such an election by the beneficiary shall not be valid unless and until it is recorded in the Veterans Administration: Provided, that if the insurance matures after September 30, 1981 and the insured has not selected one of the optional settlements, the beneficiary may elect to receive the proceeds in a lump sum. If the insured has selected an optional settlement then at the death of the insured the designated beneficiary may elect to receive the proceeds of insurance in installments spread over a greater period of time than that selected by the insured and in accordance with the following provisions:

(38 U.S.C. 752)

* * * * *

3. In § 6.68, Option 1 is revised as follows:

§ 8.68 Options.

* * * * *

Option 1. Insurance payable in one sum. Settlement under this option will be made only when selected by the insured during his or her lifetime or by his or her last will and testament, or if no option has been selected by the insured and he or she dies after September 30, 1981. When such selection has been made, the face amount will be payable in one sum at the maturity of the policy by death.

(38 U.S.C. 752)

* * * * *

PART 8—NATIONAL SERVICE LIFE INSURANCE

4. In § 8.77, paragraph (a)(1) is revised as follows:

§ 8.77 Election of optional settlement by beneficiary.

(a) * * *

(1) If the insured under a National Service Life Insurance policy has not selected one of the optional settlements and dies on or after August 1, 1946, the insurance shall be payable in 36 equal monthly installments, but the designated beneficiary may elect to receive settlement under option 2, 3 or 4: Provided, that if the insurance matures after September 30, 1981 and the insured has not selected one of the optional settlements, the beneficiary may elect to receive the proceeds in a lump sum. Such an election shall not be valid unless and until it is received in the Veterans Administration. If the insured has selected an optional settlement, then at the death of the insured the designated beneficiary may elect to receive payment in installments spread over a greater period of time than that selected by the insured; thus:

(38 U.S.C. 717)

* * * * *

5. In § 8.79, Option 1 is revised as follows:

§ 8.79 Optional settlements on participating National Service Life insurance and nonparticipating insurance issued under section 602(c)(2) of the National Service Life Insurance Act, as amended, on which the requirements of good health were waived.

* * * * *

Option 1. Insurance payable in one sum. Settlement under this option will be made only when selected by the insured during his or her lifetime or by his or her last will and testament, or if no option has been selected by the insured and he or she dies after September 30, 1981. When such selection has been made, the face amount (less any indebtedness) will be payable in one sum upon the death of the insured.

(38 U.S.C. 717)

* * * * *

6. In § 8.80, Option 1 is revised as follows:

§ 8.80 Optional settlements on insurance issued under the provisions of section 620 or 621 of the National Service Life Insurance Act, as amended, and section 722(a) of Title 38, United States Code.

* * * * *

Option 1. Insurance payable in one sum. Settlement under this option will be made only when selected by the insured during his or her lifetime or by his or her last will and testament, or if no option has been selected by the insured and he or she dies after September 30, 1981. When such election has been made, the face amount (less any indebtedness) will be payable in one sum upon the death of the insured.

(38 U.S.C. 717)

* * * * *

7. In § 8.80c, Option 1 is revised as follows:

§ 8.80c Optional settlements on insurance issued under the provisions of section 723(b) of Title 38, United States Code.

* * * * *

Option 1. Insurance payable in one sum. Settlement under this option will be made only when selected by the insured during his or her lifetime or by his or her last will and testament, or if no option has been selected by the insured and he or she dies after September 30, 1981. When such election has been made, the face amount (less any indebtedness) will be payable in one sum upon the death of the insured.

(38 U.S.C. 717)

* * * * *

8. In § 8.81, Option 1 is revised as follows:

§ 8.81 Optional settlements on insurance issued under the provisions of section 725 of Title 38, United States Code.

* * * * *

Option 1. Insurance payable in one sum. Settlement under this option will be made only when selected by the insured during his or her lifetime or by his or her last will and testament, or if no option has been selected by the insured and he or she dies after September 30, 1981. When such election has been made, the face amount (less any indebtedness) will be payable in one sum upon the death of the insured.

(38 U.S.C. 717)

* * * * *

PART 9—SERVICEMEN'S GROUP LIFE INSURANCE AND VETERAN'S GROUP LIFE INSURANCE

§ 9.2 [Amended]

9. In § 9.2, paragraphs (a) and (b) are amended by replacing the date "May 24, 1974" with the date "December 1, 1981" in both paragraphs and by adding the cite "(38 U.S.C. 767)" to the end of both paragraphs.

10. In § 9.3, new paragraph (e) is added as follows:

§ 9.3 Applications

* * * * *

(e) Members who met the requirements for full-time coverage under § 9.1(a)(3), as of December 1, 1981, are eligible to obtain increased Servicemen's Group Life Insurance coverage up to a maximum of $35,000 if the member—

(1) Is insured under Servicemen's Group Life Insurance as of December 1, 1981; or

(2) Within one year after December 1, 1981, reinstates Servicemen's Group Life Insurance that had lapsed for nonpayment of premiums; and

(3) The member submits a written application for the increased coverage to the office established in § 9.1(j) within one year after December 1, 1981.

(38 U.S.C. 767)

11. Section 9.4 is revised as follows:

§ 9.4 Amount of insurance.

Effective December 1, 1981, Servicemen's Group Life Insurance is issued in the amount of $35,000 unless the insured member elects in writing (a) not to be insured, or (b) to be insured in the amount of $30,000, $25,000, $20,000, $15,000, $10,000, or $5,000. The $35,000 coverage does not apply to those members separated or released prior to December 1, 1981 except for those members eligible for coverage under §9.1(a)(3).

(38 U.S.C. 767)

12. In § 9.6, paragraph (a) is revised as follows:

§ 9.6 Waiver or reduction of coverage.

(a) A member may waive his or her right to group coverage or elect to reduce the amount of insurance from $35,000 to any lesser amount, divisible by $5,000, by filing a written notice with his or her uniformed service. In any case where a member's uniformed service receives a waiver or reduction prior to the date any group coverage would become effective, no insurance shall be placed in effect on the lives of those members who waive coverage and those who elect reduced coverage shall be insured for only the reduced amount from the date coverage becomes effective. A member who is paying premiums directly to the administrative office may reduce his or her coverage by notifying that office.

(38 U.S.C. 767)

* * * * *

13. In § 9.8, the introductory portion of paragraph (c) and paragraph (c)(1) are revised as follows:

§ 9.8 Restoration of coverage.

* * * * *

(c) Subject to approval by the insurer, coverage is restored in the amount applied for ($35,000 or a lesser amount divisible by $5,000) effective the date of receipt of application with evidence of good health by the uniformed service:

(1) For a member who previously waived the right to be covered or elected to be covered for only $30,000, $25,000, $20,000, $15,000, $10,000 or $5,000; or

(38 U.S.C. 767)

* * * * *

14. In § 9.10, new paragraphs (e) and (f) are added as follows:

§ 9.10 Deductions from pay.

* * * * *

(e) During any month in which a member is assigned to the Ready Reserve of a uniformed service under conditions which meet the qualifications of § 9.1(a)(2), or is assigned to the Reserve (other than the Retired Reserve) and meets the qualifications of § 9.1(a)(2), and is insured under Servicemen's Group Life Insurance, there shall be contributed from the appropriation made for active duty pay of the uniformed service concerned an amount determined by the Administrator (which shall be the same for all such members) as the share of the cost attributable to insuring such member, less any costs traceable to the extra hazards of such duty in the uniformed services. Any amounts so contributed on behalf of any individual shall be collected by the Secretary concerned from such individual (by deduction from pay or otherwise) and shall be credited to the appropriation from which such contribution was made.

(38 U.S.C. 769)

(f) The Secretary of Defense shall prescribe regulations for the administration of the functions of the Secretaries of the military departments under this section. Such regulations shall prescribe such procedures as the Secretary of Defense, after consultation with the Administrator, may consider necessary to ensure that such functions are carried out in a timely and complete manner and in accordance with the provisions of this section, including specifically the provisions of paragraph (e) relating to contributions from appropriations made for active duty pay.

(38 U.S.C. 769)

15. In § 9.16, paragraphs (g) and (h) are revised as follows:

§ 9.16 Beneficiaries and options.

* * * * *

(g) Until and unless otherwise changed, a beneficiary designation and settlement option filed by a member with his or her uniformed service in effect on December 1, 1981, will be effective with respect to the increased amount of insurance authorized on December 1, 1981, by Pub. L. 97–86 and the insurance shall be settled in the same proportionate amount as the portion designated for such beneficiary or beneficiaries bore to the amount of insurance theretofore in effect.

(38 U.S.C. 767)

(h) In any case in which a member separated or released from all obligation to perform duty in a uniformed service reenters on duty after a break in service while covered during the period of protection afforded under §§ 9.5(a) or 9.7 (a) or (b) after termination of duty and waives coverage or elects coverage in the amount of $30,000, $25,000, $20,000, $15,000, $10,000 or $5,000, an existing designation of beneficiary or election of optional settlement is not canceled with respect to any amount of insurance not replaced upon such reentry on duty.

(38 U.S.C. 767)

* * * * *

16. In § 9.22, the introductory portion and the ending portion of paragraph (b) is revised as follows, subparagraph (1) and (2) remain the same:

§ 9.22 Administrative decisions.

* * * * *

(b) When a determination is required on a claim that a member who waived coverage, or whose coverage was forfeited for one of the offenses listed in § 9.34 was in fact insured, or that a member who elected to be insured in the amount of $5,000, $10,000, $15,000, $20,000, $25,000 or $30,000 was insured for $10,000, $15,000, $20,000, $25,000, $30,000 or $35,000, as the case may be, and there is no record of an application to be insured or to increase the amount of insurance as required by § 9.8(c):

(38 U.S.C. 767)

* * * * *

Based on the evidence obtained, a formal determination will be made as to whether the member involved is deemed to have applied to be insured, or to be insured for $35,000, $30,000, $25,000, $20,000, $15,000 or $10,000 in lieu of $5,000 or no insurance. The determination will include a finding as to the member's health status for insurance purposes based on the evidence available.

(38 U.S.C. 767)

* * * * *

§ 9.24 [Amended]

17. In § 9.24, paragraphs (a) (1) and (2) are amended by replacing the date "May 24, 1974" with the date "December 1, 1981" in both subparagraphs and by adding the cite "(38 U.S.C. 767)" at the end of both subparagraphs.

§9.27 [Amended]

18. In § 9.27, paragraph (a) is amended by replacing the amount "$20,000" with the amount "$35,000" and by adding the cite "(38 U.S.C. 767)" to the end of the paragraph.

19. In § 9.36, paragraph (a) is revised as follows:

§ 9.36 Veterans' Group Life Insurance.

* * * * *

(a) The insurance shall be issued in the amount of $5,000, $10,000, $15,000, $20,000, $25,000, $30,000 or $35,000. No person may carry a combined amount of Servicemen's Group Life Insurance and Veterans' Group Life Insurance in excess of $35,000 at any one time.

(38 U.S.C. 777)

BILLING CODE 8320-01-M

POSTAL SERVICE

39 CFR Part 111

Uniform Parcel Size and Weight Limits; Implementing Regulations

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: By separate notice published elsewhere in this issue the Postal Service announced changes in the mail classification schedule provisions establishing uniform size and weight limits of 70 pounds and 108 inches for Express Mail, Priority Mail, parcel post, special fourth-class rate, and library rate fourth-class mail. These changes were approved by the Governors of the Postal Service and will become effective at 12:01 a.m. on February 27, 1983.

The purpose of this final rule is to reflect these mail classification changes in postal regulations.

EFFECTIVE DATE: 12:01 a.m., February 27, 1983.

FOR FURTHER INFORMATION CONTACT: Ernest J. Collins (202) 245–4749.

SUPPLEMENTARY INFORMATION: This document changes Postal Service regulations to permit Priority Mail,

Express Mail, parcel post, special rate fourth-class and library rate fourth-class parcels weighing 70 pounds or less and measuring not more than 108 inches in length and girth combined to be accepted for mailing at or to any post office within the United States and at or to any post office in a Territory or Possession of the United States. Formerly, the maximum size limitations for these services was 100 inches in length and girth combined. In addition, even more restrictive size and weight limitations had been generally applied to parcel post mailed at and destined to large urban and suburban post offices. The only exceptions to the new size and weight limitations are for certain space available mail (SAM), parcel airlift (PAL) mail, parcels mailed to certain APO/FPO addresses, and for mail sent via the Department of State to U.S. Government personnel.

Post offices have been notified of the regulation changes by a Postal Bulletin notice, so that the new provisions can be used as of the effective date of the classification changes (February 27, 1983). The Domestic Mail Manual is amended as provided below effective February 27, 1983.

Sections 125.152(b), 252.1, 352.1 and 751 are amended to enlarge the parcel size limitations from 100 to 108 inches in length and girth combined for SAM (space available mail) sent from an APO or FPO outside the 48 contiguous states, Express Mail, Priority Mail, and fourth-class parcel services, respectively. Exhibit 751, which was a chart that explained the former dual parcel post size and weight limits, is deleted. Conforming changes are also made to Exhibit 310 which describes the zone rates for Priority Mail and to section 773 which describes nonmailable parcels.

In view of the considerations discussed above, the Postal Service hereby adopts the following revisions of the Domestic Mail Manual, which is incorporated by reference in the Federal Register. See 39 CFR 111.1.

List of Subjects in 39 CFR Part 111

Postal Service.

Part 125—Mail Addressed From, To or Between Military Post Offices Overseas

125.1 [Amended]

1. In 125.152(b) strike out the words "100 inches in length and girth combined" and insert "108 inches in length and girth combined" in lieu thereof.

Part 250—Physical Limitations

252.1 [Amended]

2. In 252.1 strike out the words "100 inches in length and girth combined" and insert "108 inches in length and girth combined" in lieu thereof.

Part 310—Rates and Fees

Exhibit 310 [Amended]

3. The footnote to the Priority Mail Zone and Rate Chart presented in exhibit 310 is revised to read as follows:

Exception: Parcels weighing less than 15 pounds and measuring over 84 inches in length and girth combined are chargeable with a minimum rate equal to that for a 15-pound parcel for the zone to which addressed.

Part 350—Physical Limitations

352.1 [Amended]

4. In 352.11 strike out the words "100 inches" and insert "108 inches" in lieu thereof.

Part 750—Physical Limitations

5. Part 751 is revised to read as follows:

Part 751—Weight and Size Limits

Fourth-class parcels mailed for delivery in the domestic mail service may not weigh more than 70 pounds and may not exceed 108 inches in length and girth combined, except as noted in a, b, c or d:

a. Articles mailed to certain APO's and FPO's must meet the requirements in 125 and 918.

b. Parcels sent via the Department of State to U.S. Government personnel abroad must meet the requirements in 128.

c. Bulk zone rate articles must meet the requirement in 722.21.

d. Bound printed matter must meet the requirement in 723.1.

6. Exhibit 751 is deleted.

Part 770—Mailing

7. Part 773 is revised to read as follows:

Part 773—Parcels Exceeding Size or Weight Limits

Parcels exceeding 70 pounds or 108 inches (when length and girth are added together) are non-mailable.

A transmittal letter making these changes in the pages of the Domestic Mail Manual will be published and will be transmitted to subscribers automatically. Notice of these changes will be published in the Federal Register as provided in 39 CFR 111.3.

(39 U.S.C. 401, 403, 404, 3621, 3623, 3625, 3652 as amended by Pub. L. 97-242 section 1a, Aug. 24, 1982, 96 Stat. 300)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

BILLING CODE 7710-12-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-6-FRL 2300-3]

Approval and Promulgation of Revisions to the Texas State Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: This action approves revisions to the Texas State Implementation Plan (SIP) which were submitted by the Governor on August 9, 1982. The State submitted an addendum to the revisions on January 13, 1983. Specifically, the State revised the General Rules and Regulations I and V of the Texas Air Control Board *(TACB) Regulations. This notice approves these revisions to the SIP and amends 40 Code of Federal Regulations (CFR) 52.2270.*

EFFECTIVE DATE: This rulemaking will be effective on April 26, 1983 unless notice is received within 30 days that someone wishes to submit adverse or critical comments.

ADDRESSES: Written comments on this action should be addressed to Donna M. Ascenzi of the EPA Region 6 Air Branch (address below). Copies of the State's submittal may be examined during normal business hours at the following locations:

EPA, Region 6, Air Branch, 1201 Elm Street, Dallas, Texas 75270;
Texas Air Control Board, 6330 Hwy. 290 East, Austin, Texas 78723;
EPA, Public Information Reference Unit, 401 M Street, SW., Room 2922, Washington, D.C. 20460;
The Office of the Federal Register, 1100 L Street, NW., Room 8401, Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Donna M. Ascenzi, State Implementation Plan Section, Air & Waste Management Division, U.S. EPA, Region 6, 1201 Elm Street, Dallas, Texas 75270, (214) 767-1518.

SUPPLEMENTARY INFORMATION: On August 9, 1982, the Governor of Texas, after adequate notice and public

hearing, submitted revisions to the Texas SIP. The State submitted an addendum to the revisions on January 13, 1983. Specifically, the State revised the General Rules, and Regulations I and V of the TACB Regulations.

The revisions to the General Rules consisted of the deletion of several terms which are no longer used in the regulations, and minor editorial revisions to several terms to clarify their use in the regulations and to correct or include metric units of measurement.

The revisions to Regulation I entitled, "Control of Air Pollution from Visible Emissions and Particulate Matter," consisted of non-substantive editorial changes which realigned several subchapters, revised the titles of several subchapters to clarify their applicability, and deleted redundant and unnecessary subchapters.

The State extensively revised Regulation V entitled, "Control of Air Pollution From Volatile Organic Compounds." The majority of these revisions are non-substantive in nature and serve to clarify the intent of the regulation. Metric units of measurement were added or corrected, obsolete terms were deleted and minor editorial changes were made. The most significant revision consisted of the deletion of Bexar County from the requirements of those subchapters applicable to nonattainment areas, and the addition of Bexar County to those subchapters applicable to other than nonattainment areas. Bexar County was redesignated by EPA as an area attaining the ozone standard on November 16, 1981 (at 46 FR 56199). Since none of the reductions to be achieved from the control measures for nonattainment areas were needed to achieve attainment status, the State deleted Bexar County from the requirements in those subchapters (i.e., control requirements for: Storage of volatile organic compounds (VOC); water separation; process unit turnarounds, vacuum producing systems, and fugitive leaks at petroleum refineries; vent gases; solvent usage; surface coating process; graphic arts; perchloroethylene dry cleaning systems; and pharmaceutical manufacturing). In addition, the State reinstated Bexar County in those subchapters of Regulation V which pertain to other than ozone nonattainment areas since the control measures therein were instrumental in Bexar County achieving attainment of the ozone standard (i.e., control requirements for storage of VOCs, water separation and vent gases).

EPA has reviewed the State's submittal and developed an evaluation report [1] which discusses the technical aspects of the revisions in detail. This evaluation report is available for inspection by interested parties during normal business hours at the EPA Region 6 and TACB offices listed above.

Based on the Agency's review, EPA has determined that the revisions meet the requirements of Section 110(a)(3)(A) of the Clean Air Act and is hereby approving these revisions to the Texas SIP.

The public should be advised that this action will be effective 60 days from the date of this notice. However, if notice is received within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and two subsequent notices will be published before the effective date. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

Under Section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from today). This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this approval will not have a significant economic impact on a substantial number of small entities. This action only approves State actions. It imposes no new requirements.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Note.—Incorporation by reference of the State Implementation Plan for the State of Texas was approved by the Director of the Federal Register on July 1, 1982.

(Sec. 110(a) and 172 of the Clean Air Act, 42 U.S.C. 7410(a) and 7520)

List of Subjects in 40 CFR Part 52

Dated: February 18, 1983.

Anne M. Gorsuch,

Administrator.

PART 52—[AMENDED]

Part 52 of Chapter 1, Title 40 of the Code of Federal Regulations is amended as follows:

[1] EPA Review of Texas SIP Revisions to the General Rules, and Regulations I and V, January 1983.

Subpart SS—Texas

1. In § 52.2270, paragraph (c) is amended by adding a new subparagraph (50) which reads as follows:

§ 52.2270 Identification of plan.

* * * * *

(c) * * *

(50) Revisions to the General Rules (i.e., deletion of the definitions for chemical process plant, exhaust emission, gas processing plant, and non-methane hydrocarbons, and revisions to the definitions for gasoline bulk plant, gasoline terminal, lowest achievable emission rate, standard conditions, submerged fill pipe, paper coating, and light-duty truck coating), Regulation I (i.e., the deletion of §§ 111.61–.65, revisions to title of §§ 111.71–.76 and § 111.71, addition of §§ 111.81–.83, deletion of § 111.91, and revisions to § 111.92), and Regulation V (i.e., § 115.1, §§ 115.11–.13, §§ 115.31–.32, §§ 115.41–.45, § 115.81, and § 115.91, all for Bexar County only: and, §§ 115.101–.106; title of §§ 115.141–144 and § 115.141, § 115.142, and § 115.144; title of §§ 115.151–153 and § 115.152, and § 115.153; §§ 115.161–.163 and title; title of §§ 115.171–.176 and § 115.173, § 115.175, and § 115.176; title of §§ 115.191–.194 and § 115.191, § 115.192, and § 115.193; title of §§ 115.201–.203 and § 115.203; title of §§ 115.221–.223 and §§ 115.222–.223; §§ 115.231–.233 and title; title of §§ 115.251–.255 and § 115.253, and § 115.255; § 115.401; title of §§ 115.411–.413 and §§ 115.411 and .412; title only of §§ 115.421–.424) were adopted by the Texas Air Control Board on January 8, 1982, and submitted by the Governor on August 9, 1982, with an addendum from the State on January 13, 1983.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 1

[FCC 83-66]

Amendment To Provide for the Use of Unsworn Declarations Under Penalty of Perjury

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission is revising its procedural rules to provide for the use of written, unsworn declarations under penalty of

perjury as permissible substitutes in those instances where the Commission's rules require sworn declarations or affidavits. Besides expediting the Commission's processes, this action will bring the Commission's rules in agreement with a federal statute which provides for the use of written declarations made under penalty of perjury in all federal proceedings.

EFFECTIVE DATE: February 17, 1983.

FOR FURTHER INFORMATION CONTACT: Magalie Floyd, Office of General Counsel, Federal Communications Commission, Washington, D.C. (202) 632-6990.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 1

Administrative practice and procedure, Complaints.

In the matter of amendment of Part I of the Commission's rules to provide for the use of unsworn declarations under penalty of perjury.

Order

Adopted: February 10, 1983.
Released: February 17, 1983.

1. The Commission, *sua sponte*, has examined its Rules and Regulations requiring verification of documents filed with the Commission through the use of sworn declarations or affidavits.[1] The Commission finds that this requirement is not in agreement with 28 U.S.C. 1746, which provides that:

> Whenever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury * * *.

2. Accordingly, the Federal Communications Commission hereby amends its rules to permit the use of unsworn declarations under penalty of perjury as permissible substitutes in those instances where the Commission's rules require sworn declarations or affidavits. Unsworn declarations under penalty of perjury, however, may not be used in connection with: (1) Depositions, (2) oaths of office, or (3) oaths required to be taken before a specified official other than a notary.

[1] *See, e.g.*, 47 CFR 1.100, 1.223, 1.228, 73.3525, and 76.2504.

3. Consistent with the amendment described above, Rule 1.721 also is modified to provide for the use of unsworn declarations under penalty of perjury in the format for formal complaints filed pursuant to Section 208 of the Communications Act.

4. The Commission has fomulated the amendment described herein pursuant to the statutory provisions of 28 U.S.C. 1746. Therefore, compliance with the notice and comment provisions of the Administrative Procedure Act is unnecessary. *See* 5 U.S.C. 553(b)(B). Further, the notice and comment and effective date provisions do not apply to these amendments to our procedural rules. *See* 5 U.S.C. 553(b)(B), 553(d).

5. Authority for these rules is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154, 303(r). Accordingly, it is ordered That, effective February 17, 1983, § 1.16, 47 CFR 1.16, is added and § 1.721 of the Commission's rules, 47 CFR 1.721, is amended, as set forth in the attached appendix.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

William J. Tricarico,
Secretary.

Appendix

PART 1—[AMENDED]

1. A new § 1.16, 47 CFR 1.16, is added after 47 CFR 1.14, as follows:

§ 1.16 Unsworn declarations under penalty of perjury in lieu of affidavits.

Any document to be filed with the Federal Communications Commission and which is required by any law, rule or other regulation of the United States to be supported, evidenced, established or proved by a written sworn declaration, verification, certificate, statement, oath or affidavit by the person making the same, may be supported, evidenced, established or proved by the unsworn declaration, certification, verification, or statement in writing of such person, except that, such declaration shall not be used in connection with: (a) A deposition, (b) an oath of office, or (c) an oath required to be taken before a specified official other than a notary public. Such declaration shall be subscribed by the declarant as true under penalty of perjury, and dated, in substantially the following form:

(1) If executed without the United States: "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on (date).

(Signature)".

(2) If executed within the United States, its territories, possessions, or commonwealths: "I declare (or certify, verfiy, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date).

(Signature)".

§ 1.721 [Amended]

2. 47 CFR 1.721(b) is amended by removing the form of verification contained therein and inserting, in its place, a new form of verification as follows:

* * * * *

Form of Verification

I declare under penalty of perjury that I am the complainant (or one of the complainants) in the above-entitled matter; that I have read the foregoing complaint; and that the matter and things therein stated are true and correct. Executed on (date).

(Signature).

47 CFR Part 22

[CC Docket No. 20870; FCC 83-53]

Public Mobile Radio Services; Regulatory Policies and Procedures for the Domestic Public Land Mobile Radio Service.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Final policies and procedures concerning objective need showings are being adopted for applications requesting multiple new two-way channels and applications requesting additional channels for an existing system. The policies and procedures we had in the past were vague and did not provide applicants with sufficient information as to what was required in need showings before various types of applications could be granted. Thus, applicants requesting multiple new two-way frequencies or additional two-way channels for an existing system must show that the existing, projected or expected grade of service for the proposed facilities is .25 or greater, this will determine the number of new or additional channels granted.

EFFECTIVE DATE: February 16, 1983, except for the held order requirement for applications requesting additional channels which will become effective March 28, 1930.

FOR FURTHER INFORMATION CONTACT:
Carmen A. C. Borkowski, (202) 632-6450.

SUPPLEMENTARY INFORMATION:

Communications common carriers, Mobile radio service, Radio common carriers.

Third Report and Order

Adopted: January 27, 1983.
Released: February 16, 1983.

In the Matter of Regulatory Policies and Procedures for the Domestic Public Land Mobile Radio Service, CC Docket No. 20870, FCC 83-53.

1. In this proceeding the Commission requested comments with regard to the adoption of objective need standards for applications requesting more than one initial two-way channel and applications requesting additional two-way channels for existing systems in the Domestic Public Land Mobile Radio Service (DPLMRS). Comments were also solicited on various proposed definitions, standards and procedures. *Further Notice of Proposed Rulemaking*, (*Further Notice*), 84 FCC 2d 857 (1981).[1] The objective need standards proposed in the *Further Notice* were adopted on an interim basis and have been applied to all applications received on or after June 1, 1981. *See* Public Notice, 000349, April 16, 1981. In this decision, we make final the objective need standards with some modifications. In a *Further Notice of Proposed Rulemaking* adopted concurrently with this *Third Report and Order*, we propose a similar set of standards for paging applications.

Background

2. Before the interim standards were adopted, the Commission permitted applicants for new frequencies to justify their proposed facilities utilizing various methods of demonstrating need.[2] These methods evolved primarily out of two cases, *Long Island Paging* and *New York Telephone Company*.[3] More recent Commission practice has been to require all applicants for initial channels to submit public need surveys.[4] Applicants requesting additional channels are required to submit traffic loading studies pursuant to § 22.516 of the Commission's Rules, 47 CFR 22.516. In the *Second Report and Order, supra* note 1, we eliminated the requirement that applicants for one initial two-way frequency demonstrate public need for the proposed facility. We stated, however, that the requirement of demonstrating public need would not be eliminated for applications requesting more than one initial two-way frequency and applications requesting additional frequencies for existing systems. *See* paragraph 6, *infra*.

Comments

3. In response to the *Further Notice* comments were filed by Telocator Network of America (Telocator); American Telephone and Telegraph Company (AT&T); Vegas Instant Page (VIP); Jan David Jubon, P.E. (Jubon); Industrial Communications Systems, Inc. (Industrial); and jointly by Radio Broadcasting Company (RBC) and Radio Dispatch Company (RDC). The comments addressed the adoption of uniform need standards, the grade of service levels proposed (interim standards), the four channel limitation and other matters.

Discussion

4. *Objective Need Standards.* RBC and RDC supported and Telocator generally agreed with the concept of adopting uniform need standards. Industrial opposed the adoption of uniform objective need standards arguing that the Commission will not meet its mandate to assign frequencies in the public interest if it adopts inflexible standards which are to apply in every market regardless of differences in size and characteristics. Industrial recommended, as an alternative to objective need standards, that the Commission adopt and maintain flexible processing guidelines. AT&T and Jubon expressed reservations about uniform standards arguing that the various mobile systems differ and the loading standard that might apply to a system in a heavily congested area might not apply to a system in a rural area.

5. After carefully considering these comments, we conclude that adoption of objective need standards is in the public interest. Need showings promote efficient use of a limited spectrum. Under previous procedures applicants were allowed to demonstrate need for proposed facilities through the submission of a variety of types of information. *See* note 3, *supra*. The fact that our Rules did not require specific types of information or specify the methodology to be followed in gathering certain kinds of data has created incentives for adversarial parties to argue endlessly over the adequacy of particular need showings. The lack of specificity created excessive administrative burdens and delays in authorizing facilities to the public because of the additional workload for the staff in determining the adequacy of the need showings and resolving the arguments about them in petitions to deny. In addition, applicants have been uncertain as to the minimum showing of public need required to justify grants of initial or additional channels. Industrial's recommendation that we adopt flexible processing guidelines would leave us with the same administrative burdens and the applicants with the same uncertainty as in the past. Therefore, we reject Industrial's proposal.

6. In the *Second Report and Order*, we adopted a general policy in favor of new entry, finding that there exists a general need for two-way service and that our previous requirements had only created excessive administrative burdens and delayed service to the public. However, we also realized that, in order to protect the limited spectrum, we could not eliminate need requirements for multiple channel requests for new systems or for additional channels for existing systems. We noted that there is a greater potential for frequency warehousing in these types of applications. *Second Report and Order*, 89 FCC 2d at 1203. Frequency warehousing occurs when an applicant applies for a frequency for which he has no current need in order to insure he will have the frequencies available in the future should a need develop or to prevent frequencies from being acquired by competitors.

7. Since June 1, 1981, the date the interim standards became effective, applications have been processed more

---

[1] This proceeding was initiated by a *Notice of Inquiry and Notice of Proposed Rulemaking*, 61 FCC 2d 286 (1976); *First Report and Order*, 69 FCC 2d 398 (1978); *Second Report and Order*, 89 FCC 2d 1199 (1982).

[2] Section 309(a) of the Communications Act of 1934, as amended, 47 U.S.C. 309(a) provides: "* * * the Commission shall determine, * *. *, whether the public interest, convenience, and necessity will be served by the granting of such application". *See* § 22.13 of the Commission's Rules, 47 CFR 22.13. The "need showing" provides the facts upon which the commission makes, or does not make, the statutory finding. *See also* Section 303 of the Act.

[3] Long Island Paging, 30 FCC 2d 405, *review denied*, 32 FCC 2d 235 (1971), *recon. denied*, 34 FCC 2d 216 (1972). New York Telephone Co., 47 FCC 2d 498, *recon. denied*, 49 FCC 2d 284 (1974), *aff'd sub nom.* Pocket Phone Broadcast Service Inc. v. FCC, 538 F. 2d 447 (D.C. Cir. 1976). *New York Telephone* lists various methods of evidencing need: (1) Statistics or specific facts tending to show need, such as the nature and economics of the service area; (2) demographic or statistical evidence showing the nature and number of industries, businesses, professions and trades in the service area; (3) information on the identity and occupation of persons making service inquiries together with a statement as to whether or not costs were quoted and whether definitive commitments were made; and (4) evidence as to the success or failure of other carriers offering that type of service in the same market.

[4] Edward R. Buckmaster and Burton R. Gigoux d/b/a Communications Services, Mimeo 28930, released March 19, 1981 *aff'd sub nom.* Advanced Electronics v. FCC No. 81-1436 (D.C. Cir. February 19, 1982).

expeditiously and in a fair and objective manner.[6] In addition, applicants now know the exact need showing that must be made in their applications. While there may be some negative aspects in adopting uniform objective need standards,[6] we are convinced that any disadvantages are far outweighed by the benefits that have and will continue to accrue.

8. For all the above reasons, we will adopt objective need standards for applications requesting more than one initial two-way frequency or additional two-way frequencies for existing systems. In so doing, we remind applicants that failure to satisfy the standard will result in dismissal of the application as defective. *See Tel-Page Corporation,* FCC 82–448, released October 18, 1982.

9. *Standards Originally Proposed.*[7] In the *Further Notice* we proposed that additional channels would be granted when an application demonstrated that the system's existing grade of service is 0.50 or greater or that the existing grade of service is 0.40 or greater with a projected grade of service of 0.50 or greater. In addition we proposed to grant the minimum number of channels, up to four, necessary to reduce that level below 0.50. We also proposed that if the grade of service level resulting from such a grant is in the 0.25 to 0.50 range, the application would justify one or more additional channels, provided that such a grant did not reduce the grade of service below 0.25. The number of initial channels granted would be determined by demonstrating need for the minimum number of channels necessary for the expected grade of service level to be less than 0.50.

10. Telocator, Industrial, Jubon and VIP objected to the proposed grade of service levels. They argued that the standards proposed in the *Further Notice* are unreasonable, that they frustrate competition, that they force carriers to provide a very poor quality of service and that the quality of service should be left to the business judgment of the carriers. AT&T recommended that, if objective need standards are adopted, a liberal waiver policy be adopted by the Commission for requests for operation with a better grade of service at locations where channels are not in short supply.

11. Telocator recommended that a carrier be entitled to the grant of one additional channel where its existing grade of service is 0.10 or greater and that a carrier should be granted up to a total of four channels (at any one time), as long as the projected grade of service with the additional channels would not exceed (be better than) 0.02. Subsequently, Telocator, in an *ex parte* presentation,[8] proposed a 0.07 to a 0.02 grade of service for grants of two channels up to 14 channel trunk groups.

12. AT&T, in Supplementary Comments to the Telocator *ex parte* presentation, stated that it does not object to the adoption of Telocator's proposal as long as it is based on two-way mobile usage and not secondary usage, such as one way paging. Jubon recommended that we adopt a "prima facie" standard for additional channels using a fixed number of units per channel, *i.e.,* 30 mobiles per channel and/or 200 tone-plus-voice pagers per channel rather than frequency usage figures. He also proposed that a grade of service of more than 0.10 or 0.15 be sufficient to justify at least one additional channel and that an applicant be permitted to increase system capacity to a grade of service of 0.05 or better, provided channels are available. VIP proposed extrapolating growth in the average bouncing busy hour and using the 0.50 grade of service level to determine the anticipated demand for service two years after the application is processed.

13. Jubon also suggested removing one-way signaling intermixed on a two-way channel for purposes of traffic loading studies for applications requesting two-way channels, if over thirty-five percent (35%) of the traffic carried on the channel is one-way. RBC and RDC suggested removing one-way signaling intermixed on a two-way channel if there is an average ratio of over eight minutes of paging use for each single minute of two-way mobile use.

14. *Standards to be Adopted.* We have carefully considered the recommendations in the comments and have been persuaded to adopt a different grade of service standard from that proposed in the *Further Notice.* Based on the comments and data before us, we find that a 0.25 grade of service level is a more reasonable standard than that originally proposed because it would benefit the public with better quality service, would promote administrative efficiency and would permit spectral efficiency.[9] This service standard, which balances expeditious service to the public with protection of the limited spectrum, represents a compromise between the standards we originally proposed and the various standards suggested by the commentors.[10]

15. Applications for additional channels up to a maximum of four will be granted when the application shows that the existing system's present grade of service is 0.25 or greater or that the existing grade of service is 0.20 or greater with a projected grade of service of 0.25 or greater. When this grade of service level is reached, the minimum number of channels necessary to reduce that level below 0.25 will be granted. The projected grade of service is based on the number of existing subscribers plus the number of new subscribers anticipated using the held orders and survey techniques described below. If an application requests more than one initial channel, the number of channels authorized up to a maximum of four will be determined by the demonstration of need for the minimum number of channels necessary for the expected grade of service level to be better than 0.25. The procedures to be followed in determining the grade of service for new or additional channels are specified in Appendix A, *infra.*[11] Applications which do not demonstrate need in accordance with the standards adopted will be dismissed and returned as unacceptable for filing pursuant to Section 22.20 of the

[5] The number of applications in the DPLMRS has increased steadily in recent years and promises to continue to grow. Recently, we allocated additional channels for one-way signaling which will lead to numerous applications, substantially increasing our workload.

[6] Some of the parties objected to the adoption of uniform standards arguing that the grade of service should be left to the business judgment of the carriers. Also, it was argued that some less congested markets can accommodate better grades of service than others. We find these theoretical arguments to be outweighed by the more tangible benefits described in this order.

[7] Grade of service is the probability that a call will be blocked during the busy hour. For example, if a system has a 0.50 grade of service, one out of every two calls will be blocked.

[8] This presentation was made to the Chief, Mobile Services Division, on May 13, 1982. A copy of the *ex parte* presentation has been made part of the record in this proceeding.

[9] We considered the alternative of adopting one of the proposals in the comments. The record did not provide any evidence of the possible consequences of such a decision; thus, we are not prepared to adopt any of these options at this time. Moreover, we have the experience of observing the 0.50 grade of service level in use and believe that 0.25 is a reasonable level sufficiently close to our original proposal that we can make rational predictions of its possible effects.

[10] In reaching our decision, we considered the fact that the vast majority of the major markets in the DPLMRS have one hundred percent (100 percent) channel assignment; thus, there are no two-way frequencies available in them. In some smaller markets there are still some channels available.

[11] These procedures are the same as those proposed in the *Further Notice.* VIP made general allegations concerning the presumed MPU's proposed in the *Further Notice.* We continue to believe that our estimates are correct and no evidence has been submitted to the contrary, thus, we are adopting the MPU's proposed in the *Further Notice. See* paragraph 21, *Further Notice, supra.*

Rules. This has been our policy since the effective date of the interim standards. *See Tel-Page Corporation,* FCC 82–448, released October 18, 1982.

16. The standards being adopted require separate traffic loading information for two-way and one-way units. We believe it is in the public interest to consider both types of units for traffic loading purposes so long as we permit one-way signaling over two-way channels. We reject the proposals in the comments to not consider one-way loading information in requests for two-way channels. In this regard, the procedures set forth in Appendix A provide for the use of loading measurements for both types of units. *See Notice of Proposed Rulemaking,* CC Docket No. 80–57, FCC 82–349, released September 8, 1982, at pp. A–149 to A–152; *Report and Order,* Docket No. 20907, FCC 82–465, released October 26, 1982.

17. *Erlang C Tables.* We proposed the use of the Erlang C tables as the basis for our determinations concerning grade of service. AT&T supported such use while Telocator expressed doubts about the use of the Erlang C Tables. Only Industrial opposed their use, alleging that the assumptions underlying the Erlang C tables do not reasonably apply to a mobile telephone operation.

18. After a review of the comments we have decided to adopt the Erlang C Tables. Our analysis of the available data regarding trunked systems, channel loading and channel use indicates that the Erlang C Tables are the most suitable of those tables available for estimating the grade of service for mobile systems.[12] We note that the sole objector to the use of these tables proposed, as an alternative, solicitations from subscribers to indicate frustration with a system. We cannot rely on such a vague and indefinite concept for our processing standard.

19. *Bouncing Busy Hour.* In the *Further Notice,* we invited comments on whether a fixed busy hour or a bouncing busy hour should be adopted as the basis for projecting traffic in the proposed systems. The bouncing busy hour is the average of the busiest hour on the three days for which traffic loading data is reported. The comments all supported use of the bouncing busy hour. We think this is the best measurement; therefore, we will adopt the bouncing busy hour standard.

20. *Four Channel Limit.* We proposed to limit the number of additional or initial channels which can be granted to an applicant at any one time in any given market to four.[13] We also stated that we would entertain waiver requests of this limitation where the facts and circumstances surrounding a particular application are so unique that the public interest requires a grant of more than four channels.

21. Telocator recommended that the test for waivers be "appropriate circumstances." Jubon recommended adoption of a standard for waiver requests set at the number of channels necessary to achieve a .05 or .10 grade of service. VIP suggested that the number of channels granted to a new applicant be limited to no more than a third of the unused channels in a market.

22. We have carefully considered the proposals in the comments and decline to adopt them. As explained in the *Further Notice,* our procedures for determining expected channel usage are necessarily based on patterns of usage and, where applicable, on the applicant's prior experience. Thus, we can only estimate the usage of the proposed facilities. Although we have confidence in these procedures, as the number of additional or initial channels granted at any one time increases, the projections become less accurate and there is a greater possibility that the reliance on the projections may result in spectrum inefficency. We believe that by limiting the number of additional or initial channels which will be granted at one time to four, we can ensure the provision of the best service to the public while preventing an undue risk of spectrum inefficiency.[14] Thus, we will adopt the four channel limitation as proposed and the test for entertaining waiver requests will be the test enunciated in our *Further Notice,* that is, that the facts and circumstances surrounding a particular application are so unique that the public interest requires a grant of more than four channels.

23. *Trunk groups.* In the *Further Notice,* for purposes of determining loading, we proposed the following definition of a trunk group—a group of channels accessible to all mobile units served by that group. A system was defined as one, and only one, trunk group.

24. In its comments Telocator suggested that the "actual configuration" of the channels in the same band are part of a trunk group. Jubon suggested that the standards should consider the specific trunk group within a band for which application is made for additional facilities.

25. We have decided to adopt the definitions proposed in the *Further Notice.* The use of the interim standards evidences that there are few, if any, problems with these definitions. For the exceptional cases in which mobile unit assignments are not included in the above definition, in addition a traffic loading study tailored to the data measured shall be provided.

26. *Held Orders/Statistical Surveys.* In the *Further Notice* we defined a "held order" as a firm commitment for service. In the case of an application seeking additional frequencies for an existing system, we stated that held orders normally consist of the name of persons on a waiting list for service, or the equivalent. In the case of applications for new frequencies we stated that held orders normally consist of written, signed (but non-binding) requests for service, or the equivalent. We further stated that held orders and subscriber units projected through the use of a valid statistical survey would also be considered as generating traffic in a proposed system. For surveys, we stated applicants would be required to obtain a number of held orders for service from a sample of respondents and then project that need into a larger universe using generally accepted survey techniques.

---

[12] The tables are based on the Erlang C Formula. One source for this formula is "Introduction to Teletraffic Engineering," Ramsee R. Mina, Telephone Publishing Corp., 53 W. Jackson Blvd., Chicago, Illinois 60604. Copies of the tables are available for review at the Mobile Services Division. *See* Public Notice No. 05411, released December 31, 1980. All of the data relied upon for these regulatory proposals were made available for public inspection. Public Notice, Mimeo 31774, released May 20, 1980.

[13] In the *Further Notice,* we clarified our procedure for determining whether an application is for initial channels. An application is for an initial channel if less than (50%) fifty percent of the proposed contour overlaps an existing contour, or if the proposed service area contour includes a major market area not included within the existing contour. *See* Public Notice, Clarification of Existing Policy, Memo 002411, released July 27, 1981. Telocator and Jubon made recommendations concerning this policy. Since this policy was not in issue in the *Further Notice,* we will not entertain recommendations to change it.

[14] We see no merit to VIP's recommendation to limit the number of channels granted to a new applicant to no more than one third of the unused channels in the market. This proposal is contrary to our general policy in favor of new entry in the mobile telephone industry. *See* Specialized Common Carrier Services, 29 FCC 2d 870, 920 (1971), *recon.* 31 FCC 2d 1108 (1979), *aff'd sub. nom.,* Washington Utilities and Transportation Commission v. FCC, 513 F. 2d 1142 (9th Cir. 1975), *cert. denied* 423 U.S. 836 (1975). Land Mobile Channels, 69 FCC 2d 1555 (1978) *affirmed,* Telocator Network of America, 691 F. 2d 525, (D.C. Cir. 1982). Under our proposal a new entrant's application would be granted if it justified up to four channels irrespective of the number of unused channels in a market (assuming, of course, that there were at least four available). VIP's proposal would limit significantly the number of channels granted to a new entrant. We see no justification to limit the channels granted to a new entrant *vis-a-vis* an established carrier.

27. VIP had reservations about the use of held orders and objected to the use of valid statistical surveys to anticipate demand, alleging that the concept of generally accepted survey techniques is vague. It also recommended discounting need showings for new applicants at least 66%. Telocator recommended that a standardized format for evidencing the results of a survey be informally adopted and that carriers should be permitted to rely upon their historical subscriber growth patterns as an additional basis for projecting future traffic loading on their systems.

28. After carefully considering the comments we are adopting the following held order standards. All held orders will be required to consist of written, signed (but non-binding) requests for service, and only written held orders will be considered. Both applicants for new frequencies and applicants for additional frequencies must demonstrate that their requests for service are supported by written held orders. Requiring all applicants to support their requests with written held orders is a consistent and reliable way of determining whether the channels are in fact needed. We believe that Telocator's proposal for informally adopting a standardized format for evidencing survey results has merit, and we will adopt it.[15] This sample form will help eliminate uncertainty for applicants. This is a sample form and it is not required that it be used.[16] Held orders and subscriber units projected through the use of a valid statistical survey will be considered as generating traffic in a proposed system. In conducting surveys, applicants will obtain a number of written held orders for service from a sample of respondents and project this need into a larger universe, using generally accepted survey techniques. This policy is consistent with our practices and is in the public interest. We adopt this approach so as not to prescribe a particular survey technique for applicants. We will not consider an applicant's historical subscriber growth patterns as an additional basis for projecting future demand, because loading information and held orders constitute a more reliable standard and Telocator has not demonstrated that historical subscriber growth patterns are accurate, particularly in this rapidly changing area.

29. The rules we are adopting require an applicant requesting more than one channel for a new system to submit written held orders or projections of need from a valid statistical survey. If an applicant does not submit either, it will be granted only one channel.[17] We see no merit to VIP's recommendation to discount need showings for new applicants at least 66%. See discussion in footnote 14, *supra*. We adopt the proposal in the *Further Notice* to discount held orders for new and for additional channels by 20%, as proposed. This estimate was adopted as reasonable to account for the number of persons submitting held orders who would not actually subscribe.

30. All applicants are required to keep their applications current and maintain the information therein substantially accurate and complete.[18] Pursuant to this requirement, once final action is taken on an application, loading information which has not been previously provided by the applicant will not be considered on reconsideration.[19]

Conclusion

31. The public interest will be served by adoption of objective need standards for two-way frequencies. These standards eliminate uncertainty for applicants, clarify our policies and procedures and facilitate application processing. Moreover, spectrum efficiency will be achieved while providing service to the public in an efficient and expeditious manner. Whatever negative aspects there may be in adopting objective need standards, they are far outweighed by the benefits enumerated here.[20] In addition, in a *Further Notice of Proposed Rulemaking* adopting concurrently with this *Third Report and Order*, we are proposing objective need standards for one-way signaling stations requesting an additional one-way channel.

Regulatory Flexibility Act—Final Analysis

32. *Need for Rules and Objective.* The rules adopt standards for the demonstration of public need for applications requesting more than one new two-way frequency and applications requesting additional frequencies for an existing system. The rules are necessary because they establish clearly defined standards to be followed by applicants, thus lessening regulatory burdens for small entities. The objectives are to streamline, clarify and codify existing regulations and policies and to provide service to the public in the most efficient, expeditious manner possible. Report and record keeping requirements remain the same as those used by applicants before the adoption of these rules.

33. *Issues Raised by the Public in Response to the Initial Analysis.* None.

34. *Alternatives that would lessen impact.* As we stated in the *Further Notice* at paragraphs 26 and 27, we considered the alternative of exempting small businesses from these requirements. However, we determined that this approach would not lessen economic impact on small entities.

35. Authority for this rulemaking is contained in Section 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(r), and Section 553 of the Administrative Procedure Act, 5 U.S.C. 553.

36. Accordingly, IT IS ORDERED, That Part 22 of the Commission's Rules and Regulations is amended as specified in Appendix A, effective February 16, 1983,[21] except for the held order requirement for applications requesting additional channels which will become effective 30 days after publication of this document in the **Federal Register.**

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

William J. Tricarico,
Secretary.

Appendix A

PART 22—[AMENDED]

47 CFR Part 22 is revised as follows:

1. A new § 22.16 is added to read as follows:

§ 22.16 Objective Need standards.

(a) Applications for additional channels on an existing two-way

---

[15] *See* Appendix B.

[16] We have considered the Paperwork Reduction Act of 1980, P.L. 96-511 and concluded that is does not apply. We are not requiring additional or new record keeping or reporting requirements. The form we are recommending and the procedures being adopted facilitate, clarify and expedite the fulfillment of information requirements applicants currently must meet.

[17] Second Report and Order, Docket 20870, FCC 82-207, 89 FCC 2d 1199 (1982). (Elimination of need showings for one initial two way channel).

[18] Sections 1.65 and 22.13(a)(5) of the Rules, 47 CFR 1.65 and 22.13.

[19] When an applicant does not demonstrate need for all the channels requested, the application will be broken down into two separate applications; we will grant the portion requesting channels for which need has been shown and the other portion will be returned as unacceptable for filing. Our action granting channels will not be a grant in part.

[20] As an editorial matter, we have used the more common term "paging" in place of "one-way signaling" in Appendix A. We have also included standards for tone-optical readout paging units, which did not appear in the interim rule.

[21] Objective need standards for two-way service have been in effect on an interim basis since June 1, 1981. Under Section 553(d)(1) and (d)(3) of the Administrative Procedure Act, 5 U.S.C. 553(d)(1) and (d)(3), there is no need for publication or service prior to the effective date of this action.

system, up to a maximum of four channels, will be granted as follows:

(1) If the application shows that the existing system's present grade of service is 0.25 or greater or that the existing grade of service is 0.20 or greater with a projected grade of service of 0.25 or greater, the minimum number of channels necessary to reduce that level below 0.25 will be granted.

(2) Procedures to determine grade of service:

(i) If the existing system serves both one-way signaling (paging) units and two-way units, separate Section 22.516 occupied time data shall be submitted for each, for the same days and hours. Data for tone-only paging units need not be separated from data for tone-voice or tone-optical readout paging units unless the applicant anticipates that the ratio among tone-only, tone-voice and tone-optical readout paging units in the proposed system will be significantly different from the ratio in the existing system. Absent such a situation, it will be presumed that the ratios of the types of units in the existing and proposed systems will be approximately the same.

(ii) For each Section 22.516 submission, the bouncing busy-hour occupied time of a system shown by the Section 22.516 study shall be divided by the number of units in the system to derive a basic reckoning factor for projecting traffic in a proposed system. This reckoning factor shall be in minutes per unit (MPU), *i.e.*, the time a system is on the air during the busy hour divided by the number of units presently authorized to use that system.

(iii) A unit shall be considered as generating traffic in a proposed system if it falls into one of three categories,

(A)Present subscriber units,

(B) Subscriber units for which there are written held orders, and

(C) Subscriber units projected through the use of a valid statistical survey. Applicants shall obtain a number of written held orders for service from a sample of respondents and then project that need onto a larger universe, using generally accepted survey techniques.

(iv) The number of units included in paragraph (iii)(B) and (C) of this section shall be discounted by 20%.

(v) The MPU shall be multiplied by the total of the units included in paragraph (iii) of this section, as discounted, and divided by 60 to estimate, in Erlangs, the expected traffic in the proposed system.

(vi) If the existing system does not provide service to the same type of units as the proposed system, it will not be feasible to determine the estimated MPU for all types of units from loading measurements. In these situations,

(A) The number of units in the proposed system which are of the same type as in the existing system shall be multiplied by the MPU derived from loading measurements in the existing system; and

(B) The number of units in the proposed system which are not of the same type as in the existing system shall be multiplied by presumed MPU's shown in paragraph (b) (3) of this section.

(C) If there are units of each category in the proposed system, the calculated occupied times found for each by this method shall be added to show the total occupied time.

(vii) Referring to the Erlang C Table, the expected grade of service level shall be calculated for each proposed system. A determination of the number of channels authorized will be based on the grade of service so calculated.

(b) Applications for more than one channel on a new two-way system, up to maximum of four channels, will be granted as follows:

(1) The minimum number of channels necessary for the expected grade of service level to be less than 0.25 will be granted.

(2) If the proposed service area and type of service are not substantially the same as those existing, the channels requested will be treated as new rather than as additional channels. Applications are considered to be requesting initial channels if less than 50% of the proposed reliable service area contour overlaps an existing contour, or if the proposed service area contour includes a major market area not included within the existing contour.

(3) Procedures to determine expected grade of service:

(i) Applicants shall submit data on the number of units expected to receive service. Units shall be considered only if the applicant has written held orders for them or if they are projected from a valid statistical survey. The units shall be broken down by two-way, tone-only paging, tone-voice paging and tone-optical readout paging.

(ii) Each two-way unit identified in paragraph (i) of this section will be presumed to generate 0.9 MPU of traffic.

(iii) Each tone-only paging unit will be presumed to generate 0.0417 MPU of traffic. This is based on the assumption that each unit will generate 0.5 five-second calls during the busy hour. If the applicant intends to provide tone-only paging on a subaudible basis only, the application should so state.

(iv) Each tone-voice paging unit will be presumed to generate 0.167 MPU of traffic. This is based on the assumption that each unit will generate 0.5 twenty-second calls during the busy hour.

(v) Each tone-digital readout paging unit will be presumed to generate 0.0033 MPU of traffic. This is based on the assumption that each unit will generate 0.5 four-tenths-second calls during the busy hour. (Note: This figure is based on limited usage and is subject to later reexamination.)

(vi) The traffic expected to be generated in the system shall be calculated, in Erlangs, by summing the MPU's discussed in paragraphs (3) (ii), (iii), (iv) and (v) of this section, discounting the sum by 20% and then dividing by 60.

(vii) Referring to the Erlang C Table, the expected grade of service levels shall be calculated for each proposed system. A determination of the number of channels authorized will be based on the grade of service so calculated.

(c) [Reserve]

(d) Applications which do not satisfy these standards will be dismissed and returned as unacceptable for filing pursuant to § 22.20.

Appendix B

Standard Survey Format

———— is in the process of seeking approval from the FCC and the ———— to furnish ———— service. If approved, we expect to be able to offer this service by ————.

We would appreciate it if you would take the time to consider your need for ———— service and to complete the application below. This application is not binding on your part and is subject to our receiving approvals from the appropriate regulatory agencies. This application is a means by which we can determine the need for a ———— service. If we do receive authorization to provide ———— service, you would be contacted to determine if you still desire to subscribe to this service.

Please return the completed application in the enclosed envelope or drop it off at our office ————. We would appreciate receiving the application no later than ————. If you are not interested in the ———— service, there is no need to return the application.

Thank you.

Concurring Statement of Commissioner Mimi Weyforth Dawson re: Public Policies and Procedures for the Domestic Public Land Mobile Radio Service

This decision establishes objective need standards for applications requesting more than one initial two-way channel and applications requesting additional two-way channels for existing systems in the Domestic Public Land Mobile Radio Service (DPLMRS). Applications for additional channels up to a maximum of four will be granted when the application shows that the existing system's present grade of service is 0.25 or greater or that the existing grade of service is 0.20 or greater with a projected grade of service of 0.25 or greater. To demonstrate the requisite projected grade of service, applicants must obtain a number of written held orders for service from a sample of respondents and project this need into a larger universe, using generally accepted survey techniques. Additionally, the "bouncing busy hour" must be employed as the basis for projecting traffic, where the bouncing busy hour is the average of the busiest hour on the three days for which traffic loading data are reported.

The Commission's driving concern in adopting objective need standards is to promote efficient use of limited spectrum by thwarting the potential for frequency warehousing. Unfortunately, this regulatory reform, while taking an important step in the right direction, does not fully reflect the dynamics of the marketplace. In truth, mobile communications service represents one of the most competitive communications services offered to consumers.

In analyzing the potential for warehousing, the Commission cannot limit the scope of its analysis to DPLMRS but must include such services as private mobile systems and cellular radio. If this broader view is taken, it becomes clear that the incentive and ability of DPLMRS licensees to warehouse spectrum will prove to be the very rare exception, rather than the rule. In this setting, the efficacy of making arbitrary determinations concerning the requisite grade of service during the "bouncing busy hour" in order to grant applications takes on a diminished attraction compared to a system that presumes a general public need for all mobile services, irrespective of the projections of various applicants. Of course, such a finding would be fully consistent with Commission precedent in this area. See *e.g., Land Mobile Use of 806–960 MHz Band*, 14 FCC 2d 311 (1968).

I believe the Commission should impose regulation only where it can be shown that marketplace forces will not maximize consumer welfare. In the present situation, no case has been made to warrant what amounts to preventive and arbitrary regulation. The potential problems of monopolization of service and warehousing of frequencies can be dealt with directly if and when they actually do occur. Therefore, while I applaud the majority's intent, I can only concur with the methodology employed to achieve that intention.

47 CFR Part 73

[BC Docket No. 82-598; RM-4157]

Radio Broadcast Services; TV Broadcast Station in Lake Dallas, Texas; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns UHF Television Channel 55 to Lake Dallas, Texas, in response to a petition filed by the McLenden Company. The assignment could provide Lake Dallas with its first local television service.

EFFECTIVE DATE: April 12, 1983.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Arthur D. Scrutchins, Mass Media Bureau (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

Adopted: January 26, 1983.

Released: February 11, 1983.

In the matter of an amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Lake Dallas, Texas); BC Docket No. 82–598, RM–4157; report and order (Proceeding Terminated).

1. The Commission herein considers the Notice of Proposed Rule Making, 47 FR 40458, published September 14, 1982, proposing the assignment of UHF Television Channel 55 to Lake Dallas, Texas, as the community's first television assignment. Supporting comments were filed by the petitioner, reaffirming his intention to apply for the channel, if assigned. No oppositions to the proposal were received.

2. Lake Dallas (pop. 3,177)[1] is located in northeastern Texas in Denton County (pop. 143,126) approximately 25 miles northwest of Dallas, Texas. It had no local television broadcast service.

3. We believe that the public interest would be served by assigning UHF Television Channel 55 to Lake Dallas, Texas. The petitioner has adequately demonstrated the need for a first television allocation to that community. The assignment can be made in compliance with the minimum distance separation requirements and other technical criteria.

4. Accordingly, pursuant to the authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b), and 0.283 of the Commission's Rules. It is ordered, That effective April 12, 1983, § 73.606(b) of the Commission's Rules is amended with respect to the following community:

City	Channel No.
Lake Dallas, Tex.	55

5. It is further ordered, That this proceeding is terminated.

6. For further information concerning this proceeding, contact Arthur D. Scrutchins, Mass Media Bureau, (202) 634–6530.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

47 CFR Part 95

Personal Radio Service; Editorial Amendment of the Commission's Rules To Eliminate Obsolete Rule Provisions

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document editorially

[1] Population data is obtained from the 1980 U.S. Census, Advance Reports.

amends the Technical Regulations that apply to the Personal Radio Services. The amendment is necessary in order to eliminate rule provisions which have become obsolete with the passage of time. With the amendment, users of these rules will not be confused by provisions and dates that are no longer relevant.

EFFECTIVE DATE: March 25, 1983.

FOR FURTHER INFORMATION CONTACT: Maurice J. DePont, Private Radio Bureau, Washington, D.C. 20554 (202) 632–4964.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 95

Communications equipment, Radio.

In the Matter of an Editorial Amendment of 47 CFR Part 95, Subpart E, Technical Regulations, Personal Radio Services; Order

Adopted: February 3, 1983.

Released: February 10, 1983.

1. Part 95, Subpart E, contains the Technical Regulations that apply to the Personal Radio Services. This Order eliminates rule provisions which have become obsolete due to the passage of time.

2. Since this amendment is editorial, and, therefore, non-substantive in nature, the notice and public procedure provisions of section 553(b) of the Administrative Procedure Act are not applicable.

3. Authority for this action is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and §0.231(d) of the Commission's Rules.

4. Accordingly, it is ordered, That 47 CFR Part 95, Subpart E, Technical Regualtions, Personal Radio Services, is amended as set forth in the attached Appendix.

5. The effective date of this rule amendment is March 25, 1983.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Edward J. Minkel

Managing Director.

BILLING CODE 6712–01–M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1249

[No. 38858]

Revision to the Annual Report of Motor Carriers of Household Goods, Form M–H

AGENCY: Interstate Commerce Commission.

ACTION: Final rule; correction notice.

SUMMARY: On December 16, 1982 the Commission served the final rule in this proceeding (47 FR 56359). This final rule reduced the reporting burden imposed upon class I and II motor carriers of household goods by eliminating fourteen schedules in the 1982 Annual Report Form M–H. It also eliminated the Annual Report Supplement on Corporate Disclosure.

Appendix A of the final rule listed Schedule 800—Compensation of Officers, Directors, etc. as one of the schedules eliminated. This was an error because there is no Schedule 800 in Annual Report Form M–H. The schedule eliminated was Schedule 801 B—Compensation of Officers, Directors, etc. This Notice is issued to correct Appendix A.

FOR FURTHER INFORMATION CONTACT: Charles S. Thomason (202) 275–7448.

Proposed Rules

Federal Register
Vol. 48, No. 39
Friday, February 25, 1983

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Parts 210, 225, and 226

Child Nutrition Labeling Program

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Food and Nutrition Service (FNS) of the Department of Agriculture (USDA) proposes to establish an Appendix C to the regulations for each of the following programs: The National School Lunch Program, the Summer Food Service Program for Children, and the Child Care Food Program to establish a CN labeling program. The Department is issuing this appendix to formalize an existing voluntary technical assistance program which has operated without benefit of public scrutiny and which has grown over the past few years. This proposal will formally establish a Child Nutrition (CN) Labeling Program, authorize the Secretary to issue guidance material on the CN Labeling Program, establish a logo or a distinct border which encloses a label statement, establish a warranty against audit claims for products that are CN labeled, and establish product eligibility.

DATE: Comments must be postmarked by midnight on or before April 26, 1983.

ADDRESS: Comments may be mailed to Cynthia H. Ford, Branch Chief, Technical Assistance Branch, Nutrition and Technical Services Division, Food and Nutrition Service, USDA. Alexandria, Virginia 22302. Comments will be received and may be inspected at Room 602, Nutrition and Technical Services Division, Park Office Center Building, 3101 Park Center Drive, Alexandria, Virginia, during regular business hours (8:30 a.m. to 5:00 p.m., Monday through Friday.)

FOR FURTHER INFORMATION CONTACT: Kathy Molino or Chris Clay (703) 756–3556.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under Executive Order 12291 and has been classified nonmajor because it does not meet any of the three criteria of the Executive Order. It will not have an annual effect on the economy of $100 million, will not cause a major increase in costs or prices, and will not have a significant impact on competition, employment, investment, productivity, innovation or on the ability of U.S. enterprises to compete. The CN Labeling Program has been in existence since the early 1970's and is currently administered by the Food and Nutrition Service (FNS) in conjunction with the Food Safety and Inspection Service (FSIS) and the Agricultural Marketing Service (AMS) of the United States Department of Agriculture, and the Bureau of Marine Fisheries, of the United States Department of Commerce (USDC). The application procedures were established under existing FSIS, USDC, and Food and Drug Administration (FDA) labeling requirements. Final labeling authority remains with these agencies. Additionally, the CN Labeling Program will remain a voluntary technical assistance program. This proposal merely establishes authorization in program regulations. The logo or warranty cannot be used until thirty days after a final rule is published. Manufacturers who now have CN labels need to resubmit their labels within one year after the rule becomes final if they wish to remain in the Program.

The proposal has also been reviewed with regard to the provisions of Pub. L. 96–354. Robert E. Leard, Acting Administrator of the Food and Nutrition Service, has certified that the proposal does not have a significant economic impact on a substantial number of small entities.

Reporting and recordkeeping requirements contained in this rule will not become effective until approved by the Office of Management and Budget under the Paperwork Reduction Act.

Background

During the 1970's changes and expansion in food technology and marketing increased the availability and use of commercially prepared products such as beef patties and combination items (burritos, pizzas, etc.) in the child nutrition programs. These products posed a problem for food service directors. It was difficult at the point of sale to determine their actual contribution toward meal pattern requirements and to assure compliance with Federal regulations for serving specific amounts of foods. This fact, coupled with the anticipation of increased sales of these products to child nutrition programs, prompted FNS to form an evaluation committee to determine a means for properly evaluating the contribution of these kinds of products toward the meal pattern requirements. The Committee, composed of FNS and USDA's FSIS staff, worked together to recommend, design, and implement a program to review and monitor such products. To participate in the program, industry submits labels to FNS of products that are in conformance with the FSIS label approval program for meat and poultry, USDC label approval program for seafood products, and AMS product approval for juice drinks and juice drink products. Additionally, cheese pizzas and a few miscellaneous items such as egg products and meat sandwiches are currently being labeled by FNS.

Essentially, the CN Labeling Program involves the review of a manufacturer's recipe or product formulation to determine the contribution a serving of the product makes toward meal pattern requirements and a review of the CN label statement to ensure its accuracy. There is *no Federal requirement* that commercially prepared combination products have CN label statements. The decision to require that a product have a CN label statement is left to the local school food authority.

The program has come to play a significant role in the food service management of child nutrition programs. The scope and use of products labeled under the CN Labeling Program have continually expanded. Requests for CN labels by food manufacturers and food service directors have escalated due to: (1) Increased emphasis on meal pattern compliance as related to Assessments, Improvement, and Monitoring System (AIMS) regulations, (2) increased use of commercially prepared products, (3) the requirement by a few States that applicable processed donated food products bear a CN label statement, and (4) increased use of the CN label as a requirement in purchasing specifications prepared by local school food authorities. In addition, support for the

use of CN label statements has come from the Inspector General, food trade associations, the National Committee on Meal Pattern Monitoring, and the National Advisory Council on Child Nutrition. These groups believe that a broad CN Labeling Program could help assure compliance with meal pattern requirements and alleviate the need for product testing for meal pattern requirements compliance at the State and local level.

Since the inception of the program, the labeling procedures employed by FNS have evolved on a case-by-case basis to meet new situations. Thus, to date, the CN Labeling Program is administered by FNS without formal program regulations. Operational policies, procedures, and instructions will continue to be issued by the Department as guidance material as is presently done.

Issues addressed: The following is a discussion of pertinent issues and how the Department is proposing to address them in this proposed rule.

1. *CN Logo* The Department is proposing to require companies to use a CN statement logo or distinctive border as part of the CN label statement approval. The logo will help to protect the integrity of the CN Labeling Program, to avoid possible abuse, and to make the CN label statement easy to identify.

2. *Warranty.* The Department proposes that a school or institution which purchases a CN labeled product in good faith and uses it according to the manufacturer's directions will not have audit claims placed against it for that portion of the meal supplied by the CN labeled product. To make this effective, a CN labeled product will be produced under an appropriate Federal inspection program. Yields for determining product contributions as stated in the CN label statement will be calculated using the *Food Buying Guide for School Food Service* (Program Aid number 1257).

If a State or Federal auditor finds that a product that is CN labeled does not actually meet the meal pattern requirements claimed on the label, the auditor will report this to FNS for appropriate action against the company.

3. *Products Eligible for CN Labeling.* The Department proposes to limit the use of the CN label statement to food products that contribute significantly to the meat/meat alternate component of the meal pattern and are served in the main dish. Therefore, we are proposing that juice drinks and juice drink products no longer be eligible for CN label approval. Child nutrition labels will be issued for these products (that would no longer be eligible for CN labels) until the end of the phase out time period. Industry will have 1 year from the date of the final rule publication to comply and may use existing labels until that time. Comments are specifically requested on discontinuing CN labeling of juice drinks and juice drink products.

List of Subjects

7 CFR Part 210

Food assistance programs, National School Lunch Program, Grant programs—social programs, Nutrition, Children, Reporting and recordkeeping requirements, Surplus agricultural commodities.

7 CFR Part 225

Food assistance programs, Grant programs—health, Infants and children, Reporting requirements.

7 CFR Part 226

Day care, Food assistance programs, Grant programs—health, Infants and children, Surplus agricultural commodities.

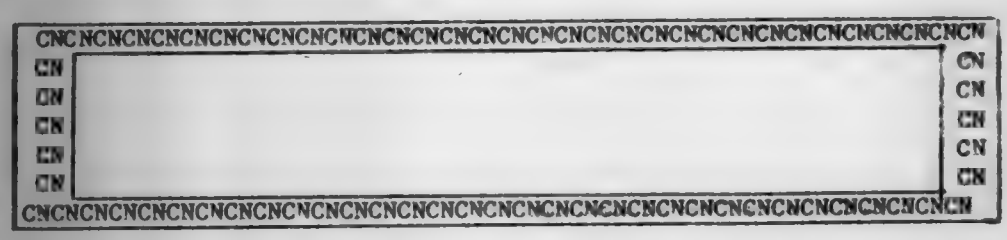
Accordingly, a new Appendix C, Child Nutrition (CN) Labeling Program, is proposed to be added to 7 CFR Parts 210, 225 and 226. For Parts 225 and 226 we are reserving Appendix B. Appendix C should read as follows:

Appendix C—Child Nutrition (CN) Labeling Program

1. The Child Nutrition (CN) Labeling Program is a voluntary technical assistance program administered by the Food and Nutrition Service (FNS) in conjunction with the Food Safety and Inspection Service (FSIS), Agricultural Marketing Service (AMS), and Bureau of Marine Fisheries for the child nutrition programs. This program essentially involves review of a manufacturer's recipe or product formulation to determine the contribution a serving of a meat/meat alternate product makes toward meal pattern requirements and review of the CN label statement to ensure its accuracy. In addition, the product must be produced under an approved quality control program.

2. For the purpose of this regulation the term:

(A) The "CN logo" (as shown below) means a distinct border which is used around the edges of a statement of the contribution a defined portion of a meat/meat alternate product makes toward meal pattern requirements of 7 CFR 210.10, 225.21 and 226.20.



(B) The "CN label statement" includes the following:

(1) The CN logo (as defined in paragraph (A) above)

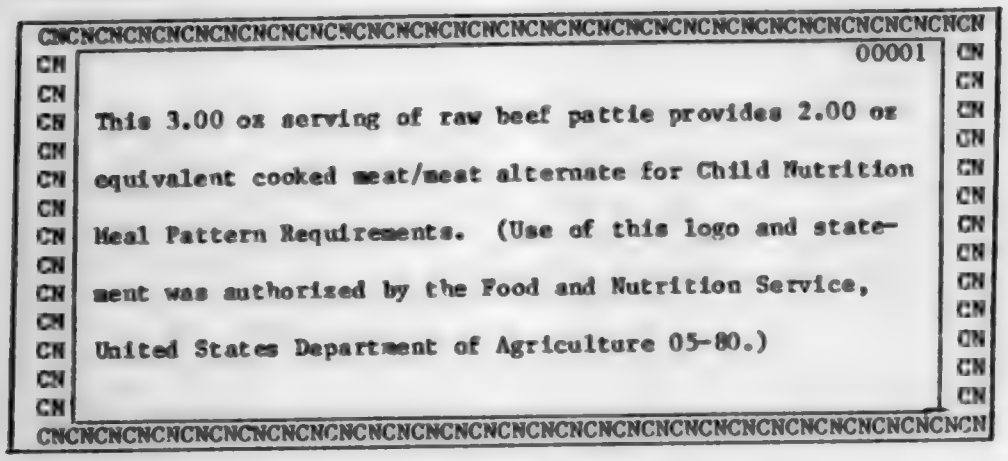
(2) The product identification number (assigned by FNS)

(3) The statement of the meat/meat alternate product's contribution to child nutrition program meal pattern requirements

(4) Statement specifying that the use of the logo and CN statement was authorized by the Food and Nutrition Service, and

(5) The approval date.

For Example:



(C) "CN label" means a food product label that contains a CN label statement.

3. Food processors or manufacturers may use the CN logo as defined in paragraph 2(A), under the following conditions:

(A) The CN label must be reviewed and approved at the national level by the Food and Nutrition Service (FNS) and appropriate agency responsible for the inspection program.

(B) The CN label statement must be printed as an integral part of the product label along with the product name, the percent ingredient listing, the inspection shield or mark for the appropriate inspection program, the establishment number where appropriate, and the manufacturer's or distributor's name and address.

(C) The statement inside the logo identifies the contribution to the meal pattern requirements for the meat/meat alternate, bread/bread alternate, and/or vegetable/fruit as contained in a specified portion of a meat/meat alternate product.

4. In the event a company uses the CN logo inappropriately, the company will be requested to discontinue the use of the logo and the matter will be referred to the appropriate agency for action to be taken against the company.

5. Products that bear a CN label statement as described in this document carry a warranty. This means that if a food authority participating in the child nutrition programs purchases a CN labeled product and uses it in accordance with the manufacturer's directions, the school or institution will not have an audit claim filed against it for the CN labeled product for non-compliance with the meal pattern requirements. If a State or Federal auditor finds that a product that is CN labeled does not actually meet the meal pattern requirements claimed on the label, the auditor will report this finding to FNS. FNS will prepare a report on the findings and send it to the appropriate divisions of FSIS, AMS, Bureau of Marine Fisheries of the U.S. Department of Commerce, Food and Drug Administration, or the Department of Justice for action against the company.

Any or all of the following courses of action may be taken:

(A) The company's CN label may be revoked for a specific period of time;

(B) The appropriate agency may pursue a misbranding or mislabeling action against the company producing the product;

(C) The company's name will be circulated to regional FNS offices; and

(D) FNS will require the food service program involved to notify the State office of the labeling violation.

6. The Food and Nutrition Service is authorized to issue operational policies, procedures, and instructions for the CN Labeling Program.

To apply for a CN label and to secure additional information on CN label application procedures write to: CN labels, U.S. Department of Agriculture, Food and Nutrition Service, Nutrition and Technical Services Division, 3101 Park Center Drive, Alexandria, Virginia 22302.

BILLING CODE 3410-30-M

Rural Electrification Administration

7 CFR Part 1701

Public Information; Appendix A—REA Bulletins; REA Specification for Filled Telephone Cable With Expanded Insulation, PE-89

AGENCY: Rural Electrification Administration, USDA.

ACTION: Proposed rule.

SUMMARY: REA proposes to amend Appendix A—REA Bulletins by issuing a revision of REA Bulletin 345-89, REA Specification for Filled Telephone Cable with Expanded Insulation, PE-89. This revision will permit the use of 19 AWG conductor sizes and cables of less than 200 pair. The current REA Specification PE-89 limits the pair size and conductor gauge of filled cable with expanded insulation that can be manufactured by cable suppliers and installed by REA borrowers. These limitations were placed on this cable because this design was a radical departure from existing REA practices and we wished to control its initial installation until further field studies had been performed indicating satisfactory performance at no sacrifice in quality. These field studies have been completed indicating that filled cables with expanded insulation in 19 AWG conductor sizes and pair sizes below 200 pairs have provided satisfactory field service without a sacrifice in quality.

DATE: Public comments must be received by REA no later than April 26, 1983.

ADDRESS: Submit written comments to Joseph M. Flanigan, Director, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: Harry M. Hutson, Chief, Outside Plant Branch, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 1342, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 382-8667. The Draft Impact Analysis describing the options considered in developing this proposed rule and the impact of implementing each option is available on request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to amend Appendix A—REA Bulletins by issuing a revised REA Bulletin 345-89, REA Specification for Filled Telephone Cable with Expanded Insulation, PE-89. This proposed action has been reviewed in accordance with Executive Order 12291, Federal Regulation. The action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) result in significant adverse effects on competition, employment, investment or productivity and therefore has been determined to be "not major". This action does not fall within the scope of the Regulatory Flexibility Act and is not subject to OMB Circular A-95 review.

This program is listed in the Catalog of Federal Domestic Assistance as 10.851, Rural Telephone Loans and Loan Guarantees.

A copy of the proposed revised specification is available upon request from the address indicated above. All written submissions made pursuant to this action will be made available for public inspection during regular business hours, above address.

Background

The current REA Specification PE–89 limits the pair size and conductor gauge of filled cable with expanded insulation that can be manufactured by cable suppliers and installed by REA borrowers. These limitations were placed on this cable because this design was a radical departure from existing REA practices and we wished to control its initial installation until further field studies had been performed indicating satisfactory performance at no sacrifice in quality. These field studies have been completed indicating that filled cables with expanded insulation in 19 AWG conductor sizes and pair sizes below 200 pairs have provided satisfactory field service without a sacrifice in quality.

This action will establish REA requirements for filled cables with expanded insulation using the proposed stated options without affecting the current designs or manufacturing techniques of cable manufacturers. This action will also affect REA borrowers in that they will be able to install a full range of filled telephone cable with expanded insulation at reduced cable cost without degradation in cable quality. It will affect petroleum producers in that it will decrease the consumption of petroleum in telephone cables.

In view of the above, the Administrator is proposing to issue revised REA Bulletin 345–89, REA Specification for Filled Telephone Cable with Expanded Insulation, PE–89.

As required by 1 CFR 18.20, the following are the indexed terms and list of subjects for this regulation:

List of Subjects in 7 CFR Part 1701

Loan programs—Communications, Telcommunications, Telephone.

BILLING CODE 3410–15–M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 40

[Docket No. PRM–40–24]

Union Carbide Corp.; Petition for Rulemaking; Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Petition for rulemaking: Extension of comment period.

SUMMARY: On November 30, 1982, the NRC published a notice of receipt of a petition for rulemaking filed by the Union Carbide Corporation (47 FR 53889). The petition requested that the NRC amend portions of its regulations setting out criteria for the operation of uranium mills and the disposition of tailings or wastes resulting from uranium milling activities. The notice of receipt requested public comment on the petition and established a comment closing date of January 31, 1983. Several interested parties have requested that NRC extend the comment period on PRM–40–24 for varying lengths of time. Because of the length and complexity of the petition, NRC has agreed to extend the comment period for 90 days from the original comment closing date.

DATE: The comment period for PRM–40–24 is extended from January 31, 1983 to May 2, 1983.

ADDRESSES: A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

All persons who desire to submit written comments concerning the petition for rulemaking should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT: John Philips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301–492–7086 or Toll Free: 800–368–5642.

Dated at Washington, D.C., this 17th day of February 1983.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590–01–M

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 543

[No. 83–94]

Amendments Relating to Grandfathering of State Authority by Institutions Converting to Federal Charters

AGENCY: Federal Home Loan Bank Board.

ACTION: Extension of comment period on proposed rule.

SUMMARY: The Board extends until March 10, 1983, the closing date of the comment period on the Board's proposal relating to the grandfathering of rights enjoyed as state mutual savings banks by institutions converting to federal charter.

In order to have the benefit of additional submissions from interested parties in its consideration of this matter, the Board has determined to extend the comment period.

DATE: Comment period extended to March 10, 1983.

FOR FURTHER INFORMATION CONTACT: Randall H. McFarlane, Legislative Counsel, Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, D.C. 20552, (202) 377–6449.

SUPPLEMENTARY INFORMATION: On December 8, 1982, the Board, by Resolution No. 82–792 (47 FR 56363, December 16, 1982) proposed to issue a new regulation applicable to the grandfathering of rights enjoyed as state mutual savings banks by institutions converting to federal charter, whether those institutions retain their Federal Deposit Insurance Corporation insurance coverage or obtain insurance coverage from the Federal Savings and Loan Insurance Corporation. Comments on the proposals originally were due by January 17, 1983, which was shorter than the Board's customary 60-day comment period. Because it appears that the statutory authority underlying the grandfathering proposal will be an important factor in many conversions currently under consideration in the industry, and in order to have the benefit of additional submissions from interested parties in its consideration of this matter, the Board has determined to

extend the comment period until March 10, 1983.

(Sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); Reorg. Plan No. 3 of 1547; 3 CFR 1943–1948 Comp., p. 1071)

Dated: February 18, 1983.

By the Federal Home Loan Bank Board.

J. J. Finn,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Parts 271 and 274

[Docket Nos. RM80-50-003, RM80-50-004, and RM80-50-005]

High-Cost Natural Gas; Production Enhancement Procedures; Extension of Time Comments

February 22, 1983.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Request for Additional Comments; extension of comments period.

SUMMARY: On January 21, 1983, the Commission issued a Notice of Request for Additional Comments on issues raised by petitions for rehearing of Order No. 107 (48 FR 4800, February 3, 1983). Order No. 107 is a final rule establishing an incentive maximum lawful price under section 107 of the Natural Gas Policy Act of 1978 for natural gas subject to existing intrastate contracts (section 105) on which production enhancement work has been performed. The Commission requested additional comments on whether Order No. 107 should be expanded to apply to interstate natural gas (section 104) or rollover contracts (section 106). The comments period is being extended at the request of Sun Exploration and Production Company and various producers of natural gas.

DATE: Comments must be submitted on or before April 6, 1983.

ADDRESS: Submit comments to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Kenneth F. Plumb, Secretary, (202) 357–8400.

SUPPLEMENTARY INFORMATION:

February 22, 1983.

In the matter of High-Cost Natural Gas: Production Enhancement Procedures; Docket Nos. RM80-50-003, RM80-50-004, and RM80-50-005; Extension of Time.

On February 4, 1983, Sun Exploration and Production Company, on behalf of various producers of natural gas (Producers), filed a motion for an extension of time to file comments in response to the Commission's Notice of Request for Additional Comments issued January 21, 1983, in the above-docketed proceeding. The motion states that the Producers require additional time in order to evaluate relevant technical data and to provide meaningful response to the Commission's Notice.

Upon consideration, notice is hereby given that an extension of time for the filing of comments is granted to and including April 6, 1983.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 182 and 184

[Docket No. 79N-0371]

Lactic Acid and Calcium Lactate; Affirmation of GRAS Status as Direct Human Food Ingredients

AGENCY: Food and Drug Administration.

ACTION: Tentative final rule.

SUMMARY: The Food and Drug Administration (FDA) is tentatively affirming that lactic acid and calcium lactate are generally recognized as safe (GRAS) as direct human food ingredients. The safety of these ingredients has been evaluated under the comprehensive safety review conducted by the agency. FDA is publishing this document as a tentative final rule because the agency is not including the levels of use of food categories that appeared in the proposal.

DATE: Comments by April 26, 1983.

ADDRESS: Written comments may be sent to the Docket Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Leonard C. Gosule, Bureau of Foods (HFF–335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204; 202–426–9463.

SUPPLEMENTARY INFORMATION: In the Federal Register of May 16, 1980 (45 FR 32324), FDA published a proposal to affirm that lactic acid and calcium lactate are GRAS for use as direct human food ingredients. The proposal was published in accordance with the announced FDA review of the safety of GRAS and prior-sanctioned food ingredients.

In accordance with § 170.35 (21 CFR 170.35), copies of the scientific literature review on lactic acid and of the report of the Select Committee on GRAS Substances (the Select Committee) on lactic acid and calcium lactate are available for public review in the Dockets Management Branch (address above). Copies of these documents have also been made available for public purchase from the National Technical Information Service, as announced in the proposal.

In addition to proposing to affirm the GRAS status of lactice acid and calcium lactate, FDA gave public notice that it was unaware of any prior-sanctioned food ingredient use for these substances, other than for the proposed conditions of use. Persons asserting additional or extended uses, in accordance with approval granted by the U.S. Department of Agriculture or FDA before September 6, 1958, were given notice to submit proof of those sanctions, so that the safety of the prior-sanctioned uses could be determined. That notice was also an opportunity to have prior-sanctioned uses of lactic acid and calcium lactate recognized by issuance of an appropriate regulation under Part 181—Prior-Sanctioned Food Ingredients (21 CFR Part 181) or affirmed as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

FDA also gave notice that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert the sanction at any future time.

No reports of a prior-sanctioned use for lactic acid or calcium lactate were submitted in response to the proposal. Therefore, in accordance with that proposal, any right to assert a prior sanction for a use of lactic acid or calcium lactate under conditions different from those set forth in this regulation has been waived.

Eleven comments were received in response to the proposal on lactic acid and calcium lactate.

1. Two comments noted that the proposal addressed only lactic acid produced by fermentation and not the synthetic material. One comment said synthetic lactic acid is a major source of lactic acid added to foods and is preferred for certain uses because of better heated stability properties. The

other comment described a synthetic procedure for producing lactic acid using acetaldehyde and hydrogen cyanide and suggested that this procedure be included in the final rule.

FDA has carefully reviewed the synthetic procedure described in this comment and is aware of no health hazard that might arise from the use of lactic acid synthesized by this procedure, provided the product meets the specifications established in the regulation. Therefore, the agency has modified the description of lactic acid (§ 184.1061(a)) to include lactic acid synthesized by the reaction of acetonitrile, and hydrogen cyanide, with subsequent hydrolysis of the resultant lactonitrile.

2. One comment noted that the specifications for lactic acid found in the Food Chemicals Codex, 2d Ed. (1972), and cited in paragraph (b) of the proposed regulation, have been amended in the Food Chemicals Codex, 3d Suppl. (1978).

Although the comment was correct at the time it was made, a third edition of the Food Chemicals Codex was published in 1981. The latest edition incorporates the change made in the 1978 supplement, and the regulation now refers to the 1981 edition.

3. One comment asked that proposed § 184.1207(a) be modified to include use of calcium hydroxide as well as calcium carbonate in the production of calcium lactate.

FDA is aware of no health hazard that might arise from the use of calcium hydroxide in the production of calcium lactate. Therefore, the agency has modified the tentative final rule to include use of either calcium carbonate or calcium hydroxide for this purpose.

4. Ten comments reported use of lactic acid or calcium lactate in food categories or at use levels that were not included in the proposed rule and requested that FDA include these conditions of use in the final rule.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA stated that it no longer intends to list routinely food categories, technical effects, and levels of use for ingredients that are affirmed as GRAS with no limitation other than current good manufacturing practice. The agency proposed to amend 21 CFR 184.1 and 186.1 to state that FDA will include conditions of use in regulations only when the agency determines that it is appropriate to do so. Consistent with this proposal and in response to the comments that FDA received on lactic acid and calcium lactate, the agency has tentatively concluded that it is not necessary to list food categories and levels of use in the GRAS regulations for these ingredients. Lactic acid and calcium lactate are both used in a large number of food categories, and both the Federation of American Societies for Experimental Biology and FDA have concluded that a large margin of safety exists for the use of these substances, and that a reasonably foreseeable increase in the level of use of these substances will not adversely affect human health. Therefore, the agency has decided to affirm tentatively the GRAS status of lactic acid and calcium lactate when they are used under current good manufacturing practice conditions of use in accordance with § 184.1(b)(1). To make clear, however, that the tentative affirmation of the GRAS status of these substances is based on evaluation of their currently known uses, the regulations set forth the technical effects that FDA evaluated.
